25. The problem of deleting, or "trapping," inconsistent signals from a segment of a system varies, depending on the system's technical configuration, its channel array, and whether signals have to be deleted and/or added to comply with the applicable signal carriage rule. The cost of the traps similarly varies, and so does their effectiveness. For instance, traps may cost as little as $10 per channel in the low-band channels, but these inexpensive traps have significant drawbacks. These traps typically allow all the audio portion of the programming and some residue of the video to be received. Thus, not only is the programming not totally deleted, but the system operator receives complaints and requests for service from subscribers who believe their receivers are malfunctioning. For this reason, many operators do not use them.[9] To completely delete both audio and video, the price of the traps increases to between $1,000 and $4,000 per channel. Where deletion of signals from channels in the higher band is involved, however, the cost of full video and audio trapping jumps to a minimum of $3,000 to $4,000 per channel. These devices are prone to malfunction when the weather changes suddenly; to assure satisfactory performance regardless of climatic conditions, it is likely that a subheadend must be installed. Installation of a subheadend in turn entails construction of a building to house the necessary equipment, and the costs of land acquisition and construction generally make compliance to this extent an impossible burden for many systems.[10] Where compliance with the signal carriage rules would require a signal to first be deleted and then reintroduced, a subheadend is again required. In this situation, the usual subheadend costs mentioned are increased by the cost of microwave or cable to transmit the signal to the subheadend and processors with which to reintroduce it into the system. These total costs would be prohibitive for all but the very largest of systems.[11]

26. In deciding whether to waive our signal carriage rules to eliminate the necessity of trapping, we attempt to analyze each situation by applying the traditional balancing test of cost of compliance versus necessity of compliance. That is, the cost of trapping is estimated and then contrasted with the necessity for compliance as demonstrated by the likelihood of the inconsistent signals producing an adverse impact on local broadcasting. From this perspective it is apparent that the issue we seek to isolate is whether the burden of compliance on the cable operator is warranted, regardless of its magnitude. Thus, the fact that in certain situations traps may cost less than $1,000 to provide may not be determinative. Even where the cost is not excessive, the unevenness of the trap's performance—coupled with the possibility that the inconsistent signals' carriage will cause little or no impact on local broadcasting—could make installing the traps needlessly burdensome. Because the specific factors weighed in reaching a decision on whether or not to waive the signal carriage rules have not been comprehensively articulated to date, we find it appropriate in the context of this discussion to do so.

27. We first look to the cost of compliance to predict whether the affected area

[1] *United States* v. *Southwestern Cable Company*, 392 U.S. 157 (1968). See also *U.S.* v. *Midwest Video Corp.*, 406 U.S. 649 (1972).

[4] Common carrier microwave service interconnecting commonly-owned cable television facilities cannot render the facilities to be one system. Our revised definition specifies that the "transmission paths and associated signal generation, reception and control equipment" must be "under common ownership and control."

[5] The meaning of the term "community" as used in the rules is a matter which we have indicated must be determined on a case-by-case basis depending on the circumstances involved. See Second Report and Order in Docket 15971, FCC 66-220, 2 FCC 2d 725, para. 149 (1966). The definition is usually coincident with a municipal boundary, but that is not always the case. See *Telerama, Inc.*, 3 FCC 2d 585 (1966) and *Mission Cable TV, Inc.*, 4 FCC 2d 236 (1966) (the cases cited in the note to the present cable television system definition). See also *Calvert Telecommunications Corp.*, FCC 74-1095, 49 FCC 2d 200 (1974). Because the term community is used in Section 307(b) of the Communications Act there has been some judicial and Commission discussion of the meaning of the term as used in that context. See e.g., *St. Louis Telecast, Inc.*, FCC 57-294, 12 RR 1289, 1369 (1957).

[6] See, e.g., *Micro-Cable Communications Corp. d/b/a Florida Cablevision* (St. Lucie Village, Florida), FCC 75-45, 50 FCC 2d 804 (1975).

V4271 APR 13 77 UMI

could feasibly obtain cable service without grant of the requested waiver.[11] In so doing we shall eliminate at the outset those systems having such a large subscriber potential that compliance with the rules is not only attainable but also necessary, because of the potentially substantial impact on local broadcasting.[12] A related factor which we would also consider is whether construction of the remainder of a technically-integrated system would be possible if the affected area were not constructed because the waiver request was denied. This, of course, is the converse of the first proposition; if denial of the waiver would result in a system's not being constructed, there is no reason to differentiate between whether the portion of the system that will fail is the portion with the inconsistent signals or that on which signal carriage would have been consistent.

28. Where the system likely would not be built absent waiver, we must inquire further whether so extreme a result is nevertheless necessary to protect local stations. Conversely, even where the cost of cable system compliance would not be prohibitive, it is proper to inquire whether even that relatively small burden is warranted in the public interest. Thus, we shall look further to see the number and nature of inconsistent signals proposed for carriage, and whether their carriage is mandatory in any other community served by the system. Waivers seeking carriage of larger numbers of inconsistent signals, for example, might be harder to sustain than those proposing carriage of only one inconsistent signal, or a signal subject to substantial deletion under our network or syndicated exclusivity rules. We shall also ascertain the percentage of the local broadcaster's total service area affected by the inconsistent signal carriage, the financial condition of the station, if put in issue in the proceeding, and the likelihood of its being able to withstand the proposed distant signal importation.[13] The weaker the local station the more important it may be that inconsistent signal carriage be prevented regardless of the cost to the system operator; conversely, where the local station is very strong, it may be needlessly burdensome to require the system operator to sustain the burdens of subscriber dissatisfaction, lower penetration, and technical unevenness entailed in providing even the simplest traps. Finally, we shall consider the extent of existing market penetration with the inconsistent signals, and whether the system plans any further expansion of such signals. In the latter respect, we shall seek to prevent a system's using one waiver as grounds for bootstrapping itself into successive waivers.[14] Similarly, where previous market penetration with inconsistent signal carriage can be shown to have produced a marked adverse effect upon a local licensee, we will deny a waiver request, however meritorious it may otherwise appear.[15]

29. Analyzing each request for waiver of our signal carriage rules in accordance with the factors enumerated above should produce a rational and consistent balancing of the interests of the system operator wishing feasibly to extend existing service to outlying communities and local broadcasters fearing sizable cable encroachments on their markets. In granting such waivers in the past, we consistently have held that the petitioning cable system bears the burden of making a convincing showing on the cost of compliance and the lack of public interest therefor.[16] This will continue to be so. We expect applicants for waivers to submit specific and verified factual data on the cost of complying with our rules, and to show how this cost is excessive. Where the cost of compliance is not such that compliance is impossible, but simply unwarranted because the danger of adverse economic impact to local broadcasters is slight, we will require the applicant to offer facts sufficient to prove this point. Above all, we will require applicants for waivers to demonstrate by means of maps or other persuasive showings that the waiver requested will not be followed by others for the same system. We are concerned that our waiver procedure not be subverted into a means of achieving successive waivers which would not have been granted if requested at one time. To this end, we shall require that applicants for waiver document the fact that, in requesting a waiver, the entirety of the system's planned development has been considered and that no further extensions of the same system, requiring further waivers, are contemplated. At a minimum, we will expect the applicant to submit his master construction plan, illustrating existing communities and planned future development. This will be regarded as a conclusive representation of the full extent of planned system construction, and it will be retained and referred to in the event a future waiver is requested. Applicants seeking successive waivers must submit, in addition to the verified factual data discussed previously, clear and convincing proof that the need for the further waiver could not have been foreseen at the time the original waiver request was filed. Although these standards may appear rigorous, we deem them necessary. Our signal carriage rules are the core of our regulatory program for cable television, and thus we find this burden of proof justified. Of course, local broadcasters remain free to object to any waiver request.

30. *Syndicated and network program exclusivity rules.* The syndicated and network program exclusivity rules are like the signal carriage rules in that they apply to systems on a community-by-community basis, but differ in that systems having fewer than 1,000 subscribers are exempt from compliance. This regulatory approach is sound, we think, because it protects local broadcasters from the possible adverse impact of cable carriage of duplicating signals while placing the burden of protection on those cable facilities having sufficient size to bear it. The question of whether or not to waive the exclusivity rules to permit a technically-integrated system to provide a signal with the same degree of protection throughout is similar in some respects to the question of whether to waive the signal carriage rules in like situations. In both situations we apply the same balancing test of cost of compliance versus necessity for compliance, because the costs and burdens of signal trappings are involved in both instances.[17]

31. *Significantly viewed signals.* As in the case of the signal carriage rules, eliminating the separate community limitation from the definition will produce no effect on § 76.54 (b) and (c) of the rules, which prescribe the method for showing that stations in operation in 1972 but not listed in Appendix B of the Reconsideration, are significantly viewed in the cable community. Like the signal carriage rules, this section specifies compliance on a community-by-community basis. Unlike the signal carriage rules, however, we find the separate community requirement in § 76.54 (b) and (c) serves no overriding public purpose. We are persuaded that: (a) the cost saving to the cable operator involved in making this change may be significant; (b) the information gained through having a separate survey for each community is not great; and (c) there is no inherent bias in this change, either for the introduction of more signals or for

[11] See, e.g., *Hoosier Hills, supra.* "The minimum standard of proof for waivers of this type would be specific and substantiated data clearly showing that the choice is between (inconsistent signal carriage) for the expansion system or no service at all * * *" *Pioneer Cablevision, supra* at 115.

[12] See, e.g., *Telco Cablevision of the Township of Ocean, Inc.* (Township of Ocean, New Jersey), FCC 75–168, 57 FCC 2d 578 (1975).

[13] With respect to noncommercial educational television stations, somewhat different considerations may be involved. See e.g., *Colby-Bates-Bowdoin Educational Telecasting Corp. v. F.C.C.*, Case No. 75?1425 (1st Cir., April 30, 1976.)

[14] In granting waivers of this nature we regularly require a showing that the number of potential subscribers affected is clearly defined and that the same arguments will not lead to unlimited extension of the inconsistent signals. See, e.g., *Pioneer Cablevision Corporation, supra.*

[15] Similarly, where carriage of a signal consistent with our Rules can be shown likely to produce a deleterious effect on a local broadcaster, certification will not be granted. *Big Valley Cablevision, Inc.*, FCC 73–1245, 44 FCC 2d 3 (1973), modifying FCC 73–187, 39 FCC 2d 642 (1973); recons. denied FCC 74–947, 48 FCC 2d 94 (1974), remanded for further proceeding, *Big Valley Cablevision, Inc. v. FCC*, Civil No. 74–1961 (D.C. Cir. January 12, 1976). *Compare Clearview Cable TV* (Lynn Haven, Fla.), FCC 75–1266, 56 FCC 2d 739 (1975).

[16] See, e.g., *Micro-Cable Communications Corp. d/b/a Valley Telecasting Co.* (Somerton, Arizona), FCC 74–428, 46 FCC 2d 613 (1974); *Lima Cablevision Co.* (Elida, Ohio), FCC 74–1300, 52 FCC 2d 1016 (1974).

[17] See, e.g., *Hamburg TV Cable, Inc.*, (Hamburg, Pennsylvania), FCC 74–376, 46 FCC 2d 552 (1974); *TelePrompTer of Florida, Inc.* (Polk County, Florida), FCC 75–106, 51 FCC 2d 195 (1975); *Harrisburg Cablevision* (Middletown, Pennsylvania), FCC 74–290, 45 FCC 2d 863 (1974).

a reduction in the number of signals likely to achieve significantly viewed status. The surveys taken will, in any event, remain considerably more specific than the county data which we relied on in the Cable Television Report and Order, and which is the standard unit of data commonly employed by television stations and advertising agencies. For these reasons, plus the additional fact that technology imposes a practical limit on the reach of all systems, we are persuaded to permit such technically-integrated systems to take one survey per system rather than one survey per community in complying with § 76.54 (b) and (c), and these paragraphs will be amended accordingly.

In the absence of objections thereto, we shall presume the results valid for each community served by the system. Of course, any of the parties served with notice of the prospective survey pursuant to § 76.54(c) remain free to voice any objections or reservations to the system operator, and may renew them subsequently in the context of an objection to an application for certification to carry the disputed signal. We will presume the regularity of the results of surveys taken in accordance with these procedures. Thus, objections to the results of such surveys must allege facts sufficient to rebut the presumption of regularity.

32. *Franchise standards.* Eliminating the separate community concept from the definition could render the applicability of § 76.31 ambiguous, in that this section requires a "system" to have an appropriate local authorization. We shall amend § 76.31 to the extent necessary to clarify its continued applicability on a community-by-community basis. This, of course, is entirely consistent with the purpose of that section as well as with efficient administrative practice. We require that a franchise or other appropriate non-federal authorization be obtained prior to processing an application for certification to insure the integrity of our certification procedure, to assure that all necessary non-federal requirements have been met by the applicant before this Commission's authorization is granted. Matters of preeminent federal concern are established by § 76.31 for inclusion in the franchise. Because franchises are usually granted by each community served by the system, we shall continue the applicability of § 76.31 on a per-community basis.[18] Whether the franchises granted to systems having fewer than a stated number of subscribers should be held to strict compliance with the provisions of § 76.31, or to some lesser standard, is a different question, addressed at para. 64 infra.

33. *Certification process.* Deleting the separate community limitation from the definition also affects §§ 76.11 and 76.13, which require "systems" to apply for and be granted certificates of compliance. Absent clarifying language, these sections could be read to intend that one application for certification be filed per system rather than per community, as presently done, and indeed several commenters urge this to be desirable. However, because we are retaining the separate community approach insofar as the applicability of our signal carriage and franchise rules are concerned, we find it most practicable administratively to retain the requirement that a separate application for certification be filed for each community served by a system. Before making this determination we carefully explored the possible effects of permitting one consolidated application to be filed and of issuing one certificate of compliance to grant it either totally or, if necessary, in part. This approach impresses us as unwildy. Issuing one certificate of compliance for several communities, with several corresponding expiration dates and perhaps different signal complements, could prove impossibly confusing, particularly if the certificate were required to be amended to add or delete signals, include new communities, and so forth. In sum, given the fact that our key signal carriage and franchise rules are still applicable on a community-by-community basis and that, for this reason, issuance of separate certificates of compliance is also advisable, we find that allowing the filing of consolidated applications would not promote ease of administration or be cost-effective for the Commission or for the applicant. We shall therefore retain our present application procedure.[19] We should emphasize that our procedure of certificating cable television systems on a community-by-community basis does not, in itself, answer whether the cable facility in question constitutes one or several systems for purposes of complying with other sections of our rules, such as access, exclusivity, etc. Where a particular certification or special relief proceeding specifically raises this substantive issue we shall resolve it as described at para. 38, infra.

34. *Cross-ownership.* Section 76.501 prohibits the cross-ownership of co-located television broadcast stations and cable television systems. Section 76.501 (a)(2) prohibits co-ownership of a television broadcast station whose predicted Grade B contour overlaps "in whole or in part the service area of the system (i.e., the area within which the system is serving subscribers)," and § 76.501(a) (3) prohibits cross-ownership between a system and a television translator station "licensed to the community of such system." Both of these provisions reflect the separate community concept. We now believe it appropriate to use the new integrated system definition for purposes of the cross-ownership rules. The principal result of this will be to permit those systems with existing cross-interests that are not subject to the divestiture requirement to fill out their operations by developing contiguous communities that are a logical part of their operations from a technical point of view.

While we recognize that some additional cross-owned cable service may result as a consequence of this change, we believe whatever adverse consequences might result from this are more than outweighed by the potential benefits to the public in the form of more economical and efficient service from the technical completion of existing cross-owned systems.

35. *Technical standards.* Deletion of the separate community proviso from the definition could also affect the applicability of our technical standards, § 76.601 et seq. In this respect we wish to note that a pending rulemaking proceeding will resolve the issue of which technical unit appropriately constitutes a "system" for purposes of measuring compliance with our technical standards. Notice of Proposed Rulemaking in Docket 20765, FCC 76–310, 58 FCC 2d 1035 (1976). Accordingly, the action taken today in amending the definition of a cable television system is not determinative of the applicability of § 76.601. This issue will be resolved separately in the pending rulemaking proceeding.

36. *Access, exclusivity and nonduplication, and equal employment opportunity rules.* In some respects our rules already anticipate the appropriateness of applying some rules, not to each cable system as defined by community boundaries, but to each system as a technical or economic unit. The channel capacity and access rules apply to:

Any conglomerate of commonly-owned and technically-integrated cable television systems having a total of 3500 or more subscribers * * *. Sections 76.252 and 76.256.

Likewise, we have exempted from compliance with the syndicated program exclusivity and network nonduplication

[18] Consideration of possible substantive changes in Section 76.31 is currently the subject of a separate proceeding; Notice of Proposed Rule Making in Docket 21002, FCC 76–1070, FCC 2d (1976). Pursuant to interim procedures adopted in that proceeding, a franchise need not be submitted in conjunction with an application for certification, although the franchise standards of Section 76.31 remain in effect. Id. at para. 36. This policy also applies to the submission of alternative proposals for compliance with the substance of Section 76.31 in situations where no franchising authority exists. See e.g., *Mahoning Valley Cablevision*, (Austintown Township, Ohio), FCC 73–347, 40 FCC 2d 439 (1973); *Better-View Cable Vision*, (Green District, Oregon), FCC 74–1065, 49 FCC 2d 193 (1974); *Village CATV, Inc.*, (Bella Vista Village, Arkansas), FCC 74–642, 47 FCC 2d 952 (1974); *Leacom, Inc.*, (Playas, New Mexico), FCC 74–1358, 50 FCC 2d 381 (1974); *Sanwick Cablevision, Inc.*, (Sudden Valley, Washington), FCC 74–888, 42 FCC 2d 615 (1974); See also *V–R Corporation of Virginia.* (Unincorporated portions of Carroll County, Virginia), FCC 75–385, 52 FCC 2d 719 (1975).

[19] A technical change will be made in the certification rules to make it clear that we will continue the policy of not requiring a certificate for those community units with fewer than 50 subscribers even though these are part of a system with more than 50 subscribers. We will also not require these "fewer than 50 subscriber" units in operation prior to the effective date of these rule changes to otherwise comply with the signal carriage limitations until the 50th subscriber is connected. Newly commencing operations will be required to comply from the outset unless otherwise exempted.

V 42 71 APR 13 77 UMI

rules: "cable systems serving fewer than 1,000 subscribers or * * * a conglomerate of commonly-owned and technically-integrated systems serving fewer than 1,000 subscribers." Sections 76.95(b) and 76.161. Some parts of the equal employment opportunity rules refer to employment units as well as cable television systems. Section 76.311(b)(3). For purposes of our Annual Financial Report (Form 326) a consolidated form, in certain circumstances, may be filed for systems under common ownership and managed as a single operating entity. No change in the substantive application of these rules is contemplated by the revised definition, although they will be amended where appropriate to conform them to the new terminology we are now adopting. Any EEO amendment should await the outcome of the pending proceeding in Docket 20629 (60 FCC 2d 618).

37. The rules do not now require system operators to file an annual report (FCC Form 325) for any system community unit serving fewer than 50 subscribers. With the adoption of a head-end-oriented definition and with the creation of different classes of systems based on total number of subscribers served, it has become most important for regulatory purposes that our records reflect as accurately as possible the size of each system in its entirety. Without receiving annual reports on every community a system serves, the Commission would have no means of ascertaining the total number of subscribers any system actually has. We therefore find it appropriate to require henceforth that an annual report be filed for each system community unit regardless of the number of subscribers served. We do not believe that the augmented filing requirement will place an undue burden on the system operator, since in most cases only the first two portions of the form, containing information on the community and number of subscribers served and signals carried, need be completed and returned; the more extensive information on ownership may simply be cross-references to the complete "master" form filed for the chief community served by the system. Therefore, because the extra filing burden is minimal and because the information obtained is necessary for the new regulatory program we are adopting, we shall require the filing of an annual reporting form for each system community unit served.[24]

38. *Interconnection Problems.* Under the new definition of system, it should be clear that all trunk and distribution cable operating off one headend is a single cable television system. More difficult definitional problems arise when contiguous population centers are served by cable facilities connected by microwave facilities, or interconnected by cables that relay only a small part of the overall communications each distributes to its subscribers. In particular, the improved technical performance, added flexibility, and costs saving enabled by use of multi-channel local microwave distribution systems now make it common for systems to be constructed with multiple headends or subheadends connected by microwave radio links. If these facilities are under common ownership, are technically integrated, are reasonably contiguous, and are generally managed as a unit, we believe it appropriate to define them as parts of a single system. We recognize that certain cases will arise where the applicability of the definition may not be clear. There may be commonly-owned facilities many miles apart that share common microwave service and may, in some respects, receive common management services. Within the bounds specified, we believe it appropriate to leave the initial judgment to the system operator as to how the facilities involved conform to the definition. This judgment will be subject to review either in the certificate of compliance process or, if raised, in special relief or enforcement proceedings to assure that the judgment made is a reasonable one.

III. EXCEPTIONS TO THE DEFINITION

39. Historically, we have excluded from the cable television system definition and, hence, from the coverage of our cable television regulations certain types of facilities which like cable systems are engaged in the distribution by wire of television broadcast signals to members of the public. Those operations with fewer than 50 subscribers have been excluded, as have facilities serving apartment buildings and those where there is no payment for the service provided. In our view, certain exemptions are entirely proper. Accordingly, we consider below not only whether to continue in effect the previous exceptions but also the new proposals for regulatory relief set forth in the Notice herein. The following broad areas will be treated: the element of payment; the appropriate exemption level; the creation of a class of small cable systems; consideration of a "reception only" class of system; and the appropriate regulatory approach for Master Antenna Television (MATV) Systems serving multiple family dwelling units.

PAYMENT

40. Since 1966, the cable television definition has applied only to systems distributing signals "to subscribing members of the public who pay for such services."[25] Over the years we have interpreted this language to include indirect as well as direct payment. As we summarized in the Notice:

> In short, we have not found the manner of payment to be of jurisdictional significance. For definitional purposes, it does not matter whether the payment is separate or combined with a general service, recreational, or rental fee, whether the payment is made directly or through some intermediary such as a homeowners association, whether the payment is in the form of a capital contribution or service fee, or whether the bulk payment is made for a number of subscribers rather than an individual payment for each subscriber.

However, we further observed in our Notice that several parties had suggested the Commission not interpret the element of payment so strictly and should, for example, permit an exemption where cable service is only an unspecified portion of a management fee or is made to a non-profit corporation. We observed:

> The rationale of such comments is that such parties do not intend to engage in the "cable television business," often do not seek to make a profit from such service, and often furnish only an off-the-air reception service. While we understand the desire not to be subject to our regulations, we believe that should be accomplished through a rule change rather than through a rule interpretation. The possibility of such a change is appropriate for comment * * *

41. Many parties did not direct comments to this point at all. Those who did respond covered several viewpoints. Illustrative of those supporting a "relaxation" of our interpretation is Cablecom-General, which urges that "the Commission should draw a clear distinction between those entities primarily engaged in the business of providing cable television services and those primarily engaged in meeting the housing needs of the nation." Parties such as Allen's TV Cable Inc. et al., Atlantic Coast TV Cable, et al., Liberty Communications, Inc., and the Arizona Cable Television Association, however, do not wish any changes. Liberty cautions, for example, that any exception premised upon the manner, as opposed to the fact, of payment would allow systems "to avoid cable regulation merely through the adjustment of bookkeeping techniques." Several parties suggest that perhaps the best solution is to eliminate the element of pay from the definition. Welch Antenna Company and Viacom International, Inc. both feel that "payment" is not critical to the definition. Welch cryptically stating that "there is no such thing as a free lunch," and Viacom stating that "for all practical purposes, all persons receiving cable television service must pay for it * * *" Even the 1000-unit apartment building which advertises free master antenna service to its tenants is said to include the cost of that service in its rentals. Manhattan Cable Television, Inc. similarly states that "the continued existence (of payment) will inevitably stimulate further disguished payment schemes which will unnecessarily burden the FCC's limited resources." NCTA opines that the element of payment is not a critical aspect of the definition, but opposes any suggestion that payment be redefined to only include an identifiable, direct charge.

42. In redefining a cable television system as a technical entity we have eliminated the element of payment. The issue left to be determined is whether for other reasons we wish to retain this concept. We decline to do so, for several reasons. The first reason is totally pragmatic—a cable television system is a technically integrated system of transmission paths which distributes television signals, and the manner in which it is financed is irrelevant to our regulatory objectives. Equitably speaking, we decline to treat one system differently from another based on distinctions in how they meet their costs. We concur with those parties who caution against the creation of an exception for indirect payment which would be susceptible to abuse. Lastly, while we are sympathetic to certain operators of multiple housing units who seek to avoid regulation, it is better to create exceptions for such entities on grounds which are more valid than the standard of "payment", and this is accomplished infra in connection with the subjects of exemption level, small cable systems, and MATV systems.

CHANGES IN EXEMPTION LEVEL AND CLASSES OF SYSTEMS

43. Since the initial adoption of the rules for "cable systems" we have provided for an exemption for "any such facility that serves fewer than 50 subscribers," a judgment that systems of this size are of minimal regulatory concern. The Notice herein proopsed that this number might be raised as high as 250 subscribers, explaining:

> In the main, it is not anticipated that a change upward in the system size to be exempt would have an adverse impact, either upon broadcasters or upon our broad regulatory program. And it would lift a potentially heavy burden of regulation from these small operations. Indeed it seems reasonable to assume, as comments to the Re-Regulation Task Force have suggested, that this exemption may permit some systems to come into being where that would not otherwise have been possible. The systems with which we are here concerned already are exempt from our network exclusivity rules and are proposed for exemption from our syndicated exclusivity and access and channel capacity requirements. Insofar as signal carriage is concerned, these systems overwhelmingly function as off-the-air reception services only. Systems under 250 subscribers, for example, do not generally use microwave services. With respect to the regulatory importance of such systems, it would appear that collectively they neither affect a substantial portion of nationwide subscribers nor, even when there are direct charges, do their revenues have substantial impact. Rather, with the administrative burden of regulating systems of smaller size put aside, we could better concentrate our regulatory efforts on the emerging aspect of this technology.

The Notice herein also solicited comments concerning the establishment of a defined class of small cable systems to which only limited regulation would apply. In support thereof, we stated (Para. 21):

> First, functions performed by systems of small size may differ considerably from those of larger systems. Small systems are typically passive and perform antenna functions alone without engaging in program origination or the provision of access services. Second, the cost of compliance with particular rules may fall disproportionately heavily on small systems. With a large subscriber base such costs, on a per subscriber basis, may be negligible. With a small subscriber base they are likely to be of far greater consequence. Third, small systems in performing their broadcast signal distribution functions may, even in the aggregate, have sufficiently few subscribers so that their operations are unlikely to impact significantly on over-the-air television broadcast service to the public. Finally, in terms of our own limited administrative resources, we may accomplish more by focusing our energies on larger operations than by attempting to regulate all systems regardless of size. These, and related considerations, have resulted in our recent decision to exempt from compliance with our nonduplication rules, systems and conglomerates of systems serving fewer than 1,000 subscribers.

To aid in our consideration, we listed broad categories of our rules and inquired as to which were most appropriate for regulatory relief. A third possible course of action suggested by the Notice for deregulatory relief and upon which comments also were solicited was the creation of a "reception only" class of cable systems. Finally, the Notice acknowledged that any modifications of the present definition, whether by changing the exemption criteria or by establishing different classes of systems with varying regulatory obligations, raises "grandfathering" issues, particularly for systems changing from one class to another, and solicited comments as to the proper regulatory approach for such situations.

COMMENTS

44. Comments on the subject of raising the exemption level cover a broad range. Parties who oppose any change from the present exemption level of 50 include broadcasting interests, state and local cable regulatory authorities, some cable operators, and some state cable trade associations. The broadcasting interests—such as NAB, AMST, ABC,[26] and a group of Television Licensees—oppose any action which could affect signal carriage requirements. MST takes issue with all of the reasons cited for considering raising the exemption level, asserting that the "passive" nature of such systems does not justify weakening or eliminating the signal carriage rules, the "cost of compliance" with the carriage rules is not burdensome, the aggregate impact of systems of this size is not known, and the conservation of Commission resources is not important because systems of this size seldom request special relief. MST further asserts that raising the exemption level would pose new problems—i.e. a "quiltpatch" of signal carriage leading to further erosion of the rules, severe transitional problems for systems growing in size and, occasionally, a disincentive for system expansion. The commenting regulatory authorities—New York State Commission on Cable Television (CCT), State of Minnesota Cable Communications Board (MCCB), and San Diego County—want the present level of 50 maintained so as to keep smaller systems subject to regulation, but then propose various forms of partial regulatory relief for classes of smaller systems. Indeed, MCCB cautions that even if the Commission changes the federal exemption level "MCCB, representing the sovereign State of Minnesota, will continue to use its present definition * * * until we have completed our current developmental studies." The cable interests which oppose any rise in the exempiton level do so for two different reasons. Parties such as the Florida CATV Association and Storer Cable TV do so because of the impact such an action would have on MATV systems operating in areas served by cable television systems, and not because of opposition to the re-regulation of smaller cable systems. Parties such as Atlantic Coast TV Cable want the present exemption level of 50 maintained because of "the overriding need for uniform regulation as to all systems except for those few instances where the de minimis nature of the operations does not justify the time or expense * * *."

45. Support for raising the exemption level above 50 subscribers comes from certain cable interests, who generally cite the burden of regulation and the negligible impact upon broadcasters as their chief rationales. Small cable systems such as Eagle River and Park Falls, Wisconsin and Cumberland, Maryland support raising the number to 250, the latter noting that if this were done "many more rural subscribers would logically be served by the local operator." These same parties, however, would welcome an even higher exemption level than 250. Indeed, two state cable associations—Nebraska and California—commented that raising the level to 250 was of no significance to them. The Nebraska Association stated that only 6 systems in its state would be affected, but added that more small systems might be built if regulations were reduced. California noted that only two of its member systems would be affected and that such an exemption level would only serve to encourage "pockets" of MATV systems cumulatively serving hundreds of thousands of dwelling units in California. Two other parties focused their attention upon the 250 exemption level vis-a-vis MATV units. Cablevision Systems Corporation states that it supports raising the exemption level to 250 so as not to "perpetuate" the current competitive imbalance between regulated systems and MATV systems.

46. Several parties such as the Kentucky CATV Association suggest that the appropriate exemption level is 500 subscribers. However, a significant number of commenting parties, including CATA, the Arizona Cable Television Association, and 68 CATV companies, recommend the 1,000 subscriber level for total exemption, and still other parties,

[24] In conjunction with the amendments to the rules indicated at paragraphs 18–37 and consistent with our recent adoption of a separate definition of "system operator" (FCC 76–1110, adding new Section 76.5(11)), we shall further amend the rules to substitute the term "system operator" for "system," wherever appropriate.

V42N71 APR 13 77 UMI

such as NCTA and Viacom, proffer the 1,000 subscriber level for almost total regulatory relief. CATA advocates "an irreducible minimum of federal CATV regulation" and urges that this docket be utilized by the Commission as a "grand experiment" in deregulation and, in addition to several other proposals, urges that all systems with under 1,000 subscribers, wherever situated, be totally exempt from regulation. The comments of Atlantic Coast TV Cable et al., in support of the 1,000 exemption level, state that this action would eliminate the need to distinguish between cable and MATV and would have no measurable impact upon the television industry. NCTA, citing the minimal impact of systems under 1,000 determined in the Commission's exclusivity proceedings, proposes exemption of such systems from all rules except a simplified reporting requirement and minimum technical standards. In its reply comments, MCA, Inc. takes strong exception to the proposals for raising the exemption level to 1,000, stating that such parties have gone far beyond the suggested approaches in the Commission's Notice (i.e., a proposed exemption level of 250 and major regulatory relief for systems with 250–1,000 subscribers). MCA urges that the proposals advanced by cable interests to increase the definitional exemption level should be rejected because, inter alia, such proposals are inconsistent with the policies underlying the distant signal and exclusivity protections of the Commission's rules.

47. The range in proposals received for classes of cable systems was even broader than the proposals for establishing a new exemption level. Opposing the creation of any new classes were essentially the same parties who objected to any increase in the exemption level. Several cable interests voiced approval of the suggestion in the Notice that a "small" class of the size of 250–1,000 subscribers be established, with minimum regulation, but the majority of the cable interests submitted proposals for a total restructuring of the Commission's regulatory program premised upon various sized classes, most going far beyond the suggested 1,000 subscriber level. Illustrative of the range of comments on this subject and the various classes proposed, are the following: San Diego County proposes three classes: (1) Master Antenna System—under 50, no regulation; (2) Community Antenna System—located in a community with under 5,000 units, modified regulation; and (3) Cable Television System—located in a community over 5,000 units, full regulation. Welch Antenna Company proposes four classes: (1) under 1,000—no regulation; (2) Small System—1,000–3,500, required only to submit a simplified annual report; (3) Medium System—3,500–5,000; and (4) Large System—over 5,000. (Further, Welch proposes that all "reception only" systems be totally exempt, irrespective of size.) Allen's Cable TV et al propose a three part approach: (1) Exempt System—under 1,000; (2) Small System—1,000–3,500, with many rules either modified or eliminated; and (3) Standard System—over 3,500. Communications Properties, Inc., utilizes subscribers per community and headend in its proposals: (1) Exempt System—1,000 subscribers per community, but no more than 2,500 per headend; (2) Small or Reception Only System—1,000–2,000 for community but no more than 3,500 per headend, with substantial regulatory relief; and (3) Large System—those exceeding the latter sizes. CATA has submitted a proposal premised upon total exemption for systems outside all markets and the following for systems incide 35-mile zones: (1) Class I—under 1,000, total exemption; (2) Class II—1.000–5,000 and either utilizing only off-air signals or utilizing mircowave signals to reach a complement of 3 network and 3 independent stations, to which limited regulation would apply; and (3) Class III—either over 5,000 or more than 12 channel system, full regulation. EMCO, a cable system operator, advocates four classes; (1) Class D—under 500; (2) Class C—500–1,200; (3) Class B—1,200–2,500; and (4) Class A—over 2,500, with graduated regulation, but only very limited regulation applying to Class C and D systems. The Kentucky CATV Association proposes: (1) Exempt Systems—under 500; (2) Class II—500–3,500 or reception only, to be subject only to limited technical standards and "almost automatic certification"; and (3) Class I—over 3,500, subject to most regulations. The most elaborate scheme was submitted in the "Joint Comments" of Atlantic Coast TV Cable Corp. et al. which proposes six classes: (1) Class I—20 channel, broadband system, subject to full regulation; (2) Class II—12 channel, mandatory signals and minimum complement of distant signals, no pay, exempt from access and expansion; (3) Class III—12 channel, off-air signals only or grandfathered signals, no access obligations; (4) Class IV—CATV or MATV serving less than 250, exempt from most rules; (5) Class V—MATV, exempt from same rules as co-located CATV system; and (6) Class VI—any system interconnecting with Class I–V systems, exempt from same requirements as interconnected systems. Comments submitted by NCTA emphasize its major concern for obtaining CATV/MATV "parity"—to be treated infra—but also propose three essential classes: (1) under 1,000—exempt from most rules, simplified reporting and testing procedures; (2) 1,000–3,500 and Reception-Only Systems—new simplified set of rules; and, (3) over 3,500—full regulation.

48. With respect to which of the Commission's present regulations should either be modified or made inapplicable to small systems, the comments again represent a wide spectrum. ABC and the Television Licensees oppose across-the-board exemption for even the smallest systems from the franchise, certification, and filing requirements, urging that the Commission's public interest and informational needs outweigh any insubstantial inconveniences imposed on smaller systems. Conversely, NCTA urges total exemption for systems under 1,000 and practically no requirements for systems under 3,500. CATA's approach is similar. The Citizens for Cable Awareness in Pennsylvania would remove many of the existing cable rules—distant signal carriage restrictions, exclusivity, anti-siphoning, etc.—yet would strengthen others such as ownership, EEO, access, reporting, public inspection files, etc. Communications Properties, Inc. states that the Commission's past regulation has served to "discourage and foreclose" cable development in smaller, often rural, communities, and that this docket should be utilized to make cable service more easily available to such communities. However, Minnesota All-Channel Cablevision, Inc., operator of 12 small systems, only two of which have over 1,000 subscribers, cautions the Commission against complete relinquishment of jurisdiction, fearing that state and local authorities will fill the void with onerous regulation.

49. The subject of signal carriage drew totally polarized comments. NAB, MST and others, as already mentioned, oppose any change whatsoever in mandatory or distant signal limitations, while many cable operators, particularly smaller ones, urge either total deletion of the carriage rules for small systems or permission to carry all signals available off-the-air. Western Cable, Inc., for example, the operator of four post-1972 systems in Texas, each of which has fewer than 1,000 subscribers, states that the lack of otherwise available signals has injured the financial growth and development of its systems. Comments directed to the issue of continued application of the anti-siphoning rules to small systems also diverged. The New York State Commission on Cable Television would totally exempt smaller systems from the pay rules, while ABC and the Television Licensees desire the rules to remain applicable. Cable interests universally seek modification or elimination of the franchising and certification requirements for small systems. "Minimal" regulation, "simplified" procedures, "automatic certification," etc, reflect the tenor of such comments. The same is true of the various reporting and recordkeeping requirements, with requests for "less stringent" rules and even total deletion of all "paperwork" requirements. With respect to the applicability of technical standards to small systems, most cable interests urge either "less expensive testing procedures," lesser standards, or elimination of the technical requirements, particularly for small, rural systems. Regulatory relief also was requested from our various other requirements for small systems—fees, EEO requirements and ownership restrictions. Several parties made the point that the local television station or telephone company often is the only entity willing to undertake the construction of new small systems, and thus should be exempted from our cross-ownership rules.

50. Comments on the possible creation of a "reception only" class of system did not draw the number of comments which might have been expected. Here again the positions recommended extend from total adoption to total rejection. CATA indicated the strongest support for this proposal, urging that the Commission exempt upon a "jurisdictional" basis all systems located beyond the Grade B contour of any stations and further exempt, upon a "policy/jurisdictional" basis all systems beyond the 35 mile zones of television stations but nevertheless within Grade B contours (with a provision for ad hoc regulation of the latter systems for purposes of mandatory carriage and nonduplication requests). NCTA proposes a simplified set of rules for either "reception type only" systems carrying no more than 3 network, 1 independent, and 1 educational stations, even if the latter utilize microwave. The Kentucky CATV Association proposes total regulatory relief for all reception only systems, no matter how large, and the Arizona Cable Television Association seeks similar relief and requests a further proviso that would not prohibit originations or access on such systems. (We note that our new channel capacity and access rules now place access programming obligations upon all systems with 3,500 subscribers, irrespective of location.) Other interests, particularly the broadcasting parties, are opposed to the establishment of a reception only" class of any size, and the Minnesota Cable Communications Board (MCCB) takes a pragmatic approach and suggests that the Commission drop any serious consideration of such a class as totally unworkable.

DISCUSSION

51. Our Notice herein set forth for comment many areas of deregulatory relief in order to solicit the widest possible spectrum of suggestions as to feasible courses of action. The extensive comments filed indicate that this has been accomplished. Having considered the comments it is our view that the most appropriate resolution is to create a new class of "small" system to which only the most minimal of regulation will be applicable and not to raise the present exemption level or to establish a "reception only" class of system. Our deliberations today lead us to the conclusion that a 50–500 subscriber level, calculated upon a headend basis, consitutes the correct scope for this new class; additionally, in a companion Further Notice of Proposed Rule Making in Docket 20561 issued this day we inquire whether justification exists for the future extension of some or all of the new provisions for systems under 500 subscribers to a larger number such as 1,000 subscribers.

52. Initially, we have concluded that the establishment of a "reception only" class of cable system, irrespective of system size and other considerations, is not workable. While presenting an initial allure, particularly for deregulatory purposes, upon closer view this general grouping of systems lacks sufficient homogeneity upon which to premise any valid action. Clearly a general "reception only" class of system, including as it would small and large systems, traditional and newly constructed systems, systems in major or minor markets or outside all markets, etc., is too amorphous an entity for regulatory classification purposes. The creation of such a class would additionally produce very strong incentives for systems not to originate and distribute their own programming. Because we regard the distribution of nonbroadcast programming—whether the operator's own creation or that provided by access channel users—as having real potential public benefits, we believe it would be inappropriate to create a regulatory structure which discouraged the distribution of this programming.

53. We have also rejected the idea of simply raising the present 50 subscriber exemption level to some higher figure such as the 250 subscriber level mentioned in our initial proposal in this proceeding. The basic reason for this decision is our belief that there are some rules which are so fundamentally important, and at the same time are so minimally burdensome, that they ought apply to even very small operations. At the same time, we believe that there are a number of rules that have been inappropriately applied to these small systems and from which they may now be exempted. That is, we have concluded that it is appropriate to create a class of small systems with between 50 and 500 subscribers to which only a limited number of rules would apply.

54. The primary reason for our decision to reduce the burden of regulation on systems of this size is our conviction that they are substantially different from larger systems and can be accorded lesser regulation without disruption of our overall regulatory program. Typically, systems of this size furnish their subscribers with only off-air signals. These systems usually do not offer distant signals either because the cost of constructing their own CARS microwave facilities is prohibitive—estimated at $25,000 per 30-mile "hop"—or because service via common carrier microwave does not exist or is too expensive for systems with such a small subscriber base. Also, from a functional standpoint, these systems generally are "reception only" facilities and do not engage in either program origination or access services. Indeed, our actions in Dockets 19988 (program origination) and 20508 (access) concluded that systems with less than 3,500 subscribers were too small to be subject to these obligations. Our analysis herein suggests that these 50–500 subscriber systems generally are older, mature systems serving remote, smaller communities. While we recognize that systems of this size could exist in "pocket" areas of larger communities, the bulk of such systems for which we are here affording regulatory relief do not. They are genuinely small "community" systems. We also recognize that the establishment of this new class of systems could lead to the construction of such systems in larger metropolitan areas, but, because of inherent economic limitations upon systems of this size, and the limited service which would be provided by such systems, it is not felt that even a proliferation of them would be injurious either to local broadcast service or to our regulatory objectives for cable television.

55. Another principal purpose in providing deregulatory relief for small systems is to alleviate the disproportionate burdens of regulation. Per subscriber, the cost of regulatory compliance is quite substantial for such systems. We note that here again, although the outside figure of 500 is utilized for "worst case" analysis, many of these systems do not approach the maximum of 500 nor do they have the potential of achieving such a subscriber level. Even utilizing the maximum figure of 500 subscribers, with a subscriber rate of $6 per month, a system of this size would generate gross annual revenues of only some $36,000. When considering construction costs of a separate headend, up to 10 or more miles of trunking and distribution system, and routine maintenance and operating costs, there is little profit margin. Indeed, we are informed that many small systems do not achieve return on their original investment until 6 or more years after the commencement of operation. Such systems, unless owned by a cable television company serving larger communities in the area, generally cannot support a full time staff, and the burden of regulation falls particularly heavily upon systems of this size. With only this minimal economic base, compliance with many of the same rules as much larger systems is understandably difficult. For example, the burden of our franchising and certification requirements and of all our various reporting and recordkeeping requirements often falls upon one part-time employee with no detailed knowledge of our multiple requirements, and the burden of compliance with our technical requirements falls upon one part-time technician who frequently has available neither the necessary expertise nor equipment.

56. From the Commission's standpoint, the regulatory supervision of systems of this size is likewise burdensome and inefficient as well. Again utilizing headend calculations, the 50–500 sized systems constitute 24.5% of all systems (740 of 3016) which we regulate, yet their impact upon broadcasting and their consequent importance to our regulatory program is not at all of proportionate weight. Systems of this size represent some 190,238 subscribers constituting only 2% of the total nationwide cable subscribers and only .27% of the 68,771,000 total nationwide television households.[28] We note that many of these systems are located outside all markets, and thus affect television market stations very little. Nevertheless, each certificate application, each

[28] These figures are extrapolated from data reported to the Commission on FCC Form 325 and information gathered by Television Digest, Inc. and reported in the Services Volume, Television Factbook, 1976 edition. A detailed study of systems in this smaller size class is attached to the Further Notice of Proposed Rule Making in Docket 20561, also adopted this day.

V 42 71 APR 13 77 UMI

request for special relief, and every enforcement proceeding involving these systems consumes as much of our time and resources—and actually often consumes more—as similar actions involving cable systems having 500 or more subscribers.

57. We have settled upon the system size of 500 subscribers as the present limit of the new small class for several reasons, some of which already have been mentioned. That number, combined with the fact that the calculation must be made upon a headend basis, assures us that we are dealing with genuinely small operational and business entities. Systems of this size generally would be expected to serve communities with a population of less than 5,000. We also observe that systems with 500 or fewer subscribers typically are not very profitable operations and that profitability does not appear until a system increases in size beyond the 500 subscriber level. The regulatory burdens upon these systems and upon our processes have been described, yet we find no corresponding impact upon local broadcasting service to warrant these burdens. We are satisfied that our action of lifting the distant signal limitations from systems of this size, with their fewer than 200,000 nationwide subscribers, does not pose an adverse impact threat to local broadcasting services. Accordingly, in creating this new "class" we can effectuate a major deregulatory action affecting almost 25% of the regulated systems without causing corresponding adverse impact upon local broadcast service. In the selection of small class system, we have reviewed suggestions for higher figures such as 1,000, 2500, or even 5,000 subscribers. Levels of 3,500 or higher simply are not realistic in this search for small system parameters. In our 1976 proceedings in Docket 20508 the number of 3,500 subscribers was found appropriate as the threshold level for our access obligations because it was felt that the economic base generated by systems of that size was necessary to bear the financial burden of access services, but that number is inordinately high for use in this proceeding. In point of fact, the highest number which we considered herein was that of 1,000 subscribers, the subscriber level settled upon in our network [24] and syndicated [25] exclusivity proceedings. However, we are reluctant at this time to further utilize this 1,000 subscriber figure, which represents an additional 360,000 subscribers above the 500 subscriber level, because we are uncertain of the impact of such systems upon local broadcasting service, particularly when considering the potential cumulative impact in particular market situations. Therefore, we have settled upon the 500 subscriber figure for the purpose of this proceeding and are issuing a companion Further Notice of Proposed Rule Making inquiring into the appropriateness of extending some or all of the new provisions to systems having 1,000 subscribers.

58. Bearing in mind the general conclusion that systems in this class are small enough to be severely burdened by regulation and sufficiently small individually and collectively that their exemption from regulation is not likely to have an adverse impact on broadcast service to the public, it is necessary to consider individually the effect of each of the existing rules to determine if its continued application is warranted. As we indicated in our Notice, we seek a "simplified, streamlined" set of rules for this new class of small systems.

59. *Signal Carriage.* The signal carriage rules promulgated in our 1972 Cable Television Report and Order categorize television broadcast signals as either "must carry" (mandatory) or "may carry" (optional) and set up standards of television service (variously referred to as signal complements, quotas, or limitations) which vary with market size. Our first determination in connection with the applicability of our signal carriage provisions to small systems is that our mandatory carriage rules should remain in effect. These rules were designed and function to assure carriage to "local" stations within whose local carriage area a cable system operates. Retention of this provision is beneficial not only to the local station which has ascertained the needs and interests of its service area and designed programming to meet such needs and interests, but also is beneficial to local viewers. Our second determination is that small systems should have more flexibility afforded them with respect to the remainder of their signal carriage selection. We therefore shall remove all limitations on distant signals from these small systems. With respect to the likely effect of this deletion of our distant signal rules, we note initially that many of the existing "under 500" systems are located outside all markets as well as the Grade B zones of any television station and already are exempt from such provisions, and further note that still many others are older systems which carry numerous "grandfathered" signals. With respect to the future carriage of otherwise inconsistent distant signals by exempt systems, we believe that the practical impact upon local broadcast service would be quite small. Such systems seldom can bear the cost of importing distant signals via microwave and in most instances would be carrying only "off-air" signals. We would not envision adverse impact from such carriage, not only because of the minimal size of such systems but also because the signals often already are available to many households in the area. Moreover, from the signal carriage patterns we observe in our certification process, the majority of inconsistent signals generally received "off-air" would be duplicating network or educational stations which offer much of the programming already viewed on the local stations. There are less than 100 independent stations in the country, 26 of which are "specialty" stations now entitled to unrestricted carriage, and the remainder of the independent stations are unevenly distributed geographically and are thus not widely available for importation except through microwave. We note also that if such small systems could afford the expense of a special relief proceeding and could make the requisite financial showing they could obtain waivers permitting carriage of distant network signals in lieu of the unavailable independent complement. In brief, carriage by these systems of additional off-air signals is not expected to fractionalize the viewing levels of the local stations which are the source of local news and other programming and which traditionally are dominantly viewed by area residents." [26] Further, we also reject MST's assertion that such signal carriage should not be allowed because a "quiltpatch" of signal carriage would lead to the ultimate erosion of our rules.

60. A final restriction upon signal carriage by small systems remains to be treated, that of the "sports blackout" provisions of Section 76.67 of our rules (Report and Order in Docket 19417, FCC 75–819, 54 FCC 2d 265 (1975)). With our nonduplication and syndicated exclusivity rules inapplicable because these systems have fewer than 1,000 subscribers, and with systems under 500 now required to observe only the mandatory carriage rules, the sports programming provision constitutes the only remaining signal carriage restriction. In the reconsideration of the adoption of the subject rules (Memorandum Opinion and Order in Docket 19417, FCC 75–1235, 56 FCC 2d 651 (1975)), we indicated (Para. 29) our intention to review this matter in this proceeding:

> Although not brought up by the parties to this proceeding, we believe some consideration should be given to the impact of the sports rule on small cable television systems. We have exempted individual and conglomerate cable systems serving fewer than 1,000 subscribers from our network nonduplication and syndicated exclusivity rules. The arguments in favor of these exemptions appear to equally favor exempting small cable systems from the requirements of Section 76.67. However, because this issue has not been addressed by the parties, we are reluctant to provide such an exemption at this time. For the present, we will rely on our special relief provisions to remedy situations where it can be demonstrated that the requirements of Section 76.67 place an unreasonable burden on small cable television systems. We will also continue to review the impact on small systems of Section 76.67 as well as that of all our cable rules as part of the proceeding commenced by our Notice of Proposed Rule Making in Docket 20561, FCC 75–896, 54 FCC 2d 624 (1975).

Consistent with the broad goals of this overall proceeding, we have concluded that this rule does indeed constitute an unreasonable burden upon small systems and should be rendered inapplicable to them. Having determined that it is burdensome for systems under 1,000 to have

[24] First Report and Order in Docket 19995, FCC 75–413, 52 FCC 2d 519 (1975).

[25] Report and Order in Docket 20482, FCC 75–1065, 55 FCC 2d 529 (1975).

[26] See study referred to at n. 23 and attached to the Further Notice.

to purchase and operate switching equipment for network and syndicated program exclusivity, it hardly is justifiable to require systems with half that number to "black out" the remaining type of programming. Moreover, as we stated in Paragraph 42 of the Report and Order in Docket 19417, supra, it is our view that sports is but one form of television programming and is not sufficiently dissimilar from other programming to warrant special treatment because of its impact upon local television audiences. Thus, having broadly concluded that small systems should be as unrestricted as possible in carrying television programming, sports programming is not a valid exception to that conclusion." [27]

61. *Technical Standards.* The final broad area of our rules to be considered in connection with potential reduced regulation for small systems is that of our technical standards. We still are of the same view espoused in our Notice that these standards represent a justifiable minimum set of specifications for the protection of cable subscribers and that we are hesitant to lesson these standards. There is, however, a means of achieving regulatory relief in this area without compromising our technical standards. As we acknowledged in the Notice, which has been reinforced by the comments received, a major complaint by small systems is not with our technical standards per se but rather with the present methodology and equipment necessary to conduct the actual performance tests to demonstrate compliance with the standards. Here as with so many other areas of our regulation as applied to smaller systems, the act of demonstrating compliance often is more burdensome than compliance itself. We gave some extended consideration to this problem in Report and Order in Docket 19659, FCC 73–1046, 47 FCC 2d 769 (1973), and made some significant changes to ease the burden of all systems complying with the test requirements. Accordingly, as the best means of achieving our goal of reducing the regulatory burden imposed upon small systems by our technical standards we have concluded that the technical standards themselves shall remain applicable but that all measurement requirements (Section 76.601(c)) shall be deleted. However, two qualifications shall be placed upon this action: (1) any system utilizing frequencies outside the TV and FM radio broadcast allocations (for example, "mid-band" frequencies) would remain subject to all testing obligations relating to signal leakage, and (2) the Commission reserves the right to require specific measurements (among those measurements which may be required of larger systems) in the case of complaints or disputes. The first qualification should seldom be applicable to small systems, but the technical integrity of operations in the non-TV–FM frequencies is so important that compliance with all standards relating to use of these frequencies must be assured. The second qualification is a reflection of our concern for the quality of service provided to subscribing members of the public.

62. *Annual Reports.* Cable systems are required to report annually to the Commission concerning their ownership and operations (Form 325) and finances (Form 326). We have also proposed in Docket 21011 (FCC 76–1109) that cable systems be required to notify the Commission of changes in their mailing address and of certain changes in their operational status including when the system commences or terminates operation. Finally, all systems are required to report annually to the Commission on whether any complaints regarding violations by the operator of equal employment provisions of Federal, State, territorial, or local law have been filed during the preceding year. Section 76.311(c)(1). To aid us in the enforcement of those rules that are being retained for small cable systems and to assure we continue to have a complete picture of cable television operations when we are considering either individual proceedings or general issues relating to the impact of cable television operations on broadcast service to the public, we believe it important to continue receiving information on the location and operations of even small cable systems. We will, accordingly, retain the requirement that systems within the class of small systems file Schedules I and II of FCC Form 325 (Annual Report of Cable Television Systems). This should involve only the most nominal of burdens on the system operator and involves essentially providing the system's name, location, and broadcast signals carried. This is particularly the case now that new procedures have been instituted whereby the Commission will, using its automated data processing capabilities, print on each form the information contained in our files concerning the system's operation and simply ask for corrections (FCC 76–1110). That is, the small system operator will be mailed a form which contains his name, address, community, etc. as reported the prior year with a request that he update any information that is no longer accurate. The entire process should not take more than a few minutes. We will not require that the small system operator complete the more complex schedules concerning system ownership. These are not only more burdensome and complex to complete but this information, as it relates to small systems, is of less value for either regulatory or statistical purposes.

63. We are not at this time amending either of the other reporting requirements because there are some additional issues involved with them that warrant separate consideration in other proceedings. First, with respect to the financial reports, the Commission has funded and received from Price Waterhouse & Co. a study of accounting and policy issues relating to the financial reporting system, which warrants separate consideration. Secondly, it is important for those systems that do report financial information to be able to keep track of trends and patterns from year to year. If no information were collected until a system exceeded 500 subscribers the important initial filings would be absent. Also, financial reports, in order to accord with usual accounting practices in the industry, are collected not from each community or system individually but from operating entities that could include more than one system in the same general area. Thus, a simple exclusion cannot easily correspond to the small class of systems already defined. We believe that this reporting obligation can also be simplified, but believe that should be accomplished in a separate proceeding now in preparation that will review the financial reporting system on a more general basis. Similarly, a proceeding is already in progress relating to nondiscrimination in employment which we believe is an appropriate forum for considering changes in the related reporting requirements.

64. *Franchise Standards.* Our Notice focused upon the franchise standards as obligations particularly burdensome to small systems. The comments have substantiated this position. Although the various franchise provisions of Section 76.31 of our rules are under more general review in Docket 21002 (Notice of Proposed Rule Making in Docket 21002, —— FCC 2d —— (1976), it is not necessary to await the conclusion of that proceeding in order to afford regulatory relief for small systems from our franchising requirements. Our review in this proceeding has convinced us that our requirements in this area are unduly burdensome for smaller systems and, upon also reviewing the purposes of our federal franchising procedures, we have concluded that their continued application to these under-500 subscribed systems is not required. The objectives of these procedures either are inconsequential as applied to systems of this size or are achieved through other, less formal means. None of our franchising standards—public proceeding, construction, franchise period, complaint procedures, modifications, etc.—is absolutely critical when applied to entities of this size. It is not as necessary to hold a full and formal public proceeding to review the "legal, character, financial, technical, and other qualifications" of the operator of systems of such a small size because the operator is generally known in the community and often resides there. Similarly, it is not as imperative to review the construction plans of a system which only installs several miles of cable plant. And, because of the combined smallness and localized nature of a system of this size, there generally is

[27] It should be noted, moreover, that the reasons for adopting the cable television sports black-out rules related to a concern that fewer patrons would attend games if they could view the games on cable television and the impact on sports gate receipts would cause teams to reduce areas where games were broadcast and hence picked up by cable systems, in order to restore their live gate receipts. Our records reflect that there are so few systems in this smaller class with so few subscribers in major market areas that the likelihood of any adverse consequence resulting from this change in the rules is extremely remote.

V 42 71 APR 13 77 UMI

assurance of responsiveness to subscribers' complaints and wishes. Thus, as we acknowledged in our Notice, our experience in the certification process and in the general administration of our rules is that these small systems are not troubled by complying with the spirit of these regulations so much as with providing proof of compliance with the letter of the rules. Further, because the local process can be relied upon for the general achievement of the goals of our franchise standards, it is not necessary to review these matters through the federal certification process.

65. *Certificates of Compliance.* With the reduced regulatory regimen to which these smaller systems are now subject, we believe it is also appropriate to delete the requirement that systems in the class obtain Commission authorization before operations are commenced or additional signals added. We will substitute for the certification process a simple requirement that systems anticipating a total of fewer than 500 subscribers notify the Commission of the owner's name, the system's location, and the signals to be carried at the time operations are commenced. Systems that have a reasonable prospect of obtaining more than 500 subscribers should apply for certification before operations are commenced and must not commence serving more than 500 subscribers without a certificate.

66. *Public Inspection Files.* We have also determined to exempt small cable systems from the requirement of § 76.305 that a file of documents relating to the system's authorization and operations be maintained for public inspection in the community or at the system's business office. A number of points contribute to this decision. The requirement is an awkward one for systems that have only part-time employees and may have no regular business office in the community and it is a trap for unwary system operators not acquainted with the obligation of the rule. Because systems of this size are not typically engaged in program originations and in view of our deletion of the certificate of compliance requirements for these systems the most important item that would be in the file would be the system's franchise. This should, in any case, be available for review from the files of the franchising authority. And even with respect to somewhat larger operations, such files are only most infrequently consulted by the public. In view of these considerations we believe a deletion of this requirement is appropriate.

67. *Subscription Cable Television Rules.* In the present state of the art, "small" cable systems are not fertile areas for pay television service. For example, even assuming a high level of pay subscribers such as 50 percent for a system of 500 subscribers, this would total only 250 customers, hardly sufficient to support its own pay facilities. In practical application, where smaller systems do engage in pay services, the programing generally could be expected to be obtained from a larger nearby cable system, satellite receiving station, or multipoint distribution common carrier in which case the programing obtained would often be used by other systems and thus would be compliant with our rules. At present, therefore, there would be little or no adverse impact anticipated from exempting these systems from our anti-siphoning rules. However, as new technologies emerge, pay operations on small systems might prove increasingly viable, and we deem it advisable to retain such systems within the purview of the rules in order to assure achievement of our national regulatory goals in the area of subscription television. Further, we are unable to conclude that any substantial or disproportionate regulatory burden is posed for small systems by requiring them to continue to offer programing compliant with our rules. Therefore, the provisions of § 76.225 shall remain applicable to small systems.

68. *Cross-ownership.* Our rules prohibit cross-ownership between cable television systems and local telephone companies (Section 64.601), local translator stations (Section 76.501(a)(3)), local television stations (Section 76.501(a)(2)), and national television networks (Section 76.501(a)(1)). Because smaller systems are largely passive operations, usually not engaged in the distribution of access or system-originated programing or other non-broadcast types of communications, the reasons underlying the adoption of some of the cross-ownership rules may apply less forcefully to these operations. We believe, however, that these questions are more appropriate for consideration in response to individual waiver petitions. For the present, we shall continue to apply cross-ownership rules to small systems. Again, this is an example of a rule which, while technically remaining in effect for small systems, will have little practical effect and does not detract from the broad deregulation of this new class of system.

69. *Transition.* The final issue for consideration in this area concerns the problems of transition for a small, under 500 subscriber system into the larger class of a fully regulated, over 500 subscriber system. In this connection, we strongly emphasize one point which is essential for the orderly function and administration of this new program. All parties affected, particularly new entities, should be realistic in assessing the likely "saturated" size of the ultimate, totally constructed facility they intend to build and operate, and should seek certification upon that basis. This ordinarily should not be too difficult a matter for the operator to ascertain; he knows the parameters of his franchise area and the number of potential customers, and he should have some estimate of likely penetration among homes passed. This could be very important, for example, where a small system later exceeds or seeks to exceed the 500-subscriber level, thus triggering different signal carriage provisions. We will not by sympathetic to waiver requests under most such conditions, and caution operators to obtain appropriate initial certification and to properly establish from the beginning the ultimate viewing patterns for their subscribers. Accordingly, it is not our intention to allow operations commenced under the smaller system rules to increase to beyond the 500 subscriber level until they are in compliance with the rules for larger systems. Systems approaching the 500 mark should anticipate the need to obtain a certificate of compliance and operate in full compliance with the rules before the 500th subscriber is connected. Again, this latter procedure, entailing "rollback" of signal carriage, highlights the need for proper initial planning by system operators.

70. *Conclusion.* Our decision herein to create a new class of small system of under 500 subscribers to which limited regulation applies reflects our studied judgment, based upon 11 years' experience, that such systems are so small, individually and collectively, that they do not seriously impact upon local broadcast service and that the public interest and the goal of deregulation can best be served by taking this action. With these administrative burdens lifted from smaller systems, they now can concentrate their efforts upon improvement of their facilities and service to new subscribers. Systems with under 50 subscribers now may be able to grow to accommodate nearby residents who have been denied service for years because the system may have chosen not to expand and thus trigger full regulation. Similarly, many new systems may now come into being which otherwise would not have done so because of the burden and expense of full regulation. It is our hope that rural areas of the country, particularly, will benefit from such expanded and new-system construction.

"MATV" SYSTEMS

71. From its adoption in 1965, our definition has provided a specific exception for:

> • • • [A]ny such facility that serves only the residents of one or more apartment dwellings under common ownership, control or management, and commercial establishments located on the premises of such an apartment house.

This is broadly referred to as the "MATV exception." The Notice raised for discussion whether we should continue in effect the MATV exception regardless of the size or function performed by these facilities, and whether some or all of the Commission's cable television rules ought not be applied.

72. In the twelve years since the adoption of this exception, we have received numerous requests for rulings as to whether particular types of multiple family dwellings are included within, or excluded from, the scope of the definition. Most entities, of course, seek to partake of the "apartment house" exception. The Notice summarized Commission rulings with respect to various forms of multiple family dwellings. We explained that certain types of multiple dwelling units had failed to qualify for the "apartment house" exception and thus had been determined to be within the scope of our definition—e.g., mobile home parks, planned and resort communities, and military installations—but that the status of other types of units has not yet been resolved (e.g., condominiums, cooperative apartments, hotels, and motels). We announced our intention to resolve this matter, and stated:

> It is our preliminary view that there is no reason to make such distinctions (for they serve no regulatory purpose) and propose to interpret the terms "apartment dwellings" and "apartment house" as essentially synonymous with multiple family dwelling; however, because of the important ramifications of such a clarification, we seek comments on the appropriateness of this interpretation. Thus, should our tentative approach be utilized, we would not follow interpretations from real estate law that, for example, a hotel is not an apartment house. Nor would we find within the definition a high rise condominium "apartment house" simply because each resident owned rather than rented his particular portion of the structure. Even with this explanation, gray areas continue to exist, especially as the facility in question starts to service garden apartments, garden condominium apartment complexes, garden apartment communities, townhouse duplex condominium communities and other similar situations which differ significantly from the traditional high rise apartment building. Hopefully, at the conclusion of this proceeding we will be in a better position to make meaningful distinctions based on the intended purpose of the definition adopted.

73. Later in our Notice we discussed the related subject of very large multiple family dwellings—e.g., those with over 1,000 units—and questioned whether, even assuming that high rise building complexes would remain exempt from our regulations, this necessarily should continue to be the situation regardless of the size or function performed by such facilities, observing:

> • • • [I]t is clear that some such systems do carry distant television broadcast signals as that concept is defined in our cable television rules and that some such systems suffer from poor technical quality. Moreover, such systems, generally through interconnection via multipoint distribution common carrier service, are increasingly involved in the distribution of pay television programming. Also, there would appear to be no reason why large systems of this type could not engage in access, leased channel, or other types of program origination.
>
> • • • • • •
>
> • • • [W]e believe it appropriate to consider these facilities as a separate class of system and, in contrast with our consideration of what rules ought not apply to small cable systems, to consider which, if any, of our rules ought be applied. Initially, it would appear that the most likely rules to be applied would include the signal carriage rules, the subscription cablecasting rules, technical standards, and, perhaps, modified access channel rules.

COMMENTS

74. Many parties propose total regulation of MATV systems while an almost equal number propose total exemption. In between are proposals premised upon "parity" of regulation with colocated traditional cable systems. A substantial number of comments were directed solely to the question of whether our "anti-siphoning" rules should be made applicable to pay services supplied to MATV units via Multipoint Distribution Systems (MDS). Several parties submitted comments specifically directed to the regulatory posture of MATV systems serving very large multiple dwelling units.

75. A substantial number of commenting parties (all of them cable operators) want the exception deleted in its entirety and urge regulation of all systems, traditional or MATV, with over 50 subscribers. They assert that the MATV exception is essentially an invalid distinction between vertical (exempt) and horizontal (regulated) systems which should not be perpetuated. Many parties point out that where as the type of MATV systems in existence at the time of the adoption of the exception were technically of a minimal nature, newer MATV systems are as sophisticated as the most modern cable systems, and that there are no longer any functional differences. Further, these parties submit that the "impact" of a viewing household is of the same regulatory consideration whether the household lives in a single family residence or in an apartment. And, they continue, with the current trends in national housing—because of the scarcity of land and increased construction costs—toward more multiple family dwelling units, this issue is becoming of increasing importance. These cable operators also point out that MATV systems, without signal carriage restrictions, generally carry signals not authorized to a cable system operating in the same geographic area (e.g., apartment houses in Arlington, Virginia generally furnish all Baltimore, Maryland signals, but a cable system there could not, at least as a part of its basic signal complement). This is said to be inherently unfair. The comments of the Perry Cable Television Companies are typical of those urging that the "apartment house" exception be deleted:

> There is little or no difference in the community antenna system that serves a multiple dwelling establishment, whether that establishment be a highrise, vertically or horizontally constructed, mutually owned or rented, luxury or low-cost.

Perry further cautions that the rapid growth of an unregulated MATV industry "may well serve to destroy the viability of cable television systems in smaller communities." Storer Cable TV of Florida, Inc., in its extensive comments, asserts that the problem is not restricted to smaller communities but affects larger communities as well and that the problem is growing. Storer adds that condominiums now account for 25 percent of the 90,000 housing units in Naples, Florida, and submits aerial photos illustrating that some of these Florida condominium units are detached dwellings. Storer complains that residents of most condominiums are prohibited from subscribing to cable service but instead must pay for MATV services, cannot construct an outside antenna, have no effective complaint service, receive less service than cable subscribers, and generally receive inadequate technical service. Liberty Communications, Inc., particularly wants mobile home parks to continue to be regulated, stating "there is no logical reason why persons who live in a mobile home park should be deprived of the same protection and services afforded the general public by the Commission's cable regulations."

76. Supporting continued non-regulation of MATV service to multiple family dwelling units are a number of parties representing various aspects of the housing industry as well as Cablecom-General, the RCA Corporation, and CATA. U.S. Communities, Inc., a nationwide developer of mobile home parks and the Manufactured Housing Institute, representing manufacturers of mobile homes, both want total deregulation of mobile homes, asserting that MATV service is "integral to the comprehensive process of land development" and that the Commission should consider the costs of regulation to the national consumer and exclude all multiple housing units under common control from regualtion. Both the Apartment and Office Building Association of Washington, D.C., representing the owners and operators of 250,000 apartments in the Washington, D.C. area and Carl Magnum Realtors, a California organization, make the same argument that MATV service is merely an "amenity" to housing and should not be regulated. Mark Winkler Management, Inc., the operator of an apartment housing development in Northern Virginia serving almost 3,000 units, makes the following arguments: regulation of MATV units is beyond the Commission's jurisdiction and is not needed to protect either broadcasters or the public; the Commission's rules are so burdensome that television service might have to be discontinued; its system carries Baltimore signals simply because they are available off-the-air; and strict application of the Commission's signal carriage rules would require their deletion.

77. Cablecom-General opposes any regulation whatsoever. MATV systems, Cablecom states, are not engaged in the retransmission of signals for profit, and Section 325(a) of the Communications Act impliedly prohibits such regulation. Additionally, prohibitions against public reception of television signals "might" constitute unlawful censorship in violation of Section 326 of the Communications Act and the First Amendment. Moreover, Cablecom feels that as a matter of policy the Commission should not regulate MATV systems, urging the following: the fact that such units perform activities which are inconsistent with rules is of no significance because the Commission has never applied its rules to such systems; the protection of conventional broadcast services is insufficient to justify the increase in administrative cost; the parties to the 1972 Consensus Agreement* felt no need for protection existed; and broadcasters have not lost audience or suffered signal degradation

* Appendix D, Cable Television Report and Order, FCC 72-108, 36 FCC 2d 143 (1972).

V 42 71 APR 13 77 UMI

by reason of master antennas. Finally, Cablcom believes that imposition of regulation would lead to the discontinuance of master antenna service by landlords. The RCA Corporation opposes the regulation of MATV systems, asserting that the Commission's desired goals could not be achieved—i.e., that regulation is not necessary to protect the quality and quantity of conventional broadcast service, that program diversity cannot be achieved by systems performing solely antenna functions, and that protection of the public is not necessary because normal market forces provide adequate protection. CATV declares that the Commission does not have the jurisdiction to regulate classic MATV "nor does it behoove the Commission's goals for deregulation to regulate more reception entities than are currently regulated • • • The solution to any unfairness that might obtain is not to make them (MATV) more like us (CATVs), but to make us more like them."

78. Between these extremes of total regulation and nonregulation are many comments proposing "uniformity" or "parity" of regulation between cable systems and MATV systems. Still others propose approaches which are "triggered" by actions by the MATV system. Supporting the concept of "uniformity," Allen's TV Cable, Inc., et al. comments:

> • • • [T]here is no real difference between a master antenna system and a cable television system, at least from a federal regulatory standpoint • • • Both types of operation, if sufficiently large, have the same theoretical impact on conventional television broadcasting; and both types of operation, if small, have a negligible impact • • • The presence or absence of common ownership, control or management is irrelevant • • • The difference in treatment • • • has developed on policy grounds in order to withdraw from federal regulation those services which traditionally are so small and isolated as to have little or no public interest impact and, therefore, should not be regulated. Respondents feel that the better way to deal with MATV operations is to eliminate the distinction between MATV and CATV and to raise the definitional exemption to a level which would eliminate from regulation most traditional MATVs and very small CATVs.

79. NCTA, Viacom and several other parties propose "parity" of regulation. NCTA, for example, proposes that the Commission define all MATV systems as cable systems for regulatory purposes. Then, as a part of its overall definitional scheme, NCTA proposes the creation of a new class of systems of under 1000 subscribers (including MATV systems) to which only minimal regulation would apply. "However," NCTA continued, "circumstances exist where equity dictates that this small system regulatory exemption should not be applicable. Specifically, when such an exempt or partially exempt CATV system of any kind is operating within the franchise area of a nonexempt CATV system, the regulatory treatment of the two CATV entities would be substantially equal." The trigger for the application of this "parity" approach would be when the political subdivision in which an MATV system operates grants a franchise to a "traditional" CATV system.

80. The New York State Commission on Cable Television suggests that we adopt the same regulatory approach which it has evolved for MATV systems; namely, that MATV systems are exempt from regulation so long as they engage in normal "reception only" functions but that regulation is triggered by either engaging in pay operations or carrying distant signals.

81. A significant number of parties have directed substantial comments to the subject of the regulation of MATV systems because of actual and potential distribution of pay programming. The American Broadcasting Company (ABC) and Television Licensees propose that the definitional exception for apartment houses should be forfeited when such facilities offer program origination or pay services. They both urge that the Commission extend the pay-product restrictions of § 76.225 of our Rules to MATV systems. ABC submits as an attachment to its comments a press release by the Microband Corporation of America to illustrate the growth of pay services via common carrier Multipoint Distribution Service (MDS). The National Association of Theatre Owners, Inc. (NATO) requests that we adopt rules "establishing MATV systems as a separate class of CATV systems subject to the Commission's regulations, particularly those applicable to cable pay television." NATO states that although there presently exist only limited MATV pay operations utilizing MDS, these MATV systems will soon become a major outlet for the distribution of pay television, and that they have the same potential for "siphoning" feature films from the theatre and broadcasting industries as cable pay television. NATO asserts that the failure to apply appropriate regulations "will leave a substantial gap in the Commission's cable television and pay television regulatory scheme." In opposition to NATO's request, the reply comments of both the Program Suppliers and MCA, Inc. urge that there is no merit to such a proposal and that in any event the Commission should not extend its pay cable programming restrictions to MATV while petitions for review are pending in court questioning the validity of the program restrictions applied to cable systems.[*] The Program Suppliers add that "• • • any extension of the anti-siphoning rules would impair the Program Suppliers' ability to find new markets for their product in the emerging new technologies."

82. Last, it is appropriate to review the comments received with respect to regulation of extremely large multiple family dwelling units. Many parties did not specifically comment on this point, but instead proposed various classes of cable systems by size, including both traditional cable and MATV systems, to which regulations would be equally applicable. Cablecom General opposes the regulation of MATV systems, no matter how large, stating that there is no evidence demonstrating adverse impact of MATV systems upon conventional broadcast interests, and cautioning that regulation would in many instances bring about discontinuance of the service by landlords and developers. Mark Winkler Management, Inc. also feels that regulation would be burdensome and lead to discontinuance of MATV service, and states that a 5000 unit development "would most likely be the smallest able to absorb the increased expenses for regulation of a service for which no fee is charged." The Minnesota Cable Communications Board (MCCB), however, comments that it is "appropriate" for the Commission to now consider regulation for large MATV units, and the Television Licensees and the ABC Television Network both urge that MATV systems serving more than 1000 units "should be required to adhere to the same network and syndicated program exclusivity rules applicable to larger CATV systems." The Association of Maximum Service Telecasters, while taking no position at this time on expanding the definition to include heretofore exempt MATV systems, urges that should the Commission decide to do so, any "grandfathering" of distant signal carriage should be strictly limited to the building or buildings in which the MATV system was operating at the time of the Notice herein. RCA, while generally favoring non-regulation of MATV, concludes:

> The rules should be applied to such systems only if the size of the complex or community justifies Commission regulation based upon the striking of a balance between significant accomplishment of regulatory purposes and the costs of compliance, regulation, and enforcement.

DISCUSSION AND CONCLUSIONS

83. After careful review of the extensive comments on treatment of master antenna systems, we have decided to clarify—but not to extend—our present exercise of regulatory authority. The operative language of the exemption has been slightly revised but its substantive scope remains essentially unchanged; that is, we will continue to exclude from regulation a facility "that serves or will serve only subscribers in one or more multiple unit dwellings under common ownership, control or management." Thus we need not reach the jurisdictional challenge raised by CATA and others. Instead, we are impressed by the statement of at least one large multiple-system cable operator, Cablecom-General, reinforced by the comments of a large corporation with conventional broadcast interests, RCA, that regulation of MATV systems has not been justified on grounds of their actual or potential harm to over-the-air television. Indeed, such other broadcast interests as ABC and Television Licensees discuss MATV impact on their medium only in the relatively narrow terms of exclusivity protection (on systems of 1000-plus units)

[*] *Home Box Office, Inc., et al.* v. *FCC & USA*, Nos. 75-1280; 75-1284; 75-1342; 75-1358; 75-1430; 75-4170; 75-1496; 75-1555, filed March 21, 1975 (Docket 19554).

and pay-product limitations on movies and sporting events. They are silent on such fundamental issues as basic signal carriage, access and technical standards.

84. To be sure, many commenters—largely cable operators or industry trade associations—urge elimination of the apartment MATV exception on the grounds that there ought to be "parity" of regulation for entities performing essentially the same functions. Admittedly, we have not entirely satisfied what appears to be the cable operators' underlying concern for the competitive disadvantage at which they may be placed by our failure to regulate apartment MATV facilities. (While precise figures are not readily available, it should be noted that only a very small percentage of apartment buildings exceed 500 units in size). On the other hand, certain competitive limitations are built into the typical MATV facility which usually do not exist for the cable operator. The former ordinarily is a "passive" entity, taking what its rooftop antenna can pick up off-the-air, but not reaching out—via microwave or separated headend—to pick up distant signals which cable operators consider an attractive aspect of their service. Practically speaking, the MATV provider possesses only the limited economic base represented by the several hundred subscribers within the four walls of a highrise facility, who generally are not paying separately for the service. Such an operation usually does not—and probably could not—offer origination or access programming.

85. Having determined not to extend the exercise of our authority over service by master antennas, it is important to state as clearly as possible where we draw the line, and why. We believe that the present limit of our regulation—established both by the language of the current "apartment" exception and by cases interpreting it—works, or should work to exempt facilities serving only residents in one or more multiple unit dwellings under common ownership, control or management. We have said that it does not exclude mobile home parks, planned and resort communities and military installations.[**] We have acknowledged, however (Para. 72, supra), that the status of some condominiums, cooperative apartments, and hotels and motels, remains ambiguous. By adopting the language recited above — "serving only subscribers in one or more multiple unit dwellings under common ownership, control or management"—we are attempting to resolve the ambiguous situations. We think the resolution is clear enough to exempt highrise apartments, highrise condominiums and cooperatives, hotels and motels. Those situations referred to in paragraph 10 of our Notice, including garden apartments, garden condominium apartment complexes, garden apartment communities, townhouse duplex condominium communities and other similar situations we now exempt from regulation so long as the elements of common ownership, control or management are involved.

86. We have no wish to become entangled in real property law. What we seek to establish are concepts of "amenity," convenience and even feasibility which serve to set excluded facilities apart from regulated (cable) facilities. By amenity we mean a lessor's or a manager's use of master antenna service as a secondary or incidental inducement to occupancy of his residential facility. By convenience, we are suggesting the efficiency and economy, even the aesthetics, of having a single, shared receptor rather than a forest of antennas on the roof of a multiple unit dwelling. By feasibility we refer to the realities of a television signal's shadowing and blocking when it must travel among highrise buildings, making a tall antenna—extending even far above a roofline—the only means of receiving service. Under such circumstances the erection of a high master antenna becomes not a competitive entry into something like cable television service but an almost necessary improvement to the business of leasing or selling dwellings.

87. Apart from differences in broadcast signal retransmission, commenters have claimed discrimination in MATV's freedom from the so-called "anti-siphoning" rules, Section 76.225, which act to limit the movie and sports product a cable system may carry when an additional charge per channel or per program is made. To begin with, we are reluctant—if not powerless—to make changes in the applicability of our "pay cable" rules while these regulations remain under review in the U.S. Court of Appeals for the District of Columbia Circuit.[**] Even assuming we were free to act, however, we prefer to reserve the broader possibilities for decisive resolution presented by the outstanding Notice of Inquiry and Notice of Proposed Rule Making in Docket 19671, FCC 73-73, 39 FCC 2d 527 (1973), covering apartment houses, motels and hotels. In fact, comments in the instant Docket 20561 directed to the question of pay-product regulation shall be associated with Docket 19671.

CONCLUSION

88. We believe that the changes made will simplify the administration of the rules, relieve significant and unnecessary burdens for small cable television system operators, and will not adversely affect the provision of television broadcast service to the public and that their adoption is, therefore, in the public interest.

[**] See, for example, Bayhead Mobile Home Park, FCC 74-589, 47 FCC 2d 763 (1974), and Pacific Western Mobile Estates, Inc., FCC 74-1058, 49 FCC 2d 269 (1974) concerning mobile home park systems; Citizens Development Corporation, FCC 75-506, 52 FCC 2d 1135 (1975); Sanwick Cablevision, Inc., FCC 74-888, 48 FCC 2d 563 (1974), Big Canoe Television Systems, FCC 74-623, 47 FCC 2d 455 (1974), Leacom, Inc., FCC 74-903, 48 FCC 2d 533 (1974) concerning planned and resort communities; and Robert D. Lewis d/b/a Cable Systems, FCC 75-604, 53 FCC 2d 503 (1975) and Cable Antenna Systems, FCC 74-646, 47 FCC 2d 545 (1974) concerning systems on military installations.

[**] See footnote 28, supra.

Authority for adoption of the rules herein is contained in Sections 2, 4 (i) and (j), 303, 307, 308, and 309 of the Communications Act of 1934, as amended.

Accordingly, *it is ordered*, That effective May 16, 1977, Part 76 of the Commission's Rules and Regulations are amended as set forth below.

It is further ordered, That the proceeding in Docket 20561 is retained open.

(Secs. 2, 3, 4, 5, 301, 303, 307, 308, 309, 315, 317, 48 Stat., as amended, 1064, 1065, 1066, 1068, 1081, 1082, 1083, 1084, 1085, 1088, 1089; 47 U.S.C. 152, 153, 154, 155, 301, 303, 307, 308, 309, 315, 317.)

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

Part 76 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. In Section 76.5, paragraph (a) is amended, and paragraphs (mm) and (nn) are added, to read as follows:

§ 76.5 Definitions.

(a) *Cable Television System.* A nonbroadcast facility consisting of a set of transmission paths and associated signal generation, reception, and control equipment, under common ownership and control, that distributes or is designed to distribute to subscribers the signals of one or more television broacast stations, but such term shall not include (1) any such facility that serves fewer than 50 subscribers, or (2) any such facility that serves or will serve only subscribers in one or more multiple unit dwellings under common ownership, control or management.

• • • • • •

(mm) *System community unit; Community unit.* A cable television system, or portion of a cable television system, that operates or will operate within a separate and distinct community or municipal entity (including unincorporated communities within unincorporated areas and including single, discrete unincorporated areas).

(nn) *Subscribers.* A member of the general public who receives broadcast programming distributed by a cable television system and does not further distribute it.

§ 76.7 [Amended]

2. In Section 76.7, paragraphs (a) and (b) are amended to delete the term "cable television system" and substitute the term "cable television system operator." Paragraph (c) (3) is amended to delete the terms "cable television community" and "community," and substitute the term "system community unit." Paragraphs (g) and (h) are amended to delete the term "cable television system" and substitute the term "system community unit."

Subpart B—Signal Registration and Certificates of Compliance

3. In Subpart B, the caption is amended, and a new § 76.10 is added to read as follows:

V 42 71 APR 13 77 UMI

§ 76.10 Registration of systems of fewer than 500 subscribers.

A cable television system having between 50 and 499 subscribers shall furnish the Commission with the following information within thirty (30) days after providing service to fifty subscribers:

(a) The legal name of the operator and whether the operator is an individual, private association, partnership, or corporation. If the operator is a partnership, the legal name of the partner responsible for communications with the Commission shall be supplied;

(b) The assumed name (if any) used for doing business in the community;

(c) The mail address, including zip code, to which all communications are to be directed;

(d) The date the system provided service to 50 subscribers;

(e) The name of each separate community and area served; and

(f) The television broadcast signals carried.

No such cable television system shall provide service to 500 or more subscribers until a Certificate of Compliance has first been obtained.

4. In § 76.11, all references to "cable television system" and "cable system" are deleted and the term "community unit" is substituted; and paragraphs (a) and (b) are amended to read as follows:

§ 76.11 Certificate of Compliance Required.

(a) No system community unit having 50 or more subscribers and constituting all or part of a cable television system having 500 or more subscribers shall commence operations or add a television broadcast signal to existing operations unless it receives a certificate of compliance from the Commission: *Provided, however,* That an existing system may add a television signal, pursuant to §§ 76.57(a) (1)–(3), 76.59(a) (1)–(3) and (5), 76.61(a) (1)–(3), or 76.63(a) (as it relates to § 76.61(a) (1)–(3)), or the signal of a noncommercial educational television station that is operated by an agency of the state within which the system is located, pursuant to §§ 76.57(b), 76.59(c), 76.61(d), or 76.63(a) (as it relates to § 76.61(d)), without filing an application or receiving a certificate of compliance, if the system serves the information required by § 76.13(b)(1) on the Commission and the parties named in § 76.13(a) (6) and (7) at least thirty (30) days before commencing such carriage and no objection is filed with the Commission within (30) days after such service is made. See § 1.47 of this chapter.

(b) No system community unit having 50 or more subscribers and constituting all or part of a cable television system having 500 or more subscribers that was lawfully carrying television broadcast signals in a community prior to March 31, 1972, shall continue carriage of such signals beyond the end of its current franchise period, or June 1, 1977, whichever occurs first, unless it receives a certificate of compliance.

* * * * *

5. In § 76.13, the notes to paragraphs (a) (4) and (b) (3) are amended to delete the terms "proposed system's" and "system's." All other references in § 76.13 (except paragraphs (a) (2) and (b) (2) to "cable television system[s] ['s] and "system[s]" are deleted and the term "community unit[s] ['s] is substituted; and paragraph (c) is revised to read as follows:

§ 76.13 Filing of applications.

* * * * *

(c) For an existing community unit that is required to receive certificaton pursuant to § 76.11 (b) or (c), an application for certificate of compliance shall include:

* * * * *

§ 76.27 [Amended]

6. In § 76.27, the term "cable television system" is deleted, and the term "applicant" is substituted.

§ 76.29 [Amended]

7. In § 76.29, paragraph (a) is amended to delete the term "cable television facilities" and substitute the term "community units." Paragraph (b) (2) is amended to delete the term "system" and substitute the term "community unit."

Subpart C—Federal—State/Local Regulatory Relationships

8. In Subpart C, a new § 76.30 is added to read as follows:

§ 76.30 Scope of application.

The provisions of this subpart shall not apply to any system community unit that constitutes all or part of a cable television system that serves fewer than 500 subscribers.

§ 76.31 [Amended]

9. In § 76.31, all references to "cable television system," "cable system" and "system's are deleted and the term "community unit['s]" is substituted as appropriate.

10. In § 76.54, paragraphs (b) and (c) are amended to read as follows:

§76.54 Significantly viewed signals; method to be followed for special showings.

* * * * *

(b) Significant viewing in a cable television community for signals not shown as significantly viewed under paragraphs (a) or (d) of this section may be demonstrated by an independent professional audience survey of non-cable television homes that covers at least two weekly periods separately by at least thirty (30) days but no more than one of which shall be a week between the months of April and September. If two surveys are taken, they shall include samples sufficient to assure that the combined surveys result in an average figure of at least one standard error above the required viewing level. If surveys are taken for more than 2 weekly periods in any 12 months, all such surveys must result in an average figure at least one standard error above the required viewing level. If a cable television system serves more than one community, a single survey may be taken, provided that the sample includes non-cable television homes from each community that are proportional to the population.

(c) Notice of a survey to be made pursuant to paragraph (b) of this section shall be served on all licensees or permittees of television broadcast stations within whose predicted Grade B contours the cable community or communities are located in whole or in part, and on all other system community units, franchisees, and franchise applicants in the cable community or communities at least thirty (30) days prior to the initial survey period. Such notice shall include the name of the survey organization and a description of the procedures to be used. Objections to survey organizations or procedures shall be served on the party sponsoring the survey within twenty (20) days after receipt of such notice.

* * * * *

§§ 76.55, 76.57, 76.59, 76.61, 76.63, 76.65 & 76.67 [Amended]

11. In §§ 76.55, 76.57, 76.59, 76.61, 76.63, 76.65 & 76.67, all references to "cable television system[s] and "system[s] are deleted and the term "community unit[s]" is substituted.

12. Section 76.59(b) is amended to read as follows:

§ 76.59 Provisions for smaller television markets.

* * * * *

(b) In addition to the television broadcast signals carried pursuant to paragraph (a) of this section, any such community unit constituting all or part of a system having fewer than 500 subscribers may carry any additional television signals. Any such community unit constituting all or part of a system having 500 or more subscribers may carry sufficient additional signals so that, including the signals required to be carried pursuant to paragraph (a) of this section, it can provide the signals of a full network station of each of the major national television networks, and of one independent television station: *Provided, however,* That, in determining how many additional signals may be carried, any authorized but not operating television broadcast station that, if operational would be required to be carried pursuant to paragraph (a) (1) of this section, shall be considered to be operational for a period terminating 18 months after grant of its initial construction permit.

* * * * *

13. Section 76.61(b) is amended to read as follows:

§ 76.61 Provisions for first 50 major television markets.

* * * * *

(b) In addition to the television broadcast signals carried pursuant to paragraph (a) of this section, any such community unit constituting all or part of a system having fewer than 500 subscribers may carry any additional television signals. Any such community unit constituting all or part of a system having 500 or more subscribers may carry sufficient additional signals so that, including the signals required to be carried pursuant to paragraph (a) of this section, it can provide the signals of a full network station of each of the major national television networks, and of three independent television stations: *Provided, however,* That in determining how many additional signals may be carried, any authorized but not operating television broadcast station that, if operational, would be required to be carried pursuant to paragraph (a) (1) of this section, shall be considered to be operational for a period terminating 18 months after grant of its initial construction permit.

14. Section 76.65(b) amended to read as follows:

§ 76.65 Grandfathering Provisions.

* * * * *

(b) The provisions of §§ 76.57, 76.59, 76.61 and 76.63 shall not be deemed to require the deletion of any television broadcast or translator signals which a system community unit having fewer than 50 subscribers but constituting all or part of a system having 500 or more subscribers was carrying prior to May 16, 1977, until the community unit has 50 subscribers.

15. Section 76.67(f) is amended to read as follows:

§ 76.67 Sports Broadcasts.

* * * * *

(f) The provisions of this section shall not apply to any cable television system having fewer than 500 subscribers.

§ § 76.92, 76.94, 76.95, 76.97, 76.99, 76.151 and 76.159 [Amended]

16. Sections 76.92, 76.94, 76.95, 76.97, 76.99, 76.151, and 76.159 are amended to delete the term "cable television system" and the word "system[s]" and substitute the term "community unit."

17. Section 76.95(b) is amended, and the note at the end of paragraph (d) deleted to read as follows:

§ 76.95 Exceptions.

* * * * *

(b) The provisions of §§ 76.92 and 76.94 shall not apply to a cable television system having fewer than 1000 subscribers. Within 60 days following the provision of service to 1000 subscribers, each such system shall file a notice to that effect with the Commission and shall send a copy thereof to all television broadcast and translator stations carried by the system.

* * * * *

18. Section 76.97(b) is amended, and the note at the end of paragraph (b) deleted to read as follows:

§ 76.97 Waiver petitions.

* * * * *

(b) The fifteen (15) day period specified in paragraph (a) shall not commence until the television broadcast station requesting exclusivity has initiated service pursuant to program test authority as provided in § 73.629 of this chapter, and until the cable television system serves 1000 or more subscribers.

§ 76.153 [Amended]

19. In § 76.153, paragraphs (a) and (b) are amended to delete the term "each cable system" and substitute the term "each cable television system operator," and in paragraph (c) the term "in the cable system community" immediately preceding the proviso is deleted and the term "in the cable community" is substituted.

§ 76.155 [Amended]

20. In § 76.155, paragraphs (c) and (d) are amended to delete the term "cable television system" and substitute the term "cable television system operator."

21. Section 76.161 is amended to delete the "NOTE" and to read as follows:

§ 76.161 Exception.

The provisions of §§ 76.99 and 76.151 shall not apply to a cable television system having fewer than 1000 subscribers. Within sixty (60) days following the provision of service to 1000 subscribers each such system operator shall file a notice to that effect with the Commission and shall send a copy thereof to all television broadcast stations carried by the cable television system.

22. Section 76.205 is amended to delete the term "[cable television] system" and substitute the term "cable television system operator," and paragraph (a) is amended to read as follows:

§ 76.205 Origination cablecasts by candidates for public office.

(a) *General requirements.* If a cable television system operator shall permit any legally qualified candidate for public office to use the system's origination channel(s) and facilities therefor, the system operator shall afford equal opportunities to all other such candidates for that office: *Provided, however,* That such cable television system operator shall have no power of censorship over the material cablecast by any such candidate: *And provided, further,* That an appearance by a legally qualified candidate on any:

(1) Bona fide newscast,

(2) Bona fide interview,

(3) Bona fide news documentary (if the appearance of the candidate is incidental to the presentation of the subject or subjects covered by the news documentary), or

(4) On-the-spot coverage of bona fide news events (including but not limited to political conventions and activities incidental thereto), shall not be deemed to be use of the facilities of the system within the meaning of this paragraph.

NOTE.—The Fairness Doctrine is applicable to these exempt categories. See § 76.209.

* * * * *

23. In § 76.209, paragraphs (a) and (c) are amended to delete all references to "cable television system" or "system" and substitute the term "cable television system operator," and paragraphs (b) and (d) are amended to read as follows:

§ 76.209 Fairness doctrine; personal attacks; political editorials.

* * * * *

(b) When, during such origination cablecasting, an attack is made upon the honesty, character, integrity, or like personal qualities of an identified person or group, the cable television system operator shall, within a reasonable time and in no event later than one (1) week after the attack, transmit to the person or group attacked: (1) Notification of the date, time, and identification of the cablecast; (2) a script or tape (or an accurate summary if a script or tape is not available) of the attack; and (3) an offer a reasonable opportunity to respond over the system's facilities.

* * * * *

(d) Where a cable television system operator, in an editorial, (1) endorses or (2) opposes a legally qualified candidate or candidates, the system operator shall, within 24 hours of the editorial, transmit to respectively (i) the other qualified candidate or candidates for the same office, or (ii) the candidate opposed in the editorial, (a) notification of the date, time, and channel of the editorial; (b) a script or tape of the editorial; and (c) an offer of a reasonable opportunity for a candidate or spokesman of the candidate to respond over the system's facilities: *Provided, however,* That where such editorials are cablecast within 72 hours prior to the day of the election, the system operator shall comply with the provisions of this paragraph sufficiently far in advance of the broadcast to enable the candidate or candidates to have a reasonable opportunity to prepare a response and to present it in a timely fashion.

24. In § 76.213, paragraph (a) is amended to read as follows:

§ 76.213 Lotteries.

(a) No cable television system operator, except as in paragraph (c), when engaged in origination cablecasting shall transmit or permit to be transmitted on the origination cablecasting channel or channels any advertisement of or information concerning any lottery, gift enterprise, or similar scheme, offering prizes dependent in whole or in part upon lot or chance, or any list of prizes drawn or awarded by means of any such lottery, gift enterprise, or scheme, whether said list contains any part or all of such prizes.

* * * * *

25. Section 76.215 is amended to read as follows:

§ 76.215 Obscenity.

No cable television system operator when engaged in origination cablecasting shall transmit or permit to be transmitted on the origination cablecasting channel or channels material that is obscene or indecent.

26. In § 76.221, all references to the term "cable television system" or "system" are deleted, and the term "cable television system operator" is substituted, and paragraphs (b) and (d) are amended to read as follows:

V 4 2 7 1 APR 13 7 7 UMI

§ 76.221 **Sponsorship identification; list retention; related requirements.**

• • • • •

(b) Each cable television system operator engaged in origination cablecasting shall exercise reasonable diligence to obtain from employees, and from other persons with whom the system operator deals directly in connection with any matter for cablecasting, information to enable such system operator to make the announcement required by this section.

• • • • •

(d) The announcement required by this section shall, in addition to stating the fact that the origination cablecasting matter was sponsored, paid for or furnished, fully and fairly disclose the true identify of the person or persons, or corporation, committee, association or other unincorporated group, or other entity by whom or on whose behalf such pyament is made or promised, or from whom or on whose behalf such services or other valuable consideration is received, or by whom the material or services referred to in paragraph (c) of this section are furnished. Where an agent or other person or entity contracts or otherwise makes arrangements with a cable television system operator on behalf of another, and such fact is known or by the exercise of reasonable diligence, as specified in paragraph (b) of this section, could be known to the system operator, the announcement shall disclose the identity of the person or persons or entity on whose behalf such agent is acting instead of the name of such agent. Where the origination cablecasting material is political matter or matter involving the discussion of a controversial issue of public importance and a corporation, committee, association or other unincorporated group, or other entity is paying for or furnishing the matter, the system operator shall, in addition to making the announcement required by this section, require that a list of the chief executive officers or members of the executive committee or of the board of directors of the corporation, committee, association or other unincorporated group, or other entity shall be made available for public inspection at the local office of the system. Such lists shall be kept and made available for a period of two years.

• • • • •

§ 76.225 [Amended]

27. In § 76.225, all references to "cable television system" are deleted and the term "community unit" is substituted.

28. In § 76.252, the introductory language in paragraph (a), and paragraph (b) are amended to read as follows:

§ 76.252 **Channel capacity.**

(a) Any cable television system having 3500 or more subscribers shall comply with the following requirements respecting channel capacity:

• • • • •

(b) This section applies to all cable television systems that are located in whole or in part within a major television market and that commence operations after March 31, 1972. Systems that are located outside of a major television market and that commense operations after March 31, 1977, shall comply upon commencement of operations. All other systems shall comply on or before June 21, 1986. Systems that are in compliance with the provisions of subparagraph (a) (1) are not required to modify their facilities in order to comply with subparagraph (a) (2) of this section.

29. In § 76.254, the introductory language in paragraph (a) and paragraphs (c), (d), and (f) are amended as follows, and in paragraphs (a) (1), (a) (2), (a) (3), (a) (4), and (e), the phrase "each such system" is deleted and the phrase "the operator of each such system" is substituted:

§ 76.254 **Number and designation of access channels.**

Any cable television system having 3500 or more subscribers shall comply with the following requirements respecting the number and designation of access channels:

(a) The operator of each such system shall, to the extent of the system's activated channel capability, comply with the following requirements:

• • • • •

(c) The operator of each such system shall, in any case, maintain at least one full channel for shared access programming: *Provided, however*, That, in the case of systems in operation on June 21, 1976, if insufficient activated channel capability is available to provide one full channel for shared access programming the system operator shall provide whatever portions of channels are available for such purposes. In meeting its access obligations, every operator of a cable television system shall make reasonable efforts in programming the system's bandwidth to avoid the displacement of access service.

(d) Whenever any of the channels described in paragraph (a) or (c) of this section is in use during 80 percent of the weekdays (Monday–Friday) for 80 percent of the time during any consecutive three-hour period for six consecutive weeks, the system operator shall have six months in which to make a new channel available for the same purposes: *Provided, however*, That the channel expansion mandated by this paragraph shall not exceed the activated channel capability of the system.

• • • • •

(f) Until March 31, 1977, operators of systems that are located outside the major television markets or that commenced operation prior to March 31, 1972 may comply with the requirements of this section by making a reasonable effort to provide channel time for local non-operator presentation of cablecast programs.

30. In § 76.256, the introductory language and paragraphs (a), (c) (3), and (d) (4) are amended as follows, paragraphs (b), (d) (1), (d) (2), and (d) (3) are amended to delete the terms "each such system" and "such system" and substitute the term "the operator of each such system," paragraph (c) is amended to delete the word "system" and substitute the term "system operator," and the "NOTE" after paragraph (d) (4) is deleted:

§ 76.256 **Access services.**

Any cable television system having 3500 or more subscribers shall comply with the following requirements respecting the provision of access services:

(a) *Equipment requirement.* The operator of each such system shall have available equipment for local production and presentation of cablecast programs other than automated services and permit its use for the production and presentation of public access programs. The operator of such system shall not enter into any contract, arrangement, or lease for use of its cablecast equipment which prevents or inhibits the use of such equipment for a substantial portion of time for public access programming.

• • • • •

(c) • • •

(3) Charges for equipment, personnel, and production of public access programming shall be reasonable and consistent with the goal of affording users a low-cost means of television access. No charges shall be made for live public access programs not exceeding five minutes in length.

NOTE.—Operators of systems that are located outside the major television markets or that commenced operation prior to March 31, 1972 are not required to provide any free production facilities prior to March 31, 1977.

• • • • •

(d) • • •

(4) The operating rules governing public, educational, and leased access programming shall be filed with the Commission within 90 days after the system operator first activates any such channels, and shall be available for public inspection as provided in § 76.305(b). Except on Commission authorization, or with respect to local government access programming, no local entity shall prescribe any other rules concerning the number or manner of operation of access channels; however, franchise specifications concerning the number of such channels for systems in operation prior to March 31, 1972 shall continue in effect.

31. Section 76.258 is amended and a Note is added to read as follows:

§ 76.258 **Non-federal access regulation; voluntary access.**

No cable television system shall be required by a state or local entity to exceed the provisions of §§ 76.252, 76.254, and 76.256 concerning channel capacity, activated channel capability, and equipment, absent Commission authorization, even if such a system has previously been certificated, pursuant to § 76.11, based on proposals or operations in excess of these provisions. If a system having fewer than 3500 subscribers provides access services, it shall comply with the provisions of § 76.256 (b) and (d).

NOTE.—Nothing in this section shall be construed as limiting the authority of state and local entities to regulate two-way, point-to point, intrastate nonvideo cable transmission.

Subpart H—General Operating Requirements

32. In Subpart H, a new § 76.300 is added to read as follows:

§ 76.300 **Scope of application.**

(a) The provisions of §§ 76.306, 76.307 and 76.311 are applicable to all cable television systems.

(b) The provisions of §§ 76.301 and 76.305 are not applicable to any cable television system serving fewer than 500 subscribers.

33. In § 76.305, the headnote, paragraph (b) and the introductory language in paragraph (a) and paragraph (c) are amended as follows, paragraphs (a) (2), (a) (3), (a) (4), and (d) are amended to delete the term "cable television system," and word "system," and substitute "system operator": and paragraph (a) (5) is amended to delete the term "cable system" and substitute the term "community unit."

§ 76.305 **Records to be maintained locally by cable television system operators for public inspection.**

(a) *Records to be maintained.* The operator of every cable television system having 500 or more subscribers shall maintain for public inspection a file containing the following:

• • • • •

(b) *Location of records.* The public inspection file shall be maintained at the office which the system operator maintains for the ordinary collection of subscriber charges, resolution of subscriber complaints, and other business or at any accessible place in the community served by the system unit(s) (such as a public registry for documents or an attorney's office). The public inspection file shall be available for public inspection at any time during regular business hours.

(c) *Period of retention.* The records specified in paragraphs (a) (1), (2), (3), and (8) shall be maintained for 15 years or until the system receives a certificate or certificates of compliance from the Commission occasioned by a local franchise review, whichever occurs later. The records specified in paragraph (a) (4) shall be retained for two years. The records specified in paragraph (a) (5) shall be retained for one year after an amendment to such record is placed in the public inspection file. The records specified in paragraph (a) (6) shall be retained so long as an authorization for a Cable Television Relay Station and renewals thereof are outstanding. The records specified in paragraph (a) (7) shall be retained for the periods specified in §§ 76.95(d), 76.205(c), 76.221(f), 76.225 (a), 76.256(d), and 76.311(f).

• • • • •

34. Section 76.306 is amended to read as follows:

§ 76.306 **Records of subscribers.**

The operator of every cable television system shall retain all records, in whatever form maintained, which are kept of the subscribers served during the last month of each quarter of operation. (See § 1.1101(f).) Every cable television system operator shall submit such records upon request by an authorized representative of the Commission, and shall retain such records for a period of three years.

35. Section 76.307 is amended to read as follows:

§ 76.307 **System inspection.**

The operator of a cable television system shall make the system, its public inspection file (if required by Section 76.305), and its records of subscribers available for inspection upon request by an authorized representative of the Commission at any reasonable hour.

36. In Subpart I, § 76.403 is amended to delete the term "system community" and substitute the term "community unit," and a note is added at the end of the section, to read as follows:

§ 76.403 **Cable television system reports.**

• • • • •

NOTE.—The operator of a cable television system having fewer than 500 subscribers shall only be required to file schedules 1 and 2 of Form 325 for each community unit.

Subpart K—Technical Standards

37. In § 76.601, paragraphs (b), (c), (d) and (e) are amended to delete all references to "cable television system(s)" and the word "system(s)", and substitute the term "community unit(s): and a new paragraph (f) is added to read as follows:

§ 76.601 **Performance tests.**

• • • • •

(f) The provisions of paragraphs (b), (c), and (e) of this section shall not apply to any cable television system having fewer than 500 subscribers; *Provided, however*, That any cable television system using any frequency spectrum other than that allocated to over-the-air television and FM broadcasting (as described in §§ 73.603 and 73.210) is required to conduct all tests, measurements, and monitoring of radiation and signal leakage that are required by this subpart.

38. In § 76.605, paragraphs (a), (a) (2), (a) (4), (a) (9) (i), (a) (12), and (b) are amended to delete all reference to the term "cable television system(s)" and the word "system(s)" and substitute the term "community unit(s)," and paragraph (c) is amended to read as follows:

§ 76.605 **Technical standards.**

• • • • •

(c) Paragraph (a) (12) of this section shall become effective March 31, 1972. All other provisions of this section shall become effective in accordance with the following schedule:

	Effective date
Community units in operation prior to Mar. 31, 1972	Mar. 31, 1977.
Community units commencing operations on or after Mar. 31, 1972	Mar. 31, 1972.

APPENDIX A

Following is an alphabetical listing of parties filing comments and/or reply comments in this proceeding:

Allen's TV Cable Service, Inc. et al.
American Broadcasting Companies, Inc.
Apartment and Office Building Association.
Arizona Cable Television Association.
Association of Maximum Service Telecasters (MST).
Atlantic Coast TV Cable et al.
Booth American Company.
Cablecom-General, Inc.
Cablevision Systems Corporation (CSC).
California Community Television Association (CCTA).
Calvert Telecommunications Corp. (Caltec).
Central New York Cable TV (Central).
Citizens for Cable Awareness in Pennsylvania (CCAP).
Comlab Corporation.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1068]

MILK IN THE UPPER MIDWEST MARKETING AREA

Proposed Suspension of a Certain Provision of the Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed Suspension of Rule.

SUMMARY: This notice invites written comments on a proposal to suspend a requirement under the Upper Midwest milk marketing order that handlers make a partial payment for milk received from producers by the 25th day of the month. Handlers indicate that their producers want such payments to be made about 8 days later so that their partial payments and final payments for milk will be spaced about 15 days apart. The proposed suspension would be for May through October 1977.

DATE: Comments are due on or before April 20, 1977.

ADDRESS: Comments (four copies) should be filed with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT:

Clayton H. Plumb, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, (202-447-6273).

SUPPLEMENTARY INFORMATION: Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), the suspension of paragraph (a) (4) of § 1068.73 of the order regulating the handling of milk in the Upper Midwest marketing area is being considered for the period May 1, 1977 through October 31, 1977.

All persons who desire to submit written data, views, or arguments in connection with the proposed suspension should file the same with the Hearing Clerk, United States Department of Agriculture, Washington, D.C. 20250, on or before April 19, 1977. All documents filed should be in quadruplicate.

All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Paragraph (a) of § 1068.73 requires handlers to make a partial payment to cooperative associations and nonmember producers on or before the 25th day of the month for milk delivered during the first 15 days of the month. Suspension of paragraph (a) (4) would remove this requirement only with respect to producers for whom a cooperative association is not collecting payments; the requirement would remain in effect for milk purchased from a cooperative association.

Paragraph (a) (4) of § 1068.73 has been suspended since November 1976 (41 FR 51389). Several handlers request that the suspension be extended for an additional period of six months pending a hearing to amend said provision of the order to allow a partial payment on or before the 3d day after the end of the month. Currently these handlers are making a partial payment on or about the 3d day of the month, 15 days prior to the final payment date which is the 18th day of the month. This enables such handlers to accommodate their producers who request that their payments be spaced about 15 days apart.

Signed at Washington, D.C. on April 8, 1977.

WILLIAM T. MANLEY,
Acting Administrator.

FEDERAL RESERVE SYSTEM

[12 CFR Part 217]

[Reg. Q; Docket No. R-0024]

INTEREST ON DEPOSITS

Pooling of Funds

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Withdrawal of rulemaking proposal.

SUMMARY: On March 8, 1976 the Board of Governors proposed an amendment to Regulation Q concerning payment of interest on pooled funds. In view of the comments received and the action of the Federal Deposit Insurance Corporation to limit deposit insurance for certain organizations, the Board is now withdrawing its proposal.

FOR FURTHER INFORMATION CONTACT:

Allen L. Raiken, Assistant General Counsel, Legal Division, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, 202-452-3625.

SUPPLEMENTARY INFORMATION: By notice published in the FEDERAL REGISTER (41 FR 10917), the Board of Governors on March 8, 1976 proposed to amend Regulation Q (12 CFR 217) to prohibit member banks from paying interest on time deposits of $100,000 or more at rates in excess of those established by Regulation Q for deposits of less than $100,000 where the bank knows or has reason to know that such time deposits consist of funds acquired or solicited for the purpose of pooling such funds primarily to obtained the exemption from interest rate ceilings provided in § 217.7(a). Subsequently, the period for receipt of public comments on this proposal was extended to July 9, 1976 (41 FR 20590).

Public Law 93-123 (87 Stat. 448) directs the Board to establish maximum rates of interest that may be paid by member banks on time deposits of less than $100,000. The Board's regulatory proposal to prohibit the practice of pooling funds to obtain higher rates of interests was based in part upon the belief that pooling violates Regulation Q interest rate ceiling limitations since it enables depositors who would otherwise be subject to the ceiling rates of interest prescribed by Regulation Q to obtain the generally higher rates that may be available on large denomination certificates of deposit (CDs). The Board's proposal was also based on the belief that pooling may have potentially adverse effects on member banks and nonmember financial institutions due to the potential for disruptive shifts of funds as a consequence of active soliciting of funds by prospective poolers.

The Board has reviewed the one hundred seventy-one comments received from the public on the pooling proposal. One hundred forty-one of these comments opposed adoption of the pooling proposal and thirty favored adoption of the proposed amendment. Those opposed to the adoption of the amendment expressed the view that the proposal was unfair to small depositors and would result in a shifting of funds from bank CDs to other forms of investments such as commercial paper. Several responents indicated that the proposal would not prevent the practice of pooling since CDs would be available on the secondary market. Those who favored adoption of the proposal generally recognized that pooling results in a circumvention of the Regulation Q interest rate ceilings. Several banks expressed the view that pooling could lead to disruptive shifts of funds especially from institutions outside large money centers.

After consideration of the comments received and other available information, the Board has determined not to adopt the proposed amendment to Regulation Q to prohibit pooling of funds at this time. In making this determination the Board notes the action of the Federal Deposit Insurance Corporation in February 1977 to limit the Federal deposit insurance coverage to $40,000 in any one insured bank of any trust or other business arrangement that has registered or is required to register with the Securities and Exchange Commission as an investment company under Section 8 of the Investment Company Act of 1940. The Board believes that the action of the FDIC to limit deposit insurance coverage of such organizations may minimize the potential for disruptive shifts of funds among depository institutions as a result of pooling. Accordingly, the Board has determined not to adopt the proposed regulation at this time and hereby terminates the rulemaking proceeding initiated on March 8, 1976.

Board of Governors of the Federal Reserve System, March 31, 1977.

THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.77-10829 Filed 4-12-77;8:45 am]

FEDERAL DEPOSIT INSURANCE CORPORATION

[12 CFR Part 309]

DISCLOSURE OF INFORMATION

Revision of Regulations

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Proposed Rule.

SUMMARY: The Federal Deposit Insurance Corporation proposes to revise its regulations on the disclosure of information. These regulations have become long and complex as the result of frequent amendment. The revision is intended to simplify and update the format of the regulations.

DATE: Comments must be received before May 13, 1977.

ADDRESS: Send comments to the Office of the Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street, NW., Washington, D.C. 20429.

FOR FURTHER INFORMATION CONTACT:

Douglas H. Jones, Legal Division, Federal Deposit Insurance Corporation, 550 17th Street, NW., Washington, D.C. 20429, (202-389-4433).

SUPPLEMENTARY INFORMATION: The Federal Deposit Insurance Corporation (the "Corporation") proposes to revise its regulations on Published and Unpublished Records and Information contained in 12 CFR Part 309. The revision is primarily intended to accomplish two things: (1) to simplify and update the procedures followed by the Federal Deposit Insurance Corporation in disclosing records it maintains; and, (2) to clarify and provide greater authority at the divisional level for disclosures which presently require the authorization of the Chairman of the Corporation's Board of Directors.

The substantive content of the regulations will remain largely unchanged; however, the recodification will provide increased clarity. To facilitate public access, the regulation will be divided functionally into seven sections. Included among these are sections providing specifically for the method of access to prescribed public documents, the procedures for using the Freedom of Information Act, and the provisions for disclosing records exempt from the requirements of the Freedom of Information Act. By dividing the regulation in this manner, it is expected that the public will be benefited by both the simpler format and the resulting ease in utilization.

Under these revisions, substantive changes have been proposed with regard to the level at which confidential information may be disclosed. Under the current regulation, there are only a few narrowly defined and often vague instances in which a Director or Chief of a Corporation Division or Office may disclose information maintained by the Corporation. All other disclosures require the express consent of the Chairman of the Corporation's Board of Directors. The proposed regulation will both clarify existing delegations and expand the authority of the Director of the Corporation's Division of Bank Supervision and its General Counsel. The revisions will enable the Corporation to respond more quickly to those seeking access to confidential information and will free the Chairman of the Corporation's Board of Directors from the necessity of reviewing many of the routine requests for disclosure.

These revisions are authorized under paragraphs "Seventh" and "Tenth" of section 9 of the Federal Deposit Insurance Act, as amended (12 U.S.C. 1819 "Seventh" and "Tenth"). Interested persons may participate in this proposed rulemaking by submitting written data, views, or arguments to the Office of the Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street, NW., Washington, D.C. 20429. Each person submitting a comment should include his name and address, and give reasons for any recommendations. All comments received before May 13, 1977, will be considered before final action is taken on the proposal. The proposal may be changed in the light of the comments received.

By order of the Board of Directors, April 5, 1977.

FEDERAL DEPOSIT INSURANCE CORPORATION,
ALAN R. MILLER,
Executive Secretary.

PART 309—DISCLOSURE OF INFORMATION

Sec.
309.1 Purpose and scope.
309.2 Definitions.
309.3 Publication.
309.4 Information made available for public inspection.
309.5 Information made available under the Freedom of Information Act.
309.6 Disclosure of exempt records by Corporation personnel.
309.7 Service of process.

§ 309.1 Purpose and scope.

This regulation sets forth the basic policies of the Federal Deposit Insurance Corporation regarding information it maintains and the procedures for obtaining access to such information.

§ 309.2 Definitions.

For purposes of this Part:

(a) The term "bank", as used in § 309.6, includes banks that have applied to the Corporation for federal deposit insurance, closed banks, and presently operating banks, and all affiliates of any of the foregoing;

(b) The term "Corporation" means the Federal Deposit Insurance Corporation;

(c) The words "disclose" or "disclosure" means to give access to a record, whether by producing the written record or by verbal discussion of its contents, but, unless specifically stated otherwise, do not extend to the making of copies or verbatim transcriptions of a record;

(d) The term "examination" includes, but is not limited to, formal and informal investigations of irregularities involving suspected violations of Federal or State civil or criminal laws, or unsafe and unsound banking practices, as well as such other investigations as may be conducted pursuant to law;

(e) The term "record" includes records, files, documents, reports, correspondence, books, and accounts, or any portion thereof; and

(f) The term "report of examination" includes, but is not limited to, examination reports resulting from examinations of banks conducted jointly by Corporation examiners and State banking authority examiners, as well as reports resulting from examinations conducted solely by Corporation examiners.

§ 309.3 Publication.

(a) *Information published in the "Federal Register."* In accordance with the requirements of 5 U.S.C. 552(a)(1), the Corporation publishes the following information in the FEDERAL REGISTER for the guidance of the public: (1) descriptions of its central and field organization and the established places at which, the officers from whom, and the methods whereby, the public may secure information, make submittals or requests, or obtain decisions; (2) statements of the general course and method by which its functions are channeled and determined, including the nature and requirements of all formal and informal procedures available; (3) rules of procedure, descriptions of forms available or the places at which forms may be obtained, and instructions as to the scope and contents of all papers, reports or examinations; (4) substantive rules of general applicability adopted as authorized by law, and statements of general policy or interpretation of general applicability formulated and adopted by the Corporation; (5) every amendment, revision or repeal of the foregoing; and (6) general notices of proposed rulemaking.

(b) *Documents published by the Corporation.* The Corporation periodically publishes a number of documents pertaining to its operations and those of the insured banks it supervises. A current list of Corporation publications may be obtained, at no charge, from the Office

V 42 71 APR 13 77 UMI

of Information, Federal Deposit Insurance Corporation, 550 17th Street, NW., Washington, D.C. 20429, telephone 202–389–4221.

§ 309.4 Information made available for public inspection.

The following information is available for public inspection and copying during normal business hours at the Office of the Executive Secretary, Records Unit, Federal Deposit Insurance Corporation, 550 17th Street, NW., Washington, D.C. 20429, or at the appropriate Regional Office of the Corporation for information maintained at those offices:

(a) *Information required by law to be made public.* (1) All final opinions (including concurring and dissenting opinions) and all final orders made in the adjudication of cases;

(2) Those statements of policy and interpretations which have been adopted by the Corporation but have not been published in the FEDERAL REGISTER;

(3) The Corporation's Manual of Examination Policies and Instructions to Liquidators; and

(4) Filings and reports required under the provisions of 12 CFR Part 335 and the Securities and Exchange Act of 1934, as amended (15 U.S.C. 78a), by insured nonmember banks the securities of which are registered with the Corporation pursuant to section 12 of that Act (15 U.S.C. 78*l*). These filings and reports are available as detailed in § 335.3.

To the extent permitted by law, the Corporation may delete identifying details when it makes available or publishes a final opinion, final order made in the adjudication of a case, statement of policy, interpretation, or staff manual or instruction. In each case the justification for the deletion will be explained in writing.

(b) *Information made available at the Corporation's discretion.* (1) The following reports filed by insured nonmember banks (and certain nonfederally insured banks in the case of reports of condition) on or after January 1, 1973, which would otherwise be exempt from disclosure under the provisions of subsection (b)(8) of the Freedom of Information Act (5 U.S.C. 552(b)(8)): (i) Consolidated Reports of Income for mutual savings banks,[1] (ii) Consolidated Reports of Income for commercial banks,[2] (iii) Reports of Condition for mutual savings banks,[3] (iv) Reports of Condition for commercial banks;[4]

(2) Public files on applications filed with the Corporation. These files are maintained, in accordance with § 303.14(c), at the Regional Office of the Corporation where the applicant bank is located and include information on applications for deposit insurance by proposed new banks, and applications by existing banks to establish branches or to relocate their main or branch offices;

(3) Reports required under section 7(j) of the Federal Deposit Insurance Act (12 U.S.C. 1817(j)) on changes in the control of an insured bank, to the extent that such reports contain; (i) the name of the bank in which control has changed; (ii) the names of the sellers and purchasers of the stock; (iii) the number of shares of stock involved in the transaction; and (iv) the number of shares of issued stock of the bank that are outstanding; and

(4) The following statistical surveys filed by insured banks, which would otherwise be exempt from disclosure under the provisions of subsection (b)(8) of the Freedom of Information Act (5 U.S.C. 552(b)(8)): (i) Summary of Deposits for commercial banks;[5] and Summary of Deposits for mutual savings banks.[6] Requests for information contained in the surveys should be sent to the Chief of the Bank Statistics and Financial Analysis Section, Division of Management Systems and Economic Analysis, Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, D.C. 20429, telephone 202–389–4545. All requests for the above information, unless otherwise indicated, should be sent either to the Office of the Executive Secretary, Records Unit, Federal Deposit Insurance Corporation, 550 17th Street, N.W., Washington, D.C. 20429 for information located at the Corporation's Washington office; or, to the appropriate Corporation Regional Office for information under § 309.4(b)(2). A list of the Corporation's Regional Offices is available at no charge from the Office of Information, Federal Deposit Insurance Corporation, 550 17th Street, N.W., Washington, D.C. 20429 (telephone 202–389–4221).

(c) *Index.* The Corporation also maintains and makes available for public inspection and copying a current index of matters covered by § 309.4(a) (1) and (2) which were issued, adopted, or promulgated after July 4, 1967. The Corporation on request will provide copies of the index at the direct cost of duplication as set forth in § 309.5(b). All such requests should be sent to the Office of the Executive Secretary, Records Unit, Federal Deposit Insurance Corporation, 550 17th Street, Washington, D.C. 20429.

(d) *Fee schedule.* The Corporation will provide copies of any records made available pursuant to this § 309.4 to any person who agrees to pay the cost of searching and duplicating as set forth in § 309.5(b).

§ 309.5 Information Made Available Under the Freedom of Information Act (5 U.S.C. 552).

(a) *Disclosure upon request.* Except for information which is: (1) Published or made available for public inspection pursuant to §§ 309.3 and 309.4 (the availability of which is governed by those sections); (2) held by the Corporation as the receiver of a closed insured bank, or liquidator of assets of an open or closed insured bank; (3) information furnished by another agency which remains the property of that agency; or (4) information exempted from disclosure under § 309.5(f), the Corporation, upon request for any records in the possession or control of the Corporation or any officer, employee, or agent of the Corporation, will make such records available to any person who agrees to pay the costs of searching for[7] (whether or not the search is successful) and duplicating them. The request must be in writing and reasonably describe the records sought. All requtsts for records under this § 309.5(a) should be sent to the Office of the Executive Secretary, Records Unit, Federal Deposit Insurance Corporation, 550 17th Street, N.W., Washington, D.C. 20429.

(b) *Fees for searching and duplicating.* Persons requesting records of the Corporation under § 309.5(a) shall be charged at the rate of (1) $4.50 per hour for searching where clerical personnel are used, (2) $10.00 per hour for searching where supervisory or professional personnel are used, (3) $175.00 per central processing unit hour for computer time used, and (4) 10 cents per page for duplicating. Any request for records should specify an aggregate dollar limit which the person making the request is willing to pay for the costs of searching and duplicating unless such costs are believed to be nominal. Where the Corporation estimates that the cost of searching and duplicating will exceed the aggregate amount specified in the request, or where no dollar amount is specified, the Corporation will promptly advise the person requesting the records of the estimated cost. In addition, whenever the Corporation estimates that the cost of searching and duplicating will exceed $200.00, the person making the request will be required to pay in advance an amount equal to 20 percent of the estimated cost. For purposes of computing the time in which the Corporation must grant or deny a request for records, such a request will not be deemed to have been received by the Corporation until the person requesting the records agrees in writing to pay the cost of searching and duplication, as estimated by the Corporation and, where advance payment is required, until the Corporation receives the advance payment.

Upon written request and at fees comparable to those listed in this § 309.5(b),

[1] Consolidated Report of Income—Calendar Year (Including Domestic Subsidiaries), Form 73 (Savings).

[2] Consolidated Report of Income—Calendar Year (Including Domestic Subsidiaries), Form 73.

[3] Report of Condition, Form 64 (Savings).

[4] Consolidated Report of Condition of Bank and Domestic Subsidiaries, Form 64.

[5] Summary of Deposits—Commercial Banks, Form 8020/05.

[6] Summary of Deposits—Mutual Savings Banks, Form 8020/46.

[7] As used in this paragraph, the term "searching for" includes any method of extracting requested information from computerized record systems. The costs of searching for records may include, where applicable, any direct costs associated with their transfer and, where required to maintain the integrity of the Corporation's record systems, their indexing and/or filing.

the Corporation will undertake to compile requested information in summary, tabular or other form, unless the Corporation determines, in its discretion, that compliance with such a request would be unduly burdensome or time consuming.

(c) *Waiver or reduction of fees.* Whenever the Corporation determines that furnishing any requested record is in the public interest because it primarily benefits the general public, it may reduce or waive any fees which would normally be imposed. In no event will the Corporation impose a charge for furnishing records when the aggregate fees do not exceed $2.00 for any one request.

(d) *Records of another agency.* If a requested record is the property of another Federal agency or Department, and that agency or Department, either in writing or by regulation, expressly retains ownership of such record, upon receipt of a request for the record the Corporation will promptly inform the requester of this ownership and immediately shall forward the request to the proprietary agency or Department either for processing in accordance with the latter's regulations or for guidance with respect to disposition.

(e) *Records of receiver or liquidator of assets.* If a requested record is held by the Corporation in its capacity as the receiver of a closed insured bank or the liquidator of assets acquired from an open or closed insured bank, upon receipt of a request for the record the Corporation will inform the requester of the capacity in which it holds such record and shall forward the request to the Corporation's Division of Liquidation for processing and disposition. Disclosure of such records shall be subject to appropriate Federal or State law applicable to FDIC as receiver or liquidator as well as to the determination of any Federal or State court having jurisdiction over FDIC or over such record.

(f) *Exempt records.* The Corporation may refuse to grant a request for records which fall within one or more of the following exemptions: [8]

(1) Records which are (i) specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and (ii) are in fact properly classified pursuant to such Executive order;

(2) Records related solely to the internal personnel rules and practices of the Corporation;

(3) Records specifically exempted from disclosure by statute (other than the Privacy Act of 1974, 5 U.S.C. 552a), provided that such statute (i) requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, or (ii) establishes particular critheria for withholding or refers to particular types of matters to be withheld;

(4) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Interagency or intraagency memoranda or letters which would not be available by law to a private party in litigation with the Corporation;

(6) Personnel and medical files and similar files (including financial files) the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(7) Investigatory records compiled for law enforcement purposes, but only to the extent that disclosure of the records would (i) interfere with enforcement proceedings, (ii) deprive a person of a right to a fair trial or an impartial adjudication, (iii) constitute an unwarranted invasion of personal privacy, (iv) disclose the identity of a confidential source, (v) disclose investigative techniques and procedures, or (vi) endanger the life or physical safety of law enforcement personnel; and

(8) Records contained in or related to examination, operating, or condition reports prepared by or on behalf of, or for the use of, the Corporation or any agency responsible for the regulation or supervision of financial institutions.

To the extent that nonexempt portions of records are reasonably segregable from the exempt portions, the nonexempt portions shall be provided to the person making the request after deletion of the portions which are exempt.

(g) *Denial of requests.* Requests for records will be forwarded by the Executive Secretary to the head of the Corporation Division or Office which has custody of such records. Where it is determined that the requested information may be released, the appropriate Division or Office head will grant access to the information. A request for records may be denied only by the Executive Secretary or his designee, except that a request for records not responded to within 10 business days following its receipt by the Office of the Executive Secretary—by notice to the requester either granting the request, denying the request, or extending the time for making a determination on the request—shall, if the requester chooses to treat such delay in response as a denial, be deemed to have been denied by the head of the Division or Office to which the request was referred for action.

(h) *Appeals from denials of requests.* A person whose request for records has been denied, in whole or in part, has the right to appeal the denial to the Corporation's Board of Directors within 30 business days following receipt of notification of the denial.[9] All appeals of denials of requests for records should be forwarded in writing to the Office of the Executive Secretary, Records Unit, Federal Deposit Insurance Corporation, 550 17th Street, N.W., Washington, D.C. 20429.

(i) *Time limits.* (1) *Initial response.* The Corporation will notify the person making the request of its initial determination within 10 business days following the receipt of a request.

(2) *Appeals.* In the case of appeal from an initial denial, the Corporation will notify the appellant of the disposition thereof within 20 business days following receipt of the appeal.

(3) *Extension of time.* Under unusual circumstances the Corporation may require additional time, up to a maximum of 10 business days, to initially determine whether to grant or deny a request or to respond to an appeal of a previous denial. These circumstances would arise only in cases where (i) the records are in facilities, such as field offices or storage centers, that are not part of the Corporation's Washington office, (ii) the records requested are voluminous and are not in close proximity to one another, or (iii) there is a need to consult with another agency or among two or more components of the Corporation having a substantial interest in the determination. The Corporation will promptly give written notification to the person making the request of the estimated date it will make its initial determination and the reasons why additional time is required.

(j) *Contents of denial letters.* Where the Corporation denies, in whole or in part, a request for records, or denies an appeal with respect to a previous denial, the person making the request will be sent written notification of the denial. The written notification will (1) specify whether all or only a specific part of the request or appeal is being denied, (2) set forth the names and titles of each person responsible for the denial (where other than the person who signs the notification), (3) list the exemptions relied upon for the denial, and (4) inform the person making the request of either (i) the right to appeal the initial denial of any part of the request to the Corporation's Board of Directors within 30 business days following receipt of notification of the initial denial, or (ii) the right to judicial review under the Freedom of Information Act with respect to the denial of an appeal.

§ 309.6 Disclosure of Exempt Records by Corporation Personnel.

(a) *Exempt records.* The provisions of § 309.6 apply to any records which are exempt from disclosure under § 309.5(f) regardless of the fact that such records may be subject to disclosure under the Privacy Act of 1974 (5 U.S.C. 552a) or other Federal statute, any applicable regulation of the Corporation or any other Federal agency having jurisdiction thereof, or any directive or order of any court of competent jurisdiction.

[8] Classification of a record as exempt from disclosure under the provisions of § 309.5(f) shall not be construed as authority to withhold the record if it is otherwise subject to disclosure under the Privacy Act of 1974 (5 U.S.C. 552a) or other Federal statute, any applicable regulation of FDIC or any other Federal agency having jurisdiction thereof, or any directive or order of any court of competent jurisdiction.

[9] This provision shall not be construed as barring the Corporation's Board of Directors from reconsidering the denial of its own motion at any time within the 30-day period.

V 42 71 APR 13 77 UMI

(b) *Disclosure prohibited.* Except as provided in this § 309.6 or by Part 310,[10] no officer, employee, or agent of the Corporation shall disclose or permit the disclosure of any exempt records, or information contained therein, to any persons other than those officers, employees, or agents of the Corporation who have a need for such records in the performance of their official duties.

(c) *Disclosure authorized.* The following Corporation personnel are authorized to disclose or, where applicable, to furnish exempt records, subject to the restrictions stated below. Where, pursuant to this § 309.6, exempt records can be disclosed or furnished only in response to a written request from another governmental agency or a private party, the request should be signed by an individual authorized to make the request. The Corporation may require proof of such authorization prior to granting any such request.

(1) *Reports of examination and other exempt records—disclosure to bank.* The Director of the Corporation's Division of Bank Supervision, or anyone designated by him in writing, may disclose or furnish to any director or authorized officer or employee of any bank, information contained in, or copies of, reports of any examination of the bank (except the supervisory section of the report of examination) and other exempt records pertaining to that bank. However, all copies of such reports of examination and other information so furnished to any bank shall remain the property of the Corporation and under no circumstances shall the bank or any of its directors, officers, or employees disclose or otherwise make public in any manner such reports or exempt records without express written authorization from the Director of the Corporation's Division of Bank Supervision as provided in § 309.6 (c) (6).

(2) *Reports of examination and other exempt records—disclosure to other banking agencies.* The Director of the Corporation's Division of Bank Supervision, or anyone designated by him in writing, may disclose to any authorized officer or employee of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, any Federal Reserve Bank, and any State agency or authority which exercises general supervision over banks, reports of any examination of a bank and other exempt records pertaining to the bank. Copies of reports of examination or any other exempt records may be furnished by the Director of the Corporations' Division of Bank Supervision, or anyone designated by him in writing, to any State agency or authority which exercises general supervision over banks, to the extent that such reports and records pertain to a State chartered bank supervised by such agency or authority. In all other instances, copies of reports of examination or other exempt records may be furnished by the Director of the Division of Bank Supervision, or anyone designated him in writing, to a Federal or State banking agency or authority only in response to a written request from the head of the agency or authority seeking the record, or anyone whom he designates in writing as authorized to make such a request, which (i) identifies the record or records sought and (ii) gives the reasons for the request.[11] In every instance in which a copy of a report of examination or other exempt record is furnished, it shall remain the property of the Corporation and under no circumstances shall the agency or authority, or any official thereof, disclose or make public in any manner such reports or any portion thereof or other information so furnished.

(3) *Reports of examination and other exempt records—disclosure to nonbanking agencies.* The Director of the Corporation's Division of Bank Supervision, or anyone designated by him in writing, may furnish to the proper Federal or State prosecuting or investigatory authorities copies of exempt records pertaining to irregularities discovered in banks which are believed to constitute violations of any Federal or State civil or crminal law, or unsafe and unsound banking practices. In addition, the Director of the Corporation's Division of Bank Supervision, or anyone designated by him in writing, may disclose to any authorized officer or employee of any Federal or State agency or authority, for good cause shown, reports of any examination of a bank or other exempt records pertaining to that bank, *Provided*, That such disclosure only shall be made in response to a written request (signed by an authorized official of the agency making the request) which (i) identifies the record or records to which access is requested and (ii) gives the reasons for the request.

(4) *Reports of examination and other exempt records—disclosure by Corporation's General Counsel.* The Corporation's General Council may disclose to the proper Federal or State prosecuting or investigatory authorities exempt records relating to irregularities discovered in open and closed insured banks believed to constitute violations of any Federal or State statute.

(5) *Reports of examination and other exempt records—disclosure to private parties.* The Director of the Corporation's Division of Bank Supervision may disclose or furnish copies of reports of any examination of a bank or other exempt records pertaining to that bank to any private party where requested to do so in writing. The Director of the Corporation's Division of Bank Supervision shall furnish copies of the requested record only upon the fulfillment of such terms and conditions as he deems necessary to protect the confidential nature of the record, the financial integrity of the bank to which the record relates, and the legitimate privacy interests of any individual named in such record.

(6) *Reports of examination and other exempt records—disclosure by bank.* The Director of the Corporation's Division of Bank Supervision may authorize any director, officer or employee of a bank to disclose any report of examination or other exempt record in his custody to anyone who is not a director, officer or employee of the bank, under the same conditions as provided in § 309.6(c)(5). Such authorization may be given only in response to a written request from the party seeking the record which specifies the record being sought, the party's interest therein and the party's relationship to the bank to which the record relates. As a condition precedent to giving his authorization, the Director of the Corporation's Division of Bank Supervision may require that both the party seeking disclosure and the director, officer or employee having custody of the record agree to such limitations as the Director of the Corporation's Division of Bank Supervision deems necessary to protect the confidential nature of the record and to prevent unauthorized use thereof or disclosure of any information therein.

(7) *Production of exempt records and testimony of Corporation personnel.* The Corporation's General Counsel, or anyone designated by him in writing, may produce or authorize the production of any exempt record in response to a valid subpoena, court order, or other legal process and may direct any officer, employee, or agent of the Corporation to appear and testify regarding any exempt record at any administrative or judicial hearing or proceeding where such person has been served with a valid subpoena, court order, or other legal process requiring him to so testify, *Provided*, That such testimony shall relate solely to matters of which such individual had knowledge by virtue of his or her employment by the Corporation. The General Counsel, or anyone designated by him in writing, may produce or authorize the production of any exempt record sought in connection with any hearing or proceeding without the service of a subpoena, or other process requiring production, if he determines that the records to be produced are relevant to the hearing or proceeding and that production is in the best interests of justice. Where the General Counsel authorizes the production of any exempt record, or the testimony of any officer, employee or agent of the Corporation relative thereto, pursuant to this § 309.6(c)(7), he shall limit his authorization to so much of the record or testimony as is relevant to the issues at the hearing or proceeding, and he shall give his authorization only upon fulfillment of such conditions as he deems necessary to protect the confidential nature of the record consistent with any requirement that it be produced and made a part of the record of the hearing or proceeding.

(8) *Authority of the Chairman of the Corporation's Board of Directors.* Except where expressly prohibited by law, the Chairman of the Corporation's Board of Directors may authorize the disclosure of any information or the furnishing of copies of any records and, except where disclosure is required by law, he may direct any officer, employee or agent of the Corporation to refuse to disclose any record if it is determined that refusal to permit such disclosure is in the best interests of the Corporation and is not contrary to the public interest.

(9) *Limitations on disclosure.* Any disclosure permitted by this § 309.6(c) is discretionary and nothing in this § 309.6 (c) shall be construed as requiring the disclosure of information. Further, nothing in this § 309.6(c) shall be construed as restricting, in any manner, the authority of the Board of Directors, the Chairman of the Board of Directors, the Director of the Corporation's Division of Bank Supervision or anyone designated by him in writing, or the General Counsel or anyone designated by him in writing, in their discretion and in light of the facts and circumstances attendant in any given case, to impose conditions upon and to limit the form, manner, and extent of the disclosures permitted hereunder.

§ 309.7 Service of Process.

(a) *Advice by person served.* If any officer, director, or agent of the Corporation is served with a subpoena, court order, or other process requiring that person's personal attendance as a witness or the production of any exempt record of the Corporation, such person shall promptly advise the Office of the Corporation's General Counsel of such service, of the testimony and records described in the subpoena, and of all relevant facts which may be of assistance to the General Counsel in determining whether the individual in question should be authorized to testify or the records should be produced. Such person should also inform the court or tribunal which issued the process and the attorney for the party upon whose application the process was issued, if known, of the substance of this section. If any person who is not an officer, employee, or agent of the Corporation and who has custody of exempt records belonging to the Corporation is served with a subpoena, court order, or other legal process directing that person to produce such records or to testify with respect thereto, such person should give the same notice to the General Counsel and to the court or tribunal.

(b) *Appearance by person served.* Absent the authorization of the Corporation's General Counsel (or anyone designated by him in writing) to disclose the requested information, any officer, employee, or agent of the Corporation (and any person having custody of exempt records of the Corporation who is not an officer, employee, or agent of the Corporation), who is required to respond to a subpoena, court order, or other legal process, shall attend at the time and place therein specified and respectfully decline to produce any such record or give any testimony with respect thereto, basing such refusal on this section.

[FR Doc.77-10886 Filed 4-12-77;8:45 am]

[10] The procedures for disclosing records under the Privacy Act are separately set forth in Part 310.

[11] The request may be a blanket request for certain categories of records where appropriate.

CIVIL AERONAUTICS BOARD

[14 CFR Part 221]

[Economic Regs.
Docket 30385; EDR-322]

CONSTRUCTION, PUBLICATION, FILING AND POSTING OF TARIFFS OF AIR CARRIERS AND FOREIGN AIR CARRIERS

Filing of Tariff Justifications

APRIL 7, 1977.

AGENCY: Civil Aeronautics Board.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: This notice proposes to amend 14 CFR Part 221 to eliminate the requirement, imposed in 1973, that air freight forwarders and international air freight forwarders with annual revenues from forwarding operations of $5,000,000 or more, must file certain kinds of detailed economic data along with the filing of proposed changes in their tariff rates. The particular data affected are specified in paragraphs (b) and (c) of § 221.165 of the regulations, and include estimates of the cost of service, estimates of the aggregate effect of proposed rate changes on traffic, schedules and revenues, and a comparison table of existing and proposed rates. The proposed modification of the filing requirement does not change the obligation of all forwarders to file an explanation of any proposed tariff changes as specified in paragraph (a) of § 221.165. The action proposed by this notice was requested by the Air Freight Forwarders Association of America.

DATES: Comments by May 13, 1977.

ADDRESSES: Comments should be sent to Docket 30385, Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. Docket comments may be examined at the Docket Section, Civil Aeronautics Board, Room 711, Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C., as soon as they are received.

FOR FURTHER INFORMATION CONTACT:

Lawrence R. Myers, Rates and Agreements Division, Civil Aeronautics Board, (202-673-5791).

SUPPLEMENTARY INFORMATION: In a petition for an expedited rulemaking, the Air Freight Forwarders Association (AFFA) has requested the elimination of the detailed justification of rate tariff changes presently required of some forwarders by section 221.165 of the Board's Economic Regulations.

Under § 221.165, all air freight forwarders and international air freight forwarders are required to accompany any proposed tariff change, including the addition of new matter, with a basic explanation of the changes, including the reasons for them and, if applicable, the ratemaking principles employed. In addition, paragraphs (b) and (c) of that section require that all forwarders with annual revenues of $5,000,000 or more provide detailed economic information which includes, to the extent applicable, estimates of the cost of service, estimates of the aggregate effect of the changes upon the forwarder's traffic, schedules and revenues, and a comparison table of any rate changes. These are the same requirements imposed on certificated route and supplemental air carriers. The number of forwarders subject to all of the requirements, including those of paragraphs (b) and (c), is approximately 25 out of the 360 forwarders authorized.

In support of its request, AFFA notes that until 1973, all forwarders were exempt from the requirement that detailed justifications be filed with each and every rate tariff proposal, but that, in ER-791, the Board rescinded the exemption for forwarders with annual forwarder revenues of $5,000,000 or more. In modifying the exemption, the Board concluded that the submission of detailed justifications would not be an undue burden on the larger forwarders, and would "facilitate economic analyses by shippers, by direct carriers, and by the Board, all of whom have an interest in the rates being proposed." (ER-791, p. 4). AFFA argues, on the one hand, that the burden of providing such detailed information is in fact onerous and becoming more so, while on the other hand the Board has recognized that little, if any, regulatory purpose is served in view of its reluctance to interfere with free pricing in the forwarder area. AFFA also claims that the relief requested would be consonant with the Board's general policy of eliminating unwarranted paperwork throughout the regulatory process.

With regard to the burden imposed by the requirements of section 221.165, AFFA arguts that circumstances have changed since 1973. First, price controls, which were in effect then, have been removed. And second, AFFA claims that the growing competition from air taxis and cooperative shipper associations, which file neither tariffs nor justifications with the Board, has reached the point that extensive tariff justification requirements constitute an unfair burden on the larger forwarders.

No answers have been filed to the petition.

Upon consideration, it tentatively appears that relief along the lines requested by AFFA is warranted, subject to certain qualifications. As noted by AFFA, the Board has generally pursued a policy of minimal interference in the tariff rate filings of forwarders in recognition of the fact that the number of forwarders in particular markets is not restricted and that competition therefore serves an important price control function. See, e.g. Orders 74-7-117 and 76-11-148. At the same time, it would be difficult to contend that the basic descriptive and explanatory functions of the information required of all forwarders by paragraph (a) of § 221.165 does not serve a clear regulatory purpose; such information is regularly scrutinized by the staff and appears to serve a significant regulatory need, particularly with regard to the antidiscrimination provisions of section 404(b) of the Act. In addition, it should be made clear that any reduction in the tariff information normally required by § 221.165 does not change the obligation on the part of all forwarders and other

V4271 APR 13 77 UMI

carriers to provide additional information in specific cases, if, after a preliminary analysis, it appears that such information is needed. As we read the petition, AFFA does not appear to disagree with either of these qualifications.

Accordingly, the Civil Aeronautics Board hereby proposes to amend Part 221 of its Economic Regulations (14 CFR Part 221) as set forth below:

Section 221.165 would be amended as follows:

§ 221.165 Explanation and data supporting tariff changes and new matter in tariff publications.

When a tariff publication is filed with the Board which contains new or changed local or joint rates, fares, or charges for air transportation, or new or changed classifications, rules, regulations, or practices affecting such rates, fares, or charges, or the value of the service thereunder, the issuing air carrier, foreign air carrier, or agent shall submit with the filing of such publication, in or attached to the transmittal letter:

• • • • •

(d) Exceptions:

(1) The requirement for data and/or information in paragraphs (b) and (c) of this section will not apply to tariff publications containing new or changed matter which are filed.

• • • • •

(iii) By air freight forwarders or international air freight forwarders, as defined in Part 296 of this subchapter, or

• • • • •

REQUEST FOR COMMENTS

Interested persons may take part in the rulemaking by submitting 20 copies of written data, views, or arguments on the subjects discussed. All relevant material received by the dates shown at the beginning of this notice will be considered by the Board before taking final action on the proposed rules.

Individual members of the general public who wish to express their interest as consumers by informally taking part in this proceeding may do so by submitting comments in letter form to the Docket Section, without having to file additional copies.

(Section 204, 403, Federal Aviation Act of 1958, as amended, 72 Stat. 743, 758; 49 U.S.C. 1324, 1373.)

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

DEPARTMENT OF DEFENSE

Office of the Secretary

[32 CFR Part 290]

DEFENSE CONTRACT AUDIT AGENCY

Availability of Records

AGENCY: Defense Contract Audit Agency, DOD.

ACTION: Proposed Rule.

SUMMARY: As required by the Freedom of Information Act, this proposal will provide the public with: the addresses of persons from whom information may be obtained; the procedures for making such requests; the general procedures by which the Defense Contract Audit Agency's (DCAA) authorities are channelled; and a description of DCAA's organization and functions as of March 31, 1977.

DATES: Comments must be received on or before May 13, 1977.

ADDRESSES: Sybil L. Taylor, Records Administrator, DCAA, Building 4A320, Cameron Station, Alexandria, VA 22314.

FOR FURTHER INFORMATION, CONTACT:

Sybil L. Taylor, 202/274-7285.

SUPPLEMENTARY INFORMATION: These regulations are proposed under the authority of 5 U.S.C. 301 and 5 U.S.C. 552, and implement Department of Defense Directive 5400.7, Availability to the Public of Department of Defense Information.

In consideration of the foregoing, Part 290, Title 32, Code of Federal Regulations, is proposed as follows:

PART 290—AVAILABILITY OF DEFENSE CONTRACT AUDIT AGENCY RECORDS

Subpart A—Organization Statement

Sec.

290.1 Purpose.
290.2 Origin and authority.
290.3 Objective.
290.4 Mission.
290.5 Composition.

Subpart B—Availability of DCAA Records

290.20 Purpose.
290.21 Applicability and scope.
290.22 Policy.
290.23 "Records" defined.
290.24 Public inspection and copying.
290.25 Requests for records.
290.26 Procedures for submitting requests.
290.27 Material withheld from disclosure.
290.28 Administrative appeals of denials.
290.29 Judicial action.

AUTHORITY: 5 U.S.C. 301 and 552, as amended by Pub. L. 93-502, Nov. 21, 1974.

Subpart A—Organization

§ 290.1 Purpose.

This subpart implements 5 U.S.C. 552 by describing the central and field organizations of DCAA and the general course and method by which DCAA's functions are channeled and determined.

§ 290.2 Origin and authority.

DCAA was established by the Secretary of Defense under Department of Defense (DoD) Directive 5105.36 and began operating on July 1, 1965. Its Director is responsible directly to the Secretary of Defense. Staff supervision is provided by the Assistant Secretary of Defense (Comptroller).

§ 290.3 Objective.

DCAA's objective is to assist DoD in purchasing defense materials and services at the lowest price or cost which is both reasonable and fair to the Government and the supplier. While emphasis is on reasonableness and fairness, it also includes the premise that prices paid by the Government should not reflect the cost of contractor operations or practices which are in any manner wasteful or unnecessary.

§ 290.4 Mission.

(a) DCAA performs all necessary contract audit for DoD, and provides accounting and financial advisory service regarding contracts to all DoD components responsible for procurement and contract administration. These services are provided in connection with negotiation, administration, and settlement of contracts and subcontracts. It also furnishes advisory contract audit service to a number of other Government agencies under agreements between DoD and such agencies.

(b) DCAA audits contractors' and subcontractors' accounts, records, documents, and other evidence; systems of internal control, accounting, costing, estimating, and general business practices and procedures to give advice and recommendations to procurement and contract administration personnel on: acceptability of costs incurred under cost, redetermination, incentive, and similar type contracts; acceptability of estimates of costs to be incurred as represented by contractors incident to the award, negotiation, modification, and change of contracts; adequacy of contractors' accounting and financial management systems and estimating procedures. DCAA also performs post-award audits of contracts in order to assure compliance with the provisions of Public Law 87-653 (Truth in Negotiations), and reviews contractor compliance with the rules, regulations, and promulgated standards of the Cost Accounting Standards Board established by Public Law 91-379.

(c) DCAA assists responsible procurement or contract administration activities in their surveys of the purchasing-procurement systems of major contractors; it cooperates with other DoD components on reviews, audits, analyses, or inquiries involving contractors' financial positions or financial and accounting policies, procedures, or practices. DCAA also maintains liaison auditors at major procuring and contract administration offices and provides assistance in the development of procurement policies and regulations.

§ 290.5 Composition.

(a) DCAA consists of seven components: a headquarters located at Cameron Station, Alexandria, Virginia, and six Regional Offices. The Regional Offices manage over 300 field audit offices (FAOs) located throughout the United States and overseas. FAOs are called branch, resident, and procurement liaison offices. Suboffices are established by Regional Managers as an extension of an FAO when required by that office to furnish special onsite contract audit service on a permanent basis. A suboffice is satellited on its parent FAO for supervision, release of audit reports, and administrative support.

(b) The headquarters consists of seven principal staff elements:

(1) The Director exercises worldwide direction of DCAA.

(2) The Deputy Director serves as principal assistant to the Director and acts for the Director in his absence.

(3) The Assistant Director, Operations & Professional Development, authorized to act for the Director and Deputy Director in their absence, is responsible for audit management, technical audit programs, and the Defense Contract Audit Institute in Memphis, Tennessee.

(4) The Assistant Director, Policy & Plans, is responsible for policy formulation, cost accounting standards, and audit guidance and procedures; and acts for the Director in the absence of the Director, Deputy Director, and Assistant Director, Operations & Professional Development.

(5) The Assistant Director, Resources, is responsible for the programs and procedures related to the management and administration of all resources required to support the audit mission; and acts for the Director in the absence of the Director, Deputy Director, Assistant Director, Operations & Professional Development, and Assistant Director, Policy & Plans.

(6) The Assistant Director, Review & Analysis, plans, directs, and conducts agencywide reviews and analyses, including independent examination and appraisal of all aspects of audit operations of Regional Offices and FAOs; and acts for the Director in the absence of the Director; Deputy Director; Assistant Director, Operations & Professional Development; Assistant Director, Policy & Plans; and Assistant Director, Resources.

(7) The Counsel provides legal and legislative advice to the Director and all members of the agency staff.

(8) The Executive Officer develops plans and policies affecting multiple DCAA functions and activities; initiates or reviews papers formulated within the Office of the Director; and has responsibility for the DCAA Equal Employment Opportunity Program.

(c) Regional Offices are located in Atlanta, Boston, Chicago, Los Angeles, Philadelphia, and San Francisco. Regional Managers direct and administer the DCAA audit mission, and manage personnel and other resources assigned to the regions; act as principal advisors to the Director; manage the contract audit program; and direct the operation of FAOs within their region. Principal staff elements of Regional Offices are Office of the Regional Manager, Assistant Regional Manager for Audit Management, Assistant Regional Manager for Resources, and Assistant for Special Projects.

(d) A resident office is established at a contractor's location when the amount of audit workload justifies the assignment of a permanent staff of auditors and support staff. A resident office may perform procurement liaison audit functions.

(e) A branch office is established at a strategically situated location within the region, responsible for performance of all contract audit service within the assigned geographical area on a mobile basis, exclusive of contract audit service performed by a resident or liaison office within the area. A branch office may perform procurement liaison audit functions.

(f) A liaison office is established at a DoD procurement or contract administration office within the region when required on a permanent basis to provide effective communication and coordination between procurement and contract audit elements in the interest of achieving the objectives of prudent contracting. A liaison office maintains a program to asure full utilization of contract audit services by procurement and contract administration offices within the region, provides audit advisors, and measures customer satisfaction; participates in prenegotiation and negotiation conferences at the request of procurement and contracting officers and furnishes related advisory services.

Subpart B—Availability of DCAA Records

§ 290.20 Purpose.

This subpart implements 5 U.S.C. 552 (Freedom of Information Act), as amended, and supplements DoD Directive 5400.7 (32 CFR Part 286) by describing established facilities at which, the officials from whom, and the procedures whereby members of the public may inspect and copy or obtain copies of unclassified DCAA records.

§ 290.21 Applicability and scope.

(a) *Applicability.* This subpart shall apply to all offices of DCAA and shall govern responses by DCAA officials to written requests from members of the public for permission to examine, or to be provided with copies of DCAA records.

(b) *Scope.* Requests for records under the Privacy Act of 1974 (5 U.S.C. 552a) are governed by the provisions of 32 CFR Part 290a. See § 286.2 of this Subchapter for other categories of requests for information or records that are excluded from the scope of this subpart.

§ 290.22 Policy.

It is the policy of DCAA to make available to the public the maximum amount of information concerning its operations and activities. This basic policy is subject to the exemptions recognized in 5 U.S.C. 552(b) and § 286.4 of this Subchapter. Notwithstanding such permissible exemptions, it is DCAA's policy that an exempt record will be made available when its disclosure would not be inconsistent with statutory requirements and when the DCAA official designated in § 290.25(e) determines that no significant and legitimate Governmental purpose would be served by withholding the record. The latter determination is within the sole discretion of DCAA.

§ 290.23 "Records" defined.

In determining whether documentary material qualifies as a "record," consideration will be given to 44 U.S.C. 3301, which defines the word "record" as follows:

(It) includes all books, papers, maps, photographs, or other documentary materials, regardless of physical form or characteristics, made or received by any agency of the United States Government under Federal law or in connection with the transaction of public business and preserved or appropriate for preservation by that agency or its legitimate successor as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of the Government or because of the informational value of data contained therein.

(a) Records are not limited to permanent or historical documents but include current documents.

(b) The term "records" does not include objects or articles such as structures, furniture, paintings, sculpture, three-dimensional models, vehicles, equipment, etc., whatever their historical value or value as "evidence."

(c) Formulae, designs, drawings, research data, computer programs, technical data packages, etc., are not considered "records" within the intent of 5 U.S.C. 552, even though maintained in documentation form, because of development costs, utilization, or value. These items are considered property, not preserved for informational value nor as evidence of agency functions, but as exploitable resources to be tullized in the best interest of all the public. Requests for copies of such material shall be evaluated according to policies expressly directed to the appropriate dissemination or use of such property. Requests to inspect such material to determine its content for informational purposes shall normally be granted unless inspection is inconsistent with the obligation to protect the property value of the material, such as may be true for certain formulae.

(d) The term "records" does not include unaltered stocks of publications and processed documents such as regulations, manuals, instructions, and related materials that are available to the public through an established distribution system for sale or without charge. Examples of such materials are publications available to the public by purchase from DCAA or the Defense Contract Audit Manual and other documents available by purchase from the Superintendent of Documents, U.S. Government Printing Office. Individuals requesting such material under the FOIA will be referred to the appropriate public sales outlet.

§ 290.24 Public inspection and copying.

(a) 5 U.S.C. 552(a)(2) requires agencies to make available for public inspection and copying (1) final opinions, including concurring and dissenting opinions, as well as orders, made in the adjudication of cases; (2) statements of policy and interpretations which have been adopted by the agency and are not published in the FEDERAL REGISTER; and (3) administrative staff manuals and instructions to staff that affect a member of the public; unless the materials are promptly published and copies offered for sale.

(b) DCAA documents described in § 290.24(a) are published under the DCAA Publications System as regulations, manuals, instructions, and pamphlets, and are available to the public through purchase from DCAA or the Superintendent of Documents.

(c) The DCAA headquarters and each of the six Regional Offices shall publish semiannually an index of the documents published under the DCAA Publications System. Such indexes shall be made

V4271 APR 13 77 UMI

available to the public upon request without cost.

§ 290.25 Requests for records.

(a) *General.* According to the spirit and intent of 5 U.S.C. 552 and 32 CFR 286, upon receipt of written or verbal requests to DCAA offices, all reasonable efforts should be made to advise members of the public on the correct means for securing permission to examine desired records, or for obtaining copies of such records.

(b) *Identification of records.* While it is expected that DCAA offices will use their knowledge of the contents of their files and expend reasonable efforts to assist the public in identifying records which contain the particular information sought, the requester must "reasonably describe" the record sought. A record must exist at the time of the request. It is not required that a record be "created" or compiled for the purpose of furnishing information not already available in existing records. A record that is maintained by computer is normally deemed to exist for this purpose, but only if retrievable in approximately the form desired without substantial reprogramming.

(c) *Fees.* Fees shall be determined according to § 286.8 of this Subchapter. Fees shall be charged only for direct cost of search and duplication and shall not include indirect costs or costs attributable to reviewing the records.

(1) Fees will not be charged if, for a single request, the direct search cost is less than $25.00. Fees will not be charged if, for a single request, the direct duplication cost is less than $5.00. Fees will not be reduced by these amounts when the thresholds are exceeded.

(2) No request will be processed until the requester has been advised in writing of the estimated amount of the fees if they are expected to exceed the automatic waiver thresholds.

(3) Time limits specified in § 286.11 of this Subchapter will not begin until payment of fees is resolved or the requester's entitlement to a waiver of fees is established.

(4) Ordinarily, fees will not be assessed for nonproductive search or when all records located are denied. However, fees may be assessed if the requester insists upon a search and agrees to such fees prior to the search after being advised that the search is likely to be unproductive.

(5) Fees normally must be paid in advance of rendering the service. An exception exists when the requester promises in writing to pay upon receipt of a statement, and represents that he will be able to pay. When the anticipated combined total of direct search and duplication fees to be assessed exceeds $60.00, prepayment of all or a portion of the estimated fees may be required before processing the request.

(6) Subsequent requests will not be processed when, at the time of the request, the requester is known to be in default of payment of fees incurred in connection with a previous request.

(7) Payment of fees may be by personal check, bank draft drawn on a U.S. bank, or by U.S. Postal money order. All such payments shall be made payable to the Treasurer of the United States. DCAA does not have the facilities for handling cash payments. A receipt for fees paid will be given only upon request.

(d) *Waiver of fees.* The determination to waive fees is at the discretion of the officials listed in § 290.25(e). The following requirements pertain to requests for waiver of fees in excess of the automatic waiver threshold:

(1) If a requester wishes to request a waiver of fees, the request must provide sufficient information to enable a proper determination. A statement that release is in the public interest, the identity or tax status of the requester, or the intention that the record will be made public is not persuasive grounds for granting a waiver. The requester should provide information concerning the planned use of the information, how this will serve the general public interest, the segment of the public to benefit from the information, the size of the public to be benefited, the significance of the benefit, the private interest of the requester which the release may further, the usefulness of the material to be released, the likelihood that tangible good will be realized, and any other information which may be pertinent to the appropriateness of public payment. This information does not influence the determination to release or withhold a record; it influences the determination as to whether the public will assume the direct search and duplication costs. The requester need not provide this information if he does not wish the public to bear the cost.

(2) Fee waivers shall be decided on case-by-case evaluation. Blanket waivers for specific individuals or organizations will not be granted.

(3) If the requester declares his unwillingness to pay fees and does not warrant a waiver of fees, the request will not be processed if it is estimated that the direct search and duplication costs will exceed the automatic waiver threshold.

(e) *Release/denial authorities.* The following officials are authorized to deny as well as grant requests for documents or records:

(1) Records Administrator, Defense Contract Audit Agency, Cameron Station, Alexandria, Va. 22314.

(2) Regional Manager, Defense Contract Audit Agency, P.O. Box 1498, Marietta, Ga. 30060.

(3) Regional Manager, Defense Contract Audit Agency, Waltham Federal Center, 424 Trapelo Road, Waltham, Mass. 02154.

(4) Regional Manager, Defense Contract Audit Agency, 527 South LaSalle Street, Suite 652, Chicago, Ill. 60605.

(5) Regional Manager, Defense Contract Audit Agency, 1340 West Sixth Street, Second Floor, Los Angeles, Calif. 90017.

(6) Regional Manager, Defense Contract Audit Agency, Federal Building, 1421 Cherry Street, Philadelphia, Pa. 19102.

(7) Regional Manager, Defense Contract Audit Agency, 450 Golden Gate Avenue, Box 36116, San Francisco, Calif. 94102.

§ 290.26 Procedures for submitting requests.

(a) To qualify as a request within the technical requirements of this subpart, a request for copies of, or for permission to examine, DCAA records must:

(1) Be in writing and indicate expressly, or by clear implication, that it is a request under the Freedom of Information Act, 5 U.S.C. 552, or this regulation;

(2) Contain a reasonable description of the particular record sought, sufficiently accurate and specific to enable personnel to locate and identify the record with a reasonable amount of effort; if the record cannot be specifically identified, an explanation of the purposes for which they are desired might be of assistance; and

(3) Contain a check or money order for the anticipated search and duplication fees (at least an adequate deposit); or a clear statement that the requester will be willing and able to pay all fees or to pay such fees up to a specified limit; or satisfactory evidence establishing that the requester is entitle to a waiver of fees.

(b) *Addressing requests.* A list of addresses from which DCAA records may be requested is given in § 290.25(e). A request will not be deemed to have been received for purposes of time limits specified in Part 286.11 of this Subchapter until it is received by the appropriate addressee.

(1) *Misdirected requests.* A request received by an official who is not the appropriate official indicated in § 290.25(e) shall be promptly readdressed and forwarded directly to the appropriate official. The requester shall be notified of this referral. Direct contact between the original recipient and the correct addressee is encouraged to ensure expeditious handling of the request.

(2) Requests for copies of audit reports will be referred to the appropriate contracting officer when received by a DCAA office. Requesters will be notified of such referrals.

(3) All other requests should be directed to the appropirate Regional Manager, if known. If the location of the record is not known, the request should be directed to the Records Administrator.

§ 290.27 Material withheld from disclosure.

Only those records falling within the specific exemptions listed in 5 U.S.C. 552 (b) and § 286.4 of this Subchapter may be withheld. Any person who is denied a request for a record, in whole or in part, or denied a waiver of fees will be given a written explanation of the basis for the determination and advised of his right to appeal the denial.

§ 290.28 Administrative appeals of denials.

Appeals of denials should be addressed to the Assistant Director, Resources, Defense Contract Audit Agency, Cameron Station, Alexandria, Va. 22314. A copy of the initial request and the initial denial should be forwarded with the appeal letter. Final refusal to provide a record or to waive fees will be made in writing by the Assistant Director, Resources, after consultation with the Counsel, Assistant Director, Operations & Professional Development, or other appropriate staff elements. The requester will be advised of his right to judicial review.

§ 290.29 Judicial action.

A requester will be deemed to have exhausted his administrative remedy after he has been denied the requested record by the Assistant Director, Resources, or when the agency fails to respond to his request within the time limits prescribed by Part 286 of this Subchapter. The requester then may seek an order from a U.S. District Court in: (a) The district in which he resides or has his principal place of business; (b) the district in which the record is situated; or (c) in the U.S. District Court for the District of Columbia, enjoining the agency from withholding the record and ordering its production.

FREDERICK NEUMAN,
Director.

Dated: March 31, 1977.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (COMPTROLLER).

APRIL 5, 1977.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 714-2]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS—MASSACHUSETTS

Sulfur in Fuel Emission Limitations in the Merrimack Valley Air Pollution Control District for Haverhill Paperboard Corp.

AGENCY: Environmental Protection Agency.

ACTION: Proposed Rule.

SUMMARY: This is a proposed revision to the Massachusetts State Implementation Plan for the Merrimack Valley Air Pollution Control District (MVAPCO). Haverhill Paperboard Corporation was excluded from a revision to the Massachusetts State Implementation Plan for the MVAPCD which was published in the FEDERAL REGISTER on December 30, 1976 (FR 56804). New information has been submitted which demonstrates that Haverhill Paperboard Corporation can burn 1.4% sulfur content fuel without causing a violation of the National Ambient Air Quality Standards (NAAQS) for sulfur dioxide.

DATE: Comments must be received on or before May 13, 1977.

ADDRESS: Send comments on the proposal to John A. S. McGlennon, Regional Administrator, Environmental Protection Agency, Region I, JFK Federal Building, Room 2203, Boston, Massachusetts 02203.

FOR FURTHER INFORMATION CONTACT:

David A. Fierra, Chief, Air Branch, Environmental Protection Agency, Region I, JFK Federal Building, Room 2113, Boston, Massachusetts 02203, (617-223-5609).

SUPPLEMENTARY INFORMATION: On May 31, 1972 (37 FR 10842) pursuant to Section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved, with exceptions, the Massachusetts Implementation Plan for the attainment of national ambient air quality standards.

On June 4, 1976, the Secretary of Environmental Affairs completed submission of a revision to the Massachusetts Implimentation Plan which would allow fuel burning sources inthe Merrimack Valley Air Pollution Control District (MVAPCD) to a higher sulfur content fuel. (The MVAPCD is the same geographic area as the Massachusetts portion of the Merrimack Valley-Southern New Hampshire Interstate Air Quality Control Region (AQCR)). The revision allows residual fuel oil users in the MVAPCD to burn fuel oil having a sulfur content not in excess of 1.21 pounds per million Btu heat release potential (approximately equivalent to 2.2% sulfur content by weight), but specifically excludes residual fuel oil users in the City of Lawrence and the towns of Andover, Methuen, and North Andover, and the Haverhill Paperboard Corporation in Haverhill, which remain constrained to fuel oil having a sulfur content not in excess of 0.55 pounds per million Btu heat release potential (approximately equivalent to 1.0 percent sulfur content by weight).

A final rulemaking notice was published in the FEDERAL REGISTER on December 30, 1976 (41 FR 56804) which approved this revision to the Massachusetts Implementation Plan. Haverhill Paperboard Corporation was disapproved until such time as new information was received which would demonstrate that the source would not cause a violation of the National Ambient Air Quality Standards (NAAQS) for sulfur dioxide if allowed to burn a specified higher sulfur content fuel.

On January 4, 1977 the Massachusetts Department of Environmental Quality Engineering (the Department) submitted additional technical information concerning the Haverhill Paperboard Corporation's ability to burn a specified higher sulfur content fuel oil under the provisions of the regulations adopted by the Department. The Department's evaluation indicates that Haverhill Paperboard Corporation can burn fuel oil having a sulfur content not in excess of 0.75 pounds per million Btu heat release potential (approximately equivalent to 1.4% sulfur content by weight), with no predicted violations of the NAAQS for sulfur dioxide. Haverhill Paperboard Corporation would be required to apply for and receive written approval from the Department before using the specified higher sulfur content fuel, and to conform to all other provisions of the regulations.

Copies of the Massachusetts submission and the results of EPA's review of the technical support documentation are available for public inspection during normal business hours at the Environmental Protection Agency, Region I, John F. Kennedy Federal Building, Room 2113, Boston, Massachusetts 02203; the Division of Air and Hazardous Materials, Department of Environmental Quality Engineering, 600 Washington Street, Boston, Massachusetts 02111; and the Environmental Protection Agency, 401 M Street SW, Washington, D.C. 20460.

All interested persons who desire to participate may submit written comments in triplicate to the Regional Administrator, Region I, JFK Federal Building, Room 2203, Boston, Massachusetts 02203.

The Administrafor's decision to approve or disappove this revision is based on whether it meets the requirements of section 110(a)(2)(A)-(H) of the Clean Air Act and EPA regulations in 40 CFR Part 51.

(Sec. 110(a) of the Clean Air Act, as amended, 42 U.S.C. 1857c5(a).)

Date: April 7, 1977.

JOHN A. S. MCGLENNON,
Regional Administrator.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[49 CFR Chapter II]

[Docket No. RSC-76-6; Notice No. 1]

MINIMUM SAFETY REQUIREMENTS FOR RAILROAD CABOOSE CARS

Advance Notice of Proposed Rulemaking

AGENCY: Federal Railroad Administration, DOT.

ACTION: Advance Notice of Proposed Rulemaking.

SUMMARY: On September 29, 1976, the Railway Labor Executives' Association (RLEA) filed a rulemaking petition (76-6) requesting that Federal Railroad Administration (FRA) issue regulations requiring minimum design specifications and performance standards for railroad cabooses. The purpose of this notice is to

V4271 APR 13 77 UMI

solicit views and comments from the public regarding the necessity of, and the costs and benefits to be derived from, Federal regulations in this area.

DATES: Written comments must be received on or before May 30, 1977.

ADDRESSES: Written comments should identify the docket number and notice number and be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, 400 Seventh Street SW., Washington, D.C. 20590.

All written comments received will be available for examination, both before and after the closing date for written comments, during regular business hours in Room 5101, Nassif Building, 400 Seventh Street SW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Edward F. Conway, Jr., (202—426-8836).

SUPPLEMENTARY INFORMATION:

BACKGROUND INFORMATION

The RLEA has petitioned the FRA to issue regulations requiring railroads to use insulated steel cabooses, equipped with safety glass in all windows, cushioned underframes, and highly visible markers which show red to the rear of the train and green to the front of the train.

Two of the subjects that RLEA has petitioned the FRA to regulate will not be covered by this notice because they are treated in separate FRA rulemaking actions. The first subject that will not be treated is safety glass. FRA has issued an Advance Notice of Proposed Rulemaking (ANPRM) concerning the use of improved glazing material in the windows of rolling equipment (42 FR 13309, March 10, 1977). The second subject is rear end markers which show red to the rear of the train. This subject will not be covered by this ANPRM because the FRA recently issued regulations requiring highly visible markers on the rear car of all passengers, commuter and freight trains (42 FR 2321, January 11, 1977; 49 CFR Part 221, Rear End Marking Device—Passenger, Commuter and Freight Trains). However, the subject of rear end markers showing green to the front of the train is covered by this ANPRM.

Pursuant to § 211.13 of the FRA Rules of Practice (49 CFR 211.13, 41 FR 54181) the rulemaking proceeding initiated by this notice shall be completed not later than 12 months after the date this notice is published in the FEDERAL REGISTER. The provision of § 211.13 that rulemaking petitions initiated as the result of a rulemaking petition be completed within 12 months following the filing of that petition does not apply in this instance because the RLEA petition was filed prior to January 1, 1977, the effective date of the Rules of Practice.

The RLEA asserts that the safety of railroad employees required to ride in cabooses is impaired by certain design and performance deficiencies of these cars. The deficiencies noted by the RLEA were as follows:

1. The absence of cushioned underframes to protect occupants from death or injury resulting from slack action or unanticipated brake applications.

2. The lack of sufficient structural integrity to protect occupants from death or injury when a caboose is struck by other cars during switching operations.

3. The lack of sufficient insulation to protect occupants from exposure to excessive noise, heat and cold.

4. The lack of highly visible rear end markers which show green to the front of the train, as an indication of the location of the rear of the train for the head end crew.

5. The lack of safe and adequate heating devices that will not produce toxic or nauseating fumes and will not leak or spill fuel upon the caboose floor.

The RLEA petition also includes two general suggestions regarding any rules issued by the Administrator concerning cabooses. The first suggestion is that the Administrator require all cabooses to be equipped with the aforementioned safety devices within five years. The second suggestion is that small short line railroads be granted waivers if they can show that the granting of such a waiver would not produce an unsafe condition.

The RLEA petition does not contain information or data regarding either the feasibility or the costs of equipping all cabooses as proposed. In addition, the petition does not contain suggested design specifications for cabooses.

As part of the study, FRA reviewed its accident files for statistics on deaths an injuries attributable to the elements under consideration. These records do not indicate where these employees were located when injured, but the nature of the incidents suggest that the majority of the employees injured were in the caboose. The statistics revealed that during calendar year 1975, among brakemen and conductors there were no fatalities and 1,058 injuries that may be attributable to the design deficiencies discussed in the RLEA petition and covered by this ANPRM. The 1,058 injuries to brakemen and conductors may be separated into the following categories: 552 injuries resulted from slack action; 190 incidents resulted from emergency or severe application of air brakes either initiated by train crew members or by defective equipment; 109 incidents resulted from the inhalation of or contact with fumes or gases; and 209 incidents resulted from sudden or unexpected movements of equipment.

PUBLIC PARTICIPATION REQUESTED

FRA is interested in developing additional information concerning the necessity for, the cost of, and the benefits to be derived from Federal regulations establishing minimum design specifications and performance requirements for cabooses. FRA solicits written comments from the public, particularly from States, the railroad industry, and railroad employee organizations.

Specific advice is requested on the following points:

1. How many fatalities and injuries have occurred in the last ten years to occupants of cabooses, as a result of each of the following causes:
(a) Slack action?
(b) Emergency or severe application of air brakes?
(c) Inhalation of or contact with fumes or gases?
(d) Sudden or unexpected movements?
(e) Lack of highly visible rear end markers indicating to forward crews the position of the rear of the train?
(f) Exposure to noise, heat, or cold?
(g) Inadequate structural integrity?
(h) Bullets or other missiles penetrating the caboose, other than through windows? (Please list fatalities and injuries separately, by cause. If possible, also give description of the events which accompanied an injury or fatality to an occupant of a caboose).

2. What types of end-of-car cushioning units, draft gears, or sliding sill designs are currently being installed on newly manufactured cabooses?
(a) What is the incremental cost of these draft gears/devices above the price of a standard draft gear for newly manufactured cabooses?
(b) What would be the total per unit cost of retrofitting these various draft gears/devices to a fleet of approximately 17,000 cabooses over a period of 10 years (assume 1,700 cabooses fitted per year)? For 7 years (2,425 cabooses/year)? For 5 years (3,400 cabooses/year)? For 3 years (5,666 cabooses/year)?
(c) How many cabooses are currently equipped with cushioned underframes, draft gears, or sliding sills?
(d) What should be the performance characteristics, in terms of draft and buff, for cushioning systems on cabooses?

3. (a) What should be the minimum design or performance requirements of the caboose roof, wall, and insulation? What would be the incremental cost to equip a caboose so that it will comply with these requirements?
(b) How do the minimum design or performance requirements suggested in response to 3(a) differ from current caboose designs?
(c) Can cabooses be retrofitted for additional strength? If so, how, and at what cost?
(d) What would be the incremental cost increase for new cabooses meeting the suggested design standards?

4. What was the rate of new caboose introduction per year over the past 5 years?

5. What number of cabooses have been totally reconditioned each year for the past 5 years?
(a) What is the unit cost for each reconditioning?
(b) What types of work are typically performed on a caboose when it is totally reconditioned?

6. What temperature range in a caboose will be adequate to:
(a) Protect against injury due to exposure?

(b) Prevent fatigue that might result in injuries or fatalities?

7. If sound level measurements have been made by operating railroads in their cabooses, what typical sound levels were found?
(a) What type of instrumentation was used?
(b) Where were the microphones located when these measurements were made within the caboose?
(c) What are the sound levels within cabooses as a function of train speed?
(d) What is an acceptable decibel level in cabooses?
(e) Would the use of insulation to reduce the noise level in cabooses also prevent crews from hearing train actions such as run ins and run outs or emergency brake applications?

8. What is the primary source and airborn concentration of noxious fumes in cabooses?

9. What are typical periodic maintenance requirements now in use by railroads for caboose heaters and toilets?
(a) How frequently are these maintenance operations performed?
(b) What are the most common maintenance problems associated with presently used heaters and toilets? What work is typically performed in correcting these problems?
(c) What types of other, nonconventional caboose heating systems have been tried by railroads? What design/maintenance/administrative problems, if any, are associated with their use? What would be the potential cost increases to: (i) Install such nonconventional systems in new cabooses (incremental cost)? (ii) Replace existing heaters in cabooses? (iii) Purchase different or additional fuel?
(d) What other changes should be made to the designs of heaters and toilets?

10. (a) What types of safety related train handling operations or procedures would be enhanced by the presence of forward facing markers on cabooses? What operations/procedures cannot be successfully accomplished now, due to the absence of this type of marker light?
(b) How will the presence of forward facing markers promote safety?
(c) In view of possible obstructions and inclement weather, how bright should these forward facing markers be so that a head end crew will still be able to locate the rear end of the train?
(d) What will be the cost of equipping cabooses with forward facing markers.

11. If it is determined that federal regulations for cabooses would promote safety, which cabooses should the regulations cover?
(a) Should the regulations cover only new car construction or should existing cabooses be required to be rebuilt? What criteria should be used to determine which cabooses are to be covered?
(b) Should certain types of operations be exempt from compliance with the regulations? If exemptions are made, what conditions should be placed on the exemption, and should certain cabooses be permanently exempt?
(c) If the rebuilding of cabooses is required, what time frame should be established to bring the entire railroad caboose fleet into compliance?

12. What would be the economic impact to the railroad industry if the suggested regulations governing cabooses were established?
(a) What cost benefits would be derived?
(b) How many cabooses are there in the current fleets of the railroads?

13. What is the single greatest deficiency or cabooses as presently constructed; e.g., inadequate structural integrity?

14. Would interested parties provide names of persons to contact for additional data or, suggest other sources of information?

Communications should identify the docket number and notice number and be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, 400 Seventh Street SW., Washington, D.C. 20590. Communications received before May 30, 1977, will be considered by FRA. Comments received after that date will be considered insofar as practicable. All comments received will be available, both before and after the closing date for communications, for examination by interested persons during regular business hours in Room 5101, Nassif Building, 400 Seventh Street SW., Washington, D.C.

(Sec. 202 of the Federal Railroad Safety Act of 1970 (45 U.S.C. 431), as amended by sec. 5(b) of the Federal Railroad Safety Authorization Act of 1976, Pub. L. 94-348, 90 Stat. 817, July 8, 1976; § 1.49(n) of the regulations of the Office of the Secretary, 49 CFR 1.49 (n).)

Issued in Washington, D.C. on April 7, 1977.

BRUCE M. FLOHR,
Deputy Administrator.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

LEGAL SERVICES CORPORATION

EAST TEXAS LEGAL SERVICES AND DNA-PEOPLE'S LEGAL SERVICES

Grants and Contracts

APRIL 8, 1977.

The Legal Services Corporation was established pursuant to the Legal Services Corporation Act of 1974, Pub. L. 93-355, 88 Stat. 378, 42 U.S.C. 2996-2996*l*. Section 1007(f) provides: "At lease thirty days prior to the approval of any grant application or prior to entering into a contract or prior to the initiation of any other project, the Corporation shall announce publicly, and shall notify the Governor and the State Bar Association of any State where legal assistance will thereby be initiated, of such grant, contract, or project * * *"

The Legal Services Corporation hereby announces publicly that it is considering the grant applications submitted by:

1. East Texas Legal Services to serve the counties of Smith, Harrison, Gregg, Rusk, Nachogdoches, San Augustine, Angeline, Cherokee, Jefferson and Orange, Texas.

2. DNA-People's Legal Services to serve the Fort Apache Reservation and counties of Apache, Navaho and Gila, Arizona.

Interested persons are hereby invited to submit written comments or recommendations concerning the above application to the Regional Office of the Legal Services Corporation at:

Denver Regional Office, 1726 Champa Street, Suite 500, Denver, Colorado 80202.

THOMAS EHRLICH,
President.

DEPARTMENT OF AGRICULTURE

Forest Service

LAND MANAGEMENT PLAN KING UNIT—KLAMATH NATIONAL FOREST

Availability of Final Environmental Statement

Pursuant to Sec. 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Land Management Plan, King Unit, Klamath National Forest, California, USDA-FS-R5-FES (Adm)-76-03.

The environmental statement concerns a proposed land management plan for the 49,000 acres of National Forest lands known as the King Unit of the Klamath National Forest, in Siskiyou County, California. Fourteen thousand acres within this Unit have been inventoried as "roadless," and 11,100 acres are included in the National Wilderness Preservation System as the Marble Mountain Wilderness.

This final environmental statement was transmitted to the Council on Environmental Quality (CEQ) on April 5, 1977.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Rm. 3210, 12th St. and Independence Ave. SW., Washington, D.C. 20250
Forest Supervisor's Office, Klamath National Forest, 1215 S. Main, Yreka, CA. 96097.
Regional Forester, U.S. Forest Service, 630 Sansome Street, Rm. 529, San Francisco, CA. 94111.
Forest Service, District Ranger, Happy Camp, CA. 96039.
Forest Service, District Ranger, Somes Bar, CA. 95568.

A limited number of single copies are available, upon request, to Forest Supervisor Dan B. Abraham, Klamath National Forest, 1215 South Main Street, Yreka, California 96097.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

ROBERT W. CERMAK,
Acting Regional Forester.

APRIL 5, 1977.

Soil Conservation Service

SUNFLOWER COUNTY FLOOD PREVENTION, RECREATION, AND DRAINAGE RESOURCE CONSERVATION AND DEVELOPMENT (RC&D) MEASURE, MISSISSIPPI

Availability of Negative Declaration

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Sunflower County Recreation, Flood Prevention, and Drainage RC&D Measure, Sunflower County, Mississippi.

The environmental assessment of this federal action indicates that the measure will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the measure. As a result of these findings, Mr. Chester F. Bellard, State Conservationist, Soil Conservation Service, USDA, P.O. Box 610, Jackson, Mississippi 39205, has determined that the preparation and review of an environmental impact statement is not needed for this measure.

The measure concerns a plan for recreation, flood prevention, and drainage. The planned works of improvement include a 100-acre lake, basic recreation facilities and 3.4 miles of multiple purpose channel work.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, Room 500, Milner Building, 210 South Lamar Street, Jackson, Mississippi 39205.

The negative declaration is available for single copy requests at the above location.

No administrative action on implementation of the proposal will be taken until 15 days after the date of this publication.

(Catalog of Federal Domestic Assistance Program No. 10.901, National Archives Reference Services.)

Dated: April 5, 1977.

DAVID P. OVERHOLT,
Director, Conservation Operations Division, Soil Conservation Service.

CIVIL AERONAUTICS BOARD

[Docket 30106; Order 77-4-39]

CONTINENTAL AIR LINES, INC.

Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 8th day of April, 1977.

On November 23, 1976, Continental Air Lines filed, in Docket 30106, an application for an order to show cause why its certificate of public convenience and necessity for Route 29 should not be amended so as to permit single-plane service between Seattle and Portland, on the one hand, and Kansas City, on the other, via Denver.[1]

[1] United Air Lines is the only carrier with single-plane authority in the markets and presently operates one round trip routed Kansas City-Seattle-Portland. For the year ended December 31, 1975, the Kansas City-Seattle market generated 29,510 O&D passengers, while the Kansas City-Portland market generated 19,840 passengers. Of this, United carriers 71% of the Kansas City-Seattle traffic and 54% of the Kansas City-Portland traffic. Continuental, offering only connecting service via Denver, has market shares of 28% and 45%, respectively.

In support of its application, Continental states that (1) the single-plane restriction was originally imposed as a pretrial condition in the *Reopened Pacific Northwest-Southwest Case*, 50 CAB 698 (1969); (2) traffic volume in the market has grown much larger than anticipated since the Board issued its decision in that case; (3) United's service has not responded to traffic growth and therefore does not accommodate a good deal of the market; (4) Continental is the only carrier, other than United, that has a significant share of the Kansas City-Pacific Northwest traffic; (5) the public will benefit from the improved level of service; and (6) Continental's identity in the market is already so great that removal of the single-plane restriction will have no measurable impact on any other carrier.

The City of Kansas City, and the Kansas City Chamber of Commerce filed an answer in support of Continental's application.

Upon consideration of the foregoing and all of the relevant facts, we have tentatively concluded that the public convenience and necessity require the elimination of the restriction which prohibits Continental from providing single-plane service in the Kansas City-Seattle/Portland markets via Denver, and that the proposed modification is consistent with the Board's policy of removing restrictions which serve no useful purpose and which are otherwise wasteful and undesirable. We propose to implement this new authority by amending Continental's certificate for Route 29, by deleting that portion of condition (13) which prohibits Continental from serving Kansas City on flights serving segment 11.[2]

In support of our ultimate determination, we make the following tentative findings and conclusions. The principal benefit which will derive from the grant of improved authority to Continental will be the provision of more convenient service between Kansas City and Portland/Seattle. At the time the Board imposed the single-plane restriction on Continental, it predicted that the Kansas City-Seattle/Portland markets would generate 80 daily passengers. However, for the year ended September 30, 1975, the Kansas City-Seattle market generated 107 daily passengers and the Kansas City-Portland market generated 60 daily passengers for a total of 167 daily Kansas City-Seattle/Portland passengers. Despite the restriction, Continental has managed to secure a significant share of both the Kansas City-Seattle and Kansas City-Portland markets. The removal of the single-plane restriction will provide Continental's on-line passengers with additional benefits through both time savings and elimination of those problems associated with connecting service.

We further tentatively find that the grant of Continental's application will have no significant effect on United, which has not filed in opposition to Continental's request. United retains superior nonstop authority and therefore should not be significantly affected by removal of the single-plane restriction. Together Continental and United carry 92%[3] of the Kansas City-Seattle/Portland true O&D passengers. No other carrier is a significant participant in either the Kansas City-Seattle or Kansas City-Portland market. Furthermore, Continental has already firmly established its identity in the market, having carried annually over 30%[4] of the Kansas City-Pacific Northwest traffic since beginning its connecting service in June 1969.[5]

Interested persons will be given thirty days from the date of the adoption of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to set forth their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If an evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

During the same period prescribed above, we will expect Continental to file with the Board an estimate, with supporting data, of the annual gross transport revenue increase for the first full year of operations to result from the award proposed herein. This data is necessary for the purpose of computing the license fee pursuant to section 389.24(a)(2) of the Board's Organization Regulations.

Accordingly, *it is ordered*, That:

1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein and amending the certificate of public convenience and necessity of Continental Airlines, Inc. for Route 29 in the manner described above;

2. Any interested person having objections to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendments set forth herein, shall, within thirty days after the date of the adoption of this order, file with the Board a statement of objections together with a summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections; answers to objections shall be filed 10 days thereafter;

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;[6]

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. A copy of this order will be served upon Continental Air Lines, Inc., Braniff, Eastern, Frontier, Northwest, TWA, and United Air Lines, the Cities of Kansas City, Denver, Seattle and Portland.

This order will be published in the FEDERAL REGISTER.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.77-10791 Filed 4-12-77;8:45 am]

[2] Continental is prohibited from providing single-plane service over a Kansas City-Denver-Seattle/Portland routing by condition (13), imposed in the above-mentioned case.

[3] Table 12 December 31, 1975.

[4] Continental's exhibit Appendix F.

[5] We also tentatively find and conclude that the Board action sought by the applicant will not result in a major federal action significantly affecting the environment within the meaning of the National Environmental Protection Act of 1969. We further find and conclude that Continental is a citizen of the United States within the meaning of the Act, and is fit, willing, and able to properly perform the air transportation proposed herein and to conform to the provisions of the Act and the Board's rules, regulations, and requirements thereunder.

[6] Since provision is made for the filing of objections to this order, petitions for reconsideration will not be entertained.

FRANGELLA MUSHROOM FARMS, INC.

Petition for a Determination of Eligibility To Apply for Trade Adjustment Assistance

A petition by Frangella Mushroom Farms, Inc., P.O. Box 158, Ravena, New York 12143, a producer and processor of mushrooms, was accepted for filing on April 6, 1977, pursuant to section 251 of the Trade Act of 1974 (Pub. L. 93-618) and § 315.23 of the Adjustment Assistance Regulations for Firms and Communities (13 CFR Part 315). Consequently, the United States Department of Commerce has initiated an investigation to determine whether increased imports into the United States of articles like or directly competitive with those produced by the firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of the petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Chief, Trade Act Certification Division, Economic Development Administration, U.S. Department of Commerce, Washing-

National Bureau of Standards

COBOL COMPILER VALIDATION IN SUPPORT OF FEDERAL INFORMATION PROCESSING STANDARDS 21 AND 21-1

Under the provisions of Pub. L. 89-306 and Executive Order 11717, the Secretary of Commerce is authorized to establish uniform Federal Automatic Data Processing (ADP) Standards. Federal Information Processing Standards Publication (FIPS PUB) 21-1 specifies Federal Standard COBOL. The Standard defines the elements of the COBOL Programming Language and the rules for their use.

In the November 14, 1975, issue of the FEDERAL REGISTER (40 FR 53013), the General Services Administration (GSA) published a new regulation which added to 41 CFR Subpart 101-32.13 a new subsection 101-32.1305-1a, Validation of COBOL Compilers. GSA established the policy for testing COBOL compilers to support the requirement in FIPS PUB 21-1 regarding the implementation of Federal Standard COBOL. This, in effect, requires Federal agencies to ensure that all COBOL compilers that are brought into the Federal inventory are tested to confirm that they meet a designated level of the Federal Standard COBOL.

The term validation is used in this context as the process of testing a given COBOL compiler against pre-determined conditions and specifying which, if any, conditions are not met. To confirm that an implementation meets the specifications of a designated level of Federal Standard COBOL, test routines have been developed and approved for use in testing COBOL compilers. These routines make up the COBOL Compiler Validation System (CCVS). A Federal COBOL Compiler Testing Service (FCCTS) also has been established to provide a validating service for the Federal agencies. The FCCTS is sponsored by the Department of Defense (DOD) under delegation of authority from the National Bureau of Standards (NBS). The FCCTS is responsible for the development and maintenance of the CCVS necessary to support the validation of the various versions of Federal Standard COBOL. They are also responsible for conducting the validation of all COBOL compilers brought into the Federal inventory.

The purpose of this announcement is to identify the official version of the CCVS currently being used by FCCTS in discharging its responsibilities under the above mentioned delegation of authority from NBS.

COBOL COMPILER VALIDATION SYSTEM

There are currently two Compiler Validation Systems (CVS) being supported by FCCTS. The first is based on FIPS PUB 21 (COBOL 68) and the second is based on FIPS PUB 21-1 (COBOL 74). Each of the COBOL CVS consist of audit routines, their related data, and an executive routine (VP-routine) which prepares the audit routines for compilation. Each audit routine is a COBOL program which includes many tests and supporting procedures indicating the result of the tests. The audit routines making up Version 6.2 of the 1968 COBOL Compiler Validation System collectively contain all the language elements of COBOL 68 (except for the Report Writer module and the ENTER statement of the Nucleus module), as specified in FIPS PUB 21. This system will be maintained for an indefinite period of time depending on the actual length of the transition from COBOL 68 to COBOL 74 within the Federal Government.

The 1974 COBOL Compiler Validation System is being released in increments. Version 1.0 of the 1974 CCVS which was released in November 1975 contained all the language elements included in the low-intermediate level of FIPS PUB 21-1 COBOL (see FIPS PUB 21-1 for information regarding the contents of the various levels of Federal Standard COBOL). Version 2.0 of the 1974 CCVS, which is now available and replaces Version 1.0, contains all elements of FIPS PUB 21-1 except for the arithmetic expressions of the Nucleus module, the ENTER statement of the Nucleus module, and the entire communication module.

The COBOL Compiler Validation Systems are available from the National Technical Information Service. Address: National Technical Information Service, U.S. Department of Commerce, 5285 Port Royal Road, Springfield, Virginia 22161 (telephone 703-557-4650).

Title	Ordering no.	Price
FIPS PUB 21 COBOL compiler validation system version 6 release 2 (CCVS68 6.2)		
1968 COBOL compiler validation system version 6.2 implementation documentation (users guide).	ADA024913	$5.00
1968 COBOL compiler validation system version 6.2 (tape).	ADA024912	500.00
FIPS PUB 21-1 COBOL compiler validation system version 2 release 0 (CCVS74 2.0)		
1974 COBOL compiler validation system version 2.0 implementation documentation (users guide).	ADA036174/AS	12.50
1974 COBOL compiler validation system version 2.0 (tape).	ADA036173/AS	500.00

The COBOL Compiler Validation Systems will be updated biannually. These updates will be announced in a FEDERAL REGISTER notice as the current version of the CCVS used as the basis for validating COBOL compilers. The update process will be used to correct errors identified in the systems and to introduce new or modified programs as appropriate. The Federal standards do not change per se but a validation system should be periodically modified to ensure that compilers are being built according to the technical specifications in the standard, not the validation systems. Should an interpretation be made that would affect either of the validation systems these changes would be reflected also during the update process.

OBTAINING VALIDATION SERVICES

The NBS-DOD agreement covers cost-reimbursable tests requested by: vendors wishing to have a compiler validated in response to a Government request for proposals; Government agencies involved in a procurement; or Government agencies wishing to validate a compiler already in use.

The raw data produced during the validation process will be reviewed by the FCCTS, which will prepare a Validation Summary Report (VSR) for initial dissemination to the requester. If the requested validation has previously been performed on a similar computer configuration, the validation run need not be repeated, and the earlier VSR will be provided to a requester. The VSR will classify a compiler according to each level of the Federal COBOL Standard which it has met. A request for validation services form may be obtained by writing to or calling: Director, Federal COBOL Compiler Testing Service, Department of the Navy (ADPESO), Washington, D.C. 20376, (telephone 202-697-1247).

The request form identifies the service required (Validation Summary Report, validation for a compiler not yet tested, FIPS PUB 21 or FIPS PUB 21-1, etc.), and appropriate supporting information, including a point of contact in the requesting agency, compiler and related operating system identification, machine make and model number, and special requirements, if any. If the request is for a validation, a Compiler Validation Manager will be assigned by the FCCTS to process the request. The assigned individual will contact the requesting agency to make the appropriate arrangements, and, if necessary, obtain appropriate documentation. (The requester must provide the facilities for performing the validation.)

An estimate of expenses will be provided to the requester for approval prior to a validation. The approval and, if applicable, an appropriation accounting number should be given as promptly as possible to the FCCTS.

Upon completion of the validation, a VSR will be compiled from the raw data and forwarded to the requester.

ERNEST AMBLER,
Acting Director.

APRIL 7, 1977.

National Oceanic and Atmospheric Administration

GULF OF MEXICO FISHERY MANAGEMENT COUNCIL

Public Meeting

Notice is hereby given of a meeting of the Gulf of Mexico Fishery Management Council established by Section 302 of the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265).

The Gulf Fishery Management Council has authority, effective March 1, 1977, over fisheries within the fishery conservation zone adjacent to Alabama, west coast of Florida, Louisiana, Mississippi, and Texas. The Council will, among other things, prepare and submit to the Secretary of Commerce fishery management plans with respect to the fisheries within its area of authority, prepare comments on applications for foreign fishing, and conduct public hearings.

The meeting will be held Wednesday, Thursday, and Friday, May 4, 5, and 6, 1977, in the Nautical Room of the Sportsman Inn, 3810 North Roosevelt, Key West, Florida. The meeting will convene at 1:30 p.m. on May 4, and adjourn at about noon on May 6, 1977. The daily sessions will start at 8:30 a.m. and adjourn at 5:00 p.m., except as otherwise noted. The meeting may be extended or shortened depending on progress on the agenda.

PROPOSED AGENDA

1. Management plans.
2. Personnel and administration categories.
3. Review of foreign fishing applications, if any.
4. Other fishery management business.

This meeting is open to the public and there will be seating for a limited number of public members available on a first come, first served basis. Members of the public having an interest in specific items for discussion are also advised that agenda changes are at times made prior to the meeting. To receive information on changes, if any, made to the agenda, interested members of the public should contact on or about April 28, 1977:

Wayne E. Swingle, Executive Director, Gulf of Mexico Fishery Management Council, Lincoln Center, Suite 881, 5401 West Kennedy Boulevard, Tampa, Florida 33609.

At the discretion of the Council, interested members of the public may be permitted to speak at times which will allow the orderly conduct of Council business. Interested members of the public who wish to submit written comments should do so by addressing the Executive Director at the above address.

To receive due consideration and facilitate inclusion of these comments in the record of the meeting, typewritten statements should be received within 10 days after the close of the Council meeting.

Dated: April 8, 1977.

WINFRED H. MEIBOHM,
Associate Director, National Marine Fisheries Service.

[FR Doc.77-10850 Filed 4-12-77;8:45 am]

NATIONAL MARINE FISHERIES SERVICE

Public Meeting

Notice is hereby given of a meeting with State Fish and Wildlife Directors from coastal and Great Lakes States on Thursday and Friday, May 19 and 20, 1977. The meeting will commence at 8:30 a.m. on May 19, and 8:30 a.m. on May 20, in the Woodward Room of the National Wildlife Federation Building, 1412 16th Street, N.W., Washington, D.C.

The topics to be addressed at the meeting are related to the role of the States under extended U.S. fishery jurisdiction, fishery management in the territorial sea, Federal grant-in-aid for fisheries programs providing financial assistance to States, and other National Marine Fisheries Service programs affecting State fishery interests.

The meeting will be open to the public throughout May 19 and 20. Seating space will be available for approximately 25 persons in addition to those participating in the meeting. The public will be admitted to the extent of seating available on a first come, first served basis. Questions from the public will be permitted during specific periods announced by the Chairman.

Additional information concerning this meeting may be obtained by contacting Mr. Robert W. Schoning, Director, National Marine Fisheries Service, Washington, D.C. 20235. The telephone number is 202-634-7283.

Issued: April 8, 1977.

WINFRED H. MEIBOHM,
Associate Director, National Marine Fisheries Service.

NEW ENGLAND FISHERY MANAGEMENT COUNCIL

Public Meeting

Notice is hereby given of a meeting of the New England Fishery Management Council established by Section 302 of the Fishery Conservation and Management Act of 1976 (Pub. L. 94–265).

The New England Fishery Management Council has authority, effective March 1, 1977, over fisheries within the fishery conservation zone adjacent to the States of Maine, New Hampshire, Massachusetts, Rhode Island, and Connecticut. The Council will, among other things, prepare and submit to the Secretary of Commerce fishery management plans with respect to fisheries within its area of authority, prepare comments on applications for foreign fishing, and conduct public hearings.

This meeting of the Council will be held on May 3 and 4, 1977, from 10:00 a.m. to 5:00 p.m., and 9:00 a.m. to 4:00 p.m. respectively, at the Massachusetts Maritime Academy, Buzzards Bay, Massachusetts.

PROPOSED AGENDA

1. Review of Council Scallop Plan.
2. Review of Mid-Atlantic Council Sea Clam Plan.
3. Council review of Preliminary Management Plan for Herring.
4. Other Business.

This meeting is open to the public and there will be seating for approximately 30 public members available on a first-come, first-served basis. Members of the public having an interest in specific items for discussion are also advised that agenda changes are at times made prior to the meeting. Interested members of the public should contact on or about 10 days before the meeting to receive information on changes in the agenda, if any:

Mr. Spencer Apollonio, Executive Director, Peabody Office Building, One Newbury Street, Peabody, Massachusetts 01960.

At the discretion of the Council, interested members of the public may be permitted to speak at times which will allow the orderly conduct of Council business. Interested members of the public who wish to provide written comments should do so by submitting them to Mr. Apollonio at the above address. To receive due consideration and facilitate inclusion of comments in the record of the meeting, typewritten statements should be received within 10 days after the close of the Council meeting.

Dated: April 8, 1977.

WINFRED H. MEIBOHM,
Associate Director, National Marine Fisheries Service.

[FR Doc.77-10862 Filed 4-12-77;8:45 am]

PACIFIC FISHERY MANAGEMENT COUNCIL AND ITS SCIENTIFIC AND STATISTICAL COMMITTEE

Meeting Location and Date Change

Notice is hereby given of a change in location and dates of the April 14–15, 1977, meeting of the Pacific Fishery Management Council and its Scientific and Statistical Committee as published in the FEDERAL REGISTER, Vol. 42, No. 58, on March 25, 1977.

The meeting of the Council originally scheduled to be held at the Oregon Department of Fish and Wildlife, Headquarters Conference Room, 1634 S.W. Alder, Portland, Oregon, on April 14–15, 1977, is now scheduled to be held in the Capri Del Rio Room of the Cosmopolitan Motor Hotel, 1030 N.E. Union, Portland, Oregon 97232, on May 2–3, 1977.

The meeting of the Council's Scientific and Statistical Committee, originally scheduled to be held on the Council's Headquarters 526 S.W. Mill Street, Portland, Oregon, on April 14–15 is now scheduled to be held in the Hall of Fame Room at the Cosmopolitan Motor Hotel, address given above, on May 2–3, 1977. The May 2nd meetings of both the Council and the scientific and Statistical Committee will convene at 1:00 p.m. and adjourn at approximately 5:00 p.m. The May 3rd meetings will convene at 8:00 a.m. and adjourn at approximately 5:00 p.m.

The agenda for both meetings will remain unchanged. These meetings are open to the public, and public seating will be available on a first-come, first-served basis. There will be approximately 200 seats for the public for the Council meetings, and approximately 25 seats for the public for the Scientific and Statistical Committee meetings.

Dated: April 7, 1977.

WINFRED H. MEIBOHM,
Associate Director, National Marine Fisheries Service.

GOVERNMENT-OWNED INVENTIONS

Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for domestic and possibly foreign licensing in accordance with the licensing policies of the agency-sponsors.

Copies of the patents cited are available from the Commissioner of Patents and Trademarks, Washington, DC 20231, for $.50 each. Requests for copies of patents must include the patent number.

Copies of the patent applications can be purchased from the National Technical Information Service (NTIS), Springfield, Virginia 22161 for $3.50 ($7.00 outside North American Continent). Requests for copies of patent applications must include the PAT-APPL number. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent and Trademark Office. Claims and other technical data will usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information on a particular invention should be directed to the address cited for the agency-sponsor.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

U.S. DEPARTMENT OF AGRICULTURE, RESEARCH Agreements and Patent Management Branch, General Services Division, Federal Bldg., Agricultural Research Service, Hyattsville, Md. 20782.

Patent 3,958,452: Uniform Planar Strain Tester; filed Jan. 23, 1975, patented May 25, 1976; not available NTIS.

Requests for licensing information on a particular invention should be directed to the address cited for the agency-sponsor.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

U.S. DEPARTMENT OF AGRICULTURE, Research Agreements and Patent Management Branch, General Services Division, Federal Bldg., Agricultural Research Service, Hyattsville, Md. 20782.

Patent 3,948,733: Simplified Protein Hydrolysis Apparatus; filed Dec. 12, 1973; patented Apr. 6, 1976; not available NTIS.

Patent 3,949,515: In-Field Boll Weevil Trap; filed July 23, 1975; patented Apr. 13, 1976; not available NTIS.

Patent 3,954,866: Process for the Preparation of Quaternary Arylaminoalkyl Phosphonium Salts; filed Dec. 5, 1974; patented May 4, 1976; not available NTIS.

Patent 3,960,763: Agricultural Foams as Carriers for Activated Charcoal; filed July 17, 1974; patented June 1, 1976; not available NTIS.

Patent 3,976,320: Chicken Coop Lifting Device; filed Aug. 14, 1975; patented Aug. 24, 1976; not available NTIS.

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, National Institutes of Health, Chief, Patent Branch, Westwood Bldg., Bethesda, Md. 20014.

Patent application 708,008: Antenna with Electro-Optical Modulator; filed July 23, 1976.

Patent application 727,528: Aortic Heart Valve Catheter; filed Sept. 28, 1976.

Patent application 727,864: Preparative Countercurrent Chromatography with a Slowly Rotating Helical Tube Array; filed Sept. 29, 1976.

Patent application 731,092: Noise Chrono-Dosimeter System; filed Oct. 8, 1976.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION, Assistant General Counsel for Patent Matters, NASA Code GP–2, Washington, D.C. 20546.

Patent application 717,319: Solar Cell Shingle; filed Aug. 24, 1976.

Patent application 726,910: Reaction Cured Glass and Glass Coatings, filed Oct. 28, 1976.

Patent application 732,630: Laser Extensometer; filed Oct. 15, 1976.

Patent application 738,218: Rotary Leveling Base Platform; filed Nov. 3, 1976.

Patent application 738,219: Two Wavelength Double Pulse Tunable Dye Laser; filed Nov. 3, 1976.

Patent application 740,155: Device for Measuring the Contour of a Surface; filed Nov. 8, 1976.

Patent 3,744,739: Multiple in-Line Docking Capability for Rotating Space Stations; patented July 10, 1973; not available NTIS.

Patent 3,982,910: Hydrogen-Rich Gas Generator; patented Sept. 28, 1976; not available NTIS.

Patent 3,983,714: Cryostat System for Temperatures on the Order of 2 Deg. K or Less; patented Oct. 5, 1976; not available NTIS.

Patent 3,983,749: Annular Arc Accelerator Shock Tube; patented Oct. 5, 1976; not available NTIS.

Patent 3,983,753: Thermistor Holder for Skin Temperature Measurements; patented Oct. 5, 1976; not available NTIS.

Patent 3,983,933: Heat Exchanger; patented Oct. 5, 1976; not available NTIS.

Patent 3,984,070: Wingtip Vortex Dissipator for Aircraft; patented Oct. 5, 1976; not available NTIS.

Patent 3,984,256: Photovoltaic Cell Array; patented Oct. 5, 1976; not available NTIS.

Patent 3,984,634: Anti-Multipath Digital Signal Detector; patented Oct. 5, 1976; not available NTIS.

Patent 3,984,671: Optical Process for Producing Classification Maps from Multispectral Data; patented Oct. 5, 1976; not available NTIS.

Patent 3,984,681: Ion and Electron Detector for Use in an ICR Spectrometer; patented Oct. 5, 1976; not available NTIS.

Patent 3,984,685: Wind Measurement System; patented Oct. 5, 1976; not available NTIS.

Patent 3,984,686: Focused Laser Doppler Velocimeter; patented Oct. 5, 1976; not available NTIS.

Patent 3,984,799: The DC-to-DC Converters Employing Staggered-Phase Power Switches with Two-loop Control; patented Oct. 5, 1976; not available NTIS.

Patent 3,985,454: Window Defect Planar Mapping Technique; patented Oct. 12, 1976; not available NTIS.

GOVERNMENT-OWNED INVENTIONS

Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for domestic and possibly foreign licensing in accordance with the licensing policies of the agency-sponsors.

Copies of the patents cited are available from the Commissioner of Patents and Trademarks, Washington, D.C. 20231, for $.50 each. Requests for copies of patents must include the patent number.

Copies of the patent applications can be purchased from the National Technical Information Service (NTIS), Springfield, Virginia 22161 for $3.50 ($7.00 outside North American Continent). Requests for copies of patent applications must include the PAT-APPL-number. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent and Trademark Office. Claims and other technical data will usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information on a particular invention should be directed to the address cited for the agency-sponsor.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

U.S. DEPARTMENT OF AGRICULTURE, Research Agreements and Patent Management Branch, General Services Division, Federal Bldg., Agricultural Research Service, Hyattsville, Md. 20782.

Patent 3,932,390: 2-Thia-1,3,5-Triaza-7-Phosphaadamantane 2,2-Dioxide; filed Apr. 29, 1975; patented Jan. 13, 1976; not available NTIS.

Patent 3,939,833: Machine to Fill Insect Rearing Cells with Diet; filed Oct. 1, 1974; patented Feb. 24, 1976; not available NTIS.

Patent 3,953,165: Flameproofing Resins for Organic Textiles from Adduct Polymers; filed Aug. 22, 1974; patented Apr. 27, 1976; not available NTIS.

Patent 3,954,400: Phosphorus, Nitrogen, Bromine Containing Polymers and Process for Producing Flame Retardant Textiles; filed Aug. 22, 1974; patented May 4, 1976; not available NTIS.

Patent 3,960,477: Crossdyed Cotton Fabrics; filed Jan. 11, 1974; patented June 1, 1976; not available NTIS.

Patent 3,963,434: Carboxymethylated Cotton Fabric with Improved Conditioned and Wet Wrinkle Recovery by Reaction with Propylene or Ethylene Carbonate; filed July 23, 1975; patented June 15, 1976; not available NTIS.

V4271 APR 13 77 UMI

Patent 3,972,924: 1-(1H,1H-Perfluorooctyl)-1,3-Trimethylenediphosphonic Tetrachloride; filed Nov. 10, 1975; patented Aug. 3, 1976; not available NTIS.

Patent 3,975,154: Process for Producing and Utilizing Durable Press Fabrics with Strong Acid Grafts, filed June 9, 1975; patented Aug. 17, 1976, not available NTIS.

Patent 3,976,604: Preparation of Ethylenimine Prepolymer; filed Jan. 30, 1975; patented Aug. 24, 1976; not available NTIS.

U.S. ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION, Assistant General Counsel for Patents, Washington, D.C. 20545.

Patent 3,913,599: Coil Sprin Venting Arrangement; filed Sept. 30, 1974; patented Oct. 21, 1975; not available NTIS.

Patent 3,920,343: Key-and-Keyway Coupling for Transmitting Torque; filed Nov. 13, 1074; patented Nov. 18, 1975; not available NTIS.

U.S. DEPARTMENT OF THE NAVY, Assistant Chief for Patents, Office of Naval Research, Code 302, Arlington, Va. 22217.

Patent application 674,206: A Valve for Independently Throttling a Plurality of Hydraulic Lines; filed Apr. 6, 1976.

Patent application 684,527: Film-Recording Noise Dosimeter; filed May 10, 1976.

Patent application 690,695: Salvage Apparatus and Method; filed May 27, 1976.

Patent application 707,471: A Self-Contained, Portable, Underwater Stud Welder; filed July 21, 1976.

Patent application 707,583: Elliptical Flywheel Apparatus; filed July 22, 1976.

Patent application 708,236: A Novel Method for the Production of Hydrogen-Carbon Monoxide Mixtures; filed July 23, 1976.

Patent application 708,505: An Underwater Connector; filed July 30, 1976.

Patent application 711,322: A System for Compensating Self-Focusing and Self Phase Modulation in Lasers; filed Aug. 3, 1976.

Patent application 712,128: Fabrication of Ablator Liners in Combustors; filed Aug. 5, 1976.

Patent application 716,729: Preparation of Ceramics; filed Aug. 23, 1976.

Patent application 720,175: 7-Amino Coumarin Dyes for Flashlamp-Pumped Dye Lasers; filed Sept. 3, 1976.

Patent application 721,127: Polarization Holograms; filed Sept. 7, 1976.

Patent application 721,648: Neutral Beam Sustained Astron Reactor; filed Sept. 8, 1976.

Patent application 721,649; Heat by Laser Irradiation in the Pyrolytic Production of Acetylene; filed Sept. 8, 1976.

Patent application 724,053: Collective Ion Acceleration in a Converging Waveguide; filed Sept. 16, 1976.

Patent 3,922,572: Electroacoustical Transducer; filed Aug. 12, 1974, patented Nov. 25, 1975; not available NTIS.

Patent 3,934,208: Object Release Device; filed Nov. 18, 1974; patented Jan. 27, 1976; not available NTIS.

Patent 3,934,482: Cable Traction Sheave; filed Jan. 27, 1975, patented Jan. 27, 1976; not available NTIS.

Patent 3,939,467: Transducer; filed Apr. 8, 1974; patented Feb. 17, 1976; not available NTIS.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

U.S. DEPARTMENT OF AGRICULTURE Research Agreements and Patent Mgmt. Branch, General Services Division, Federal Bldg., Agricultural Research Service, Hyattsville, Md. 20782.

Patent 3,937,724:Orango-Phosphorus Compounds Containing Perfluoroalkyl Radicals and Their Application to Cellulosic Textiles. Filed Mar. 24, 1975, patented Feb. 10, 1976; not available NTIS.

Patent 3,939,863: Machine to Fill Insect Rearing Cells with Diet. Filed Oct. 1, 1974, patented Feb. 24, 1976; not available NTIS.

Patent 3,941,764: Use of Acidic Hexane to Process Oil Seeds for Protein and Oil. Filed May 10, 1974, patented Mar. 2, 1976; not available NTIS.

Patent 3,947,613: Process for Reducing Agent Migration During Treatment of Knitted Cotton Fabric. Filed Aug. 7, 1974, patented Mar. 30, 1976; not available NTIS.

Patent 3,948,600: Selected Ammonium Sulfonate Catalysts for an Improved Process Utilizing Mild Curing Conditions in Durable Press Finishing of Cellulose-Containing Fabrics. Filed Feb. 27, 1975, patented Apr. 6, 1976; not available NTIS.

Patent 3,949,108: Process for Producing Fire Resistant Organic Textile Materials. Filed June 1, 1973, patented Apr. 6, 1976; not available NTIS.

Patent 3,953,166: Flame Resistant Organic Textiles Through Treatment with Phenols and Adduct Polymers. Filed Aug. 22, 1974, patented Apr. 27, 1976; not available NTIS.

Patent 3,954,968: Composition for attracting the Cotton Boll Weevil. Filed Feb. 27, 1975, patented May 4, 1976; not available NTIS.

Patent 3,958,932: Flame-Resistant Textiles Through Finishing Treatments with Vinyl Monomer Systems. Filed Aug. 28, 1974, patented May 25, 1976; not available NTIS.

Patent 3,959,461: Hair Cream Rinse Formulations Containing Quaternary Ammonium Salts. Filed May 28, 1974, patented May 25, 1976; not available NTIS.

Patent 3,961,110: Treatment of Organic Textiles with Adduct Polymers and Phenols. Filed Aug. 22, 1974, patented June 1, 1976; not available NTIS.

Patent 3,963,111: Full Flow Feeder. Filed Mar. 12, 1975, patented June 15, 1976; not available NTIS.

Patent 3,963,433: Formation of Urethane Crosslinks in Cellulose Ethers Incorporating Amine Groups by Use of Propiyene or Ethylene Carbonate. Filed July 23, 1975, patented June 15, 1976; not available NTIS.

Patent 3,963,435: Polyester Grafts and Crosslinks to Cotton by Reaction with Heterocyclic Carbonate, Glycol, and Dibasic Acid. Filed Sept. 9, 1975, patented June 15, 1976; not available NTIS.

Patent 3,963,570: Ultraviolet-Initiated Preparation of N, N-Dibutyl-9(10)-Dibutylphosphonooctadecanamide. Filed Sept. 26, 1974, patented June 15, 1976; not available NTIS.

Patent 3,963,927: Detection of Hidden Insects Filed June 18, 1975, patented June 15, 1976; not available NTIS.

Patent 3,970,424: Durable Press Treatment by Addition of Sodium Dihydrogen Phosphate to Aluminum Sulfate Catalyst. Filed Aug. 14, 1975, patented July 20, 1976; not available NTIS.

Patent 3,972,861: Process for Producing an Edible Cottonseed Protein Concentrate. Filed Nov. 26, 1974, patented Aug. 3, 1976; not available NTIS.

Patent 3,975,152: Simultaneous Dyeing and Crosslinking of Cellulosic Fabrics. Filed Jan. 23, 1975, patented Aug. 17, 1976; not available NTIS.

Patent 3,975,343: Solubilization of Protein with Ethanol-Acetonitril-Water Solvent Systems. Filed June 27, 1975, patented Aug. 17, 1976; not available NTIS.

Patent 3,975,370: Methylolated Reaction Product of a Hydroxy Carbamate and a Cellulose-Dyeing Dyestuff Containing Vinyl Sulfone Groups. Filed Sept. 17, 1974, patented Aug. 17, 1976; not available NTIS.

Patent 3,976,818: Polyfluorinated Amine Oil-Repellent, Stain-Release Fabric Treatment. Filed July 18, 1972, patented Aug. 24, 1976; not available NTIS.

Patent 3,993,782: Repellents for the Confused Flour Beetle. Filed Aug. 14, 1975, patented Nov. 23, 1976; not available NTIS.

U.S. ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION, Assistant General Counsel for Patents, Washington, D.C. 20545.

Patent Application 555,754: Explosive Device. Filed Mar. 6, 1975.

Patent 3,913,481: Apparatus for Reducing Shock and Overpressure. Filed Sep. 17, 1973, patented Oct. 21, 1975; not available NTIS.

Patent 3,914,732: Syatem for Remote Control of Underground Device. Filed July 23, 1973, patented Oct. 21, 1975; not available NTIS.

Patent 3,927,850: Lifting Parachute. Filed Dec. 31, 1974, patented Dec. 23, 1975; not available NTIS.

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, National Institutes of Health, Chief, Patent Branch, Westwood Bldg., Bethesda, Md. 20014.

Patent Application 713,045: Capillary Flow Method and Apparatus for Determination of Cell Osmotic Fragility. Filed Aug. 9, 1976.

Patent Application 724,248: A Digital Display Plug-In. Filed Sep. 17, 1976.

U.S. DEPARTMENT OF THE NAVY, Assistant Chief for Patents, Office of Naval Research, Code 302, Arlington, Va. 22217.

Patent Application 675,671: Combustion System Using Dilute Hydrogen Peroxide. Filed Apr. 9, 1976.

Patent Application 702,541: Low Altitude Optical Altimeter. Filed July 6, 1976.

Patent Application 702,641: Fuel Injection with Flameholding. Filed July 6, 1976.

Patent Application 702,642: Fluidic Combustion Control of a Ramjet. Filed July 6, 1976.

Patent Application 705,223: Composite Dome. Filed July 14, 1976.

Patent Application 705,732: Infrared Imaging Device. Filed July 15, 1976.

Patent Application 705,733: Shock Buffer for Liquid Propellant Gun Projectile. Filed July 15, 1976.

Patent Application 706,869: Explosive Closure Valve. Filed July 19, 1976.

Patent Application 708,253: Edge Detection Analyzer. Filed July 23, 1976.

Patent Application 712,456: Photoparamp Array Multiplexer. Filed Aug. 6, 1976.

Patent Application 723,880: Liquid Propellant Gun. Filed Sep. 16, 1976.

Patent 3,921,562: Self-Depressing Underwater Towable Spread. Filed Oct. 10, 1962, patented Nov. 25, 1975; not available NTIS.

Patent 3,922,630: Automatic Vehicle Positioning System. Filed Dec. 3, 1964, patented Nov. 25, 1975; not available NTIS.

Patent 3,922,631: Underwater Intrusion Detecting System. Filed June 20, 1960, patented Nov. 25, 1975; not available NTIS.

Patent 3,922,632: Automatic Vehicle Positioning System. Filed Dec. 14, 1965, patented Nov. 25, 1975; not available NTIS.

Patent 3,922,633: Insulated Conductor Detector. Filed July 20, 1967, patented Nov. 25, 1975; not available NTIS.

Patent 3,922,634: Sonar System. Filed Sep. 29, 1965, patented Nov. 25, 1975; not available NTIS.

Patent 3,924,069: Helium Speech Decoder. Filed Oct. 15, 1974, patented Dec. 2, 1975; not available NTIS.

Patent 3,928,839: Sonar System. Filed Sep. 5, 1968, patented Dec. 23, 1975; not available NTIS.

Patent 3,933,097: Device to Determine Effective Target Size for Fixed Angle Fuzes. Filed Jan. 4, 1968, patented Jan. 20, 1976; not available NTIS.

Patent 3,935,308: Wound Covering and Method of Application. Filed Aug. 8, 1974, patented Jan. 27, 1976; not available NTIS.

Copies of the patent applications can be purchased from the National Technical Information Service (NTIS), Springfield, Virginia 22161 for $3.50 ($7.00 outside North American Continent). Requests for copies of patent applications must include the PAT-APPLnumber. Claims are deleted from patent application copies sold to the public to void premature disclosure in the event of an interference before the Patent and Trademark Office. Claims and other technical data will usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information on a particular invention should be directed to the address cited for the agency-sponsor.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

U.S. DEPARTMENT OF AGRICULTURE, Research Agreements and Patent Mgmt. Branch, General Services Division, Federal Bldg., Agricultural Research Service, Hyattsville, Md. 20782.

Patent 3,960,902: Synthetic Hormones for Insect Control. Filed July 2, 1975, patented June 1, 1976; not available NTIS.

Patent 3,970,688: Synthetic Hormones for Insect Control. Filed July 2, 1975, patented July 20, 1976, not available NTIS.

Patent 3,975,560: Phosphorus and Nitrogen Containing Resins for Flameproofing Organic Textiles. Filed Aug. 22, 1974, patented Aug. 17, 1976; not available NTIS.

Patent 3,978,230: Arthropod Maturation Inhibitors. Filed Mar. 24, 1975, patented Aug. 31, 1976; not available NTIS.

Patent 3,982,014: Arthropod Maturation Inhibitors. Filed Mar. 24, 1975, patented Sept. 21, 1976; not available NTIS.

Patent 3,985,616: Immobilization of Enzymes with a Starch-Graft Copolymer. Filed Sept. 8, 1975, patented Oct. 12, 1976; not available NTIS.

Patent 3,985,921: Treatment of Wood with Butylene Oxide. Filed June 18, 1975, patented Oct. 12, 1976; not available NTIS.

Patent 3,986,259: Rotary Bark Hack. Filed Apr. 27, 1976, patented Oct. 19, 1976; not available NTIS.

Patent 3,987,058: Preparation and Uses of Stable, Bound Stationary Phases. Filed Feb. 27, 1975, patented Oct. 19, 1976; not available NTIS.

U.S. ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION, Assistant General Counsel for Patents, Washington, D.C. 20545.

Patent application 586,460: High Voltage Pulse Generator. Filed June 12, 1975.

Patent application 589,804: Polymer Delineation System. Filed June 24, 1975.

Patent 3,915,695: Method for a Treating Reactive Metals in a Vacuum Furnace. Filed Jan. 8, 1974, patented Oct. 28, 1975; not available NTIS.

Patent 3,924,675: Energy Absorber for Sodium-Heated Heat Exchanger. Filed May 3, 1973, patented Dec. 9, 1975; not available NTIS.

Patent 3,928,027: Nonswelling Alloy. Filed Aug. 20, 1974, patented Dec. 23, 1975; not available NTIS.

Patent 3,934,239: Adjustable Electronic Load-Alarm Relay. Filed Sept. 27, 1974, patented Jan. 20, 1976, not available NTIS.

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, National Institutes of Health, Chief, Patent Branch, Westwood Bldg., Bethesda, Md. 20014.

Patent application 703,378: X-Ray Apparatus. Filed July 6, 1976.

Patent application 712,767: Electrochemical Growth of Crystals from Electrolyte Solutions. Filed Aug. 9, 1976.

Patent application 712,854: The Synthesis, Structure, and Antitumor Activity of 5,6-Dihydro-5-Azacytidine. Filed Aug. 8, 1976.

Patent application 714,685: Double-Wheel Automotive Hand Control System. Filed Aug. 16, 1976.

Patent application 719,689: 1,2-Diaminocyclohexane Platinum (II). Complexes Having Antineoplastic Activity. Filed Sept. 2, 1976.

Patent application 722,207: Anodynin, an Endogenous Opiate Analgesic from Human Blood, and Process for Recovering Same. Filed Sept. 10, 1976.

Patent application 724,018: Method of Converting Certain Allylic Ethers to Dienol Ethers. Filed Sept. 16, 1976.

Patent 3,963,116: Production of N5-Methyltetrahydrohomofolic Acid and Related Reduced Derivatives of Homofolic Acid. Filed Aug. 16, 1974, patented Sept. 28, 1967; not available NTIS.

U.S. DEPARTMENT OF THE INTERIOR, Branch of Patents, 18th and C Streets NW., Washington, D.C. 20240.

Patent 3,977,312: Parachute Stopping for Mine Ventilation Use. Filed Oct. 31, 1975, patented Aug. 31, 1976; not available NTIS.

U.S. DEPARTMENT OF THE NAVY, Assistant Chief for Patents, Office of Naval Research, Code 302, Arlington, Va. 22217.

Patent 3,982,178: Method of Determining Adequacy of Substrate Memory Wire during the Plating Procss. Filed Jan. 29, 1975, patented Sept. 21, 1976; not available NTIS.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

U.S. DEPARTMENT OF THE ARMY, Office of Judge Advocate General, Patent Divison, Room 2C-455, Pentagon, Washington, D.C. 20310.

Patent 3,942,132: Combined Electron Beam Semiconductor Modulator and Junction Laser. Filed Sept. 6, 1974, patented March 2, 1976; not available NTIS.

Patent 3,944,729: Stabilized Terrain Optical Position Sensor. Filed March 25, 1975, patented March 16, 1976; not available NTIS.

V4271 APR 13 77 UMI

Patent 3,948,699: Hydrogen Gas Generators for Use in Chemical Lasers. Filed Nov. 8, 1974, patented April 6, 1976; not available NTIS.

Patent 3,948,700: Method for Producing High Temperature Hydrogen. Filed Nov. 8, 1974, patented April 6, 1976; not available NTIS.

Patent 3,950,662: Solar Cell Detector Array for Engagement Simulation. Filed Oct. 3, 1974, patented Apr. 20, 1976; not available NTIS.

Patent 3,952,583: Apparatus and Method for the Remote Detection of Vibrations of Diffuse Surfaces. Filed Jan. 2, 1975, patented Apr. 27, 1976; not available NTIS.

Patent 3,958,457: Electronically Operated Tippling-Bucket Rain Gauge. Filed Sept. 26, 1975, patented May 25, 1976; not available NTIS.

Patent 3,959,659: Intense Energetic Electron Beam Assisted Fusion Neutron Generator. Filed Apr. 4, 1976, patented May 25, 1976; not available NTIS.

Patent 3,965,081: Isotactic and Syndiotactic Polyvinyl Nitrates and Processes for Their Formation. Filed Jan. 21, 1974, patented June 22, 1976; not available NTIS.

Patent 3,965,749: Sampling and Dilution Method. Filed Mar. 19, 1975, patented June 29, 1976; not available NTIS.

Patent 3,967,121: Low Level Infrared Camera (LLIR Camera). Filed Sept. 10, 1975, patented June 29, 1976; not available NTIS.

Patent 3,972,864: Copolymers of Methyl Alpha-N-Alkylacrylate and Methyl Methacrylate. Filed Feb. 19, 1975, patented Aug. 3, 1976; not available NTIS.

U.S. DEPARTMENT OF THE AIR FORCE, AF/JACP, Washington, D.C. 20314.

Patent application 706,317: Passive Infrared Resolution Target. Filed July 19, 1976.

Patent application 707,139: Ejector Rack for Nuclear Stores. Filed July 20, 1976.

Patent application 710,088: Perfluoroalkylene Ether Bibenzoxazole Polymers. Filed July 30, 1976.

Patent application 710,089: Perfluoroalkylene Ether-Imidate and -Thioimidate Esters. Filed July 30, 1976.

U.S. ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION, Assistant General Counsel for Patents, Washington, D.C. 20545.

Patent 3,911,280: Method of Measuring a Profile of the Density of Charged Particles in a Particle Beam. Filed Apr. 11, 1974, patented Oct. 7, 1975; not available NTIS.

Patent 3,912,625: Method for Removing and Decolorizing Aqueous Waste Effluents Containing Dissolved or Dispersed Organic Matter. Filed Nov. 5, 1973, patented Oct. 14, 1975; not available NTIS.

Patent 3,914,054: Zeeman Effect Absorption Spectrometer. Filed Feb. 13, 1974, patented Oct. 21, 1975; not available NTIS.

Patent 3,914,373: Method for Separating Isotopes. Filed Jan. 20, 1973, patented Oct. 21, 1975; not available NTIS.

Patent 3,914,388: Volatilization of Iodine from Nitric Acid Using Peroxide. Filed Sept. 11, 1973, patented Oct. 21, 1975; not available NTIS.

Patent 3,916,200: Window for Radiation Detectors and the Like. Filed Sept. 4, 1974, patented Oct. 28, 1975; not available NTIS.

Patent 3,918,812: Diagnoses of Disease States by Fluorescent Measurements Utilizing Scanning Laser Beams. Filed May 7, 1973, patented Nov. 11, 1975; not available NTIS.

Patent 3,918,818: Method for detection of Trichinellae. Filed Mar. 29, 1974, patented Nov. 11, 1975; not available NTIS.

Patent 3,919,273: Nonaqueous Actinide Hydride Dissolution and Production of Actinide Beta-Diketonates. Filed Aug. 23, 1974, patented Nov. 11, 1975; not available NTIS.

Patent 3,919,274: Nonaqueous Method for Dissolving Lanthanide and Actinide Metals. Filed Aug. 23, 1974, patented Nov. 11, 1975; not available NTIS.

Patent 3,920,577: Iodine Retention During Evaporative Volume Reduction. Filed July 16, 1974, patented Nov. 18, 1975; not available NTIS.

Patent 3,922,311: Fluorodinitroethyl Difluoroformal and Process of Manufacture. Filed May 10, 1972, patented Nov. 25, 1975; not available NTIS.

Patent 3,922,872: Iron Titanium Manganese Alloy Hydrogen Storage. Filed Feb. 4, 1975, patented Dec. 2, 1975; not available NTIS.

Patent 3,923,619: O18 Enrichment Process ih UO2F2 Utilizing Laser Light. Filed Sept. 16, 1974, patented Dec. 2, 1975; not available NTIS.

Patent 3,923,959: Method for Preparing Actinide Nitrides. Filed Nov. 28, 1973, patented Dec. 2, 1975; not available NTIS.

Patent 3,924,180: Potential Sensing Cell Analyzer. Filed Oct. 12, 1973, patented Dec. 2, 1975; not available NTIS.

Patent 3,925,036: Stage Design. Filed Mar. 23, 1951, patented Dec. 9, 1975; not available NTIS.

Patent 3,925,039: System for Treating Fuel Gas. Filed Nov. 18, 1974, patented Dec. 9, 1975; not available NTIS.

Patent 3,925,674: X-Ray Image Intensifier Phosphor. Filed Jan. 30, 1973, patented Dec. 9, 1975; not available NTIS.

Patent 3,926,560: System for Detecting Gaseous Contaminants in Air. Filed Oct. 30, 1973, patented Dec. 16, 1975; not available NTIS.

Patent 3,926,953: Process for Producing 1,5-Diacetyl-3,7-Dinitro-1, 3, 5, 7-Tetraazacyclooctane. Filed Dec. 5, 1974, patented Dec. 16, 1975; not available NTIS.

Patent 3,929,585: Production of Charcoal from Sawdust in a Fluidized Bed. Filed Aug. 16, 1972, patented Dec. 30, 1975; not available NTIS.

Patent 3,929,601: Synthesis of Pentafluorides. Filed Mar. 26, 1974, patented Dec. 30, 1975. Not available NTIS.

Patent 3,929,979: Process for Generating Hydrogen. Filed Sept. 10, 1974, patented Dec. 30, 1975; not available NTIS.

Patent 3,929,980: Method of Producing Hydrogen. Filed Dec. 26, 1974, patented Dec. 30, 1975; not available NTIS.

Patent 3,932,300: System for Disposing of Radioactive Water. Filed Sept. 10, 1973; patented Jan. 13, 1976.

Patent 3,936,633: Method of Determining Lanthanides in a Transition Element Host. Filed Jan. 16, 1976; patented Feb. 3, 1976.

Patent 3,939,049: Process for Radiation Grafting Hydrogels onto Organic Polymeric Substrates. Filed Apr. 10, 1974; patented Feb. 17, 1976.

Patent 3,943,062: Cryolite Process for the Solidification of Radioactive Wastes. Filed May 13, 1974; patented Mar. 9, 1976.

Patent 3,943,204: Method for Improving the Extraction Properties of a Tributyl Phosphate Solution. Filed Feb. 5, 1974; patented Mar. 9, 1976.

Patent 3,944,638: Process for Preparing Metal-Carbide-Containing Microspheres from Metal-Loaded Resin Beads. Filed June 18, 1974; patented Mar. 16, 1976.

Patent 3,946,932: Brazing Graphite to Graphite. Filed Apr. 25, 1968; patented Mar. 30, 1976.

Patent 3,947,335: Isotope Separation by Selective Photodissociation of Glyoxal. Filed Mar. 4, 1975; patented Mar. 30, 1976.

U.S. DEPARTMENT OF THE NAVY, Assistant Chief for Patents, Office of Naval Research, Code 302, Arlington, Va. 22217.

Patent application 707,979: N,N'-Bis(3,4-Dicyanophenyl) Alkanediamide, Polyphthalocyanines, and Preparation Thereof. Filed July 23, 1976.

Patent application 708,152: N,N'-Bis(3,4-Dicyanophenyl) Alkanediamide, Polyphthalocyanines, and Preparation Thereof. Filed July 23, 1976.

Patent application 708,668: Catoptric Lens Arrangement. Filed July 26, 1976.

Patent application 709,477: Solid State Blue-Green Laser with High Efficiency Laser Pump. Filed July 28, 1976.

Patent application 710,965: Dual Model Guidance System. Filed Aug. 2, 1976.

Patent application 713,454: A Device For Secant Correction of Azimuth Data in Tracking Radars. Filed Aug. 11, 1976.

Patent application 715,740: Apparatus for Measuring Holographic Lens Aberration Parameters. Filed Aug. 19, 1976.

Patent application 767,746: An Oil and Sorbent Mixture Containment Boom, Filed July 22, 1976.

Patent 3,942,127: Aspheric Cassegrain Laser Power Amplifier System. Filed Apr. 11, 1975, patented Mar. 2, 1976; not available NTIS.

Patent 3,948,042: System for Controlling the Nozzle Throat Area of a Rocket Motor. Filed Dec. 23, 1968; patented Apr. 6, 1976; not available NTIS.

Patent 3,948,182: Semi-Active Electro- Optical Bomblet Fuze. Filed Oct. 3, 68, patented Apr. 6, 1976; not available NTIS.

Patent 3,956,991: Optical, Semi-Active Bomblet Fuze. Filed Oct. 3, 1968, patented May 18, 1976; not available NTIS.

Patent 3,957,350: Device for Displaying a Laser Beam. Filed Aug. 26, 1974, patented May 18, 1976; not available NTIS.

Patent 3,964,416: Boiler Reactor. Filed July 19, 1965, patented June 22, 1976; not available NTIS.

Patent 3,968,400: Flash Tube Modulator. Filed March 30, 1965, patented July 6, 1976; not available NTIS.

Patent 3,969,667: Device for Determining the State of Charge in Batteries. Filed Dec. 20, 1974, patented July 13, 1976; not available NTIS.

Patent 3,974,323: Metal Article Having Protective Thin Film Coating and Method of Applying. Filed Nov. 19, 1973, patented Aug. 10, 1976; not available NTIS.

Patent 3,978,724: Fluidic Angle-of-Attack Sensor. Filed Dec. 4, 1975, patented Sept. 7. 1976; not available NTIS.

Patent 3,979,253: Method for Dispersing Glass Fibers for the Preparation of Glass Filter Media. Filed Feb. 5, 1976, patented Sept. 7, 1976; not available NTIS.

Patent 3,979,561: Level-Code Encoded Multiplexer. Filed May 6, 1975, patented Sept. 7, 1976; not available NTIS.

Patent 3,982,235: Sinusoidal Film Plated Memory Wire. Filed Aug. 28, 1974, patented Sept. 21, 1976; not available NTIS.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION, Assistant General Counsel for Patent Matters, NASA Code GP-2, Washington, D.C. 20546.

Patent application 699,002: Ultra Stable Frequency Distribution System. Filed June 21, 1976.

Patent application 718,244: Supersonic Transport. Filed Aug. 27, 1976.

Patent application 725,828: Turbulence Intensity Indicator. Filed Sept. 23, 1976.

Patent 3,977,231: Static Coefficient Test Method and Apparatus. Patented Aug. 31, 1976; not available NTIS.

Patent 3,977,771: Optical Noise Suppression Device and Method. Patented Aug. 31, 1976; not available NTIS.

Patent 3,977,787: High Resolution Fourier Interferometer - Spectrophotopolarimeter. Patented Aug. 31, 1976; not available NTIS.

Patent 3,978,267: Real Time Analysis of Voiced Sounds. Patented Aug. 31, 1976; not available NTIS.

GOVERNMENT-OWNED INVENTIONS

Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for domestic and possibly foreign licensing in accordance with the licensing policies of the agency-sponsors.

Copies of the patents cited are available from the Commissioner of Patents and Trademarks, Washington, D.C. 20231, for $.50 each. Requests for copies of patents must include the patent number.

Copies of the patent applications can be purchased from the National Technical Information Service (NTIS), Springfield, Virginia 22161 for $3.50 ($7.00 outside North American Continent). Requests for copies of patent applications must include the PAT-APPLnumber. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent and Trademark Office. Claims and other technical data will usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information on a particular invention should be directed to the address cited for the agency-sponsor.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

U.S. DEPARTMENT OF THE ARMY, Office of Judge Advocate General, Patent Division, Room 2C-455, Pentagon, Washington, D.C. 20310.

Patent 3,941,999: Automatic Focus Pulse Gated System. Filed Apr. 1, 1975, patented Mar. 2, 1976; not available NTIS.

Patent 3,944,950: Quasi-Optical Integrated Circuits. Filed Sept. 30, 1974, patented Mar. 16, 1976; not available NTIS.

Patent 3,949,246: Piezoelectric Bimorph Controlled Variable Capacitor. Filed Dec. 23, 1974, patented Apr. 6, 1976; not available NTIS.

Patent 3,952,378: Mechanical Closure Device. Filed Feb. 4, 1975, patented Apr. 27, 1976; not available NTIS.

Patent 3,952,676: Laminar Jet Fluid Property Sensor. Filed Apr. 10, 1975, patented Apr. 27, 1976; not available NTIS.

Patent 3,953,129: Testing and Inspecting Lens by Holographic Means. Filed Jan. 9, 1975, patented Apr. 27, 1976; not available NTIS.

Patent 3,953,850: Radar Test Facility Communication System. Filed Oct. 8, 1974, patented Apr. 27, 1976; not available NTIS.

Patent 3,958,121: Infrared Image Storage Plate. Filed Sept. 10, 1975, patented May 18, 1976; not available NTIS.

Patent 3,958,602: Flueric Laminar Digital Amplifier. Filed Mar. 12, 1975, patented May 25, 1976; not available NTIS.

Patent 3,960,022: Null Adjustable Vortex Rate Sensor. Filed May 9, 1973, patented June 1, 1976; not available NTIS.

Patent 3,962,591: Voltage Doubler Circuit. Filed Dec. 23, 1974, patented June 8, 1976; not available NTIS.

Patent 3,962,657: Broadband Data Modulation System. Filed Oct. 22, 1974, patented June 8, 1976; not available NTIS.

Patent 3,967,218: Edge-Guided Wave Directional Combiner. Filed Sept. 26, 1975, patented June 29, 1976; not available NTIS.

U.S. DEPARTMENT OF THE AIR FORCE AF/JACP, WASHINGTON, D.C. 20314.

Patent Application 706,320: Supersonic Flow Diffuser with Energy Redistribution. Filed July 19, 1976.

Patent Application 706,321: Method and Apparatus for Effecting Multiple Spectral Wavelength Imaging with Infrared Television. Filed July 19, 1976.

Patent Application 706,414: Error Corrected Error Amplifier. Filed July 19, 1976.

Patent Application 707,574: Radiation Hardened MNOS Memory Transistor and Method of Manufacture. Filed July 22, 1976.

Patent 3,970,007: Salvage Switch. Filed Jan. 20, 1971, patented July 20, 1976; not available NTIS.

Patent 3,975,210: Metal-Gas Battery with Axial Reactant Gas Storage Cavity. Filed Mar. 27, 1975, patented Aug. 17, 1976, not available NTIS.

Patent 3,975,416: Preparation of Yttrium and Lanthanide Hexafluoroisopropoxide Diammoniates. Filed Sep. 6, 1973, patented Aug. 17, 1976; not available NTIS.

Patent 3,975,444: Ethynyl-Substituted Aromatic Ortho Diamines and Method of Synthesis. Filed May 19, 1975, patented Aug. 17, 1976; not available NTIS.

Patent 3,975,748: Multispectral Laser Camera Device. Filed May 22, 1970, patented Aug. 17, 1976; not available NTIS.

Patent 3,975,955: Edgetone Suppression Device for Wind Tunnel Walls. Filed June 27, 1975, patented Aug. 24, 1976; not available NTIS.

Patent 3,975,961: Separation Spring Actuator. Filed May 12, 1975, patented Aug. 24, 1976; not available NTIS.

Patent 3,976,268: Tethered Balloon Mooring Means. Filed Apr. 6, 1975, patented Aug. 24, 1976; not available NTIS.

Patent 3,976,394: Interstage Bleed Assembly. Filed July 18, 1975, patented Aug. 24, 1976; not available NTIS.

Patent 3,976,521: Method of Coating Boron Particles with Ammonium Perchlorate. Filed Nov. 20, 1974, patented Aug. 24, 1976; not available NTIS.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION, Assistant General Counsel for Patents, Washington, D.C. 20545.

Patent Application 561,561: Fabrication of Nb3(Al, Ge) Superconductors by Plasma Arc Spraying. Filed Mar. 24, 1975.

Patent Application 563,274: Method and Apparatus for Producing Synthetic Fuels from Solid Waste. Filed Mar. 28, 1975.

Patent 3,910,714: Liquid Metal Pump for Nuclear Reactors. Filed Dec. 11, 1974, patented Oct. 7, 1975; not available NTIS.

Patent 3,912,582: Hydraulic Balancing of a Control Component within a Nuclear Reactor. Filed Aug. 16, 1974, patented Oct. 14, 1975; not available NTIS.

Patent 3,912,584: LMFBR with Booster Pump in Pumping Loop. Filed Jan. 9, 1974, patented Oct. 14, 1975; not available NTIS.

Patent 3,912,908: Electric Cartridge-Type Heater for Producing a Given Non-Uniform Axial Power Distribution. Filed Nov. 12, 1974, patented Oct. 14, 1975; not available NTIS.

Patent 3,914,371: Method for Preparing Boron-Carbide Articles. Filed Dec. 27, 1973, patented Oct. 21, 1975; not available NTIS.

Patent 3,914,612: Neutron Source. Filed Aug. 26, 1974, patented Oct. 21, 1975; not available NTIS.

Patent 3,915,499: Acid Pre-Treatment Method for In situ Ore Leaching. Filed July 23, 1974, patented Oct. 28, 1975; not available NTIS.

Patent 3,917,509: Thermionic Nuclear Reactor with Internal Heat Distribution and Multiple Duct Cooling. Filed Apr. 16, 1974, patented Nov. 4, 1975; not available NTIS.

Patent 3,919,406: Thermochemical Production of Hydrogen. Filed July 10, 1974, patented Nov. 11, 1975; not available NTIS.

Patent 3,919,580: Relativistic Electron Beam Generator. Filed Sept. 11, 1974, patented Nov. 11, 1975; not available NTIS.

Patent 3,923,496: Nickel Powder and a Process for Producing It. Filed Apr. 26, 1945, patented Dec. 2, 1975; not available NTIS.

Patent 3,923,612: Electroplating a Gold-Platinum Alloy and Electrolyte Therefor. Filed Feb. 26, 1974, patented Dec. 2, 1975; not available NTIS.

Patent 3,924,106: Background Compensation for a Radiation Level Monitor. Filed Oct. 31, 1974, patented Dec. 2, 1975; not available NTIS.

Patent 3,925,536: Method of Recovering Uranium Hexafluoride. Filed June 19, 1947, patented Dec. 9, 1975; not available NTIS.

Patent 3,926,344: Volumetric Dispenser for Small Particles from Plural Sources. Filed June 20, 1974, patented Dec. 16, 1975; not available NTIS.

Patent 3,927,192: Chemical Cycle for Thermochemical Production of Hydrogen from Water. Filed Jan. 29, 1975, patented Dec. 16, 1975; not available NTIS.

Patent 3,927,325: Tissue Irradiator. Filed July 10, 1974, patented Dec. 16, 1975; not available NTIS.

Patent 3,928,126: Fuel or Irradiation Subassembly. Filed July 9, 1974, patented Dec. 23, 1975; not available NTIS.

Patent 3,928,549: Thermochemical Production of Hydrogen. Filed June 20, 1974, patented Dec. 23, 1975; not available NTIS.

Patent 3,928,700: Method of Producing Thin Cellulose Nitrate Film. Filed May 30, 1974, patented Dec. 23, 1976; not available NTIS.

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, National Institutes of Health, Chief, Patent Branch, Westwood Bldg., Bethesda, Md. 20014.

Patent Application 704,667: Dialysis Regeneration System Using Automatic Feedback Control System and Controlled Ultrafiltration. Filed July 12, 1976.

Patent 3,976,072: Blink-Operated Extracorporeal Tear Duct. Filed Sept. 3, 1975, patented Aug. 24, 1976; not available NTIS.

U.S. DEPARTMENT OF THE NAVY, Assistant Chief for Patents, Office of Naval Research, Code 302, Arlington, Va. 22217.

Patent Application 673,494: Event Stacker and Display Devise. Filed Apr. 5, 1976.

Patent Application 682-010: Serial to Parallel Converter. Filed May 3, 1976.

Patent Application 694,623: Dual Resonance Bender Transducer. Filed June 10, 1976.

Patent Application 699,007: Constant Altitude Auto Pilot Circuit. Filed June 21, 1976.

Patent Application 702,794: Camera. Filed July 6, 1976.

Patent Application 705,643: Ship Propulsion for Burst Speed. Filed July 15, 1976.

Patent Application 706,410: Drive Control to Prevent Simultaneous Conduction in Push-Pull Switching Amplifiers. Filed July 19, 1976.

Patent Application 708,779: High Speed Manchester Encoder. Filed July 26, 1976.

Patent Application 711,173: A High Power Microstrip Element. Filed Aug. 3, 1976.

Patent Application 713,455: A Negative Feedback Amplifier and Level Shifter. Filed Aug. 11, 1976.

V4271 APR 13 77 UMI

Patent Application 715,083: Broadband Microwave Two-Stage Stagger Tuned Field Effect Transistor Amplifier. Filed Aug. 17, 1976.

Patent Application 716,870: Coaxial Wet Connector. Filed Aug. 23, 1976.

Patent 3,549,591: Polyfluoroepoxides and Epoxy Resins Containing Fluorine on the Aromatic Carbon Structure and Process. Filed July 30, 1968, patented Dec. 22, 1970; not available NTIS.

Patent 3,898,662: Radar Target Simulator Using No Electrical Connection to Radar. Filed Aug. 16, 1968, patented Aug. 5, 1975; not available NTIS.

Patent 3,936,954: Electronic Bearing Selector for Omni-Directional Signals. Filed May 27, 1964, patented Feb. 10, 1976; not available NTIS.

Patent 3,936,958: Sonar Reverberation Simulation. Filed June 18, 1968, patented Feb. 10, 1976; not available NTIS.

Patent 3,964,155: Method of Planar Mounting of Silicon Solar Cells. Filed June 8, 1973, patented June 22, 1976; not available NTIS.

Patent 3,965,343: Modular System for Performing the Discrete Fourier Transform via the Chirp–Z Transform. Filed Mar. 3, 1975, patented June 22, 1976; not available NTIS.

Patent 3,965,729: Load Crack Testing Device. Filed Oct. 1, 1975, patented June 29, 1976; not available NTIS.

Patent 3,967,633: Gas Vent System for Operation in Any Arbitrary Spatial Orientation. Filed May 22, 1975, patented July 6, 1976; not available NTIS.

Patent 3,968,491: Radar Rangemeter. Filed Nov. 25, 1974, patented July 6, 1976; not available NTIS.

Patent 3,971,110: Method for Fabricating an Electron-Emission Cathode. Filed Sept. 11, 1975, patented July 27, 1976; not available NTIS.

Patent 3,971,927: Modular Discrete Cosine Transform System. Filed Nov. 3, 1975, patented July 27, 1976; not available NTIS.

Patent 3,972,554: Ring Type Recovery Tool. Filed Jan. 12, 1976, patented Aug. 3, 1976; not available NTIS.

Patent 3,972,555: Tong Type Recovery Tool. Filed Jan. 2, 1976, patented Aug. 3, 1976; not available NTIS.

Patent 3,972,730: Pyrotechnically Activated Lithium-Chlorine Cell. Filed June 25, 1975, patented Aug. 3, 1976; not available NTIS.

Patent 3,972,814: Fluidic Oil-Water Separator. Filed Feb. 12, 1975, patented Aug. 3, 1976; not available NTIS.

Patent 3,973,501: Fuze with Dual Safe Positions and Armed-Safe Indicator. Filed Sept. 17, 1974, patented Aug. 10, 1976; not available NTIS.

Patent 3,978,487: Coupled Fed Electric Microstrip Dipole Antenna. Filed Apr. 24, 1975, patented Aug. 31, 1976; not available NTIS.

Patent 3,979,746: High-Speed Manchester Code Demodulator. Filed Apr. 28, 1975, patented Sept. 7, 1976; not available NTIS.

TENNESSEE VALLEY AUTHORITY, Division of Law, Muscle Shoals, Ala. 35660.

Patent 3,969,483: Removal of Carbonaceous Matter from Ammonium Polyphosphate Liquids. Filed June 5, 1975, patented July 13, 1976; not available NTIS.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 714-1]

CALIFORNIA STATE STANDARDS

Motor Vehicle Pollution Control; Public Hearing

Section 209(a) of the Clean Air Act, as amended, 42 U.S.C. 1857f-6a(a), provides: "No State or any political subdivision thereof shall adopt or attempt to enforce any standard relating to the control of emissions from new motor vehicles or new motor vehicle engines subject to this part * * * [or] * * * shall require certification, inspection, or any other approval relating to the control of emissions from any new motor vehicle or new motor vehicle engine as condition precedent to the initial retail sale, titling (if any), or registration of such motor vehicle, motor vehicle engine, or equipment."

Section 209(b) of the Act directs the Administrator of the Environmental Protection Agency (EPA), after notice and opportunity for public hearing, to waive application of the prohibitions of section 209 to any State which had adopted standards (other than crankcase emission standards) for the control of emissions from new motor vehicles or new motor vehicle engines prior to March 30, 1966, unless he finds that such State does not require standards more stringent than applicable Federal standards, to meet compelling and extraordinary conditions or that such State standards and accompanying enforcement procedures are not consistent with section 202(a) of the Clean Air Act.

By letters dated July 19, 1976, November 1, 1976, January 20, 1977, and February 22, 1977, the California Air Resources Board (CARB) notified the Administrator that the Board had taken a number of actions to revise California's motor vehicle emissions control program. The CARB requested that waivers be granted for those items in the revisions which in the judgment of the Administrator require such waivers, and that a public hearing be convened by the Administrator.

The EPA has determined that the following items are within the scope of waivers currently in effect, and therefore, no new waiver is required:

(i) Assembly line test procedures applicable to 1978 model year gasoline-powered passenger cars and light duty trucks, and

(ii) Compliance and inspection testing requirements applicable to 1977 and 1978 model year gasoline-powered passenger cars and light duty trucks.

The following items will require a waiver before they can be effectuated by California:

(i) Compliance and inspection testing of 1977 and subsequent model year motor vehicles except 1977 and 1978 model year gasoline-powered passenger cars and light duty trucks under sections 2100 et seq., Title 13, California Administrative Code,

(ii) Exhaust emission standards and test procedures for 1979 and subsequent model year passenger cars, light duty trucks and medium duty vehicles,

(iii) Evaporative emission standard and test procedures (SHED test) for 1980 and subsequent model year gasoline-powered motor vehicles except motorcycles, and also, amendments to the SHED test procedures for 1978 and subsequent model year gasoline-powered motor vehicles except motorcycles.

(iv) Certification test procedures applicable to 1980 and subsequent model year passenger cars, light duty trucks and medium duty vehicles imposing a restriction on allowable maintenance, and

(v) Assembly line test procedures for 1978 model year diesel-powered light duty trucks, and medium duty vehicles.

As a result of the promulgation of Federal emission standards and test procedures for 1978 and later model year motorcycles, see 42 FR 1122 (January 5, 1977), the CARB adopted certain amendments to the California motorcycle emission control regulations on March 24, 1977. In light of the promulgation of the Federal regulations as well as these amendments to the California regulations, EPA intends to consider whether California continues to comply with the conditions of the October 1, 1976, waiver. See 41 FR 44209 (October 7, 1976). In the meantime, though, this waiver will remain in effect unless and until the Administrator determines otherwise.

Finally, the EPA also notified the CARB that a public hearing would be convened by the Administrator in order to consider whether to grant California a general waiver of Federal preemption for all standards and test procedures (including accompanying enforcement procedures) adopted by the CARB in the future that related to the control of emissions from new motor vehicles or new motor vehicle engines. In the event that California is granted such a waiver, the Administrator would provide notice and an opportunity for a public hearing, upon submission of a bona fide request by any interested party, to consider whether California continued to comply with the conditions of such a waiver in light of any such future standards and test procedures.

Therefore, I hereby given notice that:

(i) California has submitted a request for a waiver from the prohibitions of section 209(a) for a series of five actions that have been taken by the CARB,

(ii) EPA intends to consider whether California continues to comply with the conditions of the October 1, 1976, waiver, see 41 FR 44209 (October 7, 1976), and to determine whether to grant California a general waiver from the prohibitions of section 209(a) for all standards and test procedures (including accompanying enforcement procedures) adpoted by the CARB in the future that relate to the control of emissions from new motor vehicles or new motor vehicle engines, for which no waiver has heretofore been granted, and

(iii) A public hearing on these matters will be convened at the U.S. Environmental Portection Agency Regional Office (Region IX), Conference Room A, Second Floor, 100 California Street, San Francisco, California, on May 16–20, 1977, commencing at 10:00 a.m. Benjamin R. Jackson, Director, Mobile Source Enforcement Division, EPA, is designated as the Presiding Officer for this hearing.

The agenda for the public hearing will be as follows:

Monday (May 16, 1977)—Compliance and inspection testing of 1977 and subsequent model year motor vehicles except 1977 and 1978 model year gasoline-powered passenger cars and light duty trucks; assembly line test procedures for 1978 model year diesel-powered light duty trucks, and medium duty vehicles; reconsideration of October 1, 1976, waiver.

Tuesday (May 17, 1977)—Evaporative emission standard and test procedures (SHED test) for 1980 and subsequent model year gasoline-powered motor vehicles except motorcycles, and also, amendments to the SHED test procedures for 1978 and subsequent model year gasoline-powered motor vehicles except motorcycles.

Wednesday (May 18, 1977)—Exhaust emission standards and test procedures for 1979 and subsequent model year passenger cars, light duty trucks and medium duty vehicles; certification test procedures applicable to 1980 and subsequent model year passenger cars, light duty trucks and medium duty vehicles imposing a restriction on allowable maintenance.

Thursday (May 19, 1977)—General waiver.

Any person desiring to make a statement at the hearing or to submit material for the record of the hearing should file a notice of such intention and ten copies of his or her proposed statement (and other relevant material) by May 1, 1977, with the Director, Mobile Source Enforcement Division (EN-340), Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460. In addition, fifteen copies of such statement or material for the record of the hearing should be submitted to the Presiding Officer at the time of the public hearing. Participants are also urged to supply additional copies of any written material for distribution to interested members of the audience.

The pertinent California standards and test procedures can be found in:

(i) Sections 2100 et seq., Title 13, California Administrative Code,

(ii) Sections 1955.1, 1955.5, 1959, Title 13, California Administrative Code, and "California Exhaust Emission Standards and Test Procedures for 1975 through 1979 Model Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles," adopted February 19, 1975; last amended November 23, 1976,

(iii) Section 1960, Title 13, California Administrative Code, and "California Exhaust Emissions Standards and Test Procedures for 1980 and Subsequent Model Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles," adopted November 23, 1976, as amended December 14, 1976,

(iv) Section 1976(b), Title 13, California Administrative Code, and "California Evaporative Emission Standards and test procedures for 1978 and Subsequent Model Gasoline-Powered Motor Vehicles except Motorcycles," adopted April 16, 1975, last amended November 23, 1976,

(v) Section 2056, Title 13, California Administrative Code, and "California Assembly-Line Test Procedures for 1978 Model-Year Passenger Cars, Light-Duty Trucks and Medium-Duty Vehicles," adopted January 25, 1977, and

(vi) Section 1958, Title 13, California Administrative Code, and "California Exhaust Emission Standards and Test Procedures for 1978 and Subsequent Production Motorcycles," adopted July 15, 1975, as amended February 20, 1976.

In addition, in considering whether to grant California a general waiver from the prohibitions of section 209(a), the pertinent California standards and test procedures can be found in Title 13 of the California Administrative Code.

A copy of the above-described material is available for public inspection during normal working hours (8:00 a.m. to 4:30 p.m.) at the U.S. Environmental Protection Agency, Public Information Reference Unit, Room 2922 (EPA Library), 401 M Street SW., Washington, D.C. 20460. Copies of the California standards and test procedures are available upon request from the California Air Resources Board, 1102 Q Street, Sacramento, California 95812.

Procedures. Since the public hearing is designed to give interested persons an opportunity to participate in this proceeding by the presentation of data, views, arguments, or other pertinent information concerning the Administrator's proposed action, there are no adversary parties as such. Statements by the participants will not be made under oath and the participants will not be subject to cross-examination.

Presentation by the participants should be limited to the following considerations:

(i) Whether the California standards (including test procedures) mentioned above are more stringent than applicable Federal standards,

(ii) Whether compelling and extraordinary conditions continue to exist in California, and

(iii) Whether such standards and accompanying enforcement procedures are consistent with section 202(a) of the Act, in particular with respect to their technological feasibility in the lead time remaining.

In addition, participants will be able to present their views on the question of granting California a general waiver of Federal preemption.

In order to assure full opportunity for the presentation of data, views, and arguments by participants, the Presiding Officer will, upon request of the participants, allow a reasonable time after the close of the hearing for the submission of written data, views, arguments, or other pertinent information to be included as part of the record of the hearing.

A verbatim record of the proceeding will be made and a copy of the transcript will be made available on request at the expense of the person so requesting.

The determination of the Administrator regarding the action to be taken with respect to the waiver of the prohibition of section 209(a) for the State of California is not required to be made solely on the record of the public hearing. Other scientific, engineering, and related pertinent information, not presented at the public hearing may also be considered. This information will be available for public inspection prior to the Administrator's determination on this matter.

Dated: April 7, 1977.

STANLEY W. LEGRO,
Assistant Administrator
for Enforcement.

[FRL 713-2; PFT22]

FOOD ADDITIVE PETITION

Filing

FMC Corporation, Agricultural Chemical Division, 100 Niagara St., Middleport, N.Y. 14105, has submitted a petition (FAP 7H5159) to the Environmental Protection Agency (EPA) which proposes to amend 21 CFR 561 and 193 by establishing food additive regulations permitting the use of the insecticide (3-phenoxyphenyl) methyl 3-(2,2-dichloroethenyl) - 2,2-dimethylcyclopropanecarboxylate in a proposed experimental program involving application of the insecticide to growing tomatoes and soybeans with a tolerance limitation of 80 parts per million in dehydrated tomato pomace and 1 part per million in soybean oil for residues of the combined *cis* and *trans* isomers of the insecticide.

Notice of this submission is given pursuant to the provisions of section 409(b)(5) of the Federal Food, Drug, and Cosmetic Act. Interested persons are invited to submit written comments on the petition referred to in this notice to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW., Washington, D.C. 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and of others interested in inspecting them. The comments should

V4271 APR 13 77 UMI

be submitted as soon as possible and should bear a notation indicating the petition number "FAP 7H5159." Comments may be made at any time while a petition is pending before the Agency. All written comments will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: April 5, 1977.

DOUGLAS D. CAMPT,
Director, Registration Division.

[FRL 713-3; OPP-50287]

MOBILE CHEMICAL CO. AND MOBAY CHEMICAL CO.

Issuance of Experimental Use Permits

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.), experimental use permits have been issued to the following applicants. Such permits are in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

No. 2224-EUP-8. Mobile Chemical Company, Richmond, Virginia 23231. This experimental use permit allows the use of 1,340 pounds of the insecticide ethoprop on sugarcane to evaluate control of nematodes. A total of 335 acres is involved; the program is authorized only in the State of Florida and Puerto Rico. The experimental use permit is effective from March 11, 1977, to March 11, 1978. A permanent tolerance for residues of the active ingredient in or on sugarcane, sugarcane fodder and forage has been established (40 CFR 180.262).

No. 2224-EUP-15. Mobile Chemical Company, Richmond, Virginia 23231. This experimental use permit allows the use of 234 pounds of the insecticide ethoprop on tobacco to evaluate control of nematodes, flea beetles, and wireworms. A total of 22 acres is involved; the program is authorized only in the States of Florida, Georgia, Kentucky, North Carolina, South Carolina, Tennessee, and Virginia. The experimental use permit is effective from March 11, 1977, to March 11, 1978.

No. 3125-EUP-133. Chemagro Agricultural Division, Mobay Chemical Company, Kansas City, Missouri 64120. This experimental use permit allows the use of 4,000 pounds of the herbicide 4-Amino-6-(1,1-dimethylethyl)-3-(methylthio)-1,2,4-triazin 5(4H)-one on soybeans to evaluate control of grasses and broadleaf weeds. A total of 8,000 acres is involved; the program is authorized only in the States of Alabama, Arkansas, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Carolina, Ohio, South Carolina, Tennessee, and Wisconsin. The experimental use permit is effective from March 11, 1977, to March 11, 1978. A permanent tolerance for residues of the active ingredient in or on soybeans has been established (40 CFR 180.332).

Interested parties wishing to review the experimental use permits are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St. SW., Washington, D.C. 20460. It is suggested that such interested persons call 202-755-4851 before visiting the EPA Headquarters Office, so that the appropriate permits may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: April 5, 1977.

DOUGLAS D. CAMPT,
Director, Registration Division.

[FR Doc.77-10856 Filed 4-12-77;8:45 am]

[FRL 713-5; OPP-50289]

MONSANTO AGRICULTURAL PRODUCTS CO. ET AL.

Issuance of Experimental Use Permits

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.), experimental use permits have been issued to the following applicants. Such permits are in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

No. 524-EUP-33. Monsanto Agricultural Products Company, St. Louis, Missouri 63166. This experimental use permit allows the use of 800 pounds of the herbicide alachlor on potatoes to evaluate control of annual grasses and broadleaf weeds, when used through center pivot irrigation systems. A total of 200 acres is involved; the program is authorized only in the States of Colorado, Idaho, Oregon, Washington, Wisconsin, and Wyoming. The experimental use permit is effective from March 21, 1977, to March 21, 1978. A permanent tolerance for residues of the active ingredient in or on potatoes has been established (40 CFR 180.249).

No. 677-EUP-10. Diamond Shamrock Corporation, Cleveland, Ohio 44114. This experimental use permit allows the use of 190 pounds of the insecticide thiofanox on cotton and potatoes to evaluate control of aphids, thrips, mites, fleahoppers, leafminers, and boll weevils. A total of 90 acres is involved; the program is authorized only in the States of Alabama, Arizona, California, Georgia, Idaho, Indiana, Louisiana, Maine, Michigan, Minnesota, Mississippi, New York, North Carolina, North Dakota, Ohio, Oregon, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, Washington, and Wisconsin. The experimental use permit is effective from March 17, 1977, to March 17, 1978. All treated crops will be destroyed or used for research purposes only.

No. 1016-EUP-34. Union Carbide Corporation, Washington, D.C. 20006. This experimental use permit allows the use of 150 pounds of the insecticide-nematocide aldicarb on oranges to evaluate control of thrips, aphids, whiteflies, mites, scales, and nematodes. A total of 20.4 acres is involved; the program is authorized only in the States of Arizona, California, Florida, and Texas. The experimental use permit is effective from February 25, 1977, to February 25, 1978. Permanent tolerances for residues of the active ingredient in or on oranges and dried citrus pulp have been established (40 CFR 180.269 and 21 CFR 561.30, respectively).

Interested parties wishing to review the experimental use permits are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St. SW., Washington, D.C. 20460. It is suggested that such interested persons call 202-755-4851 before visiting the EPA Headquarters Office, so that the appropriate permits may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4 p.m. Monday through Friday.

PESTICIDE PROGRAMS

[FRL-7; PP6G1731 & 6G1732/T101]

Extension of a Temporary Tolerance Gibberellic Acid and N-[Phenylmethyl[-1H-Purin-6-Amine

On May 6, 1976, the Environmental Protection Agency (EPA) gave notice (41 FR 18708) that in response to pesticide petitions (PP6G1731 and 6G1732) submitted to the Agency by Abbott Laboratories, Agricultural and Veterinary Products Div., North Chicago, IL 60064, a temporary tolerance was established for residues of the plant regulators gibberellic acid and *N*-[phenylmethyl]-1*H*-purin-6-amine in or on the raw agricultural commodity apples at 0.15 part per million (ppm). This temporary tolerance expires April 1, 1977.

Abbott Laboratories has requested a one-year extension of this temporary tolerance both to permit continued testing to obtain additional data and to permit the marketing of the above raw agricultural commodity when treated in accordance with the provisions of an experimental use permit that is being extended concurrently under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (89 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq).

The scientific data reported and all other relevant material have been evaluated, and it has been determined that an extension of the temporary tolerance will protect the public health. Therefore, the temporary tolerance is extended on condition that the pesticide is used in accordance with the experimental use permit with the following provisions:

1. The total amount of the pesticide to be used must not exceed the quantity authorized by the experimental use permit.

2. Abbott Laboratories must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The firm must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This temporary tolerance expires June 1, 1978. Residues not in excess of 0.15 ppm remaining in or on apples after this expiration date will not be considered actionable if the pesticide is legally applied during the term of and in accordance with the provisions of the experimental use permit and temporary tolerance. This temporary tolerance may be revoked if the experimental use permit is revoked or if any scientific data or experience with this pesticide indicate such revocation is necessary to protect the public health.

Dated: April 5, 1977.

(Sec. 408(j) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(j)).)

PESTICIDE PROGRAMS

Filing of Food Additive Petition

Interregional Project 4 (IR-4), PO Box 231, New Brunswick NJ 08903, on behalf of the States Oregon and Washington has submitted a petition (FAP 7H5161) to the Environmental Protection Agency (EPA) which proposes that 21 CFR 193 be amended by establishing a regulation permitting the use of the insecticide m-[[(dimethylamino) methylene]amino]-phenyl methylcarbamate hydrochloride on the growing crop hops with a tolerance limitation of 150 parts per million for residues in or on dry hops.

Notice of this submission is given pursuant to the provisions of section 409(b)(5) of the Federal Food, Drug, and Cosmetic Act. Interested persons are invited to submit written comments on the petition referred to in this notice to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, Environmental Protection Agency, Room 401, East Tower, 401 M St. SW, Washington DC 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and others interested in inspecting them. The comments should be submitted as soon as possible and should bear a notation indicating the petition number "FAP 7H5161". Comments may be made at any time while a petition is pending before the Agency. All written comments filed pursuant to this notice will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: April 5, 1977.

RECEIPT OF APPLICATION FOR PESTICIDE REGISTRATION

Data to be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (39 FR 31862) its interim policy with respect to the administration of Section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended ("Interim Policy Statement"). On January 22, 1976, EPA published in the FEDERAL REGISTER a document entitled "Registration of a Pesticide Product—Consideration of Data by the Administrator in Support of an Application" (41 FR 3339). This document described the changes in the Agency's procedures for implementing Section 3(c)(1)(D) of FIFRA, as set out in the Interim Policy Statement which were effected by the enactment of the recent amendments to FIFRA on November 28, 1975 [P.L. 940-140], and the new regulations governing the registration and reregistration of pesticides which became effective on August 4, 1975 (40 CFR Part 162).

Pursuant to the procedures set forth in these FEDERAL REGISTER documents, EPA hereby gives notice of the applications for pesticide registration listed below. In some cases these applications have recently been received; in other cases, applications have been amended by the submission of additional supporting data, the election of a new method of support, or the submission of new "offer to pay" statements.

In the case of all applications, the labeling furnished by the applicant for the product will be available for inspection at the Environmental Protection Agency, Room 209, East Tower, 401 M Street, S.W., Washington, D.C. 20460. In the case of applications subject to the new section 3 regulations, and applications not subject to the new section 3 regulations which utilize either the 2(a) or 2(b) method of support specified in the Interim Policy Statement, all data citations submitted or referenced by the applicant in support of the application will be made available for inspection at the above address. This information (proposed labeling and, where applicable, data citations) will also be supplied by mail, upon request. However, such a request should be made only when circumstances make it inconvenient for the inspection to be made at the Agency offices.

Any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after January 1, 1970, is being used to support an application described in this notice, (c) desires to assert a claim under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data or the status of such data under section 10 must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Product Control Branch, Registration Division (WH-567), office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the Interim Policy Statement of November 19, 1973.

Specific questions concerning applications made to the Agency should be addressed to the designated Product Manager (PM), Registration Division (WH-567), Office of Pesticide Programs, at the above address, or by telephone as follows:

PM 11, 12, & 13—202/755-9315
PM 21 & 22—202/426-2454
PM 24—202/755-2196
PM 31—202/426-2635
PM 33—202/755-9041
PM 15, 16, & 17—202/426-9425
PM 23—202/755-1397
PM 25—202/755-2632
PM 32—202/426-9486
PM 34—202/426-9490

The Interim Policy Statement requires that claims for compensation be filed by June 13, 1977. With the exception of 2(c) applications not subject to the new section 3 regulations, and for which a sixty-day hold period for claims is provided, EPA will not delay any registration pending the assertion of claims for compensation or the determination of reasonable compensation. Inquiries and assertions that data relied upon are subject to protection under section 10 of FIFRA, as amended, should be made by May 13, 1977.

Dated: April 5, 1977.

DOUGLAS D. CAMPT,
Acting Director, Registration Division.

[FRL 713-8; OPP-42042A]

STATE OF OHIO

Approval of State Plan for Certification of Commercial and Private Applicators of Restricted Use Pesticides

Section 4(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136 et seq.), and the implementing regulations of 40 CFR Part 171, require each State desiring to certify applicators to submit a plan to the Environmental Protection Agency (EPA) for its certification program. Any State certification program under this section shall be maintained in accordance with the State Plan approved under this section.

On February 15, 1977, notice was published in the FEDERAL REGISTER (42 FR 9204) of the intent of the Regional Administrator, EPA Region V, to approve the Ohio State Plan for the Certification of Commercial and Private Applicators of Restricted Use Pesticides (Ohio State Plan).

Complete copies of the Ohio State Plan were made available for public inspection at the following locations: Office of the Director, Ohio Department of Agriculture, 65 S. Front Street, Columbus, Ohio; U.S. Environmental Protection Agency, Air and Hazardous Materials Division, Pesticide Branch, Region V, Chicago, Illinois; and the U.S. Environmental Protection Agency, Technical Services Division, Federal Register Section, Office of Pesticide Programs, Washington, D.C.

Written comments were received only from the National Canners Association. These comments were carefully reviewed and evaluated by EPA and by the Ohio Department of Agriculture, which has been designated as the State lead agency responsible for implementing the Ohio State Plan.

The National Canners Association commented that, because pesticide applicator training is not mandated by the amended FIFRA, the proposed training budget of the Ohio Cooperative Extension Service should not be considered by EPA in its assessment of the adequacy of funding to support the pesticide applicator certification program. The State Plan identifies the Ohio Cooperative Extension Service as a primary cooperating agency, and as such, includes a training plan with an estimate of funds needed to carry out proposed training activities under the certification program. However, the Agency assessed the adequacy of funding needed to conduct the certification program based only upon funding data provided by the lead agency.

The Ohio Plan separates commercial applicators engaged in Agricultural Pest Control into several subcategories, including (a) Agronomic Pest Control, (b) Horticultural Pest Control, and (c) Agricultural Weed Control. The National Canners Association commented that the Agricultural Weed Control subcategory overlaps into the Agronomic and Horticultural Pest Control subcategories. The Ohio Plan clarifies this comment by defining Agricultural Weed Control as commercial applicators using or supervising the use of pesticides, other than fumigants, to control weeds in agronomic and horticultural corps. The Plan goes on to limit the Agronomic and Horticultural subcategories to application of pesticides, other than herbicides, on these crops.

Concern was raised over the State's intention to require a certification fee for pesticide applicators. Section 4 of the amended FIFRA establishes a coordinated State/Federal program for certifying applicators, with section 4(a)(1) making EPA responsible for prescribing applicator certification standards. Section 4(a)(2) provides that if a State, at any time, desires to certify applicators of pesticides, the Governor shall submit a State Plan for such purposes. Further, under Section 24 of FIFRA, the States are given a great deal of flexibility in developing their individual programs provided those programs meet the prescribed Federal standards. This comment pertains to regulatory requirements established under State Law and addresses an issue which is not germane to the acceptability of the Plan under Federal regulations. The Agency has forwarded the comment to the Ohio Department of Agriculture for consideration.

V42 R13 A 7 7 UMI

The Ohio State Plan will remain available for public inspection in the Office of the Director, Ohio Department of Agriculture, 65 S. Front Street, Columbus, Ohio 43215.

It has been determined that the Ohio State plan satisfies the requirements of section 4(a)(2) of the amended FIFRA and 40 CFR Part 171. Accordingly, the Ohio State Plan is approved.

EFFECTIVE DATE: Pursuant to section 4(d) of the Administrative Procedure Act, 5 U.S.C. 553(d), the Agency finds that there is good cause for providing that the approval granted herein to the Ohio State Plan shall be effective upon signature of this notice. Neither the Ohio State Plan itself nor this Agency's approval of the Plan creates any direct or immediate obligation on pesticide applicators or other persons in the State of Ohio. Delays in starting the work necessary to implement the Plan, such as may be occasioned by providing some later effective date for this approval, are inconsistent with the public interest. Accordingly, this approval shall become effective immediately.

Dated: March 31, 1977.

GEORGE R. ALEXANDER, Jr.,
Regional Administrator,
Region V.

[FRL 713-6]

SUBMITTAL OF SIP REVISIONS

Schedules for Submittal of Revisions to Louisiana Implementation Plan for Photochemical Oxidants and Particulate Matter

On July 16, 1976 (41 FR 29481), the Regional Administrator called for revisions to Louisiana's State Implementation Plan (SIP) to correct deficiencies with respect to attainment and maintenance of the national primary and secondary standards for photochemical oxidants, and attainment and maintenance of the national secondary standards for particulate matter. The revision for photochemical oxidants concerned Louisiana's portion of the Southern Louisiana-Southeast Texas air quality control region (AQCR), and the revision for particulate matter concerned the Shreveport AQMA (Caddo, Bossier, and Webster Parishes).

PHOTOCHEMICAL OXIDANTS

The revision to the control strategy for photochemical oxidants was requested to be submitted by July 1, 1977. No date was established for submittal of a control strategy to provide for maintenance of the standards. A detailed schedule for submittal of an attainment control strategy has been negotiated with Louisiana. The time required for developing additional control regulations, submitting the regulations for public hearing, and getting approval by the Louisiana Air Control Commission (LACC) will not allow Louisiana to meet the originally requested date of July 1, 1977. The schedule below reflects the various dates by which the LACC will accomplish the tasks required for development and submittal of the control strategy revision for photochemical oxidants. The date of December 15, 1977, is considered the earliest reasonable date by which the revision can be submitted, and this date will supersed the July 1, 1977, date originally established.

OXIDANT REVISION SCHEDULE

1. Complete emission inventory.	May 31, 1977.
2. Complete control strategy.	June 30, 1977.
3. Select emission limits	July 31, 1977.
4. State approval of proposed regulations.	Aug. 31, 1977.
5. Public hearing	Oct. 31, 1977.
6. Final State adoption	Nov. 30, 1977.
7. Submit to EPA	Dec. 15, 1977.

PARTICULATE MATTER

In the notice of call for SIP revisions, the date for submitting a revision to the control strategy for particulate matter was deferred until an analysis for determining the extent of the problem could be completed. The analysis for the Shreveport AQMA has started and is expected to be completed by the end of May 1977. Knowing the completion date of the analysis made it possible to negotiate a schedule with Louisiana for submitting a revision to the particulate matter control strategy. December 15, 1977, is considered the earliest reasonable date by which the revision can be submitted.

PARTICULATE REVISION SCHEDULE

1. Complete emission inventory.	Mar. 15, 1977.
2. Complete control strategy.	May 31, 1977.
3. Select emission limits	July 31, 1977.
4. State approval of proposed regulations.	Aug. 31, 1977.
5. Public hearing	Oct. 31, 1977.
6. Final State adoption	Nov. 30, 1977.
7. Submit to EPA	Dec. 15, 1977.

This notice is not subject to rulemaking procedures. The need for the plan revisions was based upon a technical finding by the Regional Administrator that the control strategies for photochemical oxidants and particulate matter are inadequate and need to be revised. Authority for such action is provided in sections 110(a)(2)(H) and 110(c) of the Clean Air Act, 1970. Ample opportunity for public comment on the control strategy revisions will be provided during the public hearing that the State is required to hold.

(Sec. 110(a)(2)(H), Clean Air Act, sec. 110(c), Clean Air Act, as amended, (42 U.S.C. 1857c-5(c)).)

Dated: March 31, 1977.

JOHN C. WHITE,
Regional Administrator.

UPJOHN CO. ET AL.

Issuance of Experimental Use Permits

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.), experimental use permits have been issued to the following applicants. Such permits are in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

No. 1023-EUP-39. The Upjohn Company, Kalamazoo, Michigan 49001. This experimental use permit allows the use of 277 pounds of the herbicide diphenamid on cotton, okra, peanuts, peppers, potatoes, soybeans, sweet potatoes, strawberries, tomatoes, blackberries, raspberries, fruit trees, and ornamentals to evaluate control of annual grasses and broadleaf weeds. A total of 60 acres is involved; the program is authorized only in the States of California, Florida, Georgia, Kentucky, Indiana, Illinois, Alabama, Ohio, North Carolina, Virginia, and Wisconsin. The experimental use permit is effective from March 11, 1977, to March 11, 1978. Permanent tolerances for residues of the active ingredient in or on cotton, okra, peanuts, peppers, potatoes, soybeans, sweet potatoes, strawberries, and tomatoes have been established (40 CFR 180.230). All treated blackberries, raspberries, and fruit trees will be non-bearing.

No. 476-EUP-87. Stauffer Chemical Company, Richmond, California 94804. This experimental use permit allows the use of 472.5 pounds of the herbicide S-propyl dipropylthiocarbamate and 270 pounds of the herbicide N-butyl-N-ethyl-a,a,a-trifluoro-2,6-dinitro-p-toluidine on peanuts when applied through a center pivot irrigation system to evaluate control of various grasses and broadleaf weeds. A total of 200 acres is involved; the program is authorized only in the States of Alabama, Florida, and Georgia. The experimental use permit is effective from March 11, 1977, to March 11, 1978. Permanent tolerances for residues of the active ingredients in or on peanuts have been established (40 CFR 180.240 and 40 CFR 180.206).

No. 201-EUP-53. Shell Chemical Company, Washington, D.C. 20036. This experimental use permit allows the use of 10,000 pounds of the herbicide 2-[[4-Chloro-6-(ethylamino)-s-triazin-2-yl]amino]-2-methylpropionitrile on soybeans to evaluate control of broadleaf weeds. A total of 9,350 acres is involved; the program is authorized only in the States of Alabama, Arkansas, Iowa, Illinois, Louisiana, Mississippi, Missouri, Minnesota, and Tennessee. The experimental use permit is effective from March 14, 1977, to March 14, 1978. A temporary tolerance for residues of the active ingredient in or on soybeans has been established.

Interested parties wishing to review the experimental use permits are referred to Room E-315, Registeration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St. SW., Washington, D.C. 20460. It is suggested that such interested persons call 202-755-4851 before visting the EPA Headquarters Office, so that the appropriate permits may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: April 5, 1977.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 21175, et al; File Nos. 2273-CM-P-73, et al]

AMERICAN TELEVISION AND COMMUNICATIONS CORP. ET AL.

Applications for Construction Permits

Adopted: March 7, 1977.

Released: March 31, 1977.

In re Applications of American Television & Communications Corporation and Eastern Shore Communications Corporation and Texas Microwave, Inc. and Shreveport Signal Company for construction permits in the multipoint distribution service for a new station at Shreveport, Louisiana; Docket No. 21175, File No. 2273-CM-P-73; Docket No. 21176, File No. 3899-CM-P-73; Docket No. 21177, File No. 4053-CM-P-73; Docket No. 21178, File No. 4173-CM-P-73.

1. The Commission has before it the above-referenced applications of American Television & Communications Corporation (ATC), filed on September 28, 1972; Eastern Shore Communications Corporation (Eastern Shore), filed on November 27, 1972; Texas Microwave, Inc. (TM), filed on November 30, 1972; and Shreveport Signal Company (SSS), filed on December 8, 1972. All four applications propose Channel 1 operation in the Shreveport, Louisiana area, and thus are mutually exclusive and require comparative consideration. All four applications have been amended as a result of informal requests of the Commission staff for additional information, and no petitions to deny or other objections to any of the applications have been received.

2. ATC, which holds licenses in point-to-point, DPLMRS, CATV and CARS services, has fifteen MDS construction permit applications pending and has been granted permits for four cities, including Savannah, Georgia. Eastern Shore is a wholly-owned subsidiary of United Cable Television Corporation (United Cable) and is transferee of certain MDS interests held by United Video, Inc. (Video) prior to the transfer of Video from United Cable to Lawrence Flinn, Jr. and the concomitant transfer of part of Video's MDS interests in Atlanta, Georgia to Robert Weisberg, all of which were authorized by the Commission in 1976. Eastern Shore also has construction permit applications pending for Oklahoma City and Tulsa, Oklahoma; Lansing, Michigan; Chattanooga, Tennessee; and Boise, Idaho. TM has five MDS construction permits, all in Texas, and has applications pending for Little Rock, Arkansas; Springfield, Illinois; and Newark, Ohio. Its parent corporation, Communications Properties, Inc., has a broad range of interests in CATV, common carrier, broadcast and CARS operations throughout the country. SSC has only this application pending, though its principal, Louis H. Pfau, has interests in various other MDS applications, including those for Little Rock, Arkansas; Knoxville, Tennessee; and Tallahassee, Florida.

3. Upon review of the captioned applications, we find that the four applicants are legally, technically, financially, and otherwise qualified to provide the services which they propose, and that a hearing will be required to determine, on a comparative basis, which of these applications should be granted.

4. Accordingly, *it is hereby ordered,* That pursuant to section 309(e) of the Communications Act of 1934, as amended, and § 0.291 of the Commission's Rules, the above-captioned applications are designated for hearing, in a consolidated proceeding, at a time and place to be specified in a subsequent order, to determine, on a comparative basis, which of the above-captioned applications should be granted in order to best serve the public interest, convenience and necessity. In making such a determination, the following factors shall be considered: [1]

(a) The relative merits of each proposal with respect to service area and efficient frequency use;

(b) The nature of the services and facilities proposed, and whether they will satisfy service requirements known to exist or likely to exist in the Shreveport, Louisiana area;

(c) The anticipated quality and reliability of the service proposed, including selection of equipment, installation, subscriber security and maintenance;

(d) The charges, regulations and conditions of the service to be rendered, and their relation to the nature, quality and costs of service; and

(e) The managerial and entrepreneurial qualifications of the applicants.

5. *It is further ordered,* That American Television and Communications Corporation, Eastern Shore Communications Corporation, Texas Microwave, Inc., Shreveport Signal Company, and the Chief, Common Carrier Bureau, ARE MADE PARTIES to this proceeding.

6. *It is further ordered,* That parties desiring to participate herein shall file their notices of appearance in accordance with the provisions of § 1.221 of the Commission's Rules.

WALTER R. HINCHMAN,
Chief, Common Carrier Bureau.

[Docket No. 19154; FCC 77-204]

BROADCAST RENEWAL APPLICANT

Comparative Hearing Process; Policies

Adopted: March 9, 1977;

Released: April 7, 1977.

By the Commission: Commissioners Hooks and Fogarty issuing a separate statement; Commissioner Quello concurring and issuing a statement.

1. The Commission has before it for consideration its Notice of Inquiry, 27 FCC 2d 580 (1971), Further Notice of Inquiry, 31 FCC 2d 443 (1971), Second Further Notice of Inquiry, 43 FCC 2d 367 (1973), and Third Further Notice of Inquiry, 43 FCC 2d 822 (1973), dealing with the criteria to be used during a comparative proceeding in which a renewal applicant is challenged by one or more new applicants for the same facility.[1] (See 39 FR 1516, January 10, 1974.)

2. One of our primary responsibilities is to choose from among such qualified applicants. This decision is extremely difficult, involving a number of factors of comparison and requiring a costly and time-consuming evidentiary hearing, which often extends beyond the license term sought by the competing applicants. In this proceeding we have explored whether we could simplify the decision-making process by substituting simple quantitative standards for our present ad hoc examination of an incumbent licensee's past program performance.

3. To better understand the matters at issue in this proceeding, it is necessary to explore some of the underlying concerns and events that prompted its institution. Under the statutory scheme devised by the Congress, broadcast station licenses are granted upon stated terms for a fixed period of time, with renewal being permitted upon written application therefor. The issuance of a license, however, confers no proprietary interest therein to the license holder; "no such license shall be construed to create any right, beyond the terms conditions, and periods of the license." [2] Consequently, the Commission is called upon to review, at regular intervals, the licensee's overall performance during the preceding license term and to determine whether the public interest, convenience, and necessity would be served by a renewal of the authorization. Congress has also provided for a competitive spur to existing licensees by affording new parties an opportunity to apply for the facilities of the licensees. At the same time, it has been recognized that there are "legitimate renewal expectancies implicit in the structure of the Act" and that "meritorious stations * * * should [not] be deprived of broadcasting privileges when once granted to them * * * unless clear and sound reasons of public policy demand such action." *Greater Boston Television Corporation* v. *F.C.C.*, 143 U.S. App. D.C. 383, 396, 444 F. 2d 841, 854 (1970); and *Chicago Federation of Labor* v. *F.R.C.*, 59 App. D.C. 333, 334, 41 F. 2d 422, 423 (1930).[3] These latter

[1] Consideration of these factors shall be made in light of the Commission's discussion in Peabody Telephone Answering Service, et al., 55 F.C.C. 2d 626 (1975).

[1] We also have before us the testimony and comments of the numerous parties who have participated in this proceeding. A list of those parties is attached as appendix A.

V 42 71 APR 13 77 UMI

concerns spring from the substantial financial and other investments necessary to render meritorious broadcast service to the public. To reward these efforts with a denial of renewal would not encourage the continuation of such worthwhile service. Rather, it would be an inducement to the opportunist to disregard the nature of the service to be rendered to the public and to set as his paramount goal the short-term maximization of his profit. Such a turn of events would ill-serve the public interest.

4. In an attempt to reconcile these essential elements of the public interest, namely, the maintenance of the competitive spur and the preservation of predictability and stability of broadcast operation, the Commission adopted the following policy: If a renewal applicant shows in a hearing with a competing applicant that its program service during the preceding license term has been substantially attuned to meeting the needs and interests of the public served by its station and that the operation of the station has not otherwise been characterized by serious deficiencies, the renewal applicant will be preferred over the newcomer and the application for renewal will be granted. See Policy Statement on Comparative Hearings Involving Regular Renewal Applicants, 22 FCC 2d 424, reconsideration denied, 24 FCC 2d 383 (1970). Under this policy, consideration of the characteristics normally explored in a comparative hearing involving new applicants, i.e., diversification of the media of mass communications, and the integration of station ownership and management as well as other elements of the "best practicable service" objective,[4] would not be necessary where it was clear that the existing licensee's operation had solidly met the needs and interests of the station's service area and had not been characterized by serious deficiencies. At that point, the hearing was to terminate and an initial decision in favor of the renewal applicant was to ensue. The critical question was, therefore, a non-comparative one: whether the renewal applicant has in the last license term rendered a substantial service, a service solidly meeting the needs and interests of the public served by its station.[5]

5. The Commission was aware that the policy and standards which it had adopted lacked mathematical precision, and that the elements which would constitute substantial service would have to be developed in terms of the particular factual circumstances of hearing cases.[6] On February 23, 1971, however, the Commission instituted the present inquiry in an effort to explore the feasibility and appropriateness of quantifying a concept of substantial service by which the past performance of a licensee could be properly evaluated in the context of a comparative hearing. Notice of Inquiry, 27 FCC 2d 580. As a beginning point, the inquiry concerned television broadcasting only[7] and focused on two important areas, local programming and programming designed to contribute to an informed electorate, specifically news and public affairs programming. The following figures were proffered as representative of a substantial service (27 FCC 2d at 582):[8]

(i) With respect to local programming, a range of 10–15% of the broadcast effort (including 10–15% in the prime time period, 6–11 p.m., when the largest audience is available to watch).

(ii) The proposed figure for news is 8–10% for the network affiliate, 5% for the independent VHF station (including a figure of 8–10% and 5%, respectively, in the prime time period).

(iii) In the public affairs area, the tentative figure is 3–5% with, as stated, a 3% figure for the 6–11 p.m. time period.

Where a percentage range was proposed, it was stated that the applicable percentage would depend on the station's revenues and market size. As a general matter, it was also suggested that unprofitable stations be exempted from these tentative guidelines and so, independent UHF stations were excluded until such time as they became profitable. The high end of the range in each category was to apply to renewal applicants in the top 50 television markets with annual revenues over $5 million, whereas the low end would apply to stations which were located outside those markets and which had annual revenues totaling less than $1 million. An appropriate graduation within the suggested ranges was left to be established for intermediately situated stations.

6. The Notice of Inquiry further pointed out that the proposed program guidelines were only prima facie indicators of substantial service. They were not conceived to be automatically definitive, either for or against the renewal applicant. If the renewal applicant did not meet these program guidelines, it could still be argued in the comparative hearing that the overall service rendered was substantial notwithstanding the substandard quantitative performance in the local and informed electorate program areas. In the same vein, the satisfaction of these guidelines would not preclude an evidentiary showing that the station's past performance was not, in fact, substantial—that the station had not dealt with the issues of truly great public concern or had failed to serve equitably and in good faith the needs of significant groups within its service area. Finally, it was noted that the program guidelines, if adopted, would not be fixed or immutable. They would have to be revisited at appropriate intervals to determine, in light of experience and changing conditions, whether the selected figures should be revised, unwards or downwards.

7. On June 11, 1971, the United States Court of Appeals for the District of Columbia Circuit invalidated the Commission's 1970 *Policy Statement*, holding that the bifurcated hearing procedure adopted by the Commission contravened Section 309 of the Communications Act, as interpreted in *Ashbacker Radio Corp. v. F.C.C.*, 326 U.S. 327 (1945), by depriving the qualified new applicant of its right to a full hearing on the merits of its application. *Citizens Communications Center v. F.C.C.*, 145 U.S. App. D.C. 32, 447 F. 2d 1202. A policy providing that the qualifications of challengers—no matter how superior they may be—may not be considered unless the licensee's past performance is found not to have been substantially attuned to the needs and interests of the community was, in the Court's view, contrary to law. Accordingly, it was ordered that the Policy Statement's provisions not be applied to any present or future comparative renewal proceedings. While it acknowledged that "licensees should be judged primarily on their records of past performance," the Court suggested that superior, rather than substantial, performance should be the standard of evaluation in a comparative renewal situation and that all relevant factors, such as the diversification of ownership of mass media, independence from governmental influence in promoting First Amendment objectives, the elimination of excessive and loud advertising, the

[4] See *Policy Statement on Comparative Broadcast Hearings*, 1 FCC 2d 393, *reconsideration denied*, 1 FCC 2d 918 (1965).

[5] It was specifically noted that "there can be concern whether this policy will prevent a new applicant willing to provide a superior service from supplanting an existing licensee who has broadcast a substantial, but less impressive, service." However, as the Commission pointed out:

> • • • there are obvious risks in accepting promises over proven performance at a substantial level, and we see no way, other than the one we have taken, adequately to preserve the stability and predictability which are important aspects of the overall public interest. We believe that there will still be real incentives for those existing broadcasters willing to provide superior service to do so, since the higher the level of their operations, the less likely the new applicants will file against them at renewal time • • • Thus the public interest will be served by the continuing efforts of broadcasters to minimize the chances of the filing of competing applications. Policy Statement, supra, 22 FCC 2d at 429.

[6] "It is not possible to lay down any more precise standards," stated the Commission, "since so much will depend on the particular facts." Policy Statement, supra, 22 FCC 2d at 426.

[7] The Policy Statement was not so restrictive in scope. It included comparative hearings between licensees and new applicants for the same radio as well as television facilities in the same community. Where the new applicant sought the use of facilities in another community, however, the Policy Statement would not apply, for the essential comparison was not between the applicants. Rather, it concerned the characteristics of the communities and their respective needs for a broadcast station. In such cases, the principles of Section 307(b) of the Act would govern the hearing.

[8] The figures proposed for the selected program categories were based upon the Commission's judgment and experience as to what should constitute substantial service and upon a study of the composite week program information set forth in commercial television renewal applications for the years 1968–1970.

delivery of quality programs, and the extent to which the incumbent has reinvested the profit of its license to, the service of the viewing and listening public," should be considered in determining whether the renewal applicant had rendered a superior service entitling it to a "plus of major significance." At the same time, the Court stated (145 U.S. App. D.C. at 43, 447 F. 2d at 1212):

> • • • without impinging at all upon the Commission's substantive discretion in weighing factors and granting licenses, our holding today merely requires the Commission to adhere to the comparative hearing procedure which it has followed without fail since Ashbacker and which has rightly come to be accepted by observers as a part of the due process owed to all mutually exclusive applications.

8. In a Further Notice of Inquiry adopted on August 4, 1971, the Commission weighed the impact the *Citizens* case had upon the instant proceeding and concluded that the Court's decision reinforced, rather than obviated, the need to seek out and quantify, at least in part, a past performance entitling the renewal applicant to a "plus of major significance" in a comparative renewal situation. See 31 FCC 2d 443. While expressing some confusion as to the meaning ascribed by the Court to the term "superior,"[10] the Commission found that further attempts to redefine the differing characterizations applied to the renewal applicant's past performance were not necessary. "What rather counts," stated the Commission, "are the guidelines actually adopted to indicate the 'plus of major significance', the type of service which, if achieved, is of such nature that one can '• • • reasonably expect renewal' • • •." 31 FCC 2d at 444. Thus, the Commission invited interested parties to address themselves to the appropriateness in this respect of the percentage figures set forth in the prior Notice. Comments directed to the other proposals and to the factors suggested by the Court in the *Citizens* case were also encouraged. In the latter regard, the Commission acknowledged that while a general guideline directed to the relationship between revenues and program expenditures had earlier been considered, it was tentatively concluded that the matter should be left to exploration, as appropriate, in the hearing process. In the same vein, the Commission expressed its disbelief that a general standard could be formulated with respect to the diversification of control of the media of mass communications. That important factor, reasoned the Commission, "is one which much be evaluated on the facts of each case." 31 FCC 2d at 445.

9. Second and Third Further Notices of Inquiry in this proceeding were issued by the Commission on October 9, 1973, and November 30, 1973, respectively. See 43 FCC 2d 367 and 43 FCC 2d 822. In the second Further Notice, the Commission noted that the parties who had previously participated in the inquiry had basically addressed themselves to the limited question of whether any quantitative standards should be established to define substantial service. To establish a more complete record, the Commission requested interested parties to comment on the pragmatic problems arising from the implementation of definitive guidelines in this area. Some problems specifically noted by the Commission were the categories of programming selected, the precise definitions of those categories, the relaitve merit of exact percentages or percentage ranges to reflect substantial service, and the applicability of the suggested standards to various groups of stations. In conjunction with this Notice, a special questionnaire was issued to all commercial television licensees in order to elicit current data on the program categories selected for the proposed percentage guidelines.[11] The tabulations, based on these questionnaires, were set forth in the Third Further Notice.

Comments. 10. Apart from the generally accepted belief that past programming performance is the best evidence of how a station has and will serve its community, the formal commentary received in response to our Notices and the remarks of the parties who participated in the oral argument before the Commission on May 4 and 5, 1972, do not reflect a clear consensus of opinion on any of the matters explored in this inquiry. For example, there is marked disagreement for various reasons regarding the proposal to present local and informed electorate programming during the prime time hours of 6:00–11:00 p.m. Separate prime time standards are opposed by Station KFMB–TV, which argues that they would improperly interfere with the ability of licensees to adapt to local conditions. Storer Broadcasting Company and the firm of Haley, Bader and Potts principally object to such standards on the ground that they would not serve their intended purpose. It cannot be validly assumed, argue these parties, that, regardless of content or quality, the scheduling of a program in prime time will result in achieving a greater audience, for experience has shown that programming which lacks strong popular entertainment value does not draw a large audience during prime time. It is also argued by renewal parties that certain programming, such as programs directed specifically to farmers, to women, or to some other particular population group, is not well-suited for prime time viewing and may be better received in the morning or early-afternoon rather than at night, when a more heterogenous audience is available. KMSO–TV, Inc. and Central Coast Broadcasters, Inc. maintain that the imposition of prime time program standards would destroy viewer preference for network programming in single station markets and deprive small market television stations of a vital source of revenue. Similarly, WUAB, Inc. contends that the required presentation of fixed amounts of news and public affairs programming in prime time would impede the efforts of independent UHF stations, which had begun to earn a profit, to counter-program with respect to network affiliate stations in the market. To compel independent UHF stations to directly compete against the news programs of the network affiliates or the highly popular network entertainment programs would, submits WUAB, disserve the public interest by eliminating diversity of programming and eroding whatever financial stability the independent UHF stations may have developed.

11. Black Efforts for Soul in Television, on the other hand, supports the proposal to present local and informed electorate programming during the prime time hours of 6:00–11:00 p.m. The suggested quantitative standards are necessary in each program category, argues BEST, to prevent such public interest programs from being relegated to "graveyard" hours where even the most interested viewer would have difficulty seeing them and where they would have only a minimal effeect in informing the electorate. "Omitting a prime time standard," states the National Citizens Committee for Broadcasting, "would defeat one of the purposes of establishing programming guidelines: to ensure dissemination of information and local service to a substantial segment of the audience. • • •" NCCB further submits that the reality of viewer preference cannot be ignored—prime time is the period when most people watch television, when the public needs will most need to be served. A somewhat middle ground approach is taken by several other parties. In recognition of the various time zones, the differing schedules of the three major networks, and the early evening and late nighttime television viewing patterns, Spanish International Communications Corporation would have the prime time hours begin at 5:00 p.m. rather than 6:00 p.m., McClatchy Newspapers would expand the prime time period to include the 11:00 to 11:30 p.m. time segment, and Westinghouse Broadcasting Company would allow stations to designate any continuous five-hour period beginning at either 5:30 p.m. to 6:00 p.m., local time, as their prime time viewing hours.

12. There is also a considerable divergence of opinion with respect to the percentages initially proposed by the Commission. Some parties suggest a single

[9] Another relevant criterion subsequently advanced by the Court was the "integration of minority groups into station operation." *Citizens Communications Center v. F.C.C.*, 149 U.S. App. D.C. 419, 420, 463 F. 2d 822, 823 (1972).

[10] In response to the original petitioners' further request for relief, the Court on May 4, 1972, clarified its earlier opinion and indicated that the word "superior" had been used in its ordinary dictionary meaning, namely, "far above the average." *Citizens Communications Center v. F.C.C., supra*, 149 U.S.C. App. D.C. at 420, 463 F. 2d at 823.

[11] Program information was requested for the days comprising the Commission's 1974 composite week. See note 7, supra.

V4271APR1377 UMI

overall percentage for all stations, regardless of the size of the market, revenues, or network affiliation; others urge a percentile range for different kinds of stations based on a station's overall strength as measured by the American Research Bureau's Day-Part Average Quarter Hourly Prime-Time Delivery figures; [12] and still others propose specific percentages keyed to various types of programming for different kinds of stations. KGUN–TV, meanwhile, urges that any programming guidelines that may be adopted should be expressed in terms of actual broadcast time devoted to the preferred program categories. With respect to the level of these percentages, Storer Broadcasting Company and others argue that the figures proposed by the Commission are unrealistically high, pointing out that only one per cent of the nation's television stations meet all four proposed guidelines, and 45 per cent do not meet any of the four guidelines.[13] On the other hand, Black Efforts for Soul in Television submits that the percentage levels proposed reflect the broadcasters' current median performance and should, therefore, be substantially revised upwards. The more current performance data which we acquired in response to the Second Further Notice of Inquiry (see paragraph 8, supra) has contributed little to resolving the parties' disagreement. For example, the National Citizens Committee for Broadcasting recommends the adoption of a standard which would be applied to the various station groupings suggested by the Commission at levels approximating their respective 20th percentiles as shown in the Third Further Notice. The National Association of Broadcasters disagrees, contending that the percentages chosen, if any, should approximate the 80th percentile for each group of stations. A number of parties believe that the percentages that may be chosen should approximately the median, whereas others disagree as to whether median percentages would be too high or too low.

13. A more fundamental concern is expressed by several parties who question the Commission's professed authority to establish quantitative standards in the manner suggested in the initial Notice. Metromedia, Inc. submits that the adoption and imposition of quantitative programming requirements would exceed the Commission's authority. It is argued that the quantitative guidelines proposed herein are, in fact, program controls or uniform nationwide program edicts, which all licensees would comply with in an effort to protect their licenses. Through the adoption of these quantitative proposals, the Commission would be prescribing programming percentages for future operation. Such activity by governmental agency, submits Metromedia, is countenanced neither by the Communications Act nor by judicial interpretations of that federal statute, specifically *Red Rion Broadcasting* v. *F.C.C.*, 395 U.S. 367 (1969), which did not bestow carte blanche program authority upon the Commission. Iowa State University of Science and Technology, the licensee of Station WOI–TV, Ames, Iowa, also has serious doubts concerning the Commission's statutory and constitutional authority to specify exactly how much and what kind of programming a renewal applicant must present if it is to be found to have rendered a substantial service to the public. According to WOI–TV, the prohibition against Commission censorship, which is set forth in Section 326 of the Act, means that the Commission may not substitute its own judgment for that of its licensees and compel the presentation of programs which the Commission, but not necessarily the licensee, deems to be in the public interest. WOI–TV further contends that the suggested quantitative program proposals not only substitute the decision of the Commission as to what and how much programming serves the interest of the public receiving its station's signal,[14] but also necessarily entail a prohibition against the presentation of other types of programming within the limited broadcast week. In the latter regard, the National Religious Broadcasters, Inc., whose views are endorsed by the National Association of Evangelicals, argues that to single out any program category is to insure that many licensees give primary attention to the preferred categories, thereby reducing or eliminating broadcast time for other, less favored program categories. For the Commission to exclude religious programming from the categories which would be considered in achieving prima facie evidence of substantial program performance would, in the NRB's view, have a "chilling" and constitutionally impermissible effect upon the freedoms guaranteed by the First Amendment. NRB submits that a program service that does not include religious programming can be in the public interest. It maintains, however, that whether to include or exclude religious programs from a station's program fare is an individual, independent judgment of the licensee, based upon its knowledge of the needs and interests of the public it serves. It should not be a decision effectively mandated by an unwise Commission action.

Discussions. 14. As noted above, a number of participants in this proceeding argue that the proposal for quantitative program standards would draw us outside the bounds for our authority. We disagree, though we appreciate the concerns they express. In our Notice of Inquiry we disclaimed any intention to dictate the content or format of particular programs, and emphasized that choosing local and informational programming is a matter for each licensee's judgment, after giving good faith attention to the problems, needs, and interests of its station's service area. We recognized possible disadvantages of a system of quantitative standards, but believed that they might foster the effectiveness of the 1970 Policy Statement and lend stability to a situation where uncertainty was escalating. Accordingly, we decided to explore the feasibility of quantifying a concept of substantial service which, if met by a renewal applicant, would normally call for renewal, and whether the public interest benefits flowing from such a corollary to the 1970 Policy Statement would warrant our intrusion into an area where we have always been reluctant to tread.

15. Our attention was originally focused on the effects of quantitative standards on comparative renewal hearings. However, many of the comments filed discuss the anticipated effects of such standards outside the hearing process. It has become entirely clear that, whatever use standards would have in hearings, they would also have a substantial effect generally. In fact, we believe that almost all licensees would adopt our standards of substantial performance as their own minimum standards. This would result in increased levels of local, news, and public affairs programming, since many stations now broadcast lesser amounts of these program types.

16. Some commenters, as indicated, applaud the expected increases in these "favored" program categories as an improvement in broadcasters' public service. However, many others maintain that mere quantitative increases are an illusory gain, and that the intrusion on licensee discretion inherent in the scheme argues against it. There is some merit in each view. It is apparent that the value of a program to the viewing public is dependent on many variables, including the resources committed to its production and its relation to audience needs and interests. Those stations that increased their support for local and informational programming might well upgrade their service. However, others—through choice or necessity—might only spread their resources thinner, and reduce the quality and value of such programming. In short, increasing the amount of this programming would not necessarily improve the service a station provides its audience. In any event, we have no illusions that quantitative standards would be other than an encroachment on the broad discretion licensees now have to broadcast the programs they believe best serve their audiences. We do not believe such a result is justified unless there are clear and substantial benefits accompanying it. We therefore turn to consideration of the likely effects of quantitative standards on the comparative hearing process.

17. For several years we have aimed to streamline what we see as an unnecessarily burdensome hearing process. One apparent key to improvement was simplifying the imporant determination of whether an incumbent had provided a substantial program service. We therefore proposed quantitative standards as a means of lending concreteness to the otherwise imprecise concept of substantial service. We recognized, however, that a single standard could not equitably be applied to all stations, and consequently proposed a range of percentages for each program category, with the appropriate figure to be dependent on the factors described above.

18. Unfortunately, the very flexibility required for meaningful quantitative standards reintroduces much of the uncertainty we sought to avoid in the first place. Were they in effect, selecting the precise standards from the specified ranges would itself be a point of contention between competing applicants. Further, even once it were determined that a station's performance fell above or below the appropriate standards, the parties would indubitably dispute whether other factors overcame the prima facie showing of substantial or insubstantial service. Thus, quantitative standards do not appear to us to offer licensees, competing applicants, or the public any significantly greater certainty as to what level of preformance would constitute substantial service. In addition, of course, even a clear history of substantial service would not guarantee renewal, since any preference awarded for it cannot terminate the hearing in favor of the incumbent licensee.

19. Quantitative standards also suffer a defect suggested earlier, when we pointed out that meeting them established only a prima facie case of substantial service. We rely chiefly on program percentages and avoid judging program quality per se, but there are certain qualitative aspects we must consider. This was illustrated in an example we gave in the Notice of Inquiry: "An applicant could devote a most substantial percentage of his time to public affairs, * * * but with coverage solely of issues like canoe safety, rather than the issues that are truly of 'great public concern' in the area." We therefore look to the adequacy of an applicant's ascertainment of community problems, needs, and interests, and to his programming in response to them. While we afford a licensee great discretion in selecting his responsive programming, the adequacy of the programming effort is obviously the sum of both the amount and the nature of it. Since quantitative standards cannot take such important factors into account, they are inherently deficient.

Conclusions. 20. To summarize, we believe that the quantitative program standards under consideration here would have effects in two areas. First, they would artificially increase the time most television stations devote to local news, and public affairs programming. Such general increases were not our purpose in this proceeding and would represent a restriction on licensees' program discretion, a result we would eschew in the absence of clear and substantial public interest benefits. Licensees must present a reasonable amount of local and informational programming to justify renewal, but we are not convinced that the government should impose on broadcasters a national standard of performance in place of independent programming decisions attuned to the particular needs of the communities served. Second, they would not produce any significant improvement in the quality or efficiency of our comparative renewal hearing process. On the contrary, they might well complicate the process further.

21. We set out to establish benchmarks of substantial program service which would warrant preferring an incumbent licensee to a challenger, thereby affording licensees a degree of certainty as to programming performance they would have to achieve to protect themselves against competing applicants. After hearing two days of testimony and considering hundreds of pages of comments on this subject, we conclude that quantitative standards would not do what we had hoped. They would not simplify the hearing process, and they could not offer a licensee any real assurance of renewal. They are a simplistic, superficial approach to a complex problem, and we will not adopt them.

22. While we have decided that quantitative program standards should not be adopted and that this protracted inquiry should be terminated, our efforts and the endeavors of those who participated herein have not been for naught. The evaluation of the commentary developed in this proceeding and the experience acquired since 1971 in considering individual comparative renewal cases and in reviewing the legislative proposals advanced in Congress have led this Commission to conclude that inadequacies of the mechanism for comparing the incumbent licensee and the new applicant are symptomatic of the defects inherent in the comparative renewal process itself. In November 1976 we therefore recommended to Congress the elimination of comparative renewal hearings, stating:

> Since the earliest broadcast legislation was considered, Congress has favored a competitive, privately run broadcast system operating free of government censorship of program content. On the other hand, we have rightfully viewed broadcasters as public trustees with obligations to serve the public interest and with no vested interest in their assigned frequencies. The optimal balance between these values would produce a renewal process that encourages licensee performance with a minimum of government intrusion into the broadcaster's programming discretion. The possibility of a comparative renewal challenge has been viewed as an incentive operating to spur the broadcaster toward the best possible public service performance.[17a] In view of the fact that the comparative process has not and cannot operate effectively for this purpose [17] and since the subjectivity inherent in this process carries with it an ever present threat of undue government intrusion into broadcaster discretion, we believe that the comparative renewal process should be abolished. (Footnotes omitted.) [18]

23. Until such time as the Congress acts in this area, the Commission will continue to resolve these renewal proceedings in a manner consistent with the policies and practices set forth in prior comparative renewal cases. As reflected in those cases, our focus will initially be upon the program service rendered by the renewal applicant during the preceding license term. The incumbent licensee's past performance achieved under the pressures and demands of day-to-day operation in the community, affords the Commission the strongest and most reasonable basis on which to determine whether the public interest will be served by its renewal. Our past practice in this regard has been to examine all elements of the licensee's past performance that bear upon its service in the public interest. We agree with the Court in *McClatchy Broadcasting Co.* that "[w]here that interest lies is always a matter of judgment and must be determined on an ad hoc basis." 239 F. 2d 15 (D.C. Cir. 1956). Our precedent in this area further reveals some of the issues that we have considered particularly relevant. In general, of course, the licensee's responsiveness to the ascertained problems and needs of its community, including minority interests and concerns, remains central. See *Ascertainment of Community Problems by Broadcast Applicants*, 57 FCC 2d 418 (1976). In *RKO General, Inc. (KHJ–TV)*, 44 FCC 2d 123 (1973), a broad range of issues was developed in the record, including: news, public affairs and local programming, as well as cultural, educational, foreign language, prime time, children's agricultural and religious programming. Clearly, there is no "formula of general application" that can be applied to all cases. Moreover, in the future we expect that issues that are not now considered important will come to the fore. Thus to a large extent participants can raise, upon an appropriate showing; any other relevant and sub-

[12] Consideration of such factors as staff size, climate and topography, expansiveness of service areas, and other ingredients of small market broadcast operations are also advocated by KMSO–TV, Inc. and the Rocky Mountain Broadcasters Association.

[13] According to Storer, the Commission's statement in the Notice of Inquiry that "in each of [the] categories, substantial numbers of broadcasters are meeting the proposed guidelines" was premised upon an averaging of the relevant stations' performance in each program category. See 27 FCC 2d at 581.

[14] To suggest the specific categories, the minimum amount of broadcast time to be allocated to each category, and the specific hours of the day during which these favored types of programs are to be carried in order to preserve the broadcaster's license from challenge is, in the opinion of the North Carolina Association of Broadcasters, a substantial intrusion into the specific program judgment of every affected television licensee, in contravention of the First Amendment and Section 326 of the Act. Similarly, Southern Broadcasting Company feels that there is no basis in law for the Commission's imposition of rigid standards of specified program percentages at designated times.

[17] Report of the Federal Communications Commission to the Subcommittee on Communications of the Committee on Interstate and Foreign Commerce [of the House of Representatives] Re the Comparative Renewal Process, at page 41.

V 4271 APR 13 77 UMI

stantial factors bearing upon the licensee's past performance and the program service that can be expected from that licensee in the future. When presented with comparative hearing cases in the future, the Commission will have to continue to weigh all issues carefully and make the public interest determinations that cannot be foreshadowed today or structured with mathematical precision.

24. As illustrated most recently in the Daytona Beach, Florida case,[16] the renewal applicant must, therefore continue to run on its record, and we believe that that record should be measured by the degree to which the licensee's program performance was sound, favorable, and substantially above a level of mediocre service which might just minimally warrant renewal. Where the renewal applicant has served the public interest in such a substantial fashion, it will be entitled to the "legitimate renewal expectancy" clearly "implicit in the structure of the [Communications] Act." *Greater Boston Television Corporation* v. *F.C.C., supra*, 143 U.S. App. D.C. at 396, 444 F. 2d at 854. Thereafter, we will direct our attention to the comparative factors set forth in the 1965 Policy Statement, supra. While that policy statement will otherwise govern the introduction of evidence in the comparative renewal proceeding, the weight to be accorded the legitimate renewal expectancy of the incumbent licensee and the significance of other comparative considerations will depend on the facts of the particular case.

25. This approach leaves it to the hearing process to determine—on a case-by-case basis—which applicant would best serve the public interest. Given the comparative nature of the process, we question whether any other result is possible, since each case must be decided on the record. That is, because each applicant is entitled to a full and complete comparative hearing, the outcome of the hearing must depend on the evidence adduced, not on some absolute standard set by the Commission.

26. Accordingly, it is ordered, That this proceeding is terminated.

FEDERAL COMMUNICATIONS COMMISSION [17]
VINCENT J. MULLINS,
Secretary.

SEPARATE STATEMENT OF COMMISSIONERS BENJAMIN L. HOOKS AND JOSEPH R. FOGARTY

In Re: Docket 19154, Formulation of Policies Relating to the Broadcast Renewal Applicant, Stemming from the Comparative Hearing Process.

The most accurate way to describe the situation with respect to comparative renewals is, to borrow from Sir Winston Churchill, that it is a riddle within an enigma within a conundrum. The riddle: by what standards is a renewal applicant to be measured. The enigma: by what standards is a renewal challenger to be measured. The ultimate conundrum of course is, even assuming the establishment of such respective standards, how can there be constructed a matrix which can

[16] *Cowles Florida Broadcasting, Inc.* (*WESH–TV*), 60 FCC 2d 372 (1976), reconsideration denied, FCC 77–1, released January 4, 1977.

[17] See attached Separate Statement of Commissioners Hooks and Fogarty and Statement of Commissioner Quello.

be used to rationally measure and compare two largely unrelatable properties: an empirical property (an existing record) and an a priori property (a set of applicant pledges). The present statutory scheme which now unarguably compels such comparisons [1] may well demand the sort of classic "apples and oranges" similization which makes the statute impossible to administer in any perfect fashion.

Indeed, many deft and scholarly minds have addressed this condition and declared the patient incurable.[2]

The majority is understandably frustrated by its inability to resolve this complex equation systematically, and thus, in a metaphoric sense, it throws its hands in the air and its fate to the mercy of the legislature. It essentially declares the statutory scheme administratively unworkable and says that no intelligible standards being possible, it will adopt none and will instead decide future comparative cases on an ad hoc basis without benefit of pre-announced guidelines, save occasional reference to our 1965 Policy Statement on Comparative Broadcast Hearings. (see infra.)

Although that may be one pragmatic answer, it is not necessarily the only or the best answer to an admittedly deep dilemma. In fact, given that an administrative agency is required to justify its actions on some rational basis, any future decision in a comparative renewal case which smacks of a "seat of the pants" approach and judgment will be susceptible to appellate reversal. *See Johnston Broadcasting Co.* v. *FCC*, 175 F.2d 351 (1949) (comparative applicants must be measured on all "material differences" and the choice must go to the "better qualified").

Therefore, and in full appreciation of the conceptual difficulties involved, it behooves the Commission to do all that is conceivable to develop and enunciate the actual standards it intends to employ in its analytical process; that is an unavoidable legal duty. There is no doubt that any criteria developed in this amorphous area will be to some degree imperfect. Nor is there any doubt that such standards, of necessity, will be to some extent subjective or that in the final analysis any selection between competing candidates for a license will have to rely heavily on judgmental elements not given to rigid objectification. Notwithstanding, and unless and until the problem is addressed by legislature, we are flatly compelled to develop some reasonable comparative process so that the public as well as our regulatees have better notice of the ground for our judgments.

RENEWAL APPLICANT RECORD

To this end, as we see it, there needs first to be defined the elemental criteria by which we assess a renewal applicant's record. As we have been told by the judiciary, it is "literally" on that record that the renewal applicant runs. *Office of Communications of the United Church of Christ* v. *FCC*, 359 F.2d 994 (1966). And, as the majority correctly notes, we have been told that a "meritorious licensee" should not lose its license absent sound public policy reasons. *Majority Order*, para. 3 (*citing Greater Boston Television Corporation* v. *FCC*, 444 F.2d 841 (1970)). *Cf. Chicago Federation of Labor* v. *Federal Radio Commission*. 41 F.2d 422 (1930). Moreover, the *Greater Boston* doctrine was both endorsed and reinforced by *Citizens Communications Center* v. *FCC*, 447 F.2d 1201 (1970) wherein the court declared that a renewal applicant demonstrating a "superior" record should be accorded "a plus of major significance" in any comparative context. Specifically, the court said: (447 F.2d at 1213, footnote 35):

The court recognizes that the public itself will suffer if incumbent licensees cannot reasonably expect renewal when they have rendered superior service. Given the incentive, an incumbent will naturally strive to achieve a level of performance which gives him a clear edge on challengers at renewal time. But if the Commission fails to articulate the standards by which to judge superior performance, and if it is thus impossible for an incumbent to be reasonably confident of renewal when he renders superior performance, then an incumbent will be under an unfortunate temptation to lapse into mediocrity, to seek the protection of the crowd by eschewing the creative and venturesome in programming and other forms of public service. The Commission in rule making proceedings should strive to clarify in both quantitative and qualitative terms what constitutes superior service.

A. "QUANTITATIVE" RENEWAL STANDARDS

Thus, before any scale of licensee performance can be prescribed, it is clear that the elements on which we will "score" a renewal applicant must be clearly established. Putting aside all comparative aspects for the moment, it is an open secret that by delegation of authority to the staff, the rough rule of thumb employed by the Commission to gauge ordinary licensee renewability is our "5–1–5" rule. That is, any licensee which does not propose, in aggregate annual amounts of program time, at least (a) 5% news, (b) 1% public affairs and (c) 5% other non-entertainment programming has the onus of explaining to us the reason(s) for the "deficiencies."

Some have suggested, therefore, that the answer to the *Citizens* invitation is simply to have the Commission construct a graduated performance curve predicated on the "5–1–5" index and designate progressively higher levels within those selective program areas in accordance with an ascending continuum of superlatives. E.g., 6–2–6, "good" 7–3–7, "better," 8–4–8 and above, "superior."

However attractively simple that formula might appear, it is obvious that such a primitive calibration suffers from two principal and probably fatal deficiencies. One, it rests tenuously on the subjective and highly dubious proposition that the entirety of a licensee's overall obligations can be measured solely by the raw time it has devoted to three rather narrow programming categories. And, two, it would likely escalate into a potentially ad absurdam inflation of the regnant norm.

With respect to the first drawback, subjectivity, the learned Chief Judge of the D.C. Circuit Court of Appeals, the Hon. David L. Bazelon perhaps said it best when in a recent opinion he observed: "Comparing amounts of programming types aired, not only requires qualitative judgments in categorizing the programs, but would also seem to be a crude measure of the public interest." N.C.C.B. v. FCC, ---- F. 2d ----, ---- D.C. Cir. No. 75–1064, (released March 1, 1977), slip op. at 40. A literal reading of that opinion also suggests that any such qualitative analysis may run afoul of a broadcaster's First Amendment rights in the first instance and we cannot completely overlook the possible constitutional implications.

With respect to the second aspect, escalation, there is no denying that any performance "floor" we establish in terms of a performance gradation would quickly convert the "superior" into de rigueur. While this might very well upgrade the overall level of non-entertainment programming, it is largely inapposite to and unhelpful with our immediate problem, viz, a mechanism for contrasting the past programming record of an existing licensee with the promises of a new applicant. The nexus is, at best, remote. Thus, we concur with the majority in refusing to adopt the "quantitative standards" test as proposed.

B. TRADITIONAL COMPARATIVE STANDARDS

Hence, acknowledging the critical shortcomings of a pure "quantitative standards" methodology, many would suggest simply falling back on those standards set forth in our 1965 Policy Statement on Comparative Broadcast Hearings, 1 FCC 2d 393 (1965), as a suitable benchmark. However, there is no getting around the fact that the 1965 Policy Statement was evolved to compare two (or more) competing applicants for a *new* facility and does not contemplate an advantage to any party on the basis of a meritorious record of performance. The 1965 Policy Statement, rather, assigns competitive values to ownership and organizational structure while the courts have told us that "a renewal applicant . . . must literally 'run on its record.'" Office of Communications of the United Church of Christ v. FCC, 359 F. 2d at 1007; and again, the superior applicant is to be given a "leg up" over its adversaries. Accordingly, as we read these principles, a renewal applicant demonstrating only average performance must be compared on the full gamut of predictive factors, and we have no particular dispute with that course of events. Thus, all that remains for us to effectuate the courts' edicts is to define and clarify the criteria by which we evaluate a broadcast record in order to determine whether a licensee's past performance entitles it to legitimate expectation of renewal.

A POSSIBLE ALTERNATIVE: THE "COMPREHENSIVE OVERVIEW" APPROACH

Having eschewed the so-called "quantitative standards" approach, we believe there needs to be devised a system that to the extent feasible:

(a) Measures the totality of licensee responsiveness to its fiduciary role according to objectively oriented guidelines.

(b) Allows for the appropriate recognition of meritorious past broadcast records, and

(c) Permits a challenger to point out deficiencies and offenses in a current licensee's record and its own ability to surpass that record in all foreseeable likelihood.

To that end, we believe that there should be articulated an outline of those positive activities engaged in by licensees which could evidence a strong commitment to the public interest responsibilities that accompany the broadcasting privilege. Such a conceptual list should include not only those codified duties that form the threshhold for any bare acceptability test, but those that go appreciably beyond our minimum requirements. Moreover, for purposes of taking cognizance of conduct that is in the truest sense "superior," the list should fully include those activities that demonstrate an awareness of and sensitivity to community problems, needs, tastes, and interests above and beyond those strictly amenable to regulatory supervision. By these, we mean those activities

[1] 47 U.S.C. Sections 309 (a) and (e). *See also Ashbacker Radio Corp.* v. *FCC*, 326 U.S. 327 (1945); *Citizens Communications Center* v. *FCC*, 447 F. 2d 1202 (1972).

[2] For an engrossing history of the comparative process, and overlooking the wry coloration, see the exhaustive dissent of former Commissioner Glen O. Robinson in Cowles Florida Broadcasting, Inc., 60 FCC 2d 372 at 435 (1976). After a thoroughgoing review of our comparative processes, Commissioner Robinson also consigns the system to the scrapheap and suggests, instead, licensing by lottery. That result, however, strikes us more than a little dicey and the odds on its adoption are about the same as those on the Easter Bunny in the Preakness.

V 42 R 13 71 7 7 APR UMI

which evince a full integration into the affairs of the community and the licensee's attempts through its licensed medium to call attention to problems, to suggest answers, to educate the electorate, to serve minority groups, to recognize and respond to the needs of the large children's audience—in short—to illuminate, to entertain, to enlighten, to uplift.

In that connection, there is attached hereto a possible checklist of typical licensee activities, programming and otherwise, upon which we could conceivably evaluate licensees and provide the public with a comprehensive schedule of those elements we would look to in reviewing a licensee's total efforts to serve the community in accordance with the highest standards anticipated of a fiduciary. (See Attachment A). There is no intention here that the Commission keep a "running score" on individual broadcasters over one or more license terms; the list would serve simply as a yardstick by which, in a comparative renewal setting, a licensee's efforts could be evidenced. If, in contrast to the average station in its class, a licensee demonstrated service to its community in the most dedicated and conscientious manner according to the specified elements, that licensee would be awarded the "plus of major significance" adverted to ante.

Many will find that most of the component elements on the sample list are not entirely new but rather comprise a host of items which are now routinely noticed by the Commission or are routinely supplied by licensees in comparative proceedings anyway. They reflect, it is believed, a composite of those fundamental activities common—more or less—to all television broadcast stations; and in fact, the particular activities described may be more familiar to licensees than to the Commission itself.

While this suggested checklist is not intended to be definitive and public comment on improvements would be most welcome, it does represent, we believe, a reasonable attempt to objectify and to a certain extent quantify what until now has been a process of almost absolute subjectivity.

CONCLUSION

Although, regrettably, the objectification of renewal standards does not and cannot remove us from the thorny thicket of further comparative deliberations, it is, we believe, a possible step in the right direction. Because until some method is established of rationally evaluating a renewal applicant's performance, there is no possible way to begin to award the "plus" to which a superior applicant is properly entitled.

Moreover, we see no reason why a licensee which has rendered clearly meritorious service and whose record is free of any significant infractions should ever have to worry about being displaced by another party. In the real world, our experience has been that the spectre of comparative renewals is a threat most frequently to those licensees which have fallen significanty short of the right to be called superior, however that standard is defined. While the comparative renewal process is unquestionably a somewhat cumbersome method to spur licensees to the excellence we all would expect, it does have the advantage over more Draconian measures and deep regulatory involvement which might be the only suitable alternative to the comparative process.

In conclusion, although we concur with the majority to the extent that it rejects the "quantitative standards" approach as proposed, we do not at this time call for Congressional abrogation of the comparative process and have proffered a possible alternative by which to effect our public interest mandate in accordance with our understanding of the present state of the law and to make our ad hoc decisions more predictable, orderly and reasonable.

APPENDIX

HYPOTHETICAL TELEVISION RENEWAL CHECKLIST [1]

A sample of what elements such a Checklist might contain are the following:

A. *Programming Practices.* 1. Amount of time devoted to:

a. News and public affairs,

b. Childrens programming,

c. Local programs attuned to needs, problems and interests as adduced in ascertainment survey,

d. Programs primarily directed to racial and cultural minorities,

e. Programs relating to controversial issues of public importance and editorial programming,

f. Opportunity for public response to controversial issues and editorials,

g. Public service announcements and amount thereof devoted to local community affairs,

h. Pre-emption of network entertainment for other material.

2. Amount of the above presented in Prime Viewing Hours

B. *Commercial Practices.* 1. Overall average of commercial content

a. Reduction of such levels during childrens programs

b. Clustering (or other techniques) to avoid pervasive advertising directed to children

Conformance with appropriate codes respecting kinds and varieties of unsuitable advertising.

3. Rejection of deceptive or misleading advertisements.

a. Conformity with all Federal Trade Commission guidelines and advisories on ads.

4. Responsiveness to official (federal, state, local) agencies engaged in consumer protection.

C. *Employment, Management and Ownership Practices.* 1. Employment and management profile reflective of community demographics:

a. Conformance with rules of FCC, EEOC, and other federal, state and other local equal employment agencies.

2. Minority and female representation on board of directors and other management bodies.

3. Training and recruitment of minority and female personnel.

4. Efforts to attract minority equity in ownership (where applicable).

5. Investment in improvement of facilities, personnel and service.

D. *Community Involvement.* 1. Extent of ascertainment efforts.

2. Facilitation and encouragement of continuous dialogue with public and public interest groups.

3. Adherence to agreements with citizens and groups.

4. Participation in local affairs.

a. Service to charity and educational boards by management.

b. Involvement in civic affairs,

c. Provision of facilities, equipment, expertise and other resources to the public.

5. Commission examination of complaints and/or commendations from community during license term.

[1] The elements on this checklist are not necessarily complete or those favored by Commissioners Hooks and Fogarty, but represent a compendium of some of the major elements suggested by the public, public interest groups and the legislature.

STATEMENT OF COMMISSIONER JAMES H. QUELLO

In Re: Broadcast Comparative Hearings Policy Statement.

I support the majority position in continuing our present policy in comparative renewal cases. My support is based less on philosophical grounds than upon practical ones. It is clear to me that, absent Congressional action, comparative renewal proceedings are a fact of life and no objective standards, regardless of how they might be framed, will serve to obviate such proceedings under current interpretations of the court.

I want to make it clear that I view this issue as a technical one, however, and I do not regard it as an implication that the Commission is satisfied with current levels of public service by all the broadcasting industry. My personal view is that public service standards could, and should, be higher and that more time and effort should be devoted to local programming—including public affairs and news programming during hours which attract the largest audiences. I also believe that more attention should be devoted to the production and scheduling of public service announcements in TV prime time or radio "drive" time to reach a large audience and ensure effectiveness. Establishment of rigid rules to force public service performance would probably be a misuse of governmental authority. However, such performance, or lack thereof, will receive considerable weight in my personal future deliberations in renewal cases.

[FR Doc.10819 Filed 4-12-77;8:45 am]

CENLA BROADCASTING CO., INC. AND UNITED COMMUNICATIONS, INC.

Applications for Construction Permit

Adopted: April 4, 1977.

Released: April 11, 1977.

In re applications of Cenla Broadcasting Company, Inc., Alexandria, Louisiana, Req: 93.1 MHz, Channel 226; 100 kW (H & V); 790 ft. (H & V); (Docket No. 21151, File No. BPH-9495), United Communications, Inc., Alexandria, Louisiana, Req: 93.1 MHz, Channel 226; 100 kW (H & V); 810 ft. (H & V), (Docket No. 21152, File No. BPH-9648), for construction permit.

1. The Commission, by the Chief, Broadcast Bureau, has before it the above-captioned applications of Cenla Broadcasting Company, Inc. (hereinafter "Cenla") and United Communications, Inc. (hereinafter "United"), both seeking a construction permit for a new FM broadcast station in Alexandria, Louisiana. Requesting the same channel, these applications are mutually exclusive.

2. In Exhibit CN-I-a of its application, Cenla stated that "(t)he industrial life of Alexandria-Pineville and the surrounding area is based upon agriculture and its related activities * * *. Along with agriculture, commercial fresh-water fishing is also a thriving business". By letter dated March 29, 1976, Commission staff advised Cenla that its community leader survey omitted representatives of the fishing industry. This omission was not corrected by Cenla's amendment of April 28, 1976. Although the amendment reported numerous additional interviews

with community leaders, representatives of the fishing industry were not among them. Question and Answer 16 of the Commission's Primer on the Ascertainment of Community Problems by Broadcast Applicants, 27 FCC 2d 650 (1971), indicates that an ascertainment showing is defective if leaders of a significant group comprising the community are not consulted. An appropriate issue will therefore be specified.

3. Question and Answer 6 of the Primer require an applicant to ascertain the problems of major communities which are outside the city of license, within 75 miles of the transmitter, and which the applicant undertakes to serve. Question and Answer 7 provides that as certainment in such communities may consist of consultations with leaders who can be expected to have a broad overview of community problems. In the alternative, if an applicant chooses not to serve such a community, it must explain why. These requirements were pointed out to Cenla by Commission staff letter of March 29, 1976. Figure K of Cenla's application indicates that Ferriday, Louisiana, is within Cenla's proposed 1 mV/m contour and is less than 75 miles from its proposed transmitter. In 1970, Ferriday's population was 5,239. Considering the size of the proposed city of license (41,557 in 1970), Ferriday is a major community as contemplated by Questions and Answers 6 and 7. As Cenla has neither interviewed "broad overview" leaders in Ferriday nor explained why it does not intend to serve the community, an issue will be specified.

4. A similar defect appears in United's ascertainment showing with respect to Ferriday and the Louisiana community of Winnfield, whose 1970 population was 7,142. Both communities are located within United's proposed contours and within 75 miles of its proposed transmitter site, and an issue on this point is required.

5. Commercial fishing, cited as economically important by Cenla, also goes unmentioned in the ascertainment showing of United. Although advised by Commission staff letter of March 29, 1976, of the need for economic data, United's description of the composition of Alexandria says nothing about fishing, and no representatives of the industry are listed in connection with the community leader survey. In accordance with Questions and Answers 13(a) and 16, an issue will be specified.

6. Prior to its amendment of March 4, 1977, United proposed to finance construction and operation with $16,400 paid in by stock subscribers and a $187,000 line of credit from SCDF Investment Corporation. The March 4 amendment, however, withdrew reliance upon the SCDF funds. United has therefore demonstrated the availability of only $16,400. Although the absence of information pertaining to costs of capital precludes calculation of United's total financial requirement, the funds now available clearly are vastly inadequate; United's down payment on equipment alone requires $37,312. A financial issue will therefore be included.

7. United proposes a specialized format of predominantly black-oriented programing. Cenla, in contrast, proposes general market programing. The relative need for these different types of programing will be considered under the standard comparative issue, Ward L. Jones, FCC 67-82 (1967); Policy Statement on Comparative Broadcast Hearings, 1 FCC 2d 393, footnote 9 at 37 (1965).

8. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. Because they are mutually exclusive, they must be designated for hearing in a consolidated proceeding.

9. Accordingly, *it is ordered*, That pursuant to section 309(e) of the Communications Act of 1934, as amended, the above-captioned applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

(1) To determine the efforts made by the applicants to ascertain the community needs and problems of the proposed service area, in the following respects:

(a) Whether Cenla Broadcasting Company Inc.'s showing omits consultations with leaders of the commercial fishing industry, a significant group in the community.

(b) Whether Cenla Broadcasting Company Inc. has complied with questions and answers 6 and 7 of the Primer with respect to the community of Ferriday, Louisiana.

(c) Whether United Communications, Inc. has complied with questions and answers 6 and 7 of the Primer with respect to the communities of Ferriday and Winnfield, Louisiana.

(d) Whether United Communications, Inc.'s showing omits consultations with leaders of the commercial fishing industry, a significant group in the community.

(2) To determine, with respect to United Communications, Inc.:

(a) The amount of funds required to construct the proposed station and operate it for one year without revenues;

(b) The source and availability of funds in excess of $16,400;

(c) Whether, in light of the evidence adduced pursuant to (a) and (b) above, the applicant is financially qualified to construct and operate as proposed.

(3) To determine which of the proposals would, on a comparative basis, better serve the public interest.

(4) To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

10. *It is further ordered*, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's Rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

11. *It is further ordered*, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's Rules, give notice of the hearing (either individually or, if feasible and consistent with the Rules, jointly), within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the Rules.

FEDERAL COMMUNICATIONS COMMISSION.
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.77-10818 Filed 4-12-77;8:45 am]

[RM-2678]

KNBA INC.

Table of Assignments, FM Broadcast Stations (Vallejo, California)

Adopted: April 6, 1977.

Released: April 11, 1977.

By the Chief, Broadcast Bureau: 1. The Commission has under consideration a petition for rule making filed on March 29, 1976, by KNBA, Inc., licensee of daytime-only AM Station KNBA, Vallejo, California, requesting amendment of the FM Table of Assignments, Section 73.202 (b) of the Commission's Rules, by the assignment of Class B Channel 241 at Vallejo, California, as its first FM assignment. This proposal would require the following changes to existing assignments: (1) The substitution at Scramento, of Class B Channel 229 for Class B Channel 241, presently occupied by Station KCTC(FM); (2) the substitution at Roseville, California, of Channel 280A for Channel 228A, currently occupied by Station KPIP(FM); (3) the substitution at Chico, California, of Class B Channel 256 for Class B Channel 229, presently licensed to Station KFMF (FM); (4) the substitution at Yuba City, California, of Channel 249A for Channel 280A, presently occupied by Station KHEX(FM); and (5) the substitution at Oroville, California, of Channel 269A for Channel 249A, on which an application is pending.[1]

2. Two oppositions to KNBA's petition were timely filed, one by Kelly Broadcasting Company, licensee of KCTC (FM), Sacramento, California, and one by Cascade Broadcasting, licensee of Station KHEX(FM), Yuba City, California. One opposition was filed twenty days late by Radio KPOP, licensee of Station KPIP(FM), Roseville.[2] These

[1] An application, BPH-10031, for a construction permit for Channel 249A at Oroville was submitted by Oroville Radio, Inc. on June 29, 1976.

[2] KNBA filed a Motion to Dismiss or Strike Radio KPOP's Opposition because it was late filed and as such was in violation of Section 1.405 of the Commission's Rules. Radio KPOP thereafter filed a Motion to Dismiss KNBA's "Motion to Dismiss or Strike" or in the alternative that Radio KPOP's opposition be considered as an informal objection. However, we do not believe that it is necessary to resolve these procedural issues in view of the fact that, aside from the points made in the KPOP filing, the KNBA proposal requires denial.

V42N71 APR 13 77 UMI

oppositions argue that the Commission should not propose the assignment of FM Channel 241 at Vallejo for the following reasons: (1) KNBA's proposed assignment would serve no need compelling enough to justify changing FM channel assignments of four existing licensees; (2) the proposed change of channels would work an extreme hardship on the four existing licensees, especially to KCTC(FM), Sacramento, which would receive interference on its new channel from "super-power" Station KFYE(FM), Fresno; (3) KNBA has not demonstrated its ability to reimburse the four FM licensees for the costs of shifting their stations' channels; and (4) KNBA has not shown whether any Class A FM channels are available for assignment to Vallejo in lieu of the proposed Class B channel or why it would be in the public interest to assign a Class B FM channel to serve Vallejo rather than such a Class A channel. KNBA responded to these arguments in a timely filed reply in which KNBA alleged that Vallejo needs the service and is a large enough community under the Commission's population criteria to be entitled to two FM assignments. Moreover, KNBA argues that the Commission's Rules do not protect Station KCTC (FM), Sacramento, from interference, noting the fact that there would be no shortspacing between KCTC(FM) and KFYE(FM), Fresno.

THE KNBA PROPOSAL

3. The petition states that Vallejo (pop. 66,733) [1] is situated in Solano County (pop. 166,941) and is located approximately 40 kilometers (25 miles) northeast of San Francisco. Vallejo's local aural service consists solely of the petitioner's daytime-only AM Station KNBA.

4. The petitioner requests that the Commission propose the assignment of Channel 241 to Vallejo as its first FM assignment because, according to the petitioner, Vallejo needs fulltime aural service. The petitioner contends that Vallejo, Napa, and Fairfield compose a Standard Metropolitan Statistical Area (SMSA) of 250,000 people and points out that, within this SMSA, there is only one full-time AM station and one FM station (Class A). The petitioner believes that the assignment of Class B Channel 241 at Vallejo would help meet the needs of this area, which petitioner says is underserved, by providing first commercial FM service to Vallejo and to parts of Solano County. The petitioner has submitted a Roanoke Rapids, 9 F.C.C. 2d 672 (1976), study showing that a Class B station on Channel 241 with facilities of 5.3 kW and an antenna height of 425 meters (1,390 feet) HAAT would provide a first commercial FM service to 400 persons and a second commercial FM service to 1,510 persons in areas of 135 and 510 square kilometers (52 and 197 square miles), respectively. However, it should be noted that no showing has been made regarding first and second aural service. See Anamosa-Iowa City, Iowa, 46 F.C.C. 2d 520 (1974). The petitioner has also not stated whether or not a Class A channel would be available for assignment at Vallejo and, if so, the first and second FM service that would be provided by such a channel.

KELLY BROADCASTING'S OPPOSITION

5. The proposal to assign Channel 241 to Vallejo would require among other things, the substitution at Sacramento of Channel 229 for Channel 241, which is occupied by Kelly Broadcasting's Station KCTC(FM). Kelly opposes such a change and states that the shift from Channel 241 to Channel 229 would cause KCTC to experience interference within both its 60 dBu and 54 dBu contours. Kelly explains that this interference would be caused by the fact that, if KCTC were required to shift its channel as requested, it would be operating on the same channel, 229, as KFYE (FM), Fresno, which is authorized to broadcast with facilities in excess of the maximum now allowed for Class B stations. Under the provisions of Section 73.211 of the Commission's Rules, a Class B channel may utilize maximum facilities of 50 kW and an antenna height of 153 meters (500 feet) h.a.a.t. However, since KFYE(FM) has been authorized to operate with facilities of 68 kW and antenna height of 595 meters (1,950 feet) h.a.a.t. prior to the September 10, 1962, effective date of the power and antenna height requirements, Section 73.211(d) of the rules permits KFYE (FM) to operate with its "super-power" facilities. See Second Report, Memorandum Opinion and Order, Docket No. 14185, 23 R.R. 1845, 1852, para. 13 (1962).

6. Kelly admits that if KCTC were to operate on Channel 220, it would not be short-spaced with its co-channel Station KFYE(FM) because KFYE's transmitter site is located slightly beyond the minimum co-channel spacing of 241 kilometers (150 miles) for Class B stations. However, it argues that KFYE's interfering signal would overlap its 60 dBu and 54 dBu contours because KFYE (FM) operates with facilities in excess of the maximum allowed for Class B stations. Kelly argues that the interference caused by this overlap of contours would be equivalent to that received from a typical Class B co-channel station with maximum facilities located at considerably less than the minimum spacing. Moreover, Kelly avers that the Commission's guidelines for FM assignments in Zone I–A, which includes the communities involved in KNBA's petition, call for spacings which have the effect of allowing interference from co-channel stations with maximum facilities at permissible minimum spacings to extend no closer to a station than approximately its 54 dBu contour. Kelly argues that, since interference here would be inside of KCTC's 54 dBu contour, as well as inside of a small part of its 60 dBu contour, the KNBA proposal must be denied.

[1] The population data in paragraph 3 are taken from the 1970 U.S. Census.

DISCUSSION

7. At the outset, it should be noted that Section 73.209(b) of the Commission's Rules provides that "[t]he nature and extent of the protection from interference accorded to FM broadcast stations is limited solely to the protection which results from the minimum assignment and station separation requirements and the rules with respect to maximum powers and antenna heights. * * *" Since Stations KCTC (FM) and KFYE(FM) would not be short-spaced, and since the maximum power and antenna height rules would not apply to grandfathered "super-power" Station KFYE(FM), Station KCTC(FM) is not guaranteed protection from interference caused by Station KFYE(FM). However, we believe that if KCTC(FM) were required to switch to Channel 229, KCTC would be deprived of the type of interference protection that it could reasonably expect and which the Commission intended to give to Class B FM stations through adoption of the minimum spacing and the maximum power and antenna height rules. When the Commission adopted these rules in 1963, the Commission stated that one of the purposes of FM stations would be to provide effective coverage and that, to achieve this goal, it would "protect a 15 mile [24 kilometers] service area for Class A stations, 40 miles [64.4 kilometers] for Class B stations, and 65 miles [105 kilometers] for Class C stations * * *" Third Report, Memorandum Opinion and Order, Docket No. 14185, 40 F.C.C. 747, 756, para. 21 (1963). Requiring KCTC(FM) to switch to Channel 229 would for the first time subject it to interference within this 64.4 kilometer (40 mile) contour, a result which would be contrary to the Commission's purpose stated in 1963. Our point here is not that it is appropriate to use the old interference standard. Rather, it is that the effect of the proposal here can be seen as the equivalent of a short-spacing. Nor is recognition of this fact precluded by the "grandfathering" of Station KFYE(FM). That action had no impact on KCTC(FM) which was not called upon to accept the impact of "grandfathering," an argument which made sense in 1963. There is no occasion here, however, to act to prevent a possible loss of service from "superpower" stations. In our view, the effect of the proposal here would be to modify the license of Station KCTC(FM), a step not lightly to be considered.

8. We have examined the matter to see if the adverse consequences that would occur to KCTC(FM) are clearly outweighed by Vallejo's need. We have no question that the assignment of Channel 241 to Vallejo could benefit that community, as well as the surrounding area, by providing a valuable first FM service. However, there is no basis for finding that a first or even a second aural service would be provided to any significant population. Nor have we been given any other reasons for concluding that the need for the assignment assumes extraordinary importance. On the other side there is the impact of this proposal on the three existing licensees in addition to KCTC(FM) that would be required to change channels if Channel 241 were assigned to Vallejo. While a station may be made whole by being reimbursed for the expense of switching channels,[1] no such remedy is available insofar as a resulting loss of service area is concerned. By virtue of the change in KCTC(FM)'s channel, it would have its coverage reduced and the public would lose a service on which they have come to rely. We believe that such a result would be unfair to KCTC(FM) as well as to the listening public. While it could perhaps be argued that changing a station's channel is just as much a modification of its license as occurs when a station is required to share a channel with a "super-power" this attempt to equate the two loses its force where there are means of redress in only one of these situations. No approach would restore the service lost to KCTC(FM). For these reasons we refused to assign a second FM channel to Muncie, Indiana, when doing so involved requiring a station to change channels with the result that it would receive interference within its 60 dBu (1 mV/m) contour (and its 15 mile service area) from a "super-power" station. We denied the proposal even though, just as here, the existing licensee and the "super-power" station would not have been short-spaced. Muncie, Indiana, 32 F.C.C. 2d 839, 842–44, para. 12 (1972), recon. denied, 38 F.C.C. 2d 324 (1972). We believe these cases express the appropriate policy to apply in all but the most unusual cases, and nothing provided by petitioner demonstrates that such unusual circumstances exist here. Therefore we are denying KNBA's request to assign Channel 241 at Vallejo. Nevertheless, we would welcome a new petition proposing either a different Class B FM channel not subject to the defects inherent in the present proposal or a Class A channel for Vallejo.

9. Accordingly, *it is ordered*, That the petition for rule making filed by KNBA, Inc., IS DENIED.

10. *It is further ordered*, That this proceeding is terminated.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief Broadcast Bureau.

[FR Doc.77–10849 Filed 4–12–77;8:45 am]

[1] With regard to the allegations in the oppositions that KNBA does not appear to be financially qualified to reimburse four existing licensees for shifting their stations' channels, we would like to point out that such financial qualifications are not considered at the rule making stage because we do not know who will be the licensee for the newly assigned channel. Thus, the financial qualifications of a potential licensee or permittee are considered at the application stage. In any event, the grant of a construction permit for the new station would be made only upon a showing that reimbursement to existing licensees who would be required to switch channels can be afforded.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposals

The following request for clearance of reports intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on April 7, 1977. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FEA request are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed request, comments (in triplicate) must be received on or before May 2, 1977, and should be addressed to Mr. John M. Lovelady, Acting Assistant Director, Regulatory Reports Review, United States General Accounting Office, Room 5033, 441 G Street, NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202–275–3532.

FEDERAL ENERGY ADMINISTRATION

The FEA requests an extension no change clearance of Form FEA–103B, entitled Storage Operators Monthly Report. FEA–103B provides the means for the FEA to monitor and keep abreast of the storage picture of such products as: propane, butane, P–B mixture, isobutane, mixed or field grade butanes and normal butane. Potential respondents are owners of storage facilities with a capacity in excess of 500,000 gallons. FEA estimates respondents to be approximately 400 and reporting burden to average 1.1 hours per response. A separate response is filed for each product.

The FEA requests an extension no change clearance of Form FEO–1000, entitled Prime Suppliers Monthly Report. The FEO–1000 has been used by FEA to monitor supply and demand relationships as they apply to individual firms within each state. FEO–1000 supplies information on actual supply deliveries and anticipated supply deliveries for a given state. Potential respondents are prime suppliers of products subject to a State set-aside. FEA estimates respondents to be approximately 300 and reporting burden to average 1.6 hours per month.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

UNITED STATES INTERNATIONAL TRADE COMMISSION

[TA–201–25]

LIVE CATTLE AND CERTAIN EDIBLE MEAT PRODUCTS OF CATTLE

Investigation and Hearings

Investigation instituted. Following the receipt on March 17, 1977, of a petition filed by the National Association of American Meat Promoters, the Meat Promoters of South Dakota, the Meat Promoters of North Dakota, the Meat Promoters of Montana, and the Meat Promoters of Wyoming, the United States International Trade Commission, on March 26, 1977, instituted an investigation to determine whether live cattle and certain meat products of cattle fit for human consumption, provided for in items 100.40 through 100.55, inclusive; 106.10, 106.80, and 106.85; 107.20 and 107.25; 107.40 through 107.60, inclusive; and 107.75 of the Tariff Schedules of the United States, are being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing articles like or directly competitive with the imported articles.

Public hearings. Public hearings in connection with this investigation will be held in Rapid City, S. Dak., beginning on Tuesday, June 14, 1977; in Dallas, Tex., beginning on Tuesday, June 28, 1977; and in New York N.Y., beginning on Tuesday, July 12, 1977. Times and locations of the hearings will be announced later. Requests for appearances should be filed with the Secretary of the United States International Trade Commission, in writing, at his office in Washington, D.C., not later than noon of the fifth calendar day preceding the hearing at which the appearance is requested.

Inspection of the petition. The public portion of the petition filed in this case is available for public inspection at the Office of the Secretary, United States International Trade Commission, 701 E Street NW., Washington, D.C. 20436, and at the New York City office of the Commission, located at 6 World Trade Center.

By order of the Commission.

Issued: April 8, 1977.

KENNETH R. MASON,
Secretary.

FEDERAL HOME LOAN BANK BOARD

[H.C. No. 222]

PERPETUAL SECURITY CORPORATION

Receipt of Application for Permission To Acquire Control of Perpetual Savings and Loan Association

APRIL 8, 1977.

Notice is hereby given that the Federal Savings and Loan Insurance Corporation has received an application from Perpetual Security Corporation, Rapid City, South Dakota, for approval of aquisition of control of Perpetual Savings and Loan Association, Rapid City, South Dakota, an insured institution, under the provisions of Section 408(e) of the National Housing Act, as amended (12 U.S.C. 1730a(e)), and Section 584.4 of the Regulations for Savings and Loan Holding Companies, said acquisition to be effected by the transfer of 2,306 shares or 86.46 percent of the stock of Perpetual Savings and Loan Association held by Robert W. Brezina and a sum of $1,000 to Perpetual Security Corporation in return for all the outstanding stock of said corporation and the assumption by it of debt in the amount of $1,088,000. Comments on the proposed acquisition should be submitted to the Director, Office of Examinations and Supervision, Federal Home Loan Bank Board, Washington, D.C. 20552, within 30 days of the date this Notice appears in the FEDERAL REGISTER.

RONALD A. SNIDER,
Assistant Secretary,
Federal Home Loan Bank Board.

FEDERAL MARITIME COMMISSION

CITY OF LOS ANGELES AND OVERSEAS TERMINAL CO., INC.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, by April 25, 1977.

Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

Mr. Gerald F. Swan, Deputy City Attorney, City of Los Angeles, Harbor Division, P.O. Box 151, San Pedro, California 90733.

Agreement No. T-3450, between City of Los Angeles (City) and Overseas Terminal Company, Inc. (OTC), provides for the five-year nonexclusive preferential assignment of Berths 228-230, including Parcels 1, 2, 3, 4, and 5 at Los Angeles Harbor. As compensation, City is to receive all tariff charges pursuant to the Port of Los Angeles Tariff subject to a guaranteed minimum of $705,700 per annum. When the payment of tariff charges exceeds $705,700 but is less than $1,200,000, OTC will pay 45 percent to City and retain the remainder; and when the charge exceeds $1,200,000, OTC will pay 50 percent and retain the remainder. Agreement No. T-3450 will supersede Agreement No. T-2588 between City and Overseas Shipping Company.

By Order of the Federal Maritime Commission.

Dated: April 8, 1977.

JOSEPH C. POLKING,
Acting Secretary.

MEDITERRANEAN U.S.A. GREAT LAKES WESTBOUND FREIGHT CONFERENCE

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, by April 25, 1977. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

David C. Jordan, Esquire, Billig, Sher & Jones, P.C., 2033 K Street NW., Washington, D.C. 20006.

Agreement No. 8260-18, by and among the members of the above-named conference, amends the basic conference agreement to extend the conference's authority to intermodal cargo originating at inland Continental European points and moving through Mediterranean ports of the conference.

By Order of the Federal Maritime Commission.

Dated: April 7, 1977.

JOSEPH C. POLKING,
Acting Secretary.

FEDERAL POWER COMMISSION

[Project No. 2146]

ALABAMA POWER CO.

Application for Change in Land Rights

APRIL 7, 1977.

Public notice is hereby given that an application was filed under the Federal Power Act, 16 U.S.C. 791a-825r, on March 4, 1977, by Alabama Power Company (Applicant) (Correspondence to: Mr. F. L. Clayton, Jr., Vice President, Alabama Power Company, P.O. Box 2641, Birmingham, Alabama 35291) for a change in land rights at the H. Neely Henry Reservoir of Project No. 2146, known as the Coosa River Project in Etowah County, Alabama.

Applicant seeks Commission approval to grant an easement to South Central Bell Telephone Company, for the installation, operation, and maintenance of a submerged telephone cable, to be located adjacent to existing marine cables across the H. Neely Henry Reservoir approximately 60 feet southwest of and parallel to the Alabama Highway 77 bridge in Section 32, T. 12 S., R. 6 E., Huntsville Principal Meridian, Alabama.

The single-wire armored cable would be placed loosely along the river bottom upwards to mean low water elevation

V 42 71 APR 13 77 UMI

500 from where it would be buried to a 2.5-foot depth and anchored to existing manholes on each side of the river. The normal power pool elevation of the reservoir is 508.

Applicant has requested the shortened procedures pursuant to § 1.32(b) of the Commission's Rules of Practice and Procedure, 18 CFR 1.32(b) (1976).

Any person desiring to be heard or to make any protest with reference to said application should on or before May 23, 1977, file with the Federal Power Commission, 825 N. Capitol Street, N.E., Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1976). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and conferred upon the Federal Power Commission by Sections 308 and 309 of the Federal Power Act, 16 U.S.C. 825g and 825h, and the Commission's Rules of Practice and Procedure, specifically § 1.32(b), as amended by Order No. 518, a hearing on this application may be held before the Commission without further notice if no issue of substance is raised by any request to be heard, protest, or petition filed subsequent to this notice within the time required herein. If an issue of substance is so raised, further notice of hearing will be given.

Under the shortened procedure herein provided for, unless otherwise advised, it will not be necessary for Applicant to appear or be represented at the hearing before the Commission.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP74-61 (PGA77-4)]

ARKANSAS LOUISIANA GAS CO.

Proposed Change in Rates

APRIL 7, 1977.

Take notice that on March 29, 1977, Arkansas Louisiana Gas Company (Arkla) tendered for filing 13th Revised Sheet No. 4 to its FPC Gas Tariff First Revised Volume No. 1, to become effective May 1, 1977.

Arkla states that the instant tariff sheet is being submitted pursuant to the Purchased Gas Cost Adjustment Clause of its tariff to provide for a current adjustment and a surcharge adjustment in accordance with applicable regulations.

Arkla also states that copies of its filing were mailed to the jurisdictional customers affected and other interested parties.

Any person desiring to be heard or to protest said filing should file a Petition to Intervene or Protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a Petition to Intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP77-318]

ARKANSAS OKLAHOMA GAS CORP.

Application

APRIL 1, 1977.

Take notice that on March 28, 1977, Arkansas Oklahoma Gas Corporation (Applicant), 115 North Twelfth Street, Fort Smith, Arkansas 72901, filed in Docket No. CP77-318 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities to connect one gas well to its pipeline system located in Fort Smith, Arkansas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate facilities to connect the gathering line from the Spirit of '76 No. 1 well to Applicant's Line H at a point in Sebastian County, Arkansas. Applicant states that the locations of the proposed connection, the well and the gathering line are all within the city limits of Fort Smith, and the estimated cost of making the connection is $1,680 which will be financed from funds on hand.

Applicant states that the additional gas supply to be obtained through the proposed facilities would be used to maintain service to its 48,200 existing customers located in twenty-nine towns and cities in Sebastian, Crawford, Franklin, Logan and Scott Counties, Arkansas, and Le Flore, Latimer, Haskell and Sequoyah Counties, Oklahoma.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 29, 1977, filed with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP77-7 and RP72-157 (PGA77-6) (R.&D77-2)]

CONSOLIDATED GAS SUPPLY CORP.

Proposed Changes in FPC Gas Tariff

APRIL 7, 1977.

Take notice that Consolidated Gas Supply Corporation (Consolidated) on March 31, 1977 tendered for filing Twenty-Second Revised Sheet Nos. 8 and 9. The tariff sheets are proposed to become effective May 1, 1977, subject to refund, in accordance with the provisions of Section 4 of the Natural Gas Act in lieu of rates filed October 29, 1976 as revised November 24, 1976 in Docket No. RP77-7 which were suspended until May 1, 1977.

Consolidated stated that the purpose of Twenty-Second Revised Sheet Nos. 8 and 9 is (1) to reflect all changes in Consolidated's pipeline purchased gas cost will be in effect May 1, 1977; (2) to reflect all changes in Consolidated's producer purchased gas cost that will be in effect May 1, 1977; (3) to include in its rates a surcharge credit to reflect the Unrecovered Purchased Gas Cost account, flow through of supplier refunds and flow through of the jurisdictional portion of the difference between the average annual average cost of gas reflected in the rates in 1976 and the annual average cost of gas withdrawn from the pre-1976 LIFO storage layers; and, (4) to include a Research and Development Cost Adjustment.

The proposed revised tariff sheets reflect an annual increase of $134.3 million in revenues from the revenues that would have been generated under the revised rates filed November 24, 1976. The average surcharge credit of 6.74¢/Mcf would be in effect for the six-month period May 1, 1977 through October 31, 1977. Research and Development Cost Adjustment is 0.11¢/Mcf.

The rates contained in Twenty-Second Revised Sheet Nos. 8 and 9 would generate $48.2 million in revenues, for sales for resale, over the rates contained in Twenty-First Revised Sheet Nos. 8 and 9 filed March 3, 1977 for effectiveness April 1, 1977.

Consolidated requests a waiver of any of the Commission's Rules and Regulations as may be required to permit the proposed rates to become effective.

Copies of this filing were served upon Consolidated's jurisdictional customers, as well as interested state commissions.

Any persons desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10).

All such petitions or protests should be filed on or before April 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-10806 Filed 4-12-77;8:45 am]

[Docket No. CP77-325]

CONSOLIDATED GAS SUPPLY CORP.

Application

APRIL 7, 1977.

Take notice that on March 31, 1977, Consolidated Gas Supply Corporation (Applicant), 455 West Main Street, Clarksburg, West Virginia 26301, filed in Docket No. CP77-325 an application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the storage of 30,000,000 Mcf of natural gas for three years for Texas Eastern Transmission Corporation (Texas Eastern), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to store gas for Texas Eastern for each of the next three injection and withdrawal seasons, beginning with the 1977 summer injection period and ending with the 1979-1980 withdrawal period, pursuant to a letter agreement dated March 21, 1977 between Applicant and Texas Eastern. Applicant states that the proposed service consists of a storage capacity volume of 30,000,000 Mcf of natural gas for three years and a daily demand volume of 221,400 Mcf of natural gas. Applicant further states that it would render this proposed storage service on a best efforts basis for three years and charged for at rates contained in Applicant's Rate Schedule GSS (volumes in Mcf at 14.73 psia). It is stated that the natural gas to be delivered to Applicant by Texas Eastern and the natural gas to be returned by Applicant would be delivered at existing points of interconnection between the facilities of Texas Eastern and Applicant in the states of Ohio and Pennsylvania as operating conditions permit or require, and as mutually agreed to from time to time. Applicant states that no new facilities are required to render the proposed services.

It is stated that during each of the 1977, 1978 and 1979 injection periods, Texas Eastern would deliver to Applicant and Applicant would inject into storage such quantities of gas of Texas Eastern customers as are mutually agreed to and scheduled, on each day, by the dispatchers of Texas Eastern and Applicant. Any carried-over inventory and the injections would not exceed at any time the contracted storage capacity of 30,000,000 Mcf of natural gas, it is said.

Applicant states that during each of the 1977-1978, 1978-1979 and 1979-1980 withdrawal periods, it would deliver to Texas Eastern the contracted storage gas or any lesser portion thereof desired by Texas Eastern, at reasonably-constant daily rates not to exceed 221,400 Mcf.

Applicant asserts that under the services proposed here, it is contemplated that redeliveries from storage would occur ordinarily during the winter season next following the summer injection season. The customer may defer its withdrawals; and, in such event, the carried-over inventory and succeeding summer injection cannot exceed the contracted storage volume of 30,000,000 Mcf of natural gas, it is said.

Applicant indicates that the proposed storage service would enable Texas Eastern to render storage and transportation services for fourteen of its resale customers for the next three years, and that this service is needed to provide for the resale customers of Texas Eastern involved additional winter deliverability for serving essential high-priority consumer requirements and thereby to ameliorate some of the adverse effects of curtailments that have been so drastic in recent winter-heating seasons.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 29, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-140 (PGA77-3)]

GREAT LAKES GAS TRANSMISSION CO.

Proposed Changes in PGA Gas Tariff Under Purchased Gas Adjustment Clause Provisions

APRIL 7, 1977.

Take notice that Great Lakes Gas Transmission Company (Great Lakes),

V 42 71 APR 13 77 UMI

on March 16, 1977, tendered for filing Twenty-Third Revised Sheet No. 57, to its FPC Gas Tariff, First Revised Volume No. 1, proposed to be effective May 1, 1977.

Great Lakes states that the cost of gas purchased from TransCanada Pipelines Limited, its sole supplier of natural gas, is reduced as a result of the continuing decrease in the conversion rate between United States and Canadian currency.

In addition, the revised tariff sheet reflects a purchased gas cost surcharge resulting from maintaining an unrecovered purchased gas cost account for the period commencing September 1, 1976 and ending February 28, 1977.

Great Lakes also states that copies of this filing have been served upon its customers and the Public Service Commissions of Minnesota, Wisconsin and Michigan.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E. Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules and Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CS77-395, et al.]

H. H. PHILLIPS, WINNIE A. PHILLIPS AND JANE PHILLIPS LADOUCEUR, ET AL.

Notice of Applications for "Small Producer" Certificates [1]

APRIL 5, 1977.

Take notice that each of the Applicants listed herein has filed an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.40 of the Regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before May 2, 1977, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP77-327]

NATURAL GAS PIPELINE CO. OF AMERICA, ET AL.

Application

APRIL 7, 1977.

Take notice that on March 31, 1977, Natural Gas Pipeline Company of America (Natural), 122 South Michigan Avenue, Chicago, Illinois 60603, Columbia Gulf Transmission Company (Columbia Gulf), 3805 West Alabama Avenue, Houston, Texas 77027, and Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), The Tenneco Building, Houston, Texas 77002, (Applicants) filed in Docket No. CP77-327 a joint application pursuant to Section 7 (c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation and exchange of up to 10,000 Mcf of natural gas per day, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants state that Natural has available pursuant to its rights under a gas purchase contracted dated November 17, 1976, between Natural and Napeco Inc., an affiliate of Natural, (Napeco) volumes of natural gas in the Thornwell Area, Jefferson Davis Parish, Louisiana. Applicants further state that the gas would be gathered and delivered by the producer to Amoco Production Company's (Amoco) South Thornwell Processing Plant located in Jefferson Davis Parish, Louisiana, for processing, and the residue gas allocable to Napeco's account would be delivered and sold to Natural at the tailgate of the South Thornwell Processing Plant (Natural Delivery Point.

It is stated that Natural has entered into a gas transportation and exchange agreement dated March 15, 1977, with Columbia Gulf and Tennessee whereby Columbia Gulf and Tennessee would assist Natural in transporting up to 10,000 Mcf per day of gas purchased by Natural. It is further stated that Columbia Gulf would accept gas for Natural's account at the Natural Delivery Point into its existing pipeline and measurement facilities at the tailgate of Amoco's South Thornwell Processing Plant and redeliver the gas on an Mcf-for-Mcf basis to Tennessee at an existing point of interconnection located in Cameron Parish, Louisiana, and Tennessee would deliver, or cause the delivery of, gas to Natural at the inlet to the existing pipeline and measurement facilities of Natural at the tailgate of Mobile Oil Corporation's Cameron Gas Processing Plant located in Cameron Parish, Louisiana.

It is stated that delivery of gas on an Mcf-for-Mcf basis for Natural's account to Columbia Gulf, Columbia Gulf to Tennessee and Tennessee to Natural would be contemporaneous, within practical operating conditions, and each party would make such adjustment in deliveries as promptly as is consistent with their operating conditions in order to balance any excess or deficiency.

Applicants state that the proposed transportation and exchange agreement

is for a primary term of seven years from the date of first delivery of gas and from year-to-year thereafter until terminated by one party giving the other parties at least 1 year's prior notice.

It is stated that Natural would pay Tennessee a monthly handling charge as defined in the agreement (about 1.084 cents per Mcf at date of filing) for each Mcf received by Tennessee at the Columbia Delivery Point and would pay Columbia Gulf a handling charge of $500 for any month during which gas is transported and exchanged.

It is asserted that the transportation and exchange agreement between Applicants is beneficial to Natural in that it provides a means to Natural to connect a remote source of gas supply into its system obviating the necessity to construct and operate duplicate facilities. Applicants indicate that they would utilize their existing facilities to render the proposed transportation services.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 29, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the Appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-10807 Filed 4-12-77;8:45 am]

[Docket No. RP77-41]

SOUTHERN NATURAL GAS CO.

Petition For Emergency Relief

APRIL 7, 1977.

Take notice that on March 7, 1977, Southern Natural Gas Company (Southern) filed in the above docket a petition requesting the Commission to grant Southern authorization to recover through its tariff PGA clause all costs associated with an emergency purchase of natural gas made by Southern pursuant to section 2.68 of the Commission's General Policy and Interpretations. In its petition Southern states as follows:

As has been set out in a number of proceedings, Southern experienced unprecedented cold weather in its service area this winter. This weather and the continued decline of deliverability from normal gas supply sources caused excessive withdrawals of Southern's stored reserves and resulted in a drastic decline in deliverability from those stored reserves. The decline in deliverability led to the curtailment of 100 percent of gas allocated for industrial uses on Southern's system during the period January 11, 1977 to February 23, 1977. Even this drastic curtailment of gas, however, did not bring supply in line with priority 1 requirements.

On January 19, depleted pipeline inventory and declining pipeline pressure required that a curtailment into priority 1 be made. Even with that curtailment, Southern's pipeline inventory and pressure continued to decline, threatening a widespread loss of service. At this critical juncture, however, Southern was able to arrange an emergency storage service from Northern Illinois Gas Company (NI-Gas) whereby NI-Gas agreed to provide Southern with up to 1 billion cubic feet of gas at rates up to 150,000 Mcf per day from NI-Gas' existing storage facilities. The transaction was carried out pursuant to Section 2.68 of the Federal Power Commission's General Policy and Interpretations. This gas was made available to Southern begining late January 18 and literally prevented a major disaster from occurring on Southern's system. Increased deliveries from NI-Gas beginning January 20 enable Southern to resume allocations to serve 100% of priority 1 beginning January 21.

In order to make this stored gas available to Southern, NI-Gas was forced to utilize its synthetic natural gas facilities to replace said stored gas at a cost to NI-Gas of approximately three times its ordinary cost of purchased gas. NI-Gas has informed Southern that during the 60-day period of the storage arrangement it utilized more than 800,000 Mcf of synthetic gas and that it will utilize far more synthetic gas this winter than last. NI-Gas has also informed Southern that its ordinary cost of purchased gas is $1.10 per Mcf and the gas utilized in lieu of the gas diverted to Southern had a cost to NI-Gas of $3.78 per Mcf. Southern and NI-Gas agreed, therefore, that Southern should replace the stored gas it withdrew during a second 60-day period (again pursuant to Section 2.68 of the Federal Power Commission's General Policy and Interpretations) on a three-to-one basis.

The gas withdrawn from storage and the gas Southern will return to NI-Gas was and will be transported by Natural Gas Pipeline Company of America (Natural) for a charge of 20¢ per Mcf of gas returned to NI-Gas plus 5 percent of the gas returned for fuel (no charge was made for the delivery to Southern). Natural delivered the gas to Transcontinental Gas Pipe Line Corporation (Transco) which delivered the same to Atlanta Gas Light Company for Southern's account for a transportation charge of 19.6¢ per Mcf. Transco will also displace gas which Southern delivers to Atlanta for Transco's account to Natural to accomplish the paycheck to NI-Gas.

Based on Southern's present average cost of purchased gas (66.74¢ per Mcf) the total cost to Southern of the volumes diverted to it by NI-Gas was only $1.33 per Mcf. Including transportation both ways, the total cost will be approximately $2.24 per Mcf.

Southern will be able to provide NI-Gas the payback volumes and fill its Muldon Storage Field without curtailment of high priority requirements. The depth of curtailment on Southern's system this summer will be influenced by the weather experienced in March and the deliverability of certain new reserves which should begin flowing this summer. Southern anticipates, however, that only curtailments of requirements in priorities 6 through 9 of the curtailment plan established by the Commission in Opinion Nos. 747 and 747-B will be necessary this summer.

Southern respectfully submits that the NI-Gas transaction described above was absolutely vital to Southern's ability to continue service to its customers during the extremely critical period experienced in the latter part of January and the first part of February. During that period of time Southern took delivery of approximately 800,000 Mcf of gas from NI-Gas all of which was used to maintain service to essential priority 1 requirements and other requirements not properly classified in priority 1 which could not safely withstand curtailment. Southern informed its customers and representatives of the Federal Power Commission Staff at a meeting on January 18 in Southern's offices of the pending transaction with NI-Gas and that the transaction was absolutely essential.

Southern respectfully submits that the transaction with NI-Gas and Natural was necessary to assure maintenance of adequate gas service where interruption or serious curtailment of service existed and that Southern is, therefore, entitled to recover all costs associated with that transaction. Indeed, the Commission by telegraphic order on January 18, 1977 authorized Southern to encourage distributors to switch to supplemental supplies such as propane and further authorized Southern to pay the costs of the alternate fuel for gas made available by such switches. The transaction with NI-Gas is on all fours with the intent of the Commission's January 18, 1977 order except that Southern, by using repayment gas as consideration, incurred substantially lower costs than the cost of the alternative fuel.

Thus, Southern and its customers experience a total cost of about $2.24 per Mcf instead of the $3.78 per Mcf syngas

V 42 71 APR 13 77 UMI

cost, which with transportation would have a total cost of about $4.00 per Mcf. By paying for the storage service with gas instead of money, a savings of over $1,400,000 was effected ($4.00−$2.24=$1.76×800,000=$1,408,000)..

Any person wishing to do so may submit comments in writing concerning Southern's request for emergency relief. All such comments should be filed or mailed on or before April 22, 1977, and should be addressed to the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426. Southern's petition is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-10803 Filed 4-12-77;8:45 am]

[Docket No. CP66-180]

TENNESSEE GAS PIPELINE CO.

Petition To Amend

APRIL 7, 1977.

Take notice that on March 29, 1977, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Petitioner), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP66-180 a petition to amend the Commission's order of May 10, 1966 issued in the instant docket (35 FPC 715) pursuant to Section 7(c) of the Natural Gas Act so as to authorize the construction and operation of a 3,260 horsepower compressor unit at its Compressor Station No. 261 located at Agawam, Massachusetts, all as is more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that pursuant to the Commission's order of May 10, 1966, it was authorized to install a 2,500 horsepower compressor unit at its Compressor Station No. 261 located at Agawam, Massachusetts, and in November of 1976 it became necessary for Tennessee to replace the 2,500 horsepower compressor unit because of its failure to provide the necessary compression in an efficient and dependable manner and because the unit had become absolete and repair of the unit would have been uneconomical. Petitioner indicates that pursuant to Section 2.55(b) of the Commission's General Policy and Interpretation (18 CFR 2.55 (b)) it purchased and installed a compressor unit that was represented to it as a 2,500 horsepower compressor unit, and that its understanding was that certain modifications by the vendor would be necessary to allow the unit to achieve a rating of 3,260 horsepower. Petitioner further states that during the current winter heating season, it discovered that this unit unit as delivered was not limited to 2,500 horsepower, but can be operated at 3,260 horsepower. It has been determined that the fuel efficiency when operating this unit at 3,260 horsepower is significantly greater than when operating at a restricted rating of 2,500 horsepower, it is said.

Petitioner asserts that operation of the unit as a rating of 3,260 horsepower would result in a fuel savings and would provide greater assurance of continuity of service to its customers in the event of an outage that may occur on any one of the four smaller units at its Compressor Station No. 261.

It is stated that although the modification has been made, the cost of the said modification would not be charged to Petitioner until operation of the unit at the higher rating is authorized, and the charge by the manufacturer for such modification would be $57,520. The total project cost would be $72,350, it is said.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before April 29, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-10810 Filed 4-12-77;8:45 am]

[Docket No. CP77-296]

TEXAS GAS TRANSMISSION CORP.

Application

APRIL 7, 1977.

Take notice that on March 15, 1977, Texas Gas Transmission Corporation (Applicant), P.O. Box 1160, Owensboro, Kentucky 42301, filed in Docket No. CP77-296 an application pursuant to section 7(c) of the Natural Gas Act and § 2.79 of the Commission's General Policy and Interpretations (18 CFR 2.79) for a certificate of public convenience and necessity authorizing the transportation of natural gas for Steel Services Company, a Division of Azcon Corporation (Steel Services), on an interruptible basis for two years, all as more fully set forth in the application which is on file at the Commission and open to public inspection.

Applicant states that Steel Services has entered into a contract with McGoldrick Joint Venture No. 1-73 (McGoldrick) for the purchase of natural gas to be produced from certain leasehold interests presently owned or controlled by McGoldrick in the Leatherman Creek Field, Claiborne Parish, Louisiana. The gas would be delivered to Applicant at an existing meter station located at or near Mile Post 20+1743 on Applicant's Sharon-Carthage 20-inch pipeline in Claiborne Parish. Applicant states it would simultaneously redeliver up to 1,957 Mcf of gas per day for Steel Services' account to Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), at Portland, Tennessee, where both Applicant and Tennessee have facilities, for ultimate delivery by East Tennessee Natural Gas Company to Steel Services' Knoxville, Tennessee, plant.

Applicant states that no new facilities are necessary in order to effectuate the proposed transportation service.

Applicant would retain 8.7 percent of the gas as makeup for compressor fuel and the line loss, which percentage is calculated on an incremental basis for pipeline throughput to and within the rate zone in which the delivery by Applicant would be made, i.e., Zone 3, it is said. Applicant states it would collect an initial charge of 17.51 cents per Mcf at 14.73 psia for all quantities of gas transported and delivered to Tennessee for the account of Steel Services.

In a letter from McGoldrick to Steel Services, included as an exhibit to the application it is asserted that the subject gas is from newly discovered reservoirs and is not available for sale for resale in interstate markets.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 18, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.18 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-10799 Filed 4-12-77;8:45 am]

[Docket No. CP77-167]

TEXAS GAS TRANSMISSION CORP.

Application

APRIL 7, 1977.

Take notice that on March 29, 1977, Texas Gas Transmission Corporation (Applicant), P.O. Box 1160, Owensboro, Kentucky 42301, filed in Docket No. CP77-167, an application pursuant to section 7 of the Natural Gas Act and § 2.79 of the Commission's General Policy and Interpretations (18 CFR 2.79), for a certificate of public convenience and necessity authorizing the transportation of up to 5,000 Mcf of natural gas per day on an interruptible basis, for Wheeling-Pittsburgh Steel Corporation (Wheeling), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to transport up to 5,000 Mcf of natural gas per day at 14.73 psia, on an interruptible basis, for 2 years for the account of Wheeling, pursuant to a transportation agreement, dated March 14, 1977, between Applicant and Wheeling. Applicant states that the proposed transportation service commenced on February 4, 1977, pursuant to the temporary authorization granted by the Commission in its order of January 31, 1977.

Applicant states that Wheeling has entered into a contract with McGoldrick Joint Venture No. 1-73 (McGoldrick) for the purchase of the subject gas at $1.70 per Mcf which is to be produced from certain leasehold interests presently owned or controlled by McGoldrick in Leatherman Creek Field, Claiborne Parish, Louisiana.

Applicant proposes to transport the subject gas from an existing meter station located at or near Mile Post 20 + 143 on Applicant's Sharon-Carthage 20-inch pipeline in Claiborne Parish, Louisiana, and redeliver such gas to Columbia Gas Transmission Corporation (Columbia) near Lebanon, Ohio, for ultimate delivery to Wheeling's plants located in the States of Ohio, Pennsylvania and West Virginia. It is stated that Applicant would not be obligated to deliver on any one day an aggregate amount of more than 290, 708 Mcf at 14.73 psia of natural gas to Columbia at all points of delivery of Applicant to Columbia, and that no new facilities are necessary in order to effectuate the proposed transportation service.

Applicant states that it would retain a volume equal to 12.2 percent above the delivered volume as makeup for compressor fuel and line loss, which percentage was calculated on an incremental basis for pipeline though put to and within the rate zone in which the delivery by Applicant would be made, i.e. Zone 4. Applicant further states that it would collect from Wheeling an initial charge of 20.01 cents per Mcf (at 14.73 psia) for all quantities of gas transported and delivered to Columbia. The proposed interruptible transportation rate is computed in the same manner, exclusive of the cost of compressor station fuel, as that rate charge for comparable long-haul interruptible transportation service by Applicant, it is said.

It is stated that the gas covered by the Wheeling contract has never been sold in interstate commerce, and if transportation had not been obtained, the gas in question would not have been sold in the interstate market. It is indicated that Wheeling would use the subject gas for Priority 2 uses.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 18, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the National Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-10800 Filed 4-12-77;8:45 am]

[Docket No. CP77-280]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Amendment to Application

APRIL 7, 1977.

Take notice that on March 30, 1977, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP77-280 an amendment to its application filed in said docket pursuant to section 7(c) of the Natural Gas Act and § 2.79 of the Commission's General Policy and Interpretation (18 CFR 2.79) by which amendment Applicant requests authorization to increase its interruptible transportation rate for gas transported for Kerr Finishing Division of Allied Products Corporation (Kerr), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that in its initial application filed in said docket on March 7, 1977, there is a transportation agreement between Applicant, Kerr and Public Service Company of North Carolina, Inc. (PSNC). PSNC is a party to the agreement because it is the distribution company which serves Kerr, it is said. Applicant further states that in its initial application it proposed to transport natural gas on an interruptible basis for Kerr at a rate of 21.55 cents per Dekatherm (dt).

Applicant states that it is filing revised tariff sheets to its FPC Gas Tariff, Original Volume No. 2, and that these sheets provide for increased rates for interruptible transportation services rendered by Applicant under Volume 2 agreements. Applicant further states that the rate for Zone 2 (where Kerr is located) contained in such revised tariff sheets in 45.8 cents per dt.

By this amendment applicant proposes to increase the proposed transportation rate charged to Kerr to 45.8 cents per dt. Applicant asserts that this proposed increase in rate charged to Kerr for its transportation service would result in Kerr paying the same rate as other shippers for whom Applicant is transporting in Zone 2.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before April 18, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Persons who have heretofore filed need not file again.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP77-48]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Tariff Filing

APRIL 7, 1977.

Take notice that Transcontinental Gas Pipe Line Corporation (Transco) on March 30, 1977, tendered for filing certain revised tariff sheets to its FPC Gas Tariff, Original Volume No. 2.

Transco states that these tariff sheets provide for an increase in the rates

V4271 APR 13 77 UMI

charged for the interruptible transportation service rendered by Transco. The proposed effective date of such increased rates is March 31, 1977. The Company states that copies of the filing have been mailed to each of its customers receiving service under the affected rate schedules, interested parties and state commissions.

Any persons desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 21, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

NBC CORP.

Order Approving Formation of Bank Holding Company

NBC Corp., Jackson, Tennessee has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 100 percent[1] of the voting shares of the successor by merger to The National Bank of Commerce of Jackson ("Jackson Bank"), Jackson, Tennessee and 83.1 percent of the voting shares of The First National Bank of Gibson County ("Humboldt Bank"), Humboldt, Tennessee (hereinafter collectively referred to as "Banks"). The bank into which Jackson Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Jackson Bank. Accordingly, the proposed acquisition of the shares of the successor organization is treated herein as the proposed acquisition of shares of Jackson Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the application and all comments received have been considered in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is a non-operating corporation organized for the purpose of becoming a bank holding company. Jackson Bank and Humboldt Bank have aggregate deposits of $78.3 million, representing 0.6 percent of the total deposits in commercial banks in Tennessee and, upon consummation, Applicant would rank as the eleventh largest of twelve multibank holding companies in the State.[2] Approval of the application would not increase significantly the concentration of banking resources in Tennessee.

Jackson Bank ($66.2 million in deposits as of June 30, 1976) is the second largest of four banks operating in the Madison County banking market and holds approximately 29.1 percent of total market deposits. Humboldt Bank ($14.4 million in deposits as of June 30, 1976) is the fifth largest of thirteen banks in the Gibson County banking market, with 9.7 percent of total market deposits. Neither Jackson Bank nor Humboldt Bank derives substantial amounts of deposits or loans from the other's market area, and, accordingly, no significant competition between Jackson Bank and Humboldt Bank would be eliminated by consummation of the acquisitions. Moreover, potential competition would not be adversely affected by consummation of the acquisitions as neither banking market appears attractive for de novo entry. Accordingly, it is concluded that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant, which are dependent upon those of Banks, are regarded as satisfactory. Although Applicant will incur debt in connection with its acquisition of shares of Humboldt Bank, its income from Banks should provide sufficient revenue to service the debt without impairing the financial condition of either proposed subsidiary bank. In addition to incurring debt, Applicant will fund the subject proposal through a special dividend from Jackson Bank that may equal or exceed Jackson Bank's income for 1977 but, in light of Jackson Bank's capital strength, satisfactory management and future prospects, the dividend should not adversely affect Jackson Bank's overall financial condition.[3] Although the financial and managerial resources and future prospects of Jackson Bank are considered satisfactory, those of Humboldt Bank are not entirely satisfactory at the present time but are expected to show marked improvement as a result of Humboldt Bank's affiliation with Jackson Bank and Applicant. Therefore, considerations relating to banking factors are consistent with approval of the application, and considerations relating to convenience and needs are also regarded as being consistent with approval of the application. It is the Board's judgment that consummation of the proposal to form a bank holding company would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction should not be made (a) before the thirtieth calendar day following the effective date of this Order, or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of St. Louis pursuant to delegated authority.

By order of the Board of Governors,[4] effective April 6, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

NBM CORPORATION

Formation of Bank Holding Company

NBM Corporation, McAlester, Oklahoma, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 percent of the voting shares of The National Bank of McAlester, McAlester, Oklahoma. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than May 9, 1977.

[1] Applicant subsequently will resell qualifying shares to directors of The National Bank of Commerce of Jackson.

[2] All banking data are as of December 31, 1976, unless otherwise noted.

[3] Payment of the special dividend will not be in an amount violative of section 5199 of the Revised Statutes.

[4] Voting for this action: Chairman Burns and Governors Wallich, Coldwell, Jackson, Partee and Lilly. Absent and not voting: Governor Gardner.

Board of Governors of the Federal Reserve System, April 7, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

OMAHA STATE CORP.

Formation of Bank Holding Company

Omaha State Corporation, Omaha, Nebraska, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 per cent, less directors' qualifying shares, of the voting shares of Omaha State Bank, Omaha, Nebraska. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received no later than May 5, 1977.

Board of Governors of the Federal Reserve System, April 6, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

PEOPLES CREDIT CO.

Proposed Retention of Midwest Data Processing

Peoples Credit Co., Kansas City, Missouri, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to retain the assets of Midwest Data Processing (a division of People Credit Co.). Notice of the application was published in newspapers of general circulation in the communities to be served.

Applicant states that retention of Midwest Data Processing would enable Applicant to continue to engage in providing bookkeeping and data processing services for the internal operations of the holding company and its subsidiary banks, performing data processing services for other banks, such as demand deposit, savings, certificates of deposits, installment loans, mortgage loans, commercial loans, payroll and general ledger, and processing financial and related economic data, including performing accounts receivable or payable, inventory, payroll and general ledger for commercial businesses and non-profit organizations. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than May 5, 1977.

Board of Governors of the Federal Reserve System, April 7, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

REPUBLIC OF TEXAS CORPORATION

Acquisition of Bank

Republic of Texas Corporation, Dallas, Texas, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent, less directors' qualifying shares, of the voting shares of successor by merger to Midway National Bank of Grand Prairie, Grand Prairie, Texas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than May 5, 1977.

Board of Governors of the Federal Reserve System, April 7, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[FR Doc.77-10825 Filed 4-12-77;8:45 am]

[Docket No. TCR 76-107(a)]

REPUBLIC OF TEXAS CORPORATION

Prior Certification Under the Bank Holding Company Tax Act of 1976

Republic of Texas Corporation, Dallas, Texas ("Republic") has requested a prior certification pursuant to section 6158(a) of the Internal Revenue Code (the "Code"), as amended by section 3(a) of the Bank Holding Company Tax Act of 1976 (the "Tax Act"), that the proposed sale by The Howard Corporation ("Howard"), a subsidiary of Republic, of the Town & Country Shopping Center, Midland, Texas ("Town & Country") is necessary or appropriate to effectuate section 4 of the Bank Holding Company Act (12 U.S.C. 1843 et seq.) ("BHC Act"). Howard proposes to sell Town & Country to Hotelmattschappij Duin & Daal B.V., a corporation of Holland, for $1,025,000 cash and assumption of the unpaid principal balance owed by Howard on a note dated March 1, 1966, to The Equitable Life Assurance Association of the United States.

In connection with this request, the following information is deemed relevant for purposes of issuing the requested certification:[1]

1. On July 7, 1970, Republic National Bank of Dallas ("Old Republic Bank"), a national banking association, indirectly controlled 29.9 percent of the outstanding voting shares of Oak Cliff Bank and Trust Company, Dallas, Texas ("Oak Cliff Bank").

2. On July 7, 1970, Old Republic Bank indirectly controlled, through Howard, a trusteed affiliate, property the disposition of which would be necessary or appropriate to effectuate § 4 of the BHC Act if Old Republic Bank were to continue to be a bank holding company beyond December 31, 1980, which property is "prohibited property" within the meaning of § 1103(c) of the Code.

3. Old Republic Bank became a bank holding company on December 31, 1970, as a result of the 1970 Amendments to the BHC Act, by virtue of its indirect control at that time of more than 25 per cent of the outstanding voting shares of Oak Cliff Bank, and it registered as such with the Board on September 24, 1971.

4. Republic is a corporation that was organized under the laws of the State of Delaware on July 12, 1972, for the purpose of effecting the reorganization of Old Republic Bank into a subsidiary of Republic.

5. On September 10, 1973, the Board ruled that in the event Republic were to become a bank holding company through the acquisition of the successor by merger to Old Republic Bank, Republic would not be regarded as a "successor" to Old Republic as defined in § 2(e) of the BHC Act for the purposes of § 2(a)(6) of the BHC Act, or as a "company covered in 1970," as that term is defined in the BHC Act, and that Republic was not entitled to the benefit of any grandfather privileges that Old Republic Bank may have possessed pursuant to the proviso in section 4(a)(2) of the BHC Act.

6. By Order dated October 25, 1973, the Board approved Republic's application under section 3(a)(1) of the BHC Act to become a bank holding company

[1] This information derives from Republic's correspondence with the Board concerning its request for this certification, Republic's Registration Statement filed with the Board pursuant to the BHC Act as well as the Registration Statement of Republic National Bank and other records of the Board.

V 42 71 APR 13 77 UMI

through the acquisition of 100 per cent of the voting shares (less directors' qualifying shares) of the successor by merger to Old Republic Bank and the indirect acquisition of control of 29.9 percent of the voting shares of Oak Cliff Bank. Pursuant to the provisions of section 4(a)(2) of the BHC Act, Republic was required by that order to divest itself, within two years from the date as of which it would become a bank holding company, of the impermissible nonbanking interests that would be directly or indirectly controlled by the successor by merger to Old Republic Bank, including such impermissible interests held by Howard.

7. On May 9, 1974, in a transaction described in section 368(a)(1)(A) and section 368(a)(2)(D) of the Code, Old Republic Bank was merged into the present Republic National Bank of Dallas ("New Republic Bank"), a national banking association which was a wholly-owned subsidiary (except for directors' qualifying shares) of Republic. New Republic thereby acquired substantially all of the properties of Old Republic Bank and Republic thereupon became a bank holding company. By virtue of two one-year extensions granted by the Board, Republic presently has until May 9, 1978, to complete the divestitures required by the Board's order of October 25, 1973.

8. As part of the same transaction by which Republic became a bank holding company, in a transaction to which section 351 of the Code applied, Republic acquired beneficial interests in the shares of Howard held by trustees for the benefit of shareholders of New Republic Bank, which shares are shares described in section 2(g)(2) of the BHC Act.

9. Town & Country was acquired by Howard on November 2, 1965, and is a part of the property of Howard in which Republic acquired a beneficial interest pursuant to section 2(g)(2) of the BHC Act.

On the basis of the foregoing information, it is hereby certified that:

(A) Prior to May 9, 1974, Old Republic Bank was a "qualified bank holding corporation," within the meaning of subsection (b) of section 1103 of the Code, and satisfied the requirements of that subsection.

(B) New Republic Bank is a corporation that acquired substantially all of the properties of a qualified bank holding corporation, and as such is treated as a qualified bank holding corporation for the purposes of section 6158 of the Code, pursuant to section 3(d) of the Tax Act.

(C) Republic is a corporation in control (within the meaning of section 2(a)(2) of the BHC Act) of New Republic Bank, and as such is treated as a qualified bank holding corporation for the purposes of section 6158 of the Code, pursuant to section 3(d) of the Tax Act.

(D) Howard is a subsidiary (within the meaning of section 2(d) of the BHC Act) of Republic, and as such is treated as a qualified bank holding corporation for the purposes of section 6158 of the Code, pursuant to section 3(d) of the Tax Act.

(E) Town & Country is "prohibited property" for the purposes of section 6158 of the Code; and

(F) the sale of Town & Country is necessary or appropriate to effectuate section 4 of the BHC Act.

This certification is based upon the representations made to the Board by Republic and upon the facts set forth above. In the event the Board should hereafter determine that facts material to this certification are otherwise than as represented by Republic, or that Republic has failed to disclose to the Board other material facts, it may revoke this certification.

By order of the Board of Governors acting through its General Counsel, pursuant to delegated authority (12 CFR 265.2(b)(3)), effective March 30, 1977.

THEODORE E. ALLISON,
Secretary of the Board.

SECURITY BANCSHARES, INC.

Formation of Bank Holding Company

Security Bancshares, Inc., Shenandoah, Iowa, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 84.39 per cent or more of the voting shares of The Security Trust and Savings Bank, Shenandoah, Iowa. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than May 4, 1977.

Board of Governors of the Federal Reserve System, April 6, 1977.

GENERAL SERVICES ADMINISTRATION

NATIONAL HEALTH RESOURCES ADVISORY COMMITTEE

Meeting

Notice is hereby given, pursuant to the Federal Advisory Committee Act, Public Law 92-463, that the next meeting of the Presidentially-appointed National Health Resources Advisory Committee will be held June 9-10, 1977, at the Kona Kai Club, 1551 Shelter Island Drive, San Diego, California 92106.

The subject of the meeting will be Federal Emergency Health Preparedness Activities. It will be the fourth comprehensive review of the manner in which the Federal departments and agencies are carrying out their assigned responsibilities for emergency health preparedness. Emphasis will be placed on Federal-State-local government cooperation in emergency health preparedness activities. Participants will include officials concerned with health and medical matters at the Federal, State, and local levels as well as representatives of related agencies and associations in the private sector.

Meeting times are from 8:00 a.m. to 4:30 p.m., June 9, and from 9:00 a.m. to 4:30 p.m., June 10, 1977. All sessions are open to the public.

In order to assure adequate seating arrangements, persons planning to attend are asked to notify Frederick J. Haase, Staff Director, Telephone No. 202-566-0517 or 566-0763, as soon as possible.

Dated: April 1, 1977.

LESLIE W. BRAY, Jr.,
Director, Federal Preparedness Agency, General Services Administration.

REGIONAL PUBLIC ADVISORY PANEL ON ARCHITECTURAL AND ENGINEERING SERVICES

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the Regional Public Advisory Panel on Architectural and Engineering Services, Region 8, April 28 and 29, 1977, from 8 a.m. to 4 p.m., GSA Conference Room, Building 41, Denver Federal Center, Denver, Colorado. The meeting will be devoted to the initial step of the procedures for screening and evaluating the qualifications of architect-engineers under consideration for selection to furnish professional services for two proposed one year term fixed price contracts: one for the State of Colorado and one for the State of Utah. The meeting will be open to the public.

Dated: March 30, 1977.

MICHAEL J. NORTON,
Regional Administrator.

ADVISORY COMMITTEES

Open Meetings

Pursuant to Public Law 92–463, notice is hereby given of the meetings of committees advisory to the National Cancer Institute.

These meetings will be entirely open to the public to discuss issues relating to committee business as indicated in the notice. Attendance by the public will be limited to space available. Meetings will be held at the National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014, unless otherwise stated.

Mrs. Marjorie F. Early, Committee Management Officer, NCI, Building 31, Room 4B43, National Institutes of Health, Bethesda, Maryland 20014 (301/496–5708) will furnish summaries of the meetings and rosters of committee members upon request.

Other information pertaining to the meeting can be obtained from the Executive Secretary indicated.

SUBCOMMITTEE ON COST REIMBURSEMENT OF THE CANCER CONTROL AND REHABILITATION ADVISORY COMMITTEE

Date and time: May 2, 1977; 9 a.m.–adjournment.
Place: Landow Building, Room C418, 7910 Woodmont Avenue, Bethesda, Maryland 20014.
Type of meeting: Open for the entire meeting.
Agenda: To consider strategies potentially applicable to supported projects of the Division of Cancer Control and Rehabilitation.
Executive Secretary: Dr. Dorothy R. Brodie, Blair Building, Room 7A07, National Institutes of Health, 301–427–7945.

SUBCOMMITTEE ON PREVENTION OF THE CANCER CONTROL AND REHABILITATION ADVISORY COMMITTEE

Date and time: May 2, 1977; 2 p.m.–adjournment.
Place: Landow Building, Room C418, 7910 Woodmont Avenue, Bethesda, Maryland 20014.
Type of meeting: Open for the entire meeting.
Agenda: To consider those interventions which staff might employ to lower the incidence of cancer through prevention.
Executive Secretary: Dr. Dorothy R. Brodie, Blair Building, Room 7A07, National Institutes of Health, 301–427–7945.

SUBCOMMITTEE ON COMMUNITY ACTIVITIES OF THE CANCER CONTROL AND REHABILITATION ADVISORY COMMITTEE

Dates and time: May 2, 1977; 7 p.m.–adjournment.
Place: Holiday Inn, Board Room No. 6, 8120 Wisconsin Avenue, Bethesda, Maryland 20014.
Type of meeting: Open for the entire meeting.
Agenda: To consider strategies for the Division of Cancer Control and Rehabilitation coordination and integration of current control efforts into more effective community-based cancer control.
Executive Secretary: Dr. Dorothy R. Brodie, Blair Building, Room 7A07, National Institutes of Health, 301–427–7945.

CANCER CONTROL AND REHABILITATION ADVISORY COMMITTEE

Dates and time: May 3–4, 1977; 9 a.m.
Place: Building 31C, Conference Room 7, National Institutes of Health.
Type of meeting: Open for thhe entire meeting.
Agenda: To discuss current and projected programs of the Division of Cancer Control and Rehabilitation.
Executive Secretary: Dr. Veronica L. Conley, Blair Building, Room 7A07, National Institutes of Health, 301–427–7941.

NATIONAL CANCER ADVISORY BOARD SUBCOMMITTEE ON BUDGET AND PLANNING

Date and time: May 23, 1977; 7:30 p.m.–adjournment.
Place: Building 31A, Conference Room 11A10, National Institutes of Health.
Type of meeting: Open for the entire meeting.
Agenda: To review the preliminary estimates for the NCI budget for fiscal year 1979 and the budget projections for 1980 to 1983; and to review the draft of the NCI Annual Plan for the first year period 1979–1983.
Executive Secretary: Mr. Louis M. Carrese, Building 31, Room 11A49, National Institutes of Health, 301–496–4445.

DATA EVALUATION SUBGROUP OF THE CLEARINGHOUSE ON ENVIRONMENTAL CARCINOGENS

Date and time: May 31, 1977; 8:30 a.m.–adjournment.
Place: Building 31C, Conference Room 6, National Institutes of Health.
Type of meeting: Open for the entire meeting.
Agenda: To consider criteria and procedures to be used in the evaluation of bioassay data and available bioassay data.
Executive Secretary: Dr. James M. Sontag, Building 31, Room 3A16, National Institutes of Health, 301–496–5108.

Dated: March 31, 1977.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

CONSULTING GROUP ON WELFARE REFORM

Meeting

Notice is hereby given that the Consulting Group on Welfare Reform will meet from 9:00 a.m. to 11:00 a.m. on April 15, 1977, in the first floor auditorium, HEW North Building, 330 Independence Avenue, SW., Washington, D.C. The Group will review and discuss leading welfare reform options.

This meeting has been called on short notice due to the unexpected lateness of cost and caseload estimate figures for welfare reform opinions, the need for Group members to review and discuss this information before concluding their work, and the extremely tight deadlines which the President has established for receipt of the Department's report and recommendations.

Further information about this meeting or the work of the Group may be obtained by writing to: Mr. Bob Heim, Executive Director, Room 410–E South Portal Building, 200 Independence Avenue, SW., Washington, D.C. 20201.

Dated: April 11, 1977.

BOB HEIM,
Executive Director.

Amendment to Reorganization Order

The Reorganization Order, 42 FR 13262 (March 9, 1977), is amended as follows:

1. Part I, Paragraph E is amended by substituting "Employee Systems Center" for the two organizational units of the Office of Personnel and Training listed in subparagraph 2.

2. Part III is amended by adding thereto the following paragraph:

"5. The delegations of authority by the Secretary to the Regional Directors with respect to Long Term Care Standards Enforcement in Medicare and Medicaid and any redelegations thereunder continue in effect."

3. This Amendment to the Reoganization Order is effective immediately.

Dated: April 8, 1977.

JOSEPH A. CALIFANO, Jr.,
Secretary.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Consumer Affairs and Regulatory Functions

[Docket N–77–748]

REAL ESTATE SETTLEMENT PROCEDURES ACT

Special Information Booklet

This notice is issued to conform the Special Information Booklet prepared by HUD pursuant to the Real Estate Settlement Procedures Act of 1974 (RESPA), 12 U.S.C. 2601, et seq., with recent amendments to Regulation B adopted by the Board of Governors of the Federal Reserve in implementing the Equal Credit Opportunity Act (ECOA).

The original regulations issued by the Board and effective June 30, 1976, required that all creditors provide credit applicants, at the time of application, with a notice detailing the protection of ECOA and the agency which administers the creditor's compliance with the Act's provisions. HUD incorporated this requirement in its regulations under RESPA (June 4, 1976, 41 FR 22702), which also went into effect on June 30, 1976, and included in the Special Information Booklet an alternative vehicle for the delivery of the ECOA notice. Recent amendments to Regulation B, effective April 13, 1977, however, alter the notice delivery requirement; 12 CFR 202.9 requires that the ECOA notice need only be provided when a creditor takes adverse action regarding an application for credit.

It is the purpose of this notice, therefore, to revise the text of the Special Information Booklet to accurately reflect current ECOA coverage and procedures. The RESPA regulatory requirement dealing with ECOA (24 CFR 3500.6(a)) is amended by a rule published this date, April 13, 1977.

Because of the relatively minor nature of the ECOA references in the Booklet, the Department has determined that revision of the text of the booklet should not be made mandatory at this time. However, the booklet should be revised in accordance with this notice at the lender's (printer's) next reprinting. All booklets printed in accordance with the text as published on June 10, 1976, may continue to be used in complying with the requirements of RESPA, 24 CFR 3500.6, without change although obsolete material may be struck from existing supplies in accordance with this notice. The textual revisions outlined below will be incorporated into the required version mandated by this Department. It is HUD's policy to provide notice of a proposed required amendment of the booklet substantially in advance of the effective date of such amendment.

After April 13, 1977, the following alterations may be made in the text of the Special Information Booklet as it appeared on June 10, 1976, at 41 FR 23620:

1. At the end of the general heading, "Protection Against Unfair Practices", (See 41 FR 23635, after line 37) add the following:

* * * * *

Equal Credit Opportunity. The Equal Credit Opportunity Act prohibits lenders from discriminating against credit applicants on the basis of race, color, religion, national origin, sex, marital status, age (provided that the applicant has the capacity to enter into a binding contract), because all or part of the applicant's income derives from any public assistance program, or because the applicant has in good faith exercised any right under the Consumer Credit Protection Act. If you feel you have been discriminated against by any lender, you may have a private right of legal action against that lender and you may wish to consult an attorney; or you may wish to consult the Federal agency that administers compliance with this law concerning the lender you suspect has violated your rights thereunder. Inquire of the lender regarding the identity of that agency. You may also contact your regional Federal Reserve Bank about your rights under this Act.

* * * * *

2. Under the general heading, "The Right to File Complaints", the fourth and fifth sentence of the third paragraph should be deleted (see 41 FR 23636, lines 18, 19, and 20) and the amended paragraph should read as follows:

* * * * *

V 42 71 APR 13 77 UMI

Most settlement service providers, particularly lenders, are supervised by some governmental agency at the local, state and/or Federal level. Others are subject to the control of self-policing associations. If you feel a provider of settlement services has violated RESPA, you can address your complaint to the agency or association which has supervisory responsibility over that provider. For the names of such agencies or associations you will have to check with local and State governments or consumer agencies operating in your area. You are also encouraged to forward a copy of complaints regarding RESPA violations to the HUD Office of Consumer Affairs and Regulatory Functions, which has the primary responsibility for administering the RESPA program. Your complaints can lay the foundation for future legislative or administrative actions.

• • • • •

3. On the final page, after Appendix A, (see 41 FR 23661, after line 25) delete the center caption and paragraph dealing with the "Equal Credit Opportunity Notice."

Issued at Washington, D.C. on April 5, 1977.

RANDOLPH S. KINDER,
Acting Assistant Secretary for Consumer Affairs and Regulatory Functions.

Office of the Secretary

[Docket No. N-77-506]

PRIVACY ACT OF 1974

Adoption of New Notice of Systems of Records

In accordance with the Privacy Act of 1974 (Pub. L. 93-579), the Department of Housing and Urban Development (hereinafter referred to as "the Department") adopts a new System of Records.

On November 30, 1976, the Department published in the FEDERAL REGISTER at 41 FR 52545 a Notice of System of Records for a proposed system, entitled Urban Homesteading Evaluation Data, that will be maintained by the Department. Interested persons were given the opportunity to comment on the proposed Notice of System of Records on or before December 30, 1976. No comments were received.

The Routine Uses paragraphs of prefatory statement noted in the Systems description refer to the General Statement of Routine Uses appearing at 40 FR 47435, October 8, 1975, as amended at 41 FR 16850, April 22, 1976.

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 was made for the earlier publication of the proposed Notice of the System of Records in accordance with HUD Handbook 1390.1. A copy of this Finding of Inapplicability is available for public inspection during the regular business hours at the Office of the Rules Docket Clerk, Office of the Secretary, Room 10141, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C.

It is hereby certified that the economic and inflationary impacts of the System of Records Notice have been carefully evaluated in accordance with OMB Circular A-107.

Therefore, the Department adopts the following Privacy Act System of Records, reprinting it in its entirety.

HUD/PD&R-1

System name:

Urban Homesteading Evaluation Data.

System location:

Cambridge, Massachusetts.

Categories of individuals covered by the system:

Urban homesteaders, other residents of Urban Homesteading Demonstration (UHD) target neighborhoods, and unsuccessful applicants for UHD properties.

Categories of records in the system:

Demographic, socio-economic, housing characteristics, and housing costs.

Routine uses of records maintained in the system, including categories of users and the purpose of such uses:

See Routine Uses paragraphs of prefatory statement. Other routine uses: none.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Survey questionnaires stored in file folders; punch cards, magnetic tape/disc/drum stored in facilities with limited access.

Retrievability:

Code number; address.

Safeguards:

File folders stored in locked cabinets; machine-readable files stored in secured areas and technical restraints are employed with regard to accessing the computer and machine-readable files. All material accessible only by authorized personnel.

Retention and disposal:

Quentionnaires are retained for about one month to permit conversion of data into machine-readable format; machine-readable records will be disposed of in approximately three years, early 1980.

System manager and address:

Director, Office of Organization and Management Information, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Notification procedure:

For inquiry about existence of records, contact the Privacy Act Officer at the Headquarters location, in accordance with procedures in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the Headquarters location.

Record access procedures:

The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Contesting record procedures:

The Department's rules for contesting the contents of records and appealing initial denials by the individual concerned appear in 24 CFR Part 16. If additional information or assistance is needed, in relation to contesting contents of records or in relation to appeals of initial denials, it may be obtained by contacting the Departmental Privacy Appeals Officer, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Record source categories:

Urban homesteaders, other residents of UHD target neighborhoods, and unsuccessful applicants for UHD properties.

Effective date: This Notice of System of Records shall be effective May 13, 1977.

Issued at Washington, D.C., on April 6, 1977.

PATRICIA ROBERTS HARRIS,
Secretary of Housing and Urban Development.

[FR Doc.77-10761 Filed 4-12-77;8:45 am]

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CA 2376]

MOUNT DIABLO MERIDIAN

Proposed Withdrawal and Reservation of Lands

APRIL 4, 1977.

The Corps of Engineers, Department of the Army, on October 7, 1974, filed application Serial No. CA 2376 for withdrawal of the following described lands from settlement, sale, location, or entry under all of the general land laws, including the mining laws and the mineral leasing laws, subject to valid existing rights:

MOUNT DIABLO MERIDIAN

T. 13 N., R. 10 W.,
Sec. 3, W½SW¼NW¼SW¼;
Sec. 4, E½E½NE¼NW¼, E½E½SW¼NW¼, SE¼NW¼, NE¼NE¼NW¼SW¼, NE¼NE¼SW¼, N½NW¼NE¼SW¼, SE¼NE¼SW¼, W½NE¼, W½NE¼NE¼, S½SE¼NE¼NE¼, NW¼SE¼, and E½E½SW¼SE¼;
Sec. 9, NE¼NE¼NW¼NE¼.

T. 14 N., R. 10 W.,
Sec. 7, W½SW¼ Lot 2, W½, W½NE¼, SE¼ Lot 3, and Lot 4;
Sec. 8, SW¼SW¼SW¼, W½NW¼SW¼SW¼, and W½SW¼NW¼SW¼;
Sec. 17, W½NW¼NW¼, W½E½NW¼NW¼, SW¼NW¼, SW¼SE¼NW¼, NE¼SW¼, E½NW¼SW¼, NW¼NW¼SW¼, E½SE¼SW¼, NW¼SE¼SW¼, S½SE¼, SW¼NW¼SE¼, SE¼NE¼SE¼, and E½SW¼NE¼SE¼;
Sec. 18, E½ and E½NW¼ Lot 1, and E½ Lot 2;
Sec. 20, E½NW¼NE¼, NW¼NW¼NE¼, and E½E½SE¼;
Sec. 21, NW¼NW¼;
Sec. 29, E½NE¼NE¼, E½E½SE¼NE¼, NW¼NE¼SE¼NE¼, and E½E½NE¼SE¼;
Sec. 32, S½SE¼NE¼NE¼, E½SE¼NE¼, SW¼SE¼NE¼, S½NW¼SE¼NE¼, S½S½SW¼NE¼, S½SE¼NW¼, N½NE¼SW¼, N½NW¼SE¼, NW¼NE¼SE¼, and N½NE¼NE¼SE¼;
Sec. 33, W½NW¼SE¼, SE¼NW¼SE¼, S½NE¼SE¼, N½SE¼SE¼, SW¼SE¼SE¼, N½SE¼SE¼, N½SW¼SE¼, SE¼SW¼SE¼, E½SW¼SW¼SE¼, and NE¼SE¼SW¼;
Sec. 34, SW¼NW¼SW¼ and NW¼SW¼SW¼.
T. 14 N., R. 11 W.,
Sec. 12, SW Lot 3, W½ and W½E½ Lot 4, SE¼NW¼SE¼, and NE¼SW¼SE¼;
Sec. 13, E½, NW¼ and E½SW¼ Lot 1, and E½NE¼ Lot 2.

The total acreage is 1,220.18 acres in Lake County, California.

The Corps of Engineers desires these lands for the purpose of construction of a multiple-purpose dam and reservoir at the Lakeport site on Scotts Creek for flood control, municipal water supply, irrigation, recreation, and fish and wildlife, and downstream levee and channel improvements for flood control.

On or before May 13, 1977, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management.

Pursuant to section 204(h) of the Federal Land Policy and Management Act of 1976, notice is hereby given that an opportunity for a public hearing is afforded in connection with the proposed withdrawal. All interested persons who desire to be heard on the proposed withdrawal must submit a written request for a hearing to the State Director, Bureau of Land Management, Room E-2841 Federal Office Building, 2800 Cottage Way, Sacramento, California 95825, on or before May 16, 1977. Notice of the public hearing will be published in the FEDERAL REGISTER giving the time and place of such hearing. The public hearing will be scheduled and conducted in accordance with BLM Manual, Sec. 2351.16B.

The Department of the Interior's regulations provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demands for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of assuring that the area sought is the minimum essential to meet the applicant's needs, providing for the maximum concurrent utilization of the lands for purposes other than the applicant's, and reaching agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior, who will determine whether or not the lands will be withdrawn and reserved as requested by the applicant agency. The determination of the Secretary on the application will be published in the FEDERAL REGISTER. The Secretary's determination shall, in a proper case, be subject to the provisions of section 204(c) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2752. The above described lands are temporarily segregated from the operation of the public land laws, including the mining laws and the mineral leasing laws, to the extent that the withdrawal applied for, if and when effected, would prevent any form of disposal or appropriation under such laws. Current administrative jurisdiction over the segregated lands will not be affected by the temporary segregation. The segregative effect of this proposed withdrawal shall terminate on October 20, 1991, unless sooner terminated by action of the Secretary of the Interior.

All communications (except for public hearing requests) in connection with this proposed withdrawal should be addressed to the undersigned officer of the Bureau of Land Management, Department of the Interior, Room E-2841 Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

VIOLA A. ANDRADE,
Acting Chief, Lands Section, Branch of Lands and Minerals Operations.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. 76-28]

RAYMOND G. MARINOFF, M.D.

Revocation of Registration

On June 15, 1976, the Administrator of the Drug Enforcement Administration (DEA) directed to Raymond G. Marinoff, M.D. (Respondent), of Oakland, California, an Order to Show Cause proposing to revoke Dr. Marinoff's DEA Certificate of Registration (AM1332080) for reason that on May 13, 1976, in the United States District Court for the Northern District of California, Dr. Marinoff was convicted of the unlawful distribution of a controlled substance in violation of 21 U.S.C. 841(a)(1), a felony. Concurrent with the issuance of the Order to Show Cause, the Administrator notified the Respondent of the immediate suspension of his registration pursuant to 21 U.S.C. 824(d), pending final determination of these proceedings.

On July 13, 1976, the Respondent, through counsel, requested a hearing on the Order to Show Cause. Following the completion of prehearing procedures, a hearing in this matter was held on December 7 and 8, 1976, in San Francisco, California, Administrative Law Judge Francis L. Young, presiding. On March 25, 1977, Judge Young certified to the Administrator the record of these proceedings, including his findings of fact, conclusions of law, and a recommended decision or ruling. Now, after a careful review of the entire record, and pursuant to 21 CFR 1316.66, the Administrator publishes his Final Order in this matter, based upon findings of fact and conclusions of law as set forth below.

The Administrative Law Judge found, inter alia, that the DEA and the California Diversion Investigative Unit (DIU) had become aware that the Respondent was ordering very large and excessive amounts of Schedule II controlled substances. In one three month period, the Respondent, an individual practitioner, had ordered over 110,000 dosage units of sodium secobarbital, an amount in excess of the quantity large hospitals are known to order over a similar period of time. Surveillance of the Respondent's office failed to show patient traffic which might have justified the quantities of controlled substances ordered. Hence, an undercover investigation of the Respondent's activities was begun by the California DIU. The DIU agent introduced himself to the Respondent as a massage parlor operator. Subsequently, the agent informed the Respondent that his "girls" could sell the barbiturate capsules to their customers for a dollar apiece. Dr. Marinoff began to sell sodium secobarbital to the agent for a mutually agreed price of fifty cents per capsule, with knowledge that his purported "patient" had no legitimate medical need for the drugs and that the controlled substances he sold to the agent were to be resold by the massage parlor employees.

Thereafter, on three occasions, January 9, 12 and 16, 1976, the Respondent sold the undercover agent 3,080 dosage units of sodium secobarbital for a total of $1,540.00. On January 27, 1976, the agent obtained from the Respondent 10,000 dosage units of sodium secobarbital and 4,000 dosage units of amphetamine. The Respondent was in the process of delivering an additional 10,000 dosage units of sodium secobarbital when other agents entered and he was arrested. The agreed price for the total of 24,000 dosage units of Schedule II controlled substances was $12,000.00. Subsequent to the Respondent's arrest, the DEA conducted an accountability audit of his controlled substances. The audit revealed that during the period, January 1, 1975 through January 27, 1976, Dr. Marinoff had actually received at least 768,000 dosage units of sodium secobarbital; an additional 65,000 dosage units of pentobarbital (Schedule II); and over 100,000 dosage units of dextroamphetamine (Schedule II). The audit further revealed that the Respondent had on hand at the time of his arrest approximately 168,300 dosage units of sodium seco-

V4271APR137 UMI

barbital and 21,450 dosage units of dextroamphetamine. Hence, Dr. Marinoff had dispensed, or otherwise disposed of, approximately 600,000 dosage units of secobarbital in less than thirteen months. A Federal Grand Jury indicted Dr. Marinoff for his sales of controlled substances to the undercover agent on January 12, 16 and 27, 1976, and with possessing with intent to distribute the secobarbital and dextroamphetamine he had in his possession at the time of his arrest. On May 13, 1976, upon his plea of Guilty to Count One of the six count indictment, Dr. Marinoff was convicted of distribution of controlled substances in violation of 21 U.S.C. 841(a)(1).

The Respondent testified at the hearing that he had never sold controlled substances other than to the undercover agent at the latter's suggestion. He further testified that he began to stockpile controlled substances because he had a large accident victim practice and because he dispensed boxes of 40 Seconal (sodium secobarbital) to between 35 and 40 of the 100 to 120 patients he saw each working day. With respect to Respondent's ordering and dispensing of controlled substances, the Administrative Law Judge found that "there is no direct evidence that Respondent was prepared to sell, or had sold, controlled substances unlawfully to anyone other than (the agent). The enormous quantities of drugs which Respondent had obtained gives rise to the strong probability that he did so. Even if we accept the general thrust of Respondent's testimony with respect to the drugs he dispensed to accident patients, the totals still leave a large quantity unaccounted for * * * The point is, even accepting at face value all of Respondent's testimony concerning the size of his accident patient practice, and his prescribing of controlled substances for those patients, he could still have been selling significantly large quantities of controlled substances unlawfully. Respondent's own figures leave approximately 100,000 dosage units of Schedule II controlled substances unaccounted for by and any theory he has advanced."

The Administrative Law Judge concluded that there is a lawful basis for the revocation of Respondent's DEA registration pursuant to 21 U.S.C. 824(a)(2); that the Administrator should revoke this registration; and that revocation is necessary and appropriate in the light of all the facts and circumstances in this case.

The Administrator hereby fully accepts and adopts the findings of fact, conclusions of law and recommended decision of the Administrative Law Judge.

Therefore, having reviewed the record of this proceeding in its entirety, and having concluded that the subject registration should be revoked for reason that the Respondent has been convicted of a felony relating to the distribution of controlled substances, it is the Administrator's decision that said registration be revoked pursuant to 21 U.S.C. 824(a)(2). Furthermore, in consideration of all of the facts and circumstances in this case, including the findings which necessitated the imposition of the immediate suspension in the public interest, and pursuant to the provisions of 21 CFR 1316.66, it is the Administrator's decision that such revocation will be effective immediately upon publication of this Final Order.

Accordingly, pursuant to the Authority vested in the Attorney General, and redelegated to the Administrator of the Drug Enforcement Administration, the Administrator hereby orders that the DEA Certificate of Registration, AM-1332080, previously issued to Raymond G. Marinoff, M.D., be and it hereby is, revoked, effective immediately.

Dated: April 7, 1977.

PETER B. BENSINGER,
Administrator,
Drug Enforcement Administration.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on April 7, 1977 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202-395-4529), or from the reviewer listed.

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 9715; 812-4059]

CG MUNICIPAL BOND FUND, INC.

Filing of Application for Order of Exemption

APRIL 7, 1977.

In the matter of CG Municipal Bond Fund, Inc., Connecticut General Life Insurance Company, CG Equity Sales Company, Hartford, Connecticut 06152 (812-4059).

Notice is hereby given that CG Municipal Bond Fund, Inc. ("Fund"), an open-end, diversified management investment company registered under the Investment Company Act of 1940 ("Act"), Connecticut General Life Insurance Company ("CG Life"), and CG Equity Sales Company ("Equity Sales") (collectively referred to as "Applicants"), have filed an application pursuant to Section 6(c) of the Act for an order exempting Applicants from the provisions of Section 22(d) of the Act to permit the purchase of shares of the Fund at a reduced sales charge when such purchases are from proceeds of insurance contracts issued by CG Life. All interested persons are referred to the application on file with the Commission for a statement of the facts and representations therein, which are summarized below.

Equity Sales is the principal underwriter of the shares of the Fund. All of the issued and outstanding shares of Equity Sales are owned by CG Investment Management Company, the investment adviser of the Fund, CG Fund, CG Income Fund and CG Money Market Fund. CG Investment Management Company is a wholly-owned subsidiary of Connecticut General Insurance Corporation, the parent corporation of CG Life. CG Life is a stock insurance company licensed to write life insurance, annuities, and accident and health insurance in all fifty states, the District of Columbia, Puerto Rico and certain Canadian provinces.

At the time of filing the application, registration statements on Form S-5 of the Securities Act of 1933 and Form N-8B-1 of the Investment Company Act of 1940 were pending before the Commission. Applicants propose to offer shares of the Fund to the public at a price based upon net asset value plus a sales charge that varies, with the quantity of securities purchased. The sales charge, expressed as a percentage of the public offering price, will range from 7.50 percent on sales of $10,000 or less to 1 percent of $1,000,000 or more. Applicants further propose to offer to the insureds of CG Life and their beneficiaries the right to apply their insurance proceeds to the purchase of shares of the Fund at a reduced sales charge ranging from 5.25 percent on sales of $10,000 or less down to .70 percent of $1,000,000 or more. Applicants have defined insurance proceeds as the death benefit under life policies, the maturity value of endowment contracts, the cash value of fixed-dollar life insurance and annuity contracts, and lump sum cash options available to beneficiaries.

Section 22(d) of the Act provides, in part, that no registered investment company shall sell any redeemable security issued by it to any person except either to or through a principal underwriter for distribution or at a current public offering price described in the prospectus, and, if such class of security is being currently offered to the public by or through an underwriter, no principal underwriter of such security and no dealer shall sell any such security to any person except a dealer, a principal underwriter, or the issuer, except at a current public offering price described in the prospectus.

Applicants state that the insurance contracts will already have been subjected to sales charges and that the requested exemption will avoid an unnecessary accumulation of such charges. Applicants further state that an exemptive order for the Fund will be the same as exemptive orders which have already been granted to CG Fund, CG Income Fund, and CG Money Market Fund and will thereby establish an equitable balance in the rights and privileges among shareholders of the four funds. Finally, Applicants contend that Section 22(d) was not intended to prevent any differences in the sales charge relating to redeemable securities of investment companies, and the reduction in the sales charge under the circumstances described does not create unfair price discrimination.

Section 6(c) of the Act provides, in part, that the Commission may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities or transactions, from any provision or provisions of the Act or any rule or regulation thereunder, if and to the extent that such exemption is necessary to appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than May 2, 1977, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[File No. 500-1]

ORMONT DRUG & CHEMICAL CO., INC.

Suspension of Trading

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the securities of Ormont Drug & Chemical Co., Inc. being traded on a national securities exchange or otherwise is required in the public interest and for the protection of investors;

Therefore, pursuant to section 12(k) of the Securities Exchange Act of 1934, trading in such securities on a national securities exchange or otherwise is suspended, for the period from 11:45 a.m. (Est) on April 5, 1977 through April 14, 1977.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

UNITED STATES ADVISORY COMMISSION ON INTERNATIONAL EDUCATIONAL AND CULTURAL AFFAIRS

Revised Agenda for Meeting

The FEDERAL REGISTER of April 1, 1977 (42 FR 17556), noted that at its meeting on April 25, 1977, at 2:00 p.m., the Advisory Commission would examine "a proposal for the establishment of a currency convertibility program to encourage the sale abroad of American cultural materials."

The Commission has been forced to eliminate this item from the agenda of the meeting because the proposal referred to will not have been prepared by April 25.

In its place, the Commission will discuss the report it will make on its meeting with Canadian officials, in Ottawa, on February 18, 1977.

Dated: April 6, 1977.

W. E. WELD, Jr.,
Staff Director.

[FR Doc.77-10784 Filed 4-12-77;8:45 am]

DEPARTMENT OF THE TREASURY

Customs Service

CHAINS AND PARTS THEREOF, OF CAST IRON, IRON OR STEEL FROM ITALY

Preliminary Countervailing Duty Determination

AGENCY: United States Customs Service.

ACTION: Preliminary Countervailing Duty Determination.

SUMMARY: This notice is to inform the public that a preliminary determination that the Government of Italy has given benefits which are considered to be bounties or grants under the countervailing duty statute (19 U.S.C. 1303), on the manufacture, production, or exportation of chains and parts thereof, of cast iron, iron or steel. A final determination will be made by October 1, 1977. Interested persons are invited to comment on this action not later than May 13, 1977.

EFFECTIVE DATE: This notice will be effective on April 13, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. John R. Kugelman, Duty Assessment Division, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229, 202-566-5492.

On November 8, 1976, a "Notice of Receipt of Countervailing Duty Petition and Initiation of Investigation" was published in the FEDERAL REGISTER (41 FR 49209). The notice stated that a petition had been received alleging that payments or bestowals conferred by the Government of Italy upon the manufacture, production or exportation of chains and parts thereof, of cast iron, iron or steel, including terminal and connecting links, hooks, rollers, pivots and plates, constitute the payment of a bounty or grant within the meaning of section 303 of the Tariff Act of 1930, as amended (19 U.S.C. 1303) (referred to in this notice as "the Act").

On the basis of an investigation conducted pursuant to section 159.47(c) Customs Regulations, it has been determined preliminarily that benefits have been paid or bestowed, directly or indirectly, by reason of certain tax rebates under Italian Law 639. The program involves the rebate of both basic rate and specific incidence taxes to manufacturers and exporters of certain steel products, including the subject chain. The basic rate taxes which are rebated include Customs duties and border fees related to importations of plant and equipment, various stamp taxes, mortgage taxes, publicity taxes, surtaxes, taxes on governmental licenses and prints, and registration taxes. The specific incidence taxes which are rebated include Customs duties paid on imported raw materials, and manufacturing and excise taxes.

Certain portions of the Italian Law 639 rebates, which are the subject of this investigation, have been determined in previous proceedings under the Act to constitute bounties or grants within the meaning of the Act.

Accordingly, it has been determined preliminarily that imports of chains and parts thereof, of cast iron, iron or steel, including terminal and connecting links, hooks, rollers, pivots and plates, from Italy benefit from the payment or bestowal of a bounty or grant, directly or indirectly, within the meaning of the Act by reason of certain benefits conferred under the tax rebate program mentioned above. A final decision in this case is required on or before October 1, 1977.

Before a final determination is made, consideration will be given to any relevant data, views or arguments submitted in writing with respect to this preliminary determination. Submissions should be addressed to the Commissioner of Customs, 1301 Constitution Avenue, NW., Washington, D.C. 20229, in time to be received by his office not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

This preliminary determination is published pursuant to section 303(a) of the Tariff Act of 1930, as amended (19 U.S.C. 1303(a)).

VERNON D. ACREE,
Commissioner of Customs.

Approved:

JOHN H. HARPER,
Assistant Secretary of the Treasury.

[FR Doc.77-10815 Filed 4-12-77;8:45 am]

Internal Revenue Service

[Delegation Order No. 162]

COMMISSIONER OF INTERNAL REVENUE

Delegation of Authority

AGENCY: Internal Revenue Service, Treasury.

ACTION: Delegation of authority.

SUMMARY: The specific authorization for the Commissioner of Internal Revenue to allow persons to practice before the Service is being redelegated to the Director, Audit Division, National Office. The text of the delegation order appears below.

EFFECTIVE DATE: April 8, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. L. Odum, CP:A:S:C, 1111 Constitution Ave., NW., Room 2328, Washington, D.C. 20224, 202-566-4409 (not toll free).

Issued: April 8, 1977.

JOHN L. WEDICK, Jr.,
Director, Audit Division.

Subject: Authority to Practice before the Internal Revenue Service.

1. All the authorities granted to the Commissioner of Internal Revenue by Treasury Department Circular No. 230 are hereby delegated to the Director, Audit Division. Included in this delegation is the authority to affix a facsimile of the signature of the Commissioner of Internal Revenue to Enrollment Cards issued to qualified persons.

2. This authority may be redelegated but only to the Enrollment and Practice Program Coordinator in the Audit Division, National Office.

WILLIAM E. WILLIAMS,
Acting Commissioner.

UNITED STATES INFORMATION AGENCY

U.S. ADVISORY COMMISSION ON INFORMATION

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting to be held on April 27, 1977. The purpose of the meeting is to review and edit the final draft of the Commission's Report to Congress. The meeting will convene at 9 a.m. in the Commission's office in Room 1008 at 1750 Pennsylvania Avenue NW., Washington, D.C., and then break for lunch at 12:30 p.m. If the task is not completed in the morning, the Commission will reconvene at 2:30 p.m. and conclude by 5 p.m.

MARGARET J. MILLER,
Federal Register Liaison Officer.

APRIL 6, 1977.

VETERANS ADMINISTRATION

PRIVACY ACT OF 1974

Notice of Systems of Records

On page 10923 of the FEDERAL REGISTER of February 24, 1977, there was published a notice that the Veterans Administration was proposing the establishment of a new system of records entitled "Employee ADP Training Records—VA" (59VA31).

Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed new system. No comments were received. The proposed new system "Employee ADP Training Records — VA" (59VA31) is adopted without change.

Effective date: This system of records is effective April 6, 1977 the date of final approval by the Administrator of Veterans Affairs.

Approved: April 6, 1977.

By direction of the Administrator.

RUFUS H. WILSON,
Deputy Administrator

59VA31

System name:

Employee ADP Training Records—VA.

System location:

Records are maintained at the Department of Data Management, Central Office, Veterans Administration and the VA data processing centers. Address locations are listed in VA Appendix 1, "Address of Veterans Administration Facilities" published September 7, 1976 (41 FR 37718).

Categories of individuals covered by the system:

Personnel currently employed at Veterans Administration Central Office and VA data processing centers who participate in ADP training.

Categories of records in the system:

Records that insure the proper reporting of completed employee ADP training to the employee personnel folder. Records such as enrollment lists, examinations, and instructor evaluations of students that are created in the administration of in-house training programs. Records created in the administration of ADP proficiency evaluations used to determine training needs.

Authority for maintenance of the system:

Title 5, United States Code, Section 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

1. In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

2. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

3. A record from this system of records may be disclosed as a "routine use" to a Federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

4. A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper documents.

Retrievability:

By course name, date, or employee name.

Safeguards:

Physical Security: Maintained under lock and key in file cabinets or desk drawers. Access to files is restricted to authorized training personnel.

Retention and disposal:

Records are maintained and destroyed in accordance with approved VA records control schedules.

System manager(s) and address:

Chief, Training and Standards Division, Department of Data Management, Veterans Administration Central Office, Washington, D.C. 20420.

Notification procedure:

A VA Central Office employee seeking information on records related to ADP training or proficiency evaluation results may make inquiry at the office of the Chief, ADP Training and Standard Division, Department of Data Management. A VA data processing center employee seeking information on records related to ADP training or proficiency evaluation results may make inquiry through the station training coordinator or authorized training personnel.

Record access procedures:

A VA Central Office employee may contact the office of the Chief, Training and Standards Division, Department of Data Management. A VA data processing center employee may contact the station training coordinator or authorized training personnel.

Contesting record procedures:

(See Record Access Procedures above.)

Record source categories:

From the enrollment of an employee in an ADP training course or from the participation of an employee in an ADP proficiency evaluation.

INTERSTATE COMMERCE COMMISSION

[Notice No. 366]

ASSIGNMENT OF HEARINGS

APRIL 8, 1977.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 115654 Sub 56, Tennessee Cartage Co., Inc. now assigned April 18, 1977 at Memphis, Tennessee is cancelled, application dismissed.

I & SM 29415, Increased Rates on Household Goods, Seattle, Wash., and Alaska, now being assigned May 17, 1977, at the Office of the Interstate Commerce Commission, Washington, D.C.

No. 36526, Colorado Intrastate Freight Rates and Charges—1977 hearing now being assigned July 6, 1977 (3 days), at Denver, Colo., in a hearing room to be later designated.

MC 121775 Sub 2, Milton B. Anderson and Melvin K. Anderson, dba Overland Express now being assigned June 13, 1977 (2 weeks) at Reno, Nevada in a hearing room to be later designated.

MC 135078 Sub 11, American Transport, Inc. now being assigned June 9, 1977 (2 days) at San Francisco, California in a hearing room to be later designated.

MC 141431 Sub 2, Cal-Valley Transportation, Inc. now being assigned June 8, 1977 (1 day) at San Francisco, California in a hearing room to be later designated.

MC 139923 Sub 24, Miller Trucking Co., Inc. now being assigned June 7, 1977 (1 day) at San Francisco, California in a hearing room to be later designated.

MC 114737 (Sub-No. 7), O & A Tex-Pack Express, Inc., now being assigned for continued hearing on May 25, 1977 (3 days), at the Ramada Inn (Formerly Centro Del Paso) 325 North Kansas Street, El Paso, Texas.

ROBERT L. OSWALD,
Secretary.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY—ELIMINATION OF GATEWAY LETTER NOTICES

APRIL 8, 1977.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before April 22, 1977. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 107064 (Sub-No. E141) (correction), filed May 21, 1974, published in the FEDERAL REGISTER issue of September 18, 1975, and republished, as corrected, this issue. Applicant: STEERE TANK LINES INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer* (except petroleum products and potash), from points in Dallam, Hartley, Moore, Oldham, Potter, Carson, Deaf Smith, Randall, Armstrong, Donley, Parmer, Castro, Swisher, Briscoe, Hall, Bailey, Lamb, Hale, Floyd, Motley, Cochran, Hockley, Lubbock, Crosby, Dickens, Yoakum, Terry, Lynn, Garza, Kent, Gaines, Dawson, Borden, Scurry, Andrews, Martin, Howard, El Paso, Hudspeth, Culberson, Loving, Winkler, Ector, Midland, Glasscock, Ward, Crane, Upton, Reagan, Reeves, Jeff Davis, Pecos, Terrell, Presidio, and Brewster Counties, Tex., to points in Indiana. The purpose of this filing is to eliminate the gateway of Dimmit County, Tex.

NOTE.—The purpose of this correction is to state the correct spelling of origin territories.

No. MC 107107 (Sub-No. E13) (Partial Correction), filed June 2, 1974, published in the FEDERAL REGISTER issues of March 12, 1975 and May 5, 1975, and republished, as corrected, this issue. Applicant: ALTERMAN TRANSPORT LINES, INC., B.O. Box 425, Opa Locka, Fla. 33054. Applicant's representative: Ford W. Sewell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (2) *frozen foods* (except frozen citrus products) from points in Florida on and east of U.S. Highway 231, to points in Colorado. The purpose of this filing is to eliminate the gateways of Sylvester and Tifton, Ga.

NOTE.—The purpose of this partial correction is to state Part (2). The remainder of this letter-notice remains as previously published.

No. MC 108676 (Sub-No. E17), filed June 4, 1974. (Part II Secs. I & J). Applicant: A. J. METLER HAULING & RIGGING, 117 Chicamauga Avenue, Knoxville, Tennessee 37917. Applicant's representative: A. J. Metler (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal and coke mining machinery, equipment and vehicles and mine cars*, consisting of *maintenance machinery and equipment, and parts, accessories and attachments*, therefor (not including contractors' machinery and equipment), *Iron or steel conveying, dredging, dumping, or hoisting buckets, dippers, or skips*, consisting of *construction machinery, tools, and equipment, and parts, accessories and attachments* therefor (not including contractors' machinery and equipment), *maintenance machinery, tools and equipment, and parts, accessories and attachments* therefor (not including contractors' machinery and equipment), *power distribution machinery, tools and equipment and parts, accessories and attachments* therefor (not including contractors' machinery and equipment), and *plant machinery, tools and equipment, and parts, accessories, and attachments*, therefore (not including contractors' machinery and equipment), I. (1) Between points in Georgia on and west and north of a line beginning at the Georgia-South Carolina State line, and extending along U.S. Highway 221, to junction U.S. Highway 441, thence along U.S. Highway 441 to the Georgia-Florida State line, on the one hand, and, on the other, points in Virginia. (2) Between points in Georgia on and north and west of a line beginning at the Georgia-South Carolina State line, and extending along U.S. Highway 221 to junction U.S. Highway 341, to junction U.S. Highway 301, thence along U.S. Highway 301 to the Georgia-Florida State line, on the one hand, and, on the other, points in Virginia excluding those in or south of Halifax, Charlotte, Prince Edward, Nottoway, Dinwiddie, Sussex, Surry, and Northampton Counties and excluding Norfolk, and Independent City, and points south of Norfolk. (3) Between points in Georgia except on and east of a line beginning at the Georgia-South Carolina State line, and extending along Georgia Highway 121 to the Georgia-Florida State line, on the one hand, and, on the other, points in Virginia except those on and east of Blue Ridge Parkway beginning at the Virginia-North Carolina State line, and extending along U.S. Highway 60 to junction U.S. Highway 360, thence along U.S. Highway 360 to the Chesapeake Bay. (4) Between points in Georgia except those in or east of Columbia, Richmond, Burke, Jenkins, Bulloch, Evans, and Liberty Counties, on the one hand, and, on the other, points in Virginia except those bounded on, west, and northwest and north by Henry, Franklin, Bedford, Amherst, Buckingham, Fluvanna, Louisa, Spotsylvania and Stafford Counties. (5) Between points in Georgia except those in Effingham, Chatham, and Bryan Counties, on the one hand, and, on the other, points in Virginia in or west of Grayson, Wythe, Pulaski, Montgomery, Craig, Botetour, Rockbridge, and August Counties, and in or north of Rockingham, Page, Madison, Culpeper, Fauquier, and Prince William Counties. (6) Between points in Georgia, on the one hand, and, on the other, points in Virginia in or west of Washington, Smyth, Wythe, Pulaski, Giles, Craig, Alleghany, Bath, Augusta, Rockingham, Page, Warren, and Clarke Counties. J.(1) Between points in Georgia, on the one hand, and, on the other, points in Kentucky. The purpose of this filing is to eliminate the gateway of Knoxville, Tenn., and points within 75 miles thereof.

No. MC 108676 (Sub-No. E20), filed June 4, 1974, (Part II Sec. N & O). Applicant: A. J. METLER HAULING & RIGGING, 117 Chicamauga Avenue, Knoxville, Tennessee 37917. Applicant's representative: A. J. Metler (same as above). Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Coal and coke mining machinery, equipment and vehicles and mine cars*, consisting of *maintenance machinery and equipment, and parts, accessories and attachments* therefor (not including contractors' machinery and equipment), *iron or steel conveying, dredging, dumping, or hoisting buckets, dippers, or skips, consisting of construction machinery, tools, and equipment, and parts, accessories and attachments therefor* (not including contractors' machinery and equipment), *maintenance machinery, tools and equipment, and parts, accessories and attachments* therefor (not including contractors' machinery and equipment), *power distribution machinery, tools and equipment and parts, accessories and attachments* therefor (not including contractors' machinery and equipment), and *plant machinery, tools and equipment, and parts, accessories and attachments* therefor (not including contractors' machinery and equipment), N (1) Between points in South Carolina, on the one hand, and on the other, points in Kentucky. O.(1) Between points in South Carolina, on the one hand, and, on the other, points in Tennessee. The purpose of this filing is to eliminate the gateway of Knoxville, Tenn., and points within 75 miles thereof.

No. MC 108676 (Sub-No. E22), filed June 4, 1974. (Part II Sec. R & S). Applicant: A. J. METLER HAULING & RIGGING, 117 Chicamauga Avenue, Knoxville, Tennessee 37917. Applicant's representative: A. J. Metler (same as above). Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Coal and coke mining machinery, equipment and vehicles and mine cars*, consisting of *maintenance machinery and equipment, and parts, accessories and attachments* therefor (not including contractors' machinery and equipment), *iron or steel conveying, dredging, dumping, or hoisting buckets, dippers, or skips, consisting of construction machinery, tools, and equipment, and parts, accessories and attachments therefor* (not including contractors' machinery and equipment), *maintenance machinery, tools and equipment, and parts, accessories and attachments* therefor (not including contractors' machinery and equipment), *power distribution machinery, tools and equipment and parts, accessories and attachments* therefor (not including contractors' machinery and equipment), and *plant machinery, tools and equipment, and parts, accessories and attachments* therefor (not including contractors' machinery and equipment), N (1) Between points in South Carolina, on the one hand, and, on the other, points in Kentucky. O.(1) Between points in South Carolina, on the one hand, and, on the other, points in Tennessee. The purpose of this filing is to eliminate the gateway of Knoxville, Tenn., and points within 75 miles thereof.

No. MC 108676 (Sub-No. E23), filed June 4, 1974. (Part II Sec. T & U). Applicant: A. J. METLER HAULING & RIGGING, 117 Chicamauga Ave., Knoxville, Tenn. 37917. Applicant's representative: A. J. Metler (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal and coke mining machinery, equipment, and vehicles and mine cars*, consisting of *maintenance machinery and equipment, and parts, accessories, and attachments* therefor (not including contractors' machinery and equipment), *power distribution machinery, tools, and equipment and parts, accessories, and attachments* therefor (not including contractors' machinery and equipment), T.(1) Between points in Virginia, on the one hand, and, on the other, points in Tennessee. U. (1) Between points in Kentucky in Hancock, Breckinridge, and Hardin Counties, and bounded on east in Bullitt, Spencer, Shelby, Henry, Owen, Grant, and Kenton and Campbell Counties, on the one hand, and, on the other, points in Tennessee excluding those in Lauderdale, Haywood, Hardeman, Fayette, Shelby, and Tipton Counties. (2) Between points in Kentucky in or north of Oldham, Shelby, Franklin, Woodford, and Fayette Counties, and in or west of Bourbon, Nicholas, Robertson, and Bracken Counties, on the one hand, and, on the other, points in Tennessee excluding those in or north of Lauderdale, Crockett, Gibson, and Weakley Counties. (3) Between points in Kentucky excluding those in or north of Hancock, Breckinridge, Hardin, Larue, Washington, Mercer, and Jessamine Counties, and in or west of Fayette, Bourbon, Nicholas, Robertson, and Bracken Counties, on the one hand, and, on the other, points in Tennessee. The purpose of this filing is to eliminate the gateway of Knoxville, Tenn., and points within 75 miles thereof.

No. MC 112070 (Sub-No. E104), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission: (a) Between points in Iowa on and east and south of a line beginning at the Minnesota-Iowa State line and extending along Interstate Highway 35 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Iowa-Nebraska State line, on the one hand, and, on the other, those points in Texas on and north of a line beginning at the Texas-New Mexico State line, and extending along U.S. Highway 66 to the Texas-Oklahoma State line; (b) between points in Iowa on and north and west of a line beginning at the Iowa-Wisconsin State line, and extending along U.S. Highway 151 to junction U.S. Highway 30, to junction Iowa Highway 330, to junction U.S. Highway 65, thence along U.S. Highway 65 to the Iowa-Missouri State line, on the one hand, and, on the other, points in Texas; (c) be-

V 42 71 APR 13 77 UMI

tween points in Iowa, on the one hand, and, on the other, points in Texas on and west of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 259 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Gulf of Mexico; (d) between points in Iowa, on the one hand, and, on the other, points in Texas. The purpose of this filing is to eliminate the gateways of points in Missouri, Kansas, Enid, Okla., and points within 90 miles thereof.

No. MC 112070 (Sub-No. E105), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission: (a) Between points in Connecticut on and east of a line beginning at the Connecticut-Massachusetts State line, and extending along Connecticut Highway 198 to junction Connecticut Highway 32 to junction Interstate Highway 95 to the Block Island Sound, on the one hand, and, on the other, points in Texas except Jasper, Newton, Hardin, Orange, Jefferson, and Chambers Counties; (b) between points in Connecticut, on the one hand, and, on the other, to points in Texas on and west of a line beginning at the Texas-Oklahoma State line, and extending along U.S. Highway 271, to junction Texas Highway 155, to junction Interstate Highway 45, to junction U.S. Highway 75, thence along U.S. Highway 75 to the Gulf of Mexico. The purpose of this filing is to eliminate the gateways of points in Missouri, and Enid, Okla., and points within 90 miles thereof.

No. MC 112070 (Sub-No. E106), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission: (a) Between points in Illinois in Rock Island, Whiteside, Carroll, Ogle, Jo Daviess, Stephenson, Winnebago, Boone, McHenry, and Lake Counties, on the one hand, and, on the other, those points in Texas on and west of a line beginning at the Oklahoma-Texas State line and extending along U.S. Highway 271 to U.S. Highway 259, thence along U.S. Highway 259 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Texas Highway 347, thence along Texas Highway 347 to the Gulf of Mexico; (b) between points in Illinois on the one hand, and, on the other, those points in Texas on and west of a line beginning at the Oklahoma-Texas State line and extending along U.S. Highway 281 to junction Texas Highway 9, thence along Texas Highway 9 to junction Interstate Highway 37, thence along Interstate Highway 37 to junction U.S. Highway 77, thence along U.S. Highway 77 to the International Boundary between United States and Mexico; (c) between points in Jo Daviess, Stephenson, Winnebago, Boone, McHenry, and Lake Counties, Ill., on the one hand, and, on the other, points in Texas on and west of a line beginning at the Texas-Oklahoma State line, and extending along U.S. Highway 271 to junction U.S. Highway 259, to junction U.S. Highway 69, to junction Texas Highway 124, to junction Texas Highway 87, thence along Texas Highway 87 to the Gulf of Mexico; (d) between points in Illinois, on the one hand, and, on the other, points in Texas on and west of a line beginning at Texas-Oklahoma State line, and extending along Texas Highway 79, to junction U.S. Highway 283, to junction Texas Highway 351, to junction U.S. Highway 277, thence along U.S. Highway 277 to the International Boundary line between United States and Mexico. The purpose of this filing is to eliminate the gateway of points in Missouri, Enid, Okla., and points within 90 miles thereof.

No. MC 116069 (Sub-No. E1), filed May 31, 1974. Applicant: MARINE TRANSIT, INC., 1703 Highway 2, Duluth, Minn. 55810. Applicant's representative: B. L. Newville (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Rowboats and Outboard Motor Boats* (a) (1) From points in Arkansas to points in Wisconsin, and those points in the Upper Peninsula of Michigan beginning at Lake Superior and extending along U.S. Highway 41, thence along U.S. Highway 41 to Little Bay De Noc. (2) From points in Arkansas on and east of a line beginning at the Arkansas-Missouri State line, and extending along U.S. Highway 67, thence along U.S. Highway 67 to the Arkansas-Texas State line, to points in Minnesota on and north of a line beginning at the Minnesota-North Dakota State line, and extending along U.S. Highway 10, thence along U.S. Highway 10 to the Minnesota-Wisconsin State line. (3) From points in Indiana to points in Minnesota, North Dakota, South Dakota, those points in Wisconsin on and west of a line beginning at the Wisconsin-Iowa State line and extending along U.S. Highway 151, thence along U.S. Highway 151 to Lake Michigan, those points in the Upper Peninsula of Michigan, and on and west of a line beginning at Lake Superior and extending along U.S. Highway 41, thence along U.S. Highway 41 to Little Bay De Noc. (4) From points in Iowa on and north of a line beginning at the Iowa-Nebraska State line and extending along U.S. Highway 6, thence along U.S. Highway 6 to the Iowa-Illinois State line, to points in Delaware, New York, District of Columbia, Maine, Connecticut, Vermont, New Hampshire, Massachusetts, Rhode Island, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Maryland, New Jersey, and those points in Florida on and east of a line beginning at the Florida-Alabama State line and extending along U.S. Highway 231, thence along U.S. Highway 231 to the Gulf of Mexico. (5) From points in Iowa on and north of a line beginning at the Iowa-Nebraska State line, and extending along U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Illinois State line, to points in Ohio, Pennsylvania, and those points in Michigan except the Upper Peninsula of Michigan.

(6) From points in Iowa on and north and east of a line begininng at the Iowa-Nebraska State line, and extending along U.S. Highway 20 to junction U.S. Highway 63, thence south along U.S. Highway 63 to the Iowa-Missouri State line, to points in Indiana, and those points in Kentucky on and east of a line beginning at the Kentucky-Indiana State line, and extending along U.S. Highway 41 to the Kentucky-Tennessee State line. (7) From points in Iowa on and south and east of a line beginning at the Iowa-Nebraska State line and extending along U.S. Highway 6, to junction U.S. Highway 65, thence east along U.S. Highway 65 to the Iowa-Minnesota State line, to those points in Wisconsin on and north and east of a line beginning at the Iowa-Wisconsin State line and extending along U.S. Highway 18, to junction U.S Highway 51, thence southeast along U.S Highway 51 to the Wisconsin-Illinois State line. (8) From points in Iowa to points in Wisconsin on and north and east of a line beginning at the Wisconsin-Iowa State line and extending along U.S. Highway 18 to junction U.S. Highway 151, thence south along U.S. Highway 151 to the Illinois-Wisconsin State line. (9) From points in Kentucky to points in Minnesota, North Dakota, Wisconsin, South Dakota and the Upper Peninsula of Michigan west of Highway 41. (10) From points in Kentucky on and east of a line beginning at the Indiana-Kentucky State line, and extending along U.S. Highway 41, thence along U.S. Highway 41 to the Kentucky-Tennessee State line, to those points in Iowa on and north and east of a line beginning at the Iowa-Nebraska State line and extending along U.S. Highway 20 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Iowa-Missouri State line. (11) From points in Louisiana to points in North Dakota, Wisconsin those points in Minnesota on and north of a line beginning at the Minnesota-South Dakota State line, and extending along U.S. Highway 12, thence along U.S. Highway 12 to the Minnesota-Wisconsin State line, those points in the Upper Peninsula of Michigan on and west of a line beginning at Lake Superior and extending along U.S. Highway 41 to Little Bay De Noc. (12) From points in Michigan on and south of a line beginning at Lake Michigan, and extending along U.S. Highway 10, thence along U.S. Highway 10 to the International Boundary between United States and Canada, to points in Minnesota, North Dakota, South Dakota, Nebraska, those points in Wisconsin on and north of a line beginning at the Wisconsin-Minnesota State line, and extending

along U.S. Highway 10 to junction U.S. Highway 51, thence north along U.S. Highway 51 to the Wisconsin-Michigan State line, and those points in Iowa, on and north of a line beginning at the Iowa-Nebraska State line, and extending along U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Illinois State line.

(13) From points in Michigan to those points in Kansas on and west of a line beginning at the Kansas-Oklahoma State line, and extending along Interstate Highway 35, thence along Interstate Highway 35 to the Kansas-Missouri State line. (14) From points in the Upper Peninsula of Michigan on and west of a line beginning at Lake Superior, and extending along U.S. Highway 41, thence along U.S. Highway 41 to Little Bay De Noc, to points in Alabama, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois, Kentucky, Louisiana, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, and West Virginia, and those points in Indiana on and south of a line beginning at the Illinois-Indiana State line, and extending along U.S. Highway 30, thence along U.S. Highway 30 to the Indiana-Ohio State line. (15) From points in Minnesota to points in the United States on and east of the Mississippi River, except those points in Illinois, Wisconsin, and those points in Michigan on and north of a line beginning at Lake Michigan, and extending along U.S. Highway 10, thence along U.S. Highway 10 to the International Boundary between the United States and Canada. (16) From points in Minnesota on and north of a line beginning at the Minnesota-North Dakota State line, and extending along U.S. Highway 10, thence along U.S. Highway 10 to the Minnesota-Wisconsin State line, to points in Louisiana, points in Illinois on and east of a line beginning at Lake Michigan and extending along U.S. Highway 66, thence along U.S. Highway 66 to the Illinois-Missouri State line, those points in Wisconsin on and east of a line beginning at the Wisconsin-Michigan State line, and extending along U.S. Highway 51 to junction U.S. Highway 151, thence along U.S. Highway 151 to the Wisconsin-Illinois State line, those points in Arkansas on and east of a line beginning at the Missouri-Arkansas State line, and extending along U.S. Highway 67, thence along U.S. Highway 67 to the Arkansas-Texas State line.

(17) From points in Minnesota on and east of a line beginning at the Minnesota-Wisconsin State line and extending along U.S. Highway 53, thence along U.S. Highway 53 to the International Boundary line between United States and Canada, to points in Texas. (18) From points in Mississippi, to points in Wisconsin, Upper Peninsula of Michigan, Minnesota, North Dakota, and South Dakota. (19) From points in Missouri, to points in the Upper Peninsula of Michigan, and those points in Wisconsin on and north and east of a line beginning at the Wisconsin-Minnesota State line, and extending along U.S. Highway 12 to junction U.S. Highway 53, thence along U.S. Highway 53 to the Wisconsin-Minnesota State line. (20) From points in Missouri on and east of a line beginning at the Iowa-Missouri State line and extending along U.S. Highway 63, thence along U.S. Highway 63 to those points in Minnesota on and east of a line beginning at the Minnesota-Wisconsin State line, and extending along U.S. Highway 53, thence along U.S. Highway 53 to the International Boundary line between United States and Canada. (21) From points in New York, to points in Wisconsin, Minnesota, Nebraska, North Dakota, South Dakota, those points in Iowa on and north of a line beginning at the Iowa- Nebraska State line, and extending along U.S. Highway 6, thence along U.S. Highway 6 to the Iowa-Illinois State line, points in the Upper Peninsula of Michigan on and west of a line beginning at Lake Superior and extending along U.S. Highway 41, thence along U.S. Highway 41 to Little Bay De Noc. (22) From points in Ohio, to points in Wisconsin, Minnesota, North Dakota, South Dakota, the Upper Peninsula of Michigan on and west of U.S. Highway 41, between Rapid River and Marquette, Mich. (23) From points in Pennsylvania, to points in Minnesota, Wisconsin, North Dakota, South Dakota, Nebraska, Upper Peninsula of Michigan, on and west of U.S. Highway 41 between Rapid River and Marquette, Mich., and points in Iowa on and north of a line beginning at the Illinois-Iowa State line and extending along U.S. Highway 30, thence along U.S. Highway 30 to the Illinois-Nebraska State line. (24) From points in Tennessee, to points in Minnesota, Wisconsin, North Dakota, South Dakota and Upper Peninsula of Michigan on and west of U.S. Highway 41, between Rapid River and Marquette, Mich.

(25) From points in Texas to points in Wisconsin, Upper Peninsula of Michigan, points in Minnesota on and east of a line beginning at the International Boundary between United States and Canada and extending along U.S. Highway 53, thence along U.S. Highway 53 to the Wisconsin-Minnesota State line, and those points in Illinois on and north of a line beginning at the Iowa-Illinois State line, and extending along U.S. Highway 30, thence along U.S. Highway 30 to the Illinois-Indiana State line. (26) From points in Wisconsin, to points in Alabama, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, and West Virginia. (27) From points in Wisconsin and north and east of a line beginning at the Minnesota-Wisconsin State line, and extending along U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 151, thence south along U.S. Highway 151 to the Iowa-Minnesota State line, to points in Illinois. (28) From points in Wisconsin on and south and west of a line beginning at the Minnesota-Wisconsin State line, and extending along U.S. Highway 12 to junction U.S. Highway 151, thence along U.S. Highway 151 to the Iowa-Minnesota State line, to points in Illinois on and south of a line beginning at the Iowa-Illinois State line and extending along Illinois Highway 9, thence along Illinois Highway 9 to the Illinois-Indiana State line. (29) From points in Wisconsin on and north and west of a line beginning at the Iowa-Wisconsin State line and extending along U.S. Highway 18 to junction U.S. Highway 151, thence south along U.S. Highway 151 to the Wisconsin-Illinois State line, to points in Indiana. (30) From points in Wisconsin on and south and east of a line beginning at the Iowa-Wisconsin State line and extending along U.S. Highway 18 to junction U.S. Highway 151, thence east along U.S. Highway 151 to Lake Michigan, to points in Indiana on and south of a line beginning at the Indiana-Ohio State line, and extending along U.S. Highway 40 to the Illinois-Indiana State line. (31) From points in Wisconsin on and north and east of a line beginning at the Iowa-Wisconsin State line and extending along U.S. Highway 18 to junction U.S. Highway 151, thence east along U.S. Highway 151 to Lake Michigan, to points in Iowa.

(32) From points in Wisconsin on and east of a line beginning at Lake Superior and extending along Wisconsin Highway 13, thence east along Wisconsin Highway 13 to the Wisconsin River, to points in Kansas. (33) From points in Wisconsin on and north and west of a line beginning at the Wisconsin-Iowa State line, and extending along U.S. Highway 18, to junction U.S. Highway 151, thence along U.S. Highway 151 to Lake Michigan, to points in Michigan on and south of a line beginning at Lake Michigan and extending along U.S. Highway 10, thence along U.S. Highway 10 to the International Boundary line between United States and Canada. (34) From points in Wisconsin on and south of a line beginning at the Wisconsin-Iowa line, and extending along U.S. Highway 18, thence along U.S. Highway 18 to Lake Michigan, to points in Upper Peninsula of Michigan. (35) From points in Wisconsin on and south and east of a line beginning at the Iowa-Wisconsin State line, and extending along U.S. Highway 18 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Michigan State line, to points in Minnesota. (36) From points in Wisconsin on and south and east of a line beginning at the Illinois-Wisconsin State line, and extending along U.S. Highway 151, thence along U.S. Highway 151 to Lake Michigan, to points in North Dakota. (37) From points in Wisconsin on and south of a line beginning at the Iowa-Wisconsin State line, and extending along U.S. Highway 18 to junction Wisconsin Highway 60, thence along Wisconsin Highway 60 to junction U.S.

V 42 71 APR 13 77 UMI

Highway 12, to junction Wisconsin Highway 78, to junction Interstate Highway 90–94, to junction Wisconsin Highway 33, to junction Wisconsin Highway 44, to junction U.S. Highway 41, thence along U.S. Highway 41 to Green Bay, to points in South Dakota. (38) From points in Wisconsin on and east of a line beginning at the Wisconsin-Illinois State line, and extending along U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Michigan State line, to points in Missouri.

(39) From points in Wisconsin on and south and east of a line beginning at the Wisconsin-Minnesota State line, and extending along U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Michigan line, to points in Nebraska. (40) From points in Wisconsin on and north of a line beginning at the Wisconsin-Iowa State line, and extending along U.S. Highway 18, thence along U.S. Highway 18 to Lake Michigan, to points in Ohio. (41) From points in Wisconsin on and east of a line beginning at the Wisconsin-Illinois State line, and extending along U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Michigan State line, to points in Oklahoma. (42) From points in Wisconsin on and east of a line beginning at the Wisconsin-Minnesota State line and extending along U.S. Highway 53 to junction U.S. Highway 61, thence along U.S. Highway 61 to the Wisconsin-Illinois State line, to points in Texas. (b) *Damaged and Returned shipments of rowboats and outboard motor boats* not exceeding 20 feet in length, from points in the United States east of the eastern boundaries of Montana, Wyoming, Colorado, and New Mexico, to points in Arkansas, Indiana, Iowa, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, New York, Ohio, Pennsylvania, Tennessee, Texas and Wisconsin. The purpose of this filing is to eliminate the gateway of Waunakee, Wis.

No. MC 117815 (Sub-No. E5), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise as is dealt in by wholesale grocery and food business houses*, and in connection therewith, *equipment, materials*, and *supplies used in the conduct of such business*, when moving to or from such business houses or other facilities thereof, between Des Moines, Iowa, on the one hand, and, on the other, points in Illinois within that territory bounded by a line beginning at the shore of Lake Michigan and extending west along a line through Winthrop Harbor, Illinois, to Hebron, Illinois, thence south over Illinois Highway 47 to junction U.S. Highway 14, to junction Illinois Highway 31, to Elgin, Illinois, thence southeast over U.S. Highway 20 to junction Illinois Highway 59, to junction U.S. Highway 52, to junction U.S. Highway 49, thence south to junction U.S. Highway 24, thence east over U.S. Highway 24 to Watseka, Illinois, thence along a line in a northeasterly direction to the Illinois-Indiana border, thence north along the Illinois-Indiana border to the shore of Lake Michigan. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 117815 (Sub-No. E6), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise as is dealt in by wholesale grocery and food business houses*, and in connection therewith, *equipment, materials*, and *supplies used in the conduct of such business*, when moving to or from such business houses or other facilities thereof, Between Des Moines, Iowa, on the one hand, and, on the other, points in Illinois within the territory bounded by a line beginning at the shore of Lake Michigan and extending west along a line through Winthrop Harbor, Illinois, and South Beloit, Illinois, to Durand, Illinois, thence south over unnumbered highway through Pecatonica, Myrtle, Byron, and Chana, Illinois, to junction Illinois Highway 38, thence south over Illinois Highway 30 to Ashton, Illinois, thence south and east over unnumbered highway through Pawpaw, Earlville and Harding, Illinois, to junction Illinois Highway 23, thence south over Illinois Highway 23 to junction unnumbered road to Gridley, Illinois, thence east over U.S. Highway 24 to Watseka, Illinois, thence along a line in a northeasterly direction to the Illinois-Indiana border, thence north along the Illinois-Indiana border to the shore of Lake Michigan. The purpose of this filing is to eliminate the gateway of DeKalb, Illinois.

No. MC 117815 (Sub-No. E7), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Detroit, Michigan, to points in Illinois within the territory bounded by a line beginning at Galena, Illinois, thence in a southeasterly direction to Savanna, Illinois, thence south to Galesburg, Illinois, thence east over U.S. Highway 150 to junction Illinois Highway 91, thence north over Illinois Highway 91 to junction Illinois Highway 90, thence east over Illinois Highway 90 to junction Illinois Highway 88, thence north over Illinois Highway 88 to Campgrove, Illinois, thence east three miles over unnumbered road to junction unnumbered road, thence north over unnumbered road through Lombardville, Wayanett and Walnut, Illinois, to junction unnumbered highway four miles north of Walnut, Illinois, thence east on unnumbered highway one mile northwest of Dixon, Illinois, thence north on unnumbered highway through Mt. Morris, Ridott, and Dakota, Illinois, to Rock Grove, Illinois, thence west along a line through Warren, Illinois to Galena, Illinois, restricted to traffic originating at Detroit, Michigan and to movements, from, to or between wholesale and retail grocery houses, their warehouses and retail outlets. The purpose of this filing is to eliminate the gateway of Clinton, Iowa.

No. MC 117815 (Sub-No. E8), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products*, and *articles distributed by meat packing houses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk and hides), from Allen Township (Hillsdale County), Michigan, to points in Illinois within the territory bounded by a line beginning at Galena, Illinois, and extending in a southeasterly direction to Savanna, Illinois, thence south to Galesburg, Illinois, thence east over U.S. Highway 150 to junction Illinois Highway 78, thence north over Illinois Highway 78 to Lyndon, Illinois, thence northeast over Illinois Highway 2, to Sterling, Illinois, thence north over Illinois Highway 88 to Milledgeville, Illinois, thence north over unnumbered highway to junction Illinois Highway 72, thence west over Illinois Highway 72 to junction Illinois Highway 73, thence north over Illinois Highway 73, to Winslow, Illinois, and thence west along a line through Warren, Illinois, to Galena, Illinois, restricted to the transportation of shipments originating at the plant site and warehouse facilities of Peter Eckrich and Sons, Inc. at Allen Township (Hillsdale County), Michigan, and to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Clinton, Iowa.

No. MC 117815 (Sub.-No. E9), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from points in Wisconsin on and west of a line beginning at the Illinois-Wisconsin border and extending north on Wisconsin Highway 78 to Gratiot, Wisconsin, thence west over Wisconsin Highway 11 to junction Wisconsin Highway 23, thence north over Wisconsin Highway 23 to junction Wisconsin Highway 130, thence north over Wisconsin Highway 130 to junction U.S. Highway 14, thence north over U.S. Highway 14 to junction Wisconsin Highway 58, thence north over Wisconsin Highway 58 to LaValle, Wisconsin, thence northwest over Wisconsin Highway 33 to junction Wisconsin Highway 80, thence north over Wisconsin Highway 80 to junction Wisconsin Highway 13, thence north over Wisconsin Highway 13 to junction unnumbered highway one mile north of Butternut, Wisconsin, thence northeast over unnumbered highway to junction U.S. Highway 51, thence north over U.S. Highway 51 to the Wisconsin-Michigan border, to points in that part of Indiana north of U.S. Highway 40, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Clinton, Iowa and Chicago, Illinois.

No. MC 117815 (Sub-No. E10), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned fruits and vegetables*, from points in that part of Michigan south of a line beginning at the Indiana-Michigan state line and extending along U.S. Highway 12 to junction unnumbered highway, at or near New Buffalo, Michigan, thence along unnumbered highway through Union Pier and Harbert, Michigan, to junction Interstate Highway 94, thence along Interstate Highway 94, to junction Business Route Interstate Highway 94, thence along Business Route Interstate Highway 94 to Benton Harbor, Michigan, thence along unnumbered highway through Coloma, Paw Paw, and Oshtemo, Michigan, to Kalamazoo, Michigan, and West of a line beginning at Kalamazoo, Michigan, and extending along unnumbered highway through Portage, Michigan, to junction U.S. Highway 131, at or near Schoolcraft, Michigan, thence along U.S. Highway 131 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Michigan Highway 103, thence along Michigan Highway 103 to the Michigan-Indiana state line (except Kalamazoo, Michigan), to Creston, Mt. Ayr, and Muscatine, Iowa. The purpose of this filing is to eliminate the gateway of Chicago, Illinois.

No. MC 117815 (Sub-No. E11), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned fruits and vegetables*, from points in that part of Michigan south of a line beginning at the Indiana-Michigan state line and extending along U.S. Highway 12 to junction unnumbered highway, at or near New Buffalo, Michigan, thence along unnumbered highway through Union Pier and Harbert, Michigan, to junction Interstate Highway 94, thence along Interstate Highway 94, to junction Business Route Interstate Highway 94, thence along Business Route Interstate Highway 94 to Benton Harbor, Michigan, thence along unnumbered highway through Coloma, Paw Paw, and Oshtemo, Michigan, to Kalamazoo, Michigan, and West of a line beginning at Kalamazoo, Michigan, and extending along unnumbered highway through Portage, Michigan, to junction U.S. Highway 131, at or near Schoolcraft, Michigan, thence along U.S. Highway 131 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Michigan Highway 103, thence along Michigan Highway 103 to the Michigan-Indiana state lines (except Kalamazoo, Michigan), to Denver and Pueblo, Colorado, Oklahoma City, and Tulsa, Oklahoma, points in North Dakota, South Dakota, Nebraska, Kansas, and points in Minnesota on and west of a line beginning at the Iowa-Minnesota state line, thence north over U.S. Highway 65, to Albert Lea, Minnesota, thence north over Minnesota Highway 13, to Waseca, Minnesota, thence west over U.S. Highway 14, to Nicollet, Minnesota, thence north over Minnesota Highway 111 to Gaylord, Minnesota, thence north over Minnesota Highway 22 to Hutchinson, Minnesota, thence west over Minnesota Highway 7 to junction U.S. Highway 71.

Thence north over U.S. Highway 71 to Belgrade, Minnesota, thence northwest over Minnesota Highway 55 to junction U.S. Highway 59, thence north over U.S. Highway 59 to Detroit Lakes, Minnesota, thence east over Minnesota Highway 34 to Park Rapids, Minnesota, thence north over U.S. Highway 71 to Bemidji, Minnesota, thence west over U.S. Highway 2 to junction Minnesota Highway 89, thence north over Minnesota Highway 89 to Roseau, Minnesota, thence north over Minnesota Highway 310 to the Minnesota-Canada border, and to points in Missouri on and west of a line beginning at the Iowa-Missouri state line, thence south over Missouri Highway 129 to junction Missouri Highway 11, thence south over Missouri Highway 11 to junction U.S. Highway 24, thence southwest over U.S. Highway 24 to junction Missouri Highway 13, thence south over Missouri Highway 13 to junction U.S. Highway 54, thence west over U.S. Highway 54 to junction Missouri Highway 32, thence south over Missouri Highway 32, to junction Missouri Highway 97, thence south over Missouri Highway 97 to Pierce City, Missouri, thence south over Missouri Highway 37 to Purdy, Missouri, thence west over unnumbered highway to junction Missouri Highway 86, thence south over Missouri Highway 86 to junction Missouri Highway 76, thence west over Missouri Highway 76 to junction U.S. Highway 71, and thence south over U.S. Highway 71 to the Missouri-Arkansas state line. The purpose of this filing is to eliminate the gateway of Chicago, Illinois and Des Moines, Iowa.

No. MC 117815 (Sub-No. E13), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, *transporting:* (a) *Frozen fruits, frozen berries*, and *frozen vegetables*, from points in Indiana within the territory bounded by a line on the south beginning at the Illinois-Indiana state line and extending in a northeasterly direction to Warsaw, Indiana, thence north to Goshen, Indiana, thence in a northwesterly direction to the Indiana-Michigan state line near Granger, Indiana, thence along the Indiana-Michigan state line to Lake Michigan (except LaPorte, Indiana), to Des Moines, Iowa, Omaha and Plattsmouth, Nebraska and (b) *Frozen foods*, from points in Indiana within the territory bounded by a line on the south beginning at the Illinois-Indiana state line and extending in a northeasterly direction to Warsaw, Indiana, thence north to Goshen, Indiana, thence in a northwesterly direction to the Indiana-Michigan state line near Granger, Indiana, thence along the Indiana-Michigan state line to Lake Michigan (except from LaPorte, Indiana), to points in Minnesota on, south and west of a line beginning at the Iowa-Minnesota state line and extending north over U.S. High-

way 65 to Albert Lea, Minnesota, thence north over Minnesota Highway 13 to Montgomery, Minnesota, thence north one mile to junction unnumbered road, thence west over unnumbered road to LeSueur, Minnesota, thence west over Minnesota Highway 112 to junction Minnesota Highway 93, thence north over Minnesota Highway 93 to junction Minnesota Highway 19, thence west over Minnesota Highway 19 to junction Minnesota Highway 22, thence north and west over Minnesota Highway 22 to Hutchinson, Minnesota, thence west over Minnesota Highway 7 to junction U.S. Highway 71, thence north over U.S. Highway 71 to Willmer, Minnesota, thence northwest over U.S. Highway 12 to Benson, Minnesota, thence north over Minnesota Highway 29 to Starbuck, Minnesota, thence north on Minnesota Highway 114 to Lowry, Minnesota, thence northwest over Minnesota Highway 55 to junction U.S. Highway 59, thence north over U.S. Highway 59 to Thief River Falls, Minnesota, thence north over Minnesota Highway 32 to junction Minnesota Highway 11, thence northeast over Minnesota Highway 11 to junction Minnesota Highway 89, and thence north over Minnesota Highway 89 to the Minnesota-Canada border, restricted in (a) and (b) to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateways of Chicago, Illinois and Des Moines, Iowa.

No. MC 117815 (Sub-No. E14), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned fruits* and *vegetables*, (a) from points in that part of Michigan south of a line beginning at the Indiana-Michigan state line and extending along U.S. Highway 12 to junction unnumbered highway, at or near New Buffalo, Michigan, thence along unnumbered highway through Union Pier and Harbert, Michigan, to junction Interstate Highway 94, thence along Interstate Highway 94 to junction Business Route Interstate Highway 94, thence along Business Route Interstate Highway 94 to Benton Harbor, Michigan, thence along unnumbered highway through Coloma, Paw Paw and Oshtemo, Michigan, to Kalamazoo, Michigan, and west of a line beginning at Kalamazoo, Michigan, and extending along unnumbered highway through Portage, Michigan, to junction U.S. Highway 131, at or near Schoolcraft, Michigan, thence along U.S. Highway 131 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Michigan Highway 103, thence along Michigan Highway 103 to the Michigan-Indiana state line (except Kalamazoo, Michigan), to Charlton, Iowa, restricted to traffic destined to Charlton, Iowa and restricted to movements to or from wholesale grocery and food business houses or other facilities thereof; and (b) from points in that part of Indiana on and north of a line commencing at the Illinois-Indiana state line and extending east over Indiana Highway 10 to junction Indiana Highway 110, thence east over Indiana Highway 110 to junction Indiana Highway 143, thence east over Indiana Highway 143 to junction U.S. Highway 421, thence south over U.S. Highway 421 to junction Indiana Highway 14, thence east over Indiana Highway 14 to Akron, Indiana, thence east over Indiana Highway 114 to junction Indiana Highway 15, thence south over Indiana Highway 15 to Marion, Indiana, thence east over Indiana Highway 18 to junction Indiana Highway 3, thence south over Indiana Highway 3 to Muncie, Indiana, and thence southeast over U.S. Highway 35 to the Indiana-Ohio border, to Chariton, Iowa, restricted to traffic destined to Chariton, Iowa, and to movements to or from wholesale grocery and food business houses or other facilities thereof. The purpose of this filing is to eliminate the gateways of Chicago, Illinois and Des Moines, Iowa.

No. MC 117815 (Sub-No. E15), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cheese*, from points in that part of Indiana bounded by a line commencing at the Illinois-Indiana state line at unnumbered highway approximately four miles north of Effner, Indiana, and extending in a northeasterly direction (through Brook, Collegeville, Francesville, and Winamac, Indiana), to Warsaw, Indiana, thence north over Indiana Highway 15 to Goshen, Indiana, and thence in a northwesterly direction to the Indiana-Michigan state line near Granger, Indiana, to Cedar Rapids, Iowa, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Dixon, Illinois.

No. MC 117815 (Sub-No. E16), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned fruits and vegetables*, from points in that part of Michigan south of a line beginning at the Indiana-Michigan state line and extending along U.S. Highway 12 to junction unnumbered Highway, at or near New Buffalo, Michigan, thence along unnumbered highway through Union Pier and Harbert, Michigan, to junction Interstate Highway 94, thence along Interstate Highway 94, to junction Business Route Interstate Highway 94, thence along Business Route Interstate Highway 94, to Benton Harbor, Michigan, thence along unnumbered highway through Coloma, Paw Paw and Oshtemo, Michigan, to Kalamazoo, Michigan, and west of a line beginning at Kalamazoo, Michigan, and extending along unnumbered highway through Portage, Michigan, to junction U.S. Highway 131, at or near Schoolcraft, Michigan, thence along U.S. Highway 131 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Michigan Highway 103, thence along Michigan Highway 103 to the Michigan-Indiana state line (except Kalamazoo, Michigan), to Chariton, Iowa, restricted to traffic destined to Chariton, Iowa, and restricted to movements to or from wholesale grocery houses or other facilities thereof. The purpose of this filing is to eliminate the gateways of Chicago, Illinois and Des Moines, Iowa.

No. MC 117815 (Sub-No. E17), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canning plant supplies*, from points in that part of Indiana bounded by a line commencing at the Illinois-Indiana state line at unnumbered highway approximately four miles north of Effner, Indiana, and extending in a northeasterly direction (through Brook, Collegeville, Francesville, and Winamac, Indiana) to Warsaw, Indiana, thence north over Indiana Highway 15 to Goshen, Indiana, and thence in a northwesterly direction to the Indiana-Michigan state line near Granger, Indiana, to Grimes, Iowa, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Chicago, Illinois.

No. MC 117815 (Sub-No. E18), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from points in that part of Indiana bounded by a line commencing at the Illinois-Indiana state line at unnumbered highway approximately four miles north of Effner, Indiana, and extending in a northeasterly direction (through Brook, Collegeville, Francesville, and Winamanc, Indiana), to Warsaw, Indiana, thence north over Indiana Highway 15, to Goshen, Indiana, and thence in a northwesterly direction to the Indiana-Michigan state line near Granger, Indiana, to Red Oak, Iowa, restricted to

movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Chicago, Illinois.

No. MC 117815 (Sub-No. E19), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operates as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned fruits* and *vegetables*, from points in that part of Indiana on and north of a line commencing at the Illinois-Indiana state line and extending east over U.S. Highway 36 to junction U.S. Highway 231, thence south over U.S. Highway 231 to junction U.S. Highway 40, and thence northeast over U.S. Highway 40 to the Indiana-Ohio state line (except those points in Lake and Porter Counties, Indiana, and except those points north of U.S. Highway 20 and west of Indiana Highway 15 and LaPorte, Indiana), to Muscatine, Iowa. The purpose of this filing is to eliminate the gateway of Chicago, Illinois.

No. MC 117815 (Sub-No. E20), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned fruits* and *vegetables*, from points in that part of Indiana on and north of a line commencing at the Illinois-Indiana state line and extending east and south over U.S. Highway 52 to junction U.S. Highway 40, and thence northeast over U.S. Highway 40 to the Indiana-Ohio state line (except those points in Lake and Porter Counties, Indiana and except those points north of U.S. Highway 20 and west of Indiana Highway 15, and LaPorte, Indiana), to Mt. Ayr, Iowa. The purpose of this filing is to eliminate the gateway of Chicago, Illinois.

No. MC 117815 (Sub-No. E21), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned fruis* and *vegetables*, from points in that part of Indiana on and north of a line commencing at the Illinois-Indiana state line and extending east over Indiana Highway 26 to Pine Village, Indiana, thence south over Indiana Highway 55 to junction U.S. Highway 136, thence southeast over U.S. Highway 136 to Crawfordsville, Indiana, thence south over U.S. Highway 231 to junction U.S. Highway 40, and thence northeast over U.S. Highway 40 to the Indiana-Ohio state line (except those in Lake and Porter Counties, Indiana, and except those north of U.S. Highway 20 and west of Indiana Highway 15, and LaPorte, Indiana), to Creston, Iowa. The purpose of this filing is to eliminate the gateway of Chicago, Illinois.

No. MC 117815 (Sub-No. E22), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned fruits* and *vegetables*, (a) from points in that part of Michigan south of a line beginning at the Indiana-Michigan state line and extending along U.S. Highway 12 to junction unnumbered highway, at or near New Buffalo, Michigan, thence along unnumbered highway through Union Pier and Harbert, Michigan, to junction Interstate Highway 94, thence along Interstate Highway 94, to junction Business Route Interstate Highway 94, thence along Business Route Interstate Highway 94 to Benton Harbor, Michigan, thence along unnumbered highway through Coloma, Paw Paw and Oshtemo, Michigan, to Kalamazoo, Michigan, and west of a line beginning at Kalamazoo, Michigan, and extending along unnumbered highway through Portage, Michigan, to junction U.S. Highway 131, at or near Schoolcraft, Michigan, thence along U.S. Highway 131 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Michigan Highway 103, thence along Michigan Highway 103 to the Michigan-Indiana state line (except Kalamazoo, Michigan), and (b) from points in that part of Indiana on and north of a line commencing at the Illinois-Indiana state line and extending east over Indiana Highway 32 to Crawfordsville, Indiana, thence south over U.S. Highway 231 to junction U.S. Highway 40, and thence northeast over U.S. Highway 40 to the Indiana-Ohio state line, to Red Oak, Iowa. The purpose of this filing is to eliminate the gateway of Chicago, Illinois.

No. MC 117815 (Sub-No. E23), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier, by motor vehicle*, over irregular routes, transporting: *Canned fruits* and *vegetables*, from points in that part of Michigan south of a line beginning at the Indiana-Michigan State line and extending along U.S. Highway 12 to junction unnumbered highway, at or near New Buffalo, Michigan, thence along unnumbered highway through Union Pier and Harbert, Michigan, to junction Interstate Highway 94, thence along Interstate Highway 94 to junction Business Route Interstate Highway 94, thence along Business Route Interstate Highway 94 to Benton Harbor, Michigan, thence along unnumbered highway through Coloma, Paw Paw, and Oshtemo, Michigan, to Kalamazoo, Michigan, and west of a line beginning at Kalamazoo, Michigan, and extending along unnumbered highway through Portage, Michigan, to junction U.S. Highway 131, at or near Schoolcraft, Michigan, thence along U.S. Highway 131 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Michigan Highway 103, thence along Michigan Highway 103 to the Michigan-Indiana State line (except Kalamazoo, Michigan), to points in Iowa on and east of U.S. Highway 69. The purpose of this filing is to eliminate the gateway of Chicago, Illinois.

No. MC 117815 (Sub-No. E24), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: (a) *Canned fruits* and *vegetables*, from points in that part of Michigan south of a line beginning at the Indiana-Michigan state line and extending along U.S. Highway 12 to junction unnumbered highway, at or near New Buffalo, Michigan, thence along unnumbered highway through Union Pier and Harbert, Michigan, to junction Interstate Highway 94, thence along Interstate Highway 94 to junction Business Route Interstate Highway 94, thence along Business Route Interstate Highway 94 to Benton Harbor, Michigan, thence along unnumbered highway through Coloma, Paw Paw, and Oshtemo, Michigan, to Kalamazoo, Michigan, and west of a line beginning at Kalamazoo, Michigan, and extending along unnumbered highway through Portage, Michigan, to junction U.S. Highway 131, at or near Schoolcraft, Michigan, thence along U.S. Highway 131 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Michigan Highway 103, thence along Michigan Highway 103 to the Michigan-Indiana State line (except Kalamazoo, Michigan), to points in Iowa on, west and south of a line commencing at the Iowa-Illinois state line and extending west over U.S. Highway 34 to Fairfield, Iowa, thence north over Iowa Highway 1 to junction Iowa Highway 78, thence west over Iowa Highway 78 to junction Iowa Highway 149, thence west over Iowa Highway 149 to junction U.S. Highway 63, thence north over U.S. Highway 63 to New Sharon, Iowa, thence north over Iowa Highway 146 to junction U.S. Highway 30.

Thence west over U.S. Highway 30 to junction Iowa Highway 14, thence north over Iowa Highway 14 to Marshalltown, Iowa, thence west over unnumbered road through Clemons and St. Anthony, Iowa, to McCallsburg, Iowa, thence west over Iowa Highway 221 to junction U.S. Highway 69, and thence north over U.S. Highway 69 to the Iowa-Minnesota state line: (b) *Canned goods*, from points in that part of Indiana bounded by a line commencing at the Illinois-Indiana state line

V 4271 APR 13 77 UMI

at unnumbered highway approximately four miles north of Effner, Indiana, and extending in a northeasterly direction (through Brook, Collegeville, Francesville, and Winamac, Indiana), to Warsaw, Indiana, thence north over Indiana Highway 15 to Goshen, Indiana, and thence in a northwesterly direction to the Indiana-Michigan state line near Granger, Indiana, to points in Iowa on, south and west of a line commencing at the Iowa-Illinois state line and extending west over U.S. Highway 6 to Iowa City, Iowa, thence northwest over U.S. Highway 218 to the Iowa-Minnesota state line, restricted in (a) and (b) above to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateways of Gary, Indiana and Peoria, Illinois.

No. MC 117815 (Sub-No. E25) filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (a) *Canned fruits and vegetables*, from points in that part of Indiana north of U.S. Highway 40 (except those in Lake and Porter Counties, Indiana, and except those north of U.S. Highway 20 and west of Indiana Highway 15 and LaPorte, Indiana), including points on the indicated portions of the highways specified, to Omaha, Nebraska; (b) *Canned goods and canned pet food*, from points in that part of Indiana bounded by a line commencing at the Illinois-Indiana State line at unnumbered highway approximately four miles north of Effner, Indiana, and extending along in a northeasterly direction (through Brook, Collegeville, Francesville, and Winamac, Indiana) to Warsaw, Indiana, thence north over Indiana Highway 15 to Goshen, Indiana, and thence in a northwesterly direction to the Indiana-Michigan State line near Granger, Indiana, to Omaha and Plattsmouth, Nebraska, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Chicago, Ill. and Des Moines, Iowa.

No. MC 117815 (Sub-No. E26), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Deerfield, Illinois, to points in that part of Minnesota west and south of a line commencing at the Iowa-Minnesota State line and extending north over U.S. Highway 59 to Marshall, Minnesota, and thence northwest over Minnesota Highway 68 through Canby, Minnesota to the South Dakota-Minnesota State line, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateways of DeKalb, Ill. and Des Moines, Iowa.

No. MC 117815 (Sub-No. E27), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in that part of Indiana bounded by a line commencing at the Illinois-Indiana State line at unnumbered highway approximately four miles north of Effner, Indiana, and extending in a northeasterly direction (through Brook, Collegeville, Francesville, and Winamac, Indiana), to Warsaw, Indiana, thence north over Indiana Highway 15 to Goshen, Indiana, and thence in a northwesterly direction to the Indiana-Michigan State line near Granger, Indiana, to Omaha and Plattsmouth, Nebraska, and points in Minnesota on, west and south of a line commencing at the Iowa-Minnesota State line and extending north over Minnesota Highway 15 to junction Minnesota Highway 30, thence west and north over Minnesota Highway 30 to junction Minnesota Highway 4, thence north over Minnesota Highway 4 to junction Minnesota Highway 68, thence northwest over Minnesota Highway 68 to Morgan, Minnesota, thence northwest over Minnesota Highway 67 to Granite Falls, Minnesota, thence northwest over U.S. Highway 212 to Montivedo, Minnesota, and thence northwest over Minnesota Highway 7 to Ortonville, Minnesota, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateways of Deerfield, Ill. and Des Moines, Iowa.

No. MC 117815 (Sub-No. E28), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th St., Des Moines, Iowa 50317. Applicant's representative. Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from North Chicago, Illinois, to Muscatine, Iowa, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 117815 (Sub-No. E29), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods and canned pet food*, from points in that part of Indiana bounded by a line commencing at the Illinois-Indiana State line at unnumbered highway approximately four miles north of Effner, Indiana, and extending in a northeasterly direction (through Brook, Collegeville, Francesville, and Winamac, Indiana) to Warsaw, Indiana, and thence in a north over Indiana Highway 15 to Goshen, Indiana, and thence in a northwesterly direction to the Indiana-Michigan State line near Granger, Indiana, to Denver and Pueblo, Colorado, and points in North Dakota and South Dakota and points in Minnesota on, south and west of a line commencing at the Iowa-Minnesota State line and extending north over U.S. Highway 65 to Albert Lea, Minnesota, thence north over Minnesota Highway 12 to Montgomery, Minnesota, thence north one mile to junction unnumbered road to LeSueur, Minnesota, unnumbered road, thence west over unnumbered road to LeSeur, Minnesota, thence west over Minnesota Highway 112 to junction Minnesota Highway 93, thence north on Minnesota Highway 93 to junction Minnesota Highway 19, thence west over Minnesota Highway 19 to junction Minnesota Highway 22, thence north and west over Minnesota Highway 22 to Hutchinson, Minnesota, thence west over Minnesota Highway 7 to junction U.S. Highway 71, thence north over U.S. Highway 71 to Willmar, Minnesota, thence northwest over U.S. Highway 12 to Benson, Minnesota, thence north on Minnesota Highway 19 to Starbuck, Minnesota, thence north over Minnesota Highway 114 to Lowry, Minnesota, thence northwest on Minnesota Highway 55 to junction U.S. Highway 59, thence north over U.S. Highway 59 to Thief River Falls, Minnesota, thence north on Minnesota Highway 32 to junction Minnesota Highway 11, thence northeast over Minnesota Highway 11 to junction Minnesota Highway 89, and thence north on Minnesota Highway 89 to the Minnesota-Canada border, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateways of Chicago, Ill., and Des Moines, Iowa.

No. MC 117815 (Sub-No. E30), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Packing house products*, between Des Moines and Davenport, Iowa, on the one hand, and, on the other, points in that part of Indiana bounded by a line commencing at the Illinois-Indiana State line at unnumbered highway approximately four miles north of Effner, Indiana, and extending in a northeasterly direction (through Brook, Collegeville, Francesville, and Winamac, Indiana) to Warsaw, Indiana, thence north over Indiana Highway 15 to Goshen, Indiana, and thence in a northwesterly direction to the Indiana-Michigan State line near

Granger, Indiana, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets.

No. MC 117815 (Sub-No. E31), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Unfrozen bakery products* (except in bulk, in tank vehicles), from the plant site of the United States Baking Company at Seeleyville, Indiana, to points in Illinois within the territory bounded on the east and south by a line commencing at Oneco, Illinois, and extending south over Illinois Highway 26 to junction unnumbered highway 5 miles south of Polo, Illinois, thence west and south over unnumbered highway through Penrose, Illinois, to junction Illinois Highway 2, thence southwest over Illinois Highway 2 to junction U.S. Highway 30, thence west over U.S. Highway 30 to Clinton, Iowa, and bounded on the west and north by a line beginning at Clinton, Iowa, and extending north to Savanna, Illinois, thence northwesterly to Galena, Illinois, and thence east through Warren, Illinois, to Oneca, Illinois, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Clinton, Iowa.

No. MC 117815 (Sub-No. E32), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale grocery and food business houses, and in connection therewith, equipment, materials, and supplies used in the conduct of such business, when moving to or from such business houses or other facilities thereof (except in bulk), (a) from points in that part of Indiana within the territory bounded by a line beginning at the Illinois-Indiana State line and extending east on Indiana Highway 10 to junction Indiana Highway 110, thence east on Indiana Highway 110 to junction Indiana Highway 143, thence east on Indiana Highway 143 to junction U.S. Highway 421, thence south on U.S. Highway 421 to junction Indiana Highway 14, thence east on Indiana Highway 14 to Winamac, Indiana, thence along a line in a northeasterly direction to Warsaw, Indiana, thence north to Goshen, Indiana, and thence in a northwesterly direction to the Indiana-Michigan State line near Granger, Indiana, to Chariton, Iowa, restricted to traffic destined to Chariton, Iowa. (b) from points in Illinois within the territory bounded by a line beginning at the shore of Lake Michigan and extending west along a line through Winthrop Harbor, Illinois, to where it intersects with Illinois Highway 76, thence south over Illinois Highway 76 to junction U.S. Highway B.R. 20, thence southeast over U.S. Highway B.R. 20 to Belvidere, Illinois, thence south over unnumbered highway through Kirkland, Illinois, to junction Illinois Highway 64, thence west over Illinois Highway 64 to junction U.S. Highway 51, thence south over U.S. Highway 51 to Rochelle, Illinois, thence south and east over unnumbered highways through Steward and Lee, Illinois, to junction U.S. Highway 30, thence east over U.S. Highway 30 to junction unnumbered highway at Big Rock, Illinois, thence south over unnumbered highway to Plano, Illinois, thence east over U.S. Highway 34 to junction Illinois Highway 47, thence south over Illinois Highway 47 to Yorkville, Illinois, thence east over Illinois Highway 126 to junction U.S. Highway 30, thence southeast over U.S. Highway 30 to junction U.S. Highway 52, thence south over U.S. Highway 52 to junction unnumbered highway, thence east over unnumbered highway through St. George, Illinois, to junction Illinois Highway 1, thence south over Illinois Highway 1 to Momence, Illinois, thence east over Illinois Highway 114 to the Illinois-Indiana State line, thence north along the Illinois-Indiana State line to the shore to Lake Michigan, and thence north along the shore of Lake Michigan to the point of beginning, to Chariton, Iowa, restricted to traffic destined to Chariton, Iowa. The purpose of this filing is to eliminate the gateways of Des Moines, Iowa, and DeKalb, Ill.

No. MC 117815 (Sub-No. E34), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by-products, and articles distributed by meat packing houses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, except liquid commodities in bulk, in tank vehicles, from points in that part of Indiana bounded by a line commencing at the Illinois-Indiana State line at unnumbered highway approximately four miles north of Effner, Indiana, and extending in a northeasterly direction (through Brook, Collegeville, Francesville, and Winamac, Indiana) to Warsaw, Indiana, thence north over Indiana Highway 15 to Goshen, Indiana, and thence in a northwesterly direction to the Indiana-Michigan State line near Granger, Indiana, to Omaha and Plattsmouth, Nebraska; and points in Iowa on and east of U.S. Highway 69, restricted to movements from, to or between wholesale grocery houses, their warthouses, and retail outlets. The purpose of this filing is to eliminate the gateways of Momence, Ill. and Des Moines, Iowa.

No. MC 117815 (Sub-No. E35), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen fruits, frozen berries, and frozen vegetables*, from points in Illinois within the territory bounded by a line beginning at the shore of Lake Michigan and extending west along a line to where it connects with U.S. Highway 14, thence south along U.S. Highway 14 to Woodstock, Illinois, thence south along Illinois Highway 47 to Dwight, Illinois, thence east on Illinois Highway 17 to Kankakee, Illinois, thence south on U.S. Highway 45 to junction Illinois Highway 49, thence south over Illinois Highway 49 to Crescent City, Illinois, thence east over U.S. Highway 24 to Watseka, Illinois, thence along a line in a northeasterly direction to the Illinois-Indiana State line, thence north along the Illinois-Indiana State border to the shore of Lake Michigan, and thence north along the shore of Lake Michigan to the point of beginning, to Omaha and Plattsmouth, Nebraska, restricted to movements from, to or between wholesale houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Chicago, Ill., and Des Moines, Iowa.

No. MC 117815 (Sub-No. E36), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 Southeast 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from points in that part of Wisconsin within the territory bounded on the south by Wisconsin Highway 29 and on the east by U.S. Highway 51, to points in that part of Illinois within the territory bounded by a line beginning at Savanna, Illinois, and extending south to Galesburg, Illinois, thence in a southeasterly direction to Peoria, Illinois, thence east to Forrest, Illinois, thence north over Illinois Highway 47 to junction Illinois Highway 116, thence west over Illinois Highway 116 to Pontiac, Illinois, thence north over Illinois Highway 23 to Streator, Illinois, thence west over Illinois Highway 18 to junction U.S. Highway 51, thence north over U.S. Highway 51 to junction U.S. Highway 52, and thence north and west over U.S. Highway 52 to the point of beginning, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Clinton, Iowa.

No. MC 117815 (Sub-No. E38), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 Southeast 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox,

V 42 71 APR 13 77 UMI

900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from points in that part of Wisconsin within the territory bounded on the north by Wisconsin Highway 29, and on the south by U.S. Highway 18 beginning at Prairie du Chien, Wisconsin, thence east over U.S. Highway 18 to junction U.S. Highway 151, thence east over U.S. Highway 151 to Beaver Dam, Wisconsin, thence east over Wisconsin Highway 33 to junction U.S. Highway 41, thence southeast over U.S. Highway 41, thence southeast over U.S. Highway 41 to junction unnumbered highway one mile southeast of Fussyville, Wisconsin, and thence east over unnumbered highway to Whitefish Bay, Wisconsin, to points in that part of Illinois within the territory beginning at the Mississippi River and extending south along a line to Galesburg, Illinois, thence in a southeasterly direction to Peoria, Illinois, thence north over Illinois Highway 88 to junction U.S. Highway 6, thence west over U.S. Highway 6 to Annawan, Illinois, thence north over Illinois Highway 78 to Morrison, Illinois, and thence west over U.S. Highway 30 to the point of beginning, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Clinton, Iowa.

No. MC 117815 (Sub-No. E39), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 Southeast 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass bottles and closures therefor*, from points in that part of Illinois within the territory bounded by a line beginning at the shore of Lake Michigan and extending west along a line through Winthrop Harbor, Ill., to where it connects with Illinois Highway 47, thence south over Illinois Highway 47 to junction U.S. Highway 30, and thence south and east over U.S. Highway 30 to the Illinois-Indiana State line, to points in Missouri, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Plainfield, Ill.

No. MC 117815 (Sub-No. E40), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 Southeast 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from points in that part of Wisconsin on and west of a line beginning at LaCrosse, Wis., and extending northwest on Wisconsin Highway 35 to Nelson, Wis., thence north on Wisconsin Highway 25 to Durand, Wis., thence west over U.S. Highway 10 to junction U.S. Highway 63, thence north over U.S. Highway 63 to junction U.S. Highway 2, thence northeast over U.S. Highway 2 to the junction of Wisconsin Highway 13, and thence along a line northeast to the shore of Lake Superior, to points in Illinois within the territory bounded by a line beginning at Thompson, Ill., and extending along a line south to Galesburg, Ill., thence a southeasterly direction to Peoria, Ill., thence east to Onarga, Ill., thence in a northeasterly direction to the Illinois-Indiana State line, thence north along the Illinois-Indiana State line to the shore of Lake Michigan, thence north along the shore of Lake Michigan to Chicago, Ill., thence west over Interstate Highway 90 to the junction of Illinois Highway 38, thence west over Illinois Highway 38 to Dixon, Ill., thence north over U.S. Highway 52 to junction unnumbered highway just south of Polo, Ill., thence west over unnumbered highway to Milledgeville, Ill., thence north on Illinois Highway 88 to Chadwick, Ill., and thence west on unnumbered highway through Fay, Ill., to the point of beginning, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Clinton, Iowa.

No. MC 117815 (Sub-No. E41), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 Southeast 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass bottles and closures therefor*, from points in Illinois within territory bounded by a line beginning at the shore of Lake Michigan and extending west along a line through Winthrop Harbor, Ill., to where it connects with Illinois Highway 47, thence south over Illinois Highway 47 to Forrest, Ill., thence east over U.S. Highway 24 to Watseka, Ill., and thence along a line in a northeasterly direction to the Illinois-Indiana State line, to Omaha and Plattsmouth, Nebr., and to points in North Dakota and South Dakota, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Plainfield, Ill., and Des Moines, Iowa.

No. MC 117815 (Sub-No. E42), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 Southeast 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass bottles and closures therefor*. (a) From points in Illinois within the territory bounded by a line beginning at the shore of Lake Michigan and extending west through Chicago, Ill., over Interstate Highway 90 to junction Illinois Highway 38, thence west over Illinois Highway 38 to Glen Ellyn, Ill., thence south over Illinois Highway 53 to junction Illinois Highway 5, thence west over Illinois Highway 5 to junction Illinois Highway 31, thence south over Illinois Highway 31 to junction U.S. Highway 30, thence southeast over U.S. Highway 30 to Joliet, Ill., thence south over U.S. Highway 52 to Kankakee, Ill., thence east over Illinois Highway 17 to Momence, Ill., and thence east over Illinois Highway 114 to the Illinois-Indiana State line, to points in Iowa, and (b) from points in Illinois within the territory bounded by a line beginning at the shore of Lake Michigan and extending west along a line through Winthrop Harbor, Ill., to where it connects with Illinois Highway 47, thence south over Illinois Highway 47 to junction Illinois Highway 38, thence east over Illinois Highway 38 to junction Interstate Highway 90, thence east over Interstate Highway 90 to Chicago, Ill., and the shore of Lake Michigan, to points in Iowa on and south of a line beginning at the Iowa-Illinois State line and extending west over U.S. Highway 34 to Ottumwa, Iowa, thence north over U.S. Highway 63 to New Sharon, Iowa, thence north over Iowa Highway 146 to junction U.S. Highway 30, thence west over U.S. Highway 30, (including Marshalltown, Iowa) to junction Interstate Highway 35, thence north on Interstate Highway 35 to junction Iowa Highway 175, thence west over Iowa Highway 175 to junction U.S. Highway 59, thence north over U.S. Highway 59 to junction U.S. Highway 20, thence west over U.S. Highway 20 to Correctionville, Iowa, thence north and west over unnumbered road through Pierson, Kingsley, and Neptune, Iowa, to LeMars, Iowa, thence north over U.S. Highway 75 to junction Iowa Highway 10, and thence west and north over Iowa Highway 10 to the Iowa-South Dakota State line, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Plainfield, Ill.

No. MC 117815 (Sub-No. E43), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 Southeast 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass bottles* and *closures* therefor, from points in Illinois within the territory bounded by a line beginning at the shore of Lake Michigan and extending west through Chicago, Illinois, over Interstate Highway 90 to junction Illinois Highway 5, thence west over Illinois Highway 5 to junction Illinois Highway 47, thence south over Illinois Highway 47 to Forrest, Illinois, thence east over U.S. Highway 24, to Watseka, Illinois, thence along a line in a northeasterly direction to the Illinois-Indiana state line, thence north along the Illinois-Indiana state line to the shore of Lake Michigan, and thence north along the shore of Lake Michigan to point of beginning, to points in Wisconsin on, north, and west of a line beginning at the Iowa-Wisconsin state line and extending east over U.S. Highway 18 to Bridgeport, Wisconsin, thence east over Wisconsin Highway 60 to junction U.S. Highway 51, thence north over U.S. Highway 51 to the Wisconsin-Michigan state line, and to points in Minnesota, restricted to movements from, to, or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Plainfield, Illinois.

No. MC 117815 (Sub-No. E44), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 Southeast 20th St., Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass bottles* and *closures* therefor, from points in that part of Indiana bounded by a line commencing at the Illinois-Indiana state line at unnumbered highway approximately four miles north of Effner, Indiana, and extending in a northeasterly direction (through Brook, Collegeville, Francesville, and Winamac, Indiana), to Warsaw, Indiana, thence north over Indiana Highway 15 to Goshen, Indiana, and thence in a northwesterly direction to the Indiana-Michigan state line near Granger, Indiana, to: (a) Omaha and Plattsmouth, Nebraska, and (b) points in Wisconsin on and west of U.S. Highway 51, points in Minnesota, North Dakota, South Dakota, and points in Iowa, on and north and west of a line beginning at the Iowa-Illinois state line and extending west on U.S. Highway 34 to Mt. Pleasant, Iowa, thence south and west over unnumbered highway through Oakland Mills and Salem, Iowa, to Hillsboro, Iowa, thence south over Iowa Highway 270 to junction Iowa Highway 16, thence west over Iowa Highway 16 to junction Iowa Highway 1 to junction Iowa Highway 2, thence west over Iowa Highway 2 to junction Iowa Highway 15, thence south over Iowa Highway 15 to the Iowa-Missouri state line, and to points in Missouri on, west, and south of a line beginning at the Iowa-Missouri state line and extending south over U.S. Highway 63 to Rolla, Missouri, thence southeast on Missouri Highway 72 to junction Missouri Highway 21, thence south over Missouri Highway 21 to junction U.S. Highway 60, thence southeast over U.S. Highway 60 to Poplar Bluff, Missouri, and thence south over U.S. Highway 67 to the Missouri-Arkansas state line, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Plainfield, Illinois.

No. MC 117815 (Sub-No. E45), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50300. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glassware*, as described in Appendix IX to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 200, from points in Illinois within the territory bounded by a line beginning at the shore of Lake Michigan and extending west through Chicago, Illinois, over U.S. Highway Alternate 30 to junction Illinois Highway 38, thence west over Illinois Highway 38 to De Kalb, Illinois, thence south over Illinois Highway 23 to Pontiac, Illinois, thence south over unnumbered highway to Weston, Illinois, thence east over U.S. Highway 24 to Watseka, Illinois, thence along a line in a northeasterly direction to the Illinois-Indiana state line, thence north along the Illinois-Indiana state line to the shore of Lake Michigan, and thence north along the shore of Lake Michigan to point of beginning, to points in Minnesota on, north and west of a line beginning at the Minnesota-Wisconsin state line and extending south over U.S. Highway 63 to Rochester, Minnesota, thence west over U.S. Highway 14, to Mankato, Minnesota, thence southwest over Minnesota Highway 60 to Windom, Minnesota, and thence south over U.S. Highway 71 to the Minnesota-Iowa state line, restricted to movements from, to or between wholesale grocery houses, their warehouses, and retail outlets. The purpose of this filing is to eliminate the gateway of Currie, Illinois.

No. MC 117815 (Sub-No. E46), filed May 24, 1975. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glassware*, as described in Appendix IX to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209, from points in Illinois within the territory bounded by a line beginning at the shore of Lake Michigan and extending west through Chicago, Illinois, over U.S. Highway Alternate 30 to junction Illinois Highway 38, thence west over Illinois Highway 38 to DeKalb, Illinois, thence south over Illinois Highway 23 to junction Illinois Highway 17, thence west over Illinois Highway 17 to junction U.S. Highway 51, thence south over U.S. Highway 51 to junction U.S. Highway 24, thence east over U.S. Highway 24 to Watseka, Illinois, thence along a line in a northeasterly direction to the Illinois-Indiana state line, thence north along the Illinois-Indiana state line to the shore of Lake Michigan, and thence north along the shore of Lake Michigan to point of beginning, to points in Wisconsin bounded by Wisconsin Highway 29 on the south and U.S. Highway 51 on the east, restricted to movements from, to or between wholesale grocery houses, their warehouses and retail outlets. The purpose of this filing is to eliminate the gateway of Gurnee, Illinois.

No. MC 123407 (Sub-No. E273), filed March 30, 1976. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such iron and steel articles* as are building materials, from Warren, Ill., to the points in Alabama; Georgia; North Carolina; South Carolina; Mississippi in the counties of Jones, Clarke, Wayne, Marion, Lamar, Forest, Perry, Greene, Pearl River, Stone, George, Hancock, Harrison, and Jackson; and Texas in the counties of Presidio, Maverick, Dimmit, LaSalle, McMullen, Live Oak, Bee, Refugio, San Patricio, Webb, Duval, Jim Wells, Nueces, Kleberg, Zapata, Jim Hogg, Brooks, Kenedy, Starr, Hildalgo, Willacy, and Cameron and Louisiana in the parishes of Washington, Iberville, Ascension, St. Mary, Assumption, St. James, St. John the Baptist, Terrebonne, Lafourche, St. Charles, Jefferson, Orleans, St. Bernard, and Plaquemines. [Notice No. 48]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

APRIL 6, 1977.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication on or before April 27, 1977. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 71642 (Sub-No. 25TA) filed March 25, 1977. Applicant: CONTRACTUAL CARRIERS, INC., Harmony Industrial Park, Allen Drive, Newark, Del. 19711. Applicant's representative: Samuel W. Earnshaw, 833 Washington Bldg., Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Chemically hardened fibre and insulating materials, articles, sheets, shapes and forms, including plastics and plastic articles, sheets, shapes, forms, rods, tubes, grinding and pellets*, for the account of Keysor-Century Corporations, between Delaware City Commercial Zone, and Newark, Del., on the one hand, and, the commercial zones of Hialeah and Miami, Fla., and Mt. Vernon, N.Y., and Holtsville and Holbrook, L.I., N.Y., and return from these points, under a continuing contract with Keysor Century Corp., for 180 days. Supporting shipper: Keysor Century Corp., P.O. Box 311, Delaware City, Del. 19706.

No. MC 79687 (Sub-No. 9TA) filed March 24, 1977. Applicant: WARREN C. SAUERS CO., INC., 200 Rochester Road, Zelienople, Pa. 16063. Applicant's representative: Henry M. Wick, Jr., 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers, caps, stoppers and covers*, from the facilities of Glenshaw Glass Company, Inc., Glenshaw, Allegheny County, Pa., to Detroit and Howell, Mich., and points in their Commercial Zone; with the right to return refused, rejected or damaged shipments, to point of origin, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Glenshaw Glass Company, Inc., 1101 Wm. Flynn Highway, Glenshaw, Pa. 15116. Send protests to: John J. England, District Supervisor, Interstate Commerce Commission, 2111 Federal Bldg., 1000 Liberty Ave., Pittsburgh, Pa. 15222.

No. MC 87617 (Sub-No. 4TA) (amendment) filed March 8, 1977, published in the FR issue of March 24, 1977, and republished as amended this issue. Applicant: HARRY BLOCK TRUCKING CO., INC., 100 Lockwood St., Newark, N.J. 07105. Applicant's representative: Piken & Piken, One Lefrak City Plaza, Flushing, N.Y. 11368. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *New furniture*, from the warehouse and terminal of Harry Block Trucking Co., Inc., in Newark, N.J., to points in Fairfield County, Conn.; Dutchess, Sullivan and Ulster Counties, N.Y.; Burlington, Hunterdon, Warren, Sussex and Ocean Counties, N.J.; and (2) *Wheeled vehicles*, including but not limited to doll carriages, carriages, strollers, children's vehicles, bicycles, tricycles, unicycles; infant's dressing tables: baby car seats; outdoor playground apparatus and sleds, from the warehouse and terminal facilities of Harry Block Trucking Co., Inc., in Newark, N.J., to New York City, Nassau, Orange, Putnam, Rockland, Sullivan, Ulster, Suffolk, Westchester and Dutchess Counties, N.Y.; Bergen, Essex, Hudson, Mercer, Middlesex, Monmouth, Morris, Passaic, Somerset, Union, Hunterdon, Burlington, Warren, Sussex, and Ocean Counties, N.J., and Fairfield County, Conn., restricted to traffic having a prior movement by rail or truck, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: (1) Hedstrom Co., Box 432, Bedford, Pa. 15522. (2) Min Dee Distributors, Inc., P.O. Box 130, Syosset, N.Y. 11791. (3) Carriage Craft Co., One Park Ave., New York, N.Y. 10016. (4) Jack and Murray Levene Corp., 73-73 196th Place, Flushing, N.Y. 11366. Send protests to: Robert S. H. Vance, District Supervisor, Interstate Commerce Commission, 9 Clinton St., Newark, N.J. 07102. The purpose of this republication is to amend the territorial description in this proceeding.

No. MC 102567 (Sub-No. 195TA), filed March 25, 1977. Applicant: McNAIR TRANSPORT, INC., P.O. Drawer 5357, 4295 Meadow Lane, Bossier City, La. 71010. Applicant's representative: Joe C. Day, 2040 N. Loop West, Suite 208, Houston, Tex. 77018. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Hydrochloric* (muriatic acid), in bulk, in rubber-lined tank vehicles, from Deer Park (Harris County), Tex., to points in Arkansas, Louisiana, Mississippi and Oklahoma, for 180 days. Supporting shipper: Arkla Chemical Corporation, P.O. Box 751, Little Rock, Ark. 72203. Send protests to: Ray C. Armstrong, Jr., District Supervisor, 701 Loyola Ave., 9038 Federal Bldg., New Orleans, La. 70113.

No. MC 104589 (Sub-No. 34TA), filed March 21, 1977. Applicant: SOUTHERN FREIGHTWAYS, INC., P.O. Box 374, Eustis, Fla. 32726. Applicant's representative: David C. Venable, 805 McLachlen Bank Bldg., 666 11th St. NW., Washington, D.C. 20001. [I.C.C. Order No. 29; Service Order No. 1252]

REROUTING TRAFFIC

In the opinion of Joel E. Burns, Agent, The Chesapeake and Ohio Railway Company is unable to handle traffic to and from connections at Elkhorn City, Kentucky, because of flooding and track damage on its Big Sandy Division.

It is ordered, That: (a) *Rerouting traffic.* The Chesapeake and Ohio Railway Company, being unable to handle traffic to and from connections at Elkhorn City, Kentucky, because of flooding and track damage on its Big Sandy Division, that line is hereby authorized to divert and reroute such traffic over any available route to expedite the movement regardless of the routing shown on the waybill. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) *Concurrence of receiving roads to be obtained.* The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) *Notification to shippers.* Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) *Effective date.* This order shall become effective at 10:30 a.m., April 6, 1977.

(g) *Expiration date.* This order shall expire at 11:59 p.m., April 13, 1977, unless otherwise modified, changed or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as Agent of all railroads, subscribing to the car service and car hire agreement under the terms of that agreement; and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., April 6, 1977.

INTERSTATE COMMERCE COMMISSION,
JOEL E. BURNS,
Agent.

[No. MC-113658 (Sub-No. 11)]

SCOTT TRUCK LINE, INC. (COMMERCE CITY, COLO.)

APRIL 8, 1977.

Notice to all interested parties: Attention of all interested persons is called to the order of Division 1 acting as an Appellate Division, entered in Scott Truck Line, Inc., Docket No. MC-113658 (Sub-No. 11)[1] which assigned these matters for *prehearing conference* instead of oral hearing. These proceedings involve applications by numerous common carriers for authority for the transportation of meats and related commodities from all or specified points in Colorado to points in designated states. Pursuant to that order, applicants in all similar cases, whether or not published in the FEDERAL REGISTER, who desire or expect to have similar applications consolidated for hearing, should attend the prehearing conference now scheduled before Administrative Law Judge Edward J. Reidy on April 20, 1977, at Denver, Colorado, at 9:30 a.m. local time at the Tax Court, Room 587, U.S. Federal Building, 19th and Stout St., Denver, Colorado.

ROBERT L. OSWALD,
Secretary.

AGENCY HOLDING THE MEETING: Civil Aeronautics Board.

CANCELLATION OF MEETING

APRIL 7, 1977.

The April 7, 1977 meeting regarding a Briefing by the Bureau of Enforcement-Activities and Plans and Briefing by the Bureau of Enforcement-Pending and Proposed Court Cases announced on March 31, 1977 will not take place.

At the scheduled meeting time, the press of other agency business would have permitted the attendance of only two Board Members for the entire length of the anticipated meeting. Because the purpose of the meeting was to brief and obtain the views of the Board, it was decided to cancel the announced meeting and re-schedule the Briefings for an as-yet-undetermined future time to permit the attendance of a greater number of Board Members.

SUPPLEMENTARY INFORMATION: The following Members have voted that agency business requires that this meeting be cancelled and that no earlier announcement of the change was possible:

Chairman John E. Robson
Member G. Joseph Minetti
Member Lee R. West

Vice Chairman Richard J. O'Melia and Member R. Tenney Johnson were not present.

PHYLLIS T. KAYLOR,
Secretary.

2

AGENCY HOLDING THE MEETING: U.S. Comission on Civil Rights.

FEDERAL REGISTER CITATION OF PREVIOUS ANNOUNCEMENT: 42 FR 13574.

DATE AND TIME: March 14 and 15, 1977.

PLACE: Patio Room, Los Angeles Hilton Hotel, Los Angeles, California.

CHANGES IN THE MEETING:

In the previous announcement of the meeting, agenda items 5. Review of H.R. 3504 Civil Rights Amendments Act of 1977; 7. Proposed Technical and Jurisdictional Amendments of the Commission Statute (42 U.S.C. 1975) and 8. Review of Fiscal Year 1977 Commission Program, were scheduled for the open portion of the meeting. On March 14, 1977, the Commissioners unanimously voted in separate votes that items 5, 7, and 8 be rescheduled for the closed portion of the meeting.

In addition, a new item, Discussion of a draft of the Los Angeles School Desegregation Report was added to the agenda of the closed portion of the meeting and a new item: Consideration of interim appointments to the District of Columbia and Missouri State Advisory Committees was added to the open portion of the meeting.

CONTACT PERSON FOR FURTHER INFORMATION:

Barbara Brooks, Public Affairs Unit, 202-254-6697.

3

AGENCY HOLDING THE MEETING: Consumer Product Safety Commission.

TIME AND DATE: April 20, 1977, 9:30 a.m.

PLACE: 3rd Floor Hearing Room, 1111 18th St. NW, Washington.

STATUS: Open.

MATTERS TO BE CONSIDERED:

Mid-Year Review: The Commission will continue the mid-fiscal year review of its Operating Plan, which it began at the April 14, 1977 Commission meeting.

CONTACT PERSON FOR ADDITIONAL INFORMATION:

Sheldon D. Butts, Assistant Secretary, Office of the Secretary, Suit 300, 1111 18th St. NW., Washington, D.C. 20207. Telephone: 202-634-7700.

[S-141-77 Filed 4-11-77;10:03 am]

4

AGENCY HOLDING THE MEETING: United States Parole Commission—National Commissioners (the three Commissioners presently maintaining offices at Washington, D.C. Headquarters).

TIME AND DATE: Tuesday, April 12, 1977; 9:30 a.m.

PLACE: Room 338 Federal Home Loan Bank Board Building, 320 First Street NW., Washington, D.C. 20537.

STATUS: Closed—Pursuant to 5 U.S.C. 552b(c)(10) and 28 CFR 16.205(b)(1).

MATTERS TO BE CONSIDERED: Referrals from regional directors of approximately 20 cases in which inmates of Federal Prisons have applied for parole or are contesting revocation of parole or madatory release.

CONTACT PERSON FOR MORE INFORMATION:

Jack Schneider—Analyst, 202-724-3094.

[S-143-77 Filed 4-11-77;10:39 am]

5

AGENCY HOLDING THE MEETING: U.S. Commission on Civil Rights.

TIME AND DATE: 9 a.m. to 12 p.m.; 1:30 p.m. to 5:30 p.m. Monday, April 18, 1977; 8 a.m. to conclusion of agenda, Tuesday, April 19, 1977.

PLACE: Open portion of meeting: Room 512; Closed portion of meeting: Room 800, 1121 Vermont Avenue NW., Washington, D.C.

STATUS: Part of the meeting will be open to the public and part of the meeting will be closed to the public.

MATTERS TO BE CONSIDERED:

Portion open to the public 1 p.m. to 2:30 p.m., Monday, April 18, 1977:

1. Approval of agenda.
2. Approval of minutes of last meeting.
3. Staff Director's report: (A) Status of funds; (B) Personnel Report; (C) Correspondence; and (D) Office directors' reports.
4. Decision regarding interim appointments to Arkansas, New York, and Rhode Island Advisory Committees.
5. Decision regarding rechartering of New Jersey and Wisconsin Advisory Committees.

6. Report on civil rights developments in the Southern and Southwestern Regions.
7. Decisions on consumer federation request regarding discriminatory clubs.
8. Report on Voting Rights Act monitoring efforts.
9. Decision on age discrimination hearings.
10. Decision on Arab boycott hearing.
11. Newsclips.

MATTERS TO BE CONSIDERED:

Portion closed to the public on April 18, 1977, at 9 a.m. and 2:30 p.m. and on April 19, at 8:00 a.m.:

1. Decision on proposed legislation extending life of Commission.
2. Review of testimony on H.R. 3504 (amendments to Title VII of the Civil Rights Act of 1964, reorganization of the EEOC).
3. Review of Los Angeles hearing report on school desegregation.
4. Review of Volume VII, Federal Civil Rights Enforcement Effort report (civil rights policymaking in the Federal Government).

Federal Insurance Administration

■

NATIONAL FLOOD INSURANCE PROGRAM

Communities Eligible for Sale of Insurance

V42 71 APR 13 77 UMI

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-2841]

PART 1914—COMMUNITIES ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to list those communities where the sale of flood insurance is authorized under the National Flood Insurance Program.

Flood insurance policies for property located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state.

DATES: The date that appears in the fourth column of the table is the effective date of authorization for the sale of flood insurance.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, (202–755–5581) or Toll Free Line (800–424–8872) Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Flood Disaster Protection Act of 1973 (Pub. L. 93–234) requires the purchase of flood insurance as a condition of receiving any form of Federal or federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified for at least one year by the Secretary of Housing and Urban Development. The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction except as authorized by section 202(b) of the Act, as amended, unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

The addresses of the National Flood Insurers Association servicing companies, where flood insurance policies can be obtained, are published at § 1912.5 (24 CFR Part 1912).

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 533(b) are impracticable and unnecessary.

Section 1914.6 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The entry reads as follows:

§ 1914.6 List of eligible communities.

SUMMARY: The purpose of this rule is to list those communities where the sale of flood insurance is authorized under the National Flood Insurance Program. Flood Insurers Association servicing located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurance Association servicing company for the state.

DATES: The date that appears in the fourth column of the table is the effective date of authorization for the sale of flood insurance.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, (202) 755–5581 or Toll Free Line 800–424–8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Flood Disaster Protection Act of 1973 (Pub. L. 93–234) requires the purchase of flood insurance as a condition of receiving any form of Federal of federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified for at least one year by the Secretary of Housing and Urban Development. The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction except as authorized by section 202(b) of the Act, as amended, unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

The addresses of the National Flood Insurers Association servicing companies, where flood insurance policies can be obtained, are published at § 1912.5 (24 CFR Part 1912).

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.6 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The entry reads as follows:

§ 1914.6 List of eligible communities.

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968); effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator (34 FR 2680, Feb. 27, 1969), as amended, 39 FR 2787, Jan. 24, 1974.)

Issued: February 18, 1977.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[FR Doc.77-10669 Filed 4-12-77;8:45 am]

[Docket No. FI-2843]

PART 1914—COMMUNITIES ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to list those communities where the sale of flood insurance is authorized under the National Flood Insurance Program.

Flood insurance policies for property located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state.

DATES: The date that appears in the fourth column of the table is the effective date of authorization for the sale of flood insurance.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, (202) 755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Flood Disaster Protection Act of 1973 (Pub. L. 93-234) requires the purchase of flood insurance as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified for at least one year by the Secretary of Housing and Urban Development. The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction except as authorized by Section 202(b) of the Act, as amended, unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

The addresses of the National Flood Insurers Association servicing companies where flood insurance policies can be obtained, are published at § 1912.5 (24 CFR Part 1912).

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.6 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The entry reads as follows:

[Docket No. FI-2848]

PART 1914—COMMUNITIES ELIGIBLE FOR THE SALE OF INSURANCE

Suspension of Community Eligibility

AGENCY: Federal Insurance Administration. HUD.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to list communities wherein the sale of flood insurance as authorized under the National Flood Insurance Program (42 U.S.C. 4001–4128) will be suspended because of noncompliance with the program regulations (24 CFR Part 1909 et seq.).

DATES: See table.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, (202) 755–5581 or Toll Free Line 800–424–8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.6 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The last date that appears in the fourth column of the table is provided in order to designate the effective date of the suspension of the sale of flood insurance in the area under the emergency or the regular phase of the National Flood Insurance Program.

The Flood Disaster Protection Act of 1973 (Pub. L. 93–234) requires the purchase of flood insurance as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified by the Secretary of Housing and Urban Development.

The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program and insurance is purchased. Accordingly, for communities listed under this Part such restriction exists as of the effective date of suspension because insurance, which is required, cannot be purchased.

Section 1315 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4022) prohibits flood insurance coverage unless an appropriate public body shall have adopted adequate flood plain management measures with effective enforcement measures. The communities suspended in this notice no longer meet that statutory requirement. Accordingly, the communities are suspended on the effective date in the list below:

The entry reads as follows:

§ 1914.6 List of eligible communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	Community No.

■

CUMULATIVE REPORT ON RESCISSIONS AND DEFERRALS

April 1977

V 42 71 APR 13 77 UMI

OFFICE OF MANAGEMENT AND BUDGET

CUMULATIVE REPORT ON RESCISSIONS AND DEFERRALS

April 1977

This report is submitted in fulfillment of the requirements of Section 1014(e) of the Impoundment Control Act of 1974 (Pub. L. 93-344). Section 1014(e) provides for a monthly report listing all current year budget authority with respect to which, as of the first day of the month, a special message has been transmitted to the Congress.

This month's report gives the status as of April 1, 1977, of the 13 rescissions and 54 deferrals contained in the first nine special messages transmitted to the Congress for fiscal year 1977. These messages were transmitted to the Congress on July 29, September 22, October 1, November 5, December 3, 1976, January 7, and 17, and March 9, and 24, 1977.

RESCISSIONS (TABLE A AND ATTACHMENT A)

There are no rescissions of budget authority pending before the Congress at the present time. Table A summarizes the status of rescissions proposed as of April 1, 1977. Attachment A shows the history and status of each rescission proposed for fiscal year 1977.

DEFERRALS (TABLE B AND ATTACHMENT B)

As of April 1, 1977, $4,412.2 million in 1977 budget authority was being deferred from obligation and another $59.5 million in 1977 obligations was being deferred from expenditure. Table B summarizes the status of existing deferrals. Attachment B shows the history and status of each deferral proposed during fiscal year 1977.

INFORMATION FROM SPECIAL MESSAGES

The special messages containing information on each of the rescissions and deferrals covered by the cumulative report are contained in the FEDERAL REGISTERS of:

Tuesday, August 3, 1976 (Vol. 41, No. 150, Part VI)
Monday, September 27, 1976 (Vol. 41, No. 188, Part III)
Thursday, October 7, 1976 (Vol. 41, No. 196, Part IV)
Wednesday, November 10, 1976 (Vol. 41, No. 218, Part VII)
Wednesday, December 8, 1976 (Vol. 41, No. 237, Part II)
Thursday, January 13, 1977 (Vol. 42, No. 9, Part X)
Monday, January 24, 1977 (Vol. 42, No. 15, Part VIII)
Wednesday, March 16, 1977 (Vol. 42, No. 51, Part IV)
Wednesday, March 30, 1977 (Vol. 42, No. 61, Part VI)

JAMES T. MCINTYRE, Jr.,
Acting Director.

Overturned by the Congress	-25.6
Currently before the Congress	4,471.7 3/

1/ This amount is the difference between $721.0 million in Navy shipbuilding and conversion funds originally proposed for rescission and $452.6 million rescinded. When the rescission was proposed, these funds were already obligated for supply contracts. In testimony before the House Appropriations Committee, the Secretary of Defense concurred in the opinion that these contracts should not be terminated.

2/ An amount equal to $1,431.1 million included in the "Adjustments" column of Attachment B to this report represents superseded deferrals. This amount is not included in the "adjustments" entry above because superseded deferrals are netted out in calculating the amount shown on the line "Deferrals proposed by the President" to avoid double counting.

3/ Includes $59.5 million of outlays in two Treasury deferrals--D77-26 and D77-27A.

List of Public Laws

This is a continuing numerical listing of public bills which have become law, together with the law number, the title, the date of approval, and the U.S. Statutes citation. The list is kept current in the FEDERAL REGISTER and copies of the laws may be obtained from the U.S. Government Printing Office.

H.R. 4800.....Pub. L. 95–19 Emergency Unemployment Compensation Act of 1977. (Apr. 12, 1977; 91 Stat. 39) Price: $.35

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

PROCLAMATION 4500

National Defense Transportation Day and National Transportation Week, 1977

By the President of the United States of America

A Proclamation

Our nation's transportation network provides us with the goods and services we need and the mobility in work and play that we want.

While our transportation systems have improved in recent years, they can still be made more efficient, accessible, and responsive to the needs of the nation. The Federal Government should take the lead in establishing and carrying out policies to help reduce energy consumption, curtail environmental abuses, and increase competition.

In recognition of the importance of reliable transportation to our economy and defense, and to encourage continued work on the problems that face our cities, roads, rail, air and water ways, the Congress has requested the President to proclaim annually the third Friday in May as National Defense Transportation Day, and the week in which that day falls as National Transportation Week (71 Stat. 30, 36 U.S.C. 160; 76 Stat. 69, 36 U.S.C. 166).

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America, do hereby designate Friday, May 20, 1977, as National Defense Transportation Day, and the week beginning May 15, 1977, as National Transportation Week.

I urge the Governors of our States and the Commonwealth of Puerto Rico, the Mayor of the District of Columbia, and local officials to issue similar proclamations. I call upon individuals and organizations concerned with transportation, educators, the communications media, and the American people to join with the Department of Transportation in observing this day and week with appropriate ceremonies and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this thirteenth day of April, in the year of our Lord nineteen hundred seventy-seven, and of the Independence of the United States of America the two hundred and first.

Jimmy Carter

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 409]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final Rule.

SUMMARY: This regulation establishes the quantity of California-Arizona navel oranges that may be shipped to fresh market during the weekly regulation period April 15–21, 1977. This regulation is needed to provide for orderly marketing of fresh navel oranges for the regulation period because of the production and marketing situation confronting the navel orange industry.

EFFECTIVE DATE: April 15, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, (202) 447–3545.

SUPPLEMENTARY INFORMATION: (a) *Findings.* (1) Pursuant to the amended marketing agreement and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674, and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the amended marketing agreement and order, and upon other available information, it is found that the limitation of handling of such navel oranges, as provided in this regulation will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of navel oranges that may be marketed during the specified week stems from the production and marketing situation confronting the navel orange industry.

(i) The committee has submitted its recommendation for the quantity of navel oranges it considers advisable to be handled during the specified week. The recommendation resulted from consideration of the factors covered in the order. The committee further reports the demand for navel oranges is very strong for first grade fruit, but choice grade and all larger sized fruit is being discounted. Average f.o.b. price was $3.77 per carton on a reported sales volume of 1,168 carlots last week, compared to $3.84 per carton on sales of 1,225 carlots a week earlier. Track and rolling supplies at 584 cars were up 55 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of navel oranges which may be handled should be established as provided in this regulation.

(3) It is further found that it is impracticable and is contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because the time intervening between the date when information upon which this regulation is based became available and the time when it must become effective to effectuate the declared policy of the act is insufficient. A reasonable time is permitted, for preparation for the effective time; and good cause exists for making the regulation effective as specified. The committee held an open meeting during the current week, after giving due notice, to consider supply and market conditions for navel oranges and the need for regulation. Interested persons were afforded an opportunity to submit information and views at this meeting. The recommendation and supporting information for regulation during the period specified were promptly submitted to the Secretary after the meeting was held, and information concerning the provisions and effective time has been provided to handlers of navel oranges. It is necessary, to effectuate the declared policy of the act, to make this regulation effective as specified. The committee meeting was held on April 12, 1977.

§ 907.709 Navel Orange Regulation 409.

* * * * *

(b) *Order.* (1) The respective quantities of navel oranges grown in Arizona and designated part of California which may be handled during the period April 15, 1977, through April 21, 1977, are hereby fixed as follows:

(i) District 1: 1,200,000 cartons;

(ii) District 2: Unlimited Movement;

(iii) District 3: Unlimited Movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: April 13, 1977.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.77–11152 Filed 4–13–77;11:24 am]

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

PART 211—DOCUMENTARY REQUIREMENTS: IMMIGRANTS; WAIVERS

PART 223a—REFUGEE TRAVEL DOCUMENT

Removal of Restrictions on Travel by Aliens

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Final rule.

SUMMARY: The amendments contained in this order remove the restrictions on travel to certain communist and communist dominated countries specified or referred to in Immigration and Naturalization Service regulations. These restrictions apply to aliens lawfully admitted to the United States for permanent residence and to aliens who are applicants for or holders of Refugee Travel Documents which are issued under those regulations. These amendments will give aliens the same freedom to travel as is enjoyed by citizens. These restrictions are being removed in furtherance of President Carter's human rights objectives.

EFFECTIVE DATE: April 14, 1977.

FOR FURTHER INFORMATION CONTACT:

James G. Hoofnagle, Jr., Instructions Officer, Immigration and Naturalization Service, 425 Eye Street, N.W., Washington, D.C. 20536. 202–376–8373.

SUPPLEMENTARY INFORMATION: Existing 8 CFR 211.1(b) and 22 CFR 46.3 (k) and (l) contain restrictions on travel by aliens who have been lawfully admitted into the United States for permanent residence. Also, existing 8 CFR 223a.3 and 223a.5(b)(2) contain similar travel restrictions on aliens who are applicants for or holders of Refugee Travel Documents issued under 8 CFR Part 223a. In order to provide aliens the same freedom to travel as is enjoyed by citizens of the United States, the Acting Secretary of State, by order concurred in by

V 42 72 APR 14 77 UMI

the Attorney General (published elsewhere in this issue of the FEDERAL REGISTER) has deleted the restrictions on travel by lawful permanent residents set forth in 22 CFR 46.3 (k) and (l).

In accordance with the objectives of the President, and in conformity with the joint order of the Department of State and Department of Justice deleting 22 CFR 46.3(k) and (l), the Service will amend 8 CFR 211.1(b), and 8 CFR 223a.3 and 223a.5(b)(2) to remove the travel restrictions therein applicable to aliens lawfully admitted for permanent residence and to aliens who are applicants for or holders of Refugee Travel Documents issued under 8 CFR Part 223a.

In the light of the foregoing, the following amendments are hereby prescribed to Parts 211 and 223a of Title 8 of Chapter I of the Code of Federal Regulations:

In Part 211, §§ 211.1(b) (1), (2), and (3), are revised to read as follows:

§ 211.1 Visas.

* * * * *

(b) *Aliens returning to an unrelinquished lawful permanent residence*—(1) *Form I–151 or I–551 Alien Registration Receipt Card.* An immigrant alien returning to an unrelinquished lawful permanent residence in the United States after a temporary absence abroad not exceeding one year may present an Alien Registration Receipt Card (Form I–151 or I–551) duly issued to him in lieu of an immigrant visa. An alien regularly serving as a crewman in any capacity required for normal operation and services aboard an aircraft or vessel of American registry who is returning to an unrelinquished lawful permanent residence in the United States after a temporary absence abroad not exceeding one year may present an Alien Registration Receipt Card (Form I–151 or I–551) duly issued to him in lieu of an immigrant visa. A spouse or a child of a member of the Armed Forces of the United States or of a civilian employee of the United States Government stationed foreign pursuant to official orders may present an Alien Registration Receipt Card (Form I–151 or I–551) when returning to an unrelinquished lawful permanent residence in the United States after a temporary absence abroad: *Provided,* Such spouse or child resided abroad while such member of the Armed Forces or such civilian employee was on overseas duty and is preceding or accompanying the member or employee or is following to join the member or employee within four months of the member's or employee's return to the United States.

(2) *Reentry permit.* An immigrant alien returning to an unrelinquished lawful permanent residence in the United States after a temporary absence abroad may present a valid unexpired reentry permit duly issued to him in lieu of a immigrant visa. A refugee travel document issued to a lawful permanent resident pursuant to Part 223a of this chapter shall be regarded as a reentry permit.

(3) *Waiver of visas.* An immigrant alien returning to an unrelinquished lawful permanent residence in the United States after a temporary absence abroad who satisfies the district director in charge of the port of entry that there is good cause for his failure to present an immigrant visa, Form I–151 or I–551, or reentry permit may, upon application on Form I–193, be granted a waiver of that requirement. If the returning resident alien is not presenting Form I–151 or I–551 because he has lost it, a Form I–90 (application for a replacement Form I–151) in duplicate may be filed with the district director having jurisdiction over the port of entry who may in his discretion grant or deny without appeal a waiver of the required immigrant visa, reentry permit or Form I–151 or I–551, by an immigrant alien who is returning to an unrelinquished lawful permanent residence in the United States after a temporary absence abroad not exceeding one year; filing the I–90 will serve not only as an application for replacement but also as an application for waiver of passport and visa without the necessity of a separate filing of Form I–193. An alien who is granted a waiver under this part upon presentation of Form I–90 shall, after admission into the United States, comply with the requirements of § 264.1(c) of this chapter.

* * * * *

In Part 223, § 223a.3 is revised by deleting the fourth sentence thereof, and as revised § 223a.3 reads as follows:

§ 223a.3 Eligibility.

Any alien physically present in the United States may apply for a refugee travel document if he believes he is a refugee. A refugee travel document shall be issued to a refugee whose presence in the United States is lawful unless compelling reasons of national security or public order otherwise require; lawful presence, as used herein, does not include brief presence as a transit or crewman, or any other presence so brief as not to signify residence even of a temporary nature. A refugee travel document may be issued, in the exercise of discretion, to any other refugee unless reasons of national security or public order otherwise require; sympathetic consideration shall be given to such an application unless the Service intends to expel or exclude the alien from the United States. An alien who is a lawful permanent resident and who is in possession of a reentry permit issued pursuant to section 223 of the Act and Part 223 of this chapter may be issued a refugee travel document only if he surrenders the reentry permit to the Service.

Section 223a.5(b) is revised by revoking paragraph (b)(2) *Area restrictions* in its entirety, and by redesignating existing paragraphs (b) (3) and (4) as (b) (2) and (3) respectively. As revised, § 223a.5(b) reads as follows:

§ 223a.5 Validity of refugee travel document.

* * * * *

(b) *Invalidity*—(1) *False application.* A refugee travel document shall be invalid if the alien obtained it by making a material false representation or concealment in his application.

(2) *Exclusion or deportation proceedings.* A refugee travel document shall be invalid if the alien is ordered excluded or deported.

(3) *Aliens who are no longer refugees.* A refugee travel document shall be invalid if the United Nations Convention of July 28, 1951, shall cease to apply or shall not apply to the alien as provided in Article 1 C, D, E, or F of the Convention.

* * * * *

(Secs. 103, 215, 223, Immigration and Nationality Act (8 U.S.C. 1103, 1185, 1203); Proc. No. 3004 of January 17, 1953).

The above amendments are issued pursuant to section 552 of Title 5 of the United States Code (80 Stat. 383), as amended by Pub. L. 93–502 (88 Stat. 1561) and the authority contained in section 103 of the Immigration and Nationality Act (8 U.S.C. 1103), 28 CFR 0.105 (b) and 8 CFR 2.1. Compliance with section 553 of Title 5 of the United States Code as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the amendments contained in this order relieve restrictions on the persons affected thereby.

Effective date: The amendments prescribed in this order become effective on April 14, 1977.

Dated: April 11, 1977.

L. F. CHAPMAN, Jr.,
Commissioner of Immigration and Naturalization.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION

PART 101—MOORED BALLOONS, KITES, UNMANNED ROCKETS AND UNMANNED FREE BALLOONS

Equipment and Marking Requirements

CFR Correction

In 14 CFR 101.35(d) appearing on page 181 of 14 CFR Parts 60–199 (revised as of January 1, 1977), the second line of paragraph (d) should read "sunrise and sunset an unmanned free".

Title 22—Foreign Relations

CHAPTER I—DEPARTMENT OF STATE

[Departmental Regulation No. 108.737]

PART 46—CONTROL OF ALIENS DEPARTING FROM THE UNITED STATES

Removal of Travel Restrictions

AGENCY: Department of State.

ACTION: Final rule.

SUMMARY: This rule deletes the restrictions on travel by permanent resident aliens and brings our policy on travel by resident aliens into conformity with our recently announced policy toward citizens.

EFFECTIVE DATE: April 14, 1977.

FOR FURTHER INFORMATION CONTACT:
Guida Evans-Magher, 202–632–1933.

SUPPLEMENTARY INFORMATION: In accordance with the President's announced policy of promoting freedom of travel by United States citizens, paragraphs (k) and (l) in 22 CFR Part 46 are deleted to eliminate the provisions under which travel of lawfully admitted permanent resident aliens to certain Communist countries is restricted.

§ 46.3 [Amended]

In § 46.3, paragraphs (k) and (l) are deleted in their entirety.

(Sec. 215, Immigration and Nationality Act, 66 Stat. 190, 8 U.S.C. 1185; Proc. No. 3004 of January 17, 1953.)

Dated: April 1, 1977.

WARREN CHRISTOPHER,
Acting Secretary of State.

Concurred in: April 8, 1977.

GRIFFIN B. BELL,
Attorney General.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER A—INCOME TAX

[T.D. 7477]

PART 7—TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1976

Expenditures To Remove Architectural and Transportation Barriers to Handicapped and Elderly

Correction

In FR Doc. 77–9995, appearing at page 17870 in the issue for Monday, April 4, 1977:

1. The last line of the "Effective Dates" paragraph on page 17870, first column, should read, "must be delivered or mailed by May 16, 1977."

2. The telephone number in the paragraph headed, "For Further Information Contact:" should read, "202–566–3346".

[T.D. 7480]

PART 7—TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1976

Investment Credit for Movie and Television Films Placed In Service in a Taxable Year Beginning Before January 1, 1975, Which Are Subject to the Forty-Percent Election

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains an amendment to temporary regulations providing rules for taxpayers to use in electing the forty-percent method of determining investment credit for movie and television films placed in service in a taxable year beginning before January 1, 1975. This election is provided for under section 804(c)(2) of the Tax Reform Act of 1976. These regulations affect certain taxpayers desiring to make the forty-percent election and provide them with the guidance needed to make the election.

DATE: Taxpayer action to make the election must be made by April 25, 1977.

FOR FURTHER INFORMATION CONTACT:

Lawrence M. Axelrod of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224 (Attention: CC:LR:T) (202–566–4454).

SUPPLEMENTARY INFORMATION: This Treasury decision amends temporary regulations under section 804(c)(2) of the Tax Reform Act of 1976 that were published in the FEDERAL REGISTER for Thursday, March 31, 1977 (42 FR 17122). Those regulations provide that certain action must be made by April 4, 1977, by taxpayers that wish to make the election provided by section 804(c)(2) for a tax investment credit for certain movie and television films. This Treasury decision amends the regulations to provide that taxpayers are given to April 25, 1977, to take the necessary action.

DRAFTING INFORMATION: The principal author of this regulation was Robert A. Bley of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

ADOPTION OF AMENDMENT TO THE REGULATIONS

Accordingly, paragraphs (b)(1) and (b)(5) of § 7.48–2 (26 CFR Part 7), as published in the FEDERAL REGISTER for Thursday, March 31, 1977 (42 FR 17122) are amended by striking out "April 4, 1977" and inserting in lieu thereof "April 25, 1977".

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue it with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

(Sec. 7805, Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805), sec. 804(c)(2) (C) and (D), Tax Reform Act of 1976 (90 Stat. 1595).)

WILLIAM E. WILLIAMS,
Acting Commissioner of Internal Revenue.

Approved: April 6, 1977.

LAURENCE N. WOODWORTH,
Assistant Secretary of the Treasury.

[FR Doc.77–11032 Filed 4–12–77;12:18 pm]

SUBCHAPTER F—PROCEDURE AND ADMINISTRATION

[T.D. 7475]

PART 404—TEMPORARY REGULATIONS ON PROCEDURE AND ADMINISTRATION UNDER THE TAX REFORM ACT OF 1976

Certain Requirements for Income Tax Return Preparers

Correction

In FR Doc. 77–9993, appearing at page 17452 in the issue for Friday, April 1, 1977, the following changes should be made to page 17453:

1. The second word in the fifth line of § 404.6694–1(a) should read, "preparer".

2. The second line of Question 1 in § 404.6694–1(a) should read, "under section 6694(a) of the Code?".

3. The third line of Answer 1 in § 404.6694–1(a) should read, "preparer who has disregarded the rules and".

4. The second to last line of Question 2 in § 404.6694–1(b) should read, "client-taxpayer in order to avoid the penalty under section 6694(b)?".

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. C-2874]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Bryson Implement Company, Inc., et al.

AGENCY: Federal Trade Commission.

ACTION: Order to cease and desist.

SUMMARY: Consent order requiring a Sampson, Ala., marketer of farming equipment, among other things, to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

DATES: Complaint and order issued March 22, 1977.[1]

FOR FURTHER INFORMATION CONTACT:

S. Edward Combs, Regional Director, Atlanta Regional Office, 1718 Peachtree St., NW., Rm 1000, Atlanta, Ga. 30309 404–881–4836.

SUPPLEMENTARY INFORMATION: On Friday, January 14, 1977, there was published in the FEDERAL REGISTER (42 FR 3027) a proposed consent agreement with analysis in the Matter of Bryson Implement Company, Inc., a corporation, and Herbert M. Bryson, Jr., individually and as an officer of said corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions, or objections regarding the proposed form of order.

No comments have been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows:

Supart—Advertising Fasely or Misleadingly: § 13.73 Formal regulatory and statutory requirements; 13.73–92 Truth in Lending Act § 13.155 Prices; 13.155–95 Terms and conditions; 13.155–95(a) Truth in Lending Act. Subpart—Misrepresenting Oneself and Goods—Goods: § 13.1623 Formal regulatory and statutory requirements; 13.1623–95 Truth in Lending Act.—Prices: § 13.1823 Terms and conditions; 13.1823–20 Truth in Lending Act. Subpart—Neglecting, Unfairly or Deceptively, to Make Material Disclosure: § 13.1852 Formal regulatory and statutory requirements; 13.1852–75 Truth in Lending Act; § 13.1905 Terms and conditions; 13.1905–60 Truth in Lending Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 82 Stat. 146, 147; 15 U.S.C. 45, 1601, et seq.)

JOHN F. DUGAN,
Acting Secretary.

[Docket No. C-2865]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Everseal Waterproofing Corporation, et al.

AGENCY: Federal Trade Commission.

ACTION: Order to cease and desist.

SUMMARY: Consent order requiring a Newton, Mass., seller and distributor of waterproofing products and services, and its subsidiaries, among other things, to cease misrepresenting their guarantees; the nature, efficacy, and performance characteristics of their products; and the size and volume of their business. Further, the order requires respondents to maintain specified records; make prescribed disclosures; and respond to requests for service within seven days. Additionally, respondents must provide a three-day cooling-off period during which customers may cancel transactions and receive prompt refunds; maintain a responsible customer relations department; and institute a surveillance program designed to ensure compliance with the order.

DATES: Complaint and order issued February 4, 1977.[1]

FOR FURTHER INFORMATION CONTACT:

Bruce M. Chadwick, Acting Regional Director, Boston Regional Office, Federal Trade Commission, 150 Causeway Street, Room 1301, Boston, Massachusetts 02114, 617–223–6621.

SUPPLEMENTARY INFORMATION: In the Matter of Everseal Waterproofing Corporation, a corporation, and Everseal Waterproofing of New Hampshire, Inc., a corporation, and Everseal Corporation of Maine, a corporation, and Irving Silverstein, individually, and William A. Epner, individually and as an officer of said corporations. The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows:

Subpart—Advertising falsely or misleadingly: § 13.10 Advertising falsely or misleadingly; § 13.15 Business status, advantages or connections; 13.15–205 Offices in principal cities; 13.15–220 Patent or other rights; 13.15–250 Qualifications and abilities; 13.15–265 Service; 13.15–270 Size and extent; § 13.70 Fictitious or misleading guarantees; § 13.135 Nature of product or service; § 13.145 Patent or other rights; § 13.155 Prices; 13.15–100 Usual as reduced, special, etc.; § 13.160 Promotional sales plans; § 13.170 Qualities or properties of product or service; 13.170–30 Durability or permanence; 13.170–50 Leakproof or leakproofing; 13.170–70 Preventive or protective; 13.170–96 Waterproof, waterproofing, water-repellent; § 13.190 Results; § 13.205 Scientific or other relevant facts. Subpart—Contracting for sale in any form binding on buyer prior to end of specified time period: § 13.527 Contracting for sale in any form binding on buyer prior to end of specified time period. Subpart—Corrective actions and/or requirements: § 13.533 Corrective actions and/or requirements; 13.533–20 Disclosures; 13.533–45 Maintain records; 13.533–50 Maintain means of communication. Subpart—Delaying or withholding corrections, adjustments or Action owed: § 13.675 Delaying or withholding corrections, adjustments or action owed. Subpart—Failing to maintain records: § 13.1051 Failing to maintain records; 13.1051–10 Accurate; 13.1051–20 Adequate. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1863 Limitations of product; § 13.1885 Qualities or properties; § 13.1892 Sales contract, right-to-cancel provision; 13.1892–2 Commencing contractual obligations prior to end of cooling-off period; § 13.1895 Scientific or other relevant facts. Subpart—Offering unfair, improper and deceptive inducements to purchase or deal: § 13.1980 Guarantee, in general; § 13.2063 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; (15 U.S.C. 45).)

[1] Copies of the Complaint and Decision and Order filed with the original document.

[1] Copies of the Complaint and Decision and Order filed with the original document.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

ORDER

It is ordered, That respondents Everseal Waterproofing Corporation, a corporation, Everseal Waterproofing of New Hampshire, Inc., a corporation, and Everseal Corporation of Maine, a corporation, their successors and assigns, and their officers, and Irving Silverstein, individually, and William A. Epner, individually and as an officer of the corporations, (hereinafter referred to as "respondents"), and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division, franchisee, licensee or other device, in connection with the advertising, offering for sale, sale and distribution of residential and commercial waterproofing products or services, or other products or services, in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that respondents employ an exclusive, patented process.

2. Representing, directly or by implication, that respondents' waterproofing process will seal all types of basement walls, floors, and foundations against water seepage.

3. Using the words "permanently", "completely", "perpetually", "once and for all", or other words or phrases of similar import, to describe respondents' waterproofing products, services or methods or misrepresenting in any manner the nature and effectiveness of such products, services or methods.

4. Failing to disclose in writing on the face of every contract for the pressure pumping process, in bold print, on an easily detachable form which shall be executed by the customer and retained be the seller and orally, prior to the signing of any contract, and in ten point bold face type in all advertisements, promotional materials and similar documents, the following notice:

Everseal provides two kinds of waterproofing services: channeling water away from the basement and pressure pumping a bentonite mixture against walls and footings. The bentonite material used in the pressure pumping process will not prevent leaks in your basement under certain types of soil and water table conditions. If you have not had engineering tests conducted on your property by a qualified engineer, you cannot be sure the process you have contracted for will work on your home.

4a. Failing to disclose in radio and other electronic media advertisements the following notice:

The bentonite material used in the pressure pumping process will not prevent leaks in your basement under certain types of soil and water table conditions. If you have not had engineering tests conducted on your property by a qualified engineer, you cannot be sure this process will work.

5. Representing, directly or by implication, orally, visually or in writing, that any of said products or services are guaranteed unless the nature, extent and duration of the guarantee, the identity of the guarantor, and the manner in which the guarantor will perform thereunder are clearly and conspicuously disclosed, and unless respondents promptly and scrupulously fulfill all of their obligations and requirements directly or impliedly represented by the terms of the guarantee.

6. Representing, directly or by implication, that an office is maintained by respondents in any city or town other than that in which a fully staffed sales, service and installation office or place of business is, in fact, maintained, occupied and used by respondents; and from misrepresenting in any manner the size or volume of respondents' business.

7. Representing, directly or by implication, that respondents will, by means of their pressure pumping process or in any other manner, waterproof basements without digging, without damage to walks or driveways, or without the necessity of having waterproofing work done inside the basement.

8. Making any claim or representation, orally, visually or in writing, relating to the efficacy, nature and performance characteristics of respondents' waterproofing products or services unless, at the time such claim or representation is made, respondents have a reasonable basis for such claim or representation which shall consist of competent engineering or other similar objective material.

9. Failing to maintain accurate records which may be inspected and copied by Commission staff members upon reasonable notice:

(a) Which consist of documentation to support any and all claims or representations made after the effective date of this order in advertising or sales promotion material relating to the efficacy, nature and performance of any waterproofing process marketed by the respondents.

(b) Which provided the basis upon which respondents relied as of the time those claims or representations were made; and

(c) Which shall be maintained by respondents for a period of three (3) years from the date such advertising or sales promotion material was last disseminated.

10. Using in any manner a sales plan, scheme or device wherein false, misleading or deceptive statements or representations are made, directly or by implication, in order to obtain leads or prospects for the sale of, or to induce purchases of goods or services.

11. Representing, directly or by implication, orally, visually, or in writing that any price for the products or services sold by respondents is a special or reduced price unless respondents can affirmatively show that such price constitutes a significant reduction from the price at which respondents have sold such products and services for a reasonably substantial period of time in the recent regular course of their business.

12. Failing to maintain adequate records (a) which disclose the facts upon which any savings claim, including former pricing claims and comparative value claims is based; and (b) from which the validity of any savings claim, including former pricing claims and similar representations can be determined

13.

(a) Failing to maintain a customer relations department to which purchasers of said products and services may refer complaints, requests for maintenance, or replacement of faulty products or services as promised under the terms of said contract and guarantee; and failing to furnish to each customer at the time of the purchase of said products or services, the current name, address and telephone number of such customer relations representative to which requests for service and/or maintenance may be directed by such customers.

(b) Failing to respond to customers' requests for service within seven (7) days from the date of receipt thereof.

(c) Failing to maintain for a period of three (3) years, records of customers' service and maintenance requests and related documents in connection with the implementation of Paragraph Thirteen (a) and (b) above.

14. Furnishing or otherwise placing in the hands of others the means and instrumentalities by and through which the public may be misled or deceived in the manner, or by the acts and practices prohibited by this order.

15. Failing to maintain and produce for inspection and copying, for a period of three (3) years, copies of all advertisements, brochures, sales contracts, salesmen's manuals and sales bulletins, and all other promotional material utilized in the advertising, promotion and sale of such products or services.

16. Contracting for any sale of such products or services in the form of a sales contract or other agreement which shall become binding on the buyer prior to midnight of the third day, excluding Sundays and legal holidays, after the date of execution of the contract or other agreement.

17. Failing to furnish the buyer with a fully completed receipt or copy of any contract pertaining to such sale at the time of its execution which shows the date of the transaction and contains the name and address of the seller, and in immediate proximity to the space reserved in the contract for the signature of the buyer or on the front page of the receipt if a contract is not used and in bold face type of a minimum size of 10

V 42 72 APR 14 77 UMI

points, a statement in substantially the following form:

"You the buyer, may cancel this transaction at any time prior to midnight of the third business day after the date of this transaction. See attached notice of cancellation form for an explanation of this right.

18. Failing to furnish each buyer, at the time he signs the sales contract or otherwise agrees to buy consumer goods or services from the seller, a completed form in duplicate, captioned "NOTICE OF CANCELLATION", which shall be attached to the contract or receipt and easily detachable, and which shall contain in ten point bold face type the following information and statements:

NOTICE OF CANCELLATION

(*enter date of transaction*)
(*Date*)

You may cancel this transaction, without any penalty or obligation, within three (3) business days from the above date.

To cancel this transaction, mail or deliver a signed and dated copy of this cancellation notice or any other written notice, or send a telegram, to (*Name of Seller*), at (*Address*) not later than midnight of (*Date*).

I hereby cancel this transaction.

(Date)

(Buyer's signature)

19. Failing to inform each buyer orally, at the time he signs the contract or purchases the goods or services, of his right to cancel.

20. Failing or refusing to honor any valid notice of cancellation by a buyer and within three (3) business days after the receipt of such notice, to (i) refund all payments made under the contract or sale, (ii) cancel and return any negotiable instrument executed by the buyer in connection with the contract or sale.

1. *It is further ordered*, That: (a) Respondents herein deliver, by registered mail, a copy of this Decision and Order to each of its present and future franchisees, licensees, employees, salesmen, agents, solicitors, independent contractors or to any other person who advertises, promotes, offers for sale, sells or distributes such products or services offered by respondents.

(b) Respondents herein provide each person so described in paragraph (a) above with a form returnable to the respondents clearly stating his intention to be bound by and to conform his business practices to the requirements of this order; retain said statement during the period said person is so engaged; and make said statement available to the Commission's staff for inspection and copying upon request.

(c) Respondents herein inform each person so described in paragraph (a) above that the respondents will not use or engage or will terminate the use or engagement of any such party, unless such party agrees to and does file notice with the respondents that he will be bound by the provisions contained in this order.

(d) If such party as described in paragraph (a) above will not agree to so file the notice set forth in paragraph (b) above with the respondents and be bound by the provisions of this order, the respondents shall not use or engage or continue the use or engagement of, such party to promote, offer for sale, sell or distribute such products or services included in this order;

(e) Respondents herein inform the persons described in paragraph (a) above that the respondents are obligated by this order to discontinue dealing with or to terminate the use or engagement of persons who continue on their own the deceptive acts or practices prohibited by this order;

(f) Respondents herein institute a program of continuing surveillance adequate to reveal whether the business practices of each said person described in paragraph (a) above conform to the requirements of this order;

(g) Respondents herein discontinue dealing with or terminate the use or engagement of any person described in paragraph (a) above, as revealed by the aforesaid program of surveillance, who continues on his own any act or practice prohibited by this order.

2. *It is further ordered*, That the respondent corporations shall forthwith distribute a copy of this order to each of their operating divisions.

3. *It is further ordered*, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondents such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporations which may affect compliance obligations arising out of the order.

4. *It is further ordered*, That the individual respondents named herein notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged as well as a description of their duties and responsibilities.

5. *It is further ordered*, That in the event that the corporate respondents merge with another corporation or transfer all or a substantial part of their business or assets to any other corporation or to any other person, said respondents shall require such a successor or transferee to file promptly with the Commission a written agreement to be bound by the terms of this order: *Provided*, That if said respondents wish to present to the Commission any reason why said order should not apply in its present form to said successor or transferee, they shall submit to the Commission a written statement setting forth said reasons prior to the consummation of said succession or transfer.

6. *It is further ordered*, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

JOHN F. DUGAN,
Acting Secretary.

[Docket No. C-2867]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

G. & B. Textiles, Inc., et al.

AGENCY: Federal Trade Commission.

ACTION: Order to cease and desist.

SUMMARY: Consent order requiring a New York City importer and distributor of fabrics, among other things, to cease misrepretsenting the fiber content of its wool products and to notify purchasers of these fabrics that government tests have shown them to be misbranded.

DATES: Complaint and Order Issued February 14, 1977.[1]

FOR FURTHER INFORMATION CONTACT:

Richard A. Givens, Regional Director, New York Regional Office, Federal Trade Commission, 2243-EB Federal Building, 26 Federal Plaza, New York, N.Y. 10007 (212) 264-1207.

SUPPLEMENTARY INFORMATION: In the Matter of G. & B. Textiles, Inc., a corporation formerly known as H.M.S. International Fabrics, Inc., and Benjamin Solomon, individually and as an officer of said corporation, and Herbert Solomon and Michael Solomon, individually and as former officers of said corporation. The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows:

Subpart—Misbranding or mislabeling: § 13.1185 Composition; 13.1185–90 Wool Products Labeling Act; § 13.1200 Content; § 13.1212 Formal regulatory and statutory requirements; 13.1212–90 Wool Products Labeling Act; § 13.1320 Scientific or other relevant facts.

Subpart—Misrepresenting oneself and goods—Goods: § 13.1590 Composition; 13.1590–90 Wool Products Labeling Act; § 13.1605 Content; § 13.1623 Formal regulatory and statutory requirements; 13.1623–90 Wool Products Labeling Act; § 13.1740 Scientific or other relevant facts. Subpart—Neglecting, unfairly or deceptively to make material disclosure: § 13.1845 Composition; 13.1845–80 Wool Products Labeling Act; § 13.1850 Content; § 13.1852 Formal regulatory and statutory requirements; 13.1852–80 Wool Products Labeling Act; § 13.1895 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; (15 U.S.C. 46). Interpret or apply sec. 5, 38 Stat. 719, as amended; secs. 2–5, 54 Stat. 1128–1130; (15 U.S.C. 45, 68))

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

[1] Copies of the Complaint, and Decision and Order filed with the original document.

ORDER

It is ordered, That respondents G. & B. Textiles, Inc., a corporation, its successors and assigns, and its officers, and Benjamin Solomon, individually and as an officer of said corporation, and Herbert Solomon and Michael Solomon, individually and as former officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporation, subsidiary, division or any other device, in connection with the introduction, or importing for introduction, into commerce, or the offering for sale, sale, transportation, distribution, delivery for shipment or shipment, in commerce, of wool products as "commerce" and "wool product" are defined in the Wool Products Labeling Act of 1939, do forthwith cease and desist from misbranding such products by:

1. Falsely and deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers contained therein.

2. Failing to securely affix to, or place on, each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act of 1939.

It is further ordered, That respondents notify, by delivery of a copy of this order by registered mail, each of their customers that purchased the wool products which gave rise to this complaint of the fact that United States government tests have shown that such products were misbranded.

It is further ordered, That the respondent corporation forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the individual respondents named herein promptly notify the Commission of each change in business or employment status, which includes discontinuance of their present business or employment and each affiliation with a new business or employment for ten (10) years following the effective date of this order. Such notice shall include respondents' current business address and a description of the business or employment in which they are engaged as well as a description of their duties and responsibilities. The expiration of the notice provision of this paragraph shall not affect any other obligations arising under this order.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in deail the manner and form in which they have complied with this order.

JAMES A. TOBIN,
Acting Secretary.

Subpart—Misrepresenting Oneself and Goods—Goods: § 13.1615 Earnings and profits; § 13.1675 Law or legal requirements; § 13.1685 Nature; § 13.1697 Opportunities in product or service; § 13.1700 Patent rights; § 13.1730 Results; § 13.1740 Scientific or other relevant facts; § 13.1775 Value. Subpart—Neglecting, Unfairly or Deceptively, to Make Material Disclosure: § 13.1870 Nature; § 13.1889 Risk of loss; § 13.1892 Sales contract, right-to-cancel provisions; § 13.1895 Scientific or other relevant facts. Subpart—Offering Unfair, Improper and Deceptive Inducements to Purchase or Deal: § 13.1935 Earnings and profits; § 13.2015 Opportunities in product or service; § 13.2063 Scientific or other relevant facts; § 13.2090 Undertakings, in general.

(Sec. 6, 38 Stat. 721; (15 U.S.C. 46). Interprets or applies sec. 5, 38 Stat. 719, as amended; (15 U.S.C. 45).)

The order to cease and desist, including further order requiring report of compliance therewith is as follows:

ORDER

I. DEFINITIONS

For purposes of this order the following definitions shall apply:

A. "Idea" shall mean any idea, invention or product;

B. "Client" shall mean any party that has entered into an agreement with respondents for the "promotion" of an "idea";

C. "Financial gain" shall mean an amount of money derived by a "client", from a respondent's "promotion" of the client's "idea".

D. "Promotion" shall mean the evaluation, development, manufacturing, marketing or otherwise contributing to the success or growth of an "idea".

E. "Future services", shall include any arrangement whereby one party pays or contracts to pay a sum of money in the belief that he may receive, as a result of such arrangement, the delivery or performance, at least partly in the future, of any service, benefit, promotion, sum of money, or similar thing of value; the term shall include, but shall not be lim-

[1] Copies of the Complaint and Decision and Order filed with the original document.

V 42 72 APR 14 77 UMI

ited to, any arrangement whereby one party pays or contacts to pay a sum of money in the belief that he may receive a financial gain as a result of such arrangement.

II.

It is ordered, That respondents, Idea Research and Development, Inc., a corporation, and its officers, and Kellis Blakely Shanks and Jack Earnest Trout, individually and as officers of said corporation and Walter Glenn Ford, individually and as a former employee of said corporation, their successors and assigns, and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale or sale of contracts for future services in the promotion of ideas, or any other future services, in or affecting commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or indirectly, by any means, that:

A. Respondents possess ability in the field of engineering unless they retain a licensed engineer who shall provide a written evaluation of each client's idea. Respondents shall provide a copy of said evaluation which the client may retain.

B. A client may or can obtain legal protection for his idea unless respondents retain an attorney or agent licensed by the United States Patent Office who renders a written opinion on such client's idea. Respondents shall provide a copy of said opinion which the client may retain.

C. Any party may or will receive a financial gain as a result of contracting with respondents except as allowed by Subparagraphs A and B of Paragraph 4 of this order.

2. Representing, directly or indirectly, by any means, that respondents possess the ability to promote ideas that will or may result in financial gains for their clients.

3. Failing to prominently display the following notice in two or more locations in those portions of respondents' business premises most frequented by prospective clients and in each location where clients sign contracts or other binding instruments. Such notice shall be considered prominently displayed only if so positioned as to be easily observed and read by respondents' clients and prospective clients:

NOTICE

By proceeding without the advice of an independent patent attorney, you may lose any rights you might have in your idea, invention or product or expose yourself to a costly patent infringement lawsuit. Therefore, prior to signing any agreement with us you should and are encouraged to consult an independent patent attorney.

4. Failing to make the following disclosures on the contract or other binding instrument to be executed by prospective clients. Said disclosures shall be in more conspicuous print than all other language in said instrument, but in no case shall they be smaller than 12 point upper case type. Said disclosures and instrument shall be delivered to prospective clients at least 10 days prior to the time prospective clients execute said instrument. The disclosures shall be in the following form set off from the text of the instrument by a black border and immediately above the line for the prospective clients' signatures:

NOTICE

(A) Since we began doing business, we have contracted to promote ideas, inventions, or products for (*number*) clients. Since July 1, 1975, we have contracted with (*number*) clients. As a result of our services:

1. (*Number*) of our clients earned nothing.
2. (*Number*) of our clients earned $100–$499.
3. (*Number*) of our clients earned $500–$1,000.
4. (*Number*) of our clients earned over $1,000.

(B) Without patent protection recognized by the United States Patent Office, you may lose the opportunity to obtain financial benefit from your idea. We do not provide any legal protection recognized by the United States Patent Office.

(C) Because there will be no patent protection for your idea, serious consequences could result from your contracting with us, including:

(1) When we disclose information concerning your idea to persons/manufacturers/marketers outside our company, such disclosure may be interpreted by the United States Patent Office as a "publication" of your idea.

(2) "Publication" for a period of one year or more of an idea which has no legal protection recognized by the United States Patent Office will result in the loss of any patentable rights you may have.

(D) You should treat your idea as a confidential subject in order to avoid losing any patent rights you may have.

(E) By proceeding without the advice of an independent patent attorney you may lose any rights you might have in your idea, invention or product or expose yourself to a costly patent infringement lawsuit. You should and are encouraged to consult an independent patent attorney before you sign this agreement.

(F) Today is (*date*). We cannot ask you to sign an agreement until 10 business days have elapsed which will be on (*month/day/year*).

I, (*name of customer*), hereby acknowledge receipt of a copy of this agreement on the date specified below.

Customer's signature Date

5. Executing contracts or other agreements with a client prior to expiration of the 10-day period disclosed in accordance with Paragraph 4 herein.

6. Failing to retain executed copies of all disclosures required by Paragraph 4 of this order for a period of three (3) years after such disclosure is made regardless of whether prospective clients ultimately execute contracts. Respondents shall make accurate statistical disclosures required by this paragraph and maintain records for a period of five (5) years sufficient to verify the accuracy of each disclosure. Accurate disclosures, given without comment, as required by Paragraph 4 of this order, shall not be deemed a violation of Paragraph 1 of this order.

7. Failing, in all pamphlets, brochures and other promotional materials to make the following disclosures in the manner and form provided for herein.

A. In all printed advertisements, the notice shall be conspicuously placed in print at least as large as the largest print in the advertising material other than respondent's name and shall state:

(*Number*) percent of our clients have earned at least $100 as a result of our efforts to promote their ideas.

B. In all advertisements broadcast by radio, or television, the above-required notice shall be read at the end of the advertisement at a rate of speed at least as slow as the slowest part of the advertisement.

C. At the time respondents submit advertising to any newspaper or other written medium, they shall provide a copy of the following notice to each such medium:

NOTICE

(*Name of respondent*) has entered into a Consent Agreement with the Federal Trade Commission. A copy of the Commission's News Release is available from (*name of respondent*) upon request.

D. At the time respondents submit advertising to any radio or television station, they shall provide a copy of the following notice to each such station:

NOTICE

(*Name of respondent*) has entered into a consent Agreement with the Federal Trade Commission. A copy of the news release is available on request. Your attention is directed to an agreement between the Federal Trade Commission and the Federal Communications Commission dated April 27, 1972.

8. Failing to maintain for a period of three (3) years after any of their advertisements are disseminated:

A Records disclosing the date or dates each such advertisement was published;

B Records disclosing the name and address of the newspapers, other publications or broadcast media disseminating said advertisement; and

C Copies or scripts of all their advertisements published or disseminated by any media.

9. Failing to utilize one written contract or other binding instrument which shall constitute the entire agreement between the parties. In addition to the disclosures required under Paragraph 4 herein each such instrument shall contain the following provision:

(*Name of respondent*) agrees to present to the client all materials due to the client pertaining to the promotion of said client's idea within 90 days of the date this agreement is executed, and it is hereby further agreed that time is of the essence. If such materials are not presented to the client within the 90 day period it is hereby mutually agreed between (*name of respondent*) and the client whose signature appears below that this agreement is rescinded in its entirety.

10. *It is further ordered*, That respondents cease and desist from: A. Including in any contract or other document any waiver, limitation or condition on the right of a client to rescind an agreement under any provision of this order.

B. Misrepresenting the right of a client to rescind an agreement under any provision of this order or any applicable statute or regulation.

C. Making any representations or taking any action which is inconsistent with or detracts from the effectiveness of this order.

11. *It is further ordered*, That respondents shall make all disclosures required by this order accurately, making such disclosures or copies thereof available to the Federal Trade Commission on request, and comply with all contract provisions required by this order.

12. *It is further ordered*, That neither the corporate respondent nor the individual respondents engage in any course of conduct which contravenes the rights of clients or prospective clients provided by this order.

13. *It is further ordered*, That respondents, upon receipt of a complaint from a client alleging facts that indicate this order may have been violated, rescind the contract where respondents determine, after a good faith investigation, that one or more of the paragraphs of this order may have been violated in connection with such client's transaction with respondents.

14. *It is further ordered:* A. That respondents deliver, by hand or by certified mail, a copy of this order to each of their present or future salesmen, independent brokers, employees or any other person who sells or promotes the sale of respondents' contracts;

B. That respondents provide each person so described in sub-paragraph A above with a form returnable to respondents, clearly stating an intention to conform sales practices to the requirements of this order and retain such form for a period of three (3) years after it is executed by said persons;

C. That respondents inform each person described in sub-paragraph A above that respondents shall not use any such person, or the services of any such person, until such person agrees to and files notice with respondents to be bound by the provisions contained in this order;

D. That in the event such person will not agree to file such notice with respondents and be bound by the provisions of this order, respondents shall not use such person, or the services of such person;

E. That respondents institute a program of continuing surveillance adequate to reveal whether the sales practices of each of said persons described in sub-paragraph A conform to the requirements of this order; and

F. That respondents discontinue dealing with any person described in subparagraph A of this order who engages in the acts or practices prohibited by this order.

15. *It is further ordered*, That any respondent may accept compensation from a client for the promotion of the client's idea only as a percentage of royalties or other financial gain derived through a respondent's efforts. A respondent may not accept any other fee or monetary consideration from a client.

16. *It is further ordered*, That no respondent sell, lease, exchange, or otherwise alienate a client's idea or disclose a client's name, address, telephone number or other personal data to any party which will or may request such client to pay a fee or other monetary consideration for the promotion of that client's idea.

17. *It is further ordered*, That in the event the Federal Trade Commission promulgates a Trade Regulation Rule applicable to respondents' business that this order shall be deemed modified to the extent it contravenes said Rule.

18. *It is further ordered*, That in the event that corporate respondent merges with another corporation or transfers all or a substantial part of its business, respondents shall require said successor or transferee to file within thirty (30) days with the Commission a written agreement to be bound by the terms of this order; *Provided*, That if respondents wish to present to the Commission any reason why said order should not apply in its present form to said successor or transferee, they shall submit to the Commission a written statement setting forth said reasons prior to the succession or transfer.

19. *It is further ordered*, That the individual respondents named herein promptly notify the Commission of the discontinuance of their employment with Idea Research and Development, Inc., and of their affiliation with a new business or employment. In addition, the individual respondents named herein shall promptly notify the Commission of their affiliation with a new business or employment whose principal activities include the advertising, offering for sale or sale of contracts for future services and their affiliation with a new business or employment in which their own duties and responsibilities involve the advertising, offering for sale or sale of contracts for future services in the promotion of ideas, or any other future services. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged as well as a description of their duties and responsibilities.

20. *It is further ordered*, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent, such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

21. *It is further ordered*, That each respondent shall, within sixty (60) days after service of this order upon it, file with the Commission a report in writing setting forth in detail the manner and form of its compliance with the order to cease and desist.

JOHN F. DUGAN,
Acting Secretary.

[Docket No. C-2863]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Paramedical Services, Inc. T/A Pacific International, Ltd., et al.

AGENCY: Federal Trade Commission.

ACTION: Order to cease and desist.

SUMMARY: Consent order requiring a Wayne, Pa., distributor of a treatment method for nocturnal enuresis, and its Menlo Park, Calif., franchisee, among other things, to cease misrepresenting that the mechanical device used in their treatment method is unique. Further, respondents are required, three days before their contracts become binding, to give customers a written disclosure that the device is similar to those sold or rented by others.

DATES: Complaint and order issued January 24, 1977.[1]

FOR FURTHER INFORMATION CONTACT:

William A. Arbitman, Regional Director, San Francisco Regional Office, Federal Trade Commission, 450 Golden Gate Avenue, San Francisco, Calif. 94102, 415–556–1270.

SUPPLEMENTARY INFORMATION: In the Matter of Paramedical Services, Inc., a corporation doing business as Pacific International, Ltd., and C.R.O., Ltd., a corporation doing business as Pacific International—CRO, Ltd., and Robert C. Stearns, individually and as an office of C.R.O., Ltd. The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows:

Subpart—Advertising falsely or misleadingly: § 13.10 Advertising falsely or misleadingly; § 13.160 Promotional sales plans; § 13.205 Scientific or other relevant facts; § 13.280 Unique nature or advantages. Subpart—Corrective actions and/or requirements: § 13.533 Corrective actions and/or requirements; 13.533–20 Disclosures; 13.533–45 Maintain records. Subpart—Failing to maintain records: § 13.1051 Failing to maintain records. Subpart—Misrepresenting oneself and goods—Goods: § 13.1740 Scientific or other relevant facts; § 13.1770 Unique nature or advantages. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1895 Scientific or other relevant facts. Subpart—Offering unfair, improper and deceptive inducements to purchase or deal: § 13.2063 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; (15 U.S.C. 46). Interprets or applies sec. 5, 38 Stat. 719, as amended; (15 U.S.C. 45).)

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

ORDER

It is ordered, That Respondents Paramedical Services, Inc., and C.R.O., Ltd., corporations, their successors and assigns, and their officers, and Robert C. Stearns, individually and as an officer of said C.R.O., Ltd., and Respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, or through their "Distributors" as hereinafter defined, in connection with the advertising, offering for sale or rental, contracting, sale or rental, or other promotion of any device or service for the cure, mitigation or treatment of nocturnal enuresis in or effecting commerce, as "commerce" is defined in the Federal Trade Commission Act, as amended, do forthwith cease and desist from:

1. Representing directly or by implication that the mechanical device utilized by Respondents is unlike all other mechanical devices utilized in treatment for nocturnal enuresis.

2. Failing to disclose the following verbatim to all persons executing any agreement or other binding obligation to pay money or other consideration to Respondents or Respondents' distributors, or paying any money or other consideration to Respondents or Respondents' distributors:

Our treatment method for nocturnal enuresis consists of: (1) A mechanical device of a type similar to those sold or rented elsewhere, which is designed to awaken the enuretic by sounding an alarm at the time bedwetting occurs; and (2) a training and consulting service to assist you in utilizing the device to treat the enuretic.

Said disclosure shall be furnished in a single disclosure statement in no less than 10 point bold type, which shall not contain any promotional claims or other information not required by this order, at least three (3) business days prior to either the execution by any consumer of any agreement or any other binding obligation to pay money or other consideration to Respondents or Respondents' distributors, or the payment by such person of money or other consideration to Respondents or Respondents' distributors, whichever occurs first. Respondents shall retain for two years dated and signed acknowledgements (or return receipts for mailed disclosures) of receipt by consumers of said disclosure statement: *Provided however*, That said disclosure statement may be furnished at the time of the execution of an agreement with a consumer, where said agreement contains a three day cooling-off period provision in compliance with the Federal Trade Commission's Trade Regulation Rule Regarding Cooling-Off Period for Door-to-Door Sales, 16 CFR Part 429.

It is further ordered, That Respondents:

1. Deliver, or cause to be delivered, a copy of this order to each Distributor. A "Distributor," as that term is used throughout this order, is defined as: Any present or future dealer, franchisee, licensee, employee, salesman, agent, solicitor, independent contractor or other representative, who purchases from, or receives commissions or other income on purchases from, Respondents.

2. Inform all Distributors that the Respondents are obligated by this order to discontinue dealing with those Distributors who fail to comply with this order, under the circumstances set forth in Subparagraph 4 of this paragraph.

3. Institute a program of continuing surveillance to reveal whether the business operations of each of said Distributors conform to the requirements of this order.

4. Upon receiving actual knowledge from any source (including but not limited to Respondents' program of surveillance, and representatives of the Federal Trade Commission) of facts indicating a Violation of any provision of this order by any Distributor, or by any of such Distributor's present and future dealers, franchisees, licensees, employees, salesmen, agents, solicitors, independent contractors, or other representatives, Respondents shall within 24 hours notify such Distributor by certified mail, return receipt requested, that such Violation of this order has occurred ("Notice"), and that Respondents will discontinue dealing with said Distributor upon receipt by Respondents of actual knowledge of two (2) or more further Violations of this order by such Distributor, or by any of such Distributor's present or future dealers, franchisees, licensees, employees, salesmen, agents, solicitors, independent contractors or other representatives, within one-hundred and eighty (180) days of receipt of said Notice by such Distributor. Respondents shall obtain from such Distributor written acknowledgement of receipt of such notice, which acknowledgement shall indicate the date of receipt of such notice.

Upon receiving actual knowledge from any source (including but not limited to Respondents' program of surveillance, and representatives of the Federal Trade Commission) of facts indicating two (2) or more Violations of any provision of this order, within one-hundred and eighty (180) days following a Distributor's receipt of the aforesaid "Notice," by a Distributor, or by any of such Distributor's present or future dealers, franchisees, licensees, employees, salesmen, agents, solicitors, independent contractors or other representatives, Respondents shall permanently discontinue dealing with such Distributor.

Provided however, That for purposes of any compliance proceeding that may be instituted as to this order, Respondents shall not be responsible for a Violation of any provision of this order by a Distributor or a Distributor's present or future dealers, franchisees, licensees, employees, salesmen, agents, solicitors, independent contractors or other representatives, except insofar as Respondents fail to terminate said Distributor as required by Subparagraph 4 of this paragraph.

5. Maintain complete records for a period of no less than three years from the date of the incident, of any written or oral information received which indicates the possibility of a Violation of this order by any Respondent or Distributor, or any of such Distributor's present and future dealers, franchisees, licensees, employees, salesmen, agents, solicitors, independent contractors, or other representatives; and maintain complete records of Notifications of Violations as required by Subparagraph 4 of this paragraph, and of Distributors' acknowledgements of receipt of such Notifications. Any oral information received indicating the possibility of a Violation of this order shall be reduced to writing, and shall include the name, address and telephone number of the informant, the name and address of the Distributor involved, the date of the communication, and a brief summary of the information received. Such records shall be available upon request to representatives of the Federal Trade Commission, at normal business hours upon reasonable advance notice.

It is further ordered, That the Corporate Respondents notify the Commission at least 30 days prior to any proposed change in the Corporate Respondents such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in said corporations which may affect compliance obligations arising out of the order.

It is further ordered, That Respondents forthwith distribute a copy of this order to each of their operating divisions.

It is further ordered, That the Individual Respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include such Respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the Respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

Chairman Collier voted against acceptance on the ground that the order is ineffective and the matter is not of sufficient importance to warrant the further expenditure of public funds.

JOHN F. DUGAN,
Acting Secretary.

[Docket No. C-2870]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Uncle Ben's, Inc., et al

AGENCY: Federal Trade Commission.

ACTION: Order to cease and desist.

SUMMARY: Consent order requiring a Houston, Texas, producer and distributor of food products, and its New York City advertising agency, among other things to cease disseminating advertisements which depict or portray children coming close to foods in the process of being cooked, or attempting to cook foods themselves, without close adult supervision, or any other advertisements which may have the tendency to influence children to engage in behavior inconsistent with recognized safety practices.

DATES: Complaint and order issued February 23, 1977.[1]

FOR FURTHER INFORMATION CONTACT:

Richard B. Herzog, Assistant Director for National Advertising, Federal Trade Commission, 6th and Pennsylvania Avenue, NW., Washington, D.C. 20580. 202 724-1499.

SUPPLEMENTARY INFORMATION: In the Matter of Uncle Ben's, Inc., a corporation, and Rosenfeld, Sirowitz & Lawson, Inc., a corporation. The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows:

Subpart—Advertising Falsely or Misleadingly: § 13.10 Advertising falsely or misleadingly. Subpart—Disseminating Advertisements, etc.: § 13.1043 Disseminating advertisements, etc.

(Sec. 6, 38 Stat. 721; (15 U.S.C. 46). Interprets or applies sec. 5, 38 Stat. 719, as amended; (15 U.S.C. 45).)

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

ORDER

For the purposes of this order, the following definitions apply:

1. The term "commerce" means commerce as defined by the Federal Trade Commission Act, as amended.

2. The term "food" means any article used for food or drink for man or other animals.

3. The term "cooking" shall mean a process of food preparation which includes the application of heat.

4. The term "child" shall mean a person who appears to be or in fact is under the age of 12.

I.

It is ordered, That respondents Uncle Ben's, Inc., a corporation, and Rosenfeld, Sirowitz & Lawson, Inc., a corporation (hereinafter referred to as respondents), their successors and assigns, and their officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale or distribution in or affecting commerce of any product, forthwith cease and desist from, directly or indirectly:

A. Representing, through depictions, descriptions, or otherwise, children closely examining, or closely approaching foods or containers of foods which are in the process of being cooked.

B. Representing, through depictions, descriptions, or otherwise, children participating in the process of cooking without close supervision of an adult.

C. Representing, through depictions, descriptions, or otherwise, children initiating participation with persons who are in the process of cooking by touching a utensil, glove, pot or other object that is being used in the process of cooking without first having received permission from an adult.

D. Representing, through depictions, descriptions, or otherwise, children without close adult supervision in a kitchen or other area where foods are in the process of being cooked: *Provided*, That this subparagraph D shall not prohibit depiction of children eating foods or children engaging in other behavior not likely to affect the cooking process in the presence of adults who are attending to the process of cooking foods.

E. Representing, through depictions, descriptions, or otherwise, children engaging in activity in a kitchen or in an area where foods are in the process of being cooked where it is reasonably foreseeable, through reasonable inquiry, that such representation has the tendency or capacity to influence children to engage in behavior which creates an unreasonable risk of harm to themselves or to others.

II

It is further ordered, That respondents shall forthwith distribute a copy of this order to each of their operating divisions.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

JOHN F. DUGAN,
Acting Secretary.

[1] Copies of the Complaint and Decision and Order filed with original document.

PART 433—PRESERVATION OF CONSUMERS' CLAIMS AND DEFENSES

Exemption From Trade Regulation Rule for Two-Party Open End Consumer Credit Contracts; Invitation to Comment

AGENCY: Federal Trade Commission.

ACTION: Exemption from Trade Regulation Rule; Invitation to comment on petition for exemption.

SUMMARY: The Commission is exempting contracts for the extension of two-party open end consumer credit from the requirements of the Trade Regulation Rule on Preservation of Consumers' Claims and Defenses, if the contracts are executed before August 1, 1977, and do not involve the use of negotiable instruments or waivers of claims and defenses. The primary purpose of the exemption is to avoid costs involved in modifying outstanding two-party open end credit contracts. As of August 1, 1977, the Rule will apply to all consumer credit contracts taken or received by sellers. In addition, the Commission has received two petitions for an exemption from the Trade Regulation Rule broader than the one the Commission is issuing. The Commission is soliciting comments on the issues raised by these petitions. The Commission is also soliciting comments on the more limited exemption that has been issued.

DATES: Exemption effective immediately. Comments must be received on or before May 16, 1977.

ADDRESSES: Comments should be addressed to: Assistant Director for Compliance, Federal Trade Commission, Washington, D.C. 20580, and labeled "HDIC Exemption Comment."

FOR FURTHER INFORMATION CONTACT:

Rachel Shoa, Attorney, Division of Compliance, Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580. 202-254-8302.

SUPPLEMENTARY INFORMATION: The Commission is exempting contracts for the extension of two-party open end consumer credit from the requirements of Section 433.2(a) of the Trade Regulation Rule on Preservation of Consumers' Claims and Defenses, if the contracts are executed before August 1, 1977, and do not involve the use of negotiable instruments or waivers of claims and defenses. Section 433.2(a) requires the incorporation of a Notice preserving certain consumer rights in all credit contracts used by sellers. Contracts covered by the exemption will not be required to incorporate the Notice. The primary purpose of the exemption is to avoid costs involved in modifying outstanding two-party open end credit contracts. As of August 1, 1977, the Rule will apply to all consumer credit contracts taken or received by sellers.

V 42 72 APR 14 77 UMI

The Commission also determined that it is contrary to the public interest for it to publish notice of proposed rulemaking and for it to receive comment on granting the exemption in accordance with 5 U.S.C. Sec. 553 (b) and (d). Such procedures would result in continued uncertainty about compliance with the Rule for extensions of credit made pursuant to existing two-party open-end consumer credit contracts. Commissioner Dole dissented, stating:

> I believe the exemption the Commission today grants for two-party, open-end credit contracts, including two-party credit card arrangements, executed before August 1, 1977, should have been placed on the record for 60 days of public comment. I dissent from the Commission's determination that it is contrary to the public interest to grant the public an opportunity to comment on an action which excludes from the coverage of our Trade Regulation Rule on Preservation of Consumer Claims and Defenses a class of contracts which could involve millions of consumers.

In addition, the Commission has received two petitions for an exemption from the Trade Regulation Rule broader than the one the Commission is issuing. The Commission is soliciting comments on the issues raised by these petitions. The Commission is also soliciting comments on the more limited exemption that has been issued.

STATEMENT OF REASONS FOR EXEMPTION

INTRODUCTION

The Federal Trade Commission has received from the National Retail Merchants Association (NRMA) and the American Retail Federation (ARF) a petition for exemption from § 433.2(a) of the Commission's Trade Regulation Rule Concerning Preservation of Consumers' Claims and Defenses, 16 CFR 433.2(a). An additional petition has been received from the Fingerhut Corporation urging the Commission to accept the NRMA/ARF petition.[1] The petition proposes to exempt from the TRR consumer credit contracts used by sellers provided the contracts do not involve the use of negotiable instruments or waivers of claims or defenses, and further provided that sellers wishing to use the exemption agree to adopt certain specified protective measures, including registration with the Federal Trade Commission. A copy of the exemption proposed by NRMA and ARF is appended to this Statement.

The Commission has concluded that the public interest would be served by the issuance of a more limited exemption, effective immediately.[2] This more limited exemption, applies only to open end credit contracts, such as charge account master agreements, executed before August 1, 1977. It does not apply to agreements executed after this date. After July 31, 1977, the Rule will apply to all consumer credit contracts executed by sellers. This includes contracts for the extension of credit by means of seller credit cards.[3]

In addition, the Commission is soliciting comments from the public on the issues raised by the NRMA/ARF petition and the desirability of a broader exemption from 16 CFR 433.2(a).

REASONS FOR ISSUANCE OF EXEMPTION FOR OPEN-END CREDIT CONTRACTS ENTERED INTO BEFORE AUGUST 1, 1977

Section 433.2(a) of the Trade Regulation Rule on Preservation of Consumers' Claims and Defenses requires that a short Notice be included in all consumer credit contracts used by sellers. The Commission's decision to require the Notice in all such contracts was based on the fact that virtually all consumer credit is extended pursuant to form contracts. The costs of including a short Notice in contract forms before they are used appear to be minimal. In most cases the Notice can be included in forms when they are printed. Where it will be costly to replace existing inventories of forms, the Notice can be added by means of a stamp, a stapled addendum, or similar mechanism.

The above projections of compliance costs apply primarily to contracts which have not yet been executed. However, different considerations may be present in the case of open end charge accounts where credit is extended from time to time pursuant to a single master agreement. Under such plans, credit extensions subject to 16 CFR 433.2(a) may be made pursuant to a consumer credit contract which was executed before 16 CFR 433.2(a) took effect. Inserting the FTC Notice in such contracts in a manner sufficient to make it legally enforceable may require finding, removing from files, and adding language to large numbers of existing master agreements, and notifying the customers involved, a process which could be more costly than printing the Notice in standard forms to be used in the future.

These cost considerations suggest that it would be desirable to exempt from § 433.2(a) of the Rule seller open end credit contracts executed before the Rule went into effect on May 14, 1976, provided that such contracts do not involve the use of negotiable instruments or waivers of claims or defenses.

The Commission also understands that there have been misunderstandings about the applicability of 16 CFR 433.2 (a) to seller open end credit generally.

The existence of these misunderstandings suggests the desirability of extending an exemption for seller open end credit through to August 1, 1977, to give all sellers an opportunity to come into compliance with the Rule.

Finally, it should be noted that the definition of "open end credit" in the exemption is taken directly from § 226.2 (x) of Federal Reserve Board Regulation Z as amended October 28, 1975, except that the definition in the proposed exemption does not contain the language of Regulation Z § 226.2(x)(3) limiting the definition to plans in which a finance charge is computed.

DISCUSSION OF NRMA/ARF PETITION

Both the exemption issued on this date by the Commission and the exemption proposed by NRMA/ARF apply only to contracts that do not involve the use of negotiable instruments or waivers of claims or defenses. However, the Commission exemption applies only to open end consumer credit contracts executed before August 1, 1977. By contrast, the NRMA/ARF proposed exemption is permanently available; and applies to all types of consumer credit contracts used by sellers, including ordinary installment sales contracts.

The NRMA/ARF petition contains a number of arguments for extending an exemption to contracts not covered by the Commission exemption. NRMA and ARF argue that because their proposed exemption is confined to contracts that are not negotiable and do not contain waiver provisions, and because petitioners would agree to elaborate protective measures, including formal registration with the FTC, consumers would not suffer a loss of rights.

In addition, petitioners argue that the physical placement of the required Notice in other than open end credit contracts involves significant costs. Petitioners' cost arguments include the following, which are quoted from their petition:

> (1) The Rule would require sellers to revise their contracts to include a ten point bold type notice thereon. The notice, of technical nature, would take up a substantial amount of space on the seller's contract forms. Depending upon the particular seller and the document involved, the inclusion of such notice might require revision of the size of the document. Because contract documents are of a particular size, designed so as to fit particular filing cabinets, mechanical and electronic equipment, etc., any change in the size of a contract document could require the seller to incur a significant capital expense for the replacement or alteration of the foregoing.[4]
>
> (2) For those sellers who will be able to include the prescribed notice on their contract forms without changing the size thereof, there will nevertheless be a significant expense to revise such forms. This expense is particulary significant in the light of the fact that most sellers subject to the Rule have just completed a comprehensive form revision program which was undertaken to comply with requirements under the Fair Credit Billing Act effective April 30, 1976 and under the Equal Credit Opportunity Act effective June 30, 1976. This having been accomplished, sellers have disposed of their prior stock of credit forms and ordered and received substantial stock of new forms."[5]
>
> (3) While it is impossible to estimate with precision the industry-wide cost of form revision and system changes which would be necessary for sellers to comply with the Rule, clearly, given the many thousands of sellers and many millions of consumer credit sales transactions, the industry-wide cost would easily amount to many millions of dollars. The cost to individual companies is substantial and can be verified.[6]
>
> (4) In addition to the cost burden imposed on sellers, placing the notice on the form would disturb the seller's relationship with his customer—by creating the unwarranted implication that the seller may transfer an obligation and impair a customer's defenses when in fact that is not the seller's practice or intent. Retailers' relationships with their customers are their most highly valued asset, and although intangible, are indeed priceless. Many customers prefer to deal only with the retailer of goods or services—and not with a third party financer. There is no reason to require the retailer to suggest to his customers that the customer may be forced to deal with a third party when such is not the case.[7]

(The NRMA/ARF petition also includes cost arguments relating specifically to open end credit master agreements in existence at the time the Rule went into effect. These arguments are similar to the reasons given by the Commission for issuing its exemption.)

The Commission notes that its staff is of the view that the arguments and evidence in the NRMA/ARF petition do not warrant an exemption broader than the one the Commission has issued. This view is based on the following considerations:

1. There are advantages to requiring the Notice in all consumer credit contracts used by sellers. Such a requirement makes the Rule easier to enforce and will therefore reduce the likelihood of consumers losing rights as a result of violations of the Rule. The requirement also has other advantages for consumers. They can check their credit contracts at time of sale and know that something is wrong if the Notice is absent. If disputes with creditors arise, consumers and their lawyers can assert rights directly on the basis of language in the contract, without the need to determine the status of the particular contract as a matter of state commercial paper law. Finally, requiring the Notice in all consumer credit contracts used by sellers frees sellers from the need to determine whether the Notice is required in particular contracts, thereby reducing consultation with lawyers and other costs of decision making.

2. Ambiguities in the laws of certain states make it possible that some consumers may have rights cut off by assignment even though their contracts are not negotiable and do not contain explicit waivers of defenses.

3. It is not clear that the inclusion of the Notice in contracts will require purchase of new filing cabinets or other major capital expenses in a significant number of cases. Large numbers of businesses have been able to incorporate the Notice in contracts without changing the size or shape of documents. The Rule permits inclusion of the Notice on the back of contracts or as an additional page. One can imagine other mitigating measures such as folding pages, etc.

4. The cost of the Rule in making obsolete existing inventories of forms appears to be very low in the long run since inventories will have to be replaced in any case. Short run costs can be mitigated by the use of stamps, stapled addenda, etc. It also appears likely that most short run costs of revising forms have already been incurred, since the Rule was announced in November of 1975 and went into effect in May of 1976.

5. It is not clear that the language of the Notice will convey to a significant number of consumers the impression that a business ordinarily assigns its credit contracts. In addition, businesses can explain to customers that the Notice is required by law in all contracts, whether or not they are assigned.

6. The protective measures set out in petitioners' proposed exemption appear expensive, cumbersome, and possibly unworkable.

7. The legal effect of the protective measures set out in the petitioners' proposed exemption, e.g., "acknowledge (ment) to the Commission • • • that the notice • • • is an implied term of the consumer contract," [8] is uncertain.

It should be emphasized that the considerations listed above reflect the staff's initial judgment. The Commission is soliciting public comment on the NRMA/ARF petition and is interested in receiving any information relating to the validity of the listed considerations.

APPENDIX—EXEMPTION OF PERSONS, PARTNERSHIPS AND CORPORATIONS FROM REQUIREMENTS OF 16 CFR 433.2(a) PROPOSED BY NATIONAL RETAIL MERCHANTS ASSOCIATION AND AMERICAN RETAIL FEDERATION

It shall not be a violation of the Federal Trade Commission's Trade Regulation Rule entitled "Preservation of Consumers' Claims and Defenses," 16 CFR 433, for a seller of goods or services, directly or indirectly, to take or receive a consumer credit contract which fails to contain the provision required by 16 CFR 433.2(a) where:

(1) The seller takes or receives a consumer credit contract which: (a) is not a negotiable instrument, and (b) does not contain a provision limiting or waiving the consumer's right to assert against any holder of the consumer credit contract all claims and defenses which the consumer could assert against the seller of goods or services obtained pursuant to the consumer credit contract; and

(2) The seller acknowledges to the Commission, in a form which may be prescribed by the Commission, that the notice set forth in 16 CFR 433.2(a) is an implied term of the consumer credit contract; and

(3) The seller does not voluntarily transfer, sell, pledge or assign the consumer credit contract unless as a condition of said transfer, sale, pledge or assignment the transferee, buyer, pledgee or assignee agrees in writing that said consumer credit contract has as a term thereof the notice set forth in 16 CFR 433.2(a); and

(4) In the event of a voluntary transfer, sale, pledge or assignment of the consumer credit contract pursuant to which the consumer will be directed to make payment to a person other than the seller, the seller (or a transferee, buyer, pledgee or assignee on behalf of the seller) will provide the consumer with notice of the provision set forth in 16 CFR 433.2(a) not later than the time when the consumer is notified to make payment to a person other than the seller; and

(5) The seller executes and delivers to the Commission a statement, in a form and manner which may be prescribed by the Commission, that: (a) the seller intends to avail itself of this exemption from 16 CFR 433.2(a); and (b) the seller will fulfill in a timely manner all of the requirements set forth in paragraphs 1 through 4 of this exemption from 16 CFR 433.2(a), to the extent that the seller takes or receives a consumer credit contract which does not contain the notice which would otherwise be required by 16 CFR 433.2(a).

INVITATION TO COMMENT ON EXEMPTION AND ON PETITION FOR EXEMPTION FROM 16 CFR 433.2(a)

All interested parties are hereby notified that they may submit to the Assistant Director for Compliance, Federal Trade Commission, Washington, D.C. 20580, written data, views, or arguments on any issues of fact, law or policy, which may have some bearing on:

(1) The exemption from 16 CFR 433.2 (a) issued by the Commission on this date;

(2) The exemption from 16 CFR 433.2 (a) proposed in the NRMA/ARF petition;

(3) Any similar possible exemption from 16 CFR 433.2(a) which would not lead to a loss of consumer rights as compared to the original Rule but which might allow the objectives of the Rule to be achieved in a more efficient manner.

The Commission requests that persons commenting on any of these three subjects address the following issues: (1) What specific costs occasioned by compliance with 16 CFR 433.2(a) would be lessened by the exemption or any proposed exemption? (2) Will consumers receive the same protection against cut offs of claims and defenses under the terms of the exemption, or any proposed exemption, as under the Rule? (3) Is the language of the exemption, or any pro-

[1] A copy of the two petitions can be obtained from Public Reference Branch, Room 130, Federal Trade Commission, Washington, D.C. 20580. Please label a request for the petitions, "HDC Exemption Petition Request."

[2] Section 18(g)(2) of the Federal Trade Commission Act, 45 U.S.C. § 18(g)(2), provides that Section 553 of Title 5, United States Code, shall apply to Commission actions to exempt persons from Commission rules. 5 U.S.C. § 553(d) provides that, "The required publication or service of a substantive rule shall be made not less than 30 days before its effective date, except—(1) a substantive rule which grants or recognizes an exemption or relieves a restriction; • • •"

[3] The discussion of seller open end credit on page 10 of the Federal Trade Commission, Bureau of Consumer Protection, Staff Guidelines on Trade Regulation Rule Concerning Preservation of Consumers' Claims and Defenses (May 4, 1976) is somewhat ambiguous. The Commission would like to make clear that the Rule applies to all seller open end consumer credit not covered by the Commission's exemption.

[6] Id. at 6.

[7] Id. at 9.

[8] See the second condition of the NRMA/ARF proposed exemption.

V4272 APR 14 77 UMI

posed exemption, adequate? In what ways could the exemption be improved? (4) Are there any modifications that should be made in the exemption or any proposed exemption? What effect would these modifications have on the answers to questions (1) and (2)? (5) How will the exemption, or any proposed exemption, affect the ability of the Commission to effectively enforce the Rule?

Persons commenting on the exemption issued by the Commission are, in addition, specifically requested to address the following issues: (1) Is the definition of "open end credit" in the exemption appropriate to the scope of the problems addressed by the exemption? If not, what modifications should be made? What would be the effect of these modifications? and (2) Should the exemption be revoked and, if so, why?

Persons commenting on the NRMA/ARF proposed exemption are requested to discuss: (1) The arguments for the proposed exemption made in the NRMA/ARF petition; and (2) The considerations listed by the Commission in its discussion of the petition in the Statement of Reasons that accompanies the exemption issued by the Commission.

In all comments, the Commission particularly welcomes empirical evidence.

Written comments will be accepted until May 16, 1977. To assure prompt consideration of a comment, it should be identified as an "HIDC Exemption Comment" and, when feasible and not burdensome, submitted in five copies.

EXEMPTION

Accordingly, pursuant to the Federal Trade Commission Act, as amended, 15 U.S.C. section 41, et seq., the provisions of Part I, Subparts B and C of the Commission's Procedures and Rules of Practice, 16 CFR section 1.7, et seq., and section 553 of Subchapter II, Chapter 5, Title 5 of the U.S. Code (Administrative Procedures), the Commission hereby issues the following exemption from 16 CFR 433.2(a), which will be added to 16 CFR Part 433 as a new § 433.3.

§ 433.3 Exemption of sellers taking or receiving open end consumer credit contracts before August 1, 1977 from requirements of § 433.2(a).

(a) Any seller who has taken or received an open end consumer credit contract before August 1, 1977, shall be exempt from the requirements of 16 CFR Part 433 with respect to such contract provided the contract does not cut off consumers' claims and defenses.

(b) *Definitions.* The following definitions apply to this exemption:

(1) All pertinent definitions contained in 16 CFR 433.1.

(2) Open end consumer credit contract: a consumer credit contract pursuant to which "open end credit" is extended.

(3) "Open end credit": consumer credit extended on an account pursuant to a plan under which (i) the creditor may permit the customer to make purchases or obtain loans, from time to time, directly from the creditor or indirectly by use of a credit card, check, or other device, as the plan may provide; (ii) the customer has the privilege of paying the balance in full or in installments. The term does not include negotiated advances under an open-end real estate mortgage or a letter of credit.

(4) Contract which does not cut off consumers' claims and defenses: a consumer credit contract which does not constitute or contain a negotiable instrument, or contain any waiver, limitation, term, or condition which has the effect of limiting a consumer's right to assert against any holder of the contract all legally sufficient claims and defenses which the consumer could assert against the seller of goods or services purchased pursuant to the contract.

By direction of the Commission.

Issued: April 14, 1977.

JOHN F. DUGAN,
Acting Secretary.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 77-72]

PART 127—SECURITY ZONES

Security Zone—Boston Harbor, Massachusetts

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes a Security Zone around the land area of the Coast Guard Support Center, Boston, Massachusetts and the waters surrounding Piers 1, 2 and 3 of the Coast Guard Base and Support Center. This security zone is established to maintain security in the vicinity of the seized Russian fishing vessel TARAS SHEVCHENKO while in the custody of the United States.

DATES: This amendment is effective on April 11, 1977 and is terminated on June 11, 1977.

FOR FURTHER INFORMATION CONTACT:

Captain George K. Greiner, Marine Safety Council (G-CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590 (202-426-1477).

SUPPLEMENTARY INFORMATION: The principal persons involved in the drafting of this rulemaking are: LCDR H. E. Snow, Project Manager and Mr. S. D. Jackson, Project Attorney.

This amendment is issued without publication of a notice of proposed rulemaking and this amendment is effective in less than 30 days from the date of publication, because this security zone involves a foreign affairs function of the United States.

In consideration of the foregoing, Part 127 of Title 33 of the Code of Federal Regulations is amended by adding § 127.107, to read as follows:

§ 127.107 Boston Harbor, Massachusetts.

The area within the following boundary is a security zone: a line beginning at position 42°22'07.5'' N. latitude, 71°03'13'' W. longitude; thence in a northeasterly direction to a Coast Guard marker buoy at position 42°22'12.4'' N. latitude, 71°03'09'' W. longitude; thence in a easterly direction to a Coast Guard marker buoy at position 42°-22'11.2'' N. latitude, 71°03'02.9'' W. longitude; thence in a southeasterly direction to a Coast Guard marker buoy at position 42°22'05.3'' N. latitude, 71°-02'59.1'' W. longitude; thence in a southwesterly direction to the northern edge of Pier 4 at position 42°22'04'' latitude, 71°03'05'' W. longitude; extending along the northern face of Pier 4 in a southwesterly direction to position 42°22.01.5'' N. latitude, 71°03'05'' W. longitude; thence along the seawall in a northwesterly direction to the southernmost boundary of Coast Guard Support Center Boston at position 42°22'03'' N. latitude, 71°03'06'' W. longitude; thence along the shoreside property line of Coast Guard Support Center Boston to the point of beginning. No vessel or person may enter, cross, or navigate in the Security Zone without the consent of the Captain of the Port.

(40 Stat. 220, as amended (Sec. 1, 63 Stat. 503) sec. 6(b), 89 Stat. 937; 50 U.S.C. 191 (14 U.S.C. 91), 49 U.S.C. 1655(b); E.O. 10173, E.O. 10277, E.O. 10352, E.O. 11249; 3 CFR, 1949-1953 Comp. 349, 33 CFR Part 6, 49 CFR 1.46(b).)

Dated: April 12, 1977.

O. W. SILER,
Admiral, United States Coast Guard Commandant.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 21191; RM-2618]

TELEVISION BROADCAST STATIONS IN FAYETTEVILLE, ARKANSAS, ET AL.

Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed Rule.

SUMMARY: This document proposes to substitute TV Channel 29 for 36 at Fayetteville, Arkansas, at the request of transferee, in order to utilize newly acquired broadcast equipment and facilitate restoration of UHF television service to the area. This change would also require substitution for three unoccupied UHF channels: Channel 36 for 29 at Little Rock, Arkansas; 31 for 14 at Harrison, Arkansas; and 47 for 29 at Tulsa, Oklahoma.

COMMENT DATES: Comments must be received on or before May 19, 1977, and reply comments on or before June 8, 1977.

ADDRESSES: James J. Gross, Legal Branch, Policy and Rules Division, Broadcast Bureau, Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

James J. Gross (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: April 4, 1977.

Released: April 11, 1977.

1. The Commission has before it several pleadings pertaining to a petition for rule making in this proceeding filed by Noark Investment Company ("Noark"), which seeks the amendment of § 73.606(b) of the Commission's rules, the Television Table of Assignments, by substituting UHF Channel 29 for Channel 36 at Fayetteville, Arkansas. This change would require assignment substitutions for three vacant UHF channels in order to meet the minimum separation requirements contained in the FCC rules. The required substitutions are Channel *36 for *29 at Little Rock, Arkansas; Channel *31 for *14 at Harrison, Arkansas; and Channel 47 for 29 at Tulsa, Oklahoma. All are vacant, and no applications are pending for any of these channels.

2. Fayetteville (1970 pop. 30,729) is located in Washington County (1970 pop. 77,370) in northwestern Arkansas. Noark states that Fayetteville is an educational and cultural center and is the home of the University of Arkansas. Present local television broadcasting consists of KAFT, Channel 13, an educational noncommercial station. Commercial UHF Station KGTO-TV (call letters were changed to KTVP on January 17, 1977), licensed to Noark, operated on Channel 36 in Fayetteville but has been off the air since December of 1973, because of continuing economic difficulties.

3. The proposed channel substitution is requested because KTVP's broadcast equipment was lost, stolen or damaged during the time preceding the transfer of control of Noark while the station was off the air. Noark has obtained replacement equipment designed for a Channel 29 frequency. Noark states that operation on Channel 29 rather than Channel 36 would permit restoration of service quickly and save approximately $100,000 in additional capital available to cover expected operating losses and future capital requirements.

4. A response in opposition to the petition was filed by Mid-America Broadcasting, Inc., licensee of KTVJ-TV, Joplin, Missouri, stating that it intended to apply for Channel 29 if assigned to Fayetteville and that it opposed any interim operation by Noark on Channel 29. Noark withdrew its petition for rulemaking on March 3, 1976, and the Commission's file was closed. However, Mid-America subsequently decided not to proceed and withdrew its objection to the substitution on May 6, 1976, whereupon Noark filed a request to reopen the rulemaking as it was originally proposed. The Commission indicated that it had reopened the proceeding by Public Notice (FCC Mimeo No. 65951) on June 8, 1976, allowing a new response period until August 23, 1976. On June 11, 1976, Noark filed a petition for issuance of a show cause order to modify the license of KTVP (then KGTO-TV) at Fayetteville from Channel 36 to Channel 29. Noark also filed a request for special temporary authority on July 28, 1976, to operate the station on Channel 29 while the rulemaking was pending. However, the Commission rejected this request. Finally, on December 7, 1976, Noark filed a request for prompt action on its petition for rulemaking.

5. On April 30, 1975, the Commission approved the transfer of control involving 100% of Noark's corporate stock to George T. Hernreich, licensee of UHF Station KFPW-TV, at Fort Smith, Arkansas, 53 F.C.C. 2d 923 (1975). The petition states that Hernreich plans to operate KTCP on Channel 29 as a satellite of KFPW-TV, which is the only operating UHF station in Arkansas at the moment.[1] Noark states that it has suffered financial losses since it began operation in 1971. Noark hopes that the two stations can profit by operating together as parent and satellite and provide UHF service to a new area at Fayetteville.

6. The KGTO-TV transfer of control (53 F.C.C. 2d 923 (1975)) was conditioned on the outcome of hearings designated on July 29, 1971, in Dockets 19291-92, which involved Hernreich's application for a license to cover a construction permit for KFPW-TV, Fort Smith, Arkansas (Docket No. 19291), and for renewal of license of KAIT-TV, Jonesboro, Arkansas (Docket No. 19292), 30 F.C.C. 2d 903 (1971). The Commission on July 17, 1974, denied renewal of the license for KAIT-TV, finding that Hernreich had conducted dishonest transactions to advance the private interests of his station, but granted the application for a license to cover the construction permit for KFPW-TV because of "the absence of any evidence of misconduct committed at KFPW-TV and the unlikelihood that the misconduct involving KAIT-TV will be repeated in his operation of Station KFPW-TV." 47 F.C.C. 2d 1090, 1095 (1974), Hernreich has petitioned the Commission for reconsideration of the KAIT-TV renewal denial, and the matter is still pending before the Commission, but on July 17, 1975, the Commission severed the KFPW-TV application from the KAIT-TV inquiry and the KFPW-TV grant became final. More recently, the Commission finalized the grant of Hernreich's application for a new FM station at Fort Smith, Arkansas, which was also conditioned on the out-

[1] A construction permit for a second UHF station, KLMN, Channel 24, in Fort Smith was granted by the Commission in March of 1975, but the station is not yet operational (File No. BPCT-4763).

V4272 APR 14 77 UMI

come of Docket Nos. 19291-92. The Review Board made a finding that the Commission intended its severance and favorable resolution of the KFPW-TV proceeding to be dispositive of Hernreich's character qualifications with regard to the FM grant. 57 F.C.C. 2d 1034, 1035 (1976). The Review Board decision indicates that "the Commission's recent approval of (the KGTO-TV) assignment agreement * * * removes any possible doubt which may otherwise have remained as to the Commission's views concerning Hernreich's qualifications to acquire an additional broadcast facility." 57 F.C.C. 2d at 1035-36. Normally character questions are not pertinent to television channel assignment cases, but in this case if Noark were not eligible to utilize the assignment, there would be little use in proposing an assignment, since no one else has expressed an interest in operating a station at Fayetteville.

7. Having considered the record in this proceeding, we find that the public interest would be served by proposing the requested amendments to the Television Table of Assignments in order to expand UHF service to Fayetteville, Arkapsas, and the surrounding area at the earliest possible time. Since petitioner is requesting a modification of its license, thereby waiving its rights under Section 316 of the Communications Act, it is unnecessary to issue an Order To Show Cause in the event the Commission decides to grant the proposed substitution.

8. Accordingly, the Commission proposes to amend the Television Table of Assignments, § 73.606(b) of the Commission's rules and regulations, with regard to the cities listed below, as follows:

City	Channel No.	
	Present	Proposed
Fayetteville, Ark.	*13-, 36	*13-, 29+
Little Rock, Ark.	*2, 4, 7-, 11+, 16-, *29-	*2, 4, 7-, 11+, 16-, *36
Harrison, Ark.	*14	*31+
Tulsa, Okla.	2+, 6, 8-, *11-, 23, 29, *35-, 41+	2+, 6, 8-, *11-, 23, *35-, 41+47,

9. The Commission's authority to institute rule making proceedings; showings required; cut-off procedures; and filing requirements are contained in the attached Appendix and are incorporated herein.

10. Interested parties may file comments on or before May 19, 1977, and reply comments on or before June 8, 1977.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

APPENDIX

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the Television Table of Assignments, § 73.606(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in Sections 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the Notice of Proposed Rule Making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission Rules.)

5. *Number of copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

[Docket No. 20561; FCC 77-215]

CABLE TELEVISION

Definition and Creation of Classes of Systems

AGENCY: Federal Communications Commission.

ACTION: Proposed rulemaking.

SUMMARY: The Federal Communications Commission (FCC) proposes to amend its regulation to reduce the number of rules covering cable television systems with 500 to 1000 television subscribers. The FCC proposes to take this action because the regulatory burden on these systems appears excessive in light of the impact they have upon local broadcasting services.

DATES: Comments due June 6, 1977, and reply comments due July 6, 1977.

ADDRESS: Send comments to the Secretary, Federal Communications Commission, 1919 M Street, NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

James A. Hudgens, Policy Review and Development Division, Cable Television Bureau, Federal Communications Commission, Washington, D.C. 20554, 202-632-6468.

SUPPLEMENTARY INFORMATION:

Adopted: March 9, 1977.

Released: April 6, 1977.

1. In a First Report and Order adopted today in this proceeding, we have amended our definition of a cable television system and created a class of small systems, having between 50 and 499 subscribers, to which a reduced regulatory program shall apply. While systems of this size must continue to observe the mandatory signal carriage rules, meet technical standards, and file abbreviated annual operating reports and financial reports, they need no longer comply with distant signal carriage limitations, or make system performance tests, nor need they comply with the rules on franchising and certification or maintain records for local inspection.

2 As explained in that document, we adopted this abbreviated regulatory program because our research indicated that, largely because of these systems' small size, exempting them from compliance with certain of our rules would not give rise to the problems those rules are intended to prevent.

3. Our analysis of available evidence further suggests that the same conclusion might also be drawn with respect to somewhat larger systems, having between 500 and 999 subscribers, and it may therefore be appropriate to apply the same reduced regulatory program to them as well. We are aware, of course, that these intermediate-sized systems are larger, in terms of both revenue base[1] and percentage of industry and total subscribers[2] than the small systems considered in the First Report and Order. Our research to date, however, does not indicate that this significantly differentiates them from the smaller systems in relation to their manner of operating or their potential impact on over-the-air broadcasting. Nevertheless, it may be that, where differences do exist, they may be such as to require some refinement of the small system regulatory program. It is the purpose of this Further Notice to ascertain the extent to which the similarities existing between these classes of systems would indicate the appropriateness of applying the same regulatory program to all cable television systems having fewer than 1000 subscribers.

4. *Signal Carriage.* As we stated at paragraph 29 of the First Report and Order, our signal carriage rules are the core of our regulatory program for cable television. For this reason we have undertaken a careful analysis of the projected impact of removing the distant signal carriage limitations from systems having between 500 and 999 subscribers. The result of this research, and a full description of the methodology used, appears at Appendix A. As can be seen, we employed a conservative approach to our analysis and still found only a handful of television markets where the projected audience fractionalization was potentially in excess of 2 percent. We then took these markets and performed a more complete assessment, using a standard impact formula also used in the research performed in conjunction with the Second Report and Order in Docket 19995, FCC 75-820, 54 FCC 2d 229 (1975). As can be seen, this considerably mitigated the impact projected by the first analysis. If the same standardized impact formula were also applied to the other markets, the anticipated audience fractionalization would be even smaller than the already negligible impact the "worst case" analysis projected.[3]

5. In the First Report and Order we exempted systems having fewer than 500 subscribers from compliance with the distant signal limitations because of the unlikelihood that any increase in distant signal carriage that resulted would produce any adverse economic impact on local broadcasters. The results of the attached survey seem to suggest that a like conclusion could be drawn with respect to intermediate-sized systems having between 500 and 999 subscribers. However, because we wish to proceed with circumspection in this crucial area of possible deregulation, we invite interested parties to comment on the survey and its bearing on the following questions: (1) Should the distant signal limitations be lifted from all systems having between 500-999 subscribers? Or should market-by-market, or case-by-case, approach be utilized? (2) Are there any reasons, not apparent from the results of the survey, that would militate against any relaxation of the distant signal limitations?

6. In addition to exempting small systems from compliance with distant signal carriage restrictions, in the First Report and Order we also relieved them of certain other obligations. These included the requirement that they make the system performance tests prescribed by § 76.601, as well as the obligations that they comply with the sports blackout rules contained in § 76.67, receive certificates of compliance and maintain records locally for public inspection. While each of these rules, and correspondingly our decision to exempt smaller systems from complying with them, has its own history and rationale, one reason for all of these exemptions is that the burdens involved in compliance with these rules fall harder on smaller systems than on those which have a larger subscriber base to support the added costs the regulations impose. Thus, for example, the purchase of the relatively costly equipment needed to make the performance tests required by § 76.601 constitutes a disproportionate burden for smaller systems. Similarly, such systems are typically passive retransmission facilities; most do not engage in access or origination cablecasting, and their staffs are limited and may work only on a parttime basis. Because of the burdens that would be involved in requiring this type of operation to purchase and operate the switching equipment needed to provide program exclusivity protection, these small systems have been exempted from compliance with these rules. It follows, therefore, that requiring them to shoulder the same financial and operational burdens solely to comply with the sports black-out rules would be exceedingly onerous. It is similarly incongruous with the passive nature of small system operation to require them to maintain certain documents locally for public inspection, since the required documents either relate to active operations uncharacteristic of these systems (such as private agreements on exclusivity and access channel operating rules) or else are otherwise readily obtainable in these small cable communities and thus need not be maintained by the system (for example, the system's franchise). These and other similar reasons, combined with our own wish to make the most effective possible use of our own resources, have been weighed in the decisions we have taken with respect to systems of under 500 subscribers and, although there is obviously no precise dividing line, we believe it worth considering whether these same reasons also weigh in favor of similarly relaxing regulation for systems of under 1000 subscribers.

7. The original Notice in this proceeding dealt with many broad issues, only one of which was the possible deregulation of one or more classes of cable television systems. How many classes there should be, what sized systems should be included, and which of the rules should apply to each were not specifically proposed; instead, possible alternatives were outlined in an effort to elicit the most comprehensive range of facts and opinions possible. The comments submitted, supplemented by our own research and experience, confirmed that minimal regulation of systems having fewer than 500 subscribers would serve the public interest. As we have said, this same research tentatively suggests that this minimal regulatory program may also be appropriate for all systems having fewer than 1000 subscribers. However, because in so doing we would affect an additional 18 percent of all systems now regulated (Note 2, supra), we must take this further step only on the basis of the most complete record possible. For this reason we request further comment specifically directed to whether deregulation of systems having 500-999 subscribers to the same extent as systems having fewer than 500 subscribers would serve the public interest. In addressing the issues outlined above we urge those submitting comments to focus on the similarities or dissimilarities perceived between the two classes of systems and how whatever recommendations are made would appropriately deal with them.[4]

8. Authority for the amendments proposed herein is contained in sections 4(i), 303, and 403 of the Communications Act of 1934, as amended.

9. All interested persons are invited to file written comments on the rule making proposal on or before June 6, 1977, and reply comments on or before July 6, 1977. In reaching a decision on this matter, the Commission may also take into account other relevant information before it in addition to the comments invited by this Further Notice.

10. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and five (5) copies of all comments, replies, pleadings, briefs, or other documents filed in this proceeding shall be furnished to the Commission. Responses will be available for public inspection during regular business hours in the Commission's Dockets Reference Room (Room 239) at

[1] Assuming a subscriber rate of $6 per month, the maximum-size systems in the small and intermediate classes would generate gross annual revenues of $36,000 and $72,000 respectively. Considering the capital-intensive nature of system construction and operation, even the larger of these figures often produces little margin for profit, and this typically only after several years of operation.

[2] Systems having fewer than 500 subscribers comprise 24 percent of all systems but provide service to only 2 percent of the total subscribers nationwide. Systems having fewer than 1000 subscribers constitute 42 percent of all systems but serve only 6 percent of all subscribers.

[3] It should be noted, moreover, that from a regulatory standpoint the Commission is concerned not with audience fragmentation, per se, but rather with impact on station revenues and profits that is so great as to diminish the station's ability to serve the public interest. Paragraph 91, Cable Television Report and Order, 36 FCC 2d 143, 179 (1972).

[4] We seek to limit the inquiry in this fashion so as not to duplicate the work of the initial Notice in this docket.

V 42 72 APR 14 77 UMI

its Headquarters in Washington, D.C., 1919 "M" Street, N.W.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

APPENDIX A

Attached are the results of a Commission study of the estimated extent of audience fractionalization that local television stations might sustain if cable television systems having fewer than 500 or 1000 subscribers were exempted from compliance with the Commission's rules limiting cable carriage of distant television broadcast signals. Tables 1 and 2 present general approximations of audience impact in, respectively, each of the 100 largest television markets and in each of the smaller television markets. Table 3 presents the results of a more detailed impact analysis performed on the 15 markets which the previous more general analysis indicted were likely to sustain the largest percentages of potential audience fractionalization.

TABLES 1 AND 2: GENERAL APPROXIMATION OF AUDIENCE IMPACT

Tables 1 and 2 contain gross estimates of potential cumulative audience impact, computed by the following methodology:

(1) All cable systems located in 35-mile zones having 1000 or fewer subscribers were identified from the cable television system annual reporting forms (FCC Form 325) on file with the Commission. It was presumed that all of these systems would add one or more distant signals if the distant signal restrictions were removed.

(2) Major-market systems of this size that began operations prior to March 4, 1966 were excluded, but smaller-market systems that began operations prior to December 12, 1968 were included. These were the dates on which the Commission first adopted signal carriage rules applicable to systems located in these markets, and it was initially presumed that systems predating these rules would be carrying all the signals that feasibly could be carried and would be unlikely to add signals regardless of any exemption from our current rules. Subsequent examination of a representative number of these systems, however, indicated that although a majority of the approximately 60 older major market systems would probably not add distant signals (either because of channel saturation or because microwave costs appeared prohibitively large in relation to their revenue base), the same conclusion could not be drawn with respect to the older smaller-market systems. Therefore, the latter have been included for purposes of this survey.

(3) The total number of cable subscribers were broken down within each television market into two categories: (i) total subscribers of systems with 1000 or fewer subscribers, and (ii) total subscribers of systems with 500 or fewer subscribers.

(4) It was considered that exempting the described cable systems from the distant signal carriage rules could, at worst, cause 50 percent of the local station's cable audience to be fractionalized because of possible increases in the number of distant signals carried.

(5) The number of in-market subscribers to systems in each of the respective size categories was then multiplied by the assumed fractionalization figure (50 percent) to yield the total number of cable households potentially lost by importation of distant signals. This number was then divided by the total number of television households in the Area of Dominant Influence (ADI). (The ADI is a geographic market design that defines each market exclusive of another based on measurable viewing patterns. The ADI as defined by Arbitron is an area that consists of all counties in which the home-market stations receive a preponderance of viewing, and each county in the 48 contiguous states is allocated to only one ADI. Where the local station has no ADI, the audience from the county in which the city of license is located was used as the audience base, and where this was done it has been noted.)

(6) The percentages appearing in Tables 1 and 2 are the percentages of projected market audience impact when computed in the manner described above. Because the purpose of this research was simply to find the degree and scope of audience impact and to determine if there were any extensive clustering of small systems in markets, further allocation of this total impact to each station in each market has not been made.

It should be noted that the system data accumulated may reflect certain inaccuracies in the information as reported to the Commission in FCC Forms 325. For instance, many cable systems are included that in fact are part of larger systems and would therefore not be exempted by a redefinition; this occurs because these systems erred by reporting on an individual, rather than a composit, basis. On the other hand, there is a small delinquency rate in reporting that tends to deflate the estimates slightly. As an extra precaution, in-depth analyses were conducted of the fifteen markets that were projected to sustain relatively the most extensive audience impact.

TABLE 3: WORST-CASE DETAILED ANALYSES

For 15 markets indicated in Table 2 to be likely to sustain relatively greater percentages of potential audience impact, a further and more exacting analysis was performed. For purposes of this analysis, the following data was gathered:

1. Home market television stations including network affiliation, if any, and channel assignment.

2. ADI counties designated to market.

3. Systems within 35-mile zone having 1,000 or less subscribers including subscriber count, number of homes passed by cable, number of signals carried and affiliation of such signals, date began operation, channels in use, and channel capacity.

4. Audience data including the home station's recent total 9 AM to Midnight audience, the ADI's total market 9 AM to Midnight ratings and home station 9 AM to Midnight share of each county where applicable cable systems are located.

In each of the fifteen markets the data was rechecked thoroughly, including telephone verification of those cases in which the structure or location of a cable system was in doubt. The television markets were re-examined in order to check for any possible deletions stemming from error or delinquent reporting. FCC Form 325 data was matched against data from other reliable sources to check for inconsistencies. (Where inconsistencies were found, the general study was amended.) Once the data was verified, estimates of audience impact were computed for each station in each of the 15 worst-impacted markets. In computing the potential audience fractionalization per station, the following impact formula standardized was utilized:

Audience impact=

$$\text{Factors: } \frac{(1)\ (\text{number of cable subscribers}) \times (2)\ (\text{market rating}) \times (3)\ (\text{station share}) \times (4)\ (\text{fractionalization})}{(5)\ (\text{total television households in ADI})}$$

This formula is applied as follows:

(1) The total number of cable subscribers on systems located within the 35-mile zone and having between 50 and 499 subscribers was computed. This was also done for all 35-mile zone systems having between 500 and 999 subscribers. These totals are used as factor 1.

(2) The average percentage of households viewing television in the market during the 9 AM to Midnight period was ascertained. It is assumed that this percentage holds true for both cable and non-cable households. Therefore, factor 2 represents the average percentage of cable households viewing television in the market during the 9 AM to Midnight period.

(3) Each market station's audience share of cable television subscribers viewing television during the 9 AM to Midnight period was ascertained and is used as factor 3.

(4) If one or more distant signals are imported, it is assumed for purposes of this study that one-half (50 percent) of the local station's cable viewers might elect to watch the distant signal(s) instead. This assumed 50 percent fractionalization figure appears as factor 4.

(5) Factors 1-4 are multiplied together to give the number of cable households that would be lost if distant signals were imported. This number, divided by the total number of television households in the station's ADI, gives the percent of predicted audience impact. Table 3 presents the results of this detailed analysis of potential audience impact per station in comparison with the results of the potential audience impact per market projected by the initial general-approximation methodology.

AVIATION SERVICES

Permission of Aeronautical Enroute Stations to Identify by Location of Principal Control Point

AGENCY: Federal Communications Commission.

ACTION: Proposed Rule.

SUMMARY: "This proposed rule would permit aeronautical enroute stations to identify by the location of their principal control points. Because of technical and operational difficulties, it is not practical for each station along an aircraft route to be individually identified by presently allowable methods."

COMMENT DATES: Comments must be received on or before May 9, 1977 and Reply Comments must be received on or before May 19, 1977.

ADDRESS: Send comments to: Federal Communications Commission, 2025 M Street, N.W., Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

R. P. De Young, Aviation & Marine Division, Safety & Special Radio Services Bureau, F.C.C., Washington, D.C. 20554, 202-632-7197.

SUPPLEMENTARY INFORMATION:

Adopted: March 24, 1977.

Released: April 1, 1977.

1. Notice of proposed rulemaking is hereby given in the above-captioned matter.

2. Section 87.115(g) of the rules governs identification of land stations in the aviation services. It provides that such a station may identify using call letters, its location, or the name of the city, area, or airdrome which it serves.

3. In the aeronautical enroute service, a series of fixed stations are often interconnected along aircraft routes of flight and formed into a network. By off-setting the carrier frequency of these stations, it is possible to avoid interference at an aircraft which would otherwise be caused by the interaction of simultaneous transmissions by the ground stations. Such networks are normally controlled from a principal control point.

4. Because of technical and operational difficulties, it is not practical for each station along such a route to be individually identified by the usual methods. Accordingly, we propose to amend the rules to permit such stations to be identified by the location of their principal control point.

5. The proposed amendment, as set forth in the attached Appendix, is issued pursuant to the authority contained in section 303(r) of the Communications Act of 1934, as amended.

6. Pursuant to the applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before May 9, 1977, and reply comments on or before May 19, 1977. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding.

7. In accordance with the provisions of § 1.419 of the Commission's rules, on original and 5 copies of all statements, briefs or comments shall be furnished the Commission. All comments received in response to this Notice of Proposed Rule Making, will be available for public inspection in the Docket Reference Room in the Commission's Offices in Washington, D.C.

FEDERAL COMMUNICATIONS COMMISSION
VINCENT J. MULLINS,
Secretary.

Part 87 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

Section 87.115(g) is amended to read as follows.

§ 87.115 Station identification.

• • • • •

(g) A land station in the aviation services may use radio station call letters, its location, or the name of the city, area, or airdrome which it serves together with such additional identification as may be required. An aeronautical enroute station which is a part of a multistation network may also be identified by the location of its control points.

FEDERAL ENERGY ADMINISTRATION

[10 CFR Parts 211, 212]

REDUCTION OF ENTITLEMENT OBLIGATIONS FOR LOWER TIER CRUDE OIL PRODUCED IN CALIFORNIA AND ALASKA

Availability of Preliminary Economic Impact Evaluation

AGENCY: Federal Energy Administration.

ACTION: Availability of preliminary economic impact evaluation of proposed rule.

SUMMARY: The FEA, as required by E.O. 11821, has prepared a preliminary economic impact evaluation of its proposal to reduce installment obligations for lower tier crude oil produced in California and Alaska.

DATES: Comments should be received on or before April 29, 1977.

ADDRESSES: Single copies of the evaluation may be obtained at: FEA Office of Communications and Public Affairs, Room 3138, or FEA National Energy Information Center, Room 1412, 12th and Pennsylvania Ave. NW., Washington, D.C. 20461, and at FEA Region IX, 111 Pine St., San Francisco, California.

Comments on the evaluation should be sent to: Federal Energy Administration, Executive Communications, Box LD, Room 3309, 12th and Pennsylvania Ave. NW., Washington, D.C. 20467.

FOR FURTHER INFORMATION CONTACT:

Joel Yudson, 202-566-9565.

SUPPLEMENTARY INFORMATION:

Notice is hereby given that, pursuant to Executive Order 11821, the Federal Energy Administration ("FEA") has prepared a preliminary economic impact evaluation of the March 17, 1977 proposed amendments (42 FR 15419; March 22, 1977) to the provisions of the domestic crude oil allocation program (the "entitlements program") to reduce entitlement obligations for lower tier crude oil produced in California and Alaska.

Single copies of the preliminary economic impact evaluation may be obtained commencing April 12, 1977 from the FEA Office of Communications and Public Affairs, Room 3138 or the FEA National Energy Information Center, Room 1412, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20461, between 8 a.m. and 4:30 p.m., e.s.t., Monday through Friday, except Federal holidays, and will also be available on that date during business hours at FEA Region IX, 111 Pine Street, San Francisco, California.

Interested persons are invited to submit data, views or arguments with respect to the preliminary economic impact evaluation to Executive Communications, Box LD, Room 3309, Federal Energy Administration, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on the documents submitted to FEA Executive Communications with the designation, "Preliminary Economic Impact Evaluation of the Proposal to Reduce Entitlement Obligations for Lower Tier Crude Oil Produced in California and Alaska." Fifteen copies should be submitted. All comments should be received by FEA by April 29, 1977, in order to receive full consideration.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in one copy only. The FEA reserves the rights to determine the confidential status of the information or data and to treat it according to that determination.

Issued in Washington, D.C., April 8, 1977.

ERIC J. FYGI,
Acting General Counsel.

ENERGY CONSERVATION PROGRAM FOR APPLIANCES

Cancellation of Public Hearing

AGENCY: Federal Energy Administration.

ACTION: Cancellation of Hearing for Proposed Rule.

SUMMARY: This document cancels a public hearing on a proposed regulation for testing room air conditioners. This cancellation is being made in view of the lack of interest in presenting oral comments.

DATE: April 15, 1977 hearing cancelled.

FOR FURTHER INFORMATION CONTACT:

James Smith, (202) 566-4635.

SUPPLEMENTARY INFORMATION:

On March 24, 1977, the Federal Energy Administration extended the written comment period and provided for further public hearings (42 FR 16811) with regard to the sampling provision of proposed test procedures for room air conditioners issued on July 22, 1976 (41 FR 31237).

A public hearing with respect to these amendments was scheduled for 9:30 a.m. on April 15, 1977 in Washington, D.C. In view of the lack of interest in presenting oral comments on the proposed test procedure for room air conditioners, the hearing is hereby cancelled.

Issued in Washington, D.C., April 13, 1977.

ERIC J. FYGI,
Acting General Counsel.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

SHIPPERS ADVISORY COMMITTEE

Public Meeting

Pursuant to the provisions of section 10(a)(2) of the Federal Advisory Committee Act (86 Stat. 770), notice is hereby given of a meeting of the Shippers Advisory Committee established under Marketing Order No. 905 (7 CFR Part 905). This order regulates the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida and is effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The committee will hold a meeting on May 5, 1977, at 10:30 a.m. in the Driftwood Inn, 3150 Ocean Drive, Vero Beach, Florida.

The meeting will be open to the public and a brief period will be set aside for public comments and questions. The agenda of the meeting includes analysis of current information concerning market supply and demand factors, and consideration of recommendations for regulation of shipments of the named fruits.

The names of committee members, agenda, and other information pertaining to the meeting may be obtained from Frank D. Trovillion, Manager, Growers Administrative Committee, P.O. Box R, Lakeland, Florida 33802; telephone 813–682–3103.

Dated: April 11, 1977.

WILLIAM T. MANLEY,
Acting Administrator.

Farmers Home Administration

[Designation No. A469]

MISSISSIPPI

Designation of Emergency Areas

The Secretary of Agriculture has determined that farming, ranching, or aquaculture operations have been substantially affected in Kemper County, Mississippi, as a result of abnormally cold weather March 1 through May 30, 1976, and November 1, 1976, through January 21, 1977; drought June 15 through September 15, 1976; an ice storm January 2, 1977; and snow January 18 and January 31, 1977.

Therefore, the Secretary has designated this area as eligible for emergency loans pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 94–68, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Cliff Finch that such designation be made.

Applications for emergency loans must be received by this Department no later than June 2, 1977, for physical losses and January 3, 1978, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, D.C., this 8th day of April, 1977.

DENTON E. SPRAGUE,
Acting Administrator,
Farmers Home Administration.

McLOUGHLIN–KLAMATH PLANNING UNIT

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the McLoughlin-Klamath Planning Unit, USDA–FS–R6–DES(Adm)–77–9.

The environmental statement concerns a proposed Land Management Plan for a unit of land containing some 456,368 acres.

The draft environmental statement was transmitted to CEQ on April 8, 1977.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3210, 12th St. 7 Independence Ave., SW., Washington, D.C. 20250.
USDA, Forest Service, Pacific Northwest Region, 319 SW. Pine Street, Portland, Oregon 97204.
USDA, Forest Service, Winema National Forest 7th and Walnut, Klamath Falls, Oregon 97601.
USDA, Forest Service, Rogue River National Forest, 333 West 8th Street, Medford, Oregon 97501.

A limited number of single copies are available upon request to Forest Supervisor, Robert J. Chadwick, Winema National Forest, P.O. Box 1390, Klamath Falls, Oregon 97601, or Forest Supervisor Donald H. Smith, Rogue River National Forest, P.O. Box 520, Medford, Oregon 97501.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor Robert J. Chadwick, Winema National Forest, P.O. Box 1390, Klamath Falls, Oregon 97601 or Forest Supervisor Donald H. Smith, Rogue River National Forest, P.O. Box 520, Medford, Oregon 97501. Comments must be received by July 7, 1977, in order to be considered in the preparation of the final environmental statement.

CURTIS L. SWANSON,
Regional Environmental Coordinator, Planning, Programming and Budgeting.

CIVIL AERONAUTICS BOARD

[Docket 30554; Order 77–4–33]

PAN AMERICAN WORLD AIRWAYS, INC.

Application for Disclaimer of Jurisdiction or Approval or for Exemption; Order of Approval

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 7th day of April, 1977.

Pan American World Airways, Inc. (Pan American) has requested that the Board disclaim jurisdiction over or, in the alternative, approve without hearing pursuant to section 408(b) of the Federal Aviation Act of 1958, as amended (the Act), Pan American's contract to manage the Westchester County Airport (Westchester). If action cannot be taken by March 29, 1977, the date upon which the contract is to take effect, Pan American has requested that the Board temporarily exempt it from the provisions of section 408 of the Act, pursuant to section 416 thereof, to the extent necessary to permit it to manage the airport.

Pan American has entered into an agreement to manage Westchester on behalf of Westchester County, New York, (the County) under the supervision and control of County officials. Westchester serves the County and adjacent areas of Fairfield County, Connecticut, for certificated service (Allegheny Airlines), air taxi service, and general aviation service.

Pan American states that another party currently operates the Airport and that its contract with the County will expire shortly; that the County requested proposals by potential replacements of the existing operator; and that Pan American's proposal was chosen from a group of nine which had been submitted.

Under the terms of the agreement, Pan American is required to manage and operate Westchester and keep it available to the public for 24 hours a day, seven days a week, and to do so in a safe and efficient manner; to maintain and repair the physical plant of the airport (runways, grounds, buildings, etc.); to perform certain aviation support functions (e.g., operate the airport's fuel farm and make continuous meteorological observations); and to prepare certain plans, rules, and regulations for the airport, including an emergency contingency plan and an airport security plan.

With regard to contracts between the County and third parties relating to Westchester, Pan American is required to perform said contracts on behalf of the County, to insure compliance by third parties, and to advise the County in the solicitation of bids and negotiations of contracts which are necessary or desirable for the operation of Westchester. Pan American does not have authority to enter into any contracts, and is limited to an advisory capacity.

Pan American is also responsible for certain financial and accounting services, including the preparation of financial statements, billing and collection, and preparation of statistical reports required by County, State, and Federal agencies. It is also responsible for preparation of Westchester's operating and capital budgets, which are subject to County approval. The agreement also establishes personnel requirements which Pan American must meet, and Pan American's personnel selections must be approved by the County.

Under the agreement Pan American will be reimbursed for all of its expenses which are made pursuant to the operating budget approved by the County, plus a fixed fee of approximately $14,600 per month. In addition Pan American will receive an annual incentive fee of 10 percent of the net income, if any, of the airport for the year. Net income is the surplus of revenues, as defined in the agreement, over expenses. The annual incentive fee cannot, however, exceed 150 percent of the incentive fee paid in the previous year.

Finally, the agreement contains a strong prohibiton against discrimination by Pan American in the provision of services and in the pricing of such services. It also prohibits Pan American from conducting air carrier operations at the airport except in cases of emergencies.

In support of its request for a disclaimer of jurisdiction, Pan American asserts that the County will, in fact, operate the airport and that Pan American will merely be acting as an agent of the County, carrying out its decisions. Pan American asserts that this situation is in sharp contrast to previous airport operating agreements in which the Board found control to exist within the meaning of section 408 of the Act;[1] that in those cases, Pan American would have assumed substantial entrepreneural risks for long periods of time, and would have assumed effective control of airport operations. Pan American asserts that although Westchester is a person engaged in a phase of aeronautics and Pan American is an air carrier, the county will in fact operate the airport with Pan American's assistance; and that Pan American is therefore neither operating the County's aeronautical properties nor acquiring control of the County's aeronautical operations.

With regard to the request for approval, Pan American asserts that the Board's approval of an agreement between Pan American and the Port Authority of New York and New Jersey for the operation of the Teterboro Airport provides ample precedent for approval of the subject application.[2] Pan American asserts further that the agreement with Westchester does not affect control of an air carrier directly engaged in the operation of aircraft in air transportation and will not create a monopoly or restrain competition. Pan American states that it received the contract through an essentially competitive bidding process; that its size in and of itself will not be a factor since the previous operator was the subsidiary of a much larger concern;[3] that Teterboro and Westchester Airports serve different markets;[4] and that Pan American will be acting as the County's agent.

Pan American believes that it has ample experience in airport operations which will enable Westchester to provide improved services to airport users; that since relief of congestion at New York's major airports continues to be of public concern, improved services at Westchester will benefit the public; and that Pan American, under the terms of its agreement with the County, has committed itself to encourage the investment of private capital at the airport.

An answer in support of Pan American's application was filed by Westchester County. It asserts that, after a careful and lengthy evaluation, Pan American was selected as the contractor most likely to meet the County's goals for its airport management program; that Pan American cannot operate into the airport under the terms of the agreement; and that carriers which compete with Pan American cannot use the airport because of its limited size. The County further asserts that its agreement with Pan American is totally unlike that approved by the Board involving Teterboro. that the County will retain full responsibility for fundamental decisions about the Airport's operations; and that disapproval of the agreement would be detrimental to the County since it would probably have to repeat the entire selection process and its pricing flexibility would be reduced by public disclosure of its agreement with Pan American.

No comments opposing the application or requesting a hearing have been received.

Notice of intent to dispose of this application without a hearing has been published in the FEDERAL REGISTER and a copy of such notice has been furnished by the Board to the Attorney General not later than the day following the date of such publication, both in accordance with the requirements of section 408(b) of the Act.

Upon consideration of the foregoing, we find that Pan American is an air carrier; that Westchester County, by virtue of its ownership of Westchester County Airport, is a person engaged in a phase of aeronautics; and that Pan American's agreement with the County, as described above, may constitute a contract by an air carrier to operate a substantial part of the properties of a person engaged in a phase of aeronautics within the meaning of subsection 408(a)(3) of the Act.[5] However, it is further found that the transaction does not affect control of an air carrier directly engaged in the operation of aircraft in air transportation, does not result in creating a monopoly, or restrain competition; and that no person disclosing a substantial interest is currently requesting a hearing. It is also found that the transaction will not be inconsistent with the public interest or leave the re-

[1] Pan American World Airways, Inc. Jurisdiction, 47 CAB 1126 (1967).

[2] Pan American World Airways, Inc. Farmingdale and Teterboro Airports, 49 CAB 107 (1968).

[3] The previous operator is owned by Gulf Oil Corp.

[4] Pan American alleges that Teterboro serves the general aviation market for Manhattan and Bergen and Passaic Counties in New Jersey and that Westchester County airport serves the Westchester County, New York, and Fairfield County, Connecticut, markets.

[5] As to Pan American's request for a disclaimer of jurisdiction, this issue cannot be definitely resolved on the basis of the limited information in the pleadings before us. Since we have concluded to grant Pan American the relief requested in the form of an approval without hearing, however, no further inquiry on the disclaimer request is required.

V 42 72 APR 14 77 UMI

quirements of section 408 otherwise unfulfilled; and that it should be approved, subject to condition.[6]

The Board has previously approved the operation of another suburban airport, Teterboro, by Pan American,[7] and many of the conclusions reached in that decision are relevant to the present application. Thus, it is unlikely that there are any conflicts of interest between Pan American's role as a certificated air carrier and its role as an operator of a predominently general aviation airport which would require disapproval. It would, in fact, be to Pan American's benefit to encourage use of Westchester by general aviation to reduce congestion at the major New York airports. Further, Pan American receives an incentive fee based on airport revenues, so that any restrictive practices could prove to be detrimental to the carrier itself. More fundamentally, any restrictive practices which might result from potential conflicts of interest would be forbidden by provisions of other sections of the Act, as well as the Federal Airport Act, and discriminatory practices are clearly forbidden by the terms of the agreement under consideration.[8] Further, Pan American's role at Westchester will be more limited than the arrangement at Teterboro, where the carrier leased the airport. Here, the County will retain substantial control over airport management and policy. Finally, we note that no air carrier, aviation supplier, general aviation user, or other person has objected to the application.

Specifically, the use of Westchester by a certificated carrier, Allegheny, does not appear to create substantial conflict of interest. Pan American and Allegheny do not currently significantly compete over any routes,[9] and it appears that Pan American would have no incentive to treat Allegheny unfairly.[10] Moreover, since Pan American is precluded from conducting other than emergency air carrier operations at Westchester, protection of its operations will not be an incentive to discriminate against any air carrier.

Nevertheless, to insure that Pan American's operation has limited anticompetitive effects, we will impose a condition similar to one of those imposed in our approval of the Teterboro operation to prohibit Pan American from engaging on its own behalf in the business of providing aviation services except on a casual, infrequent or emergency basis. The condition will not, however, prohibit Pan American from providing these services in connection with aircraft which it owns or sells or operates. We shall also retain jurisdiction in this proceeding for the purpose of amending or revoking our approval herein, should the public interest so require.

As a final matter, under the agreement, Pan American will be reimbursed for all expenses it incurs pursuant to authorized budgets and will receive at least a guaranteed fixed fee in addition. Thus there is almost no risk that Pan American would incur losses from this activity which would impair its ability to perform its certificate obligations.

Accordingly, *it is ordered*, That: 1. Subject to the condition specified below, the application of Pan American World Airways, Inc. for approval of its agreement with Westchester County, New York, for the operation of Westchester County Airport (Docket 30554) be and it hereby is approved;

2. The approval is subject to the following condition: Except in connection with aircraft which it may sell, own, or operate, or on a casual, infrequent, or emergency basis, Pan American on its own behalf, shall not engage in the aviation service business at Westchester County Airport; *Provided, however,* That Pan American may provide such services for a period up to 90 days if necessitated by failure of persons normally engaged in such activities to provide such services. For the purposes of this order, aviation service business involves principally the following activities: (1) the sale to users of aircraft fuel and lubricants; (2) the delivery of fuel into aircraft; (3) aircraft maintenance and repair; (4) the sale and installation of avionics; (5) the provision of hangar storage and outdoor tiedown locations for aircraft (Pan American reserves the right also to provide hangar facilities and public tiedown services); and (6) the performances of turnaround services; and

3. Except to the extent specifically granted herein, all other requests in the application in Docket 30544 be and they hereby are dismissed.

Jurisdiction is hereby retained for the purpose of amending or revoking with or without hearing, the approval granted herein, as the public interest may require.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.77-10958 Filed 4-13-77;8:45 am]

[6] Since the Board has decided to grant Pan American's request pursuant to section 408 of the Act, its alternative requests will be dismissed.

[7] Pan American World Airways, Inc. Farmingdale and Teterboro Airports, *supra.*

[8] Section 308 of the Act precludes any exclusive right of airport use. Section 11(1) of the Federal Airport Act requires that the airport be available for public use on fair and reasonable terms and without unjust discrimination. Article 8 of the agreement with the County requires that Pan American comply with all applicable Federal, State and local laws and requires that Pan American keep Westchester available to the public on a non-discriminatory basis, charging fair and reasonable prices for service provided.

[9] Pan American currently operates fill-up service between Detroit and Boston on some of its international flights and Allegheny operates one-stop service in the market. Pan American's operations are so limited in extent, however, that this competition would not appear to give rise to significant conflicts.

[10] It is also noted that Pan American and Allegheny have numerous agreements relating to provision of services by one carrier to the other, including a ground services agreement at JFK International Airport, Agreement CAB 24438, approved by Order 74-7-12, July 2, 1974. Any discriminatory action taken by Pan American would be totally inconsistent with the cooperative relationships indicated by these agreements.

CORNELL UNIVERSITY MEDICAL COLLEGE

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651), 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number 77-00033. Applicant: Cornell University Medical College, Department of Physiology, 1300 York Avenue, New York, N.Y. 10021. Article: Two Micromanipulators, Type MPG, BN 6880 (right hand model and left hand model). Manufacturer: August Fischer KG, West Germany. Intended use of article: The article is intended to be used to obtain samples of tubular fluid which are to be analyzed in order to investigate kidney function. The experiments are designed to understand the regulation of sodium, calcium and water balance at the level of the individual nephron.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides wide excursion, accommodation of different pipettes types and versatility in positioning aided by right and left hand models. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated February 25, 1977 that the features of the article described above are pertinent to the applicant's intended use. HEW also advises that it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended purposes.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

LOVELACE FOUNDATION

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00500. Applicant: Lovelace Foundation for Medical Education and Research, 5200 Gibson Blvd. SE, Albuquerque, New Mexico 87112. Article: Scanning Electron Microscope, Model JSM-35U and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used in studies of the health effects of inhaled effluents from power plants which use a variety of fuels, such as nuclear fuels or coal in the following three general areas:

(1) Characterization of aerosol particles, both those naturally occurring and those used in experimental studies.

(2) The characterization of normal anatomic structures of the respiratory tract, particularly those that can be correlated with physical and computer models of the lung.

(3) The characterization of lesions induced by inhalation of power plant effluents.

Comments: No comments have been received with respect to this application. Decision: Application denied. An instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: This application is a resubmission of Docket Number 76-00258 which was denied without prejudice to resubmission on April 27, 1976 for informational deficiences. In this application in reply to Question 8, the applicant alleges that the article provides the following pertinent features:

a. Guaranteed resolution of 100 Angstroms (Å).

b. Accelerating voltage up to 39 kilovolts (kv).

c. Variable apertures 100, 200, 600 microns.

d. Stigmator monitor.

e. Eucentric goniometer stage.

f. Long working distance.

g. Conical shaped objective lens.

The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated December 10, 1976 that the most closely comparable domestic scanning electron microscope (SEM) is the ETEC Autoscan (Models B-1, U-1 or R-1) HEW further advises that the applicant provides no pertinent characteristics within the meaning of Subsection 301.2(n) of the regulations upon which duty-free entry can be based. As to the specific allegations of the applicant in reply to Question 8, in the order listed above, the following is noted:

a. Both the article and the domestic SEM provide a guaranteed resolution of 100Å. HEW advises that the ETEC SEM has equivalent resolution for the intended work. Based on this advice and upon a review of the guaranteed specifications, we find that the resolution capabilities are scientifically equivalent.

b. The article provides accelerating voltages up to 39KV and the domestic Autoscan provides optional accelerating voltages to 50 KV. We, therefore, find that the accelerating voltage of the domestic Autoscan matches that of article.

c. HEW advises that the variable aperture is pertinent only for X-ray analysis. However, the applicant states that an accessory X-ray spectrometer was not ordered with the article, Subsection 301.6(a)(3) of the regulations prohibits consideration of accessories to be purchased in the future in the determination of scientific equivalency. Based on applicant's stated intention to purchase such an accessory in the future, HEW advises that features c., e., f., and g.—indicated as needed to characterize small particles by X-ray analysis—are not pertinent specifications within the meaning of subsection 301.2(n).

In connection with the domestic availability of c., we further note that the article provides variable apertures and the domestic Autoscan also provides variable apertures as an accessory in some models. Moreover, it is standard in the Autoscan Model R-1. We, therefore, find that the domestic Autoscan matches the article with respect to this feature.

d. HEW advises that the stigmator monitor is a convenience which is not pertinent for the work.

e. HEW advises that this feature is not pertinent as indicated in our discussion of feature c. Moreover, we note that in response to Question 8, the applicant acknowledges that a eucentric stage is available from ETEC as an option. We, therefore, find that the domestic autoscan matches the article with respect to feature e.

f. HEW advises that this feature is not pertinent, as indicated in our discussion of feature c.

g. HEW advises that this feature is not pertinent, as indicated in our discussion of feature c.

Based in part on the advice received from HEW and upon our own review of the application, descriptive scientific materials and applicable prior decisions on the record, we find that any models of the ETEC Autoscan scanning electron microscope referred to above is of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

UNIVERSITY OF IOWA

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 77-00040. Applicant: The University of Iowa, Institute of Hydraulic Research, Iowa City, Iowa 52242. Article: Double-Bragg-Cell Module and accessories. Manufacturer: Opto-Electronische Instrumente GmbH and Co., West Germany. Intended use of article: The article is intended to be used with a laser anemometer composed of the laser, optics, photomultipliers preamplifiers, and frequency trackers for studying velocities in complexed, three-dimensional flow investigations in boundary layers and transitions in both air and water.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value of the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides simultaneous shifting of the frequencies of the laser beams forming the scattering volume. The National Bureau of Standards (NBS) advises in its memorandum dated March 21, 1977, that the capability described above is pertinent to conducting investigations of high-signal-to-noise ratios generated by the article which are essential to the applicant's intended research. NBS also advises that it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

UNIVERSITY OF TEXAS—AUSTIN

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77–00034. Applicant: The University of Texas, Department of Chemistry, Austin, Texas 78712. Article: Rotating Anode X-ray Generator, Model GX–20 and accessories. Manufacturer: Marconi-Elliott Avionics Ltd., United Kingdom. Intended use of article: The article is intended to be used as a high intensity monochromatic X-ray source for irradiating small protein crystals so that their diffraction patterns may be analyzed and their three-dimensional molecular structure determined. Under current investigation are the photo receptor accessory pigment proteins responsible for harvesting the light for photosynthesis, a number of toxins that have been implicated as possible antitumor agents and several enzymes which occupy key positions in the regulation of metabolism. The structures of these systems are being investigated with an objective of understanding the principles of the molecular mechanisms of action for these types of compounds.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides a focused spot of minimal size (0.2 x 0.2 square millimeters) and a rotating target for maximum X-ray beam intensity. The Department of Health, Education, and Welfare (HEW) advised in its memorandum dated February 25, 1977 that the capabilities described above are pertinent to the purposes for which the article is intended to be used. HEW also advised that it knows of no domestic instrument of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

COMMISSION OF FINE ARTS

MEETING

The Commission of Fine Arts will meet in open session on Tuesday, April 26, 1977, at 10:00 a.m. in the Commission offices at 708 Jackson Place, N.W., Washington, D.C. 20006 to discuss various projects affecting the appearance of Washington, D.C.

Inquiries regarding the agenda and requests to submit written or oral statements should be addressed to Charles H. Atherton, Secretary, Commission of Fine Arts, at the above address.

This notice confirms the previous notice of January 11, 1977, 42 FR 2337.

Dated in Washington, D.C., April 11, 1977.

CHARLES H. ATHERTON,
Secretary.

[FR Doc.77–10900 Filed 4–13–77;8:45 am]

CONSUMER PRODUCT SAFETY COMMISSION

[Petition No. CP 75–18]

RACING SULKIES

Denial of Petition

The purpose of this document is to announce the denial of a petition from William G. Krikorian, a manufacturer of harness racing sulkies, requesting regulation of the design and manufacture of harness horse racing sulkies.

Section 10 of the Consumer Product Safety Act (CPSA) (Pub. L. 92–573, 86 Stat. 1217; 15 U.S.C. 2059) provides that any interested person may petition the Consumer Product Safety Commission to commence a proceeding for the issuance of a consumer product safety rule. Section 10 also provides that if the Commission denies such a petition, it shall publish in the FEDERAL REGISTER its reasons for denial.

A letter dated February 27, 1975, from William G. Krikorian of Track-Cat, manufacturers of aluminum single shaft racing sulkies in Lowell, Massachusetts, requested the Commission to regulate the design and manufacture of racing sulkies. The letter was declared a petition on June 20, 1975, after the Commission received further information on the use patterns.

After careful consideration of the petition and the available relevant information, the Commission has decided to deny the petition to regulate harness sulkies.

Sulkies are used in harness racing, including pari-mutuel races, and in pony races. The petitioner estimates that 35% are used in racing and training and that the remaining 65% are used in horse and pony shows, state fairs and for activities such as 4–H projects and personal enjoyment.

The petitioner contends that double shaft racing sulkies are unsafe and that they are made primarily of wood, with the shafts going around the sides of the horse. Should there be an accident, the petitioner alleges that danger exists to both the horse and driver from splintering and shattering and possible impalement of the wood shafts.

The petitioner contends that single shaft harness racing sulkies built to go up over the back of the horse are inherently safer, as the aluminum or steel tubing would bend under pressure caused by an accident thereby preventing a serious injury.

Injury data submitted with the petition were neither confirmed nor denied. The data available to the Commission do not indicate that sulkies presently in use present risks to consumers that are not commensurate with the nature of the sport. The injuries are limited to those during accidents or mishaps, as opposed to during routine successful use of the equipment. The more severe injuries are those sustained by the horse from shattered wooden shafts.

The Commission has no evidence that the specific requirements which the petitioner urges the Commission to adopt would substantially lessen the likelihood of serious injury to consumers.

A copy of the petition and related materials may be seen during working hours, Monday through Friday, in the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207.

Accordingly, pursuant to section 10 (d) of the Consumer Product Safety Act (Pub. L. 92–573, 86 Stat. 1217 (15 U.S.C. 2059(d))), notice is hereby given of the Commission's denial of the petition.

Dated: April 11, 1977.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

DEPARTMENT OF DEFENSE

Department of the Air Force

COMMUNITY COLLEGE OF THE AIR FORCE (CCAF) ADVISORY COMMITTEE

Meeting

APRIL 6, 1977.

The Community College of the Air Force Advisory Committee is scheduled to meet at 2 p.m., May 10, 1977, in Room 41 of the Community College of the Air Force, Building 146, located at Lackland Training Annex, San Antonio, Texas.

The meeting is open to the public. Agenda items include: Health Related Programs, Transition to the Commission on Colleges, External Relations Program, Participation of Reserve and National Guard, Committee of Businessmen, and Internal Information Program.

For further information, contact Lieutenant Colonel Wade R. Kilbride, 512–671–5255.

FRANKIE S. ESTEP,
Air Force Federal Register Liaison, Directorate of Administrations.

[FR Doc.–10919 Filed 4–13–77;8:45 am]

USAF SCIENTIFIC ADVISORY BOARD

Meeting

APRIL 4, 1977.

The USAF Scientific Advisory Board Ad Hoc Committee on Advanced ICBM Technology will hold a meeting on May 23–25, 1977 in the Aerospace Corporation facilities, Los Angeles, California, from 8:30 a.m. to 5 p.m.

The Committee will receive classified briefings and conduct classified discussions concerning an in-depth review of the technical aspects of the advanced ICBM program.

The meeting concerns matters listed in section 552b(c) of Title 5, United States Code, specifically subparagraph (1) thereof, and accordingly, will be closed to the public.

For further information contact the Scientific Advisory Board Secretariat at 202–697–8845.

FRANKIE S. ESTEP,
Air Force Federal Register Liaison Officer, Directorate of Administration.

FEDERAL ENERGY ADMINISTRATION

DRAFT REVISED PROGRAMMATIC ENVIRONMENTAL IMPACT STATEMENT

Extension of Comment Period

On February 22, 1977 (42 FR 10334) the Federal Energy Administration gave notice of the availability of its draft revised programmatic environmental impact statement which reflected the amendment of section 2 of the Energy Supply and Environmental Coordination Act of 1974 (ESECA), 15 U.S.C. 791 et seq., by the Energy Policy and Conservation Act, Pub. L. 94–163. The FEA hereby gives notice that pursuant to 10 CFR 208.12(a) the time period during which interested parties may submit comments concerning the draft revised programmatic environmental impact statement has been extended. All comments and relevant information received by April 18, 1977 will receive full consideration. In all other respects the earlier notice remains in effect.

Written comments should be sent to Executive Communications, FEA, Box KY, 12th and Pennsylvania Avenue, Washington, D.C. 20461. Comments should be identified on the outside of the envelope in which the comments are transmitted and on any documents submitted to Executive Communications, with the designation "Comments on ESECA Programmatic EIS." Fifteen comments should be submitted.

Signed in Washington, D.C. April 11, 1977.

ERIC J. FYGI,
Acting General Counsel.

[FR Doc.77–10981 Filed 4–11–77;4:55 pm]

INDUSTRY WORKING PARTY OF THE INTERNATIONAL ENERGY AGENCY

Meeting

In accordance with section 252(c)(1)(A)(i) of the Energy Policy and Conservation Act (Pub. L. 94–163), notice is hereby provided of a meeting of the Industry Working Party (IWP) to the International Energy Agency (IEA). The meeting will be held on April 18, 19, and 20, 1977, at the headquarters of the IEA, 2 Rue Andre Pascal, Paris 16, France, beginning at 3:00 p.m. on April 18.

The purpose of the IWP meeting and this notice is to permit attendance by representatives of the IWP at certain portions of a meeting of the Standing Group on the Oil Market (SOM). The parts of the SOM meeting open to the IWP representatives is under the control of the SOM. The agenda for the meeting is as follows:

1. Financial information systems.
2. Crude oil and product cost and price information systems.

As provided in section 252(c)(1)(A)(ii) of the Energy Policy and Conservation Act, this meeting will not be open to the public. Unanticipated circumstances have required the notice period as contained in § 209.32(b) of FEA regulations to be shortened.

Issued in Washington, D.C., April 11, 1977.

ERIC J. FYGI,
Acting General Counsel, Federal Energy Administration.

[FR Doc.77–10980 Filed 4–11–77;4:36 pm]

VOLUNTARY AGREEMENT AND PLAN OF ACTION TO IMPLEMENT THE INTERNATIONAL ENERGY PROGRAM

Meeting

In accordance with section 252(c)(1)(A)(i) of the Energy Policy and Conservation Act (Pub. L. 94–163), notice is hereby provided of a meeting of Subcommittee A of the Industry Advisory Board (IAB) to the International Energy Agency (IEA). The meeting will be held on April 19 through April 22, 1977, at the headquarters of the IEA, 2 Rue Andre Pascal, Paris 16, France, beginning at 10:00 a.m. on April 19. The agenda is as follows:

1. Opening remarks.
2. ISAG formats. a. Review and revision of formats used in allocation ssytems test.
   b. Development of new formats, including comparison of successive Questionnaire A and B submissions: checking consistency aspects between Questionnaire A and B data, allocation coordinator guidance, etc. considering flexible data retrieval possibilities.
   c. Further statistical requirements for ISAG management and allocation coordinator.
3. Possible computerization of voluntary offers. a. Receipt and input formats.
   b. Retrieval format.
   c. Data manipulation.
   d. Running balance of country allocation rights and obligations.
4. Review by Secretariat of data base interrogation capability.
5. Practical tests on the computer using retrieval instructions developed at the meeting and using the data base from the Fall 1976 allocation systems test.
6. Communications. a. Telex message scrambling.
   b. Data links for transmission of questionnaires.
   c. Telex equipment requirements.
7. Other potential communication, data transmission/processing problems.
8. Review and discussion of the Emergency Management Organization work profile.
9. Closing remarks/future meetings, if required.

The exchange of certain information and data in connection with this meeting of Subcommittee A has been approved by the Administrator (Annex A) and the Attorney General (Annex B).[1]

As provided in section 252(c)(1)(A)(ii) of the Energy Policy and Conservation Act, these meetings will not be open to the public. Unanticipated circumstances have required the notice period as contained in section 209.32(b) of FEA regulations to be shortened.

Issued in Washington, D.C., April 11, 1977.

ERIC J. FYGI,
Acting General Counsel, Federal Energy Administration.

[Docket No. 77-7; Agreement No. 9929-2, etc.]

COMBI LINE JOINT SERVICE AGREEMENT AND INTERCONTINENTAL TRANSPORT, B.V. AND CAMPAGNIE GENERALE MARITIME JOINT MARKETING AGREEMENT

Modifications; Order of Investigation and Hearing and Order of Approval of Agreement No. 9929–3 Pendente Lite

This proceeding is instituted to determine whether Agreements Nos. 9929–2, 9929–3 and 9929–4, and Agreements Nos. 10266 and 10266–1, should be approved, disapproved or modified pursuant to Section 15 of the Shipping Act, 1916, 46 U.S.C. § 814.

Agreement No. 9929, as amended, is the organic agreement of the Combi Line Joint Service (Combi) between Hapag-Lloyd Aktiengesellschaft (Hapag-Lloyd) and Intercontinental Transport, B.V. (I.C.T.). This Agreement was originally approved on May 6, 1971. It provides for the establishment and maintenance of a joint service to operate lighter-aboard-ship (LASH) vessels and non-LASH vessels, either conventional or specialized, between U.S. South Atlantic and Gulf Ports and places on tributary inland waterways, on the one hand, and Ports in the United Kingdom/Eire and Continental Europe (excluding the Mediterranean) and places on tributary inland waterways, on the other hand. Agreement No. 9929 was approved by the Commission until December 31, 1986 with respect to LASH service, and for three years (that is, until May 1974) with respect to non-LASH service. Subsequently, the Commission extended its approval of the non-LASH service through April 8, 1977 (Agreement No. 9929–1).

Agreement No. 9929–2 amends the basic Agreement in three major respects: (1) adds Compagnie Generale Maritime (C.G.M.), a French flag line, as a party; (2) introduces authority for the parties to operate a coordinated container service, and (3) divides the Agreement in two sections: Section 1 covering the Combi LASH joint service, and Section 2 covering the coordinated container service. Apparently, the two services are meant to operate independently of each other.

The amended LASH section (Section 1) provides for operation of a LASH joint service under the name of Combi Line. It will operate LASH vessels and LASH feeder vessels, with new authority to charter space on conventional vessels as needed. Hapag-Lloyd and I.C.T. will each furnish a LASH vessel with a full complement of barges and ancillary equipment. C.G.M., the new party, will initially provide feeder vessels and equipment for the service in Europe.

Under the new section on the coordinated container service (section 2), the parties will operate separate container services, but will coordinate them in certain respects. This section provides for the parties to (1) operate between them up to six containerships, owned or chartered, with a capacity of up to 1,500 twenty-foot equivalent units (TEUs), each, as well as container space on certain conventional ships they operate; (2) coordinate sailings; (3) cross-charter space on each other's container and combination vessels for shipment of loaded and empty containers; (4) solicit and book containerized cargoes for their own separate accounts (Agreement No. 10266, discussed below, would authorize I.C.T. and C.G.M. to do this jointly); (5) issue their own bills of lading, but the parties will also establish and maintain a uniform bill of lading to be used by them in this trade; (6) join as separate members with separate votes conferences and agreements that may operate within the shipping trades covered by this Agreement, and (7) agree on rates where they do not belong to a conference or other rate agreement. Section 2 also prohibits the pooling of revenues realized from the coordinated container service and the sharing of operational expenses, but allows the parties to share administrative expenses.

Agreement No. 9929–2 also designates the Scandinavian and Baltic areas as being included within its geographic scope, and furthermore adds service between Mexico and Europe to its geographic scope with respect to the coordinated container service.

Agreement No. 9929–3 would extend the authority of the present joint service between Hapag–Lloyd and I.C.T. to operate non-LASH vessels through April 8, 1979. This Agreement is an interim measure designed to prevent Combi's non-LASH authority from expiring while the Commission is considering the other amendments and new Agreements covered by this Order, and in the event the Commission disapproves the other amendments and Agreements.

Agreement No. 9929–4 would modify Agreement No. 9929–2 to provide for a five year term on the coordinated container service from the date of Commission approval.

Agreement No. 10266 is designated as a joint marketing Agreement between I.C.T. and C.G.M. whereby the parties may (1) jointly solicit and book cargo for all ships they operate or to which they have access in the trades, except the LASH vessels; (2) designate joint agents; (3) issue joint bills of lading; (4) share in all revenues and expenses; (5) join as separate members with separate votes conferences and agreements that may operate within the shipping trades covered by this Agreement, and (6) agree on rates where they do not belong to a conference or other rate agreement. Despite its designation as a joint marketing Agreement, Agreement No. 10266 is in essence primarily a joint service Agreement.

Agreement No. 10266–1 amends Agreement No. 10266 to provide for the latter to remain in effect for five years from the date of Commission approval unless otherwise terminated by the parties.

Notice of the filing of Agreements Nos. 9929–2 and 10266 was published in the FEDERAL REGISTER on October 14, 1976. Notice of the filing of Agreements Nos. 9929–3, 9929–4 and 10266–1 was published in the FEDERAL REGISTER on February 2, 1977. Protests and requests for hearing with respect to all of the agreements were timely filed by United States Lines, Sea-Land Service, Inc. and Seatrain International, S.A. (hereinafter, the protestants). The proponents of the Agreements submitted responses to the protestants' filings.

The Commission has considered the subject Agreements, and the submissions of both the protestants and the proponents. The Commission has determined that issues have been presented which can only be resolved in a formal proceeding. Specifically, these issues include whether approval of the Agreements will enable the parties to offer a viable container service without overtonnaging the trade, as the proponents claim, or whether the trade is already overtonnaged and will be made more so by approval of the Agreements, as the protestants claim; whether approval of the Agreements will result in rationalized use of vessels and container space, thus achieving substantial savings in fuel consumption, as the proponents claim, or whether this benefit is purely speculative since the parties are unlikely to institute individual container services in the event of disapproval of these Agreements, as the protestants claim; whether approval of the Agreements will strengthen the competitiveness of the Combi LASH service and will make the parties more competitive among themselves with respect to the container service, as the proponents claim, or whether approval will give the parties excess market power and will create severe and dangerous competitive pressures on the other lines in the trade, as the protestants claim; whether the separate voting provisions contained in Agreements Nos. 9929–2 and 10266 may result in unjust or unfair advantages to the parties in conference affairs; whether a restriction should be placed on the open-ended provision in Section 1 (the LASH section) of Agreement No. 9929–2, which permits the parties to charter supplementary space on conventional vessels as such space is needed; whether Agreements Nos. 9929–2 and 10266 establish unnecessary restraints on individual termination (the Agreements require each party to give two years' notice prior to cancellation, and no notice can be given prior to December 31, 1980 in the case of Agreement No. 9929–2 and December 31, 1979 in the case of Agreement No. 10266); whether Agreement

9929–2 should be modified to more precisely define the operational relationship between the joint LASH service and the coordinated container service; whether the addition of the words "Scandinavia and Baltic" to the scope of Agreement No. 9929–2, and hence to Agreement No. 10266, constitutes an enlargement of the existing geographic scope of the basic Agreement, as the protestants claim, or whether the purpose of the addition is only clarification since Combi has served those areas since it commenced operations, as the proponents claim; whether approval of the Agreements should be conditioned upon the parties meeting all tariff filing requirements with respect to the foreign-to-foreign coordinated container service between Ports in Mexico and Ports in Continental Europe; whether Agreement No. 10266 should be amended to make it clear that it shall exist only so long as the parties' relationship under Agreement No. 9929–2 is maintained; and whether approval of the Agreements should be conditioned upon deletion or limitation of authority in Agreement No. 9929–2 for the parties to provide LASH service on 2 transshipment basis to or from ports outside the geographic scope of the Agreement.

It is noted that both Agreement No. 9929–2 and Agreement No. 10266 would grant their parties the power to set rates in certain circumstances. Rate-setting is, of course, equivalent to price-fixing, which is a per se violation of the Sherman Antitrust Act, 15 U.S.C. 1. *United States* v. *Trenton Potteries Company*, 273 U.S. 392 (1927). Furthermore, agreements to divide markets are also per se violations of the Sherman Act, *Timken Roller Bearing Company* v. *United States*, 241 U.S. 593 (1950). Agreement No. 10266 appears in essence to be a market-sharing arrangement between I.C.T. and C.G.M. Also, the coordinated container service section of Agreement No. 9929–2 appears to contain several anticompetitive provisions. Therefore, under *FMC* v. *Svenska Amerika Linien*, 390 U.S. 238 (1969), the proponents will have the burden of coming forward with evidence to demonstrate that the approval of these Agreements shown to be per se violative of the antitrust laws is nevertheless in the public interest.

The proponents have stated that excessive delay in final determination of the matters under consideration could seriously disrupt their efforts to make arrangements for the operation of new vessels, which are scheduled to be delivered for use in the trade in January or February of 1978. They request that any proceeding ordered be concluded as quickly as possible, and that the Commission issue a final decision at the earliest possible date. In consideration of this request, we hereby direct the Office of Administrative Law Judges to conduct the proceedings herein ordered with the utmost expedition, consistent with the fullest development of the facts, and to render a decision as soon as possible. This, we believe, will be in the interest of both proponents and protestants.

Although we have directed expeditious handling of the hearing, it will not be possible for us to issue a final decision in these matters prior to the termination on April 8, 1977 of Agreement No. 9929–1 providing for the Combi non-LASH (i.e., conventional and container) service. Therefore, to prevent Agreement 9929–1 from expiring during the course of this proceeding, the Commission hereby approves Agreement No. 9929–3 pendente lite. We believe this limited approval satisfies most, if not all, of the protestants' comments with respect to this Agreement, and we are also mindful of the many communications we have received from shippers and port authorities, both foreign and domestic, urging the continuance of the Combi service.

Now, Therefore, *it is ordered*, That pursuant to section 15 of the Shipping Act, 1916, Agreement No. 9929–3 is approved pendente lite, until the final order of the Commission in the proceeding instituted herein;

It is further ordered, That pursuant to section 15 (46 U.S.C. 814) and section 22 (46 U.S.C. 821) of the Shipping Act, 1916, a proceeding is hereby instituted to determine whether or not Agreements Nos. 9929–2, 9929–3, 9929–4, 10266 and 10266–1 shall be approved, disapproved, or modified under the provisions of Section 15;

It is further ordered, That Hapag-Lloyd, AG; Compagnie Generale Maritime and Intercontinental Transport B.V. are hereby made proponents in this proceeding;

It is further ordered, That United States Line, Sea-Land Service, Inc. and Seatrain International, S.A. are hereby made the protestants in this proceeding;

It is further ordered, That a public hearing be held in this proceeding and that the matter be assigned for hearing and decision by an Administrative Law Judge of the Commission's Office of Administrative Law Judges at a date and place to be hereafter determined by the presiding Administrative Law Judge, but not later than October 8, 1977.

The hearing shall include oral testimony and cross-examination in the discretion of the presiding officer only upon a proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions, or other documents or that the nature of the matters in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record;

It is further ordered, That notice of this order be published in the FEDERAL REGISTER, and a copy thereof be served upon proponents and protestants as listed in the Appendix hereto;

It is further ordered, That any person other than proponents, protestants, and the Bureau of Hearing Counsel having an interest and desiring to participate in this proceeding shall file a petition for leave to intervene in accordance with Rule 5(1) (46 CFR 502.72) of the Commission's Rules of Practice and Procedure;

It is further ordered, That all future notices, orders, and/or decisions issued by or on behalf of the Commission in this proceeding, including notice of the time and place of hearing or prehearing conference, shall be mailed directly to all parties of record.

By the Commission.

JOSEPH C. POLKING,
Acting Secretary.

CONTINENTAL NORTH ATLANTIC WESTBOUND FREIGHT CONFERENCE

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before May 4, 1977. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth

V 4272 APR 14 77 UMI

with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement filed by:

Howard A. Levy, Esq., 17 Battery Place, Suite 727, New York, New York 10004.

Agreement No. 8210–35, among the member lines of the above-named conference, (1) prohibits carriers' agents from offering any remuneration or consideration not provided by tariffs or contracts of affreightment and (2) makes the sharing of brokerage with any party having interest in the cargo by any forwarder who is also an agent for a member line a breach of the agreement by the member line.

By Order of the Federal Martime Commission.

Dated: April 8, 1977.

JOSEPH C. POLKING,
Acting Secretary.

COORDINATED CARIBBEAN TRANSPORT, INC., ET AL

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, NY., New Orleans, Louisiana, San Francisco, California and San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before May 4, 1977. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Robert R. Schicchi, Chairman, Florida/Panama Rate Agreement, c/o Caribbean Agencies, Inc., P.O. Box 379189/Buena Vista Station, Miami, Florida 33137.

Agreement No. 10045–2, a rate agreement among Coordinated Caribbean Transport, Inc., Nopal Caribe Lines, N.V. and Pan American Mail Line, Inc., modifies the approved basic agreement by amending the geographic scope thereof to include the Republic of Costa Rica. Accordingly, the scope of the agreement will now be between Florida ports and ports in the Republic of Panama and the Republic of Costa Rica.

By Order of the Federal Maritime Commission.

Dated: April 8, 1977.

JOSEPH C. POLKING,
Acting Secretary.

FEDERAL POWER COMMISSION

[Docket No. E77-93]

EMERGENCY NATURAL GAS ACT OF 1977

Emergency Order

On April 8, 1977, Texas Gas Transmission Corporation (Texas Gas), as agent for certain of its customers,[1] filed, pursuant to Section 6 of the Emergency Natural Gas Act of 1977 (Act), Pub. L. 95–2 (91 Stat. 4 (1977)), an application for authorization to transport natural gas which it is purchasing for certain of its customers.

Texas Gas, as agent, executed a contract on March 29, 1977, with Chevron, U.S.A., Inc. (Chevron), for the purchase of approximately 250 Mcfd from the Block 23 Field, Ship Shoal Area, Offshore Louisiana.[2] The total price to be paid by Texas Gas, as agent, is $2.25 per MMBtu. The proposed price is fair and equitable in accordance with Order No. 2.

Texas Gas will receive these volumes through an existing metering station in Terrebonne Parish, Louisiana, and transport the gas through its existing pipeline facilities. Texas Gas' proposed transportation rates are based upon the cost data supporting the settlement rates in Texas Gas' most recent Federal Power Commission rate case in Docket No. RP76–17 and the retention of a percent of the transported volumes for compressor fuel and company use and loss. I find no basis on which to fix other charges since the parties have agreed upon the transportation charges and payment of the construction costs.

Based upon the foregoing, Texas Gas is authorized to purchase gas, as agent, from Chevron and to transport such gas for certain of its customers. This authorization is conditioned on (i) Texas Gas' submission of the names of the customers for which it is acting as agent, (ii) those customers agreeing to submit reports as required by Order No. 4 and (iii) such customers certifying that they are entitled to purchase gas under the provisions of Order No. 6.

This order is issued pursuant to the authority delegated to me by the President in Executive Order No. 11969 (February 2, 1977), and shall be served upon Texas Gas and Chevron. This order shall also be published in the FEDERAL REGISTER.

This order and authorization granted herein are subject to the continuing authority of the Administrator under Pub. L. 95–2 and the rules and regulations which may be issued thereunder.

RICHARD L. DUNHAM,
Administrator.

APRIL 8, 1977.

[FR Doc.77-11016 Filed 4-13-77;8:45 am]

[Docket No. E77-38]

EMERGENCY NATURAL GAS ACT OF 1977

Supplemental Emergency Order

By order issued March 30, 1977, pursuant to section 6 of the Emergency Natural Gas Act or 1977 (Act), Pub. L. 95–2 (91 Stat. 4 (1977)), I granted the March 25, 1977 request, as supplemented on March 28, 1977, of Columbia Gas Transmission Corporation (Columbia)

[1] These customers are local distribution companies and interstate pipelines as defined in section 2(1), (5) of the Act (91 Stat. 4).

[2] The Block 23 Field is contiguous to the shoreline. Thus, this gas is not produced from the Outer Continental Shelf.

V 4 2 7 2 APR 14 77 UMI

for authorization to (i) divert gas purchased from Delhi Gas Pipe Line Corporation (Delhi) under the March 1, 1977 authorization in this proceeding to Pacific Lighting Service Company (Pacific) and Pacific Gas & Electric Company (PG&E), (ii) have such gas transported by El Paso Natural Gas Company (El Paso), and (iii) amend the March 1, 1977 authorization to permit Columbia to purchase up to an average of 60,000 Mcfd from the commencement of deliveries through July 31, 1977. That order authorizes Columbia to use the volumes purchased from Delhi to repay approximately 5.695 Bcf of natural gas which Columbia and the Columbia Distribution Companies (Columbia Distribution)[1] received from Pacific and PG&E in Docket Nos. E77-10, E77-21 and E77-30.

On April 8, 1977, Delhi requested that an additional supplemental order be issued to assure that it retained all legal protections afforded by the Act set forth in the March 1, 1977 order in this proceeding. Delhi noted that it and Columbia have agreed to the terms and conditions of items (i), (ii) and (iii) above as a part of their contract and that it will make deliveries to El Paso in Reeves County, Texas.

The March 30, 1977 order stated as follows: "To the extent not inconsistent with the provisions of this order, the provisions of the March 1, 1977 order in this proceeding remain in full force and effect." This language continued in effect the protections afforded Delhi by Section 6 (91 Stat. 4, 7–8) and 9 (91 Stat. at 8–9) of the Act as prescribed in the March 1, 1977 order. Such protections are continued in full force and effect by this order.

Pursuant to section 6(a) of the Act, I find the amendments in the contract between Columbia and Delhi as approved in the March 30, 1977 order in this proceeding to be appropriate. The March 30, 1977 order in this proceeding is hereby amended to state that Delhi will make deliveries to El Paso in Reeves County, Texas. To the extent not inconsistent with the provisions of this order, the provisions of the March 1, 1977, and March 30, 1977 orders in this proceeding and all protection and authorizations granted therein remain in full force and effect.

This order is issued pursuant to the authority delegated to me by the President in Executive Order No. 11969 (February 2, 1977), and shall be served upon Columbia, Columbia Distribution, Pacific, PG&E, and El Paso. This order shall also be published in the FEDERAL REGISTER.

This order and authorization granted herein are subject to the continuing authority of the Administrator under Pub. L. 95-2 and the rules and regulations which may be issued thereunder.

RICHARD L. DUNHAM,
Administrator.

[Docket No. G-5715, etc.]

CABOT CORP. (SW), ET AL.

Applications for Certificates, Abandonment of Service and Petitions to Amend Certificates[1]

APRIL 7, 1977.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before May 2, 1977, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

[Docket No. CS77-371, etc.]

N. A. STEED, ET AL.

Applications for "Small Producer" Certificates[1]

APRIL 7, 1977.

Take notice that each of the Applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before May 4, 1977, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure here in provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

[FR Doc.77-10788 Filed 4-13-77;8:45 am]

FEDERAL RESERVE SYSTEM

MICHIGAN NATIONAL CORP.

Acquisition of Bank

Michigan National Corporation, Bloomfield Hills, Michigan, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent, less directors' qualifying shares, of the voting shares of Michigan National Bank, Sterling, Sterling Heights, Michigan, a proposed new bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than May 6, 1977.

Board of Governors of the Federal Reserve System, April 8, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[FR Doc.77-10907 Filed 4-13-77;8:45 am]

MONTBELLO BANKCORP, INC.

Order Approving Formation of a Bank Holding Company

Montbello Bankcorp, Inc., Denver, Colorado, has applied for the Board's approval under Section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)), to become a bank holding company through the acquisition of 80 percent or more of the voting shares of Montbello State Bank, Denver, Colorado ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act (42 FR 10339 (1977)). The time for filing comments and views has expired, and the application and all comments received have been considered in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is a corporation recently formed for the purpose of becoming a bank holding company through the acquisition of Bank. Upon acquisition of Bank (deposits of $9.86 million), Applicant would control the 156th largest of 277 banks in Colorado, holding .13 percent of the total deposits in commercial banks in the State.[1] Bank ranks 58th among 79 banks operating in the Denver market,[2] controlling .23 percent of the commercial deposits therein.

Principals of Applicant are principals with a combined majority interest in another one-bank holding company in Colorado. In addition, these individuals own majority interests in two other banks and are officers and directors of these institutions. Applicant's principals have been associated with these banks, all three of which are in the Denver banking market, since the organization of each. Since the proposal involves only a restructuring of present ownership into corporate form and the banks in question are so small, approval of the instant application should have no effect on either existing or potential competition.

The financial and managerial resources and future prospects of Applicant, which are largely dependent upon those of Bank, are considered generally satisfactory and consistent with approval. Debt of $672,000 will be incurred by Applicant. However, acquisition of Bank will have no adverse effect on the finnacial condition of either Applicant or Bank. Therefore, considerations relating to banking factors are regarded as being consistent with approval.

Consummation of the transaction would effect no changes in the banking services offered by Bank, and considerations relating to the convenience and needs of the community to be served lend no weight toward approval. It has been determined that consummation of the transaction would be consistent with the public interest and the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The acquisition of Bank shall not be made before the thirtieth calendar day following the effective date of this Order, or later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Secretary of the Board, acting pursuant to delegated authority from the Board of Governors, effective April 7, 1977.

THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.77-10908 Filed 4-13-77;8:45 am]

[1] All banking data are as of December 31, 1975.

[2] The Denver banking market includes all of Denver, Adams, Arapahoe, and Jefferson Counties and the Broomfield area in Boulder County.

FEDERAL TRADE COMMISSION

[Docket No. 9061]

JETMA TECHNICAL INSTITUTE, ET AL.

Consent Agreement With Analysis To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Request for comment.

SUMMARY: Consent order requiring a San Francisco, Calif., seller of correspondence training courses for gas turbine engine mechanics, and technical illustrators, among other things, to cease misrepresenting the need, demand, or potential earnings of their graduate; failing to furnish, prior to contracting, prospective enrolees with material disclosures regarding the employment rate, drop-out rate, and financial success of recent students. Further, respondents are required to furnish prospective students with a ten-day cooling-off period within which to cancel their contracts, to maintain, for a two-year period, files of inquiries and complaints relating to prohibited acts and practices; and to institute a surveillance program designed to ensure that their representatives comply with the terms of the order.

DATE: Comments must be received on or before June 13, 1977.

ADDRESS: Comments shold be directed to: Office of the Secretary, Federal Trade Commission, 6th and Penna. Ave. NW., Washington, D.C. 20580.

FOR FURTHER INFORMATION CONTACT:

William A. Arbitman, Director, San Francisco Regional Office, Federal Trade Commission, 450 Golden Gate Ave., San Francisco, Calif. 94102 415-556-1270.

SUPPLEMENTARY INFORMATION: Pursuant to section 6(f) of the FTC Act, 38 Stat. 721, 15 U.S.C. 46 and § 2.34 of the Commission's rules of practice (16 CFR 2.34), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with and provisionally accepted by the Commission, has been placed on the public record for a period of sixty (60) days. Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with § 4.9(b)(14) of the Commission's rules of practice (16 CFR 4.9(b)(14)).

AGREEMENT CONTAINING CONSENT ORDER TO CEASE AND DESIST

The argeement herein, by and between Jetma Technical Institute, a corporation, by its duly authorized officers, Fred and Anna H. Lee, individually and as officers of said corporation, respondents in a proceeding initiated by the Federal Trade Commission through the issuance of its complaint on October 28, 1975, and their attorney, and counsel for the Federal Trade Commission, is entered into in accordance with the Commission's Rule governing consent into in accordance with the Commission's Rule governing consent order procedure.

1. Respondent Jetma Technical Institute is a corporation organized, existing and doing business under and by virtue of the laws of the State of California, with its office and principal place of business located at 103 South Airport Boulevard, in the City of South San Francisco, State of California.

Respondent Fred Lee, Jr., is an individual and an officer of the corporate respondent. He formulates, directs and controls the acts and practices of the corporate respondent including the acts and practices hereinafter set forth. His address is the same as that of the corporate respondent.

Respondent Anna H. Lee is an individual and an officer of the corporate respondent. She formulates, directs and controls the acts and practices of the corporate respondent including the acts and practices hereinafter set forth. Her address is the same as that of the corporate respondent.

2. Respondents have been served with a copy of the complaint charging them with violations of Section 5 of the Federal Trade Commission Act.

3. Respondents admit all the jurisdictional facts set forth in the complaint.

4. Respondents waive: (a) Any further procedural steps; (b) The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; and (c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement.

5. This agreement shall not become a part of the official record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission it will be placed on the public record for a period of sixty (60) days and information in respect thereto publicly released; and such acceptance may be withdrawn by the Commission if, within thirty (30) days after the sixty (60) day period, comments or views submitted to the Commission disclose facts or considerations which indicate that the order contained in the agreement is inappropriate, improper, or inadequate. The Commission may, at any time pending final acceptance of this order, require hearings on the relief requirements provided by this order.

6. This agreement is for settlement purposes only and does not constitute an admission by respondents that the law has been violated as alleged in the complaint.

7. This agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of Section 2.34 of the Commission's Rules, the Commission may, without further notice to the respondents, issue its decision containing the following order to cease and desist in disposition of the proceeding and make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders. This order shall become final upon service. Mailing of the complaint and decision containing the agreed-to order to respondent's address as stated in this agreement shall constitute service. Respondents waive any rights they may have to any other manner of service. The complaint may be used in construing the terms of the order, and no agreement, understanding, representations, or interpretation not contained in the order or the agreement may be used to vary or contradict the terms of the order.

8. Respondents have read the complaint and order contemplated hereby, and they understand that once the order has been issued, they will be required to file one or more compliance reports showing that they have fully complied with the order, and that they may be liable for a civil penalty in the amount provided by law for each violation of the order after it becomes final.

ORDER

It is ordered, That respondent Jetma Tehnical Institute, a corporation, its successors and assigns, and its officers, and Fred Lee, Jr., and Anna H. Lee, individually and as officers of said corporation, and respondents' officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with advertising, offering for sale, sale, or distribution of courses of study, training or instruction in the field of gas turbine mechanics or any other subject, trade or vocation, or of any other product or service in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing in any manner, directly or by implication, that there is or will be any need or demand for respondents' graduates in positions for which such graduates are purportedly trained, except as hereinafter provided in Paragraph 4 of this Order.

2. Representing in any manner, directly or by implication, that respondents' graduates will or may earn any specified amount of money, or otherwise representing by any means the prospective earnings of such persons without clearly and conspicuously disclosing the employment salary range of respondents' graduates computed as prescribed in Paragraph 4 of the Order.

3. Representing in any manner, directly or by implication, that the gas turbine engine does not emit smog-producing pollutants.

4. Failing to disclose, in writing, clearly and conspicuously, prior to the signing of any contract, to any prospective student of any course of instruction offered by respondents, the following information in the format prescribed in Appendix B with the title "Important Information" printed in 10 point bold face type across the top of the form and for the Base Period described in Appendix A:

(1) The total number of students; the number and percentage of students who have failed to complete their course of instruction, such percentage to be computed separately for each course of instruction offered by respondents at each school, location or facility;

(2) The number and percentage of students who graduated, such percentage to be computed separately for each course of instruction;

(3) The number of graduates employed in a position for which the course trained them and the employment placement percentages based on all students and graduates; such numbers and percentages to be computed separately for each course of instruction offered by respondents at each school, location or facility;

(4) The employment salary range of respondents' graduates as to the same graduates used to compute the placement percentage in (3) above.

Provided, however, This Paragraph shall be inapplicable to any school newly established by respondents in a metropolitan area or county, whichever is larger, where they previously did not operate a school, or to any course newly introduced by respondents, until such time as the new school or course has been in operation for the base period described

V 4 2 7 2 A PR 14 7 7 UMI

in Appendix A. However, during such period the following statement, and no other, shall be made in lieu of the Appendix B Disclosure Form required by this Paragraph:

DISCLOSURE NOTICE

This school (or course, as the case may be) has not been in operation long enough to indicate what, if any, actual employment or salary may result upon graduation from this school (course).

5. Failing to keep adequate records, for a period of three years from the date each student discontinues training or graduates, which may be inspected by Commission staff members upon reasonable notice which substantiate the data and information required to be disclosed by Paragraph 4 of this Order. Such records shall include the name, address, and telephone number of each student and, with respect to Paragraph 4 (subparagraphs 3 and 4), such records shall include: (i) The name, address and telephone number of the firm or employer employing each graduate; (ii) The name or title of the job position obtained; (iii) The date on which the job position was obtained; (iv) His/her monthly or annual salary.

6. (a) Contracting for the sale of any course of instruction in the form of a sales contract or any other agreement which does not contain in immediate proximity to the space reserved in the contract for the signature of the prospective student in bold face type of a minimum size of ten (10) points, a statement in the following form:

"You, the prospective student (the buyer), may cancel this transaction at any time prior to midnight of the tenth business day after the date of this transaction. See attached notice of cancellation form for an explanation of this right."

(b) Failing to furnish each prospective student, at the time he signs the sales contract or otherwise agrees to enroll in a course of instruction offered by respondents, a complete form in duplicate, which shall be attached to the contract or agreement, and easily detachable, and which shall contain in ten (10) point bold face type the following information and statements:

NOTICE OF CANCELLATION

(Enter date of transaction)

(Date)

YOU MAY CANCEL THIS TRANSACTION, WITHOUT ANY PENALTY OR OBLIGATION, WITHIN TEN (10) BUSINESS DAYS FROM THE ABOVE DATE.

IF YOU CANCEL, ANY PAYMENTS MADE BY YOU UNDER THE CONTRACT OR SALE, AND ANY NEGOTIABLE INSTRUMENT EXECUTED BY YOU WILL BE RETURNED WITHIN TEN (10) BUSINESS DAYS FOLLOWING RECEIPT BY THE SELLER OF YOUR CANCELLATION NOTICE, AND

ANY SECURITY INTEREST ARISING OUT OF THE TRANSACTION WILL BE CANCELLED.

IF YOU CANCEL, YOU MUST MAKE AVAILABLE TO THE SELLER AT YOUR RESIDENCE, IN SUBSTANTIALLY AS GOOD CONDITION AS WHEN RECEIVED, ANY GOODS DELIVERED TO YOU UNDER THIS CONTRACT OR SALE; OR YOU MAY, IF YOU WISH, COMPLY WITH THE INSTRUCTIONS OF THE SELLER REGARDING THE RETURN SHIPMENT OF THE GOODS AT THE SELLER'S EXPENSE AND RISK.

IF YOU DO MAKE THE GOODS AVAILABLE TO THE SELLER AND THE SELLER DOES NOT PICK THEM UP WITHIN TWENTY (20) DAYS OF THE DATE OF YOUR NOTICE OF CANCELLATION, YOU MAY RETAIN OR DISPOSE OF THE GOODS WITHOUT ANY FURTHER OBLIGATION. IF YOU FAIL TO MAKE THE GOODS AVAILABLE TO THE SELLER, OR IF YOU AGREE TO RETURN THE GOODS TO THE SELLER AND FAIL TO DO SO, THEN YOU REMAIN LIABLE FOR PAYMENT OF SAID GOODS.

TO CANCEL THIS TRANSACTION, MAIL OR DELIVER A SIGNED AND DATED COPY OF THIS CANCELLATION NOTICE OR ANY OTHER WRITTEN NOTICE, OR SEND A TELEGRAM, TO ----------

(Name of seller)

AT ----------

(Address of seller's place of business)

NOT LATER THAN MIDNIGHT OF ----------

(Date)

I HEREBY CANCEL THIS TRANSACTION

---------- ----------

(Date) (Buyer's signature)

• • • • • •

(c) Failing to orally inform each prospective student of his right to cancel at the time he signs a contract or agreement for the sale of any course of instruction.

(d) Misrepresenting in any manner the prospective student's right to cancel.

(e) Failing or refusing to honor any valid notice of cancellation by a prospective student and within ten (10) business days after the receipt of such notice to: (i) refund all payments made under the contract or sale; (ii) return any materials or property traded in, in substantially as good condition as when received by respondent; (iii) cancel and return any negotiable instrument executed by the prospective enrollee in connection with the contract or sale.

(f) During the cancellation period described herein, respondents shall not initiate contacts with such contracting persons other than contracts permitted by this paragraph.

7. Making any representations of any kind whatsoever, which are not already proscribed by other provisions of this Order, in connection with the advertising, promoting, offering for sale, sale or distribution of courses of study, training or instruction in the field of gas turbine mechanic's training or any other course offered to the public in any field in commerce, for which respondents have no reasonable basis prior to the making or dissemination thereof.

8. Furnishing or otherwise placing in the hands of others the means and instrumentalities by and through which the public may be misled or deceived in the manner, or by the acts and practices prohibited by the Order.

9. *It Is Further Ordered*, That:

(a) Respondents herein deliver, by hand or by registered mail, a copy of this Order to each of their present and future franchisees, licensees, employees, sales representatives, agents, solicitors, brokers, independent contractors or to any other person who promotes, offers for sale, sells or distributes any course of instruction included within the scope of this Order;

(b) Respondents herein provide each person or entity so described in subparagraph (a) of this paragraph with a form returnable to the respondents clearly stating his or her intention to be bound by and to conform his or her business practices to the requirements of this Order; retain said statement during the period said persons or entity is so engaged; and make said statement available to the Commission's staff for inspection and copying upon request;

(c) Respondents herein inform each person or entity described in subparagraph (a) of this paragraph that the respondents will not use or engage or will terminate the use or engagement of any such party, unless such party agrees to and does file notice with the respondents that he or she will be bound by the provisions contained in this Order;

(d) If such party as described in subparagraph (a) of this paragraph will not agree to file the notice set forth in subparagraph (b) above with the respondents and be bound by the provisions of this Order, the respondents shall not use or engage or continue the use or engagement of such party to promote, offer for sale, sell or distribute any course of instruction included within the scope of this Order;

(e) Respondents herein inform the persons or entities described in subparagraph (a) above that the respondents are obligated by this Order to discontinue dealing with or to terminate the use or engagement of persons or entities who continue on their own the deceptive acts or practices prohibited by this Order;

(f) Respondents herein institute a program of continuing surveillance adequate to reveal whether the business practices of each said person or entity described in subparagraph (a) above conform to the requirements of this Order;

(g) That respondents discontinue dealing with any person described in subparagraph (a) above, revealed by the aforesaid program of surveillance, who

engaged on his own in the acts or practices prohibited by this Order; *provided, however*, That violation of any provision of this Order by present or future employees of independent contractors shall not be deemed a violation of this Order by respondents unless respondents, upon knowledge of such violation, fail to take, within a reasonable time, corrective action to insure that such act or practice is terminated; *and further provided*, That in the event remedial action is taken, the sole fact of such dismissal or termination shall not be admissible against respondents in any proceeding brought to recover penalties for alleged violation of any other paragraph of this order.

(h) Respondents herein maintain files containing all inquiries or complaints from any source relating to acts or practices prohibited by this Order, for a period of two years after their receipt, and that such files be made available for examination by a duly authorized agent of the Federal Trade Commission during the regular hours of the respondents' business for inspection and copying.

10. *It is further ordered*, That respondent corporation shall forthwith distribute a copy of this Order to each of its operating divisions.

11. *It is further ordered*, That the respondent corporation shall notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the respondent corporation which may affect compliance obligations arising out of this Order.

12. *It is further ordered*, That the individual respondents named herein promptly notify the Commission of the discontinuance of his or her present business or employment with respondent corporation and of his or her affiliation with a new business or employment related to the vocational training industry. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he or she is engaged as well as a description of his or her duties and responsibilities.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

APPENDIX A

BASE PERIOD

The first Base Period shall be the six-month period ending three months prior to the effective date of this Order, such period to commence on the first day of the first month in the Base Period, and end on the last day of the sixth month. Subsequent Base Periods shall be of six months duration commencing on the next day following the termination of the prior Base Period. Base Periods shall be numbered consecutively beginning with the first Base Period (i.e., Base Period No. 1) as defined above.

MONITORING PHASE

The three-month period immediately following the close of a Base Period shall be used by respondents to monitor and compile the total number of all students, and the number of students who dropped out, at any time during the Base Period, and the employment success results of graduates during that Base Period. Respondents may include in the computation of statistics for the Base Period any employment statistics based upon events occurring during the three-month Monitoring Phase.

DISSEMINATION PHASE

On the first business day following three months after the termination of a Base Period, respondents shall begin dissemination of that just-terminated Base Period's statistics as required by this Order, continuing such dissemination until the first business day following three months after the termination of the next Base Period, at which time dissemination of the next set of Base Period statistics must begin.

APPENDIX B

$600 to 799 PER MONTH			
$800 AND OVER PER MONTH			

JETMA TECHNICAL INSTITUTE, ET AL.,
DOCKET No. 9061

ANALYSIS OF PROPOSED CONSENT ORDER TO AID PUBLIC COMMENT

The Federal Trade Commission has accepted an agreement to a proposed consent order from Jetma Technical Institute, a corporation, and Fred Lee, Jr. and Anna H. Lee, individually and as officers of Jetma Technical Institute.

The proposed consent order has been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again review the agreement and the comments received and will decide whether it should withdraw from the agreement or make final the agreement's proposed order.

The complaint alleges respondents falsely advertise that there is a need for a substantial number of graduates of their gas turbine engine mechanics course, that graduates of their course receive high salaries as gas turbine mechanics, and that the gas turbine engine is smog free.

The order prohibits any representations concerning the need or demand for respondents' graduates in positions for which they are purportedly trained, or any representations concerning salary expectations for these graduates, unless respondents disclose the student dropout rate for each course, the percentage of students of each course gaining employment, and the employment salary range for respondents' graduates.

The order also prohibits any representations that the gas turbine engine is smog free.

In addition to the above prohibitions, the order requires the respondents to provide a ten (10) day cancellation period for the consumer on all contracts.

The purpose of this analysis is to facilitate public comment on the proposed order, and it is not intended to constitute an official interpretation of the agreement and proposed order or to modify in any way their terms.

JOHN F. DUGAN,
Acting Secretary.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposal

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on April 8, 1977. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed EEOC request are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed request, comments (in triplicate) must be received on or before May 2, 1977, and should be addressed to Mr. John M. Lovelady, Acting Assistant Director, Regulatory Reports Review, United States General Accounting Office, Room 5033, 441 G Street NW., Washington, D.C. 20548.

V4272 APR 14 77 UMI

Further information may be obtained from Patsy Stuart of the Regulatory Report Review Staff, 202-275-3532.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

EEOC requests clearance of a revision to Form EEOC-5, Charge of Discrimination. EEOC-5 has been revised to bring it into compliance with Privacy and Freedom of Information Acts as well as amendment to the Commission's procedural regulations at 29 CFR 1601, 13, 41 FR 34745. Form EEOC-5 is to assist persons who believe they have been aggrieved to file charge of unlawful employment practices with the Commission. Use of Form EEOC-5 is not mandatory; however, section 706(b) of Title VII of the Civil Rights Act of 1964, as amended, requires that charges be in writing under oath or affirmation. EEOC estimates it will receive 45,000 complaints annually and that reporting burden averages 30 minutes by respondents for preparation of each complaint.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

GENERAL SERVICES ADMINISTRATION

[FPMR Temporary Reg. F-420]

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in a proceeding involving the proposal to adopt a two-tier pricing system for natural gas sales in Maryland.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the Federal Government before the Maryland Public Service Commission (Case No. 7033) involving the application by the Baltimore Gas and Electric Company, which proposes to adopt a two-tier pricing system for natural gas sales in the State of Maryland.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ROBERT T. GRIFFIN,
Acting Administrator.

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent, in conjunction with the Administrator of General Services, the consumer interests of the executive agencies of the Federal Government in proceedings before the Federal Communications Commission involving interstate telephone rates and tariffs.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the Federal executive agencies before the Federal Communications Commission involving the application of the American Telephone and Telegraph Company for changes in its interstate regulations, rates, and charges, for Tariff FCC No. 260, shared use and resale of private line services and elimination of TELPAK tariffs (Tariff Transmittal Nos. 12714, 12715, and 12716). The authority delegated to the Secretary of Defense shall be exercised concurrently with the Administrator of General Services.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. his authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ROBERT T. GRIFFIN,
Acting Administrator.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Assistant Secretary for Education

COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

Opportunity to Comment

Pursuant to section 406(g)(2)(B), General Education Provisions Act, notice is hereby given as follows:

The U.S. Office of Education has proposed collections of information and data acquisition activities which will request information from educational agencies or institutions.

The purpose of publishing this notice in the FEDERAL REGISTER is to comply with paragraph (g)(2)(B) of the "Control of Paperwork" amendment which provides that each educational agency or institution subject to a request under the collection of information and data acquisition activity and their representative organization shall have an opportunity, during a 30-day period before the transmittal of the request to the Director of the Office of Management and Budget, to comment to the Administrator of the National Center for Education Statistics on the collection of information and data acquisition activity.

These data acquisition activities are subject to review by the HEW Education Data Acquisition Council and the Office of Management and Budget.

Descriptions of the proposed collections of information and data acquisition activities follow below.

Written comments on the proposed activities are invited. Comments should refer to the specific sponsoring agency and form number and must be received on or before May 13, 1977 and should be addressed to Administrator, National Center for Education Statistics, attention: Manager, Information Acquisition, Planning, and Utilization, Room 3001, 400 Maryland Avenue SW., Washington, D.C. 20202.

Further information may be obtained from Elizabeth M. Proctor of the National Center for Education Statistics, 202-245-1022.

Dated: April 8, 1977.

MARIE D. ELDRIDGE,
Administrator, National Center for Education Statistics.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. TITLE OF PROPOSED ACTIVITY

Application for Federal Loan for Institutional Capital Contribution, National Defense Education Act of 1958, Title II, section 207.

2. AGENCY/BUREAU/OFFICE

U.S. Office of Education, Bureau of Student Financial Assistance.

3. AGENCY FORM NUMBER

OE 1024.

4. LEGISLATIVE AUTHORITY FOR THIS ACTIVITY

• • • "Upon application by any institution of Higher Education with which it has made an agreement under this title, the Commissioner may make a loan to such institution for the purpose of helping to finance the institution's capital contribution to a student loan fund established pursuant to such agreement • • •" (Pub. L. 85-864, sec. 207(a); 20 U.S.C. 427 as amended by Pub. L. 92-318, sec. 461; 20 U.S.C. 1067aa.)

5. VOLUNTARY/OBLIGATORY NATURE OF RESPONSE

Required to obtain benefits.

6. HOW INFORMATION TO BE COLLECTED WILL BE USED

Information collected will be used to determine whether a loan for Institutional Capital Contribution will be made.

7. DATA ACQUISITION PLAN

(a) Method of Collection: Mail; (b) Time of Collection: Summer; (c) Frequency: Annually.

8. RESPONDENTS

(a) Type: Institutions of Postsecondary Education participating in the National Direct Student Loan Program; (b) Number: 200; (c) Estimated Average Man-Hours Per Respondent: ¼ hour.

9. INFORMATION TO BE COLLECTED

(1) Name and address of institution and Entity I.D. Number; (2) Amount of Institutional Capital Contribution needed to match Federal Capital Contribution; (3) Explanation of steps taken to obtain loan funds from non-Federal sources; (4) Terms available from non-Federal sources for borrowing funds; (5) Payment Terms and Duration desired for Federal loan; (6) Signature and title of institutional authorizing officer and date.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. TITLE OF PROPOSED ACTIVITY

Application for Basic Institutional Development Program, Title III, HEA of 1965, as amended.

2. AGENCY/BUREAU/OFFICE

Office of Education, Bureau of Postsecondary Education/Division of Institutional Development.

3. AGENCY FORM NUMBER

OE Form 1049.

4. LEGISLATIVE AUTHORITY FOR THIS ACTIVITY

"Any institution desiring special assistance under the provisions of this title shall submit an application for eligibility to the Commissioner at such time, in such form, and containing such information, as may be necessary to enable the Commissioner to evaluate the need of the applicant for such assistance and to determine its eligibility to be a developing institution for the purposes of this title • • •" (Pub. L. 92-318, sec. 302(b); 20 U.S.C. 1052.)

5. VOLUNTARY/OBLIGATORY NATURE OF RESPONSE

Required to obtain benefits.

6. HOW INFORMATION TO BE COLLECTED WILL BE USED

Information will be used to determine eligibility and merits of an institution as a "developing institution" for participation in the Title III Program, HEA of 1965, as amended. It is used in the grant-award process to determine the requested projects that should be funded as well as the total amount of grant award.

7. DATA ACQUISITION PLAN

(a) Method of Collection: Mail; (b) Time of Collection; Fall; (c) Frequency: Annually.

8. RESPONDENT

(a) Type: College and Universities; (b) Number: 400-500; (c) Estimated Average Man-Hours Per Respondent: 25.

9. INFORMATION TO BE COLLECTED

The standard face page SF-424 is used as Part I. The rest of the application, OE Form 1049, is divided into four parts:

(a) Part II, Requested Arrangement. Award grants are in the form of consortium or bilateral arrangements in five areas—curriculum development, faculty development, administrative improvement, student services and planning for future growth. Participating institutions and assisting institutions and agencies are listed. Amounts requested for arrangement are shown.

(b) Part III, Program Budgets for Requested Year. Separate budget pages must be completed and submitted for each program requested for funding. The salaries of all position titles by major categories must be listed; e.g., Program Coordinators, secretaries, National Teaching Fellows and Professors Emeriti. Amounts for travel, equipment, and any amount paid to participating or assisting institutions, and/or agencies must also be shown together with the non-federal share from institutional funds.

(c) Part IV, Institutional Eligibility and Assurances. In this part the institution assures the U.S. Commissioner of Education that it is eligible as a developing institution by checking off the listed requirements. It also sets forth its accreditation and identifies both the amounts and other Federal and State programs from which it receives funds.

(d) Part V, Institutional Statistics. This part of the application requests data for the last, current, and next academic year in the following areas: (1) Income, (2) Expenditures, (3) Staff, (4) Number of students and graduates during academic year, (5) Number of students (Full-time plus Part-time) enrolled during academic year (broken into minority groups), (6) Number of students (by minority groups) with family income less than $7,500 per year.

Public Health Service

DIRECTOR, NATIONAL INSTITUTES OF HEALTH

Delegation of Authority; Preparation of Biological Products

Notice is hereby given that the Assistant Secretary for Health delegated to the Director, National Institutes of Health, with authority to redelegate, the authority under Section 352 of the Public Health Service Act (42 U.S.C. 263) to prepare biological products as specified in Section 352 for the use of the Public Health Service and for the use of other Federal departments or agencies, and public or private agencies and individuals engaged in work in the field of medicine.

The delegation became effective on April 1, 1977.

Dated: April 1, 1977.

RUPERT MOURE,
Executive Officer, Public Health Service.

[FR Doc.77-10915 Filed 4-13-77;8:45 am]

Office of the Secretary

OFFICE OF THE REGIONAL ATTORNEY

Statement of Organization, Functions, and Delegations of Authority

Chapters coded under the ADG Region I-X part of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare are amended to delete reference to supervision of the Regional Attorney by the Regional Director and to place the Regional Attorneys under the supervision and direction of the General Counsel for all matters. To the extent that other statements of organization are inconsistent with this statement, such statements are hereby revised.

The portion of each chapter relating to the Office of the Regional Attorney is amended as follows:

Office of the Regional Attorney. The Regional Attorney serves as the legal adviser to the Regional Director and as chief legal officer for DHEW programs and activities in the region. The Regional Attorney is under the supervision and direction of the General Counsel.

The office of the Regional Attorney:

1. Advises and counsels the Regional Director and operating program personnel on legal issues relating to their responsibilities within the region;

2. Assists in legal aspects of program development and of policy problem solution;

3. Provides professional legal services, such as preparation of legal instruments, memoranda, reports, and interpretive analyses;

4. Represents or counsels the Regional Director in negotiations to resolve actual and potential problems of a legal nature;

V4272 APR 14 77 UMI

5. Provides appropriate legal assistance to state agencies and officials in connection with DHEW programs;

6. Prepares for and conducts administrative hearings, aids the U.S. Attorney in preparation for and conduct of litigation, and performs such other duties as may be requested by the General Counsel.

Effective date: April 4, 1977.

Dated: April 4, 1977.

JOSEPH A. CALIFANO, Jr.,
Secretary.

DEPARTMENT OF JUSTICE

COMMITTEE ON SELECTION OF DIRECTOR OF FEDERAL BUREAU OF INVESTIGATION

Meeting

APRIL 11, 1977.

Pursuant to the provisions of Public Law 92-463, notice is hereby given that the second meeting of the Committee on Selection of the Director of the Federal Bureau of Investigation will be held in the Andretta Conference Room of the Department of Justice, 10th and Constitution Avenue NW., Washington, D.C., at 2 p.m. on Tuesday, April 26, 1977.

The meeting will discuss criteria for selection of a Director of the FBI, procedures to be followed by the Committee and the qualifications of individuals whose names have been submitted. Portions of the meeting dealing with the qualifications of individuals or consideration of specific individuals may be closed to the public pursuant to section 10(d) of Pub. L. 92-463 as amended (see 5 U.S.C. 552(b)(c)(6)).

Additional information may be obtained from Ms. Mary C. Lawton, Deputy Assistant Attorney General, Office of Legal Counsel, Department of Justice, Washington, D.C. 20530.

Minutes of the meeting will be available upon request from the above designated official.

MARY C. LAWTON,
Staff Director, Committee on Selection of the FBI Director.

LEGAL SERVICES CORPORATION

GRANTS AND CONTRACTS

Consideration of Applications

APRIL 11, 1977.

The Legal Services Corporation was established pursuant to the Legal Services Corporation Act of 1974, Pub. L. 93-355, 88 Stat. 378, 42 U.S.C. 2996-2996*l*. Section 1007(f) provides:

At least thirty days prior to the approval of any grant application or prior to entering into a contract or prior to the initiation of any other project, the Corporation shall announce publicly, and shall notify the Governor and the State Bar Association of any State where legal assistance will thereby be initiated, of such grant, contract, or project • • •

The Legal Services Corporation hereby announces publicly that it is considering the grant applications submitted by:

1. East River Legal Services Corporation to serve the counties of Clay, Lincoln, Turner, Moody, Union, McCook, and Minnehaha in South Dakota.

2. Legal Aid Society of Wichita to serve the counties of Butler, Harvey, McPherson, and Sloane in Kansas.

Interested persons are hereby invited to submit written comments or recommendations concerning the above application to the Regional Office of the Legal Services Corporation at:

Chicago Regional Office, 310 South Michigan Avenue, 24th Floor, Chicago, Illinois 60604.

THOMAS EHRLICH,
President.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Wyoming 58780]

WYOMING

Application

APRIL 5, 1977.

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Kansas-Nebraska Natural Gas Company, Inc. of Hastings, Nebraska filed an application for a right-of-way to construct a 12¾" O.D. steel pipeline for the purpose of transporting natural gas across the following described national resource lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 34 N., R. 89 W.
Sec. 31.
T. 34 N., R. 90 W.
Sec. 14;
Sec. 24;
Sec. 25.
T. 35 N., R. 90 W.
Sec. 3;
Sec. 10;
Sec. 31.
T. 36 N., R. 90 W.
Sec. 3;
Sec. 10;
Sec. 15;
Sec. 34.
T. 37 N., R. 90 W.
Sec. 23;
Sec. 26.

This pipeline will connect with the applicant's existing pipeline in the NE¼ sec. 23, T. 37 N., R. 90 W., and tie into Northern Utilities, Inc., line in the SW¼ sec. 31, in T. 34 N., R. 89 W., in Fremont County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, 1300, Third Street, P.O. Box 670, Rawlins, Wyoming 82301.

HAROLD G. STINCHCOMB,
Chief, Branch of Lands and Minerals Operations.

[FR Doc.77-10927 Filed 4-13-77;8:45 am]

[Wyoming 58781]

WYOMING

Application

APRIL 4, 1977.

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Colorado Interstate Gas Company of Colorado Springs, Colorado filed an application for a right-of-way to construct a 4 inch O.D. natural gas pipeline for the purpose of transporting natural gas across the following described national resource lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 20 N., R. 94 W.,
Sec. 6, lot 5, NE¼SW¼ and NW¼SE¼.

The pipeline will transport natural gas produced from the No. 1-6 Federal well in section 6, Township 20 North, Range 94 West, in Sweetwater County, Wyoming into an existing natural gas pipeline in section 1, Township 20 North, Range 95 West in Sweetwater County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, 1300 Third Street, P.O. Box 670, Rawlins, Wyoming 82301.

GPO 895-042

ATTACHMENT TO APPLICATION OF TENNESSEE VALLEY AUTHORITY FOR WILDLIFE COLLECTION PERMIT

Information required by 50 CFR, section 17.22(a).—(a) (1) Snail darter (*Percina tanasi*). TVA will remove and transplant as many specimens as can reasonably be captured from the Little Tennessee River embayment of Watts Bar Reservoir below Tellico Dam and from the Little Tennessee River above Tellico Dam. Realistically, the total fish captured will probably not exceed 1,000. All fish, captured will be introduced into the Holston River below Cherokee Dam (Holston River Miles 7-40). The area of the Holston River below Cherokee Dam has been selected by general agreement with the U.S. Fish and Wildlife Service, the Tennessee Wildlife Resources Agency, and the Tennessee Valley Authority as having the most potential for maintenance of a snail darter population outside of the Little Tennessee and Hiwassee Rivers.

(2) The wildlife coverod by this permit is in the wild.

(3) No known captive populations of snail darters exist.

(4) Not applicable.

(5) Not applicable.

(6) Fish will be collected by SCUBA divers using modified bag seines. Transportation and release methods will be as authorized under TVA's previous permit (PRT 2-4, May 13, 1976). Specimens collected will be transplanted to the Holston River below Cherokee Dam (HRM 7-HRM 40). The area was agreed upon at the September 29, 1976, consultation meeting by biologists from the U.S. Fish and Wildlife Service, the Tennessee Wildlife Resources Agency, and the Tennessee Valley Authority, as being the most suitable site to maintain a population of *Percina tanasi* outside of the Little Tennessee and Hiwassee Rivers. Over 700 specimens have been transplanted in the past two years without incident of mortality.

(7) The activities under this permit are described, in part, under Activity V (Transplantation) of the workplan submitted previously with the application for Permit PRT 2-4, issued May 13, 1976. Capture of specimens will be accomplished by SCUBA divers using a modified bag seine. Such activities will be carried out by TVA under the general supervision of Dr. Thomas H. Ripley, Director of TVA's Division of Forestry, Fisheries, and Wildlife Development; and under the direct supervision of Richard B. Fitz. Personnel of the U.S. Fish and Wildlife Service and the Tennessee Wildlife Resources Agency will cooperate in carrying out field activities.

(8) (i)–(ii)—Details of scope and procedure for the activity are set out in the workplan previously submitted (referred to and as modified in (7) above).

(iii)—Investigations during the course of TVA's Program to Conserve the Snail Darter (*Percina tanasi*) have revealed a large number (>1,000) of young-of-the-year *P. tanasi* congregated below Tellico Dam in the Little Tennessee River embayment of Watts Bar Reservoir during 1976. Concurrent observations have failed to produce evidence of any young of the year in the Little Tennessee River above Tellico Dam although perhaps 1,000 adults remain in this reach. These factors indicate that recruitment to the reach of river designated as critical habitat is nonexistent due to the obstruction of Tellico Dam structure preventing upstream migration.

It was agreed during the November 10, 1976, consultation meeting by biologists from the USFWS, TWRA, and TVA that this situation created a potential threat to the continued existence of not only those congregated below Tellico Dam but to the Little Tennessee River population itself. Subsequently, TVA applied for a permit to capture the fish below Tellico Dam in Watts Bar Reservoir and transplant them to other sites in the eastern Tennessee River Valley with the initial transplant to be to the Holston River below Cherokee Reservoir. This area was selected by biologists from the U.S. Fish and Wildlife Service, the Tennessee Wildlife Resources Agency and TVA as the first priority among a list of six potential sites. It is now believed that a sufficient number of darters is available and recoverable only to stock the Holston River effectively.

TVA's view has always been that transplantation to suitable sites outside the lower section of the Little Tennessee River is the only action that can be taken to eliminate any direct threat to the fish congregated below Tellico Dam. With regard to the population in the Little Tennessee River, extirpation will occur this year following the impending spawning period despite any measures that may be taken. To transplant these fish to other waters prior to spawning is the most desirable alternative in TVA's opinion.

(iv)—All live specimens collected will be released in the transplant area. In the event that some specimens are killed or injured during the activity, they will be preserved and retained in TVA's Fisheries Laboratory in Norris, Tennessee, and will be available for inspection by other scientists.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Room 512, 1717 H Street NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/WPO), U.S. Fish and Wildlife Service, Washington, D.C. 20240. This application has been assigned File Number PRT 2-666-07; please refer to this number when submitting comments. All relevant com-

The following information is supplied in conjunction with the attached application to export 1/0 Jaguar to the country of Venezuela by the Central Florida Zoological Society, P.O. Drawer 2078, Sanford, Florida 32771.

This information is supplied following the guidelines and instructions established by 50 CFR 17.22:

(1) Jaguar (*Panthera onca*), Male, 1 yr. old, exportation for potential breeding and release into natural habitat.

(2) Animal was born to resident pair on exhibit at the Central Florida Zoological Park.

(3) N/A.

(4) Born Mar. 3, 1976 at the Central Florida Zoological Park.

(5) This specimen will be conditioned for release on the hacienda property of Dr. Ivan Dario Maldonado, located in the Apure-state of Venezuela. Eventual release will take place within an area of approximately 190 acres which is an extension of the hacienda. Actual communication and liaison is through Dr. Pedro Trebbau, Director of Zoos, Parque Carucuao, Apartado 28058, Caracas, Venezuela. Permit authorization is shown on attached forms.

(6) (i) See attached diagram, to be used only to acclimate animal for eventual release.

(ii) Technical expertise will be supplied by Dr. Trebbau's office. Interest is also developing in the area of radio telemetry. Dr. Edgardo Mondolfi is the leader of this activity in Venezuela and is very interested in such a venture. Dr. John Eisenberg of the Smithsonian Institute may also lend valuable support to the project.

(iv) The container to be used will measure 3'w, 5'l, 4'h. It will be constructed of wood and reinforced even though animal in question is only one year old and extremely docile.

(7) See attached forms. When approved by your office, Dr. Trebbau informs us that these import forms can be updated to coincide with export permits with no problem.

(8) The intent of this exportation permit is to attempt to re-establish a breeding population of Jaguars in their natural habitat which is sparsely populated by people so as to allow maximum chance of survival and to increase the natural numbers of an endangered species.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Room 512, 1717 H Street NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/WPO), U.S. Fish and Wildlife Service, Washington, D.C. 20240. This application has been assigned File Number PRT 2-681-C-07; please refer to this number when submitting comments. All relevant comments received on or before May 16, 1977 will be considered.

Dated: April 11, 1977.

I UNDERSTAND THAT ANY FALSE STATEMENT HEREIN MAY SUBJECT ME TO THE CRIMINAL PENALTIES OF 18 U.S.C. 1001.

SIGNATURE OF APPLICANT: Vance B. Grannis, Jr. DATE: 3/15/77

3-200
10/76

ATTACHMENT 17.33 TO PERMIT REQUEST

(1) A "Captive Self-Sustaining Population" permit is requested for the following species of pheasants, quail, ducks, and goose:

✓(1) Brown-eared pheasant (Crossoptilon mantichuricum)
(2) White-eared pheasant (Crossoptilon crossoptilon drouyni)
(3) Bar-tailed pheasant (Syrmaticus humiae)
(4) Mikado pheasant (Syrmaticus mikado)
(5) Palawan peacock pheasant (Polypectron emphanum)
(6) Elliot's pheasant (Syrmaticus ellioti)
(7) Edwards pheasant (Lophura edwardsi)
(8) Swinhoe's pheasant (Lophura swinhoii)

The applicant seeks a permit to authorize an unlimited number of transactions through interstate commerce over a 2 year period of time for the 8 species of pheasant, 1 specie of quail, 2 species of duck and 1 specie of goose listed above in this paragraph, with the permit being subject to renewal according to section 13.24.

(2) The applicant possesses numerous pheasant aviaries of varing sizes the average approximate size being 20 ft. long 9 ft. wide and 6 ft. high, all of which have various types of shelters. All pheasant aviaries are predator proof employing heavy guage wire. During the summer there are a number of waterfowl pens with separate ponds. During the winter there is a heated Barn with indoor ponds for the waterfowl. Quail are kept in aviaries similar to the pheasants or in smaller pens appropriate for their size. Five acres of land are used at present with an additional twenty acres available. Photos are attached.

(3) Applicant has been propagating pheasants and waterfowl for more than 8 years. I am presently raising some of the pheasants and the ducks referred to in this permit application. My aviaries contain different species of pheasants, quail and many species of waterfowl. The collection is considered one of the larger ones in the State of Minnesota.

The applicant is an active member of many wildlife organizations including (1) American Pheasant & Waterfowl Society (Director)
(2) Game Bird Breeders Cooperative Federation
(3) Minnesota Pheasant and Waterfowl Society (President)
(4) International Wild Waterfowl Association.

(4) The applicant is willing to participate in a cooperative breeding program and to contribute data for a stud book.

(5) The applicant will use standard shipping crates of appropriate size for pheasants, quail, ducks and geese. He has already shipped or received pheasants, ducks and geese throughout the United States without loss. Food and water will be included in crates when necessary.

(6) Among the hundreds of pheasants, quail, ducks and geese the applicant possesses or has bred only a negligible loss occurred. The losses have mainly been due to predators. Changes have been made to make pens predator proof. Some ducks died from a dosage of deworming medicine.

(7) i. The applicant is making this application to gain authorization to engage in interstate commerce with the pheasants, quail, duck and goose listed under #1. This will enable the applicant to dispose of progeny raised each year to qualified breeders and thereby recover all costs invested in the above species. This will also increase the "captive self-sustaining population" of each of the species involved and thereby enhance their overall chances for survival. The applicant also contends that this will better the probability of reintroduction into their natural habitats when environmental and political situations will allow such action. Maintaining these species in captivity will permit future generations to view and enjoy these birds. Hundreds of people, including bus loads of school children, come to my aviaries to see these birds which they cannot see in their native habitat.

ii. Upon termination of my breeding program, those birds covered by the permit as well as those which are not will be distributed among qualified breeders of those species concerned who will continue to propagate them for future generations.

Sincerely,
Vance B. Grannis, Jr.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Room 512, 1717 H Street NW., Washington, D.C.

SIGNATURE (In ink) S.J."Tony" Eberson
DATE 1-12-'77

FWS Form 3-200-12 (6/76) GPO 893-849

Arizona and at present in Vista, CA.. I have been and am a member of different Gamebird breeders associations, the American Federation of Aviculture, the Aviculture Society of America and other local clubs, for many years.

I have made the Masked Bobwhites and other quail my special study for the last six years. In doing this I have exchanged information and worked with well known and knowledgeable bird-people across the nation and in Europe.

iii.- We would be willing and interested in a cooperative breeding program and are keeping records.

iv.- One container 8"x 24"long x 12" deep, constructed out of wood. Fine wire netting in front, foam padding on inside top (for head protection), one feed and water container inside. See exhibit III

v.- I started with 1/1 Masked Bobwhite quail in 1973. These were old birds. In 1974 they laid 10 eggs- 5 were fertile, raised 4- lost one due to malformation of bird and one due to a hawk problem later on when I moved from Arizona to Southern California. We did not try to raise any in 1975, due to moving problems. Started with three related birds in 1976. My original parents died of old age.(Estimated age 7-8 years). I paired one pair (related) and left other male single, due to not being able to obtain the birds from Tucson in 1976, because of no response to my writing to your office at that time. Received 9 eggs, from this related pair, six were fertile, raised 4, 2 were malformed and killed by us. This is the balance we hope to start with this season, unless we are able to get the permit and add the 2/1 quail to our present collection.

7.- No contracts. I am engaging in this by myself.

8.-a.- I would like to see this bird being bred in order to stop them from becoming extinct in captivity as well as in the wild in southern Arizona & Mexico.

i.- For propagation and life study purposes.

ii.-Breeding through natural and artificial incubation methods.

iii.-My study records and other related data will help other breeders and/or ornitholigist.

iv.-If it will be terminated?, my birds will be donated to the San Diego Zoological gardens. Dr. Arthur Risser, head-curator of birds. I also work and exchange information with him.

Trusting that the above and attached information will fulfill all the required questions, I look forward to your favorable decision in sending us the requested permit.

Thank you for your cooperation in this matter, I remain,

Sincerely yours,

S.J. "Tony" Eberson.

ENDANGERED SPECIES PERMIT

Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant: Oklahoma City Zoo, Rt. 1, Box 1, Oklahoma City, Okla. 73111.

V4272 APR 14 77 UMI

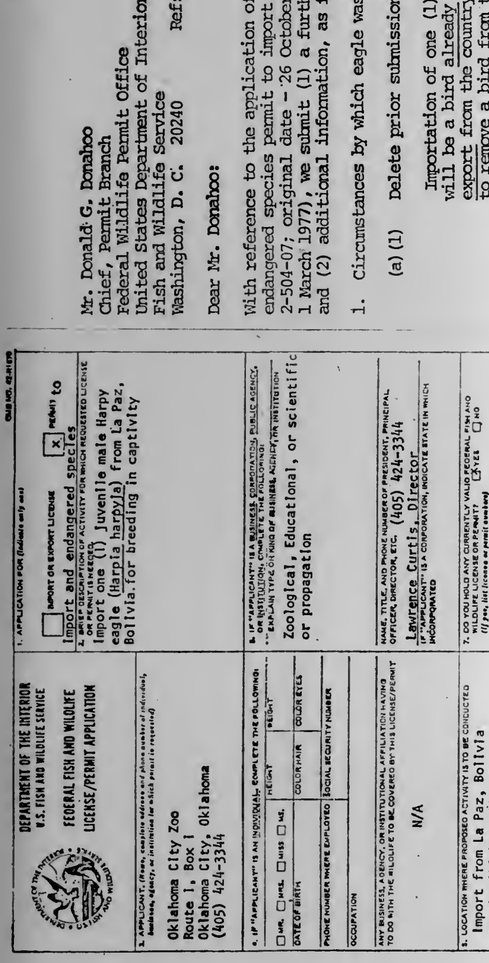
March 24, 1977

Mr. Donald G. Donahoo
Chief, Permit Branch
Federal Wildlife Permit Office
United States Department of Interior
Fish and Wildlife Service
Washington, D. C. 20240 Ref: FWS/WPO PRT-2-504-07

Dear Mr. Donahoo:

With reference to the application of the Oklahoma City Zoo for an endangered species permit to import a male harpy eagle (FWS/WPO PRT 2-504-07; original date - 26 October 1976 and subsequently revised 1 March 1977), we submit (1) a further revision to the application and (2) additional information, as follows:

1. Circumstances by which eagle was removed from the wild:



(a) (1) Delete prior submissions and substitute as follows:

Importation of one (1) male harpy eagle. Acquisition will be a bird already in captivity and legal for export from the country of origin. We will not seek to remove a bird from the wild. The objective would be to locate an orphaned or injured bird already removed from the wild. After an appropriate time, should this search be unproductive, then and only then, we will file an amendment to this application requesting a permit to import a specimen captured from the wild.

(a) (2) Delete prior submissions and substitute as follows:

Specific whereabouts of the bird sought by this permit is unknown at this time. We do know the following, however:

(1) If the bird is in the wild at present but subsequently becomes a subject of this permit, it will be as a result of that bird being injured, orphaned or otherwise incapable of surviving in the wild but due to circumstances unrelated to the issuance of this permit.

1. APPLICATION FOR (Indicate only one) — ☐ IMPORT OR EXPORT LICENSE ☒ PERMIT to import and endangered species

2. BRIEF DESCRIPTION OF ACTIVITY FOR WHICH REQUESTED LICENSE OR PERMIT IS NEEDED: Import One (1) juvenile male Harpy eagle (Harpia harpyja) from La Paz, Bolivia for breeding in captivity

2. APPLICANT: (Print, typewrite or otherwise reproduce in ink. If corporation or other business organization, give name of individual who is authorized to act for the organization and indicate capacity in which he acts. If agent is making application for principal, give full name of principal and your relationship to him.)
Oklahoma City Zoo
Route 1, Box 1
Oklahoma City, Oklahoma
(405) 424-3344

3. IF APPLICANT IS AN INDIVIDUAL, COMPLETE THE FOLLOWING: ☐ MR. ☐ MRS. ☐ MS. HEIGHT | WEIGHT | COLOR HAIR | COLOR EYES | DATE OF BIRTH | PHONE NUMBER WHERE EMPLOYED | SOCIAL SECURITY NUMBER | OCCUPATION | HOME ADDRESS, AGENCY, OR INSTITUTIONAL AFFILIATION HAVING TO DO WITH THE ACTIVITY TO BE COVERED BY THIS LICENSE/PERMIT: N/A

4. IF APPLICANT IS A BUSINESS, CORPORATION, PUBLIC AGENCY, OR INSTITUTION, COMPLETE THE FOLLOWING: EXPLAIN TYPE OF KIND OF BUSINESS, AGENCY OR INSTITUTION: Zoological, Educational, or scientific or propagation

NAME, TITLE AND PHONE NUMBER OF PRESIDENT, PRINCIPAL OFFICER, DIRECTOR, ETC. (405) 424-3344 Lawrence Curtis, Director
IF APPLICANT IS A CORPORATION, INDICATE STATE IN WHICH INCORPORATED

5. LOCATION WHERE PROPOSED ACTIVITY IS TO BE CONDUCTED: Import from La Paz, Bolivia to the Oklahoma City Zoo.

7. DO YOU HOLD ANY CURRENTLY VALID FEDERAL FISH AND WILDLIFE LICENSE OR PERMIT? ☐ YES ☐ NO (If yes, list licenses or permits number)
73E22

8. IF REQUIRED BY ANY STATE OR FOREIGN GOVERNMENT, DO YOU HAVE THEIR APPROVAL TO CONDUCT THE ACTIVITY YOU PROPOSE? ☐ YES ☐ NO (If yes, list jurisdiction and type of document) Valid export permit from Bolivia will be in hand prior to shipment

9. CERTIFICATION CHECK OR MONEY ORDER PAYABLE TO THE U.S. FISH AND WILDLIFE SERVICE ENCLOSED IN AMOUNT OF: not required

10. DESIRED EFFECTIVE DATE: 15-Nov-76 (03) 21 11. DURATION NEEDED: 6 months

12. ATTACHMENTS: THE SPECIFIC INFORMATION REQUIRED FOR THE TYPE OF LICENSE/PERMIT REQUESTED (SEE 50 CFR 13.12(B)) MUST BE ATTACHED. IT CONSTITUTES AN INTEGRAL PART OF THIS APPLICATION. (SEE INSTRUCTIONS ON REVERSE FOR ATTACHMENTS TO BE PROVIDED.)
(6) (ii)

CERTIFICATION: I HEREBY CERTIFY THAT I HAVE READ AND AM FAMILIAR WITH THE REGULATIONS CONTAINED IN TITLE 50, PARTS 13 OF THE CODE OF FEDERAL REGULATIONS AND FURTHER CERTIFY THAT THE INFORMATION SUBMITTED IN THIS APPLICATION FOR A LICENSE/PERMIT IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE AND BELIEF. I UNDERSTAND THAT ANY FALSE STATEMENT HEREIN MAY SUBJECT ME TO THE CRIMINAL PENALTIES OF 18 U.S.C. 1001.

SIGNATURE OF APPLICANT: [signature] DATE: 26 Oct 76

FWS FORM 3-200-1 (2-76) SUPERSEDES FWS FORM 3-200-1 (1-74) WHICH MAY BE USED

(2) If the bird has already been removed from the wild, then it will be a bird that (a) cannot be successfully returned now to the wild and (2) can be legally exported from its country of origin.

(3) We know of no harpy eagles available which have been born in captivity.

(a) (4) We are just advised through the Bronx Zoo of the availability of a single male harpy eagle in Surinam and have initiated efforts for detailed information on this bird. Based on our present knowledge of this specimen, it would qualify as an appropriate importation under the permit guidelines outlined above-(a) (1) and (2). However, if this bird is unavailable or does not qualify, then we shall seek a bird that does. This permit request, therefore, is not predicated on a specific specimen; but on specific conditions under which an animal must have become available.

We will appreciate your incorporating the above revisions in the subject permit request. Should you require additional information, please feel free to contact us.

Sincerely,

Lawrence Curtis
Director

October 26, 1976

Director
United States Fish and
Wildlife Service
Washington, D.C. 20249

Dear Sir:

Please consider this our application to import an endangered species of animal within the context of Endangered and Threatened Wildlife and Plants Part 17 Subpart C, Article 17-22 for enhancement of propagation.

(a) (1) Importation of one (1) juvenile (approximately one year old) male Harpy eagle (Harpia harpyja).

(2) (i) N/A.

(ii) This animal has already been removed from the wild.

(iii) N/A.

(3) N/A - see (2) (ii).

(4) This animal was removed from the wild in the vicinity of La Paz, Bolivia.

(5) Oklahoma City Zoo
Route 1, Box 1
Oklahoma City, Oklahoma 73111

(6) (i) Upon receipt of the approved permit to import the above animal, the Oklahoma City Zoo will construct the facility indicated on Attachment Number 1.

(ii) The Oklahoma City Zoo currently maintains a breeding pair of harpy eagles on display and a single female held off exhibit. The

V4272 APR 14 77 UMI

permit for which we are applying would allow us to pair the single female.

The Oklahoma City Zoo acquired a pair of harpy eagles in 1972 and since their introduction in that year a single egg has been laid in October of 1974 and 1975. The pair has once again exhibited nest building and courtship behavior and two eggs were laid on 15 Oct 76.

Our pair of Andean condors (Vultur gryphus) have a large breeding facility and have laid eggs in 1967, 1968, 1971, 1972, 1974, 1975 and 1976. Development was noted in 1975. One of our three pairs of ornate hawk eagles (Spizaetus ornatus) laid fertile eggs in February and May 1975 and April and May 1976. We have since constructed two off-exhibit breeding facilities for two pair of ornate hawk eagles in our Rare Animal Breeding Center in the north area of the Zoo. Since their introduction into these facilities copulation has been observed in one pair and courtship has begun in the second. The third pair of ornate hawk eagles are in an interim off exhibit breeding facility pending completion of their breeding facility on 12 January 77. In March 1976 one of our three pairs of Spectacled owls (Pulsatrix perspicillata) laid fertile eggs. Since egg laying, an off exhibit breeding facility has been constructed and the breeding pair of spectacled owls have been placed in the facility.

The Oklahoma City Zoo has worked closely with the Oklahoma Department of Wildlife, the local United States Fisheries and Wildlife personnel, and the School of Veterinary Medicine of Oklahoma State University in raptor rehabilitation (see Attachment Number 2) as well as successfully implemented a raptor rehabilitation program at the zoo (see Attachment Number 3). On 11 September 76 the Animal Research Council of the Oklahoma City Zoo sponsored a symposium on the conservation of birds of prey (see Attachment Number 4). The Oklahoma City Zoo has received many young birds of prey through the above agencies in the past. Some of the raptors our zoo staff has successfully reared are the Mississippi kite, sparrow hawk, Swanson's hawk, red-tailed hawk, Harris' hawk, great-horned owl, barred owl, and screech owl. A number of orhaned or injured herons and egrets as well as a large number of passerine birds are donated to the zoo by concerned citizens and have been

March 1, 1977

Mr. Donald G. Donahoo
Chief, Permit Branch
Federal Wildlife Permit Office
United States Department of Interior
Fish and Wildlife Service
Washington, D. C. 20240

Re: FWS/WPO PRT 2-504-07

Dear Mr. Donahoo:

This responds to your letter dated 4 January 1977 requesting additional information on the referenced permit application.

1. Circumstances by which the eagle was removed from the wild:

We have been advised that the bird in La Paz is no longer available. Therefore we request these amendments be attached to our request for an Endangered Species Permit originally dated 26 October 1976.

(a)(1) Delete original statement and substitute as follows: Importation of one(1) male harpy eagle (Harpia harpyja). Acquisition of a male harpy eagle may involve trading animals, cash or exchange purchase or breeding loan.

(a)(2)(i) Delete original statement and substitute as follows: the bird for which this permit is requested is either (1) still in the wild or (2) possibly an orphaned bird currently being hand-reared. Should the permit be granted, we will authorize and engage a collector (approved by appropriate authorities in the country of origin) to capture or confiscate the bird, whichever is appropriate. We would contact government agencies in the habitat area and request information on harpy that have been confiscated or may be available due to forestry projects, etc. In short, we will pursue a bird that is "in hand" first and if unavailable, will pursue legal wild capture in country of origin.

hand-reared by our zoo staff.

Our philosophy is to allow parental rearing of all captive born offspring unless it is contraindicated. With our staff's extensive experience in hand-rearing raptor species we feel we could successfully hand-rear a harpy eagle should it become necessary.

(iii) The Oklahoma City Zoo is willing to participate in a cooperative breeding program, and to maintain or contribute data to a studbook.

(iv) The animal will be packed in a crate meeting or exceeding current I.A.T.A. regulations and shipped by the most appropriate airline from La Paz, Bolivia to the Oklahoma City Zoo. Complete feeding and watering instructions to be attached to shipping crate.

(v) Of a total of three harpy eagles to enter the Oklahoma City Zoo collection, no mortalities have occurred.

(8) The Oklahoma City Zoo holds a breeding pair of adult harpy eagles and an unpaired adult female. Based on the fact that the Oklahoma City Zoo has committed itself to the breeding of this and similar species and to the construction of a breeding facility for the single resident female harpy eagle and the young male, for which we seek permission to import as well as constructed breeding facilities for those similar species indicated in (a) (6) (ii) we feel justified in obtaining this permit.

(i) See U.S.D.I. form 3-200 (Item 2) (Attachment Number 5)

(ii) See (6) (iv).

(iii) The importation of the juvenile male will complete a pair of harpy eagles, increase the potential reproductive rate of the species and provide additional offspring for future captive populations thus reducing the threat to wild populations.

(iv) In the event of death of the animal in question, the carcass will be preserved as a scientific specimen, and be made available to an institution(s) of higher learning for post mortem study.

V4272 APR 14 77 UMI

and acquire harpy eagles. None were available.

Note that there are only eight male harpies in captivity and there are 17 females. It is highly doubtful that a male will be available for many years from current captive collections.

The Oklahoma City Zoo is committed to maintaining two breeding pairs of this species and developing other breeding pairs from the offspring. The key to the success of a progressive breeding program depends upon the flexibility designed into the program itself. We feel that if we are to commit the necessary resources to the development of a second breeding pair and others from their offspring, we must have the flexibility that can occur by developing a breeding nucleus of two pairs of this species. Without such flexibility, should the male of the trio we now have die, or be determined incapable of reproduction, the entire breeding program fails. The lone female is essentially wasting away without a mate. Since our pair is compatible and the female has produced eggs (infertile to date), we hesitate to pull the male and place him in with the lone female. Hopefully, this pair will produce viable young in the next season. In summary, breeding programs at the Oklahoma City Zoo have been most successful when two unrelated males and several females were secured as the breeding nucleus. This allows the flexibility to manipulate the animals until the right combination of factors create a viable breeding group.

(a)(4) Delete original statement and substitute as follows:
N/A

(a)(7) Include the following response since this item was inadvertently omitted from the original application: N/A

Mr. Donahoo, we believe the above amendments clarify our permit application in accordance with your request of 4 January 1977. Please contact me or my Assistant Director at 405/424-3344 if you wish additional information, or if we can be of any further assistance relative to this application.

Sincerely,

Lawrence Curtis
Director

lkh

Enclosures: Correspondence from Mr. Gary Bogue dated 23 Sept 76 and response to him dated 27 Sept 76.

(a)(2)(i) Delete original statement and substitute as follows:
This bird may be in the wild; it may be "in hand" in a government compound. As stated above, all sources of bird "in hand" will be explored prior to taking from the wild.

(a)(2)(ii) Delete original statement and substitute as follows:
See (a)(2)(i) above.

(a)(3) Delete original statement and substitute as follows:
A census of harpy eagles in captivity was taken which revealed several important facts:

Known Census of Harpy Eagles in the United States:

1.	Oklahoma City Zoo	1/2
2.	Los Angeles	2/2
3.	Colorado Springs	0/0/2
4.	Fort Worth	1/1
5.	Redwood City, Ca	0/1 (used in film production "Harpy"
6.	Albany, Georgia	0/1 (owed by Jim Fowler)
7.	Walnut Creek, Ca*	0/0/1 (private owner-falconer)

Known Census of Harpy Eagles in Europe

1.	Frankfurt, Germany	1/4
2.	Antwerp, Belgium	1/1
3.	Detmold, Germany	1/1
4.	Belem, Brazil	1/4
5.	Panama	0/1 (owned by Dr. Nat Gale)

*See attached correspondence with Mr. Gary Bogue.

This census was derived from the International Zoo Yearbook, and, in the United States as based on our own interest and knowledge of the species and as verified by telephone with those individuals and institutions.

The above institutions and individuals have advised us that they are not in a position to sell, trade or loan their birds. The Los Angeles Zoo has had eggs the past two years but so far have not hatched or raised any. Fort Worth Zoo had two eggs in October 1975 but the eggs were broken by the parents. The Oklahoma City Zoo had two eggs laid in September 1976, after 62 days of incubation by the adult birds the eggs were taken away and found to be infertile. This could be due to the fact that our male has not reached sexual maturity. Our lone adult female will most likely be too old since harpy eagles mature at four to five years of age - if we are forced to wait for Los Angeles or Fort Worth or others to rear young. Oklahoma City Zoo Director and Assistant Director have made several trips to Europe and South America to locate

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Room 512, 1717 H Street NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/WPO), U.S. Fish and Wildlife Service, Washington, D.C. 20240. This application has been assigned File Number PRT 2-504-07; please refer to this number when submitting comments. All relevant comments received on or before May 16, 1977 will be considered.

Dated: April 11, 1977.

DONALD G. DONAHOO,
Chief, Permit Branch, Federal Wildlife Permit Office U.S. Fish and Wildlife Service.

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Revised Notice of Meeting

The meeting notice for the subject meeting to be held on April 7-9, 1977 (published on March 23 and 24, 1977—FEDERAL REGISTER Volume 42, No. 56 and Volume 42, No. 57) is revised as detailed below. This revision involves the scheduling of one session not previously announced, the scheduling of another session and cancellation in part of one other agenda item.

THURSDAY, APRIL 7, 1977

6:30 p.m.–7:00 p.m.—Executive Session (Closed).—Discuss proposed ACRS comments regarding proposed Authorization Legislation for FY-1978 ACRS activities. The ACRS office was informed on April 4, 1977 that the proposed legislation provided for the implementation of a fellowship program to support ACRS activities. On April 5, 1977, the ACRS was asked to supply comments as soon as possible on this legislative proposal. In light of the timing of these events a meeting on this subject could not have been scheduled when the April 7-9 meeting was first noticed.

FRIDAY, APRIL 8, 1977

9 a.m.–10:30 a.m.—Executive Session (Closed).—Prepare ACRS reports on: Cherokee Nuclear Plant; Perkins Nuclear Plant.

This was previously announced as scheduled for 5 p.m.–6:30 p.m. on Friday April 8, 1977. It has been rescheduled due to cancellation of the meeting with the NRC Staff on review of the Federal/State Program for Regulation of Commercial Low-Level Waste Burial Grounds which was to have taken place during this same period.

I have determined that in accordance with Subsection 10(d) of Public Law 92-463 that it is necessary to close the portion of the meeting at which the ACRS will discuss the proposed legislation and formulate its comments thereon to avoid premature disclosure of information which would significantly frustrate proposed Committee/agency action (5 U.S.C. 552b.(c)(9)(B)). Separation of factual information and information considered exempt from disclosure under Exemption (9)(B) during this portion of the meeting is not considered practical.

Date: April 6, 1977.

JOHN C. HOYLE,
Advisory Committee Management Officer.

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has revised a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 10.3, Revision 1, "Guide for the Preparation of Applications for Special Nuclear Material Licenses of Less Than Critical Mass Quantities," describes the type of information needed by the NRC staff to evaluate an application for a specific license for receipt, possession, use, and transfer of special nuclear material of less than critical mass quantities. This guide was revised as the result of public comment and additional staff review.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Document Control. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a).)

Dated at Rockville, Maryland this 6th day of April 1977.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,
Director, Office of Standards Development.

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.127, "Inspection of Water-Control Structures Associated with Nuclear Power Plants," describes a basis acceptable to the NRC staff for developing an appropriate inservice inspection and surveillance program for dams, slopes, canals, and other water-control structures associated with emergency cooling water systems of nuclear power plants.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 1.127 will, however, be particularly useful in evaluating the need for an early revision if received by June 13, 1977.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced)

[Byproduct Material License No. 45-02808-04]

ATLANTIC RESEARCH CORP.

Hearing

Atlantic Research Corporation, 5390 Cherokee Avenue, Alexandria, Virginia 22314, is the holder of Byproduct Material License No. 45-02808-04, which authorizes the company to perform industrial radiography with conditions specified therein. The license was issued originally on September 6, 1974 and will expire on August 31, 1977.

On February 14, 1977, the Director of Inspection and Enforcement, pursuant to Section 234 of the Atomic Energy Act of 1954, as amended (42 USC 2282) and 10 CFR 2.205 of the Commission's regulations, served on the Licensee a Notice of Violation together with a Notice of Proposed Imposition of Civil Penalties. The Notice of Proposed Imposition of Civil Penalties, incorporating by reference the Notice of Violation, alleged that the Licensee was responsible for eight separate items of noncompliance which were violations of the Commission's regulations and license conditions and set forth the civil penalty to be assessed for each violation. These alleged violations were based on the results of an inspection of licensed activities on December 14, 15 and 21, 1976 and January 5, 1977.

An answer dated February 28, 1977 to the Notice of Proposed Imposition of Civil Penalties was received from the Licensee. The Director of Inspection and Enforcement, after due consideration of the response by Licensee, remitted the proposed penalty on one item in the Notice of Violation. Thereafter the Director served on the Licensee an Order Imposing Civil Penalties dated March 28, 1977. By letter dated March 30, 1977 the Licensee requested a hearing.

Pursuant to the Atomic Energy Act of 1954, as amended, and the regulations in Title 10, Code of Federal Regulations, Part 2, notice is hereby given that a hearing will be held before Hon. Samuel W. Jensch, Administrative Law Judge, at a time and place to be set by the Administrative Law Judge.

The issues before the Administrative Law Judge to be considered and decided shall be:

(a) Whether the Licensee committed violations of the Commission's regulations and condition of the license designated as Items A, B, C, D, E, F and H, in the Notice of Violation issued to Licensee; and

(b) Whether the Order Imposing Civil Penalties as it relates to Items A, B, C, D, E, F and H in the Notice should be sustained.

A prehearing conference shall be held by the Administrative Law Judge, at a date and place to be set by him, to consider pertinent matters in accordance with the Commission's Rules of Practice. The date and place of hearing will be set at or after the prehearing conference and noticed in the FEDERAL REGISTER.

Pursuant to 10 CFR 2.705, an answer to this Notice may be filed by the Licensee not later than May 4, 1977.

Required papers may be filed by mail or telegram addressed to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch, or by delivery to the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555.

Pending further order of the Administrative Law Judge, parties are required to file, pursuant to the provisions of 10 CFR 2.708, an original and twenty (20) conformed copies of each such paper with the Commission. Pursuant to 10 CFR 2.785, the Commission authorizes an Atomic Safety and Licensing Appeal Board to exercise the authority and perform the review functions which would otherwise be exercised and performed by the Commission. The Appeal Board will be designated pursuant to 10 CFR 2.787, and notice as to membership will be published in the FEDERAL REGISTER.

Dated at Washington, D.C. this 8th day of April, 1977.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary to the Commission.

[FR Doc.77-10936 Filed 4-13-77;8:45 am]

[Docket No. 50-325]

CAROLINA POWER AND LIGHT CO.

Granting of Relief from Inservice Inspection (Testing) Requirements

The Commission has granted relief from certain requirements of the ASME Code, Section XI, "Rules for Inservice Inspection of Nuclear Power Plant Components," to the Carolina Power and Light Company. The relief is related to the inservice inspection (testing) program for the Brunswick Steam Electric Plant, Unit No. 1 located in Brunswick County, North Carolina. The ASME Code requirements are incorporated by reference into the Commission's rules and regulations in 10 CFR Part 50. The relief is effective as of its date of issuance and ends March 1, 1978 pursuant to 50.55a (g)6.

The relief consists of: (1) relief from ASME Code Section XI Subsection IWV for valves until March 1, 1978 and (2) relief from ASME Section XI Subsection IWP-3400 for pumps until March 1, 1978.

The request for relief complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the letter granting relief. Prior public notice of this action was not required since the granting of this relief from ASME Code requirements does not involve a significant hazards consideration.

The Commission has determined that granting of this relief will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental appraisal need not be prepared in connection with this action.

For further details with respect to this action, see (1) the request for relief dated August 18, 1976, (2) the Commission's letter to the licensee dated ------.

These documents are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Southport Brunswick County Library, 109 W. Moore Street, Southport, North Carolina. A copy of item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 24th day of March 1977.

For the Nuclear Regulatory Commission.

STEVEN A. VARGA,
Chief, Light Water Reactors Branch No. 4, Division of Project Management.

[FR Doc.77-10937 Filed 4-13-77;8:45 am]

[Docket No. 50-484A]

DAIRYLAND POWER COOPERATIVE, ET AL.

Receipt of Attorney General's Advice and Time for Filing of Petitions

In the matter of Dairyland Power Cooperative, Lake Superior District Power Company, Cooperative Power Association, notice of receipt of Attorney General's advice and time for filing of petitions to intervene on antitrust matters.

The Commission has received, pursuant to section 105c of the Atomic Energy Act of 1954, as amended, a letter of advice from the Attorney General of the United States, dated March 28, 1977, a copy of which is attached as Appendix "A".

Any person whose interest may be affected by this proceeding may, pursuant to § 2.714, of the Commission's "Rules of Practice," 10 CFR Part 2, file a petition for leave to intervene and request a hearing on the antitrust aspects of the application. Petitions for leave to intervene and requests for hearing shall be filed by May 14, 1977, either (1) by delivery to the NRC Docketing and Service Section at 1717 H Street NW., Washington, D.C., or (2) by mail or telegram addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, ATTN: Docketing and Service Section.

For the Nuclear Regulatory Commission.

A. L. TOALSTON,
Acting Chief, Antitrust and Indemnity Group, Nuclear Reactor Regulation.

APPENDIX "A"

[NRC Docket No. 50-484A]

DAIRYLAND POWER COOPERATIVE, LAKE SUPERIOR DISTRICT POWER COMPANY, COOPERATIVE POWER ASSOCIATION, TYRONE ENERGY PARK, UNIT NO. 1

MARCH 28, 1977.

You have requested our advice pursuant to Section 105c of the Atomic Energy Act, as amended, in connection with the applications of the above-captioned electric systems to participate in the Tyrone Energy Park, Unit No. 1.

In connection with the application of Cooperative Power Association (CPA), we have examined the information submitted by CPA, as well as other pertinent information with respect to CPA's competitive relationships. Our review disclosed no antitrust problems regarding this application which would require a hearing by your Commission.

In the course of our antitrust review of the applications of Dairyland Power Cooperative and Lake Superior District Power Company, our attention was drawn to a provision of the July 1, 1963, Superseding Agreement between Dairyland and Lake Superior. Article VIII, Section 5 of that agreement states that for 25 years or the term of the agreement, whichever is longer, neither party shall serve any customer of the other without the other party's express written consent. This provision appears to establish a customer allocation in violation of Section 1 of the Sherman Act. When we brought this to the attention of Dairyland and Lake Superior, both parties agreed to eliminate the provision in question from their agreement and to abandon this customer allocation. Attached to this letter are letters from Dairyland's General Manager John P. Madgett and Lake Superior's President K. S. Austin memorializing this understanding. Our review revealed no other antitrust problems with these applications.

In light of the commitment by Dairyland and Lake Superior to eliminate Article VIII, Section 5 from their interconnection agreement and otherwise to abandon their customer allocation, as well as the absence of any other antitrust issues raised by their applications, we do not recommend an antitrust hearing in connection with these applications.

DAIRYLAND POWER DISTRICT, TYRONE ENERGY PARK, UNIT NO. 1

MARCH 3, 1977.

Referring to your letters of February 14 and January 17, you are advised that Dairyland is willing to execute and deliver an amendment to the Superseding Agreement between it and Lake Superior District Power Company, dated July 1, 1963, to delete from the language of said agreement Section 5 of Article VIII.

It is our understanding that Lake Superior District Power Company is likewise willing to execute this amendment and we hope to have this completed and in the hands of you and N.R.C. within a few days.

LAKE SUPERIOR DISTRICT POWER COMPANY, TYRONE ENERGY PARK, UNIT NO. 1

MARCH 4, 1977.

This is to advise you that Lake Superior District Power Company will proceed to take the action necessary to amend the Superseding Agreement Between Lake Superior District Power Company and Dairyland Power Cooperative, dated July 1, 1963, to delete Section 5 of Article VIII of said agreement. It is our understanding that Dairyland Power Cooperative has also indicated its intention to execute such an amendment.

Copies of the amendment will be filed with all governmental agencies with whom the 1963 agreement was filed.

[Docket Nos. 50-369, 50-370]

DUKE POWER CO., (WILLIAM B. McGUIRE NUCLEAR STATION, UNITS 1 AND 2)

Resumption of Hearing

APRIL 11, 1977.

Please take notice that the evidentiary hearing being held before the Atomic Safety and Licensing Board to consider an application for the issuance of operating licenses for William B. McGuire Nuclear Station, Units 1 and 2, will resume on Tuesday, April 19, 1977, at 11:00 a.m., local time at:

Commissioner's Meeting Room, Fourth Floor, Mecklenburg County Administration Building, 720 East Fourth Street, Charlotte, North Carolina 28202.

Members of the public are welcome to attend the hearing.

Dated at Bethesda, Md., this 11th day of April 1977.

It is so ordered.

For the Atomic Safety and Licensing Board.

ROBERT M. LAZO,
Chairman.

[FR Doc.77-11037 Filed 4-13-77;8:45 am]

[Docket No. 50-334]

DUQUESNE LIGHT CO. ET AL

Special Prehearing Conference

In the Matter of Duquesne Light Company, Ohio Edison Company, and Pennsylvania Power Company (Beaver Valley Power Station, Unit No. 1).

On April 1, 1977, an Atomic Safety and Licensing Board appointed to hear petitions to intervene in the above-identified proceeding granted a petition to intervene filed by the City of Pittsburgh and, accordingly, issued a Notice of Hearing with regard thereto. This hearing involves a proposed amendment to the Beaver Valley Power Station operating license, which amendment requests an increase in the spent fuel storage capacity at the facility.

The Atomic Safety and Licensing Board (the Board) established to conduct the hearing is composed of Mr. Lester Kornblith, Jr. and Dr. James C. Lamb, III as technically qualified members, and Mr. Daniel M. Head as chairman.

Notice is hereby given that, in accordance with Section 2.751a of the Commission's Rules of Practice, 10 CFR Part 2, a Special Prehearing Conference will be held in the above-identified proceeding on Tuesday, May 10, 1977, at 9:30 A.M. in U.S. District Court, U.S. Post Office and Court House, 7th and Grand Streets, Pittsburgh, Pennsylvania 15230.

This Special Prehearing Conference will deal with the following matters:

1. Oral argument on all outstanding contentions raised by the petition to intervene of the City of Pittsburgh;

2. Oral argument on any outstanding motions;

3. Discussion of any action necessary for further definition of the issues;

4. The need for discovery and the time required therefor;

5. Establishment of schedule for further action; and

6. Such other matters as may be to aid in the orderly disposition of the proceeding.

The Intervenor City of Pittsburgh, the Applicants and the NRC Regulatory Staff are directed to confer in advance of this Special Prehearing Conference in such manner and at such time as they deem appropriate, to discuss any stipulations that can be reached regarding contentions, discovery, scheduling or any other matters that may aid in the orderly disposition of this proceeding. The Board will require a report on such discussions at the Special Prehearing Conference.

Members of the public are invited to attend this prehearing conference as well as the evidentiary hearing which will be held at a later date to be fixed by the Board. However, the Board will not receive any limited appearances pursuant to section 2.715(a) of the Commission's rules of practice at this prehearing conference. Such limited appearances will be received at the beginning of the evidentiary hearing to be held in this proceeding.

Issued at Bethesda, Maryland, this 6th day of April, 1977.

By order of the Atomic Safety and Licensing Board.

DANIEL M. HEAD,
Chairman.

[Docket No. 50-548]

OMAHA PUBLIC POWER DISTRICT

Availability of NRC Draft Environmental Statement, Related to the Determination of Site Suitability for the Fort Calhoun Station, Unit No. 2

Pursuant to the National Environmental Policy Act of 1969 and the United

V4272 APR 14 77 UMI

States Nuclear Regulatory Commission's regulations in 10 CFR Part 51, notice is hereby given that a Draft Environmental Statement (NUREG–0213) has been prepared by the Commission's Office of Nuclear Reactor Regulation related to the suitability of the site proposed for eventual construction of the Fort Calhoun Station, Unit No. 2, in Washington County, Nebraska. NUREG–0213 is available for inspection by the public in the Commission's Public Document Room at 1717 H Street NW., Washington, D.C., and the Omaha Public Library, 1823 Harney Street, Omaha, Nebraska 68102 and the Extra-Metropolitan Council of Govenments, P.O. Box C, Fremont, Nebraska 68025. The Draft Environmental Statement is also being made available at the State Office of Planning and Programming, State Capital, Lincoln, Nebraska 68509. Copies of the Commission's Draft Environmental Statement may be obtained by request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Site Safety and Environmental Analysis.

The Applicant's Environmental Report, as supplemented by the Omaha Public Power District, is also available for public inspection at the above designated locations. Notice of availability of the Applicant's Environmental Report was published in the FEDERAL REGISTER on February 3, 1975 (40 FR 4983).

Pursuant to 10 CFR Part 51, interested persons may submit comments on the Draft Environmental Statement for the Commission's consideration. Federal, State, and specified local agencies are being provided with copies of the Draft Environmental Statement. Other interested persons or local agencies may obtain these documents upon request. Comments from Federal, State, and local officials, or other persons received by the Commission, will be made available for public inspection at the Commission's Public Document Room 1717 H Street, N.W., Washington, D.C., and the Omaha Public Library, 1823 Harney Street, Omaha, Nebraska 68102. Upon consideration of comments submitted with respect to the Draft Environmental Statement, the staff will prepare a Final Environmental Statement, the availability of which will be published in the FEDERAL REGISTER.

Comments on the Draft Environmental Statement from interested members of the public should be addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Site Safety and Environmental Analysis. Comments are due by June 6, 1977.

Dated at Rockville, Maryland this 7th day of April 1977.

For the Nuclear Regulatory Commission.

GEORGE W. KNIGHTON,
Chief, Environmental Projects Branch 1, Division of Site Safety and Environmental Analysis.

[FR Doc.77-10934 Filed 4-13-77;8:45 am]

[Docket No. 50-277]

PHILADELPHIA ELECTRIC CO. ET AL

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 34 to Facility Operating License No. DPR–44 issued to Philadelphia Electric Company, Public Service Electric and Gas Company, Delmarva Power and Light Company, and Atlantic City Electric Company, which revised Technical Specifications for operation of the Peach Bottom Atomic Power Station, Unit No. 2. The amendment is effective as of its date of issuance.

The amendment consists of temporary changes to the Technical Specifications which will allow implementation of a testing program of reactor stability and transient response. During the tests compensatory changes have been made that will assure that reactor safety limits will be the same as those established by transient and accident analyses for cycle 2 operation.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated March 7, 1977, (2) Amendment No. 34 to License No. DPR–44, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Martin Memorial Library, 159 E. Market Street, York, Pennsylvania 17401.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 4th day of April 1977.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Operating Reactors.

[Docket No. 50-443 and 50-444; Construction Permits No. CPPR-135 and CPPR-136]

PUBLIC SERVICE CO. OF NEW HAMPSHIRE ET AL. (SEABROOK STATION, UNITS 1 AND 2)

Order Suspending Certain Construction Activities

Pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, (The Act), and Title 10 Chapter 1, Code of Federal Regulations Parts 2 and 50, and pursuant to the Memorandum and Order of the Nuclear Regulatory Commission dated March 31, 1977, *it is hereby ordered*, That Construction, Permit No. CPPR–135 and Construction Permit No. CPPR–136 issued on July 7, 1976, to Public Service Company of New Hampshire, et al., for Seabrook Station, Units 1 and 2, be suspended effective 6:00 PM (EDT) on April 8, 1977, except for completion of the Unit 1 excavation and except for activities at the site to the extent necessary to ensure the protection of:

(1) The environmental integrity of the site, and

(2) Buildings, materials or personnel at the site, including any new materials brought on site if a substantial economic penalty could be shown for failure to do so.

As applicable to the above construction and construction already completed, the conditions for protection of the environment specified as conditions 3.E.(6), 3.E.(7), 3.E.(8), and 3.E.(9) of the construction permits shall remain in effect. Conditions as specified in § 50.55(e) of 10 CFR Part 50 as applicable to excavation and to onsite storage of equipment and materials shall remain in effect.

This suspension shall remain in effect until this Order is rescinded.

Date of issuance: April 7, 1977.

EDSON G. CASE,
Deputy Director, Office of Nuclear Reactor Regulation.

[Docket No. 50-556A, 50-557A]

PUBLIC SERVICE COMPANY OF OKLAHOMA, INC. AND WESTERN FARMERS ELECTRIC COOPERATIVE

Receipt of Attorney General's Advice and Time for Filing of Petitions

The Commission has received, pursuant to section 105c of the Atomic Energy Act of 1954, as amended, the following advice from the Attorney General of the United States, dated March 28, 1977:

You have requested our further advice pursuant to Section 105c of the Atomic Energy Act of 1954, as amended, in regard to the above-cited application. By letter to you dated June 23, 1975, we rendered advice with respect to Public Service Company of Oklahoma's application to construct the Black Fox units. 40 FR 28507. In that letter, we noted that Associated Electric Cooperative (AEC) had purchased a 500 MW ownership interest in the Black Fox station. Subsequently, you requested that we review the antitrust aspects of AEC's application as a participant in this plant. By letter dated May 26, 1976, we rendered our advice on AEC's application. You have asked us now to review the application of Western Farmers Electric Cooperative (WFEC) to participate in Black Fox Nuclear Station, Units 1 and 2.

WFEC, headquartered in Anadarko, Oklahoma, is a generation and transmission cooperative which has 19 members, all of which are distribution cooperatives. WFEC presently supplies power to its 12 members in western Oklahoma; beginning in July, 1977, WFEC will supply power to its other seven members located in southeastern Oklahoma. In addition, WFEC serves wholesale customers in one county in Kansas and three counties in Texas.

WFEC estimates its current (1976) peak load at 605 MW. WFEC's total available dependable generating capacity is 655 MW and is projected to almost triple in the next ten years. To meet this increase, WFEC has planned or has under construction additional generating capacity which will increase its dependable system capacity to 1749 KW by 1985. WFEC has interconnection agreements with adjacent electric power suppliers, providing for various power exchanges. Further, WFEC is a member of the Southwest Power Pool, a regional reliability organization.

We have examined the information submitted by WFEC in connection with the application as well as other information relevant to WFEC's competitive relationships. Our review of this information has disclosed no basis upon which to change our earlier conclusion that no antitrust hearing will be necessary with respect to the Black Fox Station units, assuming, of course, that the Commission issues licenses conditioned with regard to Public Service Company of Oklahoma as indicated in our letter to you of June 23, 1975, cited above.

Any person whose interest may be affected by this proceeding may, pursuant to § 2.714 of the Commission's "Rules of Practice," 10 CFR Part 2, file a petition for leave to intervene and request a hearing on the antitrust aspects of the application. Petitions for leave to intervene and requests for hearing shall be filed by May 14, 1977, either (1) by delivery to the NRC Docketing and Service Section at 1717 H Street, NW, Washington, DC, or (2) by mail or telegram addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 2055, Attn: Docketing and Service Section.

For the Nuclear Regulatory Commission.

A. L. TOALSTON,
Acting Chief, Antitrust and Indemnity Group Nuclear Reactor Regulation.

[Docket No. P-558-A]

SAN DIEGO GAS AND ELECTRIC CO., ET AL.

Receipt of Additional Antitrust Information; Time for Submission of Views on Antitrust Matters

San Diego Gas and Electric Company, pursuant to section 103 of the Atomic Energy Act of 1954, as amended, filed on January 21, 1977, information requested by the Attorney General for Antitrust Review as required by 10 CFR Part 50, Appendix L. This information concerns the following prospective owners: California Department of Water Resources, and the Cities of Anaheim, Glendale, Pasadena, and Riverside, California. The information was filed in connection with the application for construction permits and operating licenses filed by the San Diego Gas and Electric Company to construct and operate two pressurized water nuclear reactors on a site near Blythe in Riverside County, California. The original antitrust portion of the application was submitted on October 29, 1975 by San Diego Gas and Electric Company. The Notice of Receipt of the Antitrust Application was published in the FEDERAL REGISTER on December 5, 1975 (40 FR 56985).

A portion of the application, consisting of general and financial information accompanied by an Environmental Report, dated November 30, 1976, is currently undergoing a detailed acceptance review. Upon acceptance, a Notice of Receipt of Application for Construction Permits and Operating Licenses and Availability of Environmental Report and a separate Notice of Hearing will be published in the FEDERAL REGISTER. A copy of the above stated documents, except for the Notice of Receipt for Construction Permits and Operating Licenses and Availability of Environmental Report, and the Notice of Hearing, which will be available upon issuance, are available for public inspection at the Commission's Public Document Room, 1717 H Street N.W., Washington, D.C. 20555 and at the local public document room in the Palo Verde Valley District Library, 125 West Chanslorway, Blythe, California 92255.

Any person who wishes to have his views on the antitrusts matters of the application with respect to the California Department of Water Resources, and the Cities of Anaheim, Glendale, Pasadena, and Riverside, California presented to the Attorney General for consideration should submit such views to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Antitrust and Indemnity Group, Office of Reactor Regulation, on or before May 23, 1977.

Dated at Bethesda, Md., this 14th day of March 1977.

For the Nuclear Regulatory Commission.

OLAN D. PARR,
Chief, Light Water Reactors Branch No. 3, Division of Project Management.

[Docket No. STN 50-518, STN 50-519, STN 50-520, STN 50-521]

TENNESSEE VALLEY AUTHORITY (HARTSVILLE NUCLEAR PLANTS, PLANT A, UNIT NOS. 1 AND 2 AND PLANT B, UNIT NOS. 1 AND 2)

Issuance of Amendment to Limited Work Authorization

Pursuant to the provisions of 10 CFR 50.10(e) of the Nuclear Regulatory Commission's (Commission) regulations, the Commission has authorized the Tennessee Valley Authority to conduct certain site activities in connection with the Hartsville Nuclear Plants, Plant A, Unit Nos. 1 and 2 and Plant B, Unit Nos. 1 and 2, in addition to those activities previously authorized in the Commission's letters dated April 22, July 23, September 9, and December 27, 1976. The effective date of this further authorization is April 5, 1977.

The additional activities authorized are within the scope of those activities authorized by 10 CFR 50.10(e)(1) and (2) and are also within the scope of the activities included in the assessment of environmental impacts considered by the Atomic Safety and Licensing Board in its Partial Initial Decisions referenced below. The additional activities authorized

V 42 R 14 77 APR UMI

pertain to work in the turbine building, including the installation of fill concrete; the structual foundation mat; the exterior walls to approximate elevation (—)9 feet 10 inches, the interior walls, slabs, and equipment foundation to elevation (—)6 feet 10 inches (the floor slab at (—)6 feet 10 inches will project approximately 2 feet 2 inches above grade level); and the turbine generator pedestal to elevation (—)9 feet 10 inches. The above work includes the installation of reinforcing, the installation of embedded items, the setting and removal of form work, the installation of sump liners, and the placement of concrete. Also included with this item is the installation of the circulating water pipe, i.e., only that portion below the turbine building foundation mat.

Any activities undertaken pursuant to this authorization are entirely at the risk of the Tennessee Valley Authority and the grant of the authorization has no bearing of the issuance of construction permits with respect to the requirements of the Atomic Energy Act of 1954, as amended, and rules, regulations, or orders promulgated pursuant thereto.

A Partial Initial Decision on matters relating to the National Environmental Policy Act and site suitability was issued by the Atomic Safety and Licensing Board in the above captioned proceeding on April 20, 1976. On September 30, 1976, the Board issued its First Supplemental Partial Initial Decision Limited Work Authorization II, Part I; on December 10, 1976, the Board issued its Second Supplemental Partial Initial Decision Limited Work Authorization II—Part II, and on March 31, 1977 the Board issued a Memorandum and Order authorizing the additional activities described herein. A copy of (1) the Partial Initial Decisions and the Memorandum and Order (2) the applicant's Preliminary Safety Analysis Report and amendments thereto; (3) the applicant's Environmental Report and amendments thereto; (4) the Staff's Final Environmental Statement dated June 1975, (5) the Commission's letters of authorization dated April 22, July 23, September 9, and December 27, 1976 and (6) the Commission's further letter of authorization, dated April 5, 1977, are available for public inspection at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. and the Fred A. Vought Library, 311 White Oak Street, Hartsville, Tennessee 37074.

Dated at Rockville, Maryland this 5th day of April 1977.

[Docket No. 50-271; OL No. DPR-28]

VERMONT YANKEE NUCLEAR POWER CORP. (VERMONT YANKEE NUCLEAR POWER STATION)

Order Postponing Special Prehearing Conference

Vermont Yankee Nuclear Power Corporation (Licensee) has made a request to postpone the special prehearing conference from April 19 to April 26, 1977.

The reason given for the request is that one of the principal attorneys for the Licensee in this proceeding will present a statement on April 19th to a Congressional committee considering water pollution matters and problems pertaining to particular cases, including the famed Seabrook case.

All parties to the proceeding have agreed to the request for the one-week postponement.

The Atomic Safety and Licensing Board finds good cause to grant the Licensee's request.

Wherefore, it is ordered, in accordance with the Atomic Energy Act, as amended, and the Rules of Practice of the Nuclear Regulatory Commission, that the Licensee's requested postponement is granted and no prehearing conference will convene on April 19, but a Special Prehearing Conference in this proceeding shall convene at 9 a.m. on Tuesday, April 26, 1977, in Room 200 (Second Floor) of the U.S. Federal District Court, 204 Main Street, Brattleboro, Vermont 05301 to consider the petitions to intervene herein and the answers thereto, as well as identification of the key issues, establishment of a schedule for further actions and such other matters as may come within the scope of § 2.751(a) of the Rules of Practice of the Commission.

Issued: April 8, 1977, Bethesda, Maryland.

ATOMIC SAFETY AND LICENSING BOARD,
SAMUEL W. JENSCH,
Chairman.

[Dockets Nos. 50-266, 50-301]

WISCONSIN ELECTRIC POWER CO. AND WISCONSIN MICHIGAN POWER CO.

Issuance of Amendment to Facility Operating License and Approval of a Reevaluation of ECCS Cooling Performance

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 29 to Facility Operating License No. DPR-27 issued to Wisconsin Electric Power Company and Wisconsin Michigan Power Company which revised Technical Specifications for operation of the Point Beach Nuclear Plant Unit No. 1, located in the Town of Two Creeks, Manitowac County, Wisconsin. The amendment is effective as of its date of issuance.

The amendment consists of changes in the Technical Specifications that will allow operation of Unit No. 2 in core Cycle 4 by eliminating the fuel residence time limit and modifying the core power distribution limits.

In addition, the Commission has approved the reevaluation of ECCS cooling performance for both Point Beach Units Nos. 1 and 2 that was submitted by the licensees on October 27, 1976 and supplemented by letter dated January 6, 1977 in response to the Commissions Order for Modification of License dated August 27, 1976.

The application for the amendment to Point Beach Unit No. 2 (Docket No. 50-301) and the licensees' October 27, 1976 submittal of reevaluation of ECCS cooling performance for Point Beach Units Nos. 1 and 2 (Dockets Nos. 50-266 and 50-301) comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Notice of the Proposed Issuance of Amendment to Facility Operating License No. DPR-27 in connection with this action was published in the FEDERAL REGISTER on January 10, 1977 (42 FR 2141). Notice of Order for Modification of Licenses (Docket Nos. 50-266 and 50-301) was published in the FEDERAL REGISTER on September 9, 1976 (41 FR 38236). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action or notice of the Order for Modifications for Licenses.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5 (d)(4) an environmental impact statement and negative declaration or environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated December 9, 1976, as supplemented by letters dated February 1, March 18, and April 1, 1977, (2) Amendment No. 29 to License No. DPR-27, (3) the licensees' October 27, 1976 response to the Commission's Order for Modification of License dated August 27, 1976, and supplemental information dated January 6, 1977, and (4) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Document Department—University of Wisconsin, Stevens Point Library, Attention: Mr. Arthur M. Fish, Stevens Point, Wisconsin 54481.

A copy of items (2) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 7th day of April 1977.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Operating Reactors.

[FR Doc.77-10946 Filed 4-13-77;8:45 am]

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 77-15]

SAFETY RECOMMENDATION RESPONSES

Receipt and Availability

Response to Aviation Safety Recommendations A-77-1 and A-77-2.—National Transportation Safety Board recommendations to test the fuel system installed in the Grumman American AA-1B and similar model airplanes, and thereafter to change the fuel system design if necessary, have been answered by the Federal Aviation Administration. The recommendations were issued following investigation of the crash last July 13 of a Grumman American AA-1B at New Cumberland, West Virginia. The Board found that the AA-1B engine failed as a result of fuel starvation even though the fuel selector was positioned to a tank which contained approximately three gallons of fuel, or about one-quarter full. (See 42 FR 6655, February 3, 1977.)

FAA, by letter of March 29, states that seven tests have been conducted, simulating as near as possible the configurations, fuel load conditions, and flight maneuvers described in the Safety Board's January 27 recommendation letter. FAA reports that the Grumman American Aviation Corporation supplied the test airplane, a Model AA-1B, and full operation support, and that an airplane conformity inspection was made and recorded by FAA personnel.

FAA further reports that the flight tests were conducted by the Chief, Flight Test Section, FAA Southern Region, assisted by a Grumman American flight test engineer. A G-meter was installed in the airplane, the left fuel tank was filled with 100-octane low lead fuel, and the right tank was serviced to three gallons. The weather was clear, with light-to-moderate turbulence; temperature was 35° to 40° F. FAA's March 29 letter provides a detailed account of the seven tests, describing the configurations and the procedures employed in each instance.

FAA concludes, with reference to recommendation A-77-1, "The design of the engine fuel system and tank installation in the Grumman American AA-1B is safe and complies with CFR Part 23."

In view of its test findings, FAA plans no action on recommendation A-77-2 which sought an Airworthiness Directive requiring that all Grumman American AA-1B and similar models, flight operations "be in conformance with the newly established usable fuel supply."

Safety Board Reply to National Highway Traffic Safety Administration re Recommendation H-76-28.—On April 4 the Board noted with approval NHTSA's proposed additional brake-system compatibility testing in its FY 1977 research program. The proposed tests, discussed in NHTSA's letter of last November 26 (41 FR 55002, December 16, 1976), will be made in implementing recommendation H-76-28 which asked for tests and resolution of the apparent problem of operating any vehicle combination over the full-speed range and road and weather conditions encountered in normal operations if one of the units is equipped with a Federal Motor Vehicle Safety Standards No. 121 antilock brake system and the other unit is not. The recommendation was developed from the Board's investigation of the Union Oil Company gasoline truck and trailer crash on the Alaskan Freeway near Seattle, Washington, December 4, 1975.

NHTSA is asked to provide the scheduled testing dates, since the Safety Board wants to send one of its professional staff members to observe the testing of the various 121 and non-121 configurations scheduled for the Aberdeen Proving Ground, Maryland.

NOTE.—Copies of the full text of the above letters may be obtained at a cost of $4.00 for service and 10¢ per page for reproduction. All requests must be in writing, identified by recommendation number and date of publication of this notice in the FEDERAL REGISTER. Address inquiries to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

(Sec. 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2172 (49 U.S.C. 1906)).)

MARGARET L. FISHER,
Federal Register Liaison Officer.

APRIL 11, 1977.

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

INTERGOVERNMENTAL SCIENCE, ENGINEERING, AND TECHNOLOGY ADVISORY PANEL

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the Office of Science and Technology Policy announces the following meeting:

Name: Intergovernmental Science, Engineering, and Technology Advisory Panel Energy Task Force.
Date: May 6, 1977.
Time: 9:30 a.m.-3 p.m.
Place: New York State Energy Research & Development Authority, 230 Park Avenue, New York, N.Y. 10017.
Type of Meeting: Open.
Contact Person: Mr. Gordon Harrison, Office of the Governor, Atlanta, Georgia, Executive Office of the President; telephone (404) 656-5767. Anyone who plans to attend should contact Mr. Harrison by April 29.
Purpose of the Panel: The Intergovernmental Science, Engineering, and Technology Advisory Panel was established on November 4, 1976. The Panel is to identify State, regional and local government problems which research and technology may assist in resolving or ameliorating and to help develop policies to transfer research and development findings. The Energy Task Force was formed on March 25, 1977. It is responsible for identifying steps that the Federal government might take to increase the involvement of State and local governments in setting research priorities in the energy area and to increase the applications of energy-related science and technology products and processes in State and local governments.
Minutes of the meeting: Summary minutes of the meeting will be available from Louis Blair, Executive Secretary, ISETAP, Office of Science and Technology Policy, Executive Office of the President, 3011 NEOB, Washington, D.C. 20500, (202) 395-4596.

TENTATIVE AGENDA

To discuss structure objectives and coordinative measures and to develop a charter for the Energy Task Force.

WILLIAM J. MONTGOMERY,
Executive Officer, Office of Science and Technology Policy.

APRIL 8, 1977.

SECURITIES AND EXCHANGE COMMISSION

CONTINUATION OF ADVISORY COMMITTEES

Opportunity for Public Comment

The Securities and Exchange Commission is conducting a review of Federal advisory committees as directed by the President and the Office of Management and Budget. In connection with that review, we invite comments from interested members of the public on the need for and the performance of SEC advisory committees.

SEC advisory committees are as follows:

V 42 72 APR 14 77 UMI

ADVISORY COMMITTEE ON REPLACEMENT COST IMPLEMENTATION

The Committee's objectives are to advise the Chief Accountant of the Securities and Exchange Commission on various difficult, complex and technical questions concerning implementation of Rule 3–17 of Regulation S–X relating to replacement cost data, including:

(1) Conceptual and empirical problems of replacement cost measurement.

(2) Appropriate supplemental disclosures; and

(3) Other matters coming to the attention of the Chief Accountant.

THE NATIONAL MARKET ADVISORY BOARD

The Advisory Board's objectives are to:

(1) Formulate and furnish to the Commission its views on significant regulatory proposals made by the Commission or any self-regulatory organization concerning the establishment, operation, and regulation of the markets for securities in the United States;

(2) Study and make recommendations to the Commission as to the steps it finds appropriate to facilitate the establishment of a national market system; and

(3) Study the possible need for modification of the scheme of self-regulation so as to adapt it to a national market system, including the need for the establishment of a new self-regulatory organization, a National Market Regulatory Board, to administer the national market system. In the event the Advisory Board determines that a National Market Regulatory Board should be established it shall make recommendations as to: (a) The point in time at which a Regulatory Board should be established;

(b) The composition of a Regulatory Board;

(c) The scope of the authority of a Regulatory Board;

(d) The relationship of a Regulatory Board to the Commission and to existing self-regulatory organizations; and

(e) The manner in which a Regulatory Board should be funded.

Persons wishing to comment on any of the above advisory committees should submit written statements to George A. Fitzsimmons, Advisory Committee Management Officer, Room 892, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Comments should be specific in nature and address particular committees. Comments should be received no later than April 22, 1977. The Commission will consider and where appropriate will forward comments to the Office of Management and Budget.

Questions concerning the review may be directed to George A. Fitzsimmons (202) 755–1160.

Dated: April 12, 1977.

GEORGE A. FITZSIMMONS,
Secretary.

[License No. 01/01–0285]

CAPITAL RESOURCE CO. OF CONNECTICUT

Issuance of License To Operate as Small Business Investment Company

On February 11, 1977, a notice was published in the FEDERAL REGISTER that Capital Resource Company of Connecticut, 707 Oakwood Avenue, Box 10407, West Hartford, Connecticut 06110, had filed an Application with the Small Business Administration (SBA) pursuant to 13 CFR 107.102 (1976) for a license to operate as a small business investment company.

Interested parties were given until the close of business on February 28, 1977, to submit written comments on the Application to SBA.

Notice is hereby given that no written comments were received, and having considered the application and all other pertinent information, SBA approved the issuance of License No. 01/01–0285 on March 23, 1977, to Capital Resource Company of Connecticut, pursuant to Section 301(c) of the Small Business Investment Act of 1958, as amended.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: March 29, 1977.

PETER F. MCNEISH,
Deputy Associate Administrator for Investment.

[FR Doc.77–10951 Filed 4–13–77;8:45 am]

[Delegation of Authority No. 15–A; Amdt 4]

DIRECTOR, OFFICE OF AUDITS INVESTIGATIONS

Delegation of Administrative and Financial Activities

Delegation of Authority No. 15–A (37 FR 24716), as amended (38 FR 19294, 40 FR 23125, and 41 FR 15762), is hereby further amended to rescind delegation of certain investigatory authority to the Director, Office of Audits Investigations.

This office is now asigned to the Administrator's immediate office and the authority remains with the Administrator.

Section C is hereby rescinded from Delegation of Authority No. 15–A as amended.

Effective Date: April 14, 1977.

Dated: April 6, 1977.

ROGER H. JONES,
Assistant Administrator for Administration.

[FR Doc.77–10955 Filed 4–13–77;8:45 am]

[Declaration of Disaster Loan Area No. 1311]

KENTUCKY

Declaration of Disaster Loan Area

As a result of the President's declaration, I find that Bell, Breathitt, Floyd, Harlan, Johnson, Knott, Knox, Lawrence, Leslie, Letcher, Magoffin, Martin, Perry, Pike and Whitley Counties, and adjacent counties within the State of Kentucky constitute a disaster area because of damage resulting from severe storms and flooding beginning about April 4, 1977. Eligible persons, firms and organizations may file applications for loans for physical damage until the close of business on June 6, 1977, and for economic injury until the close of business on January 9, 1978, at:

Small Business Administration, District Office, Federal Office Building Room 188, 600 Federal Place, Louisville, Kentucky 40202.

or other locally announced locations.

Dated: April 8, 1977.

A. VERNON WEAVER,
Administrator.

[FR Doc.77–10954 Filed 4–13–77;8:45 am]

[License No. 05/05–5109]

SC OPPORTUNITIES, INC.

Filing of Application for Approval of Conflict of Interest Transaction

Notice is hereby given that SC Opportunities (licensee) 1112 7th Avenue, Monroe, Wisconsin 53566 was licensed by the Small Business Administration on January 16, 1976, to operate as a small business investment company pursuant to the provisions of Section 301(d) of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.).

On August 31, 1976, the licensee provided equity financing to SCO Metairie-Gretna, Inc. (SCOM) a small business concern. SCOM is a Delaware corporation operating two Swiss Colony franchise stores, one in Metairie, Louisiana and Gretna, Louisiana.

SCOM is an associate of the licensee since SCOM was owned by SC America, Inc. (SCA), a Wisconsin Corporation. Mr. Ray Kubly, Mr. Robert Soderholm and Mr. Michael Kubly, all stockholders of the licensee, own more than 10% each of the Stock of SCA. 50.1% of the stock of SCOM was sold to Mr. John Koonce and 49.9% of the stock was acquired by licensee for $4900. Licensee also provided financing in the amount of $14,510 on August 31, 1976, and $14,510 on September 28, 1976, in the form of notes bearing interest at the rate of 9.5 percent annually.

The transaction falls within the purview of Section 107.1004 of the regulations because the financing was used to acquire property from an associate of the licensee.

Notice is hereby given that any person may submit to SBA written comments, no later than April 29, 1977, on this financing. Any such communication should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street NW., Washington, D.C. 20416.

A copy of this notice shall be published by the licensee in newspapers of general circulation in Metairie and Gretna, Louisiana.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: April 7, 1977.

PETER F. MCNEISH,
Deputy Associate Administrator for Investment.

[FR Doc.77–10952 Filed 4–13–77;8:45 am]

PRIVACY ACT OF 1974

New Systems of Record

On March 2, 1977, there was published in the FEDERAL REGISTER (42 FR 12108) a notice of proposed new systems of records. Interested persons were given 30 days in which to comment on the proposed new systems.

No written objections have been received and the proposed systems are adopted without change, as set forth below.

Effective date: April 4, 1977.

Signed at Washington, D.C. on April 4, 1977.

A. VERNON WEAVER,
Administrator.

SBA425

System name:

Federal Personnel Career Administration Program Files—SBA425.

System location:

Central Office.

Categories of individuals covered by the system:

SBA employees.

Categories of records in the system:

Civil Service Commission Standard 171 forms and SBA mobility forms.

Authority for maintenance of the system:

5 U.S.C. 301, 44 U.S.C. 3101, 15 U.S.C. 634(b)(6).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

To provide Program Evaluation Staff with information to help place qualified individuals in appropriate vacancies, and to determine what areas in Personnel need to be stressed in the individual's orientation.

Storage:

Information is maintained in notebooks in locked steel cabinets.

Retrievability:

Records are coded according to grade.

Safeguards:

Information released to authorized personnel on a need to know basis.

Records are maintained until employee leaves the Agency, then destroyed.

Systems manager(s) and address:

Director of Personnel Central Office: See Appendix A for address.

Notification procedure:

An individual may inquire as to whether the system contains a record pertaining to him or her by addressing a request in person or in writing to the manager listed above.

Record access procedures:

In response to a request by an individual to determine whether the system contains a record pertaining to him or her, the system manager will set forth the procedures for gaining access to these records. If there is no record of the individual, he or she will be so advised.

Contesting record procedures:

Individuals desiring to contest or amended information maintained in the system should direct their request to the official listed in the above paragraph, stating the reasons for contesting it and the proposed amendment to the information sought.

Record source categories:

Forms submitted directly by employees.

System name:

Executive Inventory Record—SBA430.

System location:

Central Office.

Categories of individuals covered by the system:

SBA employees at GS–15 to GS–18.

Categories of records in the system:

Executive Inventory Record (Application of Employment).

Authority for maintenance of the system:

5 U.S.C. 301, 44 U.S.C. 3101, 15 U.S.C. 634(b)(6).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

To provide a system for maintaining records of SF–161's submitted to the Civil Service Commission when considering candidates for supergrade vacancies from Executive Inventory Register. To be used by Employment Division and by Civil Service Commission.

Storage:

Information is stored in steel file cabinet.

Retrievability:

Records are listed alphabetically as Executive Inventory Records.

Safeguards:

Information released to authorized personnel only.

Retention and disposal:

Records are maintained until employee leaves the Agency.

System manager(s) and address:

Chief, Employment Division, Central Office. See Appendix A for address.

Notification procedure:

An individual may inquire as to whether the system contains a record pertaining to him or her by addressing a request in person or in writing to the manager listed above.

Record access procedures:

In response to a request by an individual to determine whether the system contains a record pertaining to him or her, the system manager will set forth the procedures for gaining access to these records. If there is no record of the individual, he or she will be so advised.

Contesting record procedures:

Individuals desiring to contest or amend information maintained in the system should direct their request to the official listed in the above paragraph,

V 4 2 7 2 APR 14 7 7 UMI

stating the reasons for contesting it and the proposed amendment to the information sought.

Record source categories:

Applicants.

SBA435

System name:

Executive Development Records—SBA435.

System location:

8115 Fenton Street, Silver Spring, Maryland 20910.

Categories of individuals covered by the system:

Applicants and participants in The Executive Development Program.

Categories of records in the system:

SBA forms 1036 and 1038, SBA 171, SBA 1075A, miscellaneous forms evaluating assignments, and certificates of training completed.

Authority for maintenance of the system:

5 U.S.C. 301, 44 U.S.C. 3101, 15 U.S.C. 634(b)(6).

Routine uses of record maintained in the system, including categories of users and the purposes of such uses:

To provide records, back-up information and all pertinent information on participants in SBA Executive Development Program in one place for reference purposes. To be used by members of training staff, members of The Executive Manpower Resources Board, and their supervisors.

Storage:

Information is maintained in file folders in locked steel cabinet.

Retrievability:

Records are filed alphabetically.

Safeguards:

Files are locked when not in use, and are released to authorized personnel only.

Retention and disposal:

In accordance with SOP–00–41.

System manager(s) and address:

Chief, Training Division, 8115 Fenton Street, Silver Spring, Maryland 20970.

Notification procedure:

An individual may inquire as to whether the system contains a record pertaining to him or her by addressing a request in person or in writing to the manager listed above.

Record access procedures:

In response to a request by an individual to determine whether the system contains a record pertaining to him or her, the system manager will set forth the procedures for gaining access to these records. If there is no record of the individual, he or she will be so advised.

Contesting record procedures:

Individuals desiring to contest or amend information maintained in the system should direct their request to the official listed in the above paragraph, stating the reasons for contesting it and the proposed amendment to the information sought.

Record source categories:

Primarily from employee completion of Forms 1036 and their supervisors' completion of Form 1037.

SBA440

System name:

Documentation of Supervisor Training—SBA440.

System location:

8115 Fenton Street, Silver Spring, Maryland 20910.

Categories of individuals covered by the system:

Persons occupying first-level supervisory positions in the Agency.

Categories of records in the system:

SBA Form 1138.

Authority for maintenance of the system:

5 U.S.C. 301, 44 U.S.C. 3101, 15 U.S.C. 634(b)(6).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

To determine who must receive training and to plan and schedule such training in order to meet Agency Supervisory training needs. To be used by employee, supervisor, and Office of Personnel.

Storage:

Information is maintained in file folders in steel file cabinet.

Retrievability:

Filed alphabetically by employee name.

Safeguards:

Information released only to authorized personnel on need to know basis.

Retention and disposal:

In accordance with SOP–00–41.

System manager(s) and address:

Chief, Training Division, 8115 Fenton Street, Silver Spring, Maryland 20910.

Notification procedure:

An individual may inquire as to whether the system contains a record pertaining to him or her by addressing a request in person or in writing to the manager listed above.

Record access procedures:

In response to a request by an individual to determine whether the system contains a record pertaining to him or her, the system manager will set forth the procedures for gaining access to these records. If there is no record of the individual, he or she will be so advised.

Contesting record procedures:

Individuals desiring to contest or amend information maintained in the system should direct their request to the official listed in the above paragraph, stating the reasons for contesting it and the proposed amendment to the information sought.

Record source categories:

Primarily from employee completion of Form 1138, and review of their Official Personnel Folder.

DEPARTMENT OF TRANSPORTATION

Materials Transportation Bureau

EXEMPTION APPLICATIONS

AGENCY: Materials Transportation Bureau, DOT.

ACTION: List of Applications for renewal of Exemption or Application to Become a Party to an Exemption.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR Part 107, Subpart B), notice is hereby given that the Office of Hazardous Materials Operations of the Materials Transportation Bureau has received the applications described herein. Normally, the modes of transportation would be identified and the nature of application would be described, as in past publications. However, this notice is abbreviated to expedite docketing and public notice. These applications have been separated from the new applications for exemptions because they represent the large majority of applications awaiting disposition.

DATES: Comments by April 29, 1977.

ADDRESSED TO: Section of Dockets, Office of Hazardous Materials Operations, Department of Transportation, Washington, D.C. 20590. Comments should refer to the application number and be submitted in triplicate.

FOR FURTHER INFORMATION:

Complete copies of the applications are available for inspection and copying at the Public Docket Room, Office of Hazardous Materials Operations, Department of Transportation, Room 6500, Trans Point Building, 2100 Second Street SW., Washington, D.C.

Application No.	Applicant	Renewal of special permit or exemption

This notice of receipt of applications for renewal of exemptions and for party to an exemption is published in accordance with section 107 of the Hazardous Materials Transportation Act (49 U.S.C. 1806; 49 CFR 1.53(e)).

Issued in Washington, D.C., on April 7, 1977.

J. R. GROTHE,
Chief, Exemptions Branch, Office of Hazardous Materials Operations.

[FR Doc.77–10792 Filed 4–13–77;8:45 am]

EXEMPTION APPLICATIONS

AGENCY: Materials Transportation Bureau, DOT.

ACTION: List of Applications for Exemption.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR Part 107, Subpart B), notice is hereby given that the Office of Hazardous Materials Operations of the Materials Transportation Bureau has received the applications described herein.

DATES: Comments by May 16, 1977.

ADDRESSED TO: Section of Dockets, Office of Hazardous Materials Operations, Department of Transportation, Washington, D.C. 20590. Comments should refer to the application number and be submitted in triplicate.

FOR FURTHER INFORMATION:

Complete copies of the applications are available for inspection and copying at the Public Docket Room, Office of Hazardous Materials Operations, Department of Transportation, Room 6500, Trans Point Building, 2100 Second Street SW., Washington, D.C.

Each mode of transportation for which a particular exemption is requested is indicated by a number in the "Nature of Application" portion of the table below as follows: 1—Motor vehicle, 2—Rail freight, 3—Cargo vessel, 4—Cargo-only aircraft, 5—Passenger-carrying aircraft.

NEW EXEMPTIONS

Application No.	Applicant	Regulation(s) affected	Nature of application
7691-N	Contrans, Hamburg, Germany.	49 CFR 173.247	To authorize shipment of sulfuryl chloride in non-DOT portable tanks. (Mode 1.)
7692-N	Trans-Artic Ltd., Fairbanks, Alaska.	49 CFR 172.101, and 175.3.	To authorize shipment in cargo-only aircraft of certain flammable and corrosive liquids in quantities greater than authorized by 172.101. (Mode 4.)
7696-N	Encoat Chemicals Corp., Philadelphia, Pa.	49 CFR 176.410(d)	To authorize a space of 12 in in the stowage on barges of bagged ammonium nitrate fertilizer. (Mode 3.)
7697-N	Kerr-McGee Chemical Corp., Oklahoma City, Okla.	49 CFR 173.850(a)	To authorize shipment by water of calcium oxide in DOT 56 portable tanks. (Mode 3.)
7698-N	Federal Laboratories, Inc., Saltsburg, Pa.	49 CFR 173.385(a)	To authorized shipment of tear gas grenades with functioning elements not in a separate compartment or box. (Modes 1, 3, and 4.)
7699-N	Union Carbide Corp., Tarrytown, N.J.	49 CFR 173.119(m)	To authorize shipment of a flammable and corrosive liquid in a DOT 51 portable tank. (Modes 1 and 2.)
7701-N	Orval Tank Containers, Paris, France for Societe pour la Location de Containers, Geneva, Switzerland.	49 CFR 173.119 (a) and (b), 173.125(a), 173.245, 173.510, 173.605, and 173.630.	To authorize shipment of certain flammable and corrosive liquids, and ORM-A materials in non-DOT IMCO class 2 tanks. (Modes 1, 2, and 3.)
7702-N	Burlington Northern Inc., St. Paul, Minn.	49 CFR 174.91, 174.92, and 174.93.	To authorize unit trains for crude oil to operate without buffer cars. (Mode 2.)
7703-N	Big Country Flying Service, Medfra, Alaska.	49 CFR 173.28(m), and 175.320(c)(4)(iii).	To authorize reuse of single-trip containers for certain flammable and combustible liquids and the filling of containers within an aircraft with certain flammable and combustible liquids. (Modes 4 and 5.)
7704-N	GTE Sylvania Inc., Needham Heights, Mass.	49 CFR 173.206(a)(1)	To authorize shipment of lithium batteries, in wooden boxes, crates or pallcized, surrounded by 5 in of plastic foam. (Modes 1, 2, and 3.)
7705-N	The Lea Manufacturing Co., Waterbury, Conn.	49 CFR 172.400, and 177.841(c).	To authorize shipment of packages of class B poisons without the class B poison label and in the same vehicle with foodstuffs. (Mode 1.)
7706-N	Technic Inc., Cranston, R.I.	49 CFR 177.841(c).	To authorize shipment of certain class B poisons in the same vehicle with foodstuffs. (Mode 1.)
7707-N	C. S. Industries, Long Beach, Calif.	49 CFR 178.37–12	To authorize construction of DOT 3AA cylinders with a minimum of 4 threads in the I.D. neck area. (Modes 1, 2, 3, 4, and 5.)
7708-N	IITL Industries Inc., Monrovia, Calif.	49 CFR 173.302(a)	To authorize shipment of a certain nonflammable compressed gas in a non-DOT high pressure stainless steel welded container. (Modes 1, 2, 4, and 5.)
7709-N	National Aeronautics and Space Administration, Washington, D.C.	49 CFR 173.21(a), 173.304(a), 173.393, and 173.395.	To authorize shipment of certain flammable compressed gases and certain other hazardous materials in a solid cryogen cooler overpacked in a stainless steel tank or installed in a spacecraft. (Modes 1 and 4.)
7710-N	Midway Can Co., St. Paul, Minn.	49 CFR Part 173	To authorize shipment of certain flammable corrosive, and poison B liquids in a DOT 12½/2U container; 2 inner containers each 2.5 gal. (Modes 1 and 2.)
7711-N	Illinois Central Gulf RR, Chicago, Ill.	49 CFR 174.25(a)(2)(i)	To authorize use of "X" on waybills to enclose the placard endorsement. (Mode 2.)
7712-N	Schering AG, Bergkamen, Germany.	49 CFR 173.134	To authorize shipment of certain pyroforic liquids in DOT 51 portable tanks. (Modes 1 and 3.)
7713-N	Johnson Scan Star, San Francisco, Calif.	49 CFR 176.83, table II.	To authorize stowage of a nonflammable gas and a class B, and C explosive together. (Mode 3.)
7714-N	Suttons International Ltd., London, England.	49 CFR 173.346	To authorize shipment of certain class B poisons in non-DOT 150 portable tanks. (Mode 3.)
7715-N	Preco, Plainview, N.Y.	49 CFR 175.85(a)	To authorize the carriage of certain flammable liquids in luggage on passenger-carrying aircraft. (Mode 5.)
7716-N	Atlas Powder Co., Dallas, Tex.	49 CFR 173.153(b)(1).	To authorize shipment of up to 40 lb net weight of a certain oxidizer as a limited quantity. (Modes 1 and 2.)

V 4272 APR 14 77 UMI

NEW EXEMPTIONS

Application No.	Applicant	Regulation(s) affected	Nature of application
7717-N	American Cyanamid Co., Wayne, N.J.	49 CFR 172.101, pt. 173, subpts. D, E, F, and H.	To authorize shipment as waste chemicals—flammable, corrosive and poison B liquids in containers authorized in 49 CFR of not over 1-gal capacity overpacked in DOT 17C, E, and H drums or in DOT 33A containers and flammable solids, oxidizers and organic peroxides in non-DOT containers overpacked in DOT 17C or 17H drums. Outside containers to be reused without testing. (Mode 1.)

This notice of receipt of applications for new exemptions is published in accordance with section 107 of the Hazardous Materials Transportation Act (49 U.S.C. 1806; 49 CFR 1.53(e)).

Issued in Washington, D.C., on April 7, 1977.

J. R. GROTHE,
Chief, Exemptions Branch, Office of Hazardous Materials Operations.

VETERANS ADMINISTRATION

STATION COMMITTEE ON EDUCATIONAL ALLOWANCES

Meeting

Notice is hereby given pursuant to Section V, Review Procedure and Hearing Rules, Station Committee on Educational Allowances that on May 10, 1977, at 10:00 a.m., the Waco Veterans Administration Station Committee on Educational Allowances shall at 1400 N. Valley Mills Drive, Waco, Texas, conduct a hearing to determine whether Veterans Administration benefits to all eligible persons enrolled in Joint Apprenticeship Training Committee, Austin Area Glaziers, Local 1852, Austin, Texas, should be discontinued, as provided in 38 CFR 21.4134, because a requirement of law is not being met or a provision of the law has been violated. All interested persons shall be permitted to attend, appear before, or file statements with the committee at that time and place.

Dated: April 7, 1977.

INTERSTATE COMMERCE COMMISSION

[AB 132]

AKRON & BARBERTON BELT RAILROAD CO.

Abandonment of Fairlawn Branch Near Norton, in Summit County, Ohio

MARCH 31, 1977.

The Interstate Commerce Commission hereby gives notice that: 1. The Commission's Section of Energy and Environment has prepared an environmental threshold assessment survey in the above-entitled proceeding in which it was concluded that the proceeding does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. §§ 4321, et seq. 2. A notice setting forth this conclusion was served February 22, 1977, and no substantive comments in opposition, of an environmental nature, have been received by the Commission in response to said notice. 3. This proceeding is now ready for further disposition within the Office of Hearings or the Office of Proceedings as appropriate.

ROBERT L. OSWALD,
Secretary.

[FR Doc.77-10986 Filed 4-13-77;8:45 am]

[AB 43; Sub-No. 27]

ILLINOIS CENTRAL GULF RAILROAD CO.

Abandonment of Railroad Services

MARCH 31, 1977.

The Interstate Commerce Commission hereby gives notice that its Section of Energy and Environment has concluded that the proposed abandonment by the Illinois Central Gulf Railroad of its line between Seely and Mande, a distance of 14.5 miles, in Williamson County, Ill., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that traffic on the line is declining and amounted to 392 carloads in the 12 month period ending June 30, 1976. Approximately 75 percent of this traffic is generated at Marion which could be handled by the Missouri Pacific Railroad (Chicago and Eastern Illinois Railroad). Diversion of traffic to motor carriers in light of the small volume of traffic handled on the branch would not substantially alter the existing environment. Although there is an industrial park planned for a site west of Marion, no serious adverse impact on rural and community development is expected inasmuch as abandonment would not preclude the development of this park by the location of industries not dependent on rail service. Furthermore, the Wolf Creek Aboriginal Mound located in the Crab Orchard National Wildlife Refuge, which is listed as being eligible for inclusion on the National Register of Historic Places, would not be affected by the proposed abandonment.

Of note is that the American Heritage, Ltd., by application to the Commission filed December 20, 1976, proposes to acquire the subject branch for the purpose of providing freight service and a tourist train operation on the line. At the present, the application for acquisition has not been accepted due to the omission in the application of certain necessary data. However, should the application be processed and acquisition of the line by American Heritage eventually accomplished, the environmental impacts associated with the abandonment proposal would be eliminated.

This conclusion is contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-275-7011.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C., 20423, on or before May 16, 1977.

It should be emphasized that the environmental threshold assessment survey represents an evaluation of the environmental issues in the proceeding and does not purport to resolve the issue of whether the present or future public convenience and necessity permit discontinuance of the line proposed for abandonment. Consequently, comments on the environmental study should be limited to discussion of the presence or absence of environmental impacts and reasonable alternatives.

ROBERT L. OSWALD,
Secretary.

[FR Doc.77-10989 Filed 4-13-77;8:45 am]

[AB 12; Sub-No. 30]

SOUTHERN PACIFIC TRANSPORTATION CO.

Abandonment of Portion of the Lick Branch, Santa Clara County, California

MARCH 31, 1977.

The Interstate Commerce Commission hereby gives notice that comments received in response to the environmental threshold assessment survey (TAS) in the above-entitled proceeding have not caused the Commission's Section of Energy and Environment to modify its previous conclusion that this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. §§ 4321, et seq.

Said comments have been responded to in an addendum to the TAS which is available upon request to the Office of Proceedings, Interstate Commerce Commission, Washington, D.C. 20423, telephone 202-275-7011.

ROBERT L. OSWALD,
Secretary.

[FR Doc.77-10987 Filed 4-13-77;8:45 am]

[AB 12; Sub-No. 44]

SOUTHERN PACIFIC TRANSPORTATION CO.

Abandonment of Railroad Services

MARCH 31, 1977.

The Interstate Commerce Commission hereby gives notice that its Section of Energy and Environment has concluded that the proposed abandonment by the Southern Pacific Transportation Company of its line of railroad between Milepost 892.25 near Litchfield Park in a northerly direction to the end of the line at Milepost 894.26 at Litchfield Park, a distance of 2.01 miles, in Maricopa County, Ariz., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. §§ 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts of the proposed action are considered insignificant because the traffic volume exhibited on the portion of the branch proposed for abandonment is low. The shift of any rail traffic to motor carriers would cause no substantial alterations in existing air quality, fuel consumption, highway traffic, and noise intrusions to the area. No land use plans of an economic or industrial importance exist which depend upon the continued operation of the line. Consequently, there is no indication that this action will have a serious adverse impact on rural or community development. There are no historic or ecological impacts associated with the proposed action.

This conclusion is contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-275-7011.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before May 16, 1977.

It should be emphasized that the environmental threshold assessment survey represents an evaluation of the environmental issues in the proceeding and does not purport to resolve the issue of whether the present or future public convenience and necessity permit discontinuance of the line proposed for abandonment. Consequently, comments on the environmental study should be limited to discussion of the presence or absence of environmental impacts and reasonable alternatives.

ROBERT L. OSWALD,
Secretary.

[FR Doc.77-10985 Filed 4-13-77;8:45 am]

[AB 12; Sub-No. 55]

SOUTHERN PACIFIC TRANSPORTATION CO.

Abandonment of Railroad Services

MARCH 31, 1977.

The Interstate Commerce Commission hereby gives notice that its Section of Energy and Environment has concluded that the proposed abandonment by the Southern Pacific Transportation Company of its line between San Bernardino and North Redlands, a distance of 7.28 miles, in San Bernardino County, Calif., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environment Policy Act of 1969 (NEPA), 42 U.S.C. §§ 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that no signficant environmental impacts would result from abandonment because the line has handled a minimal volume of traffic, and alternative lines of the Atchison, Topeka and Santa Fe Railroad Company are within several highway miles from stations on the line to be abandoned. Interest has been expressed in acquiring the right-of-way for alternative transportation uses and possible recreational uses; therefore, the assessment recommends an appropriate public use condition. Impacts upon air quality and fuel consumption resulting from a diversion to motor carrier are considered minimal. Other impacts resulting from this action upon water quality, noise and wildlife are found to be minimally adverse.

This conclusion is contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-275-7011.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before May 16, 1977.

It should be emphasized that the environmental threshold assessment survey represents an evaluation of the environmental issues in the proceeding and does not purport to resolve the issue of whether the present or future public convenience and necessity permit discontinuance of the line proposed for abandonment. Consequently, comments on the environmental study should be limited to discussion of the presence or absence of environmental impacts and reasonable alternatives.

ROBERT L. OSWALD,
Secretary.

[FR Doc.77-10988 Filed 4-13-77;8:45 am]

[AB 105]

WESTERN PACIFIC RAILROAD CO.

Abandonment of Railroad Services

MARCH 31, 1977.

The Interstate Commerce Commission hereby gives notice that its Section of Energy and Environment has concluded that the proposed abandonment by the Western Pacific Railroad Company of 5.9 miles of its North Channel branch in the city of Stockton, San Joaquin County, Calif., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. §§ 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that diversion of rail traffic to motor carriers at the levels of recent years will result in only minimal increases in energy consumption, highway traffic, or air pollution. Abandonment would be consistent with local land use plans proposing the maintenance and expansion of existing residential uses adjacent to the line, and there are no economic development plans dependent upon continued service over the subject line. Consequently, there will be no serious adverse effect upon community development.

The proposed action will not affect historic properties or threatened or endangered species of wildlife and plants. Potential salvage operations on a railroad bridge spanning the Smith Canal should only minimally impact water quality.

This conclusion is contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-275-7011.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before May 16, 1977.

It should be emphasized that the environmental threshold assessment survey represents an evaluation of the en-

V 42 72 APR 14 77 UMI

vironmental issues in the proceeding and does not purport to resolve the issue of whether the present or future public convenience and necessity permit discontinuance of the line proposed for abandonment. Consequently, comments on the environmental study should be limited to discussion of the presence or absence of environmental impacts and reasonable alternatives.

Office of Hearings

[Notice No. 367]

ASSIGNMENT OF HEARINGS

Schanno Transportation, Inc.

APRIL 11, 1977.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 134477 (Sub-No. 128), Schanno Transportation, Inc., application dismissed.

ROBERT L. OSWALD,
Secretary.

[FR Doc.77-10982 Filed 4-13-77;8:45 am]

[Notice No. 149]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under Sections 212(b), 206(a), 211, 312(b), and 410 (g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission on or before May 16, 1977. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

No. MC-FC-77019, filed March 10, 1977. Transferee: Simmons Trucking, Inc., P.O. Box 71, Glenwood, Mo. 63541. Transferor: Donald R. Simmons, P.O. Box 71, Glenwood, Mo. 63541. Applicant's representative: Frank W. Taylor Jr., Attorney at Law, 1221 Baltimore Ave., Suite 600, Kansas City, Mo. 64105. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Permit No. MC 140690 Sub-2, issued July 19, 1976, as follows: *Coal*, over irregular routes, From points in Missouri, to points in Iowa and Illinois, with no transportation for compensation on return except as otherwise authorized. Restriction: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with Missouri Mining, Inc., of Unionville, Mo. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77027, filed March 14, 1977. Transferee: J & R Schugel Trucking, Inc., 301 North Water Street, New Ulm, MN. 56073. Transferor: Freddie Ahrenstorff, an individual, doing business as Ahrenstorff Transfer, P.O. Box 627, Lake Park, Ia. 51347. Applicant's representative: James H. Malecki, Attorney at Law, State and Center Streets, New Ulm, MN. 56073; Patrick E. Quinn, Attorney at Law, P.O. Box 82028, Lincoln, Neb. 68501. Authority sought for purchase by transferee of a portion of the operating rights of transferor, as set forth in Certificate No. MC 20729 (Sub-No. 8), issued March 7, 1967, and May 17, 1967, respectively, as follows: Limestone from the site of Midwest Limestone Co., located in Pocahontas County, Ia. to points in Minnesota, Nebraska and South Dakota and feed, from Waterloo, Ia. to Points in Nebraska and South Dakota and points in Minnesota on and south of U.S. Highway 12. Also from Estherville, Ia. to points in Nebraska and South Dakota, and points in Minnesota (except Minneapolis and St. Paul) on and south of U.S. Highway 12. Also from points in Nebraska (except Fremont, Arlington, and South Sioux City and points within 60 miles of Auburn, including Auburn), and South Dakota, to Lake Park, Ia. Transferee is presently authorized to operate as a common and contract carrier under Certificate No. MC 125894 and Permit No. MC 116446 and subs thereafter. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77043, filed March 16, 1977. Transferee: Route Messengers of Pennsylvania, Inc., 2425 Bainbridge St., Philadelphia, Pa. 19146. Transferor: Malone Transportation, Inc., 842 East Lycoming St., Philadelphia, Pa. 19124. Applicants' representative: Alan Kahn, Attorney-at-Law, Two Penn Center Plaza, Philadelphia, Pa. 19102. Authority sought for purchase by transferee of the operating rights set forth in Certificate No. MC 64154, issued March 23, 1966, to transferor as follows: General commodities, with the usual exceptions, between Philadelphia, Pa., on the one hand, and, on the other, points in New Jersey within ten miles of Philadelphia. Transferee presently holds authority from this Commission under Certificate No. MC 129624 and subs thereafter. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77044, filed March 21, 1977. Transferee: Reeves Transportation Company, a corporation, Route 5, Dew's Pond Road, Calhoun, GA. 30701. Transferor: Patterson Trucking Company, a corporation, 318 Winchester Road, Memphis, Tenn. 38116. Applicants' representative: John C. Vogt, Jr., Attorney at Law, 406 N. Morgan St., Tampa, Fla. 33602. Authority sought for purchase by transferee of the operating rights of transferor set forth in Certificates Nos. MC 108065 and MC 108065 (Sub-No. 2), issued January 23, 1974 and January 26, 1976, respectively, as follows: General commodities, between Memphis, Tenn., and West Memphis, Ark., serving the Holiday Industrial Park, in De Soto County, Miss., as an off-route points in connection with such operations. Transferee presently holds authority from this Commission under Certificate No. MC 129537 (Sub-No. 1) and subs thereafter. Application has not been filed for temporary authority under Section 210a(b).

PETITIONS, APPLICATIONS, FINANCE MATTERS (INCLUDING TEMPORARY AUTHORITIES), RAILROAD ABANDONMENTS, ALTERNATE ROUTE DEVIATIONS, AND INTRASTATE APPLICATIONS

Notices

APRIL 8, 1977.

PETITIONS FOR MODIFICATION, INTERPRETATION OR REINSTATEMENT OF OPERATING RIGHTS AUTHORITY

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission on or before May 16, 1977. Such protest shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR 1100.247)[1] and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

No. MC 1117 (Sub-No. 2) (Notice of filing of petition for modification of commodity description), filed March 14, 1977. Petitioner: M.G.M. TRANSPORT CORPORATION, 70 Maltese Dr., Totowa, N.J. 07512 Petitioner's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Petitioner holds a motor *common carrier* Certificate in No. MC 1117 (Sub-No. 2), issued November 21, 1956, authorizing transportation, as pertinent, over irregular routes, of *new furniture*, uncrated, and *furniture frames*, uncrated, from points in Passaic County, N.J., to points in Connecticut, Delaware, Maryland, Massachusetts, New Hampshire, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and the District of Columbia, which are within 350 miles of Paterson, N.J. By the instant petition, petitioner seeks to modify the above commodity description by deleting the restriction "uncrated" from that part of the commodity description that reads "new furniture, uncrated".

[No. MC 52214]

NOTICE OF FILING OF PETITION

PETITION FOR DECLARATORY ORDER—INTERPRETATION OF CERTIFICATE

Petitioner: RELIABLE TRANSPORT (U.S.) LIMITED. Petitioner's representative: S. Harrison Kahn, Suite 733, Investment Building, Washington, D.C. 20005. By petition filed December 8, 1976, Reliable Transport (U.S.) Limited seeks a ruling that under the authority held in its Certificate No. MC 52214, it is able to interline shipments moving in interstate or foreign commerce, and to originate or deliver shipments, between Buffalo, N.Y., and a point on the international boundary line between the United States and Canada abutting the city of Buffalo. Petitioner presently holds authority in No. MC 55214, issued November 14, 1940, as a *common carrier* by motor vehicle, over regular routes, authorizing the transportation of *general commodities* (except those of unusual value, high explosives, household goods when transported as a separate and distinct service in connection with so-called household movings, commodities in bulk, commodities requiring special equipment), between Rochester and Buffalo, N.Y., over specified routes, serving all intermediate points and designated off-route points.

Petitioner's petition arises out of an informal opinion from a regional office that the authority contained in the said certificate does not authorize transportation for compensation between Buffalo, N.Y., and the United States-Canada International Boundary at Buffalo, N.Y., and further, that it does not authorize the interlining of shipments originating at or destined to the United States-Canada International Boundary at Buffalo, N.Y., on the basis of the Commission's ruling in *Red Star Express Lines of Auburn, Inc.* v. *Maislin*, 110 M.C.C. 23.

Petitioner excepts to this statement. It argues that it is well settled that a certificate of public convenience and necessity authorizing service at a point comprehends the interchange of traffic at that point with any other carrier authorized to serve that point for the same class to traffic, and that no specific authority is required to handle interchange traffic at such an authorized point. More specifically, it contends that the Commission has long recognized that carriers authorized to serve points located at international boundaries are authorized to serve the international boundary. Petitioner's position is that the decision in *Red Star, supra*, does not set aside the rationale of the previous ruling in *Kingsway Transports Limited—Purchase—Kuhns*, 85 M.C.C. 287. Petitioner argues that one of the principal distinguishing factors between the *Red Star* and *Kingsway* decisions was the identicalness of the carrier within the United States and Canada. Petitioner states that the factual situation present in *Red Star* does not exist in its case (it admits that Reliable Transport (U.S.) Limited is affiliated with Reliable Transport Limited, a Canadian carrier) in that in the instant case there are two carriers rather than one as in the *Red Star* case.

The Commission is asked specifically whether petitioner may originate a shipment at Buffalo and transport that shipment to a point on the international boundary line (e.g., the Peace Bridge) for ultimate delivery in Canada by an appropriately authorized Canadian carrier, for deliveries on international shipments to points and places in the Province of Ontario. It submits that the *Kingsway* decision sanctions this operation. Following from this, petitioner states it is also authorized to interline with an authorized interstate motor common carrier at Buffalo or at any other point on its authorized route for the transportation of interline shipments to the international boundary line for interline with a properly authorized Canadian carrier. It contends that an affirmative answer with regard to shipments into Canada demands an affirmative answer for shipments delivered by petitioner at Buffalo having a Canadian origin.

No. MC 59806 (Sub-Nos. 1, 2, and 4) (Notice of filing of petition to add an additional contracting shipper), filed March 17, 1977. Petitioner: GROSS & HECHT TRUCKING, INC., Box 514, 35 Brunswick Ave., Edison, N.J. 08817. Petitioner's representative: 9. David Millner, 167 Fairfield Road, P.O. Box 1409, Fairfield, N.J. 07006. Petitioner holds motor *contract carrier* Permits in No. MC 59806 (Sub-Nos. 1, 2, and 4), issued July 16, 1976, July 16, 1976, and July 23, 1976, respectively, authorizing transportation (1) in No. MC 59806 (Sub-No. 1), of *such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, and, in connection therewith, *equipment, materials, and supplies* used in the conduct of such business, between points in Nassau, Suffolk, and Westchester Counties, N.Y., New York, N.Y., and points in Warren, Hunterdon, Morris, Somerset, Bergen, Essex, Hudson, Middlesex, Monmouth, Ocean, Passaic, and Union Counties, N.J., under a continuing contract, or contracts, with The Great A.&P. Tea Co., of Montvale, N.J.; (2) in No. MC 59806 (Sub-No. 2), of *such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, and in connection therewith, *equipment, materials, and supplies* used in the conduct of such business, between Cherry Hill and Florence, N.J., on the one hand, and, on the other, points in Nassau, Suffolk, and Westchester Counties, N.Y., New York City, and points in Warren, Hunterdon, Morris, Somerset, Bergen, Essex, Hudson, Middlesex, Monmouth, Ocean, Passaic, and Union Counties, N.J., under a continuing contract, or contracts, with The Great Atlantic & Pacific Tea Co., of Montvale, N.J.; and

(3) In No. MC 59806 (Sub-No. 4), of (I) *such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, and (II) *equipment, materials, and supplies* used in the conduct of the business described in (I) above, (A) between points in Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Ocean, Passaic, Somerset, Sussex, Union, and Warren Counties, N.J., Bronx, Kings, Nassau, New York, Orange, Queens, Richmond, Rockland, Suffolk, Sullivan, Ulster, and Westchester Counties, N.Y.; (B) between points in the territory described in (A) above, on the one hand, and, on the other, Florence, N.J., and Philadelphia, Dunmore, and Scranton, Pa.; and (C) between points in (A) above, and Florence, N.J., on the one hand, and, on the other, Albany, N.Y., restricted against the transportation of commodities in bulk, and under a continuing contract, or contracts, with The Great Atlantic & Pacific Tea Company, Inc., of Montvale, N.J. By the instant petition, petitioner seeks to add White Rose Frozen Food Corp. as an additional constructing shipper to the authority in No. MC 59806 (Sub-Nos. 1, 2, and 4) above.

No. MC 126716 (Notice of filing a petition to modify a certificate), filed March 16, 1977. Petitioner: WESTON TRUCKING COMPANY, doing business as WESTON TRUCKING, 111 "C" Street, Encinitas, Calif. 92024. Petition-

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

V4272 APR 14 77 UMI

er's representative: William D. Taylor, 100 Pine Street, San Francisco, Calif. 94111. Petitioner holds a motor *common carrier* Certificate in NO. MC 126716, issued March 12, 1970, authorizing transportation, over irregular routes, of *General commodities* (except those of unusual value, household goods as defined by the Commission, Classes A and B explosives, commodities in bulk, and those requiring special equipment), between Los Angeles International Airport, Calif., on the one hand, and, on the other, San Clemente, Camp Pendleton, Fallbrook, Vista, San Marcos, Escondido, Miramar, Santee, San Ysidro, Chula Vista, Coronada, San Diego La Jolla, Del Mar, Solano Beach, Encinitas, Carlsbad, and Oceanside, Calif., restricted to the transportation of shipments having a prior or subsequent movement by air. By the instant petition, petitioner seeks to remove "Class B explosives" from the restriction in its above authority.

No. MC 134011 (Notice of filing of petition to modify commodity description), filed March 14, 1977. Petitioner: LEON H. PENN, doing business as PENN TRUCKING CO., Route 3, Box 112, Cordele, Ga. 31015. Petitioner's representative: C. E. Walker, P.O. Box 1085, Columbus, Ga. 31902. Petitioner holds a motor *common carrier* Certificate in No. MC 134011, issued November 4, 1971, authorizing transportation, as pertinent, over irregular routes, of *dry fertilizer and dry fertilizer materials*, in bulk, (1) from points in Crisp County, Ga., to points in Florida; and (2) from points in Hamilton County, Tenn., to points in Florida and Georgia. By the instant petition, petitioner seeks to modify the commodity description above by the addition of "and in bags" following the words "in bulk."

No. MC 136733 (Notice of filing of petition for modification of commodity description), filed March 21, 1977. Petitioner: WEISS TRANSPORTATION CO., INC., 4250 Wissahickon Avenue, Philadelphia, Pa. 19129. Petitioner's representative: Raymond A. Thistle, Jr., Suite 1012, Four Penn Center Plaza, Philadelphia, Pa. 19103. Petitioner holds a motor *common carrier* Certificate in No. MC 136733, issued July 16, 1975, authorizing transportation, as pertinent, over irregular routes of *household and commercial appliances*, from Philadelphia, Pa., to points in Delaware and points in that part of New Jersey south of New Jersey Highway 33. By the instant petition, petitioner seeks to modify the above commodity description to read: "*Household and commercial appliances, radios, televisions, stereos, and component parts thereof, phonographs and tape recorders.*"

No. MC 138054 (Sub-No. 3) (Notice of filing of petition to add an additional origin point and add an additional destination state), filed March 16, 1977. Petitioner: CONDOR CONTRACT CARRIERS, INC., 1231 Blue Gum, Anaheim, Calif. 92806. Petitioner's representative: Scott E. Daniel, P.O. Box 82028, Lincoln, Nebr. 68501. Petitioner holds a motor *contract carrier* Permit in No. MC 138054 (Sub-No. 3) issued July 3, 1975, authorizing transportation, as pertinent, over irregular routes, in the transportation of, *power transmission equipment and component parts and accessories*, from Eaton, Ohio, to Dallas, Tex., St. Louis, Mo., Memphis, Tenn. Kernesville, N.C., New York, N.Y., North Bergen, N.J., Chicago, Ill., Detroit, Mich., and points in Arizona, California, Colorado, Oregon, and Washington, under a continuing contract, or contracts, with Emerson Electric Co. By the instant petition, petitioner seeks (1) to add Pella, Iowa as an additional origin point to the above authority; and (2) to add Nevada as an additional destination state to the above authority.

No. MC 138618 (Sub-No. 1) (Notice of filing of petition to change an origin point), filed March 25, 1977. Petitioner: FRANKLIN LUMBER COMPANY, INC., Route 10, Box 242, Jasper, Ala. 35501. Petitioner's D. H. Markstein, Jr., 512 Massey Building, Birmingham, Ala. 35203. Petitioner holds a motor *contract carrier* Permit in No. MC 138618 (Sub-No. 1), issued April 28, 1975, authorizing transportation over irregular routes, of *lumber*, from Russellville, Ala., to points in Florida, Georgia, Mississippi, and Tennessee, under a continuing contract, or contracts, with TMA Forest Products, a Division of Tennessee River Pulp & Paper Company, of Double Springs, and Jasper, Ala. By the instant petition, petitioner seeks to change the origin point above by the deletion of Russellville, Ala., and the substitution of Jasper and Double Springs, Ala., in lieu thereof.

REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER.

An original and one copy of protests to the granting of the authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rule 247(d) of the Commission's *General Rules of Practice* (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition shall not be tendered at this time. A copy of the protest shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

No. MC 129068 (Sub-No. 31) (Republication), filed October 12, 1976, published in the FEDERAL REGISTER issue of November 11, 1976, and republished this issue. Applicant: GRIFFIN TRANSPORTATION, INC., 3002 S. Douglas Blvd., Oklahoma City, Okla. 73150. Applicant's representative: G. Timothy Armstrong, 6161 N. May Ave., Oklahoma City, Okla. 73112. An Order of the Commission, Review Board Number 1, dated March 17, 1977, and served March 24, 1977, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, in the transportation of *trailers* (excluding recreational vehicles), designed to be drawn by passenger automobiles, in initial movements, and *buildings*, in sections, mounted on wheeled undercarriages in initial movements, from points in Kansas, to points in the United States (except Alaska and Hawaii); that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate the deletion of the restriction against the transportation of modular units and prefabricated buildings in applicant's grant of authority.

No. MC 141424 (Sub-No. 1) (Republication), filed May 17, 1976, published in the FEDERAL REGISTER issue of August 19, 1976, and republished this issue. Applicant: P–Y TRANSPORT, INC., 2767 Lewisberry Road, York, Pa. 17404. Applicant's representative: S. Harrison Kahn, Suite 733 Investment Building, Washington, D.C. 20005. An Order of the Commission, Review Board Number 3, dated March 23, 1977, and served March 30, 1977, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, in the transportation of (1) (a) *Lime, plaster, gypsum, plaster and gypsum articles, plaster retarder, plaster accelerator plasterboard joint system, and nails, clips, wedges, wire fasteners, and channels*, used in the installation of lime, plaster and gypsum, and of plaster and gypsum articles, from Akron, N.Y., to points in Delaware, and (b) *returned materials* as above described, from points in Delaware to Akron, N.Y.; (2) *insulating materials*, when moving in the same vehicle and at the same time with roofing materials and supplies, from York, Pa., to Martinsburg, W. Va., and points in Ohio, New York (except points in Nassau, Orange, Rockland, Suffolk, and Westchester Counties, and the New York, N.Y., Commercial Zone, as defined in *Commercial Zones and Terminal Areas*, 53 M.C.C. 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Interstate Commerce Act), and that part of New Jersey south of New Jersey Highway 33, and the District of Columbia; (3) *Insulating materials*, when moving in the same vehicle and at the same time with plaster, plasterboard, gypsum lath, and gypsum sheathing, from Akron, N.Y., to points in Delaware and in that part of Pennsylvania on and east of U.S. Highway 219 (except points in Cameron, Elk, McKean, and Potter Counties, Pa.).

(4) *Roofing and building materials and materials and supplies* used in or incidental to the production and distribution of roofing and building materials, between York, Pa., on the one hand, and, on the other, Wilmington, Del., points in Maryland, and points in that part of New Jersey south of New Jersey Highway 33, and the District of Columbia; (5) *Roofing and building materials* used in the installation and application of such commodities (except iron and steel and commodities in bulk), between the plant site of Certain-Teed Products Corporation, at Avery, Ohio, on the one hand, and, on the other, points in Delaware, Maryland, New Jersey, New York, Pennsylvania, Virginia, and West Virginia, and the District of Columbia; (6) *Building materials and wire*, between York, Pa., and points in Pennsylvania within 25 miles of York, on the one hand, and, on the other, points in Maryland, Pennsylvania, and that part of New Jersey south of New Jersey Highway 33; (7) *Roofing materials and supplies* (a) from York Pa., to points in North Carolina, Virginia, and the District of Columbia, and (b) from points in New Jersey south of New Jersey Highway 33 to York, Pa., and Curtis Bay and Westminister, Md.; (8) *Lime, plaster, and gypsum, plaster, and gypsum articles, and plaster retarder, plaster accelerator, plasterboard joint system, nails, clips, wedges, wire fasteners, and channels* used in the installation of lime, plaster, gypsum, and plaster and gypsum articles, from Wheatland, N.Y., to points in Maryland, Delaware, New Jersey, and Virginia, and the District of Columbia, and that part of Pennsylvania on and east of U.S. Highway 219; (9) *Plaster, plasterboard, gypsum lath, and gypsum sheathing*, from Akron, N.Y., and points within 2 miles thereof, to points in Pennsylvania on and east of U.S. Highway 219 (except those in Cameron, Elk, McKean, and Potter Counties, Pa.); (10) *Plaster, plasterboard, gypsum lath, gypsum sheathing, and gypsum block, plank, slab, or tile*, from Oakfield, N.Y., to points in Pennsylvania on and east of U.S. Highway 219 (except Harrisburg and Lancaster, Pa., and points in Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa.).

(11) *Veneer, brick and clay products, roofing materials and supplies, building paper, wallpaper, and manufactured paper products*, from York, Pa., to Martinsburg, W. Va., and points in Delaware, Maryland, Ohio, New York (except points in Nassau and Suffolk Counties and the New York, N.Y., Commercial Zone, as defined in *Commercial Zones, and Terminals Areas*, 53 M.C.C. 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Interstate Commerce Act), and that part of New Jersey south of New Jersey Highway 33; carrier is hereby authorized to tack the above authority at Wilmington, Del., York, Pa., and points in Pennsylvania within 25 miles of York, Pa.; and carrier may not perform any service under the above authority for the transportation of: (a) shipments to or from the facilities of Arctic Roofing, Inc., at or near Wilmington, Del., (b) brick and clay products from Summerville, Pa., and points in the Summerville, Pa., commercial zone as defined by the Commission, and from Porter Township (Clarion County), Pa., (c) concrete, cinder and slag products from Baltimore, Md., and York, Pa., (d) brick from the facilities of Glen Glen Corporation, at or near York, Pa., and (e) brick and clay products, from Lewis Run, Pa., and points in the Lewis Run, Pa., commercial zone, as defined by the Commission; parts (4) and (6) of the above authority are restricted against the transportation of cement and limestone, and parts (5) and (11) of the above authority are restricted against the transportation of brick, refractory products, and materials and supplies used in the installation and production of refractory products (except liquid commodities in bulk); that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate the addition of Delaware as an additional destination state in (8) above in applicant's grant of authority.

No. MC 141728 (Sub-No. 2) (Republication), filed June 10, 1976, published in the FEDERAL REGISTER issue of July 22, 1976, and republished this issue. Applicant: WILMINGTON CORP., Northern Industrial Park, Wilmington, Mass. 01887. Applicant's representative: Irwin M. Heller, Suite 600, One Center Plaza, Boston, Mass. 02108. A Supplemental Order of the Commission, Review Board Number 2, dated March 4, 1977, and served March 24, 1977, finds on further consideration that operation by applicant, in interstate or foreign commerce, as a *contract carrier* by motor vehicle, over irregular routes, in the transportation of *such commodities* as are sold or used by retail stores (except commodities in bulk, and commodities requiring the use of special equipment), between Boston, Mass., and the facilities of Edison Brothers Stores, Inc., located at Wilmington, Mass., under a continuing contract, or contracts, with Edison Brothers Stores, Inc., restricted to the transportation of traffic having an immediately prior or subsequent movement by rail, air, or water, will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate the addition of the words "or subsequent" following the words "immediately prior" in the restriction to applicant's grant of authority.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

The following applications are governed by Special Rule 247 of the Commission's General Rules of Practice (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with Section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 720 (Sub-No. 30), filed March 25, 1977. Applicant: BIRD TRUCKING CO., INC., Box 227, Waupun, Wis. 53963. Applicant's representative: Anthony C. Vance, 1300 Old Chain Bridge Road, McLean, Va. 22101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities*, as are dealt in

V4272 APR 14 77 UMI

by wholesale, retail, chain grocery, and food business houses (except commodities in bulk), between Hodgkins, Ill., on the one hand, and, on the other, points in the Wisconsin Counties listed below: Brown, Calumet, Columbia, Dane, Dodge, Door, Fond d i Lac, Green Lake, Jefferson, points in Kenosha west of U.S. Highway 45, Kewaunee, Manitowoc, Marquette, Milwaukee (except points east of Wisconsin Highway 100 in Milwaukee County) Outgamie, Ozaukee, Portage, points in Racine on and west of U.S. Highway 45, Rock, Sauk, Sheboygan, Walworth, Washington, Waukesha, Waupaca, Waushara, Winnebago, and Wood, Wis., restricted to traffic originating at or destined to the facilities of Couzens Warehouse & Distributors, Inc., located at Hodgkins, Ill.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 921 (Sub-No. 29), filed March 2, 1977. Applicant: DEAN TRUCK LINE, INC., P.O. Drawer 631, Corinth, Miss. 38834. Applicant's representative: A. Doyle Cloud, Jr., 2008 Clark Tower, 5100 Poplar Avenue, Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, livestock, commodities in bulk, and articles which because of size or weight require special equipment): Between the junction of Tennessee Highway 57 and an unnumbered road approximately four miles southeast of Tulu, Tenn., and Corinth, Miss.: From the junction of Tennessee Highway 57 and an unnumbered road approximately four miles southeast of Tulu, Tenn., thence southerly over the unnumbered highway via Kendrick, Miss., to Corinth, Miss., serving all intermediate points, and return over the same route.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Corinth, Miss.

No. MC 2484 (Sub-No. 51), filed February 14, 1977. Applicant: E & L TRANSPORT COMPANY, a corporation, P.O. Box 4299, 14201 Prospect Avenue, Dearborn, Mich. 48121. Applicant's representative: Eugene C. Ewald, 100 West Long Lake Road, Suite 102, Bloomfield Hills, Mich. 48013. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Motor vehicles*, in secondary movements, in truckaway service, from Dearborn, Mich., to points in the United States (excluding Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C., or Detroit, Mich.

No. MC 5470 (Sub-No. 121), filed February 24, 1977. Applicant: TAJON, INC., R.D. No. 5, Box 146, Mercer, Pa. 16137. Applicant's representative: Don Cross, 700 World Center Building, 918 Sixteenth Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metals and alloys*, in dump vehicles, between points in Alabama, Arkansas, Kansas, Louisiana, Mississippi, Missouri, Ohio, Pennsylvania, Tennessee, and Texas.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C., or Chicago, Ill.

No. MC 3854 (Sub-No. 34), filed March 1, 1977. Applicant: BURTON LINES, INC., P.O. Box 11306, East Durham Station, Durham, N.C. 27703. Applicant's representative: Edward G. Villalon, 1032 Pennsylvania Building, Pennsylvania Ave. and 13th Street NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Materials, supplies and equipment* (except commodities in bulk, in tank vehicles) used in the processing, packing, storing, handling and marketing of tobacco, and (2) *unmanufactured tobacco* when moving on the same vehicle at the same time with the commodities described above, between points in Connecticut, Florida, Georgia, Kentucky, Maryland, Massachusetts, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia and West Virginia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Raleigh, N.C. or Washington, D.C.

No. MC 26396 (Sub-No. 144), filed March 1, 1977. Applicant: POPELKA TRUCKING CO., doing business as, THE WAGGONERS, Box 990, Livingston, Mont. 59047. Applicant's representative: David Waggoner (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bentonite clay, lignite coal*, treated or untreated, and *bentonite products*, (1) from the plantsite of American Colloid Co., located at or near Malta, Mont., to points in Arizona, California, Colorado, Idaho, Illinois, Iowa, Kansas, Minnesota, Nebraska, New Mexico, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming, Wisconsin, and the Upper Peninsula of Michigan; and (2) from the origin point named in (1) above, to ports of entry on the International Boundary line between the United States and Canada located at points in Idaho, Montana, North Dakota and Washington, restricted to traffic destined to the Province of Alberta, Canada.

NOTE.—Applicant holds contract carrier authority in various subs under No. MC 136777, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Billings, Mont.

No. MC 26739 (Sub-No. 91) (Amendment), filed January 24, 1977, published in the FEDERAL REGISTER issue of March 17, 1977, and republished this issue. Applicant: CROUCH FREIGHT SYSTEMS, INC., P.O. Box 1059, St. Joseph, Mo. 64502. Applicant's representative: Roland Rice, 1111 E Street, N.W., Suite 618, Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) Between Denver, Colo., and Minneapolis, Minn., serving no intermediate points: From Denver over Interstate Highway 80S to the junction of Interstate Highway 80, thence over Interstate Highway 80 to the junction of U.S. Highway 281, thence over U.S. Highway 281 to the junction of U.S. Highway 30 at or near Grand Island, Nebr., thence over U.S. Highway 30 to the junction of U.S. Highway 77 at or near Fremont, Nebr., thence over U.S. Highway 77 to Sioux City, Iowa, thence over U.S. Highway 75 to the junction of Interstate Highway 90, thence over Interstate Highway 90 to the junction of Interstate Highway 35, thence over Interstate Highway 35 to Minneapolis, Minn., and return over the same route; (2) Between Kansas City, Kans., and Denver, Colo., serving no intermediate points: From Kansas City over U.S. Highway 24 to the junction of U.S. Highway 75, thence over U.S. Highway 75 to the junction of U.S. Highway 36 at or near Fairview, Kans., thence over U.S. Highway 36 to the junction of U.S. Highway 383, thence over U.S. Highway 383 to the junction of U.S. Highway 24, thence over U.S. Highway 24 to junction U.S. Highway 40, thence over U.S. Highway 40 to Denver, and return over the same route.

NOTE.—The purpose of this republication is to correct applicant's territorial description in (2) above. Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Kansas City, Mo., or San Francisco, Calif.

No. MC 41098 (Sub-No. 42), filed February 11, 1977. Applicant: GLOBAL VAN LINES, INC., No. 1 Global Way, Anaheim, Calif. 92803. Applicant's representative: Alan F. Wohlstetter, 1700 K Street, N.W., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture; new furnishings and equipment; new appliances; new household fixtures, equipment and furnishings; new store and office fixtures, equipment and furnishings; new commercial and institutional fixtures, equipment and furnishings; new restaurant and kitchen fixtures, equipment and furnishings; new hospital and laboratory fixtures, equipment and furnishings; and new floor covering, carpet and padding*, including *accessories and parts* incidental to the foregoing commodities when shipped at the same time in the same vehicle, between points in California, Oregon and Washington on the one hand, and, on the other, points in the United States, including Alaska and Hawaii.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Los Angeles, Calif., or Chicago, Ill.

No. MC 42866 (Sub-No. 18), filed February 18, 1977. Applicant: NATIONAL VAN LINES, INC., 2800 Roosevelt Road, Broadview, Ill. 60153. Applicant's representative: Patrick H. Smyth, Suite 521, 19 South LaSalle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Carpets, rugs, mats, matting, plastic articles, and rubber articles, and parts and accessories*, for carpets, rugs, mats, matting plastic articles, and rubber articles; and (2) *materials, equipment and supplies*, used in the manufacture, sale, and distribution of the commodities in (1) above (except bulk), between points in the United States (except Alaska and Hawaii), restricted to shipments originating at or destined to the facilities of General Felt Industries, Inc., or its subsidiaries.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 52460 (Sub-No. 193), filed February 28, 1977. Applicant: ELLEX TRANSPORTATION, INC., 1420 West 35th Street, P.O. Box 9637, Tulsa, Okla. 74107. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Bldg., 3535 N.W. 58th Street, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in containers, from points in Union County, Ark., to points in Alabama, Florida, Georgia, Kansas, Louisiana, Mississippi, Missouri, Oklahoma, Tennessee and Texas.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Dallas, Tex.

No. MC 52460 (Sub-No. 194), filed March 2, 1977. Applicant: ELLEX TRANSPORTATION, INC., 1420 West 35th Street, P.O. Box 9637, Tulsa, Okla. 74107. Applicant's representative: Wilburn L. Williamson, 3535 N.W. 58th Street, 280 National Foundation Life Bldg., Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in containers, from West Memphis, Ark., to points in Kansas, Louisiana, New Mexico, Oklahoma and Texas.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Tulsa, Okla., or Dallas, Tex.

No. MC 61592 (Sub-No. 397), filed March 2, 1977. Applicant: JENKINS TRUCK LINE, INC., P.O. Box 697, Jeffersonville, Ind. 47130. Applicant's representative: E. A. DeVine, 101 First Avenue, P.O. Box 737, Moline, Ill. 61265. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Mining equipment*; (2) *attachments and parts* of mining equipment; and (3) *equipment, materials and supplies* used in the manufacture of mining equipment (except commodities in bulk), between the facilities of Reading, U.S. Inc., located at or near Orange Park, Fla., on the one hand, and, on the other, points in the United States, including Alaska, but excluding Hawaii.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests that it be held at Washington, D.C.

No. MC 63417 (Sub-No. 98), filed February 28, 1977. Applicant: BLUE RIDGE TRANSFER COMPANY, INCORPORATED, P.O. Box 13447, Roanoke, Va. 24034. Applicant's representative: William E. Bain (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products*; (2) *plastic sheets, dispensers and accessories*, and *premiums and advertising materials* when shipped in combination with (1) above; and (3) *equipment, materials and supplies* used in the manufacture and distribution of the commodities described in (1) and (2) above (except commodities in bulk, commodities requiring tank or hopper type vehicles, and commodities which by reason of size and weight require special equipment), between the plantsite, storage facilities, and shipping facilities of Fort Howard Paper Company located at or near Muskogee, Okla., on the one hand, and, on the other, points in Alabama, Arkansas, Colorado, Florida, Georgia, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Nebraska, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, and Virginia, restricted to traffic originating at or destined to the plantsite, storage and shipping facilities of Fort Howard Paper Company located at or near Muskogee, Okla.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 63973 (Sub-No. 17) (Partial amendment), filed September 14, 1976, published in the FEDERAL REGISTER issue of October 29, 1976, and republished, in part, as amended this issue. Applicant: KALER FREIGHT LINES, INC., 504 12th Street Southeast, Mason City, Iowa 50401. Applicant's representative: Gerald Kaler (same address as applicant). The purpose of this partial republication is to amend the previously published part (7) of this request so as to read: (7) "Between Allison, Iowa and Keokuk, Iowa, serving Fort Madison and Burlington, Iowa as intermediate points: From Allison over Iowa Highway 3 to junction U.S. Highway 218, thence over U.S. Highway 218 to junction U.S. Highway 34, thence over U.S. Highway 34 to junction U.S. Highway 61, thence over U.S. Highway 61 to Keokuk, and return over the same routes."

No. MC 66886 (Sub-No. 53), filed February 25, 1977. Applicant: BELGER CARTAGE SERVICE, INC., 2100 Walnut Street, Kansas City, Mo. 64108. Applicant's representative: Dick L. Shaw (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipe lines, including the stringing and picking up thereof; and (2) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or well drilled (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites; and (d) the injecting or removal of commodities into or from holes or wells, between points in Connecticut, Delaware, Florida, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Rhode Island, South Carolina and Virginia on the one hand, and, on the other, points in the United States, including Alaska but excluding Hawaii.

NOTE.—If a hearing is deemed necessary, applicant requests it be held on a consolidated record with similar applications at either Houston, Tex. or Tulsa, Okla.

No. MC 66886 (Sub-No. 54), filed March 1, 1977. Applicant: BELGER CARTAGE SERVICE, INC., 2100 Walnut Street, Kansas City, Mo. 64108. Applicant's representative: Frank W. Taylor, Jr., Suite 600, 1221 Baltimore Avenue, Kansas City, Mo. 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pile driving equipment, foundation construction equipment* which because of size or weight requires the use of special equipment, and *machinery, materials, and supplies* used in the connection with the above named commodities, (except commodities in bulk), (1) between points in Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Missouri, Nebraska, and Oklahoma; and (2) between Baltimore, Md., on the one hand, and, on the other, points named in (1) above, restricted to shipments originating at or destined to the plant, maintenance, and storage facilities and jobsites of Raymond International, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 67403 (Sub-No. 2), filed March 1, 1977. Applicant: BROES TRUCKING CO., INC., 1485 Crown Point Road, Verga, N.J. 08093. Applicant's representative: Ira G. Megdal, 499 Cooper Landing Road, Cherry Hill, N.J. 08002. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel and*

V4272 APR 14 77 UMI

iron and steel articles, from the facility of Continental Steel, Inc., located at Cornwells Heights, Pa., to Bronx, Brooklyn, Yonkers, Middletown, Farmingdale, Hauppage, Richmond Hills, Wyandanch, College Point, Jamaica, N.Y.; Plantsville and Bridgeport, Conn.; Wilkes-Barre and New Berlin, Pa.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Newark, N.J., or Philadelphia, Pa.

No. MC 67403 (Sub-No. 3), filed February 25, 1977. Applicant: BROES TRUCKING CO., INC., 1485 Crown Point Rd., Verga, N.J. 08093. Applicant's representative: Ira G. Megdal, 499 Cooper Landing Road, Cherry Hill, N.J. 08002. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel, and iron and steel articles*, from the facility of Bristol Supply Co. located at Bristol, Pa., to Glenn Cove, Vestal, Brooklyn, Queens, and Hauppauge, N.Y., and Kearney, N.J.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Newark, N.J. or Philadelphia, Pa.

No. MC 70903 (Sub-No. 5), filed March 2, 1977. Applicant: OKANOGAN-SEATTLE TRANSPORT COMPANY, INC., P.O. Box 722, Ellensburg, Wash. 98926. Applicant's representative: Michael D. Duppenthaler, 607 3rd Ave., Seattle, Wash. 98104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Diatomaceous earth*, in bags, barrels, boxes and packages, from points in Grant County, Wash., to the ports of entry on the International Boundary Line between the United States and Canada, located at points in Washington, restricted to traffic destined to Province of British Columbia, Canada.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 93840 (Sub-No. 26), filed February 28, 1977. Applicant: W. W. GLESS, doing business as GLESS BROS., P.O. Box 216, Blue Grass, Iowa 52726. Applicant's representative: Larry D. Knox, 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer solutions*, from Fulton, Ill., to points in Iowa, Illinois, Wisconsin, Minnesota, and Missouri.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Des Moines, Iowa or Kansas City, Mo.

No. MC 100666 (Sub-No. 342), filed February 28, 1977. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Sherveport, La. 71107. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Bldg., 3535 N.W. 58th Street, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products;* (2) *plastic sheets, dispensers and accessories*, and *premiums and advertising materials* when shipped in combination with (1) above; and (3) *equipment, materials and supplies* used in the manufacture and distribution of the commodities described in (1) and (2) above (except commodities in bulk, commodities requiring tank or hopper type vehicles, and commodities which because of size and weight require special equipment), between the plantsite, storage facilities and shipping facilities of Fort Howard Paper Company located at or near Muskogee, Okla., on the one hand, and, on the other, points in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia, restricted to traffic originating at or destined to the plantsite, storage and shipping facilities of Fort Howard Paper Company located at or near Muskogee, Okla.

NOTE.—If a hearing is deemed necessary, the applicant, requests it be held at Washington, D.C.

No. MC 103066 (Sub-No. 55), filed March 4, 1977. Applicant: STONE TRUCKING COMPANY, a corporation, P.O. Box 2014, Tulsa, Okla. 74101. Applicant's representative: Eugene D. Anderson, 910 17th St., N.W., Suite 428, Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ingredients* used in making ice cream and ice cream products, from Dunkirk, N.Y., to points in Arkansas, Colorado, Iowa, Kansas, Missouri, Oklahoma, Tennessee and Texas.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at either Washington, D.C. or Columbus, Ohio.

No. MC 106497 (Sub-No. 139), filed March 1, 1977. Applicant: PARKHILL TRUCK COMPANY, a corporation, P.O. Box 912, Joplin, Mo. 64801. Applicant's representative: A. N. Jacobs, P.O. Box 113, Joplin, Mo. 64801. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Insulated wall board and roof insulation*, from San Antonio, Tex., to points in the United States, including Alaska, but excluding Hawaii.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests that it be held at either Dallas or San Antonio, Tex.

No. MC 106497 (Sub-No. 140), filed February 25, 1977. Applicant: PARKHILL TRUCK COMPANY, a corporation, P.O. Box 912, Joplin, Mo. 64801. Applicant's representative: A. N. Jacobs, P.O. Box 113, Joplin, Mo. 64801. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic building materials, tile, flooring and molding*, from Franklin County, Mo., to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either St. Louis or Kansas City, Mo.

No. MC 107107 (Sub-No. 455), filed February 28, 1977. Applicant: ALTERMAN TRANSPORT LINES, INC., 12805 N.W. 42nd Avenue, Opa Locka, Fla. 33054. Applicant's representative: Ford W. Sewell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except frozen foods and commodities in bulk), from points in Florida, to points in Mecklenburg County, N.C.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Orlando, Fla.

No. MC 107452 (Sub-No. 9), filed February 22, 1977. Applicant: R. D. BROWN, doing business as DAN BROWN TRUCKING, Greybull Heights, Greybull, Wyo. 82426. Applicant's representative: James B. Hovland, 414 Gate City Building, P.O. Box 1637, Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bentonite clay*, in bulk, in pneumatic tank vehicles, from points in Big Horn County, Wyo., to points in Arizona, California, Colorado, Idaho, Nevada, New Mexico, Oklahoma, Oregon, Texas, Utah, and Washington.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Billings, Mont. or Denver, Colo.

No. MC 107515 (Sub-No. 1060), filed February 28, 1977. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 30050. Applicant's representative: Alan E. Serby, 3379 Peachtree Road, N.E., Suite 375, Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from the warehouse facilities of Packers Cold Storage, located at Laramie, Wyo., to points in Alabama, Florida, Georgia, Illinois, Indiana, Kentucky, North Carolina, Ohio, South Carolina, Tennessee and Wisconsin.

NOTE.—Applicant holds contract carrier authority in various subs under MC 126436, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Los Angeles, Calif.; Laramie, Wyo.; or Denver, Colo.

No. MC 107515 (Sub-No. 1061), filed February 28, 1977. Applicant: REFRIGERATED TRANSPORT CO., INC., Box 308, Forest Park, Ga. 30050. Applicant's representative: Alan E. Serby, 3379 Peachtree Rd., N.E., Suite 375, Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Tobacco* (except leaf, chopped leaf, redried leaf, stemmed leaf, and stems of tobacco), (2) *leaf, redried leaf, stemmed leaf, and stems of tobacco*, when transported in the same vehicle and at the same time with commodities subject to economic regulation, (3) *tobacco products*, and (4) *articles* used in the production, processing, manufacture, sale and distribution of tobacco and tobacco products, between the facilities of Lorillard Division of Loews Theatres, Inc.,

located at or near Danville, Va.; Lexington and Louisville, Ky.; and Greensboro, N.C., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii) restricted in (1) thru (4) above against the transportation of commodities in bulk, and restricted to the transportation of traffic originating at or destined to the named facilities.

NOTE.—The purpose of this application is to convert applicant's contract carrier authority to a common carrier authority. Applicant holds contract carrier authority in various subs under No. MC 126436, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C., Atlanta, Ga., Greensboro, N.C., or New York, N.Y.

No. MC 109397 (Sub-No. 355), filed March 1, 1977. Applicant: TRI-STATE MOTOR TRANSIT CO., a corporation, P.O. Box 113, Joplin, Mo. 64801. Applicant's representative: A. N. Jacobs (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber, wood products and millwork*, from Red River Parish, La., to points in Illinois, Indiana, Iowa, Kansas, Minnesota, Missouri, Nebraska, Ohio, Oklahoma, Tennessee, and Wisconsin.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Shreveport, La., or Dallas, Tex.

No. MC 109633 (Sub-No. 20), filed March 1, 1977. Applicant: ARBET TRUCK LINES, INC., 222 East 135th Place, Chicago, Ill. 60627. Applicant's representative: Arnold L. Burke, 180 North LaSalle Street, Chicago, Ill. 60601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic articles* (except in bulk), from the plantsite and storage facilities of Mobil Chemical Company, located at or near Frankfort, Ill., to points in Indiana, Kentucky, Michigan, Ohio, and Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 110525 (Sub-No. 1183), filed February 23, 1977. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Ink oils*, in bulk, in tank vehicles, from Honesdale, Pa., to Thurmont and Snow Hill, Md., and Rutland, Vt.; and (2) *emulsion*, including *carbon ink, water soluble*, in bulk, in tank vehicles, from Honesdale, Pa., to Rumford, Maine.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 110683 (Sub-No. 118), filed February 23, 1977. Applicant: SMITH'S TRANSFER CORPORATION, P.O. Box 1000, Staunton, Va. 24401. Applicant's representative: Thomas N. Willess, 1000 Sixteenth Street, NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite of K-Tel International as an off-route point in connection with applicant's authority to serve the commercial zones of Minneapolis and St. Paul, Minn.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C., or Minneapolis, Minn.

No. MC 113047 (Sub-No. 10), filed February 24, 1977. Applicant: BUANNO TRANSPORTATION CO., INC., R.D. No. 1, Fort Johnson, N.Y. 12070. Applicant's representative: S. Michael Richards, 44 North Ave., P.O. Box 225, Webster, N.Y. 14580. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), between points in Massachusetts, on the one hand, and, on the other, points in Amsterdam, Broadalbin, Gloversville and Johnstown, N.Y.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Albany or Syracuse, N.Y.

No. MC 113271 (Sub-No. 38), filed March 1, 1977. Applicant: CHEMICAL TRANSPORT, a corporation, P.O. Box 2644, Great Falls, Mont. 59403. Applicant's representative: Ray F. Koby, 314 Montana Building, Great Falls, Mont. 59401. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Acid*, in bulk, from East Helena, Mont., to points in Colorado, Idaho, Minnesota, North Dakota, Oregon, Utah, Washington, and Wyoming.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Helena or Great Falls, Mont.

No. MC 113545 (Sub-No. 18), filed February 24, 1977. Applicant: CORMETT FORWARDING CO., INC., P.O. Box 38, Jersey City, N.J. 07303. Applicant's representative: Morton E Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Radiopharmaceuticals, radioactive drugs and medical isotopes*, from South Plainfield, N.J., to points in Cecil, Harford, Anne Arundel, Baltimore, and Baltimore City Counties, Md., under contract with Medi-Physics, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New York N.Y.

No. MC 113678 (Sub-No. 657), filed February 23, 1977. Applicant: CURTIS, INC., 4810 Pontiac Street, Commerce City, Colo. 80022. Applicant's representative: Richard A. Peterson, P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glassware*, from Shreveport, La., to Denver, Colo. and points in its Commercial Zone as defined by the Commission.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 114045 (Sub-No. 460), filed February 24, 1977. Applicant: TRANSCOLD EXPRESS, INC., Post Office Box 61228, D/FW Airport, Tex. 75261. Applicant's representative: J. B. Stuart (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Candy and confectionery products*, (except in bulk) in vehicles equipped with mechanical refrigeration, from Ashton, R.I., and Mansfield, Mass., to Arizona, California, Nevada, New Mexico, Oregon, Utah, Washington, Texas, and Oklahoma.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either New York, N.Y., or Washington, D.C.

No. MC 114533 (Sub-No. 354), filed February 24, 1977. Applicant: BANKERS DISPATCH CORPORATION, 1106 West 35th St., Chicago, Ill. 60609. Applicant's representative: Paul R. Bergant (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Audit and accounting media and other business records*, between Elkhart, Ind., on the one hand, and, on the other, Indianapolis and Fort Wayne, Ind., restricted to traffic having an immediately prior or subsequent movement in interstate commerce.

NOTE.—Applicant holds contract carrier authority in No. MC 128616 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests that it be held at Indianapolis, Ind.

No. MC 114730 (Sub-No. 6), filed February 28, 1977. Applicant: V. VAN DYKE, doing business as VAN DYKE TRUCK LINES, 150 South River Street, Seattle, Wash. 98108. Applicant's representative: John Ranquet, 1344 Dexter Horton Bldg., Seattle, Wash. 98104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Traveling cranes and parts thereof*, from the plantsite of Ederer, Inc., located at Seattle, Wash., to points in the United States (excluding Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Seattle, Wash.

No. MC 114868 (Sub-No. 6), filed February 18, 1977. Applicant: HARRY EARL NEWLON, Jr., doing business as NEWLON'S TRANSFER, 1511 North Nelson

V 42 72 APR 14 77 UMI

Street, Arlington, Va. 22201. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Avenue, NW., Suite 1200, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Empty household goods shipping containers*, set up or knocked down, between points in that part of the United States on and east of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary of Itasca County, Minn., thence northward along the western boundaries of Itasca and Koochiching Counties, Minn., to the International Boundary line between the United States and Canada, and points in Arkansas, Iowa, Louisiana, Missouri, Oklahoma, and Texas.

NOTE.—If a hearing is deemed necessary, applicant requests a consolidated hearing with similar applications to be held at Arlington, Va.

No. MC 115311 (Sub-No. 211), filed February 15, 1977. Applicant: J & M TRANSPORTATION CO., INC., P.O. Box 488, Milledgeville, Ga. 31061. Applicant's representative: Paul M. Daniell, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) (1) *Air conditioners, air coolers, air conditioning equipment, heaters, furnaces and heating equipment*; and (2) *related parts, accessories, materials, and supplies* for the commodities named in (1) above, from the plantsite and warehouse facilities of Rheem Manufacturing Company located in Baldwin County, Ga., to points in the United States (except Alaska and Hawaii); and (B) *materials, parts and supplies* used in the manufacture, production and distribution of commodities named in (A) above, from points in the United States (except Alaska and Hawaii), to the plantsite and warehouse facilities of Rheem Manufacturing Company located in Baldwin County, Ga. and Fort Smith, Ark., restricted in parts (A) and (B) above against the transportation of commodities in bulk and those which because of size or weight require the use of special equipment.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Atlanta, Ga. or Little Rock, Ark.

No. MC 115495 (Sub-No. 33) (Correction), filed January 27, 1977, published in the FEDERAL REGISTER issue of March 17, 1977, and republished as corrected this issue. Applicant: UNITED PARCEL SERVICE, INC., an Ohio corporation, 300 North 2nd Street, St. Charles, Ill. 60174. Applicant's representative: S. Harrison Kahn, 733 Investment Building, 1511 K Street, NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and commodities requiring special equipment), (1) between the premises of the Catalog Distribution facilities of J. C. Penny Company, Inc., located in Wauwatosa, Wis.; Forest Park, Ga.; and Columbus, Ohio, on the one hand, and, on the other, points in Alabama, Arizona, Arkansas, California, Coloroda, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, South Carolina, South Dakota, Tennessee, Texas, Utah, Washington, Wisconsin and Wyoming; and (2) between the premises of the Catalog Distribution facilities of J. C. Penney Company, Inc., located in Wauwatosa, Wis.; Forest Park, Ga.; and Columbus, Ohio, on the one hand, and, on the other, points in Pennsylvania, West Virginia and Virginia within ten-miles of the Pennsylvania-Ohio, the West Virginia-Kentucky, the Virginia-Kentucky, the Virginia-Tennessee, the Virginia-North Carolina State lines, restricted in (1) above against the transportation of any package and article weighing more than 50 pounds or exceeding 108 inches in length and girth combined, and each package or article shall be considered as separate and distinct shipments; and further restricted in (2) above against the transportation of packages and articles weighing in the aggregate more than 100 pounds from one consignor at one location to one consignee at one location on any one day.

NOTE.—The purpose of this republication is to correct applicant's territorial description in (2) above. Applicant holds contract carrier authority in MC 13426 and subs thereunder, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y.

No. MC 115730 (Sub-No. 29), filed February 24, 1977. Applicant: THE MICKOW CORP., 531 S.W. Sixth Street, Des Moines, Iowa 50309. Applicant's representative: Cecil L. Goettsch, 1100 Des Moines Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from Chicago Heights, Ill., to points in Iowa, Missouri, and Nebraska.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill., or Washington, D.C.

No. MC 117303 (Sub-No. 8), filed February 28, 1977. Applicant: HUDSON VALLEY CEMENT LINES, INC., 6 West Market Street, Hyde Park, N.Y. 12538. Applicant's representative: Martin Werner, 2 West 45th Street, New York, N.Y. 10036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, from the Town of Greenport, including Hudson, Columbia County, N.Y., to points in Connecticut, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island and Vermont.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either New York, N.Y. or Albany, N.Y.

No. MC 118831 (Sub-No. 148), filed March 1, 1977. Applicant: CENTRAL TRANSPORT, INCORPORATED, P.O. Box 7007, High Point, N.C 27263. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street, N.W., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, from the plantsite of Carolina Eastman Company, located at or near Eastman, S.C., to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 118831 (Sub-No. 149), filed March 2, 1977. Applicant: CENTRAL TRANSPORT, INCORPORATED, P.O. Box 7007, High Point, N.C. 27263. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street, N.W., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and vegetable oils, and animal and vegetable oil products, and by-products*, in bulk (except such commodities which are chemicals), between Charlotte, N.C., on the one hand, and, on the other, points in the United States in and east of Texas, Oklahoma, Kansas, Nebraska, South Dakota and North Dakota.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 118959 (Sub-No. 145), filed February 28, 1977. Applicant: JERRY LIPPS, INC., 130 South Frederick, Cape Girardeau, Mo. 63701. Applicant's representative: Robert M. Pearce, P.O. Box 1111, Bowling Green, Ky. 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products;* (2) *plastic sheets, dispensers and accessories, and premiums and advertising materials*, when shipped in combination with (1) above; and (3) *equipment, materials and supplies* used in the manufacture and distribution of the commodities described in (1) and (2) above (except commodities in bulk, commodities requiring tank or hopper type vehicles, and commodities which because of their size and weight require special equipment), between the plantsite, storage facilities, and shipping facilities of Fort Howard Paper Company located at or near Muskogee, Okla., on the one hand, and, on the other, points in Alabama, Arkansas, Colorado, Florida, Georgia, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Nebraska, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and Wisconsin, restricted to traffic originating at or destined to the plantsite, storage and shipping facilities of

Fort Howard Paper Company located at or near Muskogee, Okla.

NOTE.—Applicant holds contract carrier in No. MC 125644, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 118989 (Sub-No. 155), filed February 28, 1977. Applicant: CONTAINER TRANSIT, INC., 5223 South 9th Street, Milwaukee, Wis. 53221. Applicant's representative: Albert A. Andrin, 180 North LaSalle Street, Chicago, Ill. 60601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products;* (2) *plastic sheets, dispensers and accessories, and premiums and advertising materials*, when shipped in combination with (1) above; and (3) *equipment, materials and supplies*, used in the manufacture and distribution of the commodities described in (1) and (2) above (except commodities in bulk, commodities requiring tank or hopper type vehicles, and commodities which due to their size and weight require special equipment), between the plantsite, storage facilities, and shipping facilities of Fort Howard Paper Company, located at or near Muskogee, Okla., on the one hand, and, on the other, points in Arkansas, Colorado, Kansas, Louisiana, Missouri, Nebraska, New Mexico, Oklahoma, Texas, and Wisconsin, restricted to traffic originating at or destined to the plantsite, storage facilities, and shipping facilities of Fort Howard Paper Company, located at or near Muskogee, Okla.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 119789 (Sub-No. 330), filed February 28, 1977. Applicant: CARAVAN REFRIGERATED CARGO, INC., P.O. Box 6188, Dallas, Texas 75222. Applicant's representative: Ralph W. Pulley, Jr., 4555 First National Bank Bldg., Dallas, Tex. 75202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Confectionery, chocolate, chocolate-coating, chocolate-syrup, dry cocoa*, with or without sugar, *cocoa compounds, edible flour, soup mix* and *dry beverage preparations*, from Fulton, Syracuse and Oswego, N.Y., to points in California, Missouri, Oregon and Texas, restricted to traffic originating at the plantsite and warehouse facilities of The Nestle Company, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C. or New York, N.Y.

No. MC 119934 (Sub-No. 214), filed March 2, 1977. Applicant: ECOFF TRUCKING, INC., 625 E. Broadway, Fortville, Ind. 46040. Applicant's representative: Robert W. Loser II, 1009 Chamber of Commerce Bldg., Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oils, coconut oils, palm oil, palm kernel oil, cottonseed oil, peanut oil, corn oil, and soybean oil*, between Opelousas, La., on the one hand, and, on the other, points in Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina and Tennessee.

NOTE.—Applicant holds contract carrier authority in No. MC 126161 and Sub-No. 1; therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, the applicant requests that it be held at either Indianapolis, Ind. or New Orleans, La.

No. MC 119988 (Sub-No. 107), filed February 28, 1977. Applicant: GREAT WESTERN TRUCKING CO., INC., Highway 103 East, P.O. Box 1384, Lufkin, Tex. 75901. Applicant's representative: Paul D. Angenend, P.O. Box 2207, Austin, Tex. 78768. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products;* (2) *plastic sheets, dispensers and accessories*, and *premiums and advertising materials* when shipped in combination with (1) above; and (3) *equipment, materials and supplies* used in the manufacture and distribution of the commodities described in (1) and (2) above (except commodities in bulk, commodities requiring tank or hopper type vehicles, and commodities which because of size and weight require special equipment), between the plantsite, storage facilities and shipping facilities of Fort Howard Paper Company located at or near Muskogee, Okla, on the one hand, and, on the other, points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Idaho, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Carolina, Oklahoma, Oregon, South Carolina, Tennessee, Texas, Utah, Virginia, Washington, and Wyoming, restricted to traffic originating at or destined to the plantsite, storage and shipping facilities of Fort Howard Paper Company located at or near Muskogee, Okla.

NOTE.—Applicant holds contract carrier authority in No. MC 140271 and (Sub-No. 2), therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 123157 (Sub-No. 31), filed February 28, 1977. Applicant: CTI, a corporation, P.O. Drawer 397, Rillito, Ariz. 85246. Applicant's representative: A. Michael Bernstein, 1441 E. Thomas Rd., Phoenix, Ariz. 85014. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, in bulk, (1) from points in California, to points in Nevada; and (2) from railheads in Clark County, Nev., to the Southern California Edison Power Plant, located approximately 3 miles south of Davis Dam, Nev.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Los Angeles, Calif., or Phoenix, Ariz.

No. MC 123872 (Sub-No. 67) filed March 2, 1977. Applicant: W & L MOTOR LINES, INC., P.O. Box 2607, Hickory, N.C. 28601. Applicant's representative: Allen E. Bowman (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture and furniture parts*, from points in North Carolina, to points in California.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at either Charlotte, N.C. or Washington, D.C.

No. MC 125433 (Sub-No. 98), filed February 28, 1977. Applicant: F-B TRUCK LINE COMPANY, a corporation, 1945 South Redwood Road, Salt Lake City, Utah 84104. Applicant's representative: Michael J. Norton, P.O. Box 2135, Boston Bldg., Suite 404, Salt Lake City, Utah 84110. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ferrous scrap*, from points in Colorado, Illinois, Iowa, Kansas, Minnesota, Missouri, South Dakota, Wisconsin and Wyoming, to points in Madison County, Nebr.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Salt Lake City, Utah.

No. MC 126118 (Sub-No. 32), filed February 28, 1977. Applicant: CRETE CARRIER CORPORATION, P.O. Box 81228, Lincoln, Nebr., 68501. Applicant's representative: Duane W. Acklie (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products;* (2) *plastic sheets, dispensers and accessories*, and *premiums and advertising materials* when shipped in combination with (1) above; and (3) *equipment, materials and supplies* used in the manufacture and distribution of the commodities described in (1) and (2) above (except commodities in bulk, commodities requiring tank or hopper type vehicles, and those which because of size and weight require the use of special equipment), between the plantsite, storage facilities, and shipping facilities of Fort Howard Paper Company located at or near Muskogee, Okla., on the one hand, and, on the other, points in Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, restricted to traffic originating at or destined to the plantsite, storage and shipping facilities of Fort Howard Paper Company located at or near Muskogee, Okla.

NOTE.—Applicant holds contract carrier authority in No. MC 128375 (Sub-No. 1) and other subs thereunder, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C. or Lincoln, Nebr.

V 42 72 APR 14 77 UMI

No. MC 126118 (Sub-No. 34), filed February 25, 1977. Applicant: CRETE CARRIER CORPORATION, P.O. Box 81228, Lincoln, Nebr. 68501. Applicant's representative: Duane W. Acklie (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Peanuts, beverage preparations and confectionery products*, from Lincoln, Nebr., to points in Arizona, California, Colorado, Florida, Georgia, Illinois, Massachusetts, Minnesota, New Jersey, New York, Ohio, Oregon, Tennessee, Texas, Utah, and West Virginia, restricted to traffic originating at the plantsite of Ovaltine Products.

NOTE.—Applicant holds contract carrier authority in No. MC 128375 (Sub-No. 1) and other subs thereunder, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, the applicant requests it be held at either Lincoln or Omaha, Nebr.

No. MC 134849 (Sub-No. 2), filed February 25, 1977. Applicant: SECURITY MOVING & STORAGE CO., a corporation, 3110 North Stone Avenue, P.O. Box 452, Colorado Springs, Colo. 80901. Applicant's representative: Charles J. Kimball, 350 Capitol Life Center, 1600 Sherman Street, Denver, Colo. 80203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used house-*

V 42 72 APR 14 77 UMI

hold goods, between points in Colorado, restricted to the transportation of traffic having a prior or subsequent movement, in containers, beyond the points authorized and further restricted to the performance of pickup and delivery service in connection with packing, crating and containerization or unpacking, uncrating and decontainerization of such traffic.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Denver, Colo.

No. MC 135913 (Sub-No. 9), filed February 24, 1977. Applicant: BREEN TRUCKING, INC., 8459 Church Road, Grosse Ile, Mich. 48138. Applicant's representative: Theodore Polydoroff, 1250 Connecticut Avenue NW., Suite 600, Washington, D.C. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Phenolic polymers* (except in bulk), (1) from Detroit, Mich., to Tonawanda, N.Y.; and (2) from Tonawanda, N.Y., and Savannah, Ga., to points in and east of Arkansas, Iowa, Minnesota, Missouri, and Texas, under a continuing contract, or contracts, with Polymer Applications, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Detroit, Mich.

No. MC 136273 (Sub-No. 7), filed February 22, 1977. Applicant: CORONADO TRUCKING COMPANY, INC., 307 Old County Road, Edgewater, Fla. 32032. Applicant's representative: William J. Monheim, 15942 Whittier Blvd., P.O. Box 1756, Whittier, Calif. 90609. Authority to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Metals, metal products, and equipment and supplies* used in the manufacture, sale or distribution of the above commodities (except in bulk, in tank vehicles, and those commodities which because of size or weight require the use of special equipment), (a) between Philadelphia, Pa., points in Montgomery County, Pa., and points in New Jersey, on the one hand, and, on the other, Houston, Tex., and points in Illinois, Indiana, Lower Peninsula of Michigan, and Ohio, (b) between Perris, Calif., and points in Los Angeles and Orange Counties, Calif., on the one hand, and, on the other, Houston, Tex., and points in Illinois, Indiana, Michigan, and Ohio, (c) between Houston, Tex., and Union, Ill.; and (d) from Dunkirk, N.Y., Newport News, Va., and Huntington, W. Va., to Houston, Tex., and Union, Ill., under a continuing contract or contracts in (a), (b), (c), and (d) above with Techalloy Company, Inc., Techalloy Illinois, Inc., Techalloy Western, Inc., and Techalloy California, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Philadelphia, Pa. or Washington, D.C.

No. MC 136343 (Sub-No. 103), filed February 23, 1977. Applicant: MILTON TRANSPORTATION, INC., P.O. Box 355, Milton, Pa. 17847. Applicant's representative: George A. Olsen, 69 Tonnelle Ave., Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Egg cartons, egg cases, egg baskets, filler flats, and containers*, from the facilities of Barlett's Egg Dispatch, Inc., located at Lawrence, Mass., to points in Pennsylvania, restricted to the transportation of shipments originating at the above named origin and destined to the above named destinations.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Boston, Mass., or Washington, D.C.

No. MC 136490 (Sub-No. 2, filed February 23, 1977. Applicant: PIKES PEAK MOVING & STORAGE COMPANY, a Corporation, 3201 North El Paso, Colorado Springs, Colo. 80901. Applicant's representative: Charles J. Kimball, 350 Capitol Life Center, 1600 Sherman Street, Denver, Colo. 80203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, between points in Colorado, restricted to the transportation of traffic having a prior or subsequent movement, in containers, beyond the points authorized and further restricted to the performance of pickup and delivery service in connection with packing, crating and containerization or unpacking, uncrating and decontainerization of such traffic.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Denver, Colo.

No. MC 136188 (Sub-No. 3), filed February 25, 1977. Applicant: CAUDILL MOBILE MILL, INC., P.O. Box 85, Butlerville, Ind. 47223. Applicant's representative: Kirkwood Yockey, Suite 300 Union Federal Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Forgings and automotive parts*, from the plantsites of North Vernon Forge, Inc., located in Jennings County, Ind., to points in the lower peninsula of Michigan and Ohio.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Indianapolis, Ind., Cincinnati, Ohio or Louisville, Ky.

No. MC 138242 (Sub-No. 2), filed February 28, 1977. Applicant: WESTERN CARTAGE, INC., P.O. Box 964, Pryor, Okla. 74361. Applicant's representative: Mike Vanderburg, 1300 Mid-Continent Bldg., Tulsa, Okla. 74103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products;* (2) *plastic sheets, dispensers and accessories*, and *premiums and advertising materials* when shipped in combination with (1) above; and (3) *equipment, materials and supplies* used in the manufacture and distribution of the commodities described in (1) and (2) above (except commodities in bulk, commodities requiring tank or hopper type vehicles, and commodities which because of their size and weight require special equipment), between the plantsite, storage facilities, and shipping facilities of Fort Howard Paper Company located at or near Muskogee, Okla., on the one hand, and, on the other, points in Arkansas, Colorado, Kansas, Louisiana, Missouri, Nebraska, New Mexico, Oklahoma, Texas, and Wisconsin, restricted to traffic originating at or destined to the plantsite, storage and shipping facilities of Fort Howard Paper Company located at or near Muskogee, Okla.

NOTE.—Applicant holds contract carrier authority in No. MC 134813, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 138469 (Sub-No. 39), filed February 28, 1977. Applicant: DONCO CARRIERS, INC., 641 North Meridian, Oklahoma City, Okla. 73107. Applicant's representative: E. K. McLinn, P.O. Box 75354, Oklahoma City, Okla. 73107. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products;* (2) *plastic sheets, dispensers and accessories*, and *premiums and advertising materials* when shipped in the same vehicle and at the same time with the commodities named in (1) above; (3) *equipment, materials and supplies* used in the manufacture and distribution of the commodities named in (1) and (2) above (except commodities in bulk, in tank or hopper type vehicles, and those requiring the use of special equipment), between the plantsite, storage facilities and shipping facilities of Fort Howard Paper Company, located at or near Muskogee, Okla., on the one hand, and, on the other, points in Arizona, California, Idaho, Montana, Nevada, Oregan, Utah, Washington and Wyoming, restricted to traffic originating at or destined to the plantsite, storage facilities, and shipping facilities of Fort Howard Paper Company, located at or near Muskogee, Okla.

NOTE.—Applicant holds contract carrier authority in various subs under No. MC 136375, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 138469 (Sub-No. 40), filed March 1, 1977. Applicant: DONCO CARRIERS, INC., 641 North Meridian, P.O. Box 75354, Oklahoma City, Okla. 73107. Applicant's representative: Jack H. Blanshan, 205 West Touhy Avenue, Suite 200, Park Ridge, Ill. 60068. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Curtains, dust collecting electric precipitators*, from the facilities of Evans Products Door Systems, Division of Evans Products Company, located at or near Roseville, Mich., to points in the United States (except Alaska, Hawaii and Michigan), restricted to the transportation of traffic originating at the above-named origin.

NOTE.—The purpose of this application is to convert applicant's contract carrier authority to common carrier authority. Applicant holds contract carrier authority in various subs under No. MC 136375, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Detroit, Mich. or Toledo, Ohio.

No. MC 138578 (Sub-No. 8), filed February 28, 1977. Applicant: L. C. W. TRUCKING, INC., 119 E. Chavez, P.O. Box 718, Edinburg, Tex. 78539. Applicant's representative: M. Ward Bailey, 2412 Continental Life Bldg., Fort Worth, Tex. 76102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Corrugated paper sheets*, from the plantsite of Crown Zellerbach, Gaylord Container Division located at Bogalusa, La., to the plantsite of Crown Zellerbach, Gaylord Container Div. located at Weslaco, Tex., under a continuing contract or contracts with Crown Zellerbach, Gaylord Container Div.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either San Antonio, Tex. or New Orleans, La.

No. MC 138741 (Sub-No. 31), filed February 23, 1977. Applicant: AMERICAN CENTRAL TRANSPORT, INC., 2005 North Broadway, Joliet, Ill. 60435. Applicant's representative: Tom B. Kretsinger, 910 Brookfield Building, 101 W. 11th St., Kansas City, Mo. 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing and building materials*, from points in Pulaski County, Ark., to points in Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Missouri, Oklahoma, Tennessee and Wisconsin.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Kansas City, Mo. or Little Rock, Ark.

No. MC 139495 (Sub-No. 203), filed February 24, 1977. Applicant: NATIONAL CARRIERS, INC., 1501 E. 8th St., P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dubin, 1819 H St., N.W., Suite 1030, Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lawn and patio furniture*, from Nacogdoches, Tex., to points in Arkansas, Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, Oklahoma, and South Dakota.

NOTE.—Applicant holds contract carrier authority in MC 133106 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 139495 (Sub-No. 208), filed February 28, 1977. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1258, Liberal, Kans. 67901. Applicant's representative: Frederick J. Coffman, 521 South 14th Street, P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen ice cream and frozen novelties*, in mechanically refrigerated vehicles, from Millard (Douglas County), Nebr., to Dodge City and Liberal, Kans.

NOTE.—Applicant holds contract carrier authority in MC 133106 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., or Dallas, Tex.

No. MC 139579 (Sub-No. 4), filed February 18, 1977. Applicant: GEORGE H. GOLDING, INC., 5879 Marion Drive, Lockport, N.Y. 14094. Applicant's representative: William J. Hirsch, Suite 1125, 43 Court Street, Buffalo, N.Y. 14202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *Salad dressing and sauce*, (except in bulk) from Wilson, N.Y., to points in Alabama, Indiana, Missouri, and Texas; and (b) *materials, supplies, and equipment* used in the manufacture or distribution of salad dressing and sauce, (except in bulk) from points in Alabama, Indiana, Missouri, and Texas, to Wilson, N.Y., under a continuing contract, or contracts, in (1) (a) above and (b) above, with Pfeiffer's Foods, Inc.; and (2) (a) *Canned goods*, from Gorham, N.Y., to points in Alabama, Connecticut, Florida, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia; and (b) *materials, supplies, and equipment* used in the manufacture or distribution of canned goods, from points in Alabama, Connecticut, Florida, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, to Gorham, N.Y., under a continuing contract, or contracts, in (2) (a) and (b) above, with Lohmann Foods, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y.

No. MC 139923 (Sub-No. 30), filed February 28, 1977. Applicant: MILLER TRUCKING CO., INC., P.O. Drawer "D", Stroud, Okla. 74079. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Bldg., 3535 N.W. 58th Street, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products;* (2) *plastic sheets, dispensers and accessories, and premiums and advertising materials*, when shipped in combination with (1) above; and (3) *equipment, materials and supplies*, used in the manufacture and distribution of the commodities described in (1) and (2) above (except commodities in bulk, commodities requiring tank or hopper type vehicles, and commodities which due to their size and weight require special equipment, between the plantsite, storage facilities, and shipping facilities of Fort Howard Paper Company, located at or near Muskogee, Okla., on the one hand, and, on the other, points in Arizona, California, Idaho, Montana, Nevada, Oregon, Utah, Washington, and Wyoming, restricted to traffic originating at or destined to the plantsite, storage facilities, and shipping facilities of Fort Howard Paper Company, located at or near Muskogee, Okla.

NOTE.—Applicant holds contract carrier authority in MC 139925 Sub 2, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 139973 (Sub-No. 23), filed March 1, 1977. Applicant: J. H. WARE TRUCKING, INC., P.O. Box 398, 909 Brown Street, Fulton, Mo. 65251. Applicant's representative: Larry D. Knox, 900 Hubbell Building, Des Moines, Iowa 50309. Beery, 8 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Auto parts and related advertising material*, between Toledo, Ohio; Pinola, Ind.; and Grand Haven, Mich., on the one hand, and, on the other, points in the United States on and east of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary of Itasca County, Minn., thence northward along the western boundaries of Itasca and Koochiching Counties, Minn., to the International Boundary line between the United States and Canada, under a continuing contract or contracts with Questor Corporation, Inc.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Columbus, Ohio.

No. MC 142943 (Sub-No. 1), filed February 28, 1977. Applicant: McGREGOR TRANSPORTATION, INC., 5271 Rome Beauty Park, Murray, Utah 84107. Applicant's representative: Rick J. Hall, 300 Arrow Press Square, Bldg. No. 2, 165 S.W. Temple, P.O. Box 2465, Salt Lake City, Utah 84110. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Brick and clay tile*, from Boulder, Denver, and Pueblo, Colo.; Brownwood and Malakoff, Tex.; and Sumas, Wash., to points in Utah, under contract with Miller Brick Sales.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah.

No. MC 142948 (Sub-No. 1), filed February 23, 1977. Applicant: THE GRADER LINE, INC., 1022 Sixth Avenue, North, Nashville, Tenn. 37208. Applicant's representative: Edward C. Blank, II, P.O. Box 1004, Middle Tennessee Bank Building, Columbia, Tenn. 38401. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New wood furniture*, from the manufacturing plant of Davis Cabinet Company, located at Nashville, Tenn., to points in Arizona, California, Nevada, New Mexico, Oklahoma, Oregon, Texas, Utah, and Washington.

NOTE.—Applicant holds contract carrier authority in No. MC 138336 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Nashville, Tenn. or Atlanta, Ga.

No. MC 142974, filed February 22, 1977. Applicant: SURE TRANSPORT, INC., 135 State Street, Suite 200, Springfield, Mass. 01103. Applicant's representative: David M. Marshall (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Artificial trees, light sets, decorations and displays*, and *materials and supplies* used in the manufacture, sale and distribution of the above named commodities, (except in bulk, in tank vehicles), between East Douglas, Mass., Spring City, Tenn., Los Angeles, Calif., and Longview, Wash., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), under a continuing contract, or contracts, with Mr. Christmas, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Boston, Mass., of Washington, D.C.

No. MC 142976, filed February 22, 1977. Applicant: JOHN D. PERFETTI, 434 East Pike, P.O. Box 129, Indiana, Pa. 15701. Applicant's representative: Arthur J. Diskin, 806 Frick Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Metal framing products, garage door hardware, and iron and steel articles*, from the plantsite of Dietrich Industries, Inc., located at West Wheatfield Township, Indiana County, Pa., to points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia; and (2) *materials* used in the manufacture of the commodities named in (1) above, from points in New York, Ohio, Maryland, and Kentucky, to the plantsite of Dietrich Industries, Inc., located at West Wheatfield Township, Indiana County, Pa., under a continuing contract, or contracts, with Dietrich Industries, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at either Washington, D.C. or Pittsburgh, Pa.

No. MC 142979, filed February 24, 1977. Applicant: GEORGE J. CROSS & SONS, INC., 59504 CR 33, Middlebury, Ind. 46540. Applicant's representative: Alki E. Scopelitis, 815 Merchants Bank Building, Indianapolis, Ind. 46204. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Animal feeds, animal feed ingredients and animal health care products*, (1) between Nappanee, Ind., on the one hand, and, on the other, points in Illinois, Michigan, and Ohio, under a continuing contract or contracts with Supersweet Feeds, a division of International Multifoods; and (2) between

V 4 2 7 2 APR 14 77 UMI

Shipshewana, Ind., on the one hand, and, on the other points in Illinois, Michigan, and Ohio, under a continuing contract or contracts with Hubbard Milling Company.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Indianapolis, Ind., or Chicago, Ill.

No. MC 142980, filed February 22, 1977. Applicant: PROCESSING TRANSPORTATION, INC., P.O. Box 68, Conley, Ga. 30027. Applicant's representative: Paul M. Daniell, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Inedible foodstuffs*, from points in Alabama, Florida, Indiana, Kentucky, Mississippi, Missouri, North Carolina, South Carolina, Tennessee, and Virginia, to the plantsite of Atlanta Processing B, Inc., located in Clayton County, Ga.; and (2) *animal feed meal*, in bulk, from the plantsite of Atlanta Processing B, Inc., located in Clayton County, Ga., to points in Alabama, Florida, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia, under a continuing contract, or contracts, in (1) and (2) above, with Atlanta Processing B, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Atlanta, Ga.

No. MC 142982, filed February 25, 1977. Applicant: T. G. SWARB, doing business as SWARB TRUCKING CO., 10409 O'Donnell Street, Houston, Tex. 77076. Applicant's representative: Robert E. Hudson, 519 Lomas & Nettleton Bldg., Houston, Tex. 77002. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, in tank vehicles, dangerous explosives, and commodities of unusual value), between points in Harris and Brazoria Counties, Tex. and the Houston, Tex. commercial zones, including the Port of Houston, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Houston, Austin, or Dallas, Tex.

No. MC 142983, filed February 28, 1977. Applicant: NOBLE'S SERVICE, INC., 666 South Nelson Road, Columbus, Ohio 43205. Applicant's representative: Gerald P. Wadkowski, 85 East Gay Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wrecked, disabled, repossessed or replacement motor vehicles*, by use of wrecker equipment only, between points in Franklin County, Ohio, on the one hand, and, on the other, points in Florida, Georgia, Illinois, Indiana, Kentucky, Michigan, New Jersey, New York, Pennsylvania, Tennessee, and West Virginia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Columbus, Ohio.

No. MC 142998, filed March 1, 1977. Applicant: LAUGHLIN LINES, INC., P.O. Box 11888, Reno, Nev. 89510. Applicant's representative: Harley E. Laughlin, (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from the plantsite and storage facilities of Ore-Ida Foods, Inc., located in Malheur County, Oreg.; Ada County, Idaho; and Cassia County, Idaho, to points in the United States, including Alaska (except Hawaii, California, Nevada and Arizona).

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at either Reno or Carson City, Nev.

No. MC 143006, filed February 7, 1977. Applicant: DORWIN TRUCKING CO., INC., 3420, 52nd Street East, Tacoma, Wash. 98443. Applicant's representative: George Kargianis, 2120 Pacific Building, Seattle, Wash. 98104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cranes, fabricated cranes, steel, fabricated rubber, equipment* which because of size or weight require special handling, including *contractor's equipment and supplies*, between points in Washington, on the one hand, and, on the other, points in Arizona, California, Idaho, Montana, Oregon, and Washington.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Seattle or Tacoma, Wash.

No. MC 143011, filed March 1, 1977. Applicant: P & D TRANSPORTATION, INC., Connell Highway, Newport, R.I. 02840. Applicant's representative: Frederick T. O'Sullivan, P.O. Box 2184, 622 Lowell Street, Peabody, Mass. 01960. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Sailboats*, the transportation of which because of size requires the use of lowboy trailers, from points in Newport, R.I., to points in the United States (except Alaska, and Hawaii), under a continuing contract, or contracts, with True North Marine Industries, Inc.

NOTE.—Applicant holds common carrier authority in MC 60251 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Providence, R.I.

No. MC 143013, filed March 2, 1977. Applicant: ROGER CHILTON, doing business as CHILTON TRUCKING COMPANY, 405 11th Street, P.O. Box 841, Beaumont, Tex. 77704. Applicant's representative: John W. Carlisle, 4100 Greenbriar, Suite 215, Houston, Tex. 77098. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Engine and motor parts and equipment and parts thereof*, used on ships and ocean going vessels for the operation, maintenance and safety of such ships and vessels, (1) between Intercontinental Airport, Houston, Tex.; Rio Grande Valley Airport, Brownsville, Tex.; Corpus Christi International Airport, Corpus Christi, Tex.; Jefferson County Airport, Beaumont, Tex.; Scholes Field, Galveston, Tex.; Gulfport-Biloxi Municipal Airport, Gulfport-Biloxi, Miss.; Greenville Municipal Airport, Greenville, Miss.; Ryan Airport, Baton Rouge, La.; Moisant Airport, Metairie, La.; and Lake Charles Municipal Airport, Lake Charles, La.; and the Gulfports of Houston Navigation District, Baytown-LaPorte, Galveston, Corpus Christi, Port Lavaca, Orange, Brownsville, Port Arthur, Beaumont, Freeport, Port Neches, and Texas City, Tex.; Lake Charles, Baton Rouge and New Orleans, La.; Gulfport, Biloxi, Pascagoula and Greenville, Miss.; and (2) between the Gulf Ports named in (1) above; (3) between the following seaports: Houston Navigation District, Barber's Cut, Baytown, LaPorte, Corpus Christi, Galveston, Port Lavaca, Orange, Port Arthur, Brownsville, Beaumont, Freeport, Port Neches and Texas City, Tex.; Lake Charles, Baton Rouge and New Orleans, La.; Gulfport, Biloxi, Pascagoula and Greenville, Miss., on the one hand, and, on the other.

(4) the following seaports: Mobile, Ala.; Pensacola, Panama City, St. Petersburg, Tampa, Ft. Myers, Ft. Lauderdale, Key West, Miami, West Palm Beach, Ft. Pierce, Daytona Beach, St. Augustine, Fla.; Brunswick and Savannah, Ga.; Charleston, S.C.; Wilmington, and New Bern, N.C.; Norfolk, Hampton, Cape Charles, Va.; Wilmington, Delaware; Atlantic City, N.J.; New York, N.Y.; New London, Conn.; New Bedford and Boston, Mass.; Portsmouth, N.H.; and Portland, Maine; (5) between the following airports: Bates Field, Mobile, Ala.; Ferguson Regional Airport, Pensacola, Fla.; Clearwater Airport and Albert Whitted Airport, St. Petersburg, Fla.; Tampa International Airport, Peter O. Knight Airport and Vandenberg Airport, Tampa, Fla.; Page Field, Ft. Myers, Fla.; Executive Airport and Hollywood International Airport, Ft. Lauderdale, Fla.; Key West International Airport, Key West, Fla.; Miami International Airport, Miami, Fla.; Palm Beach International Airport, West Palm Beach, Fla.; Harry W. Nelson Airport, Ft. Pierce, Fla.; Daytona Beach Regional Airport, Daytona Beach, Fla.; St. Augustine Municipal Airport, St. Augustine, Fla.; Golden Isles Municipal Airport and Malcolm McKinnon Airport, Brunswick, Ga.; Savannah Municipal Airport, Savannah, Ga.; Charleston Municipal Airport and Johns Island Airport, Charleston, S.C.; New Hanover County Airport, Wilmington, N.C.; Simmons Nott Airport, New Bern, N.C.; Norfolk International Airport, Norfolk, Va.; Hampton Municipal Airport, Hampton, Va.; Cape Charles Municipal Airport, Cape Charles, Va.; Greater Wilmington Airport, Wilmington, Del.; Atlantic City Airport, Bader Field and NAFEC Airport, Atlantic City, N.J.; John F. Kennedy and La Guardia Airports, New York, N.Y.; Trumbull Airport, New London, Waterford Municipal Airport, New London, Conn.; Theodore Francis Green State Airport, Providence, R.I.; New Bedford Municipal Airport, New Bedford, Mass.; General Edward Lawrence Airport and Tagan International Airport, Boston, Mass.; Portsmouth Municipal Airport, Portsmouth, N.H.; Portland International Jetport, Portland, Maine, on the one hand, and, on the other, the seaports named in paragraphs 3 and 4 above; (6) from freight terminals located at or in the vicinity of the seaports named in paragraphs (1) and (4) above to ships docked at seaports named in paragraphs (1) and (4) above.

(7) from the following seaports: Houston Navigation District, Barber's Cut, Baytown, LaPorte, Corpus Christi, Galveston, Port Neches, Orange, Port Arthur, Brownsville, Beaumont, Freeport, Port Lavaca, and Texas City, Tex.; Lake Charles, Baton Rouge and New Orleans, La.; Gulfport, Biloxi, Pascagoula and Greenville, Miss.; to the following airports: Intercontinental Airport, Houston, Tex.; Gulfport-Biloxi Municipal Airport, Gulfport-Biloxi, Miss.; Ryan Airport, Baton Rouge, La.; Greenville Municipal Airport, Greenville, Miss.; Rio Grande Valley Airport, Brownsville, Tex.; Moisant Airport, Metairie, La.; Corpus Christi International Airport, Corpus Christi, Tex.; Lake Charles Municipal Airport, Lake Charles, La.; Jefferson County Airport, Beaumont, Tex., and Scholes Field, Galveston, Tex., restricted as follows: (a) transportation is restricted to pick-up and delivery service at the airports named above and at port facilities at or near the seaports named; (b) transportation between the seaports named above is restricted to pick-up and delivery services at port facilities at or near the seaports named above; (c) transportation is restricted to shipments having a prior or subsequent movement in interstate or foreign commerce; and (d) transportation is restricted to shipments moving between Mississippi and Louisiana under United States Customs.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Houston, Tex.

No. MC 143085, filed February 28, 1977. Applicant: DANIEL COMPANY OF SPRINGFIELD, a corporation, 419 East Kearney, Springfield, Mo. 65803. Applicant's representative: Turner White, 910 Plaza Towers, Springfield, Mo. 65803. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products;* (2) *plastic sheets, dispensers and accessories*, and *premiums and advertising materials* when shipped in combination with (1) above; and (3) *equipment, materials and supplies* used in the manufacture and distribution of the commodities described in (1) and (2) above (except commodities in bulk, commodities requiring tank or hopper type vehicles, and commodities which because of size and weight require special equipment), between the plantsite, storage facilities and shipping facilities of Fort Howard Paper Company located at or near Muskogee, Okla., on the one hand, and, on the other, points in Arizona, California, Idaho, Montana, Nevada, Oregon, Utah, Washington and Wyoming, restricted to traffic originating at or destined to the plantsite, storage and shipping facilities of Fort Howard Paper Company located at or near Muskogee, Okla.

NOTE.—Applicant holds contract carrier authority in No. MC 139274, therefore dual operations may be involved. If a hearing is deeme dnecessary, the applicant requests it be held at Washington, D.C.

PASSENGER APPLICATIONS

No. MC 13028 (Sub-No. 18), filed March 1, 1977. Applicant: BONANZA BUS LINES, INC., 27 Sabin Street, P.O. Box 1116, Annex Station, Providence, R.I. 02901. Applicant's representative: John R. Sims, Jr., 915 Pennsylvania Bldg., 425 13th Street, NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in special operations, between Providence, R.I., and Atlantic City, N.J.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Providence, R.I.

Zinder, 98 Cutter Mill Road, Great Neck, N.Y. 11021. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage* in special operations, beginning and ending at points in Bucks County, Pa. and extending to Atlantic City, N.J.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests that it be held at Philadelphia, Pa.

No. MC 138141 (Sub-No. 4), filed February 3, 1977. Applicant: LOUIS SANTORA, JR., doing business as AAA UNITED LIMOUSINE SERVICE, P.O. Box 114, Raritan, N.J. 08869. Applicant's representative: L. C. Major, Jr., Suite 400, Overlook Bldg., 6121 Lincolnia, Alexandria, Va. 22312. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: (1) *Passengers and their baggage and express and newspapers*, in the same vehicle with passengers, Between Clinton, N.J. and John F. Kennedy Airport and LaGuardia Airport, located at or near New York, N.Y.: From Clinton N.J., at the junction U.S. Highway 31 and Interstate Highway 78, thence easterly over Interstate Highway 78 to the junction Interstate Highway 287, thence northerly over Interstate Highway 287 to junction U.S. Highway 202 (also U.S. Highway 206), thence southerly over U.S. Highway 202 (also U.S. Highway 206), to junction New Jersey Highway 28, thence over New Jersey Highway 28 to Somerville, N.J., thence northerly over U.S. Highway 202 (also U.S. Highway 206), to junction U.S. Highway 22, thence easterly over U.S. Highway 22 to junction Interstate Highway 287, thence easterly over Interstate Highway 287 to junction New Jersey Turnpike, thence northerly over New Jersey Turnpike to Exit 13 and the junction of Interstate Highway 278, thence easterly over Interstate Highway 278 to the Shore Parkway (Belt System), thence over Shore Parkway (Belt System) to access road leading to John F. Kennedy Airport, thence over access road to John F. Kennedy Airport, thence from John F. Kennedy Airport to exit road, thence over exit road to Van Wych Expressway, thence northerly over Van Wych Expressway to junction with Grand Central Parkway, thence northerly over Grand Central Parkway to LaGuardia Airport, located at or near New York, N.Y., and return over the same route, serving all intermediate points (except those east of the junction of Interstate Highway 287 and U.S. Highway 1, near Edison, N.J.); and

(2) Between Clinton, N.J. and Somerville, N.J.: From Clinton, N.J. at the junction U.S. Highway 31 and Interstate Highway 78, thence over U.S. Highway 31 to junction U.S. Highway 202, thence over U.S. Highway 202 (also portion U.S. Highway 206), to junction New Jersey Highway 28, thence over New Jersey Highway 28 to Somerville, N.J. and return same route, serving all intermediate points, restricted in (1) and (2) above to traffic either originating at or destined to LaGuardia or John F. Kennedy Airports, and further restricted in (1) and (2) above to the use of vehicles with a seating capacity of ten (10) passengers or less, not including the driver.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Somerville, N.J.

FREIGHT FORWARDER APPLICATION

No. FF 493, filed March 1, 1977. Applicant: AMERICAN INTERNATIONAL FREIGHT FORWARDING, INC., P.O. Box 545, Decatur, Ind. 46733. Applicant's representative: Paul E. Gabler (same address as applicant). Authority sought to engage in operation, in interstate or commerce, as a *freight forwarder*, through use of the facilities of common carriers by rail, motor, water, express and air, in the transportation of *Motor vehicles, farm tractors, self-propelled vehicles and trailers*, between points in Hawaii, on the one hand, and, on the other points in the United States including Alaska, and including transportation of import-export traffic.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Honolulu, Hawaii, or Chicago, Ill.

FINANCE APPLICATIONS

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, of rail carriers or motor carriers pursuant to Sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and two copies of protests against the granting of the requested

V 42 72 APR 14 77 UMI

authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rules 240(c) or 240(d) of the Commission's General Rules of Practice (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant, if no representative is named.

No. MC-F-13178. Authority sought for purchase by SALTER'S EXPRESS COMPANY, INCORPORATED, West Street, Simsbury, Connecticut, 06070, of the operating rights of B. W. Brown Truck Company Incorporated, 233 Woodlawn Road, Berlin, Connecticut 06037, and for acquisition by Arthur M. Salter, Dorothy M. Ames, and James Salter all of Simsbury, CT., 06070, of control of such right through the purchase. Applicants' attorneys: Thomas W. Murrett, 342 North Main Street, West Hartford, Connecticut 06117 and John E. Fay, Sr., 630 Oakwood Avenue, West Hartford, Connecticut 06110. Operating rights sought to be transferred: *General commodities*, with exceptions, as a *common carrier* over regular routes between New Britain, Connecticut and Hartford, Connecticut, serving the intermediate points of Newington and Elmwood, Connecticut: From New Britain over Connecticut Highway 71 to junction U.S. Highway 6, thence over U.S. Highway 6 to Hartford, and return over the same route. From New Britain over Connecticut Highway 174 to junction Connecticut Highway 175, thence over Connecticut Highway 175 to junction Connecticut Highway 176, thence over Connecticut Highway 176 to Hartford, and return over the same route. *General commodities*, with exceptions as a *common carrier* over irregular routes between points on the regular routes specified above, on the one hand, and, on the other, points in Connecticut. Vendee is authorized to operate as a common carrier in Vermont, Massachusetts, Connecticut, New Hampshire, New York, New Jersey, and Rhode Island. Application has been filed for temporary authority under section 210a(b).

No. MC-F-13179. Authority sought for control by MAIN EXPRESS & STORAGE CO., INC., dba MAIN EXPRESS CO., 5938 South 13th Street, Milwaukee, WI. 53221, of AAA Cartage, Inc., 5938 South 13th Street, Milwaukee, WI. 53221, and for acquisition by G. Phillip Beitz and Ann Beitz, both of the Milwaukee, WI. 53221 address, of control of AAA Cartage, Inc., through the acquisition by G. Phillip Beitz and Ann Beitz. Applicants' attorney: Rolfe E. Hanson, 121 West Doty Street, Madison, WI. 53703. Operating rights sought to be controlled: *General commodities*, with exceptions as a *common carrier* over irregular routes between General Mitchell Field, Milwaukee, Wis., and O'Hara International Airport, Chicago, Ill., with restrictions. Main Express & Storage Co., Inc., holds no authority from this Commission except temporary authority to operate in interstate commerce in Docket No. MC 54444 Sub-No. 5(TA) extended indefinitely. Main Express & Storage Co., Inc., and AAA Cartage, Inc. are family owned with G. Phillip Beitz the President of Main and Vice-President of AAA. His mother, Ann Beitz, is President of AAA ad Vice-President of Main. G. Phillip Beitz owns 100% stock of AAA and 78% of stock of Main. Ann Beitz owns 12% of stock of Main.

OPERATING RIGHTS APPLICATION(S) DIRECTLY RELATED TO FINANCE PROCEEDINGS

The following operating rights application(s) are filed in connection with pending finance applications under Section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with transfer application under Section 212(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the authorities must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 70151 (Sub-No. 50), filed January 31, 1977. Applicant: UNITED TRUCKING, INC., 3047 Lonyo Road, Detroit, Mich. 48209. Applicant's representative: John P. Tynan, P.O. Box 1409, 167 Fairfield Road, Fairfield, N.J. 07006. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: (I) Regular routes: (A) *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as definied by the Commission, and liquids in bulk, in tank trucks), Between Cincinnati, Ohio and Cleveland, Ohio, serving the intermediate points of Xenia, Ohio, and those between Xenia and Cincinnati: From Cincinnati over U.S. Highway 42 to Cleveland, and return over the same route; (B) *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), (1) Between Indianapolis, Ind., and Louisville, Ky., serving all intermediate points.: From Indianapolis over U.S. Highway 31 to Sellersburg, Ind., thence over U.S. Highway 31E to Louisville, and return over the same route; (2) Between Dayton, Ohio, and Muncie, Ind., serving all intermediate points: From Dayton over Ohio Highway 49 to Greenville, Ohio, thence over Highway 571 (formerly Ohio Highway 71) to the Ohio-Indiana State Line, thence over Indiana Highway 32 to Munice, and return over the same routes; (3) Between Columbus, Ohio and Cambridge, Ohio, serving all intermediate points, over U.S. Highway 40, and return over the same route; (4) Between Delphos, Ohio and Salem, Ohio, serving all intermediate points, and the off-route points of Galion and Shelby, Ohio: From Delphos over U.S. Highway 30 (formerly portion U.S. Highway 30N) to junction U.S. Highway 30N, thence over U.S. Highway 30N to Mansfield, Ohio, thence over Ohio Highway 430 (formerly portion U.S. Highway 30) to junction U.S. Highway 30, thence over U.S. Highway 30 to Canton, Ohio, thence over U.S. Highway 62 to Salem, and return over the same route;

(5) Between Barberton, Ohio, and Findlay, Ohio, serving all intermediate points, and the off-route point of Rittman, Ohio: From Barberton over unnumbered highway (formerly portion U.S. Highway 224) via Wadsworth, Ohio, to junction U.S. Highway 224, thence over U.S. Highway 224 to junction unnumbered highway (formerly portion U.S. Highway 224), thence over unnumbered highway via Leroy and Lodi, Ohio, to junction U.S. Highway 224, thence over U.S. Highway 224 to Findlay, and return over the same route; (6) Between Massillon, Ohio, and Cambridge, Ohio, serving all intermediate points, over U.S. Highway 21, and return over the same route; (7) Between Toledo, Ohio, and Youngstown, Ohio, serving all intermediate points, and the off-route points of Garrettsville and Niles, Ohio: From Toledo over Ohio Highway 51 (formerly Ohio Highway 120) to junction U.S. Highway 20, thence over U.S. Highway 20 to junction unnumbered highway (formerly portion U.S. Highway 20), thence over unnumbered highway via Fremont, Ohio, to junction U.S. Highway 20, thence over U.S. Highway 20 to Cleveland, Ohio, thence over U.S. Highway 422 to Youngstown, and return over the same route; (8) Between Cambridge City, Ind., and Connersville, Ind., serving all intermediate points, over Indiana Highway 1, and return over the same route; (9) Between Cleveland, Ohio, and Canton, Ohio, serving all intermediate points, over Ohio Highway 8, and return over the same route; (10) Between Norwalk, Ohio and Youngstown, Ohio, serving all intermediate points, over Ohio Highway 18, and return over the same route; (11) Between Barberton, Ohio, and Warren, Ohio, serving all intermediate points, over Ohio Highway 5, and return over the same route; (12) Between Mansfield, Ohio, and Lodi, Ohio, serving all intermediate points, over U.S. Highway 42, and return over the same route; (13) Between Cleveland, Ohio, and Medina, Ohio, serving all intermediate points, over U.S. Highway 42, and return over the same route;

(14) Between Bucyrus, Ohio, and junction Ohio Highway 4 and U.S. Highway 20, serving all intermediate points: From Bucyrus over Ohio Highway 4 to

junction U.S. Highway 20, and return over the same route, serving the off-route points in Summit and Cuyahoga Counties, Ohio, those within ten miles of Louisville, Ky., and those within five miles of Youngstown, Ohio, in connection with carrier's regular route operations described above; (15) From Evansville, Ind., to Louisville, Ky., serving no intermediate points: From Evansville over Indiana Highway 62 to New Albany, Ind., thence over U.S. Highway 31W to Louisville, and return over the same route; (16) Between Delaware, Ohio, and Mansfield, Ohio, serving no intermediate points, over U.S. Highway 42, and return over the same route; (17) Between Lodi, Ohio, and Medina, Ohio, serving no intermediate points, over U.S. Highway 42, and return over the same route, serving points within ten miles of Canton, Ohio, as intermediate and off-route points in connection with carrier's regular route operations to and from Canton, Ohio; and (18) Between points in Indiana, as alternate routes for operating convenience only in connection with carrier's regular route operations requested above, serving no intermediate points, as follows: (a) From Dunreith over Indiana Highway 3 to junction Indiana Highway 403, thence over Indiana Highway 403 to junction U.S. Highway 31, and return over the same route; (b) From Pendleton over Indiana Highway 9 to junction U.S. Highway 31, and return over the same route; and (c) From Connersville over Indiana Highway 44 to junction U.S. Highway 52, thence over U.S. Highway 52 to Indianapolis, and return over the same route; (C) *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (a) serving the site of the Ford Motor Company plant, located in Brownhelm Township, Lorain County, Ohio, near the intersection of U.S. Highway 6 and Baumhart Road, as an off-route point in connection with carrier's regular route operations between Toledo and Youngstown, Ohio; and (b) serving the site of the Warrick Works of the Aluminum Company of America plant, located near Newburgh, Warrick County, Ind., as an off-route point in connection with carrier's regular route operations to and from Evansville, Ind.

(D) *general commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) Between Louisville, Ky., and junction U.S. Highways 42 and 40 (at or near Lafayette, Ohio), as an alternate route for operating convenience only in connection with carrier's regular route operations requested above, serving no intermediate points: From Louisville over the Ohio River Bridge, thence over Indiana Highway 62 to junction Indiana Highway 107 (Madison, Ind., Bypass), thence over Indiana Highway 107 to junction U.S. Highway 421, thence over U.S. Highway 421 to Versailles, Ind., thence over U.S. Highway 50 to junction Bypass U.S. Highway 50 (at or near Cleves, Ohio), thence over Bypass U.S. Highway 50 to junction U.S. Highway 42, thence over U.S. Highway 42 to junction U.S. Highway 40 (at or near Lafayette, Ohio), and return over the same routes; and (2) Between Sharonville, Ohio, and junction U.S. Highways 25 and 40 (at or near Vandalia, Ohio), as an alternate route for operating convenience only in connection with carrier's regular route operations requested above, serving no intermediate points, and serving Sharonville for purposes of joinder only: From Sharonville over U.S. Highway 25 to junction U.S. Highway 40, and return over the same route; (E) *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and commodities requiring special equipment), (1) Between points in Ohio, as alternate routes for operating convenience only in connection with carrier's regular route operations requested above, serving no intermediate points, as follows: (a) From Tiffin over Ohio Highway 101 to junction Ohio Highway 113, thence over Ohio Highway 113 to junction U.S. Highway 20, and return over the same route; (b) From Salem over U.S. Highway 62 to Youngstown, and return over the same route.

(c) From Salem over Ohio Highway 45 to Warren, and return over the same route; (d) From Salem over Alternate Ohio Highway 14 (formerly portion Ohio Highway 14) to junction Ohio Highway 14, thence over Ohio Highway 14 to Ravenna, and return over the same route; (e) From Wooster over Ohio Highway 5 to Barberton, and return over the same route; (f) From Wooster over Ohio Highway 3 to Medina, and return over the same route; (g) From Norwalk over U.S. Highway 250 to Wooster, and return over the same route; (h) From Cleveland over Ohio Highway 10 to junction U.S. Highway 20, and return over the same route; (i) From Shelby over Ohio Highway 61 to New Haven, and return over the same route; (j) From Bucyrus over Ohio Highway 98 to junction Ohio Highway 61, and return over the same route; and (k) From Delaware, over U.S. Highway 42 to junction U.S. Highway 40, and return over the same route; (2) Between Sidney, Ohio, and Union City, Ind., as an alternate route for operating convenience only in connection with carrier's regular route operations requested above, serving no intermediate points: From Sidney over Ohio Highway 47 to Union City at the Ohio-Indiana State line, and return over the same route; and (3) Between junction U.S. Highway 31 and Alternate U.S. Highway 31 (north of and near Columbus, Ind.) and junction U.S. Highways 31 and 50 (near and east of Seymour, Ind.), as an alternate route for operating convenience only in connection with carrier's regular route operations between Indianapolis, Ind., and Louisville, Ky., serving no intermediate points: From junction U.S. Highway 31 and Alternate U.S. Highway 31 over U.S. Highway 31 to junction U.S. Highway 50, and return over the same route; (F) *general commodities* (except those of unusual value, livestock, explosives, household goods as defined by the Commission, loose bulk commodities, small arms and ammunition, currency, and bullion), Between Louisville, Ky., and Nashville, Tenn., serving the intermediate points of Kosmosdale, Fort Knox, and Elizabethtown, Ky., restricted to the delivery of northbound traffic only, and serving all other intermediate points without restriction, and the off-route points of Mammouth Cave, Brownsville, Rocky Hill, Smith's Grove, and Morgantown, Ky., and Portland and Old Hickory, Tenn.: From Louisville over U.S. Highway 31W to Nashville, and return over the same route;

(G) *General commodities* (except those of unusual value, livestock, classes A and B explosives, household goods as defined by the Commission, and commodities in bulk), Between Bowling Green, Ky., and Auburn, Ky., serving all intermediate points, and all off-route points within five miles of Auburn, Ky.: From Bowling Green over U.S. Highway 68 to Auburn, and return over the same route; and (H) *general commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) Between Louisville, Ky., and junction U.S. Highways 42 and 40, located at or near Lafayette, Ohio, as an alternate route for operating convenience only in connection with carrier's regular route operations requested above, serving no intermediate points: From Louisville over U.S. Highway 42 to junction U.S. Highway 40, and return over the same route; and (2) Between Louisville, Ky., and Dayton, Ohio, as an alternate route for operating convenience only in connection with carrier's regular route operations requested above, serving no intermediate points and serving junction U.S. Highways 42 and 25 for joinder purposes only: From Louisville over U.S. Highway 42 to junction U.S. Highway 25, thence over U.S. Highway 25 to Dayton, and return over the same route; (II) Alternate routes for operating convenience only: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), (a) Between junction U.S. Highway 40 and Indiana Highway 1, and junction Indiana Highways 1 and 38, in connection with carrier's regular route operations requested above, serving no intermediate points, and serving the termini for the purpose of joinder only: From junction U.S. Highway 40 and Indiana Highway 1 over Indiana Highway 1 to junction Indiana Highway 38, and return over the same route; and (b) Between Tiffin, Ohio, and Bellevue, Ohio, in connection

V 4 2 7 2 APR 14 77 UMI

with carrier's regular route operations requested above, serving no intermediate points: From Tiffin over Ohio Highway 18 to Bellevue, and return over the same route; and

(III) Regular routes: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), Between Louisville, Ky., and junction Interstate Highway 75 and U.S. Highway 60: From Louisville, Ky., over Interstate Highway 64 to junction Kentucky Highway 151, thence over Kentucky Highway 151 to junction U.S. Highway 127, thence over U.S. Highway 127 (via Lawrenceburg) to junction U.S. Highway 62, thence over U.S. Highway 62 to junction U.S. Highway 60, thence over U.S. Highway 60 to junction Interstate Highway 75, at or near Lexington, Ky., and return over the same route, serving no intermediate points, serving the termini for purposes of joinder only and serving the facilities of General Cable Corp. located at or near Lawrenceburg, Ky., as an off-route points in connection with carrier's otherwise authorized regular-route operations.

NOTE.—The purpose of this filing is to remove both restrictions in MC 104004 (Sub-No. 164), which is presently held by Associated Transport, Inc. This is a matter directly related to a Section 5(2) finance proceedings in MC–F–12912, published in the FEDERAL REGISTER Issue of August 12, 1976. Common control may be involved. If a hearing is deemed necessary, applicant requests it be assigned along with MC–F–12912.

No. MC 109538 (Sub-No. 25), filed February 9, 1977. Applicant: CHIPPEWA MOTOR FREIGHT, INC., 2645 Harlem Street, P.O. Box 269, Eau Claire, Wis. 54701. Applicant's representative: Joseph E. Ludden, 309 State Bank Building, La Crosse, Wis. 54601. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (1) Between Black River Falls and La Crosse, Wis.: From Black River Falls, Wis., over Wisconsin Highway 54, to junction Wisconsin Highway 108, thence over Wisconsin Highway 108 to junction U.S. Highway 16, thence over U.S. Highway 16 to La Crosse, Wis.; and (2) Between North Bend and Burr Oak, Wis., over unnumbered highways, serving all intermediate points, and restricted against service between West Salem and La Crosse, Wis., and between intermediate points thereto, and further restricted against service between La Crosse and West Salem, Wis., and intermediate points, on the one hand, and, on the other, points in Black River Falls, Wis. Service is authorized between the terminate points and all intermediate points (except as restricted above).

No. MC 109538 (Sub-No. 25), filed February 9, 1977. Applicant: CHIPPEWA MOTOR FREIGHT, INC., 2645 Harlem Street, P.O. Box 269, Eau Claire, Wis. 54701. Applicant's representative: Joseph E. Ludden, 309 State Bank Building, La Crosse, Wis. 54601. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (1) Between Black River Falls and La Crosse, Wis.: From Black River Falls, Wis., over Wisconsin Highway 54, to junction Wisconsin Highway 108, thence over Wisconsin Highway 108 to junction U.S. Highway 16, thence over U.S. Highway 16 to La Crosse, Wis.; and (2) Between North Bend and Burr Oak, Wis., over unnumbered highways, serving all intermediate points, and restricted against service between West Salem and La Crosse, Wis., and between intermediate points thereto, and further restricted against service between La Crosse and West Salem, Wis., and intermediate points, on the one hand, and, on the other, points in Black River Falls, Wis. Service is authorized between the terminate points and all intermediate points (except as restricted above).

NOTE.—The purpose of this application is to convert applicant's Certificate of Registration to a Certificate of Public Convenience and Necessity. This is a matter directly related to a Section 5(2) finance proceeding in MC–F–13098 published in the FEDERAL REGISTER issue of February 10, 1977. If a hearing is deemed necessary, the applicant requests it be held at either Eau Claire, Wis., or St. Paul, Minn.

ABANDONMENT APPLICATIONS

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act that orders have been entered in the following abandonment applications which are administratively final and which found that subject to conditions the present and future public convenience and necessity permit abandonment.

A Certificate of Abandonment will be issued to the applicant carriers 30 days after this Federal Register publication unless the instructions set forth in the notices are followed.

[Docket No. AB–1; Sub-No. 27]

CHICAGO AND NORTH WESTERN TRANSPORTATION COMPANY ABANDONMENT BETWEEN SOMERS AND CARROLL, IOWA

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on February 22, 1977, a finding, which is administratively final, was made by the Commission, Division 3, acting as an Appellate Division, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Chicago, B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Chicago and North Western Transportation Company of that portion of its line extending from railroad milepost 389.1 near Somers, Iowa, in a southwesterly direction to railroad milepost 420.0 near Carroll, Iowa, a distance of 30.9 miles, all in Calhoun and Carroll Counties, Iowa. A certificate of abandonment will be issued to the Chicago and North Western Transportation Company based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB–6, Sub-No. 23]

BURLINGTON NORTHERN INC.—ABANDONMENT—BETWEEN VAUGHN AND AUGUSTA IN CASCADE, LEWIS AND CLARK COUNTIES, MONTANA

NOTICE OF FINDINGS

Notice is hereby given pursuant to section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on January 24, 1977, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission, in *Chicago, B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Burlington Northern Inc. of that portion of its line between Vaughn and Augusta, in Cascade, Lewis and Clark Counties, Montana, from milepost 0.10 near Vaughn, Montana, to milepost 42.24 near Augusta, a distance of approximately 42.14 miles. A certificate of abandonment will be issued to the Burlington Northern Inc. based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB–6 (Sub-No. 36)]

BURLINGTON NORTHERN INC. ABANDONMENT BETWEEN L&S JUNCTION AND LASALLE IN LASALLE COUNTY, ILLINOIS

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on February 18, 1977, a finding, which is administratively final, was made by the Commission, Commissioner Brown, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in Chicago, *B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Burlington Northern Inc. of its line of railroad, a distance of approximately 14.49 miles between milepost 11.02 at L&S Junction to milepost 25.51 near LaSalle, Illinois, located on the north end of the line located in LaSalle County, Illinois. A certificate of abandonment will be issued to the Burlington Northern Inc. based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB–7 (Sub-No. 26)]

CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD COMPANY—BETWEEN BOVIL AND ELK RIVER, IDAHO

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on February 7, 1977, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Chicago, B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Chicago, Milwaukee, St. Paul and Pacific Railroad Company of that portion of its line between milepost 51.80 at Bovil and milepost 72.46 at Elk River, a distance of about 21.38 miles. A certificate of abandonment will be issued to the Chicago, Milwaukee, St. Paul and Pacific Railroad Company based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

TWIN BRANCH RAILROAD COMPANY—ENTIRE LINE ABANDONMENT

[Docket No. AB–129]

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on February 7, 1977, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in Chicago, B. & Q. R. Co., Abandonment, 257 I.C.C. 700, the present and future public convenience and necessity permit the abandonment by the Twin Branch Railroad Company of its entire line of railroad originating at its western terminus of land formerly occupied by Sollitt Construction Company, Inc., along

V 42 72 APR 14 77 UMI

a northeasterly thence northern route from Penn, Ind., to its connection with the Elkhart and Western Branch of Con-Rail Corporation at Twin Branch Junction, Ind., total length consisting of: single or first main track, 2.008 miles; second and additional main track, 0.697 miles; yard track and sidings, 3.416 miles, total track operated being 6.121 miles, all of which is located in St. Joseph County, Ind. A certificate of abandonment will be issued to the Twin Branch Railroad Company based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail service over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Deviation Rules—Motor Carrier of Property (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of this FEDERAL REGISTER notice.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its request.

MOTOR CARRIERS OF PROPERTY

No. MC 89723 (Deviation No. 39), MISSOURI PACIFIC TRUCK LINES, INC., 210 N. 13th St., St. Louis, Mo. 63103, filed March 29, 1977. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From Hutchinson, Kans., over U.S. Highway 50 to Newton, Kans., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Hutchinson, Kans., over Kansas Highway 96 to Wichita, Kans., thence over U.S. Highway 81 to Newton, Kans., and return over the same route.

No. MC 107605 (Deviation No. 5), ADVANCE UNITED EXPRESSWAYS, INC., 2601 Broadway Rd., Minneapolis, Minn. 55413, filed March 31, 1977. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From Darien, Wis., over Wisconsin Highway 15 to junction U.S. Highway 12, thence over U.S. Highway 12 to Chicago, Ill., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Darien, Wis., over U.S. Highway 14 to Chicago, Ill., and return over the same route.

MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Deviation Rules—Motor Carrier of Passengers (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of this FEDERAL REGISTER notice.

Each applicant states that there will be significant effect on the quality of the human environment resulting from approval of its request.

MOTOR CARRIERS OF PASSENGERS

No. MC 1515 (Deviation No. 724), GREYHOUND LINES, INC., Greyhound Tower, Phoenix, Ariz. 85077, filed March 31, 1977. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over deviation routes as follows: From Pocatello, Idaho over Interstate Highway 15 to Idaho Falls, Idaho with the following access route: (1) From junction Interstate Highway 15 and U.S. Highway 26 over U.S. Highway 26 to Blackfoot, Idaho and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property over a pertinent service route as follows: From Pocatello, Idaho over U.S. Highway 191 to the Idaho-Montana State Line, and return over the same route.

MOTOR CARRIER INTRASTATE APPLICATION(S)

The following application(s) for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to Section 206(a)(6) of the Interstate Commerce Act. These applications are governed by Special Rule 245 of the Commission's General Rules of Practice (49 CFR 1100.245), which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

California Docket No. A57106, filed February 23, 1977. Applicant: CARA TRANSPORTATION CO., INC., 639 Embarcadero, Oakland, Calif. 94606. Applicant's representative: Thomas M. Loughran, 100 Bush Street, San Francisco, Calif. 94104. Certificate of Public Convenience and Necessity sought to operate as a highway common carrier as defined by Section 213 of the Public Utilities Code as follows: Transportation of *Iron and steel articles*, as described in Appendix A hereto, between all points and places on and within 10 miles of the following routes: (a) Interstate Highway 80 between San Francisco and Sacramento, inclusive. (b) U.S. Highway 101 between San Francisco and Salinas, inclusive. (c) State Highway 17 between Oakland and San Jose, inclusive. (d) Interstate Highway 580 between its intersection with State Highway 17 and its intersection with Interstate Highway 205. (e) Interstate Highway 205 between its intersection with Interstate Highway 580 and its intersection with Interstate Highway 5. (f) Interstate Highway 5 between its intersection with Interstate Highway 205 and Sacramento, inclusive. (g) State Highway 99 between its intersection with State Highway 4 and Sacramento, inclusive. (h) State Highway 4 between its intersection with Interstate Highway 80 and its intersection with State Highway 99. (i) State Highway 12 between its intersection with Interstate Highway 80 and its intersection with State Highway 99; and (j) Interstate Highway 680 between its intersection

with Interstate Highway 80 and San Jose, inclusive. In performing the service herein authorized, applicant may make use of any and all streets, roads, highways and bridges necessary or convenient for the performance of said service.

APPENDIX A

IRON AND STEEL ARTICLES

Group I

Annealing boxes, pig iron, annealing box tops and bottoms, salamanders, furnace, annealing pots, scale, mill, bars, muck and puddle, skulls, ladle, cinder, mill, stools, ingot mold, molds, ingot, warmers, mill.

Group II

Axles, railway car, old, rods, coiled, bars, sheet and tin plate, scrap, billets, skelp, blooms, slabs, crop ends, wheels, cars, old, ingots.

Group III

Anchor chain, anchor rods, anchors, angles, arches, floor, balls, band, bars, grate, bases, structural, blanks, stampings, and unfinished shapes, boiler and tank parts, bolts, bonds, brick and wall, boxes, charging, braces, structural, brackets structural, bridge, steel, buckles, balling tie, buckles, turn, bumpers, structural, cable, chain, calks, toe, caps and capitals, structural, catch basins and covers, castings, chain and chain cable, channels, clevises (structural) columns, columns filled with concrete, cribbing, cross arms, culverts, dogs, timber, dowels and dowel pins, fittings, cable, rope and guy wire, fittings, cast iron pipe, flooring, structural, fixtures, fence, flues, boiler, flumes, footwalks, forgings, forms and molds, column, floor and road, concrete construction, forms, structural, furring, Beams, beams accessories, namely: Anchors, anchor plates, bridging, clamps, clips, hangers, screed chairs, belting, chain and link, insulator brackets, break arms and pins, irons, pole, electric light and railway, joints, concrete road, joists, joist accessories, namely: Anchors, anchor plates, bridging, clamps, clips, hangers, screed chairs, landing mats and runways, airfield, lathing and ribbing, lintels, machine bed plates, housings, frames, and weldings, manhole covers and frames, molding, nails, nut locks, nuts, pans, galvanizing, pans, tinning, pebbles, grinding and polishing, piling, pins, bridge, pins, cotter, pipe, cast iron, pipe, plate and sheet, pipe, wrought, pipe, conduit, pipe fittings, pipe hangers, plaster grounds, plate, plate, armor and deck, plate, boiler, gates, fence, girders, grating, ground rods, guard rails, highway, guides, elevator, hangers, joist, harrow spikes and teeth, hoops, ingot mold hot top casing covers and bottoms, ingot mold hot top casings, inserts, structural, pots, slag cast, pots, tinning, props, mine, protectors, pole, ore drying plates, cast iron or steel, rails, other than railway, reinforcement, concrete and plaster, retaining wall spacers, stringers and stringer stiffeners, rings, rings and circles, rivets, road grader and scraper blades, rods, anchor, rods, fence, rods, guy anchor, rods, not coiled, rods, pull, rods, sucker, rolls and pinions, roofings and accessories, rope, wire and strand, screws, separators, structural, sewer inlets, shafts and shafting, shapes, unfinished, sheets, shingles, shoes, horse, mule, and ox, shoes, pile, shoes, structural, siding, snowplow blades, spikes, spikes and teeth, harrow, spreaders, fence, staples, plate, nail and tack, plates, plates, floor, plates, structural, plugs, paper roll, poles, polls, axe, posts, sign, posts, structural, posts, posts drivers, fence, pots, galvanizing, pots, melting, cast, stars, tumbling mills, stays, fence wire, steps, pole, stiffeners, stringer retaining wall, stirrups, joist, straps and strapping, strip, struts, structural, studding, tacks, tees, terneplate, ties, balling and binding, ties, wall, tin plate, tin mill black plate, trusses, tubes, boiler, tubing, tunnel segments, turnouts, tuyeres, washers, weights, counter balance, weights, elevator, weights for folding bed, weights, sash, welding bars, rods and wire, wire, wire cable, wire cloth, wire fence, wire fencing, wire and wood combined, fencing, wire netting, wire rope, wire strand, zees.

Group IV

Railway Car or Locomotive Parts

Axles, bars, arch, bars, grate, beams, brake; bearings, bolsters, boxes, journal, brake shoe parts, buffers, bumpers, caps, bolsters, carlines, single, corner irons, couplers, covers, journal box, drawbars, drawheads, ends, car, floors, car, frames, truck, jaws, brake, knuckles, coupler, links, coupling, locks, coupler, parts, namely: Castings, forgings, and stampings, pins, coupling, plates, car center and spring, pockets, stake car, stabilizing buffers, body and truck bolsters, draft gear and rigging, rods, brake, shafts, brake, shoes, brake, sides, car, sides, truck, sills, car, stakes, car, tires, wheel, underframes, wheels, car, wheels, locomotive, yokes, draft and coupler.

Group V

Railway Track Material

Angle, bars and plates, anitrail creeper fastenings, base plates, braces, rail, bumpers, chairs, railroad, crossings, cross-overs and crossing foundations, cross ties, derailers, drawbridge guides, fastenings, foot guards, frogs, frog filler and filler blocks, guard rail clamps, guards, cattle, guards, tee rail, joints, rail plates, fish, plates, tie, rail anchors, rail anticreepers, and rail stays, rail braces, chairs, guards, joints, and yokes, rails, tie, antichecking irons, reinforcing and splice bars, rods, tie, splices, switches and switch points and stands, switch targets, tie bolts, bolts, nuts, washers, and spikes, wedges, turntables, turn-outs, wedges, tie plate, welder bars. Intrastate, interstate and foreign commerce authority sought. Hearing: Date, time and place not yet fixed. Requests for procedural information should be addressed to the Public Utilities Commission, State of California, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif. 94102 and should not be directed to the Interstate Commerce Act.

California Docket No. A57156, filed March 18, 1977. Applicant: MORGAN-MORAN TRANSPORTATION, INC., 139 Mitchell Avenue, No. 121, South San Francisco, Calif. 94080. Applicant's representative: M. C. Leiden, 1182 Market Street, Suite 207, San Francisco, Calif. 94102. Certificate of Public Convenience and Necessity sought to operate a freight service as a highway common carrier as defined by Section 213 of the Public Utilities Code for the transportation of *General commodities* (except as hereinafter provided), between all points and places in the San Francisco Territory which is described as follows: San Francisco Territory included all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County Boundary Line meets the Pacific Ocean; thence easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with Southern Pacific Company right of way at Arastradero Road; southeasterly along the Southern Pacific Company right of way of Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately 2 miles southwest from Simla to Permanete; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along the Southern Pacific Company right of way to the Campbell-Los Gatos city limits; easterly along said limits and the prolongation thereof to the San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to U.S. Highway 101; northwesterly along U.S. Highway 101 to Tully Road; northeasterly along Tully Road to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue.

Northwesterly along Capitol Avenue to State Highway 17 (Oakland Road); northerly along State Highway 17 to Warm Springs; northerly along the unnumbered highway via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Avenue to Estates Drive; westerly along Estates Drive, Harbord Drive and Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to Berkley-Oakland Boundary line; northerly along said boundary line to the campus boundary of the University of California to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to U.S. Highway 40 (San Pablo Avenue); northerly along U.S. Highway

V 42 72 APR 14 77 UMI

40 to and including the city of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco Waterfront at the foot of Market Street; westerly along said waterfront and shore line to the Pacific Ocean; southerly along the shore line of the Pacific Ocean to point of beginning. Also off route service to all points and places located on Bear Gulch Road between its intersection with State Highway 35 (Skyline Boulevard) and its termination, (except that applicant shall not transport any shipments of.

(1) Used household goods and personal effects not packed in accordance with the crated property requirements set forth in paragraph (d) of Item No. 10–C of Minimum Rate Tariff No. 4–A. (2) Automobiles, trucks and buses, viz: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxis, freight automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined buses and bus chassis. (3) Livestock, viz: bucks, bulls, calves, cattle, cows, dairy cattle, ewes, goats, hogs, horses, kids, lambs, oxen, pigs, sheep, sheep camp outfits, sows, steers, stags or swine. (4) Liquids, compressed gases, commodities in semiplastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semi-trailers, or a combination of such higway vehicles. (5) Commodities when transported in bulk in dump trucks or in hopper-type trucks. (6) Commodities, when transported in motor vehicles equipped for mechanical mixing in transit. (7) Cement. (8) Logs; and (9) Fresh fruit and vegetables. Intrastate, interstate and foreign commerce authority sought. Hearing: Date, time and place not yet fixed. Requests for procedural information should be addressed to the Public Utilities Commission, State of California, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif. 94102 and should not be directed to the Interstate Commerce Commission.

California Docket No. 57167, filed March 24, 1977. Applicant: EVERETT REDFEARN, doing business as REDFEARN TRUCKING COMPANY, P.O. Box 5503, Stockton, Calif. 95205. Applicant's representative: John L. Glovka, 36000 Fremont Blvd. No. 27, Fremont, Calif. 94536. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of *Iron or steel; pipe or tubing, iron or steel; pipe or tubing, iron or steel, wrought;* in straight or mixed loads with a minimum weight of 10,000 pounds, between all points and places on or within twenty (20) miles of the following routes and territory: (1) The San Francisco Territory (as described in Note 1 hereto) and Stockton, Calif. via Interstate Highway 580 to its intersection with Interstate Highway 205 near Bethany, Calif. thence via Interstate Highway 205 to its intersection with Interstate Highway 5 near Lathrop, Calif. thence via Interstate Highway 5 to Stockton, Calif. (2) Between Pittsburg, and Stockton, Calif. via California Highway 4. (3) Between Stockton and Sacramento, Calif. via California Highway 99; and (4) Between Stockton and Modesto, Calif. via California Highway 99. In performing the service herein described, the routes and territory listed above may be joined and combined, and use may be made of any and all streets, roads, highways and bridges necessary or convenient for the performance of said service.

THE SAN FRANCISCO TERRITORY

NOTE.—Includes all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County Line meets the Pacific Ocean; thence easterly along said county line to a point one mile west of State Highway 82; southerly along an imaginary line one mile west of and paralleling State Highway 82 to its intersection with Southern Pacific Company right-of-way at Arastradero Road; southeasterly along the Southern Pacific Company right-of-way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately two miles southwest from simla to Permanente; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to Division Street; easterly along Division Street to the Southern Pacific Company right-of-way; southerly along the Southern Pacific Company right-of-way to the Campbell-Los Gatos City Limits; easterly along said limits and the prolongation thereof to South Bascom Avenue (formerly San Jose-Los Gatos Road); northeasterly along South Bascom Avenue to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to State Highway 82; northwesterly along State Highway 82 to Tully Road; northeasterly along Tully Road and the prolongation thereof to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capital Avenue; northwesterly along Capitol Avenue to State Highway 238 (Oakland Road); northerly along State Highway 238 to Warm Springs; northerly along State Highway 238 (Mission Boulevard) via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard and MacArthur Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard to Warren Boulevard (State Highway 13); Northerly along Warren Boulevard to Broadway Terrace; westerly along Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland Boundary Line; northerly along said boundary line to the campus boundary of the University of California; westerly, northerly and easterly along the campus boundary to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to San Pablo Avenue (State Highway 123); northerly along San Pablo Avenue to and including the City of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco waterfront at the foot of Market Street; westerly along said waterfront and shoreline to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point of beginning. Intrastate, interstate and foreign commerce authority sought. Hearing: Date, time and place not yet fixed. Requests for procedural information should be addressed to the Public Utilities Commission, State of California, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif. 94102 and should not be directed to the Interstate Commerce Commission.

Kansas Docket No. 87, 469 M Route 8435, filed March 31, 1977. Applicant: GOLDEN PLAINS EXPRESS, INC., 3615 South West Street, P.O. Box 17106, Wichita, Kans. 67217. Applicant's representative: W. Boyd Evans, 900 O. W. Garvey Building, Wichita, Kans. 67202. Certificate of Public Convenience and Necessity sought to operate a freight service as a common carrier as follows: Transportation of *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission and commodities in bulk), between points and places in Kansas through regular routes, said authority being in addition to the general commodity regular route authority heretofore authorized. Intrastate, Interstate and foreign commerce authority sought. Hearing: Date, time and place set for May 23rd, 24th and 25th, 1977, commencing at 10 a.m. on May 23, 1977, at the Wheats Lands Motor Inn, 1311 East Fulton, Garden City, Kans. Requests for procedural information should be addressed to the Kansas State Corporation Commission, State Office Building, Topeka, Kans. 66612 and should not be directed to the Interstate Commerce Commission.

By the Commission.

ROBERT L. OSWALD,
Secretary.

3

AGENCY HOLDING THE MEETING: Federal Deposit Insurance Corporation.

TIME AND DATE: 11 a.m., April 19, 1977.

PLACE: Board Room, Sixth Floor, FDIC Building, 550, 17th Street NW., Washington, D.C.

STATUS: Open.

MATTERS TO BE CONSIDERED:

Disposition of minutes of previous meetings.

Request by the Comptroller of the Currency for a report on the competitive factors involved in a proposed purchase and assumption transaction:

The Northampton National Bank of Easton, Easton, Pennsylvania, by the First National Bank of Allentown, Allentown, Pennsylvania.

Recommendations regarding liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 43,023–L—Franklin National Bank, New York, New York.

Recommendations with respect to payment for legal services rendered and expenses incurred in connection with receivership and liquidation activities:

Kaye Scholer, Fierman, Hays & Handler, New York, New York, in connection with the liquidation of The Bank of Bloomfield, Bloomfield, New Jersey.

Dreyer and Traub, New York, New York, in connection with the liquidation of Franklin National Bank, New York, New York.

McLeod, McLeod & Mahon, Columbia, South Carolina, in connection with the liquidation of American Bank & Trust, Orangeburg, South Carolina.

Hansell, Post, Brandon & Dorsey, Atlanta, Georgia, in connection with the liquidation of The Hamilton National Bank of Chattanooga, Chattanooga, Tennessee.

Hansell, Post, Brandon & Dorsey, Atlanta, Georgia, in connection with the liquidation of The Hamilton National Bank of Chattanooga, Chattanooga, Tennessee.

Blanchard, Walker O'Quin & Roberts, Shreveport, Louisiana, in connection with the liquidation of American City Bank & Trust Company, National Association, Milwaukee, Wisconsin.

Carlton, Fields, Ward, Emmanuel, Smith & Cutler, P.A., Tampa, Florida, in connection with the liquidation of American City Bank & Trust Company, National Association, Milwaukee, Wisconsin.

Recommendations with respect to the amendment of Corporation regulations:

Memorandum and resolution proposing the publication for comment of amendments to Part 329 of the Corporation's rules and regulations, entitled "Interest on Deposits," to authorize three-year IRA/Keogh deposits at 7¾%, with no interest rate differential.

Memorandum and resolution proposing the final adoption of amendments to Part 329 of the Corporation's rules and regulations, entitled "Interest on Deposits," which would add Massachusetts banking companies to that group of banks (i.e., mutual savings banks and guaranty savings banks in New Hampshire) which are entitled to pay higher interest rates, with the result that such banking companies will be afforded the same .25 percent rate differential advantage over commercial banks as that afforded mutual savings banks.

Memorandum and resolution proposing the withdrawal from consideration of proposed amendments to Part 329 of the Corporation's rules and regulations, entitled "Interest on Deposits," which would have restricted the payment of negotiated rates of interest on pooled time deposits of $100,000 or more.

Recommendation regarding the payment of dividends with respect to a closed bank in receivership:

Elm Creek State Bank, Elm Creek, Nebraska, that, subject to court approval, a fourth dividend of 5% be paid to preferred creditors.

V 4 2 7 2 APR 14 7 7 UMI

Reports of committees and officers:

Minutes of the actions approved by the Committee on Liquidations, Loans and Purchases of Assets pursuant to authority delegated by the Board of Directors.

Reports of the Director of the Division of Bank Supervision with respect to applications or requests approved by him and the various Regional Directors pursuant to authority delegated by the Board of Directors.

Reports with respect to security transactions authorized by the Chairman.

CONTACT PERSON FOR MORE INFORMATION:

Alan R. Miller, Executive Secretary, 202–389–4446.

[S–156–77 Filed 4–12–77;10:56 am]

4

AGENCY HOLDING THE MEETING: Federal Deposit Insurance Corporation.

TIME AND DATE: 10:45 a.m., April 19, 1977.

PLACE: Room 6023, FDIC Building, 550–17th Street, N.W., Washington, D.C.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

Applications for Federal deposit insurance:

Philippine Bank of California, to be located at 451 Montgomery Street, San Fransciso, California.

First State Bank of Lyman, to be located at 111 West Owen, Lyman, Wyoming.

Applications for consent to establish branches:

Intercontinental Bank of Miami Beach, Miami Beach, Florida, at 9544 Harding Avenue, Surfside, Florida.

Peoples Bank of Hillsborough County, Tamapa, Florida, at the northeast corner of Alexander and Victoria Streets, Plant City, Florida.

Cohutta Banking Company, Chetsworth, Georgia, on U.S. Highway, 411, within Eton, Georgia.

Provident Savings Bank, Jersey City, New Jersey, in the Seaview Square Shopping Center, Routes 66, 18 and 35, Ocean Township, New Jersey.

Dollar Savings Bank of New York, New York, on the south side of Fort Salonga Road, west of Vernon Valley Road (Unincorporated Area), Town of Huntington, New York.

The Dollar Savings Bank, Pittsburgh, Pennsylvania, at 995 Greensburg Pike Road, East Pittsburgh, Pennsylvania.

Request for an extension of time in which to establish a branch:

The Washington Bank, Washington Township (P.O. Turnersville), New Jersey, for an extension of time to July 9, 1977, within which to establish a branch at the northeast corner of Delsea Drive (Route 47) and Downer Road, Washington Township, New Jersey.

Request for an extension of time within which to change the location of a branch:

Suburban Trust Company, Hyattsville, Maryland, for an extension of time to March 24, 1973, within which to change the location of a full-service branch from 12210 Viers Mill Road to 12125 Viers Mill Road, Silver Spring, Maryland.

Application for consent to change the location of the main office:

The Whitehall State Bank, Whitehall, Montana, from 29 West Legion Avenue to 101 East Legion Avenue, both within Whitehall, Montana.

Application for consent to merge and to establish one branch:

Peoples Marine Bank of Green Bay, Green Bay, Wisconsin, an insured state nonmember bank, for consent to merge with New Franken Bank, New Franken, Wisconsin, also an insured State nonmember bank, under the charter and title of Peoples Marine Bank of Green Bay, and for consent to establish the sole office of New Franken Bank as a branch of the resulting bank.

Application for consent to acquire assets and assume liabilities:

Depositors Trust Company, Augusta, Maine, an insured State nonmember bank, for consent to acquire the assets and assume the liabilities of Depositors Corporation, Augusta, Maine, a noninsured institution which is the registered parent bank holding company of Depositors Trust Company.

Application for consent to a purchase and assumption transaction and to retire subordinated debentures:

Old Stone Bank, Providence, Rhode Island, an insured State nonmember bank, for consent to acquire the assets and assume the liabilities of Old Stone Mortgage and Realty Trust, Providence, Rhode Island, a noninsured, nonbanking entity, under the charter and title of Old Stone Bank, and to retire subordinated debentures.

Recommendations regarding liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 42,967–L—First State Bank of Northern California, San Leandro, California.

Case No. 43,005–SR—American Bank & Trust Company, New York, New York.

Case No. 43,008–SR—Sharpstown State Bank, Houston, Texas.

Case No. 43,010–L—Northern Ohio Bank, Cleveland, Ohio.

Case No. 43,011–L—The Hamilton Bank and Trust Company, Atlanta, Georgia.

Case No. 43,022–L—Franklin National Bank, New York, New York.

Recommendations with respect to payment for legal services rendered and expenses incurred in connection with receivership and liquidation activities:

Bronson, Bronson & McKinnon, San Francisco, California, in connection with the receivership of United States National Bank, San Diego, California.

Sidley and Austin, Chicago, Illinois, in connection with the liquidation of State Bank of Clearing, Chicago, Illinois.

J. Randolph Pelzer, North Charleston, South Carolina, in connection with the liquidation of American Bank & Trust, Orangeburg, South Carolina.

Miller, Martin, Ritching, Tipton, Lanihan & Waterhouse, Chattanooga, Tennessee, in connection with the liquidation of The Hamilton National Bank of Chattanooga, Chattanooga, Tennessee.

Fulbright & Jaworski, Houston, Texas, in connection with the receivership of Franklin Bank, Houston, Texas.

Recommendations with respect to the initiation of cease-and-desist proceedings or termination-of-insurance proceedings against certain insured banks:

Names and locations of banks authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(8), (c)(9)(A)(ii), and (c)(10) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(8), (c)(9)(A)(ii), and (c)(10)).

Recommendation regarding the payment of dividends with respect to a closed bank in receivership:

Coronado National Bank, Denver, Colorado, that a first dividend of 60% be paid on all proven, general claims.

AGENCY HOLDING THE MEETING: FEDERAL RESERVE SYSTEM

ADDITION OF PREVIOUSLY ANNOUNCED AGENDA ITEMS

The Board of Governors has previously announced a meeting to be held on April 13, 1977, which will be closed to public observation under exemption(s) of the Government in the Sunshine Act (5 U.S.C. 552b(c)). One of the items announced for inclusion at that meeting was consideration of any agenda items carried forward from a previous meeting. The purpose of this announcement is to inform the public that the following such items, postponed from April 8, 1977, will be considered at this meeting:

1. A major equipment purchase by a Federal Reserve Bank.
2. A major equipment purchase by a Federal Reserve Bank.

The previously announced closed items are:

A possible amendment to the Board's rules of Employee Responsibilities and Conduct with respect to filing statements of employment and financial interests. This matter was originally scheduled for a meeting on April 8, 1977.

The meeting will be held at 10:00 a.m. in the Board's offices at 20th Street and Constitution Avenue, N.W., Washington, D.C. Information may be obtained from Mr. Joseph R. Coyne, Assistant to the Board, at (202) 452–3204.

Board of Governors of the Federal Reserve System, April 11, 1977.

GRIFFITH L. GARWOOD,
Acting Secretary of the Board.

7

AGENCY HOLDING THE MEETING: FEDERAL RESERVE SYSTEM.

On Friday, April 15, 1977, at 10:45 a.m. a meeting of the Board of Governors of the Federal Reserve System will be held at the Board's offices at 20th Street and Constitution Avenue, N.W., Washington, D.C., to consider the following items of official Board business:

1. The Board's building renovation project. This matter was originally scheduled for a meeting on March 23, 1977.
2. A proposed office furniture design for the Renovation Program.
3. Any agenda items carried forward from a previously announced closed meeting.

This meeting will be closed to public observation because the items fall under exemptions contained in the Government in the Sunshine Act (5 U.S.C. 552b(c)). Information with regard to this meeting may be obtained from Mr. Joseph R. Coyne, Assistant to the Board, at (202) 452–3204.

Board of Governors of the Federal Reserve System, April 8, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

8

AGENCY HOLDING THE MEETING: Federal Trade Commission.

TIME AND DATE: 10:00 a.m. and 2:15 p.m., Wednesday, April 20, 1977.

PLACE: Room 432, Federal Trade Commission Building, 6th Street and Pennsylvania Avenue, N.W., Washington, D.C. 20580.

STATUS: Open.

MATTERS TO BE CONSIDERED:

10:00 a.m.:

(1) Consideration of Proposed Amendment to Rule 2.2(d): Referral of Consumer Complaints to Companies That are the Targets of the Complaints.

(2) Consideration of Proposed Rule Under § 101(12) Permitting Deductions for Depreciation for Purposes of Refunds Under Full Written Warranties on Consumer Products.

(3) Report from General Counsel on Congressional Matters.

2:15 p.m.:

(1) Meeting with members and staff of the National Association of Attorneys General, at its request, to allow its members to express their concerns and views regarding the Commission's rulemaking proceedings and investigations. Although particular cases and pending rulemaking proceedings will not be specifically addressed, it is expected that the general question of preemption of state law, raised by final and proposed trade regulation rules, will be discussed.

CONTACT PERSON FOR MORE INFORMATION: Leonard J. McEnnis, Jr., Office of Public Information: (202) 523–3830: Recorded Message: (202) 523–3806.

10

AGENCY HOLDING THE MEETING: INTERSTATE COMMERCE COMMISSION.

APRIL 11, 1977.

The Interstate Commerce Commission will hold an open regular meeting on Tuesday, April 19, 1977, at 9:30 a.m., at the Commission's offices located at the northwest corner of 12th Street and Constitution Avenue, N.W., Washington, D.C. (The room number will be posted in the main foyer on the morning of such meeting.)

Such meeting will be open in its entirety and its agenda will include the following matters:

1. Election of a Vice Chairman;
2. Matters relative to the subject "Testing of Railroad Scales;" and
3. Availability of notation votes for public inspection.

Requests for further information should be directed to the Commission's Public Information Officer whose telephone number is (202) 275–7252.

ROBERT L. OSWALD,
Secretary.

11

AGENCY HOLDING THE MEETING: Nuclear Regulatory Commission.

MEETINGS OF THE NUCLEAR REGULATORY COMMISSION FOR THE WEEK OF APRIL 18

In accordance with the requirements of the Government in the Sunshine Act and the Commission's Rules implementing the Act, this Notice identifies the Commission meetings for the Week of April 18, 1977 and, for each meeting, the subject matter and whether all or part of the meeting is closed. The public is invited to attend the section marked "Public Meetings."

SECTION I—PUBLIC MEETINGS

MONDAY, APRIL 18

1:30 p.m.—Briefing on NRC Inspection Alternatives.

3 p.m.—Briefing on Mid-Year Financial Review.

4:30 p.m.—Affirmation of Commission Action on Appointment of New ACRS Member. (The Affirmation will consist of a vote on a matter previously reviewed individually by the Commissioners and is expected to take no more than five minutes.)

FRIDAY, APRIL 22

1:30 p.m.—Briefing on Reactor Licensing Schedules.

2:30 p.m.—Briefing on American Physical Society Study on Nuclear Fuel Cycles and Waste Management.

SECTION II—CLOSED MEETINGS

MONDAY, APRIL 18

10 a.m.—Discussion of Commission Legislative Program. (Rescheduled from March 21, 1977; see March 14, 1977 Closed Meeting Notice.) (Authority to Close: 5 U.S.C 552b(d) and 5 U.S.C. 552b(c)(9)(B) and §§ 9.105(a) and 9.104(a)(9) of the Commission's Rules.) This matter involves a response to a Congressional request for views.

11 a.m.—Discussion of West Germany (Burgeraktion) Intervention Petition. (On March 18, 1977, the Commission unanimously voted (all members participating) to close meetings on this subject for up to 30 days from and including the initial meeting, which is now set for April 18.) (Authority to Close: 5 U.S.C. 552(d)(1) and 5 U.S.C. 552b (c)(9)(B) and (c)(10) and §§ 9.105(a) and 9.104 (a)(9) and (a)(10) of the Commission's Rules.)

The General Counsel will present legal and policy advice to the Commission, the premature disclosure of which might be harmful to and significantly frustrate the Commission's action in a matter which it is reasonable to anticipate will

V 42 72 APR 14 77 UMI

result in litigation, as well as being harmful to and significantly frustrating to the Commission's action in a pending case; the briefing will also involve discussion of the Commission's participation in a pending civil action and its participation in another civil action which could reasonably be anticipated.

FRIDAY, APRIL 22

10 a.m.—Discussion of Tarapur Consolidation Petition and Export License. (Authority to Close: 5 U.S.C. 552b(d)(1) and 5 U.S.C. 552 (c)(9)(B) and (c)(10) and §§ 9.105(a) and 9.104 (a)(9) and (a)(10) of the Commission's Rules.

The General Counsel will present legal and policy advice to the Commission, the premature disclosure of which might be harmful to and significantly frustrate the Commission's action in a matter which it is reasonable to anticipate will result in litigation, as well as being harmful to and significantly frustrating to the Commission's action in a pending case; the discussion will include the Commission's participation in a pending civil action and its participation in another civil action which could reasonably be anticipated.

11 a.m.—Discussion of Commission Briefs in Vermont Yankee and Aeschliman. (Authority to Close: 5 U.S.C. 552(d)(1) and 5 U.S.C. 552b(c)(10) and §§ 9.105(a) and 9.104(a)(10) of the Commission's Rules.)

The subject of the discussion relates to litigation presently before the Supreme Court.

The meetings will be held in the Commissioners' Conference Room, 1717 H Street N.W., Washington, D.C. For further information, contact Walter Magee, Office of the Secretary, telephone: (202) 634–1410.

For the Commission.

Dated the 11th day of April 1977, at Washington, D.C.

SAMUEL J. CHILK,
Secretary of the Commission.

[S–159–77 Filed 4–12–77;1:24 pm]

12

AGENCY HOLDING THE MEETING: Postal Rate Commission.

TIME AND DATE: Following Open Meeting on Thursday, April 21, 1977.

PLACE: Conference Room, Room 500, 2000 L St. NW., Washington, D.C.

STATUS: Closed Meeting.

MATTERS TO BE CONSIDERED:

1. Docket No. MC76–4 re: Map settlement matter.
2. Docket No. MC76–2 re: Transient mail settlement proposal.
3. Dockets Nos. MC76–1, –4 re: Discussion of memorandum of issues.

CONTACT PERSON FOR MORE INFORMATION:

Ned Callan, Information Officer, Postal Rate Commission, Room 500, 2000 L Street NW., Washington, D.C. 20268, Telephone (202) 254–5614.

[S–146–77 Filed 4–11–77;2:11 pm]

13

AGENCY HOLDING THE MEETING: Postal Rate Commission.

TIME AND DATE: 9 a.m., Thursday, April 21, 1977.

PLACE: Conference Room, Room 500, 2000 L St. NW., Washington, D.C.

STATUS: Open Meeting.

MATTERS TO BE CONSIDERED:

Policy initiatives to be considered as a result of the 4–18–77 report of the Commission on Postal Service.

Pre-hearing conference report in Docket No. MC76–5.

CONTACT PERSON FOR MORE INFORMATION:

Ned Callan, Information Officer, Postal Rate Commission, Room 500, 2000 L Street NW., Washington, D.C. 20268, Telephone (202) 254–5614.

[S–147–77 Filed 4–11–77;2:11 pm]

14

AGENCY HOLDING THE MEETING: Securities and Exchange Commission.

FEDERAL REGISTER CITATION OF PREVIOUS ANNOUNCEMENT: 42 FR 17580–3, April 1, 1977.

PREVIOUSLY ANNOUNCED TIME AND DATES OF MEETINGS: 10 a.m., April 14, 19, 20, 21, 28, 1977.

CHANGES IN THE MEETINGS:

1. April 14—With respect to notice item 7 regarding proposed amendments to annual report Form U5S the Commission will consider a recommendation that it repeal Form 12–K under the Securities Exchange Act of 1934, and make other conforming changes in the rules to implement certain provisions of the Railroad Revitalization and Regulatory Reform Act of 1976. A companion recommendation would propose the publication of a notice of intent to adopt industry disclosure guidelines for railroads, including an inquiry into the disclosure of deferred maintenance and the acceptability of betterment accounting.

2. April 19—Item 7—Exchange request regarding proposed trading practices—Because of the need for additional staff consideration this item has been removed from the agenda.

3. April 19—Item 6—Because of a recent staff decision to solicit certain comments respecting the Lost and Stolen Securities program this item has been removed from the agenda.

4. April 20—Item 5—Proposed rule change of the NYSE relating to "percentage orders". The NYSE filed amendments to its proposal resulting in the need for additional staff consideration of the proposal. This item has been removed from the agenda.

5. April 20—Item 6—Chicago Board Options Exchange Proposal—Because additional staff consideration will be required of an anticipated communication from the CBOE this item has been removed from the agenda.

6. April 20—Item 7—Proposed amendment to Exchange Act Rule 17a–3(a)(9)—Because the comment period has been extended at the request of an industry association this item has been removed from the agenda.

7. April 21—Items 3 and 4, respectively proposed amendments to Rules 15b10–6 and 17a–4 and release on amendments to Rules 15c3–1 and 15c3–3. Because of the need for additional staff consideration of these matters they have been removed from the agenda.

8. April 28—Item 8 and 11 respectively amendments Rule 15c3–1 pertaining to transactions by market makers in listed options and petition for amendment to Rule 15c3–2. Because of the need for additional staff consideration of these matters they have been removed from the agenda.

Commissioners Loomis, Evans, and Pollack voted to approve the above changes.

Dated April 8, 1977.

GEORGE A. FITZSIMMONS,
Secretary.

[S–139–77 Filed 4–11–77;9:20 am]

15

AGENCY HOLDING THE MEETING: Nuclear Regulatory Commission.

In accordance with the requirements of the Government in the Sunshine Act and the Commission's Rules implementing the Act, this Notice identifies an additional meeting scheduled for April 18, 1977, and a postponement.

ADDITIONAL CLOSED MEETING

By unanimous vote on April 12, 1977, the Commission determined pursuant to 5 U.S.C. 552(e)(1) and § 9.107(a) of the Commission's rules that Commission business requires that this agenda item be held on less than one week's notice to the public. The need for the meeting did not arise until April 12, and immediate discussion is required.

On Tuesday, April 12, 1977, the Nuclear Regulatory Commission (all members participating) voted unanimously to hold the following closed meeting:

MONDAY, APRIL 18

11 a.m.—NRC Authorization Bill (Authority to close: 5 U.S.C. 552b(d)(1) and 5 U.S.C. 552b(c)(9)(B) and 10 CFR 9.105(a) and 9.104(a)(9)).

The meeting will include discussion of possible testimony before Congress.

Attendees will include the Commissioners and their staff, P. Strauss the General Counsel, and members of his office, B. Huberman, the Director of the Office of Policy Evaluation and members of his staff, S. Chilk, the Secretary, and members of his staff.

The meeting will be held in the Commissioners' Conference Room, 1717 H Street, NW., Washington, D.C. For further information, contact Walter Magee, Office of the Secretary, 634–1410.

POSTPONEMENT

The meeting to discuss the Burgeraktion petition scheduled for 11 a.m., Monday, April 18, 1977 has been postponed. It has not yet been rescheduled.

Dated at Washington, D.C., this 12th day of April, 1977.

For the Commission.

JOHN C. HOYLE,
Assistant Secretary of the Commission.

PART II

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Insurance Administration

NATIONAL FLOOD INSURANCE PROGRAM

Communities Eligible for Sale of Insurance and Communities with Special Hazard Areas

V42 72 APR 14 77 UMI

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI 2845]

PART 1914—COMMUNITIES ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to list those communities where the sale of flood insurance is authorized under the National Flood Insurance Program.

Flood insurance policies for property located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state.

DATES: The date that appears in the fourth column of the table is the effective date of authorization for the sale of flood insurance.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, (202)–755–5581 or Toll Free Line 800–424–8872, Room 5270, 451 Seventh Street, Southwest, Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Flood Disaster Protection Act of 1973 (Pub. L. 93–234) requires the purchase of flood insurance as a condition of receiving any form of Federal or federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified for at least one year by the Secretary of Housing and Urban Development. The requirement applies to all identified special flood hazard areas without the United States, and no such financial assistance can legally be provided for acquisition or construction except as authorized by section 202(b) of the Act, as amended, unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

The addresses of the National Flood Insurers Association servicing companies, where flood insurance policies can be obtained, are published at § 1912.5 (24 CFR Part 1912).

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.6 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The entry read as follows:

§ 1914.6 List of eligible communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	Community No.
Arkansas	Cross	Hickory Ridge, city of	Feb. 14, 1977, emergency	Mar. 5, 1976	050058

[Docket No. FI 2846]

PART 1914—COMMUNITIES ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to list those communities where the sale of flood insurance is authorized under the National Flood Insurance Program.

Flood insurance policies for property located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state.

DATES: The date that appears in the fourth column of the table is the effective date of authorization for the sale of flood insurance.

FOR FURTHER INFORMATION, CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202–755–5581 or Toll Free Line 800–424–8872, Room 5270, 451 Seventh Street, Southwest, Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Flood Disaster Protection Act of 1973 (Pub. L. 93–234) requires the purchase of flood insurance as a condition of receiving any form of Federal or federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified for at least one year by the Secretary of Housing and Urban Development. The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction except as authorized by section 202 (b) of the Act, as amended, unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

The addresses of the National Flood Insurers Association servicing companies, where flood insurance policies can be obtained, are published at § 1912.5 (24 CFR Part 1912).

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.6 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The entry reads as follows:

§ 1914.6 List of eligible communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	Community No.

[Docket No. FI 2849]

PART 1914—COMMUNITIES ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to list those communities where the sale of flood insurance is authorized under the National Flood Insurance Program.

Flood insurance policies for property located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state.

DATES: The date that appears in the fourth column of the table is the effective date of authorization for the sale of flood insurance.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202–755–5581 or Toll Free Line 800–424–8872, Room 5270, 451 Seventh Street, Southwest, Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Flood Disaster Protection Act of 1973 (Pub. L. 93–234) requires the purchase of flood insurance as a condition of receiving any form of Federal or federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified for at least one year by the Secretary of Housing and Urban Development. The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction except as authorized by section 202(b) of the Act, as amended, unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

The addresses of the National Flood Insurers Association servicing companies, where flood insurance policies can be obtained, are published at § 1912.5 (24 CFR Part 1912).

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.6 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The entry reads as follows:

§ 1914.6 List of eligible communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	Community No.

[Docket No. FI 2847]

PART 1915—IDENTIFICATION AND MAPPING OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: The purpose of this rule is the identification of communities with areas of special flood or mudslide or erosion hazards as authorized by the National Flood Insurance Program. The identification of such areas is to provide guidance so that communities may mitigate hazards and reduce property losses by adopting appropriate flood plain management or other measures to minimize damage caused by floods or other hazards. It will enable communities to guide future construction, where practicable, away from locations which are threatened by flood or other hazards.

DATES: The effective date of identification is the date listed in the sixth column of the table or May 16, 1977, whichever is later.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, (202) 755–5581 or Toll Free Line 800–424–8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in an identified plain area having special flood hazards that is located within any community participating in the National Flood Insurance Program.

One year after the identification of the community as flood prone, the requirement applies to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition and construction in these areas unless the community has entered the program. The prohibition, however, does not apply to loans by federally regulated, insured, supervised or approved lending institutions (1) To finance the acquisition of a residential dwelling occupied as a residence prior to March 1, 1976, or one year following identification of the area within which such dwelling is located as an area containing special flood hazards, whichever is later, or made to extend, renew, or increase the financing or refinancing in connection with such a dwelling, (2) To finance the acquisition of a building or structure completed and occupied by a small business concern, as defined by the Secretary, prior to January 1, 1976, (3) Any loan or loans, which in the aggregate do not exceed $5,000, to finance improvements to or rehabilitation of a building or structure occupied as a residence prior to January 1, 1976, or (4) Any loan or loans, which in the aggregate do not exceed an amount prescribed by the Secretary, to finance nonresidential additions or improvements to be used solely for agricultural purposes on a farm.

This 30 day period does not supersede the statutory requirement that a community, whether or not participating in the program, be given the opportunity for a period of six months to establish that it is not seriously flood prone or that such flood hazards as may have existed have been corrected by floodworks or their flood control methods. The six months period shall be considered to begin May 16, 1977 or the effective date of the Flood Hazard Boundary Map, whichever is later. Similarly, the one year period a community has to enter the program under section 201(d) of the Flood Disaster Protection Act of 1973 shall be considered to begin May 16, 1977 or the effective date of the Flood Hazard Boundary Map, whichever is later.

This identification is made in accordance with Part 1915 of Title 24 of the Code of Federal Regulations as authorized by the National Flood Insurance Program (42 U.S.C. 4001–4128).

Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas (FHBMs in effect).

Issued: March 31, 1977.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[FR Doc.77-10743 Filed 4-13-77;8:45 am]

[Docket No. FI 2844]

PART 1915—IDENTIFICATION AND MAPPING OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: The purpose of this rule is the identification of communities with areas of special flood or mudslide or erosion hazards as authorized by the National Flood Insurance Program. The identification of such areas is to provide guidance so that communities may mitigate hazards and reduce property losses by adopting appropriate flood plain management or other measures to minimize damage caused by floods or other hazards. It will enable communities to guide future construction, where practicable, away from locations which are threatened by flood or other hazards.

DATES: The effective date of identification is the date listed in the sixth column of the table or May 16, 1977 whichever is later.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, (202) 755–5581 or Toll Free Line 800–424–8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or federally related financial assistance for acquisition or construction purposes in an identified plain area having special flood hazards that is located within any community participating in the National Flood Insurance Program.

One year after the identification of the community as flood prone, the requirement applies to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition and construction in these areas unless the community has entered the program. The prohibition, however, does not apply to loans by federally regulated, insured, supervised or approved lending institutions (1) To finance the acquisition of a residential dwelling occupied as a residence prior to March 1, 1976, or one year following identification of the area within which such dwelling is located as an area containing special flood hazards, whichever is later, or made to extend, renew, or increase the financing or refinancing in connection with such a dwelling, (2) To finance the acquisition of a building or structure completed and occupied by a small business concern, as defined by the Secretary, prior to January 1, 1976, (3) Any loan or loans, which in the aggregate do not exceed $5,000, to finance im-

V42 R14 A72 7 7 UMI

provements to or rehabilitation of a building or structure occupied as a residence prior to January 1, 1976, or (4) Any loan or loans, which in the aggregate do not exceed an amount prescribed by the Secretary, to finance nonresidential additions or improvements to be used solely for agricultural purposes on a farm.

This 30 day period does not supersede the statutory requirement that a community, whether or not participating in the program, be given the opportunity for a period of six months to establish that it is not seriously flood prone or that such flood hazards as may have existed have been corrected by floodworks or their flood control methods. The six months period shall be considered to begin May 16, 1977 or the effective date of the Flood Hazard Boundary Map, whichever is later. Similarly, the one year period a community has to enter the program under section 201(d) of the Flood Disaster Protection Act of 1973 shall be considered to begin May 16, 1977 or the effective date of the Flood Hazard Boundary Map, whichever is later.

This identification is made in accordance with Part 1915 of Title 24 of the Code of Federal Regulations as authorized by the National Flood Insurance Program (42 U.S.C. 4001–4128).

Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas (FHBMs in effect).

EMERGENCY DROUGHT ACT OF 1977

1976-77 Drought Loan, Grant and Deferment Provisions

V 42 72 APR 14 77 UMI

Title 43—Public Lands: Interior

CHAPTER I—BUREAU OF RECLAMATION, DEPARTMENT OF THE INTERIOR

PART 423—1976–77 DROUGHT LOANS, GRANTS, AND DEFERMENTS

Rules for Emergency Loans, Grants, and Deferments Under the Emergency Drought Act of 1977

AGENCY: Bureau of Reclamation, Interior.

ACTION: Final rules.

SUMMARY: These rules provide guidelines on the implementation of the Bureau of Reclamation Emergency Drought Act of 1977, approved April 7, 1977, allowing qualified applicants to obtain loans, grants, and deferments to remedy the effects of actual or prospective substantial economic injury resulting from the 1976–77 drought. Areas eligible for assistance may be designated by the President or the Secretary of the Interior. The program includes short-term actions to increase water supplies; makes funds available for loans to repair, replace, or improve affected water supply facilities in such areas; and provides authority to establish a water bank of available water for redistribution.

DATES: These rules are effective on April 14, 1977, and expire on September 30, 1977. Public comments on these rules may be submitted for consideration in future modifications or corrections.

FOR FURTHER INFORMATION CONTACT:

Eugene Hinds, Bureau of Reclamation, Department of the Interior, Washington, D.C. 20240, 202–343–5104.

SUPPLEMENTARY INFORMATION: Legislation to provide temporary authorities to the Secretary of the Interior to facilitate emergency actions to mitigate the impacts of the 1976–77 drought was enacted by the Congress and signed by President Carter on April 7, 1977. The legislation provides the authority to appropriate $100 million to augment, utilize, and conserve water supplies for irrigation farming operations on projects constructed or funded under Reclamation law, Indian irrigation projects constructed by the Secretary, and irrigation projects financed with non-Federal funds. Certain fish and wildlife activities are also covered. The objective is to mitigate losses and damages due to the 1976–77 drought period.

The funds will be used to (a) establish a water bank to assist water users to purchase water from willing sellers, including producers of lower value annual crops, and to redistribute such available water supplies for the maintenance of higher value perennial crops, crops to support foundation dairy and beef cattle herds and other breeding stock; and other uses as appropriate; (b) to augment water supplies in 1977 by permitting water user organizations to undertake construction; develop wells; build pipelines; pump water from dead pool storage, rivers, streams, and drains; and other activities to alleviate the impact of the drought; (c) to conduct studies to identify opportunities to augment, utilize, or conserve water supplies and evaluate potential facilities to mitigate the effect of a recurrence of the current emergency and make recommendations to the President and the Congress. The Secretary's authority under the Emergency Fund Act of June 26, 1948, is broadened to cover actions required because of the 1976–77 drought and to allow projects financed with non-Federal funds to obtain reimbursable loans from the expanded Emergency Fund for drought measures. However, the funds for non-Federal projects are limited to 15 percent of the available funds, and not more than $1 million may be expended for any individual non-Federal contracting entity.

During fiscal year 1977, a State water resource organization may obtain emergency funds up to $1 million in a given State for its drought emergency programs that provide benefits of a widespread and diffuse nature, but the total for this program is limited to 5 percent of the available funds. Expenditures for those State programs are nonreimbursable.

Funds are authorized up to $10 million on a nonreimbursable basis to purchase or to acquire entitlement to water from any available source to mitigate damages to fish and wildlife resources caused by drought.

The Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and Office of Management and Budget (OMB) Circular A–107.

It is hereby determined that publication of this proposed rulemaking is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(c)) is required.

Under authority of Pub. L. 95–18, it is proposed to amend Subtitle B, Chapter I, Title 43 of the Code of Federal Regulations by adding a new Part 423, Subpart A, as set forth below.

Subpart A—Emergency Drought Act Policies, Procedures, and Authorizations

Sec.
423.1 General.
423.2 Objectives.
423.3 Applicant eligibility.
423.4 Definitions.
423.5 Creation of the water bank.
423.6 Water bank operation for acquisition and priority for redistribution of available water.
423.7 Purpose of loans pursuant to the Act.
423.8 Application process for water bank loans.
423.9 Loans (terms and conditions).

DEFERMENT OF EXISTING PAYMENTS

423.10 Deferment of 1977 payments.
423.11 Eligibility.
423.12 Application process for deferment actions.
423.13 Deferment contracts.

PROGRAMS PURSUANT TO EMERGENCY FUND ACT OF 1948

Sec.
423.14 Authority.
423.15 Eligibility.
423.16 Application process for programs pursuant to the Emergency Act of 1948.
423.17 Terms and conditions for reimbursable funds.
423.18 Procedures for State water resources agencies to obtain nonreimbursable funds.
423.19 Fish and wildlife mitigation procedures.
423.20 Studies and reporting requirements.
423.21 Disclaimer.

AUTHORITY: Pub. L. 95–18.

Subpart A—Emergency Drought Act Policies, Procedures, and Authorizations

§ 423.1 General.

This Subpart A of Part 423 prescribes the policies, procedures, and authorizations of the Bureau of Reclamation for making loans and grants to contracting entities, water districts and other entities, and deferring payments owed to the United States under existing repayment contracts pursuant to the Emergency Drought Act of 1977.

§ 423.2 Objectives.

The basic objective of emergency loans and deferment actions is to provide financial assistance to eligible contracting entities and agricultural operators to purchase water; drill wells; install pumps in wells, drains, lakes, and streams; build diversion structures for providing additional water; install water conservation measures such as replacing open ditches with pipes; line canals and laterals; install water measuring devices; implement improved system operations and irrigation practices; acquire and transport water; defer installment payments on construction and/or operation and maintenance costs owed to the United States by existing contracting entities for 1977 because of hardship conditions created by the drought; and all other appropriate actions to alleviate the effects of the drought.

§ 423.3 Applicant eligibility.

Applicants eligible for loans and/or deferments are contracting entities which are located in an area that has been determined by the President and/or the Secretary of the Interior to be an emergency drought impact area. (Loans requested by individuals shall be processed under existing authority of the Department of Agriculture.)

(a) On projects constructed or funded under Reclamation law;

(b) On Indian irrigation projects constructed by the Secretary (rules and regulations pertaining to Indian irrigation projects will be issued separately); and

(c) Irrigation projects financed with non-Federal funds.

§ 423.4 Definitions.

(a) Act—Emergency Drought Act of 1977.

(b) Contracting Entity—(1) an organization that distributes water on projects constructed or funded under Reclamation law, (2) Indian irrigation projects constructed by the Secretary, (3) Non-Federal water using entity organized pursuant to State laws and as determined by the Bureau of Reclamation to be acceptable.

(c) Commissioner—The Commissioner of the Bureau of Reclamation.

(d) Drought—The 1976–77 drought.

(e) Reclamation—Bureau of Reclamation.

(f) Secretary—The Secretary of the Interior.

(g) Solicitor—Field or Regional Solicitor of the Department of the Interior.

(h) Water Bank—The program established by the act to finance purchases, sales, and redistribution of water.

§ 423.5 Creation of the water bank.

Pursuant to the act, the Secretary or his designees will consult with the Department of Agriculture, universities, and other parties as appropriate to determine equitable water values. The Secretary may purchase, sell, and redistribute water which will be needed. The Secretary may authorize the Commissioner to establish water banks in each eligible district. The Secretary shall authorize the Commissioner to determine who shall receive the water, loans, and deferments under these rules.

§ 423.6 Water bank operation for acquisition and priority for redistribution of available water.

(a) Funds available to the Secretary under the act may be used for loans to purchase water or entitlement to water and redistribute such water acquired for the water bank. Prices paid for water by the district or the Secretary can be negotiated; however, such sales and purchases are not to allow undue benefit or profit to the seller. Any purchased water is to be sold at a price to cover actual expenditures involved in acquiring and redistributing the water. The negotiated purchase price of the water may be determined by one or a combination of the following:

(1) Enterprise analysis showing net income adjusted for fixed and variable costs already incurred and associated variable costs or expenses foregone.

(2) A reasonable percentage of average gross crop values (3- to 5-year historic averages from annual Reclamation crop reports or other comparable census data).

(3) A reasonable return on investment plus fixed costs.

(4) Any other reasonable evaluation process or technique for an equitable measurement of the price of water which will not allow undue benefit or profit to the seller.

(b) Priority in allocating water for redistribution will be for use in the following order: (1) Preserving orchards and other perennial crops that have the longest remaining productive life, (2) Irrigating alfalfa or other forage or grain crops to support foundation dairy and beef cattle herds and other breeding stock; and (3) Achieving crop maturity suitable for harvest if determined to be in the best interests of the contracting entity and the United States.

§ 423.7 Purpose of loans pursuant to the Act.

Any contracting entities located in a designated drought area may be eligible to obtain loans for the following:

(a) *Purchase and redistribution of water.* (1) For uses in the order designated in § 423.6(b) above. (2) For any other need determined by the Secretary to alleviate conditions of the drought.

(b) *Facilities.* (1) The Secretary is authorized to make loans to water user organizations or contracting entities for such activities as the drilling of wells; installing pumps in wells, drains, lakes, and streams; building diversion structures for providing additional water; installing water measuring devices; implementing improved system operations and irrigation practices; acquiring and transporting water; and other appropriate actions to alleviate the effects of the drought. However, such facilities must be capable of providing the most effective emergency relief with the least capable investment. Any of the above work programs may be accomplished by the contracting entity or by Reclamation.

§ 423.8 Application process for water bank loans.

(a) To the extent that this program is presently covered by the requirements of OMB Circular No. A–95, the procedure for drought assistance is as follows: Copies of the application will be sent to the State and areawide clearinghouses at the same time they are submitted to the funding agency. The applicant will also notify the clearinghouses that, because of the short time restrictions, any comments will have to be made almost immediately and addressed to the funding agency. If comments or objections from clearinghouses are not received prior to completion of application processing, they will not be considered.

(b) The application for a loan to obtain water or facilities pursuant to § 423.7(a) or § 423.7(b) shall be submitted to the appropriate Regional Director of the Bureau of Reclamation (addresses shown below).

Regions	*Mailing Address*
Pacific Northwest, Regional Director, Bureau of Reclamation, Federal Building 550 West Fort Street, Boise, Idaho.	Federal Building and U.S. Court House, 550 West Fort Street, Box 043, Boise, Idaho 83724.
Mid-Pacific, Regional Director, Bureau of Reclamation, Federal Office Building, 2800 Cottage Way, Sacramento, California.	Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.
Lower Colorado, Regional Director, Bureau of Reclamation, Nevada Highway and Park Street, Boulder City, Nevada.	P.O. Box 427, Boulder City, Nevada 89005.
Upper Colorado, Regional Director, Bureau of Reclamation, 125 South State Street, Salt Lake City, Utah.	P.O. Box 11568, Salt Lake City, Utah 84147.
Southwest, Regional Director, Bureau of Reclamation, Herring Plaza, 317 East Third Street, Amarillo, Texas.	Herring Plaza, Box H–4377, Amarillo, Texas 79101.
Upper Missouri, Regional Director, Bureau of Reclamation, Federal Office Building, 316 North 26th Street, Billings, Montana.	P.O. Box 2553, Billings, Montana 59103.
Lower Missouri, Regional Director, Bureau of Reclamation, Building 20, Denver Federal Center, Denver Colorado.	Denver Federal Center, P.O. Box 25247, Denver, Colorado 80225.

The application shall include appropriate information as follows:

(1) Identification of contracting entity with name, address, telephone number, and title of the appropriate official.

(2) Identification of water conservation plan or plans, quantities of water involved, orchard or other perennial crops and/or crops for foundation livestock uses, purchase and sales price criteria, and other relevant data on water uses and expected results.

(3) Identification of plans to construct or install facilities showing the starting date, the expected completion date, and estimated cost.

(4) Relevant financial data, records, or statements which demonstrate or support the ability to repay the loans and the need for financial assistance.

(5) A statement or resolution setting forth the commitment and the expected time required to repay the loan covered by the application.

(6) Evidence that applicable State water laws and/or other water right entitlements have been complied with.

(c) Applications must be postmarked no later than June 1, 1977, to ensure eligibility under the initial allocation of funds. Applications postmarked after June 1, 1977, will be considered within remaining fund availability.

§ 423.9 Loans (terms and conditions).

(a) *Purchase and redistribution of water.* (1) Federal financial assistance for the purchase of water or entitlement to water pursuant to § 423.7(a) will be handled through interest-free loans with repayment by the contracting entity over a period not to exceed 5 years. The contracting entity will arrange for purchase of available water for high priority agricultural uses with Federal assistance in locating sources of water and allocating supplies as identified in § 423.6(b). As an alternative, Reclamation may purchase available water and allocate and sell it to contracting entities.

(b) *Facilities.* (1) Any facilities obtained or constructed must be installed and operational on or before November 30, 1977.

(2) Federal financial assistance for facilities pursuant to § 423.7(b) will be handled through interest-free loans.

V 4272 APR 14 77 UMI

The loans will be repaid in annual installments without interest within 5 years unless otherwise determined by the Secretary or his designee. Such payments shall begin not later than the first year following the next year of normal water supply, as determined by the Commissioner.

(3) In the event facilities provided pursuant to § 423.7(b) generate benefits which are useable beyond 1977, the repayment period for such items may be established beyond 5 years beginning not later than the first year following the next year of normal water supply, as determined by the Commissioner; however, such repayment period shall be based on the payment capacity of the water users, or the estimated useful life of the facilities whichever produces a shorter repayment period.

(4) Operating costs associated with pumping water from ground water aquifers, dead pool storage, rivers, streams, and other sources, may be capitalized and included in the loan with the contracting entity if such costs would be in excess of the contracting entity's reasonable ability to pay such operation and maintenance costs as they occur.

(c) *Repayment contracts.* (1) Contracts for repayment of any loan will be developed separately and apart from any existing repayment and/or water service contracts between the United States and a given contracting entity. The contract will cover the terms and conditions for repayment specified above and will be approved by the appropriate Regional Director of Reclamation in behalf of the Secretary following review and certification of the contract's legal sufficiency by the Solicitor.

DEFERMENT OF EXISTING PAYMENTS

§ 423.10 Deferment of 1977 payments.

The Secretary or his designee shall have authority to defer payments for construction installments and/or operation and maintenance costs owed to the United States for 1977 by existing contracting entities upon their showing of hardship conditions related to the drought in an area.

§ 423.11 Eligibility.

Eligibility of the contracting entities within the designated drought areas for projects constructed or funded under Reclamation law will be determined on a case-by-case basis. The entity's ability to pay the 1977 payment or payments will be considered based upon a showing of hardship relating to the drought.

§ 423.12 Application process for deferment actions.

(a) The application must be processed as provided by § 423.8(a).

(b) The application for a deferment action pursuant to this section shall include appropriate information as follows:

(1) Identification of the contracting entity with name, address, telephone number, and title of the appropriate official.

(2) Amount of 1977 payment or payments to be deferred.

(3) Justification for the needed deferment because of drought related conditions.

(4) Relevant financial data, records, or statements which demonstrate or support the need for financial assistance.

(5) A statement or resolution setting forth the need for the deferment and the commitment to repay the deferment covered by the application.

(6) Other relevant and supporting data or justification.

§ 423.13 Deferment contracts.

(a) Construction installments and/or operation and maintenance costs owed to the United States for 1977 by existing contracting entities may be deferred upon a showing of hardship conditions relating to the drought. Such deferment action will be documented and a contract will be written using the following standards:

(1) Beneficiaries who receive the relief generally will repay the deferment. Any deferred payment or payments shall be rescheduled for repayment in annual installments, along with existing payments, as soon as practicable, within the water users' payment capacity. The initial payment for the deferred amount shall begin not later than the first year following the next year of normal water supply, as determined by the Commissioner. Such deferred payments may be added to the end of the repayment period if necessary to stay within payment capacity.

(2) Any interest bearing costs that are deferred will be added to the capital obligation and will bear interest at the authorized rate for project repayment during the time the deferred amount is outstanding.

(3) Provisions will be included for the contracting entity to repay the deferred installment earlier than the negotiated time period.

(4) Such contracts meeting the above criteria will be approved by the appropriate Regional Director of Reclamation in behalf of the Secretary following review and certification of the legal sufficiency of each contract by the Solicitor.

(b) The contract form will be simplified to the extent practicable but will properly reference existing contracts, amendments, or supplements. No new terms and conditions will be added except those required to repay the deferred amount and each contract will be negotiated based on the foregoing criteria.

PROGRAMS PURSUANT TO EMERGENCY FUND ACT OF 1948

§ 423.14 Authority.

The Secretary is authorized for this drought period to expend funds allocated by the act and any other appropriations that deal with the drought through the Emergency Fund Act of 1948. The authority granted by the act shall cease on September 30, 1977.

§ 423.15 Eligibility.

Applicants eligible for loans under this section shall be those designated in § 423.3(a), and as determined by the Commissioner to be able to repay the loan: *Provided, however,* That each nonfederally funded project may not borrow more than $1 million and only 15 per centum of the total funds available may be used for non-federally funded projects.

§ 423.16 Application process for programs pursuant to the Emergency Act of 1948.

The application must be processed as provided by § 423.8.

§ 423.17 Terms and conditions for reimbursable funds.

(a) Emergency Fund requests will be reviewed on a first-come-first-served basis and disbursement will be made based on need as determined by the Secretary or his designee. Each reimbursable proposal must meet engineering and repayment capability.

(b) A contracting entity must be suitable to the United States. By appropriate resolution, the contracting entity must agree to enter into a repayment contract covering the costs of emergency work.

(1) Standard Bureau of Reclamation contract terms and conditions will apply. The 160-acre limitation will not be applicable for those projects not previously constructed with Federal funds.

(2) All costs shall be repaid without interest in accordance with § 423.9(b) above.

§ 423.18 Procedures for State water resources agencies to obtain nonreimbursable funds.

(a) Nonreimbursable funds may be expended through State water resources agencies as designated by the Governor for drought emergency programs that provide benefits of a widespread and diffused nature, provided not more than $1 million may be expended on behalf of any one State.

(b) The application must be processed as provided by § 423.8(a), and must be received by June 1, 1977, in order to be considered in the initial allocation of funds. The need for action must be attributable to the drought and the proposal must be a project consisting of physical structures or facilities or other conservation measures to alleviate the effects of the drought.

(c) The application for the nonreimbursable funds pursuant to this section shall include appropriate information as follows:

(1) Identification of the State Water Resource Agency or designee of the Governor with name, address, telephone number, title of the appropriate official.

(2) Identification of the plan or plans for the program, estimated costs, and schedule showing the estimated starting and completion dates for construction or installation of facilities.

(3) Compliance with all applicable State water laws and/or other water right entitlements is required.

(4) Proposed work program and supporting statements must demonstrate that the completed project will provide widespread and diffuse benefits in accordance with the act.

§ 423.19 Fish and wildlife mitigation procedures.

(a) Nonreimbursable funds up to $10 million may be expended by the Secretary to purchase or otherwise acquire available water or entitlement to water to mitigate damage to fish and wildlife resources caused by the drought.

(b) The application must be processed as provided by § 423.8(a), and must be received by June 1, 1977, in order to be considered in the initial allocation of funds. The need for action must be attributable to the drought. Regional Directors of Reclamation shall submit any such applications they receive to the Commissioner with recommendations for consideration and approval.

(c) The application for the nonreimbursable funds pursuant to this section shall include appropriate information as follows:

(1) Identification of the appropriate State or Federal agency representing the fish and wildlife resources, including name, address, telephone number, and title of the contact official.

(2) Identification of the water acquisition plan, level and extent of coordination with State and local officials, the holders of the water rights and their willingness to sell, quantities of water involved, justification of the reasonableness of the purchase price, compliance with applicable State water laws, and other relevant information.

§ 423.20 Studies and reporting requirements.

(a) Reclamation is authorized to perform studies to identify opportunities to augment, utilize, or conserve water supplies available to Federal Reclamation projects constructed by the Secretary. Reclamation will undertake studies of means to mitigate the effects of a recurrence of the current emergency and to make recommendations to the President and to the Congress evaluating potential undertakings including but not limited to drilling wells, installing pumping plants, lining canals, replacing open ditches with pipelines, making alterations to outlet works of existing impoundments, and other actions as appropriate. Study proposals may be submitted to the appropriate Regional Director by local interests at their own expense. Such studies and evaluations will be coordinated for input from other Federal and State agencies as appropriate.

(b) A detailed report on expenditures and accomplishments under the act will be prepared and submitted to the President and the Congress on or before March 1, 1978.

§ 423.21 Disclaimer.

Actions taken or water used pursuant to the legislation do not modify, alter, or otherwise affect existing Federal, Indian, State, local entity, and/or other authorities and rights to use water, nor is there any intent to modify interstate compacts.

Dated: April 12, 1977.

CECIL D. ANDRUS,
Secretary of the Interior.

FEDERAL ELECTION COMMISSION

[Notice 1977-20]

PUBLIC RECORDS

Candidate and Committee Index of Filers

The Federal Election Commission today publishes an index to candidates, committees and individuals who have filed campaign finance reports under the Federal Election Campaign Act Amended. This index includes filers submitting reports between January 1, 1975 and December 31, 1976.

The Federal Election Commission is required by 2 U.S.C. Section 438(a)(6) "to compile and maintain a cumulative index of reports and statements filed with it, which shall be published in the FEDERAL REGISTER at regular intervals and which shall be available for purchase directly or by mail for a reasonable price." This index is published to meet that requirement. Additional copies are available from the Commission for $.25 per copy.

Dated: April 6, 1977.

VERNON W. THOMSON,
Chairman for the Federal Election Commission.

CANDIDATE AND COMMITTEE INDEX OF FILERS
(January 1, 1975 through December 31, 1976)

Purpose of the Index

All campaign finance reports filed under the requirements of the Federal Election Campaign Act, as amended, are on file in the Public Records Office of the Federal Election Commission in Washington, D.C., and the Commission encourages the greatest possible use of these documents.[1] Since reports filed after January 1, 1975 now represent over 9,000 filers and over a million pages of documents, this index has been prepared as a reference to those candidates and committees from whom the FEC has received reports, and a guide to obtaining and using the reports.

Contents of Reports

Campaign finance reports on file with the FEC itemize the financial activity of Federal candidates and political committees, and are filed on a quarterly, monthly, and pre/post election basis. For general reference, each report also includes a summary page for the period covered, listing amounts of total receipts, total expenditures, cash on hand, debts owed, and other breakdowns.

How to Review Reports

All reports filed with the FEC are available for inspection and copying at Commission headquarters:

Public Records
Federal Election Commission
1325 K Street, N.W.
Washington, D.C. 20463

Hours: 9 AM to 5:30 PM
Monday through Friday
Telephone: (202) 523-4181
Toll Free Number: 800-424-9530

The Commission has available reference tables, ample work space, and knowledgeable staff to help locate documents. Since review may involve numerous reports with many pages, the Public Records staff is available to help narrow the scope of the review down to a size that can be handled.

How to Order Reports

Copies of all statements and reports on file with the Federal Election Commission can be ordered for $.10 per page either by writing, visiting, or calling the Public Records Office at the Commission. All or part of a report may be photocopied. Persons requesting reports through the mail should identify the name of the candidate or committee and the period of time covered by the report.

If an order requires more than one half hour of Commission staff time, there will be a charge of $2.50 for each following half hour. Authentication with the Commission Seal may also be obtained for a fee of $2.00 per document. The Public Records Division staff is always available to assist persons in understanding the quantity of pages and cost involved in any order. Full payment in advance is required, and checks should be made payable to the "U.S. Treasurer."

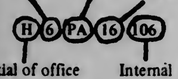
Restrictions

Reports are made available for public inspection and copying ". . . Provided, That any information copied from such reports and statements shall not be sold or utilized by any person for the purpose of soliciting contributions or for any commercial purpose." (2 U.S.C. Section 438(a)(4))

PARA PERSONA DE HABLAR ESPANOL

Si usted tiene dificultades en entender el indice, escriba a Federal Election Commission, 1325 K Street, N.W., Washington, D.C. 20463.

---



1 Reports on campaigns for the U.S. House of Representatives and the U.S. Senate may also be reviewed at the office of the Clerk of the House and the Secretary of the Senate, respectively. In addition, they should also be on file with the candidate's own Secretary of State.
